Note

This volume brings together twenty scholarly reports on the above two volumes, organised in five parts according to subject matter.

TABLE OF CONTENTS

Editor's Note

Part I — Theoretical Foundations

- Chapter 1 — Genome Mapping of Mithila: Pañjī System —
Genealogical Theories (Volume I)
- Chapter 2 — Mithila's Pañjī-Prabandha: Genealogical Theories Study
(Volume II)
- Chapter 3 — The Panji Prabandh: Genomic Mapping, Theoretical
Frameworks, Socio-Historical Trajectories

Part II — Comprehensive Analytical Reports

- Chapter 4 — Analytico-Genetic Report on the Mithila Panji Prabandh
- Chapter 5 — The Socio-Genetic Architecture of Mithila: Exhaustive
Anthropological Analysis
- Chapter 6 — The Mithila Panji Prabandha: Anthropological, Legal,
Socio-Historical Analysis
- Chapter 7 — Panji Prabandh: A Comprehensive Briefing and Study
Guide
- Chapter 8 — Special Studies: Q&A; Women in the Pañjī; Dooshan
Pañjī and the Political Economy of Status

Part III — Prācīn Pañjī: Genome Mapping Volume I

- Chapter 9 — Khaṇḍa 1: Villages, Families, Lineages, and Gotras
(Pages 1–65)
- Chapter 10 — Khaṇḍa 1 Continued (Pages 66–347): Villages,
Lineages, Marriage Colophons
- Chapter 11 — Khaṇḍa 2 (Pages 348–690): Royal Records, Scholarly
Titles, and Modernity
- Chapter 12 — Pañjī Prabandha Vol. I Section 2 (Uṭīp): Mithila's
Living Genome
- Chapter 13 — Genome Mapping Vol. I: Mithilak Pañjee Prabandha

Chapter 14 — Pampilā Pañjī, Khaṇḍa 3 — Nāgarāma: Analytical Report (Volume I)

Chapter 15 — Pampilā-Varga Pañjikā, Khaṇḍa 3 (Nāgramī): Entries 226–358 (Volume I)

Chapter 16 — Pañjī Prabandha, Khaṇḍa 3 (Nāgramā): Blocks 359–466 (Volume I)

Part IV — Genealogical Mapping: Volume II

Chapter 17 — Panji Prabandha: Genealogical Mapping (450 AD–2009 AD), Comprehensive Research Report

Part V — Dooshan Pañjī: The Black Book of Mithila

Chapter 18 — The Dooshan Pañjī: A Comprehensive Scholarly Report

Chapter 19 — Dūṣaṇa Pañjī: A Complete Study from Genealogical Theories

Genome Mapping of Mithila: The Pañjī System — Genealogical Theories Study (Volume I)

GENOME MAPPING OF MITHILA

450 A.D. – 2009 A.D.

The Mithila Pañjī System: A Complete Study from the Perspective of Genealogical Theories

Based on: Intro_1.pdf (Gajendra Thakur, Nagendra Kumar Jha & Vidyanand Jha)

PREFATORY NOTE & ABSTRACT

The Mithila Pañjī system — literally 'Genome Mapping' of Mithila from 450 A.D. to 2009 A.D. — is one of the most remarkable genealogical institutions in the history of human civilisation. Spanning over fifteen hundred years, it constitutes a continuously maintained, professionally administered, and socio-legally binding register of patrilineal and matrilineal descent lines of Maithili Brahmin families, later extended to Karna-Kayastha communities.

This study examines the Pañjī system exhaustively through the lens of modern and classical genealogical theories: descent theory, kinship algebra, exogamy logic, genome mapping analogies, social memory theory, institutional genealogy, and the epistemology of genealogical knowledge. It also places the system comparatively within world genealogical traditions.

Primary Text | Jīnoma Maipim̃ga (450 A.D.–2009 A.D.) — Mitilāka Pañjī Prabandha

Period Covered | 450 A.D. – 2009 A.D. (over 1,550 years of continuous record)

Founder Institution | Mahārāja Harisimhadeva, Kāṇāṭa dynasty, Śaka 1248 / 1326 C.E.

First Pañjikāra | Sudupādhyāya Guṇākara Jhā (of Paṇḍua Mūla)

Register Type | Patrilineal descent (Gotra) + Matrilineal prohibitions (Sapiṇḍa)

Covering Communities | Maithili Brahmin (Śrotriya, Yogya, Pañjībaddha) + Karna Kayastha

Genealogical Scope | 32-ancestor Uṭṭerha; 16-Ṣaṣṭhī kinship computation

Surviving Record Volume | 185 Pañjis; 32 Śrotriya + 153 Yogya/Vaṃśaja

I. THEORETICAL FRAMEWORK: GENEALOGY AS A FIELD

1.1 Definitions and Disciplinary Background

Genealogy, derived from the Greek genealogia (family history), is the study of the lines of descent from an ancestor. As an academic discipline it draws on anthropology, history, law, genetics, demography, and semiotics. Modern genealogical theory operates across three major paradigms:

- Descent Theory (social anthropology): How societies construct and deploy lineal identity through patrilineal, matrilineal, or cognatic descent systems.
- Kinship Algebra (structural anthropology): The formal, mathematical mapping of kinship relationships and marriage prohibition rules.
- Social Memory & Archival Theory: How genealogical knowledge is produced, stored, contested, and transmitted across generations.

The Mithila Pañjī is uniquely significant in all three paradigms. It is not merely a family history archive but a living legal-administrative instrument, a computational kinship device, and a social memory repository simultaneously.

1.2 Classical Indian Genealogical Theory

Indian genealogical thought has ancient roots in three traditions:

- Vaṃśāvalī (genealogical narrative): Linear royal and Brahminic genealogies from the Purāṇas, listing descent from cosmogonic ancestors.
- Gotra-Pravara system: The Vedic attribution of Ṛgvedic Ṛṣis as ancestral identity markers for exogamy management.

•Sapiṇḍa computation: The Dharmaśāstra-based calculation of shared bodily substance across generations for marriage prohibition.

The Pañjī system synthesises all three. It begins with Gotra (Vedic Ṛṣi-lineage), adds Mūla-village identity (akin to Vaṃśāvalī), and encodes Sapiṇḍa rules in the operative 32-ancestor Uṭherḥa document. It is thus a total genealogical system integrating narrative, juridical, and computational dimensions.

II. DESCENT SYSTEM ANALYSIS

2.1 Patrilineal Descent Architecture

The Pañjī system is fundamentally patrilineal. Gotra — the primary identity unit — is defined explicitly: 'All members of a Gotra are descendants of a single ancient known Mahāpuruṣa.' The text states that in Maithili Brahmin society, Gotra is 'vaṃśa-bodhaka' (lineage-indicating), with each Gotra named after its earliest known patrilineal ancestor.

The twenty Gotras enumerated are: Śāṇḍilya, Vatsa, Sāvāṇa, Kāśyapa, Rāśada, Bhāradvāja, Kātyāyana, Garga, Kauśika, Alāmbukākṣa, Kṛṣṇātreya, Gautama, Maudgalya, Vasiṣṭha, Kaṇḍinya, Upamānya, Kapila, Viṣṇuvṛddhi, Daṇḍī, and Jātūkarna.

Of these, seven Gotras are numerically predominant and socially organised: Śāṇḍilya, Vatsa, Kāśyapa, Sāvāṇa, Rāśada, Bhāradvāja, Kātyāyana. The remaining thirteen are documented but smaller in population.

2.2 Mūla: The Sub-Lineage Unit

Below the Gotra level, the system deploys 167 Mūlas (primary villages/sub-lineage units). The Mūla is the operationally crucial unit for marriage prohibition calculations. Within a single Gotra, there may be dozens of Mūlas — for instance, Śāṇḍilya Gotra alone contains Mūlas including Didhauṣa, Sarisaba, Mahuvā, Baulī, Khaṇḍabalā, Gaṅgolī, Jajalvāl, and many others.

The document specifies 35 primary Mūlas (34 + the Khanāma branch of Fananda Mūla), organised in three tiers: Ayānta Śreṣṭha (13 elite), Dvītīya Śreṇī (13 second-rank), and Madhyama Mūla (8 middle). This hierarchical stratification is genealogically significant: it maps social rank onto descent categories.

2.3 Bījī Puruṣa: The Founding Ancestor

Each Mūla traces descent to a Bījī Puruṣa (seed-ancestor), the earliest known male ancestor in that line. The text offers a detailed example: for Kāśyapa Gotra, 74 branches survive in Mithila, all traceable to an ancestor resident in Māṇḍara village. The genealogical reconstruction shows that even branches settled in different villages (Gaṛha, Maṅgaurāunī) are shown by Pañjī evidence to be branches of the same Kula with a common Bījī Puruṣa.

This concept of Bījī Puruṣa is the precise Indian analogue of what Western genealogical theory calls the 'progenitor' or 'founder ancestor' — the individual at the root of a documented descent tree. The Pañjī system is extraordinary in maintaining documented chains from Bījī Puruṣas dated as early as 400 C.E. (e.g., the mention of Mahāmahopādhyāya Tinayana Bhaṭṭa of Māṇḍara Mūla, circa 400 A.D.).

2.4 Cognatic Descent in Matrilineal Sapiṇḍa Computation

While the Pañjī is structurally patrilineal, it incorporates cognatic elements through the matrilineal Sapiṇḍa prohibition. The Pañcamī-Saptamī rule (from Manusmṛti) requires that the bride not be within five generations on the mother's side and seven generations on the father's side of the groom. This makes the system a bilateral or 'double descent' system for the purpose of marriage prohibition, even if only the patrilineal line is used for identity.

This is theoretically important: the system operates as a patrilineal identity system plus a bilateral prohibition system. The 32-ancestor Uṭherḥa document, which maps 16 kinship nodes (Ṣaṣṭhī) from both patrilineal and matrilineal ancestors, is the technical instrument that operationalises this bilateral computation.

III. KINSHIP ALGEBRA AND EXOGAMY COMPUTATION

3.1 The 32-Ancestor Uṭherḥa: A Kinship Matrix

The Uṭherḥa is the genealogical working document prepared for each prospective marriage. It maps 32 ancestors (hence 'battīsa mūlaka uṭherḥa') across seven patrilineal and five matrilineal generations. In contemporary genealogical and genetic terms, this is equivalent to a 5-generation pedigree chart covering all 32 great-great-great-grandparents.

The 16 Ṣaṣṭhī (kinship prohibition nodes) are computed from this chart. The text provides a complete enumeration: the 1st Ṣaṣṭhī is the bride's Vṛddha Prapitāmaha (great-great-great-grandfather); subsequent ones trace through all 16 specific kinship paths (paternally and maternally across patrilineal and matrilineal branches).

3.2 Formal Rules of Exogamy

The system encodes four formal rules for marital eligibility:

- Rule 1 (Sapiṇḍa): The bride and groom must not share any of 16 Ṣaṣṭhī ancestors through the groom's patrilineal side. If they share one through the matrilineal side, marriage is permitted.
- Rule 2 (Gotra): The bride and groom must not belong to the same Gotra.
- Rule 3 (Pravara): The bride and groom must not share the same Pravara (Ṛgvedic Ṛṣi-cluster).
- Rule 4 (Vipiāmātā): The bride must not be the daughter of the groom's maternal uncle.

These rules constitute a formal prohibition algebra. The marriage space is defined as the set of all women who satisfy all four conditions simultaneously. The Pañjī system automates this computation through the Uṭheṛha document and the Pañjikāra's verification.

3.3 Pravara System: A Genetic-Lineage Marker

The Pravara system classifies Gotras by their Ṛgvedic Ṛṣi-cluster. The text divides Maithili Brahmin Gotras into Tripravara (three-Ṛṣi ancestry) and Pañcapravara (five-Ṛṣi ancestry). The key rule: even if two Gotras share identical Pravara ancestors (as Vatsa and Sāvarṇa do — both deriving from Aurva, Cyavana, Bhārgava, Jamadagni, and Āplava), they cannot intermarry despite being distinct Gotras.

From the standpoint of genealogical theory, this is a case of overlapping descent-group membership: two named Gotras with partially shared ancestral attribution. The prohibition is maintained because the shared Pravara implies closer-than-permitted common ancestry at the Ṛṣi level, even if the social Gotra designation differs.

3.4 Parallel with Population Genetics

The document's title 'Genome Mapping' (Jīnoma Maipim̃ga) is deliberately chosen. The authors argue that the Ṛṣi-genealogical system encoded in the Pañjī is functionally equivalent to chromosome mapping. Just as genetic science maps chromosomes to identify relatedness and prohibit consanguineous unions, the Pañjī maps genealogical 'chromosomes' (Gotra + Mūla + Sapiṇḍa chains) to identify biologically and socially too-close matches.

This analogy has substance: the Pañcamī-Saptamī rule maps closely to what population geneticists call avoidance of second-degree ($R = 0.5$) and third-degree ($R = 0.25$) consanguinity. Five maternal generations back reaches the 5th degree of relatedness; seven paternal generations back reaches the 7th degree. This is well within the range of modern recommended minimum genetic distance for human marriage.

IV. INSTITUTIONAL GENEALOGY: THE PAÑJĪ AS ADMINISTRATION

4.1 Founding Event (1326 C.E.) and Legal Charter

The institutional origin is precisely documented. In Śaka 1248 (1326 C.E.), under Mahārāja Harisimhadeva of the Kāṇāṭa dynasty, the Maithili Brahmin learned community collectively resolved that genealogical records could no longer be left to individual family memory. The catalyst was a scandal: Thaṃharinā Upādhyāya, a celebrated author of Dharmaśāstra texts including Smṛtisāra, committed an unknowing incestuous marriage (Svajana-vivāha) by marrying his own brother's daughter — precisely because his genealogical knowledge had lapsed.

The solution was institutional: a royal decree creating a class of state-appointed genealogists (Pañjīkāras) with the authority to issue 'Siddhānta Patra' (eligibility certificates) without which no Maithili Brahmin marriage could proceed. This was a state intervention in genealogical record-keeping without precedent in the ancient world outside of royal succession records.

4.2 The Guṇākara Jhā Commission

Sudupādhyāya Guṇākara Jhā of Paṇḍua Mūla (Śāṇḍilya Gotra) was appointed as the first chief Pañjīkāra. He and his team of Parichetās (field

collectors) traversed the entire Mithila region, interviewing the senior member of each family and recording their genealogical knowledge. The collected data was cross-referenced to identify Bījī Puruṣas and Mūla villages. The resulting corpus became the authoritative genealogical database.

This founding act closely resembles what institutional archival theory describes as a 'record-creation event' — the moment when tacit social knowledge is converted into formal documentary record. The Pañjī system is thus an early example of what contemporary genealogical archivists call a 'genealogical information management system' (GIMS).

4.3 The Pañjikāra as Professional Genealogist

The Pañjikāra is a certified professional genealogist appointed by royal authority. The text is explicit about both the role's dignity and its ethical obligations. It warns against corruption, excessive fee extraction, and genealogical fabrication. The system creates 185 Pañjī records maintained by distinct Pañjikāra families, operating as hereditary custodians.

The document provides a striking ethical norm: 'The Pañjikāra is a protector of culture, not a fee-extracting businessman.' It criticises Pañjikāras who demand payment before issuing eligibility certificates, and calls for transparent succession planning to train the next generation.

4.4 Record Format: Palm-Leaf to Digital

The Pañjī books were originally written in Mithilākṣara (Tirhuta script) on palm-leaf (tāla patra). The text provides detailed instructions for manuscript preservation: protect from water, oil, and tight binding; sun-dry annually when the sun is in Leo (mid-August to mid-September). Each book could contain 500–600 palm-leaves bound with wooden covers and tied with cord ('brahmagranthī' binding style).

By 2000 C.E., a systematic digitisation project was launched: transcription of all surviving Pañjī manuscripts into Devanagari, with digital imaging of the palm-leaf originals onto DVD. This represents the full archival lifecycle: oral knowledge → formal manuscript → digitised preservation, spanning 1, years of genealogical record management.

V. GENEALOGICAL STRATIFICATION AND SOCIAL RANK

5.1 The Three-Tier Brahmin Classification

The Pañjī system classifies Maithili Brahmins into three genealogically defined tiers:

- Śrotriya: The highest-rank Vedic scholars. Defined by Matr̥kṣa (maternal side) of five generations and Pitṛkṣa (paternal side) of seven generations of maintained Vedic study. Divided into 8 Chaugolā (sub-ranks) with 32 Pañjīs.
- Yogya ('Eligible'): The intermediate class. Fifteen sub-ranks with 153 Pañjīs.
- Pañjībaddha ('Registered'): All who are registered in the Pañjī. This is the baseline of legitimate genealogical standing.

The text notes that those not registered (Jayavāt or 'fallen out') could not claim Vedic-hereditary marriage rights. This makes Pañjī registration a de facto citizenship document in Mithila's Brahminic legal order.

5.2 Downward Mobility Through Misalliance

A crucial genealogical-sociological feature: rank is not permanently fixed but can decline through mésalliance (marriage below one's rank). The text notes that 'Pañjī and rank descend downward' — a family's rank can fall if marriage alliances with lower-ranked families accumulate over generations. The first and second Śrotriya sub-ranks have already become extinct due to this mechanism.

This is a powerful illustration of what sociologists call 'status attrition through hypogamy.' The genealogical record becomes the instrument of rank-tracking: the Pañjī does not merely record who one's ancestors were, but determines what social position one currently occupies based on the cumulative marriage record.

5.3 Śākhā Pañjī: The Branch Record Innovation

Under Mahārāja Mādhava Siṃha of Darbhanga (circa 1760 C.E.), a new genealogical instrument was introduced: the Śākhā Pañjī (branch register), which recorded separate sub-ranks within the broader Yogya and Pañjībaddha categories. The text is critical of this innovation, arguing it introduced social stratification and hierarchical abuse that were not part of

the original Pañjī's spirit — which was purely genealogical (vaṃśāvalī), not socially ranking.

This historical critique parallels debates in genealogical theory about the distinction between 'pure' descent recording and social ranking systems. The Śākhā Pañjī represents the moment when a genealogical archive was converted into a social stratification instrument.

VI. SOCIAL MEMORY THEORY AND THE PAÑJĪ

6.1 Oral to Written Genealogical Memory

Before the institutionalisation of the Pañjī, genealogical knowledge was maintained by oral tradition within families. The text references Kumārila Bhaṭṭa's 7th-century Tantravārttika (commentary on Mīmāṃsā Sūtras of Jaimini) as the earliest reference to 'Samūha Lekhya' — written collective genealogical records maintained by noble families. This gives a chronological anchor: written genealogical record-keeping pre-dates the Pañjī system by at least seven centuries.

Maurice Halbwachs's concept of 'collective memory' is directly applicable here. The Pañjī is not individual family memory but a socially constructed and institutionally validated collective memory. It transforms private genealogical knowledge into public authoritative record.

6.2 The Pañjī as Counter-Memory

The document reveals a remarkable feature: the Pañjī records social 'dirt' — marriages with women of uncertain or mixed lineage, inter-caste unions, children of courtesans (Devadāsī), and unions with Muslims, leather-workers (Carmakāra), and women from distant non-Brahmin communities. These are recorded not suppressed.

The text provides examples numbered 1 through 97 in a table, showing: marriages with Yavana (Muslim) women (Daulatijahām, number 11–12), marriages with Rājput women, marriages with Kocha (Assamese) royal family (example 9: 'Kocha Rāja Patnī'), marriages with 'parm Brahmin' (non-Maithili Brahmin) women, and even unions with Ḥaḍinī Rudrāmaṭī.

These records — what the text calls 'dūṣaṇa pañji' (defect registers) — function as what Foucault would call counter-memory: records that preserve what normative genealogical narrative would erase. The document argues

that after six generations, such 'impurities' cease to affect descent status — a form of genealogical limitation period.

6.3 Genealogy as Historical Archive

The Śākḥā Pañjī's capacity as historical archive is illustrated by the Āryabhaṭṭa genealogy preserved within it. The text quotes a Pañjī entry tracing: Tinavana Bhaṭṭa (fl. 400 C.E.) → Udayabhaṭṭa → Vijayabhaṭṭa → (chain of descendants) → Āryabhaṭṭa (the mathematician-astronomer) → Udayabhaṭṭa → ... → Mahāmahopādhyāya Narasiṃha.

Similarly, the lineage of Caitanya Mahāprabhu is traced: 'Tarapati Upādhyāya of Karamahā Taraunī Mūla went to Bengal; his disciple was Caitanya Mahāprabhu.' And the Gaṅgeśa Upādhyāya entry (founder of Navya-Nyāya philosophy) records: 'Father died five years before Gaṅgeśa's birth' — a social fact preserved only in the genealogical record. These are unique historical data points not available from any other source.

VII. COMPARATIVE GENEALOGICAL THEORY

7.1 The Pañjī Among World Genealogical Systems

The text makes a bold claim: 'This type of book has not been found in any country, any community, or any class in the world.' While this may be contested at the margins, the Pañjī system does present a unique combination of features unmatched by any other known genealogical institution. A comparative analysis:

Feature	Pañjī System	Comparable World Systems
Duration of Continuous Record	1,550+ years	Medieval European heraldic records: 600-800 yrs
Geographic Coverage	All of Mithila region	National archives cover entire countries but not a single ethnic group
Bilateral Computation	Yes (both paternal and maternal sides)	Most: patrilineal only
Legal Binding Power	Marriage without Siddhānta Patra invalid	Only royal genealogies have comparable legal force
Professional Custodians	Hereditary Pañjīkāras; state-appointed	European heralds; state genealogists (limited)
Social Stratification Use	Yes (Śrotriya/Yogya/Pañjībaddha)	European armorial bearings; Chinese Clan registers

Script/Medium | Tirhuta Mithilākṣara on palm-leaf; later paper | European: parchment/paper; Chinese: wood block/paper

Digitisation | Completed 2000-2009 C.E. | European archives largely digitised

7.2 Chinese Genealogical Tradition (Zúpǔ)

The Chinese Zúpǔ (clan genealogy) tradition is the closest global parallel. Chinese clan registers maintained multi-generational patrilineal descent records for elite families, including biographical notices, property records, and ritual obligations. However, the Chinese system typically lacked a formal bilateral exogamy computation mechanism as sophisticated as the Pañjī's Śaṣṭhī system, and was not state-administered in the same juridical sense.

7.3 European Heraldic Genealogy

European heraldic genealogy, maintained by Heralds' Colleges from the 12th century onward, shares the Pañjī's concern with descent authentication and rank determination. However, European genealogy was primarily patrilineal (with exceptions in some royal succession laws), covered a much shorter time depth, and was not linked to exogamy computation. The European 'Prohibition of Consanguinity' in canon law (to the 4th degree, later relaxed) is functionally analogous to the Pañcamī-Saptamī rule, though computed differently.

7.4 Jewish Genealogy and the Cohen Gene

The Jewish genealogical tradition of Kohanic descent (Kohanim claiming descent from Aaron, brother of Moses) presents an interesting parallel to the Gotra-Pravara system. In both cases, patrilineal descent from a named ancestor (Āroṇ / specific Ṛṣis) confers religious status and endogamy/exogamy implications. Remarkably, genetic studies of Kohanim have confirmed that a specific Y-chromosome haplotype (the 'Cohen Modal Haplotype') is shared at high frequency, suggesting genuine patrilineal descent from a common ancestor. Similar genetic validation of Gotra-based Y-chromosome clustering has been explored in Indian genetic studies.

VIII. EPISTEMOLOGY OF GENEALOGICAL KNOWLEDGE

8.1 The Problem of Knowledge Decay

The founding narrative of the Pañjī system is itself a story about genealogical knowledge failure. Thaṃharinā Upādhyāya — a learned Dharmaśāstrin — committed an incestuous union because genealogical knowledge had been lost. The institutional response was precisely to address the epistemological vulnerability of oral and individual memory.

The text explicitly describes a typical family's genealogical knowledge at the time of the first Pañjī survey: 'Normally, six generations were known; some knew more; some knew only two or three generations.' The Pañjī system addresses this patchy knowledge by cross-referencing family accounts and reconstructing chains from Bījī Puruṣas upward and downward.

8.2 The Archive-First Rule and Fabrication Risk

The text contains a warning that has direct relevance to contemporary genealogical practice: Pañjikāras are admonished to base all genealogical determinations on the actual archive, not on personal knowledge or improvised reconstruction. The document records a historical fabrication case and insists: 'The Pañjikāra should abandon his burden of ignorance and narrow tendencies; [he] should follow the canonical injunctions earnestly, not his own invented rules.'

This epistemological caution — privileging archival record over oral claim — is the central methodological principle of modern professional genealogy as codified by the Genealogical Proof Standard (GPS) of the Board for Certification of Genealogists (BCG, USA). The requirement for exhaustive search, complete citations, analysis of all evidence, and reasoned conclusions precisely mirrors the Pañjī system's insistence on archival primacy.

8.3 Indexing, Cross-Reference, and the Notation System

The Pañjī's notation system is a sophisticated information retrieval mechanism. Each entry is keyed by page number and line number (e.g., '3/2' = page 3, line 2). Cross-references are made using the notation of source location: 'Pull name X from page Y, line Z and bring to current entry.' This is

functionally equivalent to relational database linking — records in different volumes linked by key identifiers.

The Bījī Puruṣa lists in the Devānanda (Choṭī Jhā) Pañjī provide a remarkable index of founding ancestors by Mūla-village: 'From Gaṅgolī, Bījī Gaṅgādhara 1/3; from Khaṇḍabalā, Bījī Saṃkarṣaṇa 1/4; from Ekamā Valiyāsa, Bījī Dharaṇīdhara 1/12...' extending to hundreds of entries. This is effectively a master index of all Mūla-line progenitors in the database.

IX. THE PAÑJĪ AND MODERN GENETICS: GENOME MAPPING ANALOGY

9.1 The Authors' Explicit Genome Mapping Framework

The document is titled 'Jīnoma Maipīṅga' (Genome Mapping) deliberately. The concluding theoretical passage states: 'In the current age of science, the determination of Chromosomes [guṇa-sūtra] is of this very form, and our Ṛṣi ancestors had already placed this [system] in a scientific Śāstric framework.'

This is a significant claim: that the Gotra-Pravara-Sapiṇḍa system constitutes an early form of genetic relatedness avoidance. The claim merits serious genealogical-genetic analysis:

- Gotra endogamy prohibition = avoidance of Y-chromosome identity (paternal haplotype): men of the same Gotra share a common male-line ancestor, and prohibiting Gotra-endogamy prevents close Y-chromosome relatedness.
- Pravara prohibition = extension of patrilineal prohibition to shared Ṛgvedic ancestor-clusters: a more conservative form of the same Y-lineage avoidance.
- Sapiṇḍa computation = avoidance of shared autosomal DNA within 5-7 generations: both sides (maternal and paternal) mapped to detect excess identity-by-descent (IBD) at the autosomal level.

9.2 Genetic Distance and the Śaṣṭhī System

The 16 Śaṣṭhī nodes cover kinship relationships that in modern genetic notation correspond to:

- 1st Śaṣṭhī (Vṛddha Prapitāmaha): 5th degree ancestor. Expected IBD = $1/64 \approx 1.6\%$

•16th Śaṣṭhī (Mātāmahī's Mātṛmātāmaha): Similarly removed by 5+ degrees on maternal side.

The rule that any shared Śaṣṭhī through the paternal side prohibits marriage, while a shared Śaṣṭhī through the maternal side permits marriage, reflects the asymmetric treatment of patrilineal and matrilineal descent in the system. From a genetic standpoint, both sides contribute equally to autosomal IBD — but the Sapiṇḍa system's logic is social as much as biological.

9.3 Population Endogamy and Heterozygosity

The Mithila Brahmin community's strict exogamy rules within a geographically bounded region would, from a population genetics standpoint, create a structured metapopulation with defined local endogamy (within the community) and regulated exogamy (between descent groups). This is precisely the type of marriage system that population geneticists model as 'subdivided populations' — maintaining diversity through regulated gene flow between Gotras while restricting it within Gotras.

The 20 Gotras with 167 Mūlas, spread across the Mithila region (roughly the Darbhanga-Madhubani-Sitamarhi-Saharsa districts of Bihar plus Terai Nepal), constitute a human population structured in a way that sustained genetic diversity while preventing deleterious consanguineous combinations — precisely the outcome that modern evolutionary genetics predicts for optimal fitness.

X. THE PAÑJĪ AS LIVING SYSTEM: MODERN CHALLENGES

10.1 Script as Genealogical Barrier

The document identifies the biggest existential threat to the Pañjī system: the progressive loss of Mithilākṣara (Tirhuta) script literacy. All Pañjī manuscripts are written in Tirhuta; Pañjīkāras trained in Tirhuta can read them. But as fewer young people learn Tirhuta, the interpretive community is shrinking. Clients who appear before Pañjīkāras to verify marriage eligibility cannot read or interpret the records they are presented with.

This is a classic case of what archival theorists call 'interpretive community breakdown' — the social network capable of reading and contextualising an archival corpus is dissolving. The authors' urgent advocacy for Devanagari

transliteration (already undertaken for the major Pañjī manuscripts by 2009) is the correct archival response.

10.2 Child Marriage, Polygamy, and Genealogical Anomaly

The text candidly notes that the scientifically sound Pañjī system is compromised when child marriage and polygamy 'sit within it.' When a man simultaneously relates to another as both father-in-law and step-father through multiple marriages across families, the Śaṣṭhī computation becomes paradoxical. The text says the Pañjikāra becomes 'helpless' — because such arrangements are technically Śāstra-approved yet genealogically anomalous.

This identifies the limits of rule-based genealogical computation when social practices deviate from the system's assumptions. Modern computational genealogy faces analogous challenges with blended families, assisted reproduction, and legal versus biological parentage.

10.3 Kshatriya Genealogical Loss

The text notes that while the Pañjī was originally also maintained for Kshatriya (Gandharvatiyā Rājputs) — and the Varṇaratnākara of Jyotirīsvara Thakura records 64 to 72 Rājput lineages — the Kshatriya Pañjī has now become extinct. They compensate by maintaining village-level exogamy rules ('not marrying into the grandfather's maternal village') without formal genealogical documentation.

This illustrates the fragility of genealogical institutions: once the administrative machinery (Pañjikāra appointment, royal patronage) disappears, the formal system collapses into informal rule-of-thumb practices. The Maithili Brahmin Pañjī has survived because of continuous professional custodianship; the Kshatriya system did not.

10.4 Digital Future: From Palm-Leaf to Database

The 2000-2009 digitisation project described in the document represents the system's entry into the digital genealogical age. The comprehensive digital imaging of palm-leaf manuscripts, combined with Devanagari transliteration, positions the Pañjī corpus for conversion into searchable genealogical databases. The DVD archive mentioned as an appendix to the book is the first step toward what could become a comprehensive relational genealogical database covering 1, years of Maithili Brahmin descent records.

The correspondence address provided (ggajendra@gmail.com) and the appeal to Pañjikāras across Saurāṭha, Kakuraṭa, Naṃnaura, Baṃnaula (Nepal), and other centres to coordinate through the internet signals the authors' vision of a networked digital genealogical infrastructure maintaining the system's social function while expanding its accessibility.

XI. UNIQUE CONTRIBUTIONS OF THE PAÑJĪ TO GENEALOGICAL THEORY

11.1 Systemic Innovations

The Pañjī system makes several innovations that are genuinely novel in the global history of genealogy:

- 1. Bilateral computation with asymmetric rules: The Uṭṭerha computes both patrilineal and matrilineal ancestry, but applies different prohibition depths (seven paternal vs. five maternal). No other pre-modern genealogical system has this precise bilateral asymmetric structure.
- 2. State-regulated professional genealogists: The appointment of Pañjikāras by royal decree, with authority to issue legally binding marriage eligibility certificates, is unparalleled in pre-modern genealogical administration.
- 3. Mandatory registration as social citizenship: Pañjī registration (pañjībaddha) as the precondition for legitimate social standing within the community prefigures modern civil registration systems.
- 4. Integrated social-historical archive: The Pañjī simultaneously records genealogical data, social rank, educational qualifications (titles like Mahāmahopādhyāya, Kavīndra, etc.), geographical migration, and social anomalies — making it a comprehensive social history database.
- 5. Bibliographic genealogy: The explicit recording of scholarly titles, works authored, and royal appointments within genealogical entries (e.g., 'Gaṅgeśa Upādhyāya: Author of Tattvacintāmaṇi') creates a unique fusion of bio-bibliography and genealogy.

11.2 Theoretical Implications

The Pañjī system challenges several assumptions commonly made in comparative genealogical theory:

- That sophisticated genealogical institutions require literacy: The Pañjī emerged from oral traditions and was institutionalised before widespread

literacy. Its survival required script expertise, but its social logic predates the script.

- That state genealogical administration is a modern phenomenon: The Pañjī's royal founding in 1326 C.E. shows that state-administered mandatory genealogical registration is at least seven centuries old in South Asia.
- That genetically informed exogamy rules require genetic science: The Pañjī's computations anticipate modern population genetics conclusions about optimal consanguinity avoidance, achieved through a social-religious framework.

XII. CONCLUSION

The Mithila Pañjī system, spanning 450 A.D. to 2009 A.D. and continuously maintained across this entire period, stands as one of the most sophisticated genealogical institutions in human history. Examined through the multi-lens framework of descent theory, kinship algebra, social memory theory, archival science, comparative genealogy, and population genetics, it reveals a level of genealogical engineering that was simultaneously scientifically sound, socially functional, historically significant, and institutionally resilient.

Its core theoretical achievement is the integration of three genealogical functions that most systems separate: identity assignment (Gotra/Mūla/Bījī Puruṣa), exogamy computation (Sapiṇḍa/Ṣaṣṭhī/Pravara rules), and social rank tracking (Śrotriya/Yogya stratification). This integration, maintained through a hereditary professional class of Pañjikāras operating under state authority, created a genealogical institution that outlasted the state that founded it, survived colonial disruption, and is now transitioning to digital preservation.

The authors' framing of the Pañjī as 'Genome Mapping' is not merely metaphorical. The system encodes, through social-religious categories, the same information that modern population genetics seeks through molecular analysis: who is too closely related to whom for healthy reproduction, and how that relatedness is traced through time. The Pañjī system achieved this 1, years before the discovery of DNA.

For genealogical theorists, the Pañjī system demands recognition as a distinct and advanced genealogical tradition — neither reducible to European heraldic genealogy, Chinese Zúpǔ traditions, nor modern civil registration,

but standing alongside them as a third archetype of institutionalised genealogical knowledge management, with its own unique logic, methodology, and civilisational achievement.

Chapter 2

Mithila's Pañji-Prabandha: Genealogical Theories Study (Volume II)

MITHILA'S PAÑJI-PRABANDHA

A Complete Study from the Perspective of Genealogical Theories

Based on: Genome Mapping — Pañji-Prabandha of Mithila (450 AD–2009 AD), Part 2

Authors: Gajendra Thakur · Nagendra Kumar Jha · Pañjikāra Vidyānanda Jha 'Mohanji'

Abstract

The Pañji-Prabandha of Mithila (mithilāka pañji-prabandha) is the world's most sustained, institutionally organised, and continuously practised genealogical record-keeping system, with documented continuity from at least 450 AD to the present. This study examines the Pañji-Prabandha through the integrated lens of contemporary genealogical theory, genetic genealogy, socio-legal genealogy, documentary genealogy, and the classical Indian framework of *vaṃśa-paramparā*. Drawing on the Introduction (Bhūmikā) to Part 2 of Genome Mapping (2009/2012 edition), we analyse the system's theoretical foundations, structural architecture, methodological rigour, epistemological significance, and comparative standing among world genealogical traditions. The study demonstrates that the Pañji is not merely a caste registry but a comprehensive genealogical information system encoding kinship prohibition logic, genetic exogamy, migration history, historical demography, onomastics, and socio-political biography — making it an unparalleled primary source for South Asian genealogical science.

1. Introduction: Genealogy as Science and the Pañji Tradition

1.1 The Genealogical Sciences: A Framework

Genealogy, in its contemporary interdisciplinary form, encompasses five overlapping domains: (i) documentary genealogy — the tracing of descent through written records; (ii) genetic genealogy — the use of DNA data (autosomal, Y-chromosomal, mitochondrial) to establish biological relationships; (iii) socio-legal genealogy — the use of lineage records for property rights, succession, and marriage law; (iv) ethnographic genealogy — the study of kinship systems, exogamy rules, and clan identities within communities; and (v) computational genealogy — the digitisation, database construction, and network analysis of genealogical information. The Pañji-Prabandha is remarkable because it instantiates all five domains within a single, internally consistent tradition.

From the perspective of modern genealogical theory, the most significant challenge any genealogical system faces is what practitioners call the 'pedigree collapse problem' — the exponential increase in ancestral slots across generations that, in practice, collapses into a finite set of actual ancestors due to endogamy and limited population size. The Pañji system addresses this problem with extraordinary sophistication through its dual kinship prohibition mechanism: gotra (patrilineal exogamy) and sapinḍa (bilateral consanguinity prohibition within defined generational limits).

1.2 Historical Origin and Institutionalisation

The Introduction under study, authored by Pañjikāra Vidyānanda Jha 'Mohanji' with editorial synthesis by Gajendra Thakur and Nagendra Kumar Jha, locates the institutional crystallisation of the Pañji-Prabandha in the reign of Mahārāja Harisimhadeva of the Karnata dynasty (r. 1307 AD, b. 1294 AD). However, it traces the genealogical tradition itself to at least Āryabhata (476–550 AD), whose descent line in the Maṇḍara-Kāśyapa mūla is documented 39 generations deep. The formal commissioning of the Pañji system is precisely dated — using the Śaka-year notation 1248 (= 1326 AD) — when Mithilā's paṇḍitas collectively determined the current structural form of the register.

Key Genealogical Timeline: Pañji-Prabandha Institutional History

476 AD: Āryabhaṭa (Maṇḍara-Kāśyapa mūla) — earliest documented genealogical anchor in the system 1019 Śaka (= 1097 AD): Karnata dynasty founded by Nānyādeva c. 1050–1150: Mahāmahopādhyāya Gohū Jhā (vide genealogical calculation: 24th generation in Vatsa lineage) 1248 Śaka (= 1326 AD): Formal institutional determination of the Pañji-Prabandha's current form c. 1350–1435: Vidyāpati Ṭhakkura (Viṣayavāra Visfī-Kāśyapa mūla) — 14th generation from same anchor 1760 AD: Branch-books (Śākhā-pustaka) commissioned by Mahārāja Mādhava Siṃha of Darbhanga 1760–1776: Vidyānanda Jha 'Mohanji's ancestor's Śākhā-pustaka compiled at Saurath 1971: Vidyānanda Jha begins lifelong immersion in the Pañji tradition under his father 1998: Death of the last traditional Pañjikāra, Vidyānanda's guru-father 2009/2012: Genome Mapping Part 2 — modern critical edition published

1.3 The Document Under Study

The Bhūmikā (Introduction) to Part 2 of Genome Mapping constitutes an exceptional multi-register scholarly document. It combines: (a) institutional history of the Pañji from 450 AD to 2009; (b) a technical glossary of Pañji terminology (pāribhāṣika śabdāvalī); (c) a sample analytical working (vākya-vyākhyā) demonstrating how to decode a Pañji entry; (d) a full catalogue of all 20 gotras of Maithil Brāhmaṇas with their mūlas (sub-clans), in both standard and vernacular pronunciations; (e) detailed mūla-grāma (ancestral village) records for major mūlas; (f) ethno-historical surveys of seven parganas (Śrīpura, Naveli/Daśirā, Āsaṃgā, Dharampur, etc.); and (g) a theoretical disquisition on the dharmashāstric and genetic foundations of marriage prohibition. This remarkable breadth makes the document a primary source for genealogical theory applied to South Asia.

2. Structural Architecture of the Pañji System: A Genealogical Analysis

2.1 The Tripartite Information Layer

Contemporary genealogical database theory distinguishes three information layers in any genealogical system: the identity layer (who a person is), the relationship layer (how persons are connected), and the attribute layer (what is known about them). The Pañji-Prabandha encodes all three layers with exceptional density.

Information Layer | Pañji Element | Genealogical Theory Equivalent

Identity Layer		Personal name + father's name + mūla + mūlagrāma	
Primary individual record (PIR)			
Relationship Layer		Suta/Sutau/Sutā (sons), Dau. (daughters), Nau. (maternal grandsons), Dvau. (paternal grandsons)	
Kinship relational edges in genealogical graph			
Attribute Layer		Scholarly title (M.M.U., Vaidyākaraṇa, Jyotirvid), occupation (Dharmādhikaraṇika, Pāṇāgārika), marital status (Aparā = second wife)	
Prosopographical data fields			
Spatial Layer		Mūlagrāma + current village of residence	
Migration/settlement data (GIS-compatible)			
Temporal Layer		Generational depth (pīḍhī) used to compute birth-years	
Temporal calibration by generation-interval method			
Normative Layer		Gotra + pravara + mūla prohibitions for marriage	
Exogamy constraint matrix			
Reputational Layer		Ḍūṣaṇa-pañjī (defect register) for lineage transgressions	
Negative genealogical attribute (NGA) record			

2.2 The Gotra System as Genealogical Framework

The Pañji recognises 20 gotras among Maithil Brāhmaṇas. In genealogical theory terms, the gotra is a maximal patrilineal exogamy unit — equivalent to what kinship theorists call a 'phratry' or 'sib' (Rivers 1914; Murdock 1949). The document's catalogue of all 20 gotras with their constituent mūlas — presented in both Sanskrit (maulik uccāraṇa) and vernacular (laukik uccāraṇa) forms — constitutes the most complete taxonomic map of Maithil Brāhmaṇa patrilineal organisation available in any single source.

Gotra (Patrilineal Clan)		No. of Mūlas (Sub-clans) in Document
Śāṇḍilya		43 mūlas (largest — primary carrier of Pañji tradition)
Vatsa		40 mūlas
Kāśyapa		27 mūlas
Sāvanya		7 mūlas
Rāśara		12 mūlas (from text)
Bhāradvāja		7 mūlas
Kātyāyana		5 mūlas (4 listed)
Garga		6 mūlas (from text)
Gautama		3 mūlas

Kauśika, Viṣṇuvṛddhi, Maudgalya, Kṛṣṇātreya, Ālambukaākṣa, Daṇḍi | 1–5 mūlas each

Upamanya, Kapila, Vasiṣṭha, Jānukarṇya, Kauṇḍilya (gotra only) | Recorded without mūla subdivision

2.3 The Mūla as the Core Genealogical Unit

The mūla (mūla, literally 'root') is the most operationally significant unit in the Pañji system. Genealogically, it is a named patrilineal descent group defined by a common founding ancestor (bījī-puruṣa, 'seed-person') whose residential origin gives the mūla its name. The document defines the mūla with conceptual precision:

mūlaka artha bhela o prācīnatama grāma jata' kono mūlaka prācīnatama puruṣā vā bījīpuruṣa vāsa karaita chalāha|

This is, in genealogical terms, a definition of the 'Most Recent Common Ancestor' (MRCA) locality — the place where the MRCA of the mūla group resided. The system then distinguishes between the mūla (the original designation) and mūlagrāma (the original and subsequently named branch villages), creating what modern genealogists call a 'cluster' or 'pedigree family' system.

Of particular theoretical interest is the document's observation that some mūlas take their names from villages in Madhya Pradesh (Khaṇḍavalā/Khaṇḍvā) and Rajasthan — indicating that migration out of Mithila and return migration both occurred, and the genealogical system preserved these extra-regional origin claims across many centuries.

2.4 The Dūṣaṇa-Pañjī: Genealogical Record of Transgression

One of the most theoretically significant aspects of the Pañji system is its dūṣaṇa-pañjī — the defect register. In genealogical terms, this constitutes what might be called a 'negative attribute genealogy' — a systematic record of lineages that deviated from normative marriage rules, occupation codes, or ritual standards. The document explicitly states that the dūṣaṇa-pañjī recorded marriages across caste lines (including with Muslims, after the Islamic conquests), inter-jāti marriages, and widow remarriage with documentary evidence. The author notes with emphasis:

ai dūṣaṇa pañjīme brāhmaṇaka āna jāti khāsa ka' dalita ā muslimaka saṃga vivāha, vā pitṛka mṛtyuka bāda vivāhaka likhita dastāveja chala|

This is genealogically revolutionary. The Pañji did not simply record normative genealogies; it documented deviation, transgression, and socially stigmatised relationships — making it a far richer historical source than conventional hagiographic genealogies. The dūṣaṇa-pañjī thus anticipates, by many centuries, the modern genealogical principle that all relationships, including those outside normative kinship structures, must be documented for historical completeness.

3. The Pañji and Genetic Genealogy: The Chromosome Theory of Marriage Prohibition

3.1 Sapiṇḍa Prohibition and the Theory of Chromosomal Identity

The Bhūmikā contains the document's most theoretically ambitious section: a sustained argument that the dharmashāstric rules of sapiṇḍa (consanguinity prohibition) are genealogically and genetically valid. The document cites the Manusmṛti injunction:

pañcamāt saptamāt udhvaṃ māṛtaḥ pitṛtastathā| sapiṇḍatā nivarteta sarva varṇeṣvayaṃ vidhiḥ||

This rule — prohibiting marriage within five generations on the mother's side and seven on the father's side — is then explicitly correlated with the modern genetic principle of 'Theory of Chromosomes' (the document uses this exact English phrase). The argument is as follows:

The Pañji's Genetic Argument for Sapiṇḍa Prohibition (as stated in the Bhūmikā)

The śāstric sapiṇḍa rules correspond to the genetic principle that in chromosomal recombination, harmful recessive alleles shared by closely related individuals become expressed in offspring. After five generations (maternal) and seven generations (paternal), the coefficient of relationship drops below the threshold where such expression is statistically significant. The document states: 'saptama (saṃśodhita aṣṭama) o pāñcama pṛdhīk bāda samasta guṇasūthatāk nivāraṇa hoita naik' — after the revised seventh and fifth generation, all deleterious chromosomal trait concentration is dissipated. This is a precise pre-modern statement of what genetics now calls the 'coefficient of relationship' (r) dropping below critical thresholds at 5th/7th degree cousinship.

3.2 The Five Marriage Prohibitions and Their Genetic Correlates

The document enumerates five principal prohibitions (pañca-nideśa) governing marriage selection in the Pañji system, each of which can be mapped to a modern genetic or genealogical principle:

Pañji Prohibition (Nideśa) | Modern Genealogical / Genetic Correlate

1. Same jāti (svajāti): Intra-jāti marriage is the baseline requirement | Endogamy boundary — maintains group genetic identity and social cohesion
2. Gotra prohibition (samagotra): No marriage within the same patrilineal clan | Y-chromosomal exogamy — avoids patrilineal inbreeding; equivalent to 'sib exogamy' (Murdock 1949)
3. Pravara prohibition (sama-guru): No marriage if pravara (sacrificial lineage) overlaps | Extended patrilineal exogamy — pravara extends the prohibition beyond strict patrilineal descent to include associated ritual lineages; blocks coefficient of relationship at deeper levels
4. Kāṣṭha-māmula: Prohibition on marriage with stepmother's brother's children | Avoidance of uterine half-sibling relatedness through maternal link
5. Māṭṛ-sapiṇḍa: No marriage within 5 maternal generations | Bilateral kinship prohibition — equivalent to the genetic threshold for autosomal shared DNA dropping below 1.56% (5th cousin relationship, $r=0.0156$)

3.3 The Pañji as a Pre-Modern Population Genetics Management System

Viewed from contemporary population genetics, the Pañji system is best understood as an institutionalised population genetics management protocol. It simultaneously enforced: (a) endogamy at the jāti level — maintaining group genetic coherence; (b) exogamy at the gotra and pravara level — preventing patrilineal inbreeding; and (c) bilateral consanguinity avoidance through sapiṇḍa rules — preventing expression of deleterious recessive alleles. The result, over 1,500+ years of continuous practice, would be a population with lower inbreeding coefficients than socially comparable groups while maintaining cultural cohesion. The document's authors explicitly invoke this analogy: 'jīva-vijñāna meṃ guṇa-sūtaka siddhānta (Theory of Chromosomes) ehi rūpak achi.'

This represents a remarkable instance of convergence between indigenous systematic knowledge and modern genetic science — not metaphorical

convergence but precise, quantifiable convergence at the level of generational threshold mathematics.

4. The Pañji as Documentary Genealogy: Methodological Analysis

4.1 Documentary Standards and Evidence Hierarchy

Documentary genealogy, as practiced in Western traditions (NGSQ system, GPS — Genealogical Proof Standard), requires: (1) reasonably exhaustive search; (2) complete and accurate citations; (3) analysis and correlation of evidence; (4) resolution of conflicting evidence; and (5) soundly reasoned, coherent written conclusion. The Pañji system, while operating within different epistemological conventions, fulfils analogous requirements:

Genealogical Proof Standard (GPS) | Pañji Equivalent Practice

1. Reasonably exhaustive search | Pañjikāra conducted village-to-village surveys (kṣetra-bhramaṇa) at Śuddhi seasons; Saurath Sabhā provided centralised verification
2. Complete and accurate citations | Mūla + mūlagrāma + individual name + father + śvaśura (father-in-law) + śvaśura's mūla as complete citation unit
3. Analysis and correlation | Cross-referencing of gotra, pravara, sapiṇḍa, kāṣṭha-māmula across Śākhā-pustaka (branch-books) and Utteḍha records
4. Resolution of conflicting evidence | Dūṣaṇa-pañjī mechanism — deviant entries were not suppressed but formally recorded as defects
5. Coherent written conclusion | Siddhānta — the Pañjikāra's formal pronouncement on eligibility at Śuddhi (marriage negotiations), legally binding

4.2 The Pañji Notation System: A Genealogical Language

The Bhūmikā devotes substantial attention to decoding the Pañji's notation system — what can be understood as a compact genealogical encoding language. This is significant because it represents a pre-modern solution to a perennial challenge in genealogical documentation: how to record complex multi-generational relationship data in minimal space while maintaining unambiguous readability. The key encoding conventions are:

Pañji Notation System: Genealogical Encoding Conventions

Suta/Sutau/Sutā (suta/sutau/sutā): One son / Two sons / Three or more sons — a grammatical gender-and-number system for encoding sibship size

Prathama / Aparā (ādyā / aparā): First wife's children / Second wife's children — encodes polygyny relationships Saṃ (sa~): 'Originally from' — marks the mūla (e.g., 'Sonarpur saṃ' = 'of Sonarpur mūla') Nau. (ddau. = ddau.): Maternal grandson (nātiduhitā-putra) — records matrilineal descent link for saṇḍa computation Prākhyāta/Prasiddha (pra. = pra.): 'Known as' (sobriquet) — disambiguates individuals with identical names Sudhā (sudhāca): 'Also daughters' — acknowledges daughters without naming them (patriarchal limitation, but presence acknowledged) M.M.U. (Mahāmahopādhyāya): Highest academic title — prosopographical attribute encoding Nau. (nau./nepathya): Father-in-law record — cross-referenced to establish saṇḍa on wife's side

The document provides a fully worked example of decoding a Pañji entry, demonstrating how a single compressed sentence encodes: (a) the individual's gotra, mūla, and mūlagrāma; (b) his father's identity; (c) his sobriquet; (d) the number, names, and birth order of his children; (e) his wives' origins by mūla and mūlagrāma; (f) his father-in-law's identity; and (g) his grandchildren's identities through both sons and daughters. This density of information in a single Pañji sentence is unmatched in any comparable pre-modern genealogical system.

4.3 The Śākhā-Pustaka: The Branch-Book as Genealogical Database

The Bhūmikā mentions numerous distinct śākhā-pustaka (branch-books) maintained by different Pañjikāra lineages: those of Chotī Jhā (Devānanda Jhā, 1760–76), Bhikhiyā Jhā, Jhūlānanda Jhā, Mohanānanda Jhā, Nirasu Jhā (compiled at Saurath, 1925–35), and others. In contemporary genealogical database terms, each śākhā-pustaka constitutes a 'federated database node' — an independently maintained but mutually corroborating record set. The Saurath Sabhā functioned as the synchronisation hub where these federated nodes were reconciled against each other.

The document lists the distinct information types recoverable from these śākhā-pustaka: (i) gotra-genealogy (gotra-pañjī) — clan and subclan records; (ii) aprasiddha-pañjī — records of persons not publicly known, with mūlagrāma; (iii) dūṣaṇa-pañjī — defect records; and (iv) contemporary titulary usage. Together these form what would now be recognised as a multi-register genealogical database with cross-referenced indices.

5. Historical Demography and Migration Genealogy

5.1 The Pañji as Migration Record

One of the most significant but under-theorised aspects of the Pañji system is its function as a migration genealogy — a record of population movement across time and space. The document is explicit that mūlagrāma records preserve the memory of population dispersals across at least seven centuries:

Villages recorded as mūlagrāma include settlements in present-day Madhubani, Sitamarhi, Vaishali, Darbhanga, Muzaffarpur, Saharsa, Supaul, Munger, Purnia, and even regions of Madhya Pradesh (Khaṇḍvā district) and Uttarakhand (Garhwal). The document records that during the 13th–18th century Islamic invasions and political disruptions, large numbers of Maithil Brāhmaṇa families emigrated to Bengal, Rajputana, Braj, Orissa, and Garhwal — and the Pañji preserved their points of origin and return.

Migration Genealogy: Pañji Records of Diaspora and Return

The Bhūmikā documents several distinct migration waves: Wave 1 (13th–14th c.): Dispersal during Karnata dynasty's consolidation and Islamic incursions; families to Bengal, Uttarakhand, Rajputana, Orissa Wave 2 (15th–16th c.): Khaṇḍavalā rule's hierarchical impositions caused further dispersals; M.M.U. Śaṃkarṣaṇa Ṭhākura founded school in Khaṇḍvā (MP); his eighth-generation descendant Ṭhakkura Surapi returned to Mithila Wave 3 (16th–18th c.): Purnia region settlement — Samara Siṃha of Suragaṇa Louāma dynasty received displaced Maithil Brāhmaṇas; 24 mūlas documented settling in Purnia during this period Wave 4 (19th c.): Bengal-resident families returned to Daśirā (Naveli) pargana due to famines; Gangolīvāra Nigoni mūla Rāya family documented Preservation mechanism: The mūla name preserved origin identity even after generations of residence elsewhere; the Pañji system allowed re-integration upon return

5.2 The Pañji and Historical Demography

The Bhūmikā's pargana surveys constitute a form of historical demography embedded within genealogical narrative. The surveys of Śrīpura Pargana, Naveli (Daśirā), Āsaṃgā, Dharampur, and Sauripura reconstruct the social history of specific micro-regions through the lens of family genealogies. This is precisely what historical demographers call 'family reconstitution' — the technique pioneered by Louis Henry and Edward Wrigley in European contexts — applied centuries earlier in South Asia through an indigenous tradition.

The document notes, for example, the survival or extinction of entire villages: 'Sauriyā, Kālasara, Dumara, Bhārīḍīha, Babhangāma ādi gāma lupta bha' gela' — Sauriyā (former Suragaṇa Louāma capital), Kālasara, Dumara, Bhārīḍīha, and Babhangāma are now extinct settlements. This extinction data, recoverable only through the Pañji, constitutes genealogical evidence for historical demographic collapse in specific micro-regions during specific centuries.

5.3 Genealogical Evidence for Political History

The Bhūmikā's genealogical material repeatedly intersects with political history in ways that illuminate previously obscure events. The document records, for instance, that after the Battle of Kaṃdhīghāṭ (1680–1700 AD), Mahārāja Haranārāyaṇa of Dasrā Basaiṭī branch was relocated from Farbisganaj to Khaṇḍakhora-Kaṭiyār — a political displacement recorded genealogically. The Darbhanga Rāja's formal orders (virudhāvalī) are preserved in the Pañji, as are the genealogies of the Suragaṇa Louāma and Banaili Rāja families documented with the same precision as Brāhmaṇa lineages.

This demonstrates a feature of the Pañji unique among genealogical systems: it is not confined to a single social stratum. While centred on Brāhmaṇas, it cross-references Kāyastha and Kṣatriya genealogies, and includes the royal genealogies of Mithila as integral to the system — because royal patronage and political events shaped the conditions of Brāhmaṇa migration and settlement.

6. Socio-Legal Genealogy: The Pañji as Jurisprudential Instrument

6.1 The Legal Function of the Pañji

In socio-legal genealogy, records serve as evidence for rights, entitlements, and prohibitions. The Pañji is perhaps the world's most elaborate example of genealogy as legal instrument. The document is explicit that the Pañji's primary social function was juridical: to provide authoritative determination of marriage eligibility. The Pañjikāra's siddhānta (formal determination) at the Śuddhi ceremony was legally binding.

The Bhūmikā documents a dramatic legal case that gave rise to the Pañji's institutionalisation: the case of Dharmaśāstra scholar Haridatta Upādhyāya, who married into the Gaṃgora mūla unknowingly violating sapiṇḍa rules. His wife, upon discovering this, took the matter to the royal court of Mahārāja Harisimhadeva. She was initially found guilty through the penance (prāyaścitta) procedures, but subsequently vindicated through the intervention of the jurist Lakhimā Ṭhakurāin — identified as the daughter of Mimāṃsaka Ravi Miśra of the Hariharā Mahāoni mūla and wife of M.M. Rāmeśvara of Alayavāra mūla. Lakhimā emended the manta text itself to correct a doctrinal error.

This story is genealogically significant because it demonstrates that the Pañji system arose not from bureaucratic imposition but from a specific legal crisis requiring genealogical information to resolve. The institutionalisation of the Pañji was thus a response to a concrete socio-legal failure — the breakdown of oral genealogical memory under demographic and political stress.

6.2 The Pañji as Evidence of Feminist Genealogical Consciousness

The document explicitly highlights a feature of the Pañji that is remarkable in any pre-modern genealogical system: the consistent recording of women's names across generations. The author notes:

puruṣa pradhāna samāja me nārīka nāmollekha vismṛta bhae jāeta achi se pañji prabandha pīrhi sa~ pīrhi dhari nārī nāmaka ullekha kaene jāeta achi|

This is a significant genealogical principle: women are not invisible in the Pañji. Daughters are recorded as 'sudhā' (also daughters), their marriage destinations are documented, and their sons (the nāti/nau. relationship) are tracked as part of the maternal sapiṇḍa computation. This means the Pañji preserves bilateral kinship information — both patrilineal and matrilineal — making it genealogically far richer than purely agnatic genealogical systems.

The document's special mention of Lakhimā Ṭhakurāin as 'viduṣī dharmāśāstrasya vyākhyātri alaukika pratibhasampanna ojasvi vaktṛtādhikāriṇī' (a learned woman, commentator on dharmaśāstra, of extraordinary talent and eloquent authority) signals a self-conscious awareness within the Pañji tradition of women's intellectual and juridical role — exceptional for a 14th-century institutional framework.

6.3 The Śraiddhara and Intellectual Property in Genealogy

The Bhūmikā contains a lengthy complaint about plagiarism — Dr. Yogānanda Jhā republishing the 2009 Genome Mapping volume under his own name ('Pañjī-Prabandha — Vamśa Paricaya, Prathama Bhāga, 2010'), and Suśilā Jhā translating Lakṣmīnātha Jhā's 1962 volume ('Mithilā kī Sāṃskṛtik Lokacitrakala') under her own name in 2008. While this is presented as an authorial grievance, it raises a significant genealogical theory point: intellectual genealogy (the chain of scholarly transmission) is as important to the Pañjī tradition as biological genealogy. The document explicitly names the guru-śiṣya (teacher-student) chain as a form of genealogical relationship — Pañjikāra Vidyānanda Jhā's transmission from his father is presented as a form of genealogical inheritance parallel to biological descent.

7. Computational Genealogy and the Pañjī's Digital Future

7.1 The Pañjī as Genealogical Database

The Bhūmikā lists an extensive set of digital resources already created around the Pañjī: the Ḍuṣaṇa-pañjī scanned PDF (Mithilākṣara single PDF), the Mohanānanda Jhā Śākhā-pañjī, the Maṇḍāra-Marāḍe Kāśyapa Prācīna (complete), Prācīna Pañjī (laminated), Utteḍha Pañjī, Panicobhe-Bīrpur PDF, Darbhanga Rāja Order (Utteḍha), Chotī Jhā Pustaka Nideśikā, Patra Pañjī, Mūlāgrāma Pañjī (multiple volumes, 1–7), and the box.net hosted Pañjī-Pothi archive. This represents a significant digitisation effort that transforms the Pañjī from a closed oral-documentary tradition into a potentially queryable genealogical database.

From the perspective of computational genealogy, the Pañjī's structure is exceptionally well-suited to graph database representation. Each individual node would carry: personal name, father link, mother link (through wife's father), gotra, mūla, mūlāgrāma, titles, and sapiṇḍa-relevant ancestor links. Marriage edges would carry: wife's name (where recorded), wife's mūla, wife's mūlāgrāma, wife's father's name. The result would be a genealogical graph of potentially millions of nodes spanning 1,500+ years.

7.2 Calibration of Generational Intervals: The Pañji's Internal Chronology

The document demonstrates an elegant internal chronological calibration method: since Āryabhaṭa's birth-year (476 AD) is known, and the Pañji records him as 39 generations before a known reference point in the Maṇḍara-Kāśyapa mūla, the average generation interval can be calculated. Similarly, Gohū Jhā (c. 1050–1150 AD) is recorded as 24th generation from Āryabhaṭa in the Vatsa lineage, and Vidyāpati (c. 1350 AD) as 14th generation from the same anchor in the Viśṭi-Kāśyapa mūla.

Using the formula: $\text{generation interval} = (\text{known date}_2 - \text{known date}_1) / (\text{generational depth}_2 - \text{generational depth}_1)$, the internal generation interval in Pañji calculations is approximately 40 years. The document explicitly confirms this: 'ek pīḍhikem 40 saṃ guṇā kelā saṃ Āryabhaṭṭak janma lagabhaga 476 ī. ā Vidyāpatik janma lagabhaga 1350 ī. abaita achi je itihāsasammata achi.' This self-validation of the Pañji's chronological methodology against externally known dates is a sophisticated genealogical proof technique.

7.3 The Pañji and FamilySearch / Genealogical Database Standards

The Pañji's encoding conventions can be mapped to contemporary genealogical data standards (GEDCOM 5.1/7., FHISO BDM) with relatively straightforward transformations. The suta/sutau/sutā encoding maps to CHIL/HUSB/WIFE relationships; the mūla/mūlagrāma maps to place-of-origin fields; the sapinḍa constraint matrix maps to relationship prohibition rules that modern software (e.g., RootsMagic, Gramps) could theoretically encode. The Pañji's notation for 'prathama' (first wife) and 'aparā' (second wife) maps directly to GEDCOM's FAM record sequence. A full GEDCOM conversion of even a single major śākhā-pustaka would create a genealogical resource of extraordinary scholarly value.

8. Comparative Genealogical Analysis: The Pañji in World Context

8.1 Comparative Framework

To properly assess the Pañji's significance, it must be placed in comparative context with other major world genealogical traditions. The following analysis compares the Pañji across seven dimensions with the four most significant non-Indian genealogical traditions:

Dimension	Pañji (Mithila)	Mormon (FamilySearch)	Imperial China (Zúpǔ)	Islamic Nasab	Icelandic Sagas
Continuity (years)	1,500+ documented	~175 (since 1844)	~2,000 (fragmented)	~1,400 (selective)	~800 (literary)
Coverage (persons)	Millions (Maithil Brāhmaṇas)	Billions (all humans)	Hundreds of millions (Han Chinese)	Selective elites & scholars	~50,000 (Iceland)
Exogamy enforcement	Active (gotra + sapinḍa)	Passive (incest laws only)	Clan exogamy (surname)	No formal system	Minimal
Women recorded	Yes (bilateral)	Yes (all)	Minimal (agnatic bias)	Minimal (agnatic bias)	Partial (maternal lines)
Defect/transgression records	Yes (Dūṣaṇa-pañjī)	Partial (DNA contradictions)	Rarely (stigmatised)	Rarely	Yes (saga narrative)
Legal/juridical function	Primary function	Secondary (LDS theology)	Property succession	Inheritance, Ashraf status	Minimal post-medieval
Genetic validation	Intrinsic (sapinḍa math)	DNA testing separate	DNA testing separate	None	None
Digitisation status	Partial (Videha project)	Comprehensive	Partial (Jiapu databases)	Minimal	Complete (Íslendingabók)

8.2 The Pañji's Unique Theoretical Contributions

The comparative analysis reveals several features in which the Pañji is genuinely unique among world genealogical traditions:

First, the Pañji is the only genealogical system that operates as a real-time marriage clearance mechanism rather than a retrospective record. The Pañjikāra's siddhānta at the Śuddhi must be obtained before marriage negotiations can proceed — making the genealogist a legally necessary actor in social reproduction, not merely a historical archivist.

Second, the Pañji's dual-axis exogamy (gotra + sapiṇḍa) operating simultaneously on patrilineal and bilateral dimensions is more sophisticated than any other traditional system. Chinese zúpǔ enforces surname exogamy (single axis, patrilineal). Islamic nasab tracks patrilineal descent for inheritance without systematic exogamy enforcement. The Pañji's bilateral tracking — essential for sapiṇḍa computation — makes it a bilateral kinship database, not merely an agnatic one.

Third, the Pañji's dūṣaṇa-pañjī mechanism — recording normative violations rather than suppressing them — is without parallel in other major traditions. Where most genealogical systems either ignore transgression or expunge deviant records, the Pañji formally systematised the recording of transgression as a warning mechanism for future generations, explicitly noting that this included inter-caste and inter-religious marriages.

Fourth, the Pañji's self-referential intellectual genealogy — the documented guru-śiṣya transmission chain of Pañjikāra knowledge — adds a dimension of epistemic genealogy that most other traditions lack. The Bhūmikā's account of Vidyānanda Jhā's 42-year immersion in the tradition, his father's examination by Dr. Sir Gangānātha Jhā, and the transmission protocols at Saurath Sabhā constitute a genealogy of genealogical knowledge itself.

9. Critical Assessment and Theoretical Limitations

9.1 Patriarchal Bias and Female Invisibility

Despite the Pañji's comparative openness in recording women, it remains fundamentally patrilineal in its primary organisation. Women are recorded as daughters (sudhā), wives (through their fathers' identities), and mothers of recorded sons — but rarely as individuals with independent genealogical standing. The 'sudhāc' notation (also daughters, unnamed) acknowledges female existence without full genealogical individuation. From the perspective of gender-inclusive genealogical theory (Rubincam 1992; Lechan 2017), this represents a structural limitation that the Pañji shares with most pre-modern genealogical systems.

The Bhūmikā itself acknowledges this limitation while celebrating partial counter-examples: Lakhimā Ṭhakurāin is given full biographical treatment precisely because her juridical intervention was historically decisive. The Pañji's willingness to record extraordinary women individually, while

rendering ordinary women genealogically partial, reflects the same tension between structural constraint and exceptional agency that characterises most patrilineal genealogical systems.

9.2 The Hierarchy Problem: Mūla Ranking and Social Power

The document is candid about a theoretical distortion introduced into the Pañji system during the Khaṇḍavalā rule (16th century): the imposition of hierarchical ranking among mūlas (high/low mūla categories). The document notes that M.M.U. Śaṃkarṣaṇa Ṭhākura, himself of Hariharā mūla, was ranked as a groom of Khaṇḍavalā mūla (which later became 'low') — and that the Budhavāla mūla (now considered high) had early ancestors who were nātiduhitā-putra of the 'low' Suirī mūla. These are manifestly political classifications masquerading as genealogical fact.

From a genealogical theory standpoint, this is what Francoise Zonabend calls 'genealogical rewriting' — the retrospective manipulation of recorded genealogy to serve contemporary social hierarchies. The Pañji's dūṣaṇa mechanism partly counteracts this by preserving documentary evidence against such rewriting, but the hierarchical classifications themselves became embedded in the system during the Khaṇḍavalā period.

9.3 The Oral-Documentary Tension

The Bhūmikā reveals a persistent tension between oral and documentary genealogy within the Pañji tradition. Vidyānanda Jhā's father memorised the Utteḍha (the foundational genealogies of major lineages like Mahārāja Darbhanga, Suragaṇa Louāma, and Vidyāpati's family) and could recite them from memory. This oral layer, now being lost, is genealogically significant because it preserves performance contexts, interpretive traditions, and relational memories that written texts cannot fully capture.

The document's lament — 'aba bahuta gote pañjīmem okar carcā saṃ bhitare-bhitare gumarata rahait chi' (now many people secretly simmer with resentment about the Pañji from within) — signals a crisis of the oral transmission layer even as the documentary layer is being digitised. This gap between oral genealogical memory and digital genealogical database is a challenge that modern genealogical theory has not yet fully theorised for South Asian contexts.

10. The Pañji and Navya-Nyāya Epistemology

10.1 Genealogical Knowledge as Pramāṇa

The Bhūmikā does not explicitly invoke Navya-Nyāya (the logical-epistemological tradition of Maithil scholars, particularly Gaṅgeśa Upādhyāya's *Tattvacintāmaṇi*), but the Pañji system's epistemological foundations are deeply consonant with Navya-Nyāya concepts of *pramāṇa* (valid means of knowledge). Navya-Nyāya identifies four *pramāṇas*: *pratyakṣa* (perception), *anumāna* (inference), *upamāna* (comparison), and *śabda* (verbal testimony/reliable authority).

The Pañji's genealogical claims are primarily *śabda-pramāṇa* (testimonial knowledge) — but structured through a validation system that adds inferential (*anumāna*) cross-checking: if X's *mūla* is Y, and Y's *bījī-puruṣa* is Z, and the generational depth from Z is known, then X's approximate birth-century is inferrable. This inferential genealogy is precisely the method by which the Pañji's internal chronology was validated against Āryabhaṭa's known birth-year.

10.2 The Pañjikāra as Prāmāṇika Authority

In Navya-Nyāya terms, the Pañjikāra functions as a *prāmāṇika* — an authoritative epistemological agent whose testimony (*śabda*) generates valid knowledge. The institutional conditions for this authority are carefully specified: the Pañjikāra must be *dharmaśāstrajña* (knowledgeable in *dharmaśāstra*), must have received the *guruparaṃparā* transmission, and must have been formally commissioned by royal authority (*rājya-ādeśa*). This triple qualification — scriptural learning, lineage transmission, and political authorisation — constitutes an epistemological warrant structure for genealogical testimony that is more rigorous than most modern genealogical systems require of their practitioners.

The document's account of Vidyānanda Jhā's father refusing to grant the Pañjī qualification to those who learned it informally ('*pāñjī se cīja naḥaṃ thīka je jethā-tethā sikhala loka siddhānta likhati*') reflects this epistemological rigour: genealogical knowledge, in the Pañji tradition, is not merely technical competence but authoritative transmission within a validated lineage of knowers.

11. Conclusions: The Pañji-Prabandha as a Theory-Generating System

This study has demonstrated that the Pañji-Prabandha of Mithila is not merely an object of genealogical study but a theory-generating genealogical system in its own right. Its contributions to genealogical theory, as recoverable from the Bhūmikā to Part 2 of Genome Mapping, include:

Principal Theoretical Contributions of the Pañji-Prabandha to Genealogical Science

1. Population Genetics Management: The *sapiṇḍa*/gotra dual-exogamy system constitutes a pre-modern institutionalised protocol for managing inbreeding coefficients across a bounded population over 1,500+ years — the longest continuously documented example in world history. 2. Bilateral Genealogical Database: The Pañji's requirement to track both patrilineal (gotra/pravara) and bilateral (*sapiṇḍa*) kinship makes it a bilateral genealogical database — rarer and more information-rich than purely agnatic systems. 3. Negative Genealogical Attribute System: The *ḍuṣaṇa-pañjī*'s systematic recording of normative violations is a unique contribution to genealogical methodology — treating transgression as genealogically significant information rather than something to be suppressed. 4. Real-Time Legal Genealogy: The Pañji's function as a real-time marriage clearance mechanism (not merely retrospective record) establishes genealogy as constitutive of social reproduction, not merely descriptive of it. 5. Internal Chronological Calibration: The generation-interval method (40 years/generation, validated against Āryabhaṭa's birth-year) is a sophisticated self-validating chronological system antedating modern genealogical proof standards. 6. Migration Genealogy at Scale: The Pañji's *mūlāgrāma* records constitute the largest pre-modern dataset for tracing population migration across multiple centuries in South Asia. 7. Feminist Genealogical Consciousness: The systematic (if partial) recording of women's names and the juridical role of women scholars (Lakhimā Ṭhakurāin) within the institution anticipate modern gender-inclusive genealogical principles. 8. Epistemic Genealogy: The guru-śiṣya transmission chain of Pañjikāra knowledge constitutes an 'intellectual genealogy' that validates the documentary genealogy — a meta-genealogical validation structure without clear parallel.

The authors of Genome Mapping Part 2 — Gajendra Thakur, Nagendra Kumar Jhā, and Pañjikāra Vidyānanda Jhā 'Mohanji' — have produced in this Introduction a document that is simultaneously: a historical source, a methodological treatise, a comparative genealogy, an ethno-historical survey,

a legal analysis, a genetic argument, and a lament for institutional memory at risk. The Videha Parallel Literature Movement's systematic preservation and digitisation of the Pañji records constitutes, from the perspective of genealogical science, one of the most significant cultural heritage projects in contemporary South Asia.

The Pañji-Prabandha awaits full scholarly engagement from genealogical theorists, population geneticists, historical demographers, and database architects. The present study is offered as a preliminary framework for that engagement — demonstrating that when examined through the lens of contemporary genealogical theory, the Pañji emerges not as a curiosity of caste sociology but as a world-class genealogical information system whose theoretical sophistication continues to instruct.

Chapter 3

The Panji Prabandh of Mithila: Genomic Mapping, Theoretical Frameworks, and Socio-Historical Trajectories

The Panji Prabandh of Mithila: Genomic Mapping, Theoretical Frameworks, and Socio-Historical Trajectories (450 A.D. – 2009 A.D.)

Abstract

The Panji Prabandh (Genealogical Records System) of Mithila stands as one of the most comprehensive and oldest unbroken consanguinity registers in human history, spanning more than one and a half millennia. Originally codified under the Karnata dynasty in 1326 A.D. to systematize family lineages among Maithil Brahmins, Kayastha (Karna Kayastha), and Kshatriyas, the system served as a rigorous, documentation-based check against incestuous marriages and genetic degradation.

This paper provides a thorough academic analysis of the data contained within the seminal volumes compiled by Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyand Jha "Mohan Ji," utilizing the documents "**PANJI THEORY MERGED.pdf**" and "**PRACHIN PANJI UPTIP MERGED.pdf**". It explores the mathematical-genetic framework of the Sapinda exogamy rules, the structural deployment of Gotras and Pravaras, the practical apparatus of the Panjikars (genealogists), the architectural organization of Mools and Moolgrams, and the sociological evolution of the system.

Furthermore, this study extracts and analyzes extensive historical case studies embedded within the Panji records—including the lineages of the foundational astronomer Aryabhata, the Navya-Nyaya logician Gangesha Upadhyaya, and the iconic poet Vidyapati—alongside a critical examination of the Dooshan Panji (records of lineage degradation and inter-caste unions).

1. Introduction and Historical Origins

Long before modern genetic mapping, the cultural and geographical isolation of the Mithila region (bounded by the Himalayas and the Ganges River) fostered an extraordinarily structured intellectual environment. To protect the genetic and cultural matrix of this community, ancient Maithil scholars relied on memory and fragmented family registers known as Samuha-Lekhya to trace ancestry. The earliest philosophical justification for these registries is found in Kumarila Bhatta's 7th-century Mimamsa treatise, the Tantra-Varttika, which explicitly states:

"The noble and cultured preserve their lineage with great effort. For this reason, Kings and Brahmins established Samuha-Lekhyan (collective written registers) so that the continuity of ancestry from fathers and grandfathers is never forgotten, allowing unions to be formed strictly by examining the merits and faults of each family."

By the early 14th century, the informal Samuha-Lekhya system had begun to decay. A turning point occurred when Pandit Harinath Upadhyaya, a renowned scholar of Dharmashastra and author of the Smritisara, inadvertently married his maternal first cousin (his maternal uncle's daughter's daughter) due to a lack of accurate genealogical tracking.

Recognizing that even the most erudite scholars could no longer track complex bloodlines mentally, the contemporary Karnata Ruler of Mithila, Maharaja Harisinghadeva, intervened in Shaka Year 1248 (1326 A.D.). He decreed that genealogical record-keeping would no longer be a private family responsibility but a formalized, state-supervised department run by specialized scholars known as Panjikars.

The system was organized under institutional heads: Pandit Gunakar Jha (a scholar from the Mahindra-Pandua Mool) was entrusted with the Brahmin registers; Shankardatta was appointed for the Karna Kayasthas; and Vijayadatta was placed in charge of the Kshatriyas (specifically the Gandhavariya Rajputs).

2. Theoretical Framework: The Science of Consanguinity&Genome Mapping

The Panji Prabandh acts as an ancient algorithm for genetic exogamy, operating through a deeply mathematical system designed to calculate blood proximity over multiple generations. Its structural mechanics parallel modern genetic pedigree mapping through several layers of biological and social classifications.

2. The Mathematics of Sapinda Proximity and the Uteh Formula

The core function of the Panji system is to avoid Sapinda (shared-body or consanguineous) marriages. According to classical Dharmashastra texts like the Manusmriti and Yajnavalkya Smriti, a bride must be Asapinda (not sharing a common ancestral body) with the groom. The mathematical baseline requires the elimination of the maternal line up to the 5th generation and the paternal line up to the 7th generation.

Under Maharaja Mahesh Thakur, the paternal restriction was modified for practical marriageability to an absolute separation of 6 generations, making the 7th generation permissible.

To execute this, the Panjekar reconstructs an **Uteh**—a comprehensive ancestral matrix charting **32 specific ancestral lines** for both the prospective bride and groom. This matrix maps out the binary lineage tree backward, tracking:

- The paternal grandfather and grandmother
- The maternal grandfather and grandmother
- Great-grandparents and great-great-grandparents across all maternal and paternal permutations up to 32 foundational ancestors.

[Prospective Bride / Groom]

/ \

[Paternal Line] [Maternal Line]

/ \ / \

(Father) (Mother) (Maternal (Maternal

| | Father) Mother)

[...] [...] | |

[...] [...]

(Tracing back to 32 distinct ancestral lineages)

The system evaluates **16 specific generational check-points**, known colloquially as the **Chhati** (sixth-degree ancestors). For any given individual, the 16 ChhatIs represent the ultimate structural boundaries of their Sapinda zone:

Chhati No. | Ancestral Identity and Lineage Position PDF

1 | Paternal Great-Great-Grandfather (Prapitamaha's Paternal Grandfather)

2 | Father of the Paternal Great-Grandfather's Paternal Grandmother

- 3 | Father of the Paternal Grandfather's Maternal Grandfather
- 4 | Father of the Paternal Grandfather's Maternal Grandmother
- 5 | Paternal Great-Great-Grandfather of the Paternal Grandmother
- 6 | Maternal Grandfather of the Paternal Grandfather's Mother
- 7 | Paternal Grandmother's Maternal Great-Grandfather
- 8 | Maternal Grandmother of the Paternal Grandmother's Mother
- 9 | Maternal Grandfather's Paternal Great-Great-Grandfather
- 10 | Maternal Great-Grandfather's Maternal Grandfather
- 11 | Maternal Grandfather's Maternal Great-Grandfather
- 12 | Maternal Grandfather's Maternal Grandmother's Mother
- 13 | Maternal Grandmother's Paternal Great-Great-Grandfather
- 14 | Maternal Grandmother's Paternal Grandmother's Father
- 15 | Maternal Grandmother's Maternal Great-Grandfather
- 16 | Maternal Grandmother's Maternal Grandmother's Mother

The Exclusion Rule: If even a single individual among these 16 Chhatis appears within the paternal line of the groom up to the 6th generation, the marriage is blocked as incestuous and invalid (Anadhikara). However, if the common ancestor appears within the groom's maternal line outside the 5-generation restriction, the union may be cleared.

2. Gotras and Pravaras

Superimposed on the Sapinda restrictions is the absolute block on Sagotra (same clan) and Sapravara (same invoked sages) marriages. The Maithil Brahmin register tracks **20 primary Gotras**, each linked to a specific constellation of Vedic Pravaras (either Tri-Pravara or Pancha-Pravara, indicating three or five legendary rishi ancestors who composed Vedic hymns):

- Shandilya: Tri-Pravara (Shandilya, Asit, Deval)
- Vatsa: Pancha-Pravara (Orva, Chyavana, Bhargava, Jamadagnya, Apnuvana)
- Savarna: Pancha-Pravara (Orva, Chyavana, Bhargava, Jamadagnya, Apnuvana)
- Kashyap: Tri-Pravara (Kashyap, Avatsar, Naidhruva)
- Parashar: Tri-Pravara (Shakti, Vashistha, Parashar)
- Bharadwaj: Tri-Pravara (Bharadwaj, Angiras, Barhaspatya)
- Katyayan: Tri-Pravara (Katyayan, Vishnu, Angiras)

- Garga: Pancha-Pravara (Gargya, Ghritha, Vaishampayana, Kaushik, Mandavyatharvan)
- Kaushik: Tri-Pravara (Kaushik, Atri, Jamadagni)
- Alambukaksha: Tri-Pravara (Garga, Gautama, Vashistha)
- Krishnatriya: Tri-Pravara (Krishnatriya, Apnuvana, Saraswat)
- Gautam: Tri-Pravara (Angira, Vashistha, Barhaspatya)
- Maudgalya: Tri-Pravara (Maudgalya, Angiras, Barhaspatya)
- Vashistha: Tri-Pravara (Vashistha, Atri, Sankriti)
- Kaundinya: Tri-Pravara (Aastik, Kaushik, Kaundinya)
- Upamanyu: Tri-Pravara (Upamanyu, Angiras, Barhaspatya)
- Kapil: Tri-Pravara (Shatatapa, Kaundilya, Kapil)
- Vishnuvridhi: Tri-Pravara (Vishnuvridhi, Kaurapuccha, Trasadashya)
- Tandi: Tri-Pravara (Tandi, Sankhya, Angiras)
- Jatukarna: Tri-Pravara (Jatukarna, Angiras, Bharadwaj)

Genetic Exception Case: Even though **Vatsa** and **Savarna** are distinct Gotras, they share the exact same Pravara ancestors. Consequently, marriages between Vatsa and Savarna individuals are prohibited under the Panji system due to their identical ancestral genetic source.

3. Topographical and Clan Architecture: Mools and Moolgrams

To map a massive, growing population over centuries, the Panji system uses a geolocation framework based on two coordinates: the **Mool** (the original ancestral house or primary clan line) and the **Moolgram** (the specific village or settlement where that branch relocated).

The system tracks **167 unique Mools**, which are broadly divided into **three tiers based on antiquity and scholarly lineage**: **Ayant Shrestha** (highest tier), **Prajayant** (second tier), and **Madhyam** (medium tier).

3. Structural Classification of Key Mools

The records outline the classification of the primary 35 Mools as follows:

Ayant Shrestha (First Category)

- Khadaure (Khadauray)
- Khauadal (Khauaday)
- Budhabaday
- Madaray (Baruani Madaar)
- Dariharay (Athari Darihara)
- Ghusautay

- Tisautay
- Karamahay (Sonkariam Karmaha)
- Naraunay (Shakrirampur Naraun)
- Vabhniamay
- Hariammay
- Sarisavay
- Sodarporiye (Sodarpur)

Prajayant(Second Category)

- Gangolivar (Karambeli Gangoli)
- Pavaulivar (Parvapalli / Pabauli)
- Kujaulivar
- Alevar
- Bahidwar
- Sakarivar (Karwani Sakaradhi)
- Palivar
- Visevar
- Fanevar (Phanandah)
- Uchitvar (Uchati Bhandarisam)
- Pandulivar
- Kataivar
- Tilaivar

MadhyamMool(Medium Category)

- Dighve (Dirghosh)
- Belauche (Bilvapanchak / Belauvch)
- Ekahare
- Panichobhe (Govindavan Panichobh)
- Valiase (Ekama Valiyas)
- Jajival (Dandapani Jajival)
- Takval (Haripani Takval)
- Pandue

Note on Branching: Over time, secondary branches emerged. For example, the Khanam branch of the *PhanandahMool* eventually gained recognition as the 35th high-tier lineage.

3. Mapping ofShrotriyaMoolgrams

For the elite Shrotriya class, the Panji preserves specific village records:

- Shandilya Gotra: Sarisab (Mool) maps to the Khanguad, Sakuri, and Jonki Moolgrams; Parvapalli maps to Vadhiyam; Khandavala maps to Bhaur; and Sodarpur maps to Sarisab, Mani, Digaundh, Tetarihar, Kanholi Katka, and Hati.
- Vatsa Gotra: Pali maps to Mahishi, Mangrauni, and Jamadauli; Hariamb maps to Valirajpur; Ghusaut maps to Nagwad; and Karmaha maps to Ruchauli, Naruvad, Behat, Tarauni, Jhanjharpur, and Analpur.
- Kashyap Gotra: Khauwal maps to Simvarwad, Murajpur, and Mahua; Sakaradhi maps to Parhat and Lohana; Darihara maps to Ratauli; and Maandar maps to Sihauli, Rajaura, Kanasama, and Patanuka.

4. Practical Apparatus: The Panjikars, Utehd, and Siddhantpatra

The operational validity of the system rests entirely on state-appointed **Panjikars**. These genealogists preserve massive, bound manuscripts written on palm leaves (Talapatra) or specialized paper (Basahapatra) in the traditional **Tirhuta (Mithilakshar)** script.

Step 1: Family applies to Panjika 5-10 years before marriage.

Step 2: Panjika drafts the Utehd (Ancestry Matrix of 32 lines).

Step 3: Cross-verifies the 16 Chhatis for Sapinda/Sagotra conflicts.

Step 4: Public verification at Saurath Sabha Gachhi.

Step 5: Issuance of the Siddhantpatra (Certificate of Exogamy).

4.1 Process of Verification

- The Request: Several years before an individual reaches marriageable age, the family approaches a Panjika to draw up an Utehd Card containing prospective, validated matches.
- Manuscript Cross-Referencing: The Panjika pulls down their records—including the historical Mool Panji (the baseline ancestor lists), the Shakha Panji (extended branch histories updated down to every newborn

and marriage), and the Patra Panji (location and village movement charts).

- The Assembly Verification: Every summer, during the auspicious astrological periods, thousands of families assemble at the Saurath Sabha Gachhi (a large orchard in Madhubani). The Panjikars sit with their manuscripts to publicly verify the lineages of prospective brides and grooms.
- Siddhantpatra Issuance: Once the Panjikaar verifies that there are zero Sapinda, Sagotra, or Sapravara violations across the 32 ancestral lines, they issue a formal document called the Siddhantpatra (also known as the Asvajana Patra or non-kinship certificate). A marriage conducted without a verified Siddhantpatra is declared uncanonical and illegitimate (Ashastriya).

5. Extensive Case Studies of Historical Lineages

The Panji manuscripts provide detailed records of historical figures, serving as an important tool for verifying chronology in Indian history. Below are transcriptions and structural analyses of the family trees of key scientists, logicians, and poets found in the registers.

5.1 The Lineage of the Astronomer Aryabhata

A common challenge in Indian history is confirming the regional origins and exact dates of the legendary astronomer Aryabhata. The Mandar Mool register clearly tracks Aryabhata's lineage back across generations, placing his family origins in the Mangrauni-Maandar axis of Mithila:

Trinayanbhatta (c. 400 A.D. Foundational Ancestor / Beeji)

↓

Udayabhata

↓

Vijayabhata

↓

Sulochandabhata (Sunayanbhatta)

↓

Bhatta

↓

Dharajatimishra

↓

Dharajatimishra II

↓

Mahovaraha

↓

Duryodhan Singh

↓

Sodhar Jaysingh Tarkacharyastra (scholar of defensive arts)

↓

M.M. Narasingh (scholar of advanced arts)

Manuscript Entry Reference (Page 18):

"Mahipatayah Mangrauni Mandair se Pitambar Suta Damu Dau Mandu Beeji Trinayanbhatta: e suto Aryabhata: e suto Udayabhata: e suto Vijayabhata e suto Sulochandabhata... e suto Tripurajati Mishra e sut Vidhujati Mishra e suto Ajaysingha e suto Vijaysingha... e suto Duryodhan Singh e suto Sodhar Jaysinghartacharyastras Mahastra Vidya Parangata Mahamahopadhyaya Narasingha."

This line demonstrates how the Panji tracks intellectual titles (like Mahamahopadhyaya) and tactical specialties alongside names, establishing an unbroken lineage across centuries.

5.2 The Lineage of the Logician Gangesha Upadhyaya

Gangesha Upadhyaya, the 14th-century intellectual giant who founded the Navya-Nyaya school of logic through his masterwork Tattvacintamani, is recorded in the *ChhadanMool* register. His record is particularly notable for confirming a major historical event: his birth occurred five years after his father's death.

6. TheDooshanPanji: Documentation of Social Integration

A common misconception is that the Panji Prabandh operated as an inflexible system of caste purity that completely isolated families. In reality, the existence of the**DooshanPanji** (Fault/Degradation Register) proves that the Panjikars systematically documented boundary-crossings, cross-caste marriages, and alternative unions.

Rather than casting out the offspring of irregular marriages, the Panji system tracked them over generations. This allowed their descendants to be integrated back into the mainstream fold once the generational distance cleared them from the original Dooshan infraction.

The manuscripts list detailed records of unconventional unions across families:

6. Inter-Caste and Extramarital Unions tracked in theDooshanPanji

The records note several specific historical exceptions:

[Case 1: Integration of Unknown Lineage]

Yavanas/Unknown Tribe × Chamaroo (Valiyas Mool)

↓

Gangadhar

↓

Daughter × Nathu (Sarisab Mool)

↓

Visho

↓

Daughter × Gangu (Sakaradhi Mool)

↓

Goge

↓

Daughter × Kanh (Panichobh Mool)

Chand

↓

Daughter × Horai (Pali Mool)

↓

Ram (Maternal side unknown)

↓

Daughter × Chand (Narval Mool)

↓

Devadhar

(Declared perfectly pure by 6th gen!)

- Case 1 Analysis: The text details that Gunavati Himsha, an individual of unknown/outside caste status, married Chamaroo of the Valiyas Mool. Their son, Gangadhar, married into the Sarisab Mool. By the time the

lineage reached Devadhar in the sixth generation, the ancestry was considered fully integrated and pure (Purnatah Shuddh), completely neutralizing the original Dooshan.

- The Devadasi/Ajnata Origins: Multiple prominent lines trace back to Devadasis (temple dancers) or recorded Ajnata Kula (unknown maternal lineages). The registers list figures like Jagannath (Satalakha Mool), Ratanu (Ghusaut Mool), Ram (Pali Mool), and Vidhoo (Tilay Mool) whose maternal sides were unknown, yet their descendants remained respected members of Maithil society.
- Islamic/Yavana Integration: The registers document marriages involving elite Muslim women. For instance, the Pabauli Mool record notes that Dagar, the son of Pandit Keshava, married Dhaulati Jahan, a Yavana woman. Their son, Harihar, was recorded directly into the registry without facing social exclusion. Similarly, the Kujouli Mool records the line of Gopal, whose son Lakhusa also married into the family of Dhaulati Jahan.
- The Legend of Gangesha's Birth: The entry for Gangesha Upadhyaya in the Dooshan Panji contains a notable note: "Pitri Parokshe Pancha Varsha Vyatite Gangeshotpatti". This explicitly states that Gangesha was born five years after his father had passed away, noting that his mother, Vallabha, was a Charmakarini (from the shoemaker caste). The Panji records this union openly, alongside Gangesha's output of the Tattvacintamani, without removing him from the scholarly register.
- The Chamar/Leatherworker Unions: The Talhanpur Mool records that Ananda a leatherworker woman (Charmakarini) got married, and their son, Diwakar, was preserved in the records. Similarly, the Mandar Mool records Hirua, a Chamar individual whose daughter married into the elite Alei Mool.
- The Rajak/Washerman Unions: The Khauil Mool records Rajeshwar, who married a washerman's daughter (Rajak Kanya). Additionally, the Sodarpur Mool traces the lines of Dharam and Maniki, noting a long-standing Rajak relationship within their ancestry.
- The Koch Royalty Union: The Khandavala Mool register records that the daughter of Pandit Chandraputi married into the Koch Rajvanshi royal family of Assam, bringing Princess Sohago into the lineage.

7. Sociological Evolution: Stratification and Social Ramifications

While the Panji Prabandh was designed as a tool for genetic exogamy, its implementation over the centuries brought deep social changes and unintended consequences to Mithila.

7. internal Stratification: Shrotriya, Jog, and Jaibar

The original deployment under Maharaja Harisinghadeva treated all families as structurally equal within their respective caste registers. However, during the reign of Maharaja Madhav Singh (mid-to-late 18th century), the introduction of the **Shakha** Panji completely transformed Maithil society.

A complex, hierarchical classification emerged, breaking the community into three strict tiers:

- Shrotriya (Soti): The highest social tier, comprising families with impeccable records of scriptural scholarship and zero lineage blemishes across generations. Their registers are referred to as Laukit registers, split across 8 primary Chaugoala tiers and 32 dynamic sub-panjis.
- Jog (Yogya): The intermediate category, consisting of families with minor documented Dooshan infractions or lineages that had slightly diverged from the highest standard of scholarship.
- Jaibar (Vanshaja): The baseline populace tier. Though their lineages were fully documented and verified for marriage validity, they did not receive the elite social privileges granted to the Shrotriyas. They track 15 distinct social tiers using 153 specific Panji indices (such as the Narapati Jha Panji).

7.2 Social Ramifications: Hypergamy, Child Marriage, and Widowhood

This rigid internal hierarchy distorted the marriage market through hypergamy (Anuloma unions). Because marrying a daughter into a higher-tier Shrotriya family raised the social standing of her entire clan, demand for Shrotriya grooms spiked dramatically. This dynamic triggered severe social issues across Mithila:

- The Rise of Polygamy: Wealthy, high-tier Shrotriya men began marrying dozens of women from lower Jaibar or Jog tiers, often treating marriage as a financial arrangement driven by substantial dowries.
- Child Marriages: Families raced to marry off daughters at very young ages to secure alliances with high-status grooms before the marriage market shifted.

- The Crisis of Widowhood: Because old, higher-tier men frequently married young girls, a large demographic wave of child widows emerged across Mithila. Due to strict religious prohibitions against widow remarriage at the time, these girls faced a lifetime of social isolation.

8. Conclusion and Modern Transition to Digital Conservation

The Panji Prabandh represents an early, highly structured approach to genetic genealogy, tracking bloodlines with precision long before the advent of modern computers or DNA sequencing. It effectively prevented inbreeding depression within a concentrated population across generations.

However, when the system shifted from its original focus on genetic health toward enforcing social status and hierarchy, it introduced deep social imbalances, including hypergamy and child marriage, which affected Maithil society for generations.

Today, the Panji system faces an existential threat. The decline of traditional scripts like *Tirhuta(Mithilakshar)* has left younger generations unable to read the original palm-leaf records.

To protect this historical resource, digital conservation efforts began in 2000 A.D.. Over 10, historic palm-leaf, Basahapatra, and paper manuscripts—spanning over 1, years of genealogical data—have been digitally imaged, mapped onto modern storage media, and transliterated into the widely accessible Devanagari script. This ensures that one of humanity's deepest genealogical archives remains preserved and open to historical and genetic research.

PART 2

COMPREHENSIVE ANALYTICAL REPORTS

Chapter 4

Analytico-Genetic Report on the Mithila Panji Prabandh: Socio-Historical Evolution, Taxonomic Structure, and Matrimonial Algorithms

Comprehensive Analytico-Genetic Report on the Mithila Panji Prabandh: Socio-Historical Evolution, Taxonomic Structure, and Matrimonial Algorithms (450 AD–2009 AD)

Architectural and Geo-Cultural Framework of Mithila's Varna State

The region of Mithila, historically recognized under the classical nomenclatures of Videha, Tirabhukti, Tirhut, or Mithilanchal, is a geographically and culturally distinct territory bounded by the Himalayas in the north, the Ganges River in the south, the Gandak River in the west, and the Mahananda River in the east. From antiquity, this region has served as an intellectual crucible for the development of Vedic, Upanishadic, and classical Sanskrit learning, nurturing major orthodox philosophical systems, including Nyaya, Vaisheshika, Mimamsa, and Samkhya.

Following the dissolution of the Pala dynasty in Bengal, Mithila transitioned into a socio-political order dominated by high-ranking landowning and priestly lineages. In this unique administrative landscape, the Maithil Brahmins assumed positions as both Bhudevas (landowners) and Bhupalas (monarchs or state protectors), effectively unifying temporal and spiritual authority. To preserve this concentrated authority and defend the orthodox social order against external socio-religious changes, the regional dynasties established the Panji Prabandh—an exceptionally comprehensive system of written, state-regulated genealogical record-keeping.

Volume Classification | Documented Section Name | Page Index Range |
Editorial Board and Publication

Volume I | Ancient Panji (Prachin Panji) | 1.1 – 1.337 | Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha; Published by Shruti Prakashan, Delhi 9

Volume II | Supplementary Annotations (Upateep) | 2.1 – 2.147 | Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha; Published by Shruti Prakashan, Delhi 9

Volume III | Territorial Settlements (Nagram) | 3.1 – 3.316 | Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha; Published by Shruti Prakashan, Delhi 9

Prior to the state-sponsored codification of the Panji Prabandh in the fourteenth century, the preservation of lineage was decentralized. Families recorded their ancestry through oral transmission or localized, family-held manuscripts known as Samuh Lekhya. The seventh-century Mimamsa scholar Kumarila Bhatta, in his monumental philosophical work *Tantra Varttika*, explicitly notes that elite families maintained Samuh Lekhya as a formal mechanism to track virtues, defects, and ancestral lineages across generations, ensuring the preservation of caste identity.

However, by the late thirteenth and early fourteenth centuries, these decentralized records had suffered significant decay, leading to genealogical amnesia within families. This loss of historical memory made it difficult to verify the exogamic restrictions mandated by the Smriti texts, resulting in accidental violations of marriage laws. This growing social crisis eventually prompted the royal administration to intervene.

Historical Catalysts and the Legend of Harinath Upadhyaya

The formal codification of the Panji Prabandh took place during the reign of Maharaja Harisimhadeva (r. 1307–1324 AD), the last sovereign of the Karnat dynasty of Mithila. While the political stability of the Karnat state was disrupted in 1324–1325 AD by the military campaign of Delhi Sultan Ghiyasuddin Tughlaq—forcing Maharaja Harisimhadeva to withdraw to the Nepal hills—the structural framework of the genealogical registry had already been established under his patronage.

The immediate catalyst for this administrative initiative was a highly publicized social scandal involving Pandit Harinath Upadhyaya, an eminent scholar of Dharmashastra and the author of the *Smritisarasangraha*. Due to

the degradation of family records, Harinath Upadhyaya unknowingly married a woman who fell within the prohibited degrees of consanguinity—specifically, his maternal cousin's daughter (saakshat pitayaut bhaik dauhitri). Sometime after the wedding, Upadhyaya's wife was accused of infidelity with an individual of a lower caste.

To assert her innocence and prove her marital fidelity, she was subjected to a traditional hot-iron ordeal. Despite her absolute physical innocence, her hands were severely burned during the test.

The failure of a chaste woman to pass a divine ordeal prompted an intense inquiry by the court pandits under Maharaja Harisimhadeva. The investigation revealed that while she had been physically faithful to her husband, her hands had burned because she had committed the sin of incest by marrying within prohibited kinship degrees (swajana). Realizing that the absence of written genealogies left the community vulnerable to accidental incestuous marriages, Maharaja Harisimhadeva ordered the creation of a systematic genealogical register for every family in the Maithil Brahmin and Karna Kayastha communities.

This state-sponsored census was initiated around Shaka 1248 (corresponding to 1326–1327 AD). The King convened the historic Vishwachakra Sammelan at Jamsam, located in the Pandaul region of Madhubani, where genealogists gathered family trees from every village.

To manage this archive, the King established a state department of genealogy and appointed specialized registrars known as Panjikars. Sadupadhyaya Gunakar Jha, of the Madhudhepur Pandua lineage, was appointed as the first Panjikaar for the Brahmins. Simultaneously, Shankardutt was appointed to manage the records of the Karna Kayasthas, and Vijayadutt was appointed for the Kshatriyas, specifically the Gandhavariya Rajputs.

The female scholar Thakurain Lakhima, a contemporary of Harisimhadeva celebrated for her expertise in Dharmashastra, also played a key role in developing this institutional framework, contributing her scholarly authority to the design of the registry.

Taxonomic Architecture: Gotras, Mools, and Shakhas

The Panji Prabandh identifies and maps family lines using three primary coordinates: the Biji Purush (progenitor seed-man), the Mool (original ancestral village of the Biji Purush), and the Moolgram/Shakha (subsequent

village migrations). The Biji Purush represents the earliest historically verifiable ancestor of a specific patrilineage. The Moolgram identifies the geographical village where this progenitor resided at the time of the fourteenth-century census. As descendants migrated over time, these new settlements were recorded as Shakhas (branches) and appended to the original Mool.

For example, the Kaushik-gotra Mandar mool split into branches like the Mangroni and Garh shakhas. Similarly, the Khandila mool, associated with the Khadauray lineage, originally originated from the Gangoli (Gangulivar) mool. When the medieval scholar Mahamahopadhyaya Shankarshan Thakur established his academy in the Khanda province (modern Madhya Pradesh), his descendants lived there for several generations. In the eighth generation, Surapati Thakur returned to Mithila, and his descendants were categorized under the Khandila mool's Ghoshi branch.

At its inception, the Panji registry classified the Maithil Brahmin community into 20 Gotras (clans) representing patrilineal descent from ancient Vedic sages, containing 167 primary Moolgrams. Within these, 34 original mools—which later expanded to 35 with the inclusion of the Khanam branch of the Phanandah mool—were recognized as prestigious high-ranking lineages.

Gotra Index | Gotra Name | Pravara Classification | Representative Moolgrams and Lineages Associated

1 | Shandilya | Tri-Pravara (3 Sages) | Dirghosh (Dighve), Sarisab, Mahua, Parvapalli (Pavoli), Khandabala, Gangoli, Yamusham, Karian, Mohari, Sajhual, Madar, Pandoli, Jajival, Dahibhat, Tilay, Mahab, Simmual, Singhasram, Sodarpur, Kadariya, Allari, Hodyar, Talhanpur, Parisara, Parasada, Veernam, Uttampur, Kodariya, Chhatiman, Vareva, Machheal, Gangaaur, Bhatior, Budhaura, Brahmpura, Koiar, Kerahivar, Gangual, Ghoshiyam, Chhatauni, Bhigual, Nanauti, Tapanpur

2 | Vatsa | Pancha-Pravara (5 Sages) | Palli (Pali), Hariamb, Tisuri, Raudh, Takval, Ghusaut, Jajival, Pahaddi, Jallaki (Jalay), Bhandval, Koiyar, Kerahivar, Nanaur, Dadhar, Karmaha, Budhval, Madar, Lahi, Sauni, Sakauna, Phanandah, Mohari, Vanthval, Tisaut, Baruali, Pandoli, Baheradhi, Bareva, Alay, Bhandarisamay, Babhaniyam, Uchati, Tapanpur, Vithual, Narval, Chitrapalli, Jarhatiya, Ratval, Brahmpura, Sarauni

3 | Kashyapa | Tri-Pravara (3 Sages) | Oini, Khauval, Sakaradhi, Jagati, Darihara, Mandar, Valias, Pachaut, Katai, Satlakha, Pandua, Malich, Merandi, Bhadual, Pakaliya, Budhval, Pibhuya, Mauri, Bhutahari, Chhadan, Visphi, Thariya, Dosti, Bhareha, Kusumbhal, Narval, Lagurdah

- 4 | Savarna | Pancha-Pravara (5 Sages) | Sondpur, Panichobh, Bareba, Nandor, Merandi
- 5 | Parashara | Tri-Pravara (3 Sages) | Naraun, Suragan, Sakuri, Suiiri, Sammual, Pihval, Nadam, Maheshari, Sakrahon, Soini, Tilay, Bareba
- 6 | Bharadwaja | Tri-Pravara (3 Sages) | Ekahara, Vilvapanchak (Belaunch), Deyam, Kaligam, Bhutahari, Godhar, Godhuli
- 7 | Katyayana | Tri-Pravara (3 Sages) | Kujoli, Nanauti, Jallaki, Vatikam
- 8 | Garga | Pancha-Pravara (5 Sages) | Vasaha, Vasam, Brahmpura, Suraur, Budhaur, Uraur
- 9 | Kaushika | Tri-Pravara (3 Sages) | Nikhuti
- 10 | Alambukaksha | Tri-Pravara (3 Sages) | Vasam, Katai, Brahmpura
- 11 | Krishnatreya | Tri-Pravara (3 Sages) | Lohana, Busavan, Podauni
- 12 | Gautama | Tri-Pravara (3 Sages) | Brahmpura, Untampur, Kodyar
- 13 | Maudgalya | Tri-Pravara (3 Sages) | Ratval, Malich, Dirghosh, Kapinjal, Jallaki
- 14 | Vashistha | Tri-Pravara (3 Sages) | Kothua
- 15 | Kaundilya | Tri-Pravara (3 Sages) | Ekahara, Paraun
- 16 | Jatukarna | Tri-Pravara (3 Sages) | Devahear
- 17 | Tandi | Tri-Pravara (3 Sages) | Katai
- 18 | Vishnuvridhi | Tri-Pravara (3 Sages) | Busavan
- 19 | Upamanyu | Tri-Pravara (3 Sages) | Unspecified in primary database
- 20 | Kapila | Tri-Pravara (3 Sages) | Unspecified in primary database

Beyond patrilineal gotra associations, the Panji Prabandh divided the Maithil Brahmin community into ranked hierarchies based on their ritual adherence and academic lineage 6:

- Shrotriya: The highest ranked class, composed of families that maintained absolute adherence to Vedic sacraments and scripture, historically requiring the abandonment of five maternal and seven paternal generations in marriage unions.
- Yogya: The respectable class, possessing high intellectual and ritual status, but ranked slightly below the Shrotriyas.
- Panjibaddh (or Vanshaj): Registered lineages whose marriages strictly conformed to the standardized maternal five-generation and paternal six-generation exogamy rules.

- Jaibar (or Jayabar): Families whose records were either incomplete during the initial registration or who suffered lower social status due to non-standard or un-Shastric marriage alliances.

This internal hierarchical system, while initially intended to promote ritual discipline, was made highly rigid during the eighteenth century under Maharaja Madhav Singh of the Khandavala dynasty (Darbhanga Raj). Madhav Singh introduced the Shakha Panji (branch registries) and formalized ranked classifications. This institutionalized hypergamy (similar to the Kulin system of Bengal), creating social divisions and sub-castes within the community.

The Mathematical Mechanics of Matrimony and the Sixteen Chhathis

The primary function of the *Panji Prabandh* is to govern marriages by verifying that no consanguineous relationship exists between the prospective bride and groom. To achieve this, the *Panjikar* constructs a comprehensive genealogical matrix known as the *Utedh*. The *Utedh* maps a 32-ancestor bilateral tree spanning up to six generations on the paternal side and five generations on the maternal side.

The mathematical progression governing this ancestral tracking across g generations is modeled as:

$$N = \sum_{i=1}^g 2^i$$

For the maternal side, where $g = 5$, the system tracks $2^5 = 32$ specific ancestors to verify lineage. This structural configuration ensures that the fundamental exogamic axiom of Hindu law—*Matritah Panchami Tyaktwa, Pitritah Saptami Bhajet* (avoiding five generations on the mother's side and seven on the father's side)—is mathematically satisfied.⁹ In the modified practice established by Mahamahopadhyaya Mahesh Thakur during the sixteenth century, the paternal restriction was adjusted to six generations, while the maternal remained strictly at five.

To verify non-consanguinity, the *Panjikar* must trace the bride's descent from sixteen distinct, highly specific ancestral nodes known as the *Sixteen Chhathis*. If any of these sixteen *Chhathi* ancestors of the bride appear within the prohibited generations of the groom's paternal or maternal pedigree, the prospective union is classified as *Swajana* (consanguineous/incestuous) and is legally and ritually barred.

Chhathi Node | Genealogical Progenitor Designation | Precise Identity
Relative to the Bride

First | Prapitamaha-Pita | Paternal great-grandfather's father

Second | Prapitamaha-Matamaha | Paternal great-grandfather's maternal
grandfather

Third | Pitamaha-Matamaha-Pita | Paternal grandfather's maternal
grandfather's father

Fourth | Pitamaha-Matamaha-Sasura | Paternal grandfather's maternal
grandfather's father-in-law

Fifth | Pitamahi-Prapitamaha | Paternal grandmother's paternal great-
grandfather

Sixth | Pita-Matamaha-Matamaha | Father's maternal grandfather's
maternal grandfather

Seventh | Pitamahi-Pramatamaha | Paternal grandmother's maternal great-
grandfather

Eighth | Pitamahi-Matrumatamaha | Paternal grandmother's maternal
grandmother's maternal grandfather

Ninth | Matamaha-Prapitamaha | Maternal grandfather's paternal great-
grandfather

Tenth | Prammatamaha-Matamaha | Maternal great-grandfather's maternal
grandfather

Eleventh | Matamaha-Pramatamaha | Maternal grandfather's maternal
great-grandfather

Twelfth | Matamaha-Matrumatamaha | Maternal grandfather's maternal
grandmother's maternal grandfather

Thirteenth | Matamahi-Prapitamaha | Maternal grandmother's paternal
great-grandfather

Fourteenth | Matamahi-Pitrumatamaha | Maternal grandmother's paternal
grandfather's maternal grandfather

Fifteenth | Matamahi-Pramatamaha | Maternal grandmother's maternal
great-grandfather

Sixteenth | Matamahi-Matrumatamaha | Maternal grandmother's maternal
grandmother's maternal grandfather

If the Utedh successfully demonstrates that no Chhathi node overlaps with the prohibited generational boundaries of the groom, the Panjekar issues an official certificate of non-consanguinity known as the Aswajana Patra or

Siddhanta Patra. The Siddhanta is a formal social and religious license; without this written certificate, any matrimonial union is declared *ashastriya* (un-Shastric) and is rejected by Maithil society.

Operational Walkthrough of an Utedh Calculation

To illustrate the application of these rules, the following case study analyzes a proposed marriage between a bride from the Karamaha mool and a groom from the Darihara mool.

The bride is the daughter of Shashinath Jha and the granddaughter of Pitambar Jha, belonging to the Karamaha mool, Behat moolgram, and residing in the village of Vittho (Darbhanga). Her maternal grandfather is Narayandutt Thakur of the Khandabala mool, Bhaur moolgram, residing in Dharampur.

The groom is the son of Krishnanand Jha and the grandson of Gopinand Jha, belonging to the Darihara mool, Ratauli moolgram, and residing in Lohana village. The groom is the maternal grandson of Kanhaiya Jha, of the Karamaha mool, Behat moolgram, residing in Vittho.

The Panjekar evaluates the sixteen Chhathi nodes of the bride to ensure no overlap occurs with the groom's lineage 9:

- First Chhathi: The paternal great-grandfather's father is Vishwanath Jha, son of Shankardutt, of the Karamaha mool. Tracing the descent shows that his son is Radhanath, grandson is Kantir (Revatinath), great-grandson is Pitambar, and great-great-granddaughter is the bride. Vishwanath Jha is thus identified as the First Chhathi.
- Second Chhathi: Dhanapati Jha, son of Indrapati Jha of the Madari Valias mool, who is the father-in-law of Radhanath Jha, is identified as the Second Chhathi.
- Third Chhathi: Raghuvar Jha, of the Mandar Sihauli mool, is identified as the Third Chhathi. He is the maternal grandfather's father of Pitambar Jha, with the lineage progressing through his son Feeku Jha, daughter's husband Kantir Jha, grandson Pitambar, and great-granddaughter (the bride).
- Fourth Chhathi: Harshi Jha, of the Pali Mahishi mool, is identified as the Fourth Chhathi. He is the father-in-law of Feeku Jha.

- Fifth Chhathi: Brajnath Jha, of the Sakaradhi Parhat mool, is identified as the Fifth Chhathi. He is the paternal great-grandfather of Pitambar Jha's wife.
- Sixth Chhathi: Maheshwar Thakur, of the Khandabala Bhaur mool, is identified as the Sixth Chhathi. He is the father-in-law of Pitambar Jha's wife's father.
- Seventh Chhathi: Sevanath Mishra, of the Hariam Balirajpur mool, is identified as the Seventh Chhathi.
- Eighth Chhathi: Gadadhar Mishra, of the Sodarpur Sarisab mool, is identified as the Eighth Chhathi.
- Ninth Chhathi: Dharmanath Thakur, of the Khandabala Bhaur mool, is identified as the Ninth Chhathi.
- Tenth Chhathi: Santalal Jha, of the Babhaniyam Karain mool, is identified as the Tenth Chhathi.
- Eleventh Chhathi: Bachharan Jha, of the Karamaha Naduar mool, is identified as the Eleventh Chhathi.
- Twelfth Chhathi: Jikkhan Thakur, of the Khandabala Bhaur mool, is identified as the Twelfth Chhathi.
- Thirteenth Chhathi: Yogilal Mishra, of the Hariam Balirajpur mool, is identified as the Thirteenth Chhathi.
- Fourteenth Chhathi: Kaushilyanand Mishra, of the Sodarpur Digaundh mool, is identified as the Fourteenth Chhathi.
- Fifteenth Chhathi: Maharaj Kumar Babu Guneshwar Singh, of the Khandabala Bhaur mool, is identified as the Fifteenth Chhathi.
- Sixteenth Chhathi: Padmanath Jha, of the Khaual Simarwar mool, is identified as the Sixteenth Chhathi.

During the verification process, the Panjekar compares these sixteen nodes against the groom's pedigree. If any of these sixteen individuals or their direct lineages appear within the prohibited generations of the groom's paternal side, the marriage is rejected. However, if an overlap occurs on the maternal side outside the maternal prohibited degree, the union may be permitted.

In this case, because both the bride and the groom's maternal grandfather descend from the Karamaha mool and Behat moolgram, the Panjekar must carefully calculate the exact generational distance from their common

ancestor, the Biji Purush. If the groom is within six generations or the bride is within five generations of the common ancestor, the union is barred.

Typology of Panji Manuscripts and Preservation Traditions

The Panji Prabandh archive is divided into seven distinct types of specialized registers, each serving a specific function within the genealogical system 9:

- **Mool Panji:** The foundational, comprehensive pedigree register that records the main family trees of the entire community, organized by their Biji Purush and original villages.
- **Shakha Panji:** The branched registry system introduced during the reign of Maharaja Madhav Singh, which tracks the migration of families to secondary settlements (shakhas) and records social stratifications.
- **Gotra Panji:** A specialized index organized by the 20 Gotras, documenting the ancient villages and sages associated with each clan.
- **Patra Panji:** A territorial registry system established approximately 500 years ago, which records family histories by village names, facilitating spatial tracking.
- **Dushan Panji:** A register that documents social and ritual decline, recording past un-Shastric marriages or other transgressions to warn families and protect the community's ritual standing.
- **Utedh Panji:** The register used to verify sapinda-exogamy, mapping paternal and maternal lineages to ensure marriages conform to Smriti regulations.
- **Aswajanyapatra Panji:** A specialized registry containing copies of the issued certificates of non-consanguinity, serving as a legal and social record of approved marriages.

An exceptional exception within this system is the Rasadh-Araria Panji, which is the only registry that systematically records the names of female ancestors. In other registers, female names are omitted, and maternal lines are tracked through their fathers' names.

Because these manuscripts were written on fragile palm leaves and handmade paper, the Panjikars developed strict preservation protocols. A traditional Sanskrit conservation mantra was used to guide the care of the documents:

This translates to: "Protect the manuscript from water, protect it from oil, and protect it from loose or poor binding." 9 Additionally, the Panjikars were

advised to dry the manuscripts under the sun only when it entered the constellation of Leo (Singh Rashi, between August 16 and September 15). The atmospheric heat during this late-summer period is exceptionally dry and powerful, making it ideal for drying the fragile leaves without making them brittle.

The Spatial Ecology of Sabhagachis and the Matrimonial Assemblies

To put this complex genealogical verification system into practice, the sovereigns of Mithila established fourteen designated, state-supervised venues known as Sabhagachis. These Sabhagachis were large, open-air campuses situated in sacred mango groves, where thousands of families, scholars, and Panjikars gathered annually during the auspicious wedding seasons.

Sabhagachi Locus | Geographical/District Association | Historical Prominence and Contemporary Status

Saurath | Madhubani District | Historically the preeminent assembly site; remains active and is celebrated as Saurath Sabha 4

Sasaula | Sitamarhi District | Highly active historical site; continues to host annual marriage assemblies 8

Partapur | Darbhanga Region | Maintained under the patronage of the Darbhanga Raj; now largely inactive 8

Khanagadi | Madhubani Region | Important historical node; now used primarily for local records 8

Sukhasana | Saharsa Region | Served eastern Mithila; now largely defunct 8

During these assemblies, families sat under the shade of mango trees while Panjikars consulted their palm-leaf registers to cross-reference the lineages of prospective couples. Once the Panjikars confirmed that the proposed union met all exogamic requirements, they issued the Siddhanta Patra in public, allowing the wedding to proceed.

These assemblies served not only as matrimonial markets but also as cultural and intellectual centers where scholars engaged in public debates (Shastrartha). To ensure the integrity of this system, Panjikars had to pass the Dhaut Pariksha, a rigorous ten-year course of study and examination held at the court of the Darbhanga Raj. Successful candidates were awarded the title

of Panjekar and honored by the state, establishing a highly respected class of professional genealogists.

Bio-Anthropological Insights and Modern Genomic Parallelisms

From a bio-anthropological perspective, the Panji Prabandh represents a highly sophisticated pre-modern system of genetic mapping and public health management. Although medieval lawgivers framed the Panji rules in terms of ritual purity and religious duty, the system is deeply aligned with the scientific principles of avoiding close-kin mating.

In small, endogamous communities, marriages between close relatives significantly increase the coefficient of inbreeding (F), leading to high homozygosity of deleterious recessive alleles. This causes inbreeding depression, which manifests as congenital abnormalities, developmental delays, and weakened immune systems.

By enforcing strict, multi-generational bilateral exogamy, the Panji Prabandh effectively prevented the concentration of these harmful recessive genes, protecting the genetic health of the community.

A major strength of the Panji system is its bilateral approach. While many patriarchal societies only track the father's direct patrilineal line, the Utedh and the sixteen Chhathis place equal emphasis on maternal lineages.

By tracking maternal ancestors across five generations, the system monitors mitochondrial DNA (mtDNA) lines and prevents the concentration of rare maternal genetic disorders.

Additionally, because the system tracks complex female-male ancestral crossings up to five generations, it limits autosomal genetic sharing, keeping the coefficient of kinship between partners low.

The massive scale of this archive is demonstrated by the research of modern historians and genealogists. The transcription of over 11, palm-leaf manuscripts by scholars Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha shows that the Panji records trace uninterrupted lineages of millions of individuals from approximately 450 AD to 2009 AD.

This represents one of the largest continuous human pedigree databases in existence, predating and rivaling modern national genealogical databases. The Panji is not merely a list of names; it serves as a demographic record, documenting ancestral migrations, historical educational titles (such as

Upadhyaya, Mahamahopadhyaya, and Pandit), and physical relocations across six centuries.

Contemporary Crisis and the Future of Mithila's Archives

Despite its historical, scientific, and cultural significance, the Panji Prabandh faces severe challenges in the modern era. Changing lifestyles, urbanization, and global migration have scattered the Maithil Brahmin and Karna Kayastha populations, distancing younger generations from these traditional customs.

The practice of gathering at Sabhagachis has declined significantly, and many families now rely on digital matchmaking platforms and horoscope software, which lack the deep lineage verification of the Utedh.

This decline has also had a severe impact on the Panjikars themselves. Historically, becoming a Panjika required a demanding ten-year course of study at the court of the Darbhanga Raj, culminating in the rigorous Dhaut Pariksha examination. Scholars who passed this state examination were awarded the prestigious status of a licensed genealogist.

Following the dissolution of the Darbhanga Raj, the Dhaut Pariksha was discontinued, and the profession became largely hereditary, lacking formal institutional training. Because the profession offers little financial stability in the modern economy, younger members of Panjika families are increasingly pursuing other careers, leaving only a small number of elderly registrars to maintain these massive archives.

The physical preservation of the genealogical records is also a matter of urgent concern. The vast majority of these 700-year-old records are written in the traditional Mithilakshar (or Tirhuta) and Kaithi scripts on fragile palm leaves and aging, handmade paper. These manuscripts are highly vulnerable to humidity, dust, insect damage, and daily wear and tear.

In the absence of a systematic, state-funded archiving program, centuries of valuable genetic, demographic, and sociological history are at risk of being lost forever. Scholars and cultural organizations have emphasized that there is an urgent need to digitize, catalog, and preserve these palm-leaf records.

Digitizing the Panji would not only preserve Mithila's cultural heritage but would also create an invaluable resource for modern genetic research, enabling bio-medical studies to map hereditary diseases and population genetics across South Asia.

Chapter 5

The Socio-Genetic Architecture of Mithila: An Exhaustive Anthropological and Historical Analysis

The Socio-Genetic Architecture of Mithila: An Exhaustive Anthropological and Historical Analysis of the Panji Prabandha (450 AD – 2009 AD)

Introduction and Regional Context

The cultural and geographical region of Mithila, historically designated as Videha, Tirabhukti, Tirhut, or Mithilanchal, is situated between the foothills of the Himalayas to the north and the Ganges River to the south, bounded by the Gandaki River to the west and the Mahananda River to the east. For millennia, this territory has served as a primary sanctuary for Vedic and Upanishadic scholarship, fostering unique socio-legal systems that governed local populations under strict shastric frameworks. Politically, Mithila's history is marked by a succession of influential dynasties, notably the Pala Empire, the Karnata Dynasty, the Oiniwar Dynasty, and the Khandavala Dynasty (ruling as the Darbhanga Raj).

Within this historical framework, the social hierarchy of Mithila evolved a distinct power dynamic characterized by the convergence of Bhudevas (landowners) and Bhupalas (land protectors). In Mithila, the priestly class and the ruling class closely aligned their authority, with the monarchs serving as both secular administrators and protectors of the orthodox Brahmanical social order. To preserve this structure against socio-cultural shifts and external invasions, the state instituted the Panji Prabandha—an extensive, highly structured system of genealogical record-keeping maintained for the Maithil Brahmins and Karna Kayasthas. This system established strict endogamous boundaries through state-enforced marital regulations, making it

one of the most comprehensive genealogical and genetic archiving systems in human history.

Historical Foundations and the Crisis of 1326 AD

Prior to the formalization of the Panji Prabandha, genealogical tracking in Mithila was decentralized and maintained through oral traditions and informal family records known as Uteadh. Marital alliances relied on the recollection of ancestral lineages up to a few generations and the matching of Gotras. However, as the population expanded and migrated across different river systems, these oral networks proved insufficient to prevent accidental endogamous violations of prohibited degrees of kinship (Sapinda).

|
(Inability to reliably verify distant cousinship)

[Pandit Harinath Upadhyaya's Accidental Incestuous Marriage]

|
(Socio-religious crisis and royal court trial by ordeal)

The institutionalization of the Panji Prabandha was precipitated by a major socio-religious crisis in 1326 AD. Pandit Harinath Upadhyaya, a highly respected authority on Dharma-shastra and the author of the Smritisar, resided in the village of Satadhara. Lacking detailed written records of his maternal lineage, he inadvertently married his cousin—specifically, his paternal uncle’s daughter’s daughter (pitayaut bhaik dauhitri).

The transgressive nature of this union was exposed following an incident where an "untouchable" man of the Dusadh caste approached Pandit Harinath's wife. Though she was vindicated through a trial by ordeal—where her chastity was tested by fire—subsequent investigations in the royal court revealed that the marriage itself violated sacred law. Under shastric jurisprudence, a marriage within prohibited Sapinda degrees was considered

invalid, and any offspring of such a union were classified as Chandala, leading to exclusion from the Aryan social fold.

Recognizing that even the most learned scholars could no longer accurately trace their lineages orally, the last ruler of the Karnat Dynasty, King Harisimhadeva (reigned 1304–1325/1326 AD), intervened. In Sake 1248 (corresponding to 1326 AD), the king decreed that the state would take over the documentation of family histories. He convened a grand assembly of scholars, known as the Vishwachakra Sammelan, at Jamsam (Pandaal, Madhubani district) in 1327 AD.

At this assembly, King Harisimhadeva appointed official genealogists, known as Panjikars, who were tasked with conducting a comprehensive census of every family's lineage, gotra, pravara, ancestral village, and migrated settlements. This registry was designed to ensure that no future marriage could occur within the prohibited degrees of kinship.

[King Harisimhadeva]

[Karna Kayasthas]

(Registrar: Gunakar Jha) (Registrar: Shankardatt) (Registrar: Vijaydatt)

The king appointed specific registrars for the three principal socio-political groups of Mithila :

- Saduphyadhyaya Gunakar Jha of the Mahendrapur-Pandua lineage was appointed the registrar for the Maithil Brahmins.
- Shankardatt was appointed the registrar for the Karna Kayasthas.
- Vijaydatt was appointed the registrar for the Kshatriyas, particularly the Gandhavariya Rajputs.

The Panji system was later patronized by subsequent ruling dynasties, including the Oiniwar dynasty and the Khandavala dynasty (Darbhanga Raj). To maintain high standards, the Darbhanga Raj established a ten-year academic program. Aspiring Panjikars had to pass a rigorous examination, the Dhaut Pariksha, after which they were formally authorized as registrars. Over time, following the dissolution of the Darbhanga Raj, this system transitioned into a hereditary guild.

Socio-Ritual Divisions and Sub-Caste Formations

The implementation of the Panji Prabandha codified existing ritual and philosophical distinctions within the Maithil Brahmin community. At its core, the community was divided along Vedic and ritual lines into two groups :

- vājasaneyī (Vajasaneyi): Followers of the Madhyandina branch of the White Yajurveda.
- chandoga (Chandogya): Followers of the Kauthuma branch of the Samaveda.

These ritual divisions are marked by distinct lifecycle ceremonies (Sanskara), particularly during the Upanayana (sacred thread ceremony) and the Vivaha (marriage rituals) :

Lifecycle Ceremony | Vajasaneyi (Yajurvedi) Practice | Chandogya (Samavedi) Practice

Upanayana Sacraments | Comprises four distinct rituals: 1. Chudakarana (tonsure) 2. Upanayana (investiture) 3. Vedarambha (initiation into Vedic study) 4. Samavartana (graduation) | Comprises four distinct rituals: 1. Namakarana (naming) 2. Chudakarana (tonsure) 3. Upanayana (investiture) 4. Samavartana (graduation)

Vivaha (Marriage) Structure | Conducted as a single, continuous ceremony that can be performed during either the day or the night. | Divided into two distinct parts: 1. Purva-vivah (initial marriage) 2. Uttara-vivah (concluding marriage), performed strictly after sunset after viewing the star Arundhati.

At a broader level, Mithila's codification reflects the wider regional classification of Indian Brahmins. According to puranic frameworks, the Brahmin community of India is divided into ten categories, separated geographically by the Vindhya Range into the Pancha-Gauda (Northern) and Pancha-Dravida (Southern) groups :

|

[Pancha-Gauda]

- | | |
|---------------------------------|-----------------------|
| 1. Utkal (Odishan) | 1. Karnat (Karnataka) |
| 2. Kanyakubja (Gangetic Plains) | 2. Gurjar (Gujarati) |

- | | |
|--------------------------------|---------------------------|
| 3. Gauda (Bengali) | 3. Tailang (Andhra) |
| 4. Maithil (North Bihar/Nepal) | 4. Dravida (Tamil/Kerala) |
| 5. Saraswat (North-Western) | 5. Maharashtra (Marathi) |

Within this framework, Maithil Brahmins developed a distinct identity shaped by their unique geography, dietary habits, language, and the local administrative influence of the Panji system.

Taxonomic Architecture: Gotras, Mulas, and Mulgrams

The structural integrity of the Panji Prabandha relies on three key concepts: the Biji Purush (the seed ancestor), the Mula (the ancestral village), and the Mulgram (the village of migration).

The Biji Purush is the earliest identifiable ancestor of a lineage, serving as the root of the family tree. The Mula represents the original territorial settlement where this Biji Purush resided at the time of the 1327 AD census. If a family migrated to a new village, their new residence was recorded as the Mulgram, which was appended to their original Mula to track the family's geographic movement (e.g., Mandar-Garh or Mandar-Mangarouni).

At the time of the census, the community was classified into twenty patrilineal Gotras (clans). Each Gotra is associated with specific Pravaras (groups of Vedic rishis) and original Mulas.

The system recognizes twenty distinct Gotras, classified by their Pravara structures :

Gotra | Pravara Type | Associated Pravara Sages | Associated Original
Mulas (Ancestral Settlements)

Shandilya | Tri-Pravara | Shandilya, Asit, Deval | Dirghosh (Dighve),
Sarisab, Mahua, Parvapalli (Pavouli), Khandabala, Gangoli, Yamusham,
Karian, Mohari, Sajhual, Madar, Pandoli, Jajiwal, Dahibhat, Tilay, Mahab,
Simmual, Singhasram, Sodarpur, Kadariya, Allari, Hodyar, Talhanpur,
Parisara, Parasada, Virnam, Uttampur, Kodariya, Chhatiman, Vareva,

Machehal, Gangaur, Bhat, Budhaura, Brahmpura, Koiar, Kerhivar, Gangual, Ghosiyam, Chatauni, Bhigual, Nanauti, Tapanpur

Vatsa | Pancha-Pravara | Orv, Chyavan, Bhargav, Jamadagnya, Aplavan | Palli (Pali), Hariamb, Tisuri, Raudh, Takwal, Ghusaut, Jajiwal, Pahaddi, Jallaki (Jalay), Bhandwal, Koiar, Kerhivar, Nanaur, Dadhar, Karmaha, Budhwal, Madar, Lahi, Sauni, Sakauna, Phanandah, Mohari, Vanthwal, Tisaut, Baruali, Pandoli, Baheradhi, Bareva, Alay, Bhandarisamay, Babhaniyam, Uchati, Tapanpur, Vithual, Narwal, Chitrapalli, Jarhatiya, Ratwal, Brahmpura, Sarauni

Kashyapa | Tri-Pravara | Kashyapa, Avatsar, Naibhruva | Oini, Khauval, Sankaradhi, Jagati, Darihara, Mandar, Valias, Pachaut, Katai, Satalakha, Pandua, Malich, Merandi, Bhadual, Pakaliya, Budhwal, Pibhuyan, Mauri, Bhutahari, Chhadan, Visphi, Thariya, Dosti, Bareha, Kusumbhal, Narwal, Lagurdah

Savarna | Pancha-Pravara | Orv, Chyavan, Bhargav, Jamadagnya, Aplavan | Sondpur, Panchobh, Bareba, Nandor, Merandi

Parashara | Tri-Pravara | Shakti, Vashistha, Parashara | Naraun, Suragan, Sakuri, Suiri, Sammual, Pihwal, Nadam, Maheshari, Sakrahon, Soini, Tilay, Bareba

Bharadvaja | Tri-Pravara | Bharadvaja, Angiras, Barhaspatya | Ekahra, Vilvapanchak (Belouach), Deyam, Kaligam, Bhutahari, Godhar, Godhuli

Katyayana | Tri-Pravara | Katyayana, Vishnu, Angiras | Kujouli, Nanauti, Jallaki, Vatikam

Alambukaksha | Tri-Pravara | Garga, Gautama, Vashistha | Basam, Katai, Brahmpura

Garga | Pancha-Pravara | Gargya, Ghrit, Vaishampayan, Kaushik, Mandavyatharvan | Basaha, Basam, Brahmpura, Suraur, Budhaur, Uraur

Kaushika | Tri-Pravara | Kaushik, Atri, Jamadagni | Nikhuti

Krishnatreya | Tri-Pravara | Krishnatreya, Aplavan, Saraswat | Lohna, Busavan, Padauni

Maudgalya | Tri-Pravara | Maudgalya, Angiras, Barhaspatya | Ratwal, Malich, Dirghosh, Kapinjal, Jallaki

Gautama | Tri-Pravara | Angira, Vashistha, Barhaspatya | Brahmpura, Untampur, Kodyar

Vashistha | Tri-Pravara | Vashistha, Atri, Sankriti | Kothua

Kaundinya | Tri-Pravara | Astik, Kaushik, Kaundinya | Ekahra, Paraun

Jatukarna | Tri-Pravara | Jatukarna, Angiras, Bharadvaja | Devahar

Tandi | Tri-Pravara | Tandī, Sankhya, Angiras | Katai

Vishnuvridhī | Tri-Pravara | Vishnuvridhī, Kaurapucch, Trasadasūy |
Busavan

Upamanyu | Tri-Pravara | Upamanyu, Angiras, Barhaspatya | (Noted in registers as sparsely populated)

Kapila | Tri-Pravara | Shatatap, Kaundilya, Kapila | (Noted in registers as sparsely populated)

To maintain a clear social record, the genealogist Raghudev Jha compiled a taxonomy dividing these lineages into five status-based categories :

- Ayanta (Superior)
- Varanta (Secondary)
- Madhyama (Intermediate)
- Adhama (Lower)
- Adhamadhama (Lowest)

[Ancestral Lineages]

These structural categories are outlined in the table below :

Categorization | Lineages (Mulas) Included

Ayanta | Khadauray, Khaualay, Budhabalay, Madaray, Dariharay, Ghusautay, Tisautay, Naraunay, Karmahay, Babhaniyamay, Hariambay, Sarisaway, Sodarपुरियay

Varanta | Gangolivar, Pavaulivar, Kujaulivar, Alewar, Vahedarwar, Sakadivar, Palivar

Madhyama | Dighvay, Belauchey, Ekahray, Panchobhe, Valiasay, Jajiwalay, Takwalay, Panduay, Sakun

Adhama | Phanandahwar, Dasautivar, Alariye, Kodariye, Kothuye, Mahue, Busavanay

Adhamadhama | Suraganay, Lagudday, Dahibhatavar, Satalakhay, Uchitivar, Visaivar, Jalaywar

The Mechanics of Exogamy: Utedh and Sapinda Calculations

The primary function of the Panji Prabandha is to enforce strict exogamy rules to prevent inbreeding within the relatively small, endogamous Maithil community. It strictly prohibits unions between individuals who share a common ancestor within a specified number of generations.

To calculate these prohibited degrees, the Panjikars use a standardized genealogical framework known as the Utedh. This tool maps out 32 distinct ancestral lines of both the prospective bride and groom, representing the paternal and maternal grandparents of their ancestors.

The mathematical rule governing marriageability is expressed through generation avoidance limits :

$$\text{Sapinda Avoidance Limit} = \begin{cases} \text{Generation } (g_p) \geq 6, & \text{on Paternal side} \\ \text{Generation } (g_m) \geq 5, & \text{on Maternal side} \end{cases}$$

Historically, under classical Dharma-shastra frameworks (such as the Manu Smriti), the paternal avoidance limit was seven generations. However, in the sixteenth century, Maharaja Mahesh Thakur modified the paternal limit to six generations for practical matching purposes within the community, a standard that has since been followed.

To verify eligibility, the Panjekar cross-references the lineages of both parties against sixteen ancestral nodes, known as the Chhatis (Sixteenths). These nodes represent the sixteen possible maternal and paternal ancestral roots of an individual :

Chhati Node | Genealogical Definition and Kinship Path

1 | Bride's paternal great-great-grandfather (Vridha-prapitama-prapitama)

- 2 | Bride's paternal great-great-grandfather's father-in-law (Vridhdha-pitamahasya Swasura)
- 3 | Bride's paternal great-grandfather's maternal grandfather's father
- 4 | Bride's paternal great-grandfather's maternal grandfather's father-in-law
- 5 | Bride's paternal grandmother's paternal great-grandfather
- 6 | Bride's father's maternal grandfather's maternal grandfather
- 7 | Bride's paternal grandmother's maternal great-grandfather
- 8 | Bride's paternal grandmother's maternal grandfather's maternal grandfather
- 9 | Bride's maternal grandfather's paternal great-grandfather
- 10 | Bride's maternal great-grandfather's maternal grandfather
- 11 | Bride's maternal grandfather's maternal great-grandfather
- 12 | Bride's maternal grandfather's maternal grandfather's maternal grandfather
- 13 | Bride's maternal grandmother's paternal great-grandfather
- 14 | Bride's maternal grandmother's paternal grandfather's maternal grandfather
- 15 | Bride's maternal grandmother's maternal great-grandfather
- 16 | Bride's maternal grandmother's maternal grandfather's maternal grandfather

An alliance is deemed invalid (Aswajan) if any ancestor within these sixteen nodes appears in the groom's paternal lineage within six generations or maternal lineage within five generations.

To illustrate the mathematical application of this system, consider the historic case study of a proposed marriage recorded in the Panji. The verification involved the daughter of Shashinath Jha (of the Karmah-Behat lineage, residing in Vittho, Darbhanga) and the maternal grandson of Kanhaiya Jha (of the Karmah-Behat lineage, residing in Vittho). The bride's mother was the daughter of Narayandatt Thakur (of the Khadabala-Bhaur lineage). The groom's father was Krishnanand Jha, whose paternal grandfather was Gopinand Jha (of the Darihara-Ratauli lineage, residing in Lohna).

The Panjekar mapped out the bride's sixteen Chhatis to verify her lineage :

Chhati Node | Identified Ancestor / Mula-Mulgram | Paternal / Maternal Lineage Path of the Bride

- 1 | Vishwanath Jha | Karmah-Behat Mula (Son of Shankardatt)

- 2 | Dhanapati Jha | Madari-Valiyas Mula (Son of Indrapath Jha)
- 3 | Feku Jha | Mandar-Sihouli Mula (Son of Raghubar Jha)
- 4 | Harshi Jha | Pali-Mahishi Mula (Son of Lakshmidatt Jha)
- 5 | Siddhinath Jha | Sakaradhi-Parhat Mula (Son of Harshanand Jha)
- 6 | Maheshwar Thakur | Khadabala-Bhaur Mula (Son of Shyamnath Thakur)
- 7 | Sevanath Mishra | Hariamb-Balirajpur Mula (Father of Balmukund Mishra)
- 8 | Gadadhar Mishra | Sodarpur-Sarisab Mula (Son of Vedadhar)
- 9 | Dharmanath Thakur | Khadabala-Bhaur Mula (Paternal line of maternal grandfather)
- 10 | Santalal Jha | Babhaniyam-Kadain Mula (Son of Rudi)
- 11 | Bacharan Jha | Karmah-Naduar Mula (Son of Hemnarayan)
- 12 | Jirakkhan Thakur | Khadabala-Bhaur Mula (Son of Thothi)
- 13 | Yogilal Mishra | Hariamb-Valirajpur Mula (Son of Harshamani)
- 14 | Kaushilyanand Mishra | Sodarpur-Digaundh Mula (Son of Kari)
- 15 | Guneshwar Singh | Khadabala-Bhaur Mula (Son of Maharaj Kumar Babu Guneshwar Singh)
- 16 | Padmanath Jha | Khauwal-Simarwar Mula (Son of Bhavanath)

During the cross-referencing process, the Panjekar identified that the bride's 14th Chhati—Kaushilyanand Mishra of the Sodarpur-Digaundh lineage—also appeared on the groom's paternal side.

<— Overlap —> [Present in Groom's Paternal Lineage]

|

(Within Forbidden 6 Generations)

|

This overlap placed the bride and groom within the prohibited sixth generation of relationship on the paternal side. Consequently, the union was disqualified, and the Panjekar refused to issue the Siddhanta Patra, protecting the community's exogamous rules.

Sakha Panji and Social Stratification

In §1327\text{ AD}\$, the original Panji Prabandha was established on an egalitarian basis, recording all families with equal standing. However, in the

mid-eighteenth century, during the reign of Maharaja Madhav Singh, the system underwent a major structural shift with the introduction of the Sakha Panji (branch registries). This new framework divided the Maithil Brahmin community into three hierarchically stratified classes based on perceived lineage purity and ritual adherence :

- Shrotriya (Soti): The highest class, characterized by strict endogamous marriages and rigorous performance of Vedic rituals.
- Yogya (Jog): The middle class, comprising families of respected scholarly standing.
- Panjibaddha: The basic registered class, consisting of families of standard lineage.

Families not registered in these three categories were classified as **Jaibar**.

The introduction of this hierarchy led to significant social issues. It fostered a system of hypergamy, where families from lower tiers sought alliances with Shrotriya men to elevate their social status. This practice contributed to polygamy, child marriage, and a rising number of young widows, as older Shrotriya men frequently married multiple younger women from lower-status families.

Under this system, the elite Shrotriya class was organized into eight ritual tiers, known as Chaugolas (quadrants), which regulated marriages across thirty-two specific registries :

Chaugola Grade | Representative Scholar / Family | Associated Mula-Mulgram and Gotra | Page / Register Code

First | Bharthiyar Jha | Darihara-Ratouli / Kashyapa | 52//02

First | Bhadai Jha | Pavauli-Badhiyam / Vatsa | 61//07

First | Babhan Jha | Sodarpur-Rayyam / Shandilya | 190//05

First | Pitambar Jha | Sarisab-Jonki / Shandilya | 113//01

Second | Raghuni Jha | Karmah-Anal / Vatsa | 240//05

Second | Narayan Jha | Budhwal-Dumra / Vatsa | 146//02

Second | Devai Jha | Sakaradhi-Parhat / Kashyapa | 218//01

Second | Gangadhar Jha | Khadabala-Bhaur / Shandilya | 121//06

Third | Babu Mishra | Sodarpur-Sarisab / Shandilya | 112//04

Third | Balabhadra Thakur | Khadabala-Bhaur / Shandilya | 70//06

Third | Tisaut Jha | Tisaut-Kua / Vatsa | 128//04

Third | Ramdev Mishra | Sodarpur-Rayyam / Shandilya | 111//04

A parallel classification was developed for the non-Shrotriya population (known as the Pachhbaripar). Formalized under Maharaja Rameshwar Singh in 1929 AD, this system divided the Pachhbaripar into fifteen distinct grades based on their Laukits (ancestral honorifics), managing a total of 153 registers :

Pachhbaripar Grade	Representative Laukit Name	Original Mula and Mulgram	Register Page Reference
--------------------	----------------------------	---------------------------	-------------------------

Grade I	Narapati Jha	Sakaradhi-Haradi	166-4
---------	--------------	------------------	-------

Grade I	Madhav Mishra	Sodarpur-Rohad	435-5
---------	---------------	----------------	-------

Grade I	Gonu Mishra	Sodarpur-Katka	45-4
---------	-------------	----------------	------

Grade I	Bhaiyan Jha	Budhwal-Dumra	195-9
---------	-------------	---------------	-------

Grade II	Padum Jha	Satalakha-Satauli	171-5
----------	-----------	-------------------	-------

Grade II	Shrikant Jha	Sakaradhi-Bhakharouli	497-4
----------	--------------	-----------------------	-------

Grade II	Madhupati Mishra	Sodarpur-Gaur	310-1
----------	------------------	---------------	-------

Grade III	Gahananand Jha	Budhwal-Dumra	179-4
-----------	----------------	---------------	-------

Grade IV	Chhitari Jha	Sakaradhi-Tatail	297-3
----------	--------------	------------------	-------

Grade V	Harinarayan Thakur	Khadabala-Behat	186-5
---------	--------------------	-----------------	-------

Grade V	Sukhai Jha	Pavauli-Badhiyam	301-1
---------	------------	------------------	-------

Grade VI	Taraivalla Chaudhary	Naraun-Vatsawal	213-1
----------	----------------------	-----------------	-------

Grade VII	Badani Jha	Karmah-Tarauni	71-4
-----------	------------	----------------	------

Grade VIII	Bodhkrishna Jha	Takwal-Ankusi	388-6
------------	-----------------	---------------	-------

Grade IX	Ratikan Jha	Mandar-Rajoura	9-4-1
----------	-------------	----------------	-------

Grade X	Damodar Jha	Sakaradhi-Chhamu	158-2
---------	-------------	------------------	-------

Grade XI	Manikant Jha	Khadabala-Dyori	313-2
----------	--------------	-----------------	-------

Grade XII	Nakat Jha	Alay-Alay	424-6
-----------	-----------	-----------	-------

Grade XIII	Ghanashyam Jha	Naraun-Ojholi	49-6
------------	----------------	---------------	------

Grade XIV	Ghansiram Chaudhary	Kusumal-Savas	178-6
-----------	---------------------	---------------	-------

Grade XV	Chatur Thakur	Digho-Nagar	310-8
----------	---------------	-------------	-------

The Dushana Panji: Social Adaptations and Genetic Anomalies

To document and manage lineage deviations, the Panjikars compiled a separate volume known as the Dushana Panji (the Register of Blemishes). This register served as an unfiltered record of social and biological history, documenting cases of inter-caste marriages, non-traditional unions, and hereditary medical disorders.

Among its most significant entries are records concerning prominent historical figures, some of which were omitted from later traditionalist publications to preserve orthodox narratives.

SUPPRESSED GENEALOGICAL RECORDS	
1. GANGESHA UPADHYAYA (Founder of Navya-Nyaya school of logic)	
• Born 5 years after his father's death ("Pitri Parokshe Panch Varsh Vyatite")	
• Marriage: Allied with a woman of the leather-working caste ("Charmakarini")	
2. ARYABHATA (Astronomer-Mathematician)	
• Lineage: Mandar Mula (Mangeroni branch)	
• Commences from Biji Trinayanbhatta (c. 400 AD)	
3. CHAITANYA MAHAPRABHU (Vaishnavite reformer)	
• Lineage: Karmah-Tarauni branch (Vatsa gotra)	
• Disciple of Ramapati Upadhyaya (Vishnupuri/Paramanandapuri)	

The register contains a detailed entry for Gangesha Upadhyaya, the founder of the Navya-Nyaya school of logic and author of the *Tattvachintamani*. The original Panji manuscripts state that Gangesha was born five years after the death of his legal father (*pitri parokshe panch varsh vyatite*). Additionally, the text records that his mother was a *Charmakarini* (a woman from the leather-working caste). While these details were omitted from later

genealogies compiled by twentieth-century scholars, the original palm-leaf manuscripts preserve these records of his ancestry.

The Dushana Panji also provides a clear lineage for the astronomer-mathematician Aryabhata, tracing his family back to the Mandar Mula (Mangeroni branch). This lineage begins with the Biji ancestor Trinayanbhatta (c. 400 AD) and details fifteen generations of descendants :

Trinayanbhatta (Biji) → Udayabhata → Vijayabhata → Sulochana → Bhatta → Dharmajati Mishra → Dharajati Mishra

→ Brahmaraj Mishra → Tripurajati Mishra → Vidhujati Mishra → Ajaysingh → Vijaysingh → Adivaraha

→ Mahovaraha → Duryodhan Singh → Mahamohopadhyaya Narasimha (Weapon Specialist)

This record places Aryabhata's family within the historical intellectual landscape of ancient Mithila.

Similarly, the Panji traces the spiritual lineage of Chaitanya Mahaprabhu to Ramapati Upadhyaya (also known as Vishnupuri or Paramanandapuri) of the Vatsa gotra and Karmah-Tarauni lineage, documenting the connections between medieval Maithil scholars and the wider Bhakti movement in Bengal.

The Dushana Panji also contains records of numerous other non-traditional unions, which were documented to track their long-term genetic and social impacts on the community :

Family Mula | Non-Traditional Union and Lineage Intersections | Social Integration and Generational Resolution

Pali (Devsharma Branch) | Kanh married a woman of unknown caste and origin. | Descendants integrated into the main lineage after six generations of dilution.

Budhwal (Govind Branch) | Damu married an undocumented woman of unknown caste. | Descendants classified under the Dushana registry but retained in the community.

Sarisab (Shrinath Branch) | Chakrapani married a woman of unknown caste. | Descendants monitored through subsequent generational records.

Darihara (Bhim Branch) | Umapati married an undocumented woman of unknown caste. | Branch classified under intermediate status (Madhyama).

Sodarpur (Shrihari Branch) | Harinath married a woman of unknown caste. | Lineage split; branch tracked in separate registers.

Hariamb (Vasudev Branch) | Krishnadeva married a woman of unknown caste. | Descendants integrated into the general community over several generations.

Panchobh (Madhukar Branch) | Madhukar married a woman of unknown caste. | Generational dilution tracked through maternal lineage records.

Sarisab (Bhavanath Branch) | Kishai married the daughter of Gangadhar, whose maternal grandmother was of unknown origin. | Descendants cleared of ritual blemishes by the sixth generation.

Gangoli (Dagar Branch) | Married Yavani Daulat Jahan (a Muslim woman). | Descendants reintegrated into the main lineage after several generations.

Khadabala (Surapati Branch) | Union with Sohago, daughter of the Koch Rajbanshi King of Assam. | Lineage split; branch classified as Katham.

Sodarpur (Govind Branch) | Union with Medha, a woman of the Charmakar (cobbler) caste. | Descendants barred from Shrotriya status but retained within Pachhbaripar.

Hadini (Sureshwar Branch) | Union with a woman of the Hadi (scavenger) caste. | Descendants recorded as Hadini lineage.

The register also contains records of marriages with women from the Devadasi (temple dancer) tradition, such as the mothers of Jagannath (Satalakha Mula), Ratanu (Ghusaut Mula), Ram (Pali Mula), Raghav (Sakaradhi Mula), Chand (Sodarpur Mula), Harikar (Alay Mula), and Vidu (Tilay Mula). Despite their mothers' non-traditional backgrounds, their descendants were gradually integrated into the community over several generations of recorded marriages.

Beyond social classification, the Dushana Panji functioned as an early system of medical genetics. The Panjikars systematically recorded families carrying hereditary physical and mental disorders, classifying them under specific medical categories :

- Apasmari: Lineages with a history of epilepsy.
- Unmadi: Lineages with a history of chronic mental illness or insanity.
- Kunji: Lineages carrying physical deformities, such as blindness, deafness, or congenital lameness.

By documenting these conditions, the Panji system sought to prevent the transmission of hereditary disorders, demonstrating an early, practical understanding of genetic inheritance.

Archival Systems: Seven Types of Panji and Preservation Rituals

To manage these complex records, the Panji system was organized into seven distinct types of registers, each designed for a specific genealogical or administrative function :

These structural registries are detailed below :

Registry Type | Specific Administrative and Genealogical Function

1. Mula Panji | The original baseline register, recording the primary ancestral villages (Mulas) and Biji Purush lineages established in 1327 AD.
2. Sakha Panji | The branch registries introduced under Maharaja Madhav Singh, tracking social classes (Shrotriya, Yogya, Panjibaddha).
3. Gotra Panji | Records the twenty patrilineal clans and their associated original ancestral villages.
4. Patra Panji | Introduced around 1500 AD to track family migrations from original settlements (Mulas) to new villages (Mulgrams).
5. Dushana Panji | Records lineage blemishes, non-traditional marriages, and hereditary physical or mental disorders.
6. Uteadh Panji | A specialized tracking tool used to calculate Sapinda avoidance up to six generations before marriage.
7. Aswajanam Patra | The registry of official non-relation certificates (Siddhanta Patra) issued to authorize marriages.

A unique historical exception is found in the Rasadh-Araria registry, which is the only traditional Panji volume that explicitly records the personal names of women. In all other regional registries, women are recorded only by their maternal and paternal lineage connections.

Because these documents were written on fragile organic materials, such as palm leaves and bark paper, the Panjikars followed a strict preservation routine. This routine was codified in a traditional Sanskrit mnemonic :

\$\$\text{\textit{“Jalat Rakshet Tailat Rakshet Rakshet Shthila Bandhanat”}}\text{\textit{”}}\$\$

This instruction commanded the registrars to protect the manuscripts from water, oil, and loose binding. Additionally, the registries were dried once a year under the hot sun during the transit of the Sun through the zodiac sign of Leo (Simha Rashi, corresponding to mid-August to mid-September), when solar radiation is strongest, to prevent mold and insect infestation.

Academic Traditions and Dynastic Inscriptions

Mithila's genealogical codification was supported by a strong scholarly tradition led by the region's intellectual elite, known as the Shadayantri (six-system) scholars. These scholars were master commentators on the six classical schools of Indian philosophy.

The Panji records preserve the names of thirteen key Shadayantri scholars, documenting their ancestral lineages and contributions to the region's intellectual history :

- Mahamahopadhyaya Godhi Sharma
- Mahamahopadhyaya Madhav Sharma
- Mahamahopadhyaya Adiya Madhav Sharma
- Mahamahopadhyaya Shankar Sharma
- Mahamahopadhyaya Yajnapati Sharma
- Mahamahopadhyaya Parashurama Sharma
- Mahamahopadhyaya Vamadeva Sharma
- Mahamahopadhyaya Pitambara Sharma Vidyanidhi
- Mahamahopadhyaya Gokulnath Sharma Phanandah
- Mahamahopadhyaya Jagnnātha Sharma Phanandah
- Mahamahopadhyaya Vamshadhara Sharma Rajanpura Darihara
- Mahamahopadhyaya Raghunath Sharma Phanandah
- Upadhyaya Datta (alias Vishnudatta Sharma Paramanandapuri)

The Panji system also recorded the lineages of local ruling dynasties, providing valuable historical context for researchers. A notable example is the 17th-century Sanskrit inscription from the Vashaiti (Araria)

temple, built by Queen Indravati of the Suragan-Loam dynasty. This inscription records her family lineage over seven generations :

\$\$\text{King Krishnadeva} \rightarrow \text{Samarasingha} \rightarrow \text{Vishvanatha Raja} \rightarrow \text{Viranarayana Raja} \rightarrow \text{Naranarayana Raja} \rightarrow \text{Ramachandra Narayana} \rightarrow \text{Indranarayana}\$\$

This record aligns with the family histories preserved in the official Panji registries.

Similarly, the Panji archives provide detailed context for other social groups. For example, the early Maithili text Varna Ratnakar, written by the royal minister Jyotirishwar Thakur, lists sixty-two distinct Rajput clans that lived in the region during the medieval period :

\$\$\text{Somvamsha}, \text{Suryavamsha}, \text{Doda}, \text{Chausi}, \text{Chola}, \text{Sen}, \text{Pal}, \text{Yadav}, \text{Parmar}, \text{Nand}, \text{Nikumbh}, \text{Pushpabhuti},\$\$

\$\$\text{Shringar}, \text{Arahan}, \text{Gupjharjhar}, \text{Suruki}, \text{Shikhar}, \text{Bayekwar}, \text{Ganhwar}, \text{Surwar}, \text{Meda}, \text{Mahar}, \text{Vat}, \text{Kul},\$\$

\$\$\text{Kachhwah}, \text{Vayesh}, \text{Karamba}, \text{Heyana}, \text{Chhewarak}, \text{Chhuriyij}, \text{Bhond}, \text{Bhim}, \text{Vinha}, \text{Pundirayan},\$\$

\$\$\text{Chauhan}, \text{Chhind}, \text{Chhikor}, \text{Chandel}, \text{Chanuki}, \text{Kanchival}, \text{Ranchkant}, \text{Mundaut}, \text{Bikaut}, \text{Gulhaut},\$\$

\$\$\text{Changal}, \text{Chhela}, \text{Bhati}, \text{Mandatta}, \text{Singhviraabahaya}, \text{Khati}, \text{Raghuvamsha}, \text{Panihar}, \text{Surbhanch},\$\$

\$\$\text{Gumat}, \text{Gandhar}, \text{Vardhan}, \text{Vahom}, \text{Vashishth}, \text{Gutiya}, \text{Bhadra}, \text{Khursam}, \text{Vahattari}\$\$

This exhaustive classification reflects the structured approach to social organization that characterized medieval Mithila.

Modern Preservation and Genetic Validation

In the modern era, the Panji Prabandha faces challenges from urbanization, changing social values, and the physical decay of historical manuscripts. As families increasingly rely on modern matchmaking methods, the traditional Saurath Sabha gathering in Madhubani has declined in participation, transitioning into a largely symbolic cultural event.

To protect this historical archive, scholars launched a major preservation project. Led by author and paleographer Gajendra Thakur, Nagendra Kumar Jha, and Pandit Vidyanand Jha, the project digitized and transliterated over \$11,000 historical palm-leaf manuscripts from the traditional Tirhuta (Mithilakshar) script into modern Devanagari. This work was published as *Genome Mapping – 450 AD to 2009 AD: Mithilak Panji Prabandh*, ensuring the preservation of these genealogical records.

Concurrently, research in genetic anthropology has begun to explore the biological basis of these traditional exogamy rules. Genetic analyses using single nucleotide polymorphism (SNP) markers and Y-chromosomal short tandem repeats (Y-STR) indicate a strong correlation within patrilineal Gotras.

These findings suggest that the strict exogamy rules maintained by the Panji system for over seven centuries have effectively limited the risk of inbreeding and preserved genetic diversity within these endogamous communities. The integration of these ancient genealogical records with modern digital archiving and genetic science ensures that the Panji Prabandha remains a valuable resource for studying human population genetics and social history.

Chapter 6

The Mithila Panji Prabandha: An Anthropological, Legal, and Socio-Historical Analysis

The Mithila Panji Prabandha: An Anthropological, Legal, and Socio-Historical Analysis of India's Written Genealogical Registry

Historical Genesis and the Politics of Purity

The cultural zone of Mithila, bounded geographically by the Himalayas to the north, the Ganges to the south, the Gandaka to the west, and the Kaushiki or Kosi river to the east, has historically served as a fertile crucible for intense legal, philosophical, and social developments. Within this region, the transition from decentralized, oral lineage introductions to a centralized, state-mandated written registry was precipitated by a crisis of social classification in Shaka 1248, corresponding to 1326/1327 CE, under the reign of King Harisimhadeva of the Karnat dynasty. Prior to this period, families sporadically relied on localized, memory-based introductions to verify bloodlines during marital negotiations.

The institutionalization of the Panji Prabandha arose from a controversial court trial in the village of Gangaura involving Harinatha Upadhyaya, a prominent court pundit. Harinatha's wife was accused of having an improper relationship with an outcaste of the Dusadh community. To demonstrate her chastity, she underwent a traditional fire ordeal, declaring "nāhaṃ cāṇḍālagāminī" ("I have not associated with an outcaste"). However, the ordeal resulted in her hands being burned, which the community interpreted as a divine confirmation of guilt.

Distressed by this outcome, she sought counsel from Lakkhima Devi, an exceptionally learned female scholar and the daughter of the Mimamsa scholar Rati Mishra and wife of the legal authority Mahamahopadhyay Rameshwar. Lakkhima Devi analyzed the situation and discovered a

structural infraction rather than a moral one: Harinatha had unknowingly married a woman related to him within the prohibited fifth degree of consanguinity, a direct violation of the exogamous marriage codes prescribed in the Smritis. Under Hindu jurisprudence, this transgressive marriage had technically rendered Harinatha an outcaste (cāṇḍāla). Armed with this realization, the wife demanded a retrial, altering her oath to declare "nāhaṃ svapativy-atiricta cāṇḍālāgāminī" ("I have not associated with any outcaste except my husband"). This time, she emerged from the fire ordeal unscathed, proving both her personal chastity and the underlying structural corruption of the community's marital alliances.

The realization that even elite scholars were entering into incestuous alliances due to the decay of lineage tracking deeply alarmed King Harisimhadeva. To protect the ritual purity of the priestly and administrative classes, the king ordered a comprehensive census of all Brahmin, Kayastha, and Kshatriya lineages in his realm. He convened a grand assembly known as the Vishwachakra Sammelan at the village of Jamsam, located in Pandaul in the Madhubani district, to formalize the recording of family histories. He appointed official registrars, known as Panjikars, led by Gunakar Jha for the Maithil Brahmins, Shankardatta for the Karna Kayasthas, and Vijayadatta for the Kshatriyas. While the Kshatriya lineages eventually drifted away from this system due to marriages contracted outside the territorial boundaries of Mithila, the Maithil Brahmins and Karna Kayasthas maintained the registry with mathematical precision for over seven centuries.

This historical apparatus is preserved and evaluated in modern scholarship, notably in the volume *Genealogical Mapping (450 A.D. to 2009 A.D.) - Mithila's Panji Prabandh*, Volume II, edited and compiled by Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha, and published by Shruti Prakashan in Delhi. This work represents a continuation of the first volume, which was titled *Genome Mapping* and consisted of three sections focusing on family history as the foundational phase of genealogical tracing.

The Structural Typology of the Panji System

The architectural foundation of the Panji Prabandha relies on the systematic categorization of individuals based on their paternal and maternal lineages. A Maithil Brahmin's identity within this framework is defined by several nested concepts: the Gotra, which is the maximal patrilineal clan tracing descent to an ancient Rishi; the Biji Purush, who is the earliest historically verifiable

patrilineal ancestor; the Mool, representing the ancestral village associated with the Biji Purush; the Moolgram, representing a secondary branch associated with subsequent migrations; and the Shakha, which tracks the specific lineage of descendants down to contemporary generations.

To mathematically illustrate the generational calculations used by the Panjikars to align historical figures within this framework, the generational interval can be standardized. The system calculates historical chronology using an estimated average generational span of forty years per generation:

where T represents the calculated historical epoch, G represents the cumulative number of generations recorded in the lineage tree, and C is the established generational constant of approximately 40 years.

Through this formula, the Panji records have been used to verify the chronologies of several prominent figures of Mithila. For example, the lineage of the mathematician-astronomer Aryabhata (476–550 CE) is preserved within the Mandar-Kashyap Gotra, where he is recorded as the 39th generation. Similarly, the legendary philosopher and humorist Gonu Jha is placed in the Vatsa Gotra (Karamhe Sonkariyam branch) at the 24th generation, establishing his birth in approximately 1050 CE. The famous poet Vidyapati Thakur (1350–1435 CE) is situated at the 14th generation of the Bisphi-Kashyap branch, aligning perfectly with established historical datings.

The system also records key legends associated with political power in the region, such as the arrival of Nanyadeva, the founder of the Karnat dynasty. According to the Panji texts, Nanyadeva arrived in Mithila on horseback, exhausted and thirsty, and tied his horse under a tree. When he attempted to cut grass for his horse, a cobra appeared, raising its hood. A Sanskrit prophecy was found written nearby, which Nanyadeva could not read. Kameshwar Thakur, a learned Brahmin, read the prophecy, revealing that Nanyadeva was destined to be the King of Mithila.

Kameshwar Thakur's descendant, Chandeshvar Thakkura, later served as the minister of war and peace under Harisimhadeva and successfully led a military expedition to Nepal, performing the tulā-pūruṣadāna along the Vagmati River. When Chandeshvar handed over the state administration to Harisinghdev and fled, soldiers pursued him. He threw water on the first pursuer, freezing him in place, and threw water on the second pursuer,

blinding him, which according to local tradition led to the naming of the village Anhra Thadhi.

The structural subdivisions of the Maithil Brahmin community are categorized by the number of Mools associated with each of the primary Gotras.

Gotra	Common Dialectical Pronunciation	Number of Registered Mools
Sandilya	Sandilyae	43
Vatsa	Vatsavaal	40
Kashyap	Kashyap	27
Savarna	Savarnay	7
Katyayana	Katyaayane	5
Parashar	Parashari	7
Bhardwaj	Bhardwaji	5
Garga	Gargay	3

These Mools represent the territorial anchors of the community, legitimizing the families as indigenous inhabitants of Mithila. For instance, the Brahmpura Mool is associated with seven distinct Gotras, including Kashyap, Gautam, Vatsa, and Vashistha, while the Karamaha Mool comprises both Sandilya and Vatsa Gotra branches, making intermarriage within the same Mool possible if the Gotras differ.

Canonical Prohibitions and the Genetic Rationale of Exogamy

The primary utility of the Panji Prabandha is to prevent consanguineous marriages, thereby avoiding the genetic disorders, developmental delays, and immunological vulnerabilities associated with inbreeding. The Panji enforces several non-negotiable rules of exclusion before a marriage is certified through a Sidhanta issued by the Panjekar.

In addition to Gotra exogamy, the system enforces Pravara exogamy. For example, marriages between individuals of the Vatsa and Savarna Gotras are strictly prohibited because they share identical Pravaras, indicating a common ritual lineage despite different patrilineal clan designations. The system also enforces the Saptapada and Panchapada consanguinity rules, which bar couples from sharing a common ancestor within seven generations on the paternal side of the groom and five generations on the maternal side of the bride.

Furthermore, the Kashta Matula rule prevents a man from marrying the offspring of his stepmother's brother. The system also prohibits marriages between descendants of common paternal or maternal grandfathers. To ensure these rules are met, the Panjikars evaluate sixteen distinct maternal and paternal bloodlines, known as Kul, of both families.

Vector Number | Bloodline Vector Evaluated for Sidhanta Approval

- 1 | Paternal grandfather of father's paternal grandfather
- 2 | Maternal grandfather of father's paternal grandfather
- 3 | Paternal grandfather of father's paternal grandmother
- 4 | Maternal grandfather of father's paternal grandmother
- 5 | Paternal grandfather of father's maternal grandfather
- 6 | Maternal grandfather of father's maternal grandfather
- 7 | Paternal grandfather of father's maternal grandmother
- 8 | Maternal grandfather of father's maternal grandmother
- 9 | Paternal grandfather of mother's paternal grandfather
- 10 | Maternal grandfather of mother's paternal grandfather
- 11 | Paternal grandfather of mother's paternal grandmother
- 12 | Maternal grandfather of mother's paternal grandmother
- 13 | Paternal grandfather of mother's maternal grandfather
- 14 | Maternal grandfather of mother's maternal grandfather
- 15 | Paternal grandfather of mother's maternal grandmother
- 16 | Maternal grandfather of mother's maternal grandmother

The structural maintenance of these fragile palm-leaf manuscripts was traditionally aligned with the region's climate. The preservation, transcriptions, and drying of the manuscripts were conducted during the Leo solar cycle, from August 16 to September 16, when the intense heat was utilized to dry the leaves and protect them from moisture and pests.

Social Stratification and the Evolution of the Caste Hierarchy

Over centuries, the interaction of bloodlines, academic prestige, and marital choices led to the creation of five distinct endogamous sub-castes, which began to function as independent social strata. The registry originally divided families into five qualitative tiers based on the purity of their marriages and ancestral accomplishments: Aeyant, Baaraant, Maddhyamaa, Bhrashtaa, and Atibhrashtaa. The top three tiers, comprising thirty-four "Superior Mools,"

formed the elite core of the community. Over time, these categories crystallized into five socio-ritual ranks.

Socio-Ritual Class | Local Term | Key Structural and Ritual Characteristics
Shrotriya | Soit | The highest rank, historically requiring scholarly merit but later determined solely by birth and ritual purity. Comprises the top 20 Mools of the Aeyaant and Baaraant divisions.

Yogya | Jog | Formed by Shrotriya families who married into the lower Panjeebadh or Maddhyamaa classes, or from three elevated Maddhyamaa Mools (Balias-Narsam, Digbo-Sannahpur, and Belauche-Sudai).

Panjeebadh | Bhalmanush | Comprising the fourteen Maddhyamaa Mools. They frequently married into the Yogya class to elevate their social standing.

Vanshadhar | Vanshadhar | Formed by Shrotriyas who fell in rank due to marrying outside the thirty-four superior Mools, often receiving a derogatory Moolgram suffix.

Jaiwaar | Jaiwaar | The lowest tier of the classified hierarchy, consisting of families who did not maintain rigorous ritual records or married outside the classified lineages.

To manage social mobility within these ranks, the Paainj (or Laukit) system was introduced. If a high-ranking family married into a lower-ranking family, their social status dropped. However, if their descendants subsequently contracted high-status marriages over successive generations, they could recover some of their lost rank and were awarded a Paainj—a title indicating that they had successfully rehabilitated their status, though they were rarely restored to their original high standing.

The social hierarchy was heavily modified in the nineteenth century by Raja Madhav Singh of Darbhanga. In a bid to centralize political authority and curb the rising power of rival aristocratic houses, the Raja reconstructed the social landscape. He confined the elite Shrotriya class to a specific geographic enclave known as Soitpura and severed their social and marital interactions with the rest of Maithil society.

Furthermore, he made it mandatory for any Shrotriya family to obtain his personal written permission, known as Parmaangi, before finalizing any marriage alliance. This political intervention effectively turned the Shrotriyas into dependent landlords under the Darbhanga Raj, converting what was once an intellectually active, debating scholarly class into a subservient, isolated aristocracy, which ultimately led to the decay of their traditional philosophical pursuits.

The system also preserves records of historical disputes and social demotions, such as the case of "Taskar Keshav" (Keshav Jha of Jamasam). When Maharaja Lakshmishwar Singh sought to contract a marriage with a girl from Keshav's village, Keshav Jha intervened, brought the girl back to the village, and forced a passing dye-maker to perform the Kanyadaan. In response, the Maharaja summoned the Panjikar and ordered that the title "Taskar" (thief) be officially attached to Keshav's lineage, affecting the social status of any families associated with them.

To maintain this complex apparatus of social monitoring, the selection and training of Panjikars became a highly professionalized affair. During the Darbhanga Raj period, candidates underwent a rigorous ten-year course of study in the royal court, mastering genealogy, legal texts, and scriptural codes.

At the end of this training, the candidate had to sit for the Dhaut Pariksha—a rigorous public examination overseen by the region's leading scholars. Successful candidates were awarded a ceremonial white cloth (Dhoti) and the formal title of Panjikar. Following the dissolution of the Darbhanga Raj, this formal academic certification ended, and the office of the Panjikar became strictly hereditary.

Archival Classifications of Panji Manuscripts

The handwritten records preserved by the Panjikars are classified into three distinct categories based on their content and purpose 5:

- Gothra Panji: Records detailing the fundamental associations between specific Gotras and their primary Mools.
- Patra Panji: Lineage sheets recording the names of children, marital alliances, and changes of residence, capturing the historical migrations of families across generations.
- Dushan Panji: The registry of faults, documenting structural deviations, inter-caste marriages, and other violations of orthodox boundaries.

Several seminal historical manuscripts are preserved within this archival tradition. These include the Mandar Mool manuscript written by Raghudev Jha during the late seventeenth and early eighteenth centuries, and the subsequent Shakha book composed on palm leaves by his grandson, Panji Chhoti (Devanand Jha), between 1760 and 1776 CE.

Other significant records include the Shakha book of Panji Bhikhia Jha, written by Panji Domai Mishra of the Hariamb Mool (a resident of Koilakh), and the Shakha book of Panji Harshanand Jha, composed by Panji Jhonti Jha (Mitranand Jha). Additionally, the Shakha books of Panji Jhulanand Jha, Panji Modanand Jha, and those written between 1925 and 1935 CE in Saurath by Panji Lutan Jha and his maternal cousin Panji Nirsu Jha remain central reference texts for modern genealogical verification.

The Subaltern Counter-Archive: The Dushan Panji and Gangesha Upadhyaya

While the official Panji Prabandha presented an idealized image of absolute ritual purity and social compliance, the actual practice of Maithil society was far more complex. This social reality is preserved in the Dushan Panji, a parallel archive that recorded violations of orthodox boundaries. For centuries, the Dushan Panji was kept hidden by elite registrars, as its contents threatened the high-caste status of several prominent families.

The Dushan Panji documented structural deviations that the mainstream narratives sought to erase, including inter-caste alliances with lower-caste individuals, widow remarriages, and illegitimate births. The most significant revelation from the Dushan Panji concerns Gangesha Upadhyaya, the legendary thirteenth-century founder of the Navya-Nyaya (New Logic) school of philosophy and author of the seminal text *Tattvachintamani*.

For centuries, elite Maithil historians, such as Ramanath Jha, actively suppressed or omitted specific genealogical details of Gangesha's life to maintain the narrative of unblemished high-caste lineage. The original Dushan Panji manuscripts (such as Record 21//10 of the Chhadan Mool) preserve two highly controversial facts 5:

- **Paternal Absence:** Gangesha was born five years after the death of his father ("Pitri Parokshe Panch Varsh Vyatite"), pointing directly to an illegitimate or extra-marital conception.
- **Inter-Caste Marriage:** Gangesha's wife (Vallabha), named Ananda or Medha, was a Charmakarini—a woman belonging to the leather-tanning (Chamar) caste.

The preservation of these details in the Dushan Panji reveals that the Panji Prabandha did not merely function as an instrument of elite exclusion. Rather, it operated as a record of social reality, documenting transgressions

with clinical precision and creating a counter-archive that exposes the fluid and contested boundaries of historical Maithil society.

The modern preservation of these records has been marked by plagiarism and copyright disputes. For example, the 2009 work *Genome Mapping* by Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha was reportedly plagiarized in 2010 by Dr. Yoganand Jha (also known as Yoganand "Sindhu") under the title *Panji Prabandh* (Vansh Parichay - First Part), with the support of the Shrotriya organization "Maharaja Kameshwar Singh Sanskritik Vikas Manch". Similarly, the 1962 work *Mithila ki Sanskritik Lokchitrakala* by painter Laxminath Jha was translated and published under the title *Aripan* in 2008 by Sushila Jha, utilizing scanned images from the original book under a grant from the Central Institute of Indian Languages, Mysore.

Cultural Geography and Regional Profiles of Purbanchal Mithila

The operationalization of the Panji system was historically tied to the cultural geography of Mithila. To facilitate marriages, King Harisimhadeva established fourteen major regional centers, known as Sabha Gachhis (orchard assemblies), where matrimonial negotiations could take place under the supervision of the Panjikars. These locations included Saurath, Khanagadi, Partapur, Sheohar, Govindpur, Fattepur, Sajhaul, Sukhasana, Akhdari, Hemnagar, Balua, Baruali, Samsaul, and Sasaula. Of these, the Saurath Sabha (near Madhubani) and the Sasaula Sabha (near Sitamarhi) became the most popular.

The eastern and northern regions of Mithila, encompassing Purnia, Araria, and Saharsa (collectively referred to as Purbanchal Mithila), present distinct historical and geographical profiles within the Panji records. For example, the name of the Araria district is derived from the British administrative designation "R. Area" (Rural Area), which was subsequently corrupted into the local vernacular.

Within the Sripur Pargana of Araria, the village of Jahanpur stands as a prominent center of Maithil settlement. Originally settled in the early sixteenth century by Nikai and Rakai Jha of the Panichobh Jhoua Mool, alongside the brothers Haridev and Govind Thakur of the Khandvala Ekma Mool in the adjacent village of Satghara, the settlement shifted to Jahanpur in the third generation under the leadership of Nikai's grandson, Umanath, and Bhajaram Thakur.

In 1708 CE, following dreams directing excavation, the village consecrated physical idols of Vishnu, Narasimha, Radha-Krishna, and Durga. Jahanpur has produced several prominent figures, including Pandit Punyanand Jha, a celebrated scholar, writer, and the first postgraduate from the old Purnia district, who served as a Member of the Legislative Assembly in Bihar.

The village was also home to Giranand Thakur, a just zamindar and scholar of English and Persian, and Rashmohan Jha, an Honorary Magistrate of the Darihara Ratauli Mool. Jahanpur also contributed several freedom fighters to the national movement, including Pandit Balabhadra Thakur, Pandit Ramsundar Thakur, Pandit Surendra Mohan Thakur, Pandit Gokhulanand Thakur, and Pandit Suryamohan Thakur, while its local administration was served for decades by Harishchandra Jha (Bechan Jha) of the Sinhouli Mandar Mool.

Other prominent villages in the Sripur Pargana include Chopra Bukhari, settled by the Khandvala Behat family who migrated from Tirhut to Katihar, and Asura, a highly populated but flood-prone village situated along the banks of the Kankai River.

The Asanga (or Asaja) Pargana comprises several key villages, including Begampur, Ekamba, Vishnupur, Asarna, Sakma, Bhawanipur, and Ufraul. Among these, Vishnupur is home to families of the Hariamb Ahil and Khouade Kurma Mools, including Mitranath Jha, a Persian scholar and Tehsildar. The village also claims the lineage of Lal Mishra (also known as Doman) of the Hariamb Ahil Mool, whose four sons—Gunanand, Tirthanand, Padmanand, and Gajanand—contributed significantly to the region.

Gunanand founded several educational institutions, while Tirthanand's son served as a scholar, research authority on the economic history of Purnia, and the founder Vice Chancellor of Mithila University. This scholarly tradition was continued by his son, Dr. Ratneshwar Mishra, who served as the Head of the Post Graduate History Department at Mithila University.

The Haveli (or Nashira) Pargana was traditionally celebrated for the meticulousness of its ritual observances. Shrotriya families resided in this region for generations under the protection of the Surgan Loam dynasty, later returning to Tirhut during the reign of Raja Madhav Singh after 1760 CE.

Nashira was also the residence of Jyotirishwar Thakur, the author of the first Maithili dictionary and compendium, Varnaratnakara. During periods of

famine in Bengal, several families migrated to Nashira, including the Ray family of the Gangoliwar Digoun Mool, who subsequently settled in Arihana in the Katihar district.

The Dharampur Pargana, spanning the western portions of Purnia, Araria, and Katihar, was historically ruled by the Khandwala dynasty and the Puhasara rulers of the Surgan Loam Mool. During the reign of the Darbhanga ruler Raja Raghav Singh, a local revenue officer named Viru Kurmi constructed a fort in Virnagar and ceased paying state revenues.

A military expedition led by Sarmast Ali Khan, with the assistance of Raghav Singh, defeated the rebellion, and the administration of the Nathpur and Goradi talukas was subsequently transferred to the Surgan Loam kings of Purnia. In western Dharampur, the Janakinagar area was marked by the spiritual influence of Mahanth Ramdas, who traveled the region and protected local populations from administrative tyranny, a tradition continued by his disciple, Mahanth Raghavdas.

Dharampur also includes the village of Rashadh, a historic center of Sanskrit scholarship home to Mahamahopadhyay Harishwar Mishra, and the village of Dhamdaha (historically Dharmadiha), which produced scholars such as Mahamahopadhyay Chitrapat Jha and Mahamahopadhyay Shyam Sundar Thakur.

Modern Challenges and the Imperative of Digital Archiving

In the contemporary era, the seven-century-old Panji system faces significant operational challenges arising from demographic and socio-economic shifts 6:

- **Geographic Dispersion:** The migration of families to metropolitan areas and abroad has weakened the localized community networks that historically supported the Sabha Gachhis.
- **Changing Matrimonial Priorities:** Modern marriages increasingly prioritize educational background, career compatibility, and personal choice over traditional genealogical verification, resulting in nearly twenty percent of marriages occurring without Panji verification.
- **Economic Unviability:** The profession of the Panjikaar provides minimal financial security in the absence of state or institutional patronage, prompting the younger generation of registrar families to pursue alternative careers.

- **Physical Decay of Manuscripts:** The primary records, written on fragile palm leaves and handmade paper, are highly vulnerable to humidity, pests, and decay, raising the risk that centuries of ancestral history may be lost.

To address these challenges, scholars have emphasized the need for systematic digitization and archival preservation. Transforming these physical manuscripts into a secure, searchable digital database would preserve the genealogical heritage of the region, ensuring that its historical records and genetic utility remain accessible to future generations.

Chapter 7

Panji Prabandh: A Comprehensive Briefing and Study Guide to Maithil Genealogical Mapping

Panji Prabandh: A Comprehensive Briefing on Maithil Genealogical Mapping (450 AD – 2009 AD)/ Panji Prabandh: A Comprehensive Study Guide to Maithil Genealogy

Executive Summary

The **Panji Prabandh** is a unique and exhaustive genealogical documentation system utilized by the Maithil Brahmin and Karna Kayastha communities of Mithila. While its roots trace back to the Vedic period and early medieval era (starting circa 450 AD), the system was formally institutionalized and standardized in **1326 AD** (Saka 1248) **under the patronage of King Harisimhadeva** of the Karnata dynasty. The primary mission of the Panji is to maintain "Jati Shuddhi" (purity of lineage) by regulating marriages through a complex verification of ancestry. It serves as a dense record of Gotras, Mulas (original villages), Shakhas (branches), and titles. The system dictates that for a marriage to be valid, the couple must not share a common ancestor within specific generational limits (typically seven generations on the paternal side and five on the maternal side). This briefing outlines the structural framework, historical evolution, and the rigorous genealogical investigations required for the issuance of "Siddhanta" (marriage eligibility certificates).

6. Historical Evolution and Codification

The Maithil Brahmin community evolved from Vedic roots, specifically divided between the **Yajurvedic (Madhyandina Shakha)** and **Samavedic (Kauthuma Shakha)** traditions. Over centuries, geographical isolation, climate, and local customs led to the distinct identity of "Maithil" Brahmins among the ten categories of Indian Brahmins (Pancha-Gauda and Pancha-Dravida).

The Harisimhadeva Reforms (1326 AD)

In the 14th century, King Harisimhadeva observed a decline in the voluntary maintenance of genealogical records (Samuha-Lekhya). To prevent

accidental prohibited marriages (incestuous by Vedic standards), he established an official state department for genealogy.

- First Panjikars: The King appointed Gunakar Jha (for Brahmins), Shankardatta (for Karna Kayasthas), and Vijaydatta (for Kshatriyas) to collect and codify all existing family records.
- Incentive for Accuracy: The system was built on "Absolute Source Fidelity," where Panjikars traveled from village to village, interviewing family heads to record their Bijipurush (founding ancestor) and Mula Gram (original village).

7. Structural Framework: Gotra, Mula, and Pravara

The Panji system classifies families based on three primary markers:

I. Gotras (Lineage from Sages)

The Maithil Brahmin community is divided into 20 Gotras . Seven of these are considered the most prominent and populous. | Major Gotras (7) | Minor Gotras (13) || ----- | ----- || Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaj, Katyayana | Garga, Kaushika, Alambukaksha, Krishnatreya, Gautama, Mudgala, Vashistha, Kaundinya, Upamanyu, Kapila, Vishnuvridha, Tandi, Jatukarna |

II. Mulas (Roots) and Mula-Grams

There are 167 recognized **Mulas** in Mithila, derived from the original village of the founding ancestor (Bijipurush).

- From these 167, 34 to 35 "Mukhya" (Main) Mulas were identified as primary ancestral nodes.
- The Panji identifies the current residence of a family as their Shakha (branch), but their identity remains tied to the Mula .

III. Pravaras

Pravaras refer to the ancestral sages who authored Vedic hymns. Maithil Brahmins are classified into:

- Tri-Pravara: Descendants of three specific sages.
- Pancha-Pravara: Descendants of five specific sages (e.g., Vatsa, Savarna, and Garga gotras).

8. Social Stratification and Categories

The system categorizes families into hierarchical ranks based on their adherence to rituals and historical conduct:

- Shrotriya: The highest rank, subdivided into eight grades. They observe the strictest marriage rules (discarding 7 paternal and 5 maternal generations).
- Yogya: The middle tier, subdivided into thirteen grades.
- Panjibaddha (Vanshaja): The baseline rank of recorded families.
- Jayavar: Those who were not originally included in the formal Panji records but are part of the broader community.

9. The Mechanics of Marriage Eligibility

The central function of the Panji is to determine if a prospective bride and groom are "Asvajan" (unrelated within prohibited degrees).

The Sapinda Rule

Marriage is prohibited if the couple shares a common ancestor within:

- Paternal Side: 6 or 7 generations.
- Maternal Side: 5 generations.

The "Chhapthi" Investigation (Six-Point Verification)

A Panjikaar (Genealogist) must verify 32 points of ancestry (the Utedh) for both parties. This includes the ancestry of:

- Paternal and Maternal Grandfathers/Grandmothers.
- Great-grandparents and beyond.
- The investigation ensures that none of the 16 "Chhapthi" (critical genealogical nodes) of the bride appear in the groom's paternal lineage.

The Siddhanta Process

Before any marriage can take place, the Panjikaar must issue a **Siddhanta**. This is a written document certifying that the union is "Shastric" (scripturally valid). Without a Siddhanta, a marriage is considered "Ashastriya" (invalid) and the offspring may be socially marginalized.

10. Historical Records and Anomalies

The Panji is more than a marriage registry; it is a historical archive. The documents record various sociological data points:

- Academic Titles: Extensive records of titles like Mahamahopadhyaya , Upadhyaya , and Pandit from as early as 450 AD.
- Historical Figures: The records trace the lineage of notable figures such as the poet Vidyapati , the philosopher Gangesha Upadhyaya (author of

Tattva Chintamani), and even the connections of Chaitanya Mahaprabhu (whose teacher was from the Karamha Mula).

- Migration and "Dosha": The Panji records "Doshas" (faults or deviations in lineage), such as marriages into unknown castes or prohibited families, ensuring that the social standing of a lineage is transparent.
- Script Preservation: The Panji records are traditionally maintained in the Tirhuta (Maithili) script. The survival of this script is intrinsically linked to the Panji Prabandh.

11. Current Challenges and Maintenance

- Script Decay: As the knowledge of the Tirhuta script declines, fewer people can read the original palm-leaf (Tal-Patra) records, leading to a reliance on Devanagari transliterations.
- Preservation of Records: The ancient palm-leaf manuscripts are fragile. Traditional preservation involves drying them in the sun during the month when the Sun enters the Leo zodiac sign (August/September).
- Role of the Panjikaar: The Panjikaar is viewed as the "Protector of Culture." The document notes a modern decline in the ethical standards of some practitioners and emphasizes the need for a new generation of trained genealogists to maintain the system's integrity.

Conclusion: The Panji Prabandh represents an unparalleled genealogical achievement, maintaining a continuous record of a population for over 1, years. It remains a critical instrument for social organization and cultural identity in Mithila, functioning as a "Genome Map" that predates modern genetic science by centuries.

Panji Prabandh: A Comprehensive Study Guide to Maithil Genealogy

This study guide provides a detailed synthesis of the "Panji Prabandh," a unique genealogical system practiced primarily by the Maithil Brahmins, Karna Kayasthas, and Kshatriyas of the Mithila region. Spanning from approximately 450 AD to 2009 AD, this system serves as a traditional form of genome mapping and lineage management.

Part I: Comprehension Quiz

1. What was the primary motivation behind the formalization of the Panji Prabandh system? The system was established during the medieval period to maintain "Jati Shuddhi" (purity of lineage) among Brahmins, Kayasthas, and Kshatriyas. It was designed to ensure that marriage alliances adhered strictly to Shastric laws, requiring a deep understanding of a person's

"Uderh" or genealogical background to prevent prohibited unions.

2. Who was King Harisimhadeva, and what was his contribution to the Panji system? King Harisimhadeva was a ruler of the Karnat dynasty who formalized the Panji system in 1326 AD (Shaka 1248). Under his patronage, he appointed specific scholars like Gunakar Jha for Brahmins, Shankardatt for Kayasthas, and Vijaydatt for Kshatriyas to systematically collect and register the lineages of all families in Mithila.

3. Define the "Uderh" and its requirements for marriage eligibility. The "Uderh" is a detailed genealogical introduction or profile essential for determining marriage suitability. Traditionally, it required the identification of 32 branches of ancestors, specifically ensuring that the bride and groom do not share common ancestors within seven generations on the paternal side and five generations on the maternal side.

4. What are the two primary Vedic divisions among Maithil Brahmins mentioned in the text? Maithil Brahmins are divided based on their Vedic adherence into the Yajurvedic "Vajasaneyi" (followers of the Madhyandina branch) and the Samavedic "Chhandog" (followers of the Kauthuma branch). These two groups have distinct rituals for sacraments like Upanayana (sacred thread ceremony) and marriage.

5. How are "Gotra" and "Pravara" distinguished in the Maithil context? A "Gotra" identifies the lineage descending from a specific ancient sage, with 20 primary gotras existing in the Maithil community. "Pravara" refers to the specific illustrious ancestors (sages) within that gotra who were composers of Vedic hymns; lineages are classified as "Tri-pravara" (three sages) or "Pancha-pravara" (five sages).

6. Explain the significance of "Mulu" and "Mulu Gram" in the Panji records. "Mulu" refers to the original root or lineage, while "Mulu Gram" refers to the ancestral village where the founding ancestor (Beeji Purush) of that lineage resided. There are 167 recognized "Mulu" lineages in the system, often used to categorize families and track their migration over centuries.

7. What are the different categories of Maithil Brahmins established over time? The community is classified into a hierarchy based on lineage purity and conduct: Shrotriya (the highest rank), Yogya, Panjibadh, and Jaibar. These divisions became more rigid during the reign of Maharaja Madhav Singh, leading to various social tiers and marriage restrictions.

8. What is a "Siddhanta" and who is authorized to issue it? A "Siddhanta" is an official marriage clearance or certificate stating that the bride and groom are "Asvajan" (not related within prohibited degrees). It is issued by a "Panjikar" (genealogist), an official

authorized by the king to maintain lineage records and verify marriage eligibility according to Shastric law.**9. How does the "DushunPanji" differ from the standard Panji records?**The "Dushun Panji" (Fault Register) documents anomalies or "faults" in a lineage, such as historical instances of inter-caste marriages or marriages with outsiders (e.g., Yavanas). It serves to track the "ksaran" (dilution) of lineage purity so that future generations can manage the social consequences.**10. Why is theTirhutascript considered the "lifeblood" of the PanjiPrabandh?**All traditional Panji books and records are written in the Tirhuta (Maithili) script. The text notes that the survival of the Panji system is intrinsically linked to the preservation of this script, as genealogists must be proficient in Tirhuta to access and update the centuries-old palm-leaf manuscripts.

Part II: Answer Key

- Purity and Marriage Law: To maintain jati shuddhi and ensure marriages followed Shastric prohibitions regarding shared ancestry.
- King Harisimhadeva: Karnat King who institutionalized the system in 1326 AD by appointing official Panjikers.
- Uderh: A profile of ancestors; marriage is barred if there is a common ancestor within 7 paternal or 5 maternal generations.
- Vedic Divisions: Vajasaneyi (Yajurveda) and Chhandog (Samaveda).
- Gotra/Pravara: Gotra is the main sage lineage (20 total); Pravara refers to specific hymn-composing ancestors (3 or 5).
- Mulu/Mulu Gram: Mulu is the lineage root; Mulu Gram is the ancestral village of the Beeji Purush.
- Categories: Shrotriya, Yogya, Panjibadh, and Jaibar.
- Siddhanta: A certificate of non-relationship issued by a Panjiker after verifying records.
- Dushun Panji: A record of lineage "faults" or historical deviations from caste/lineage purity.
- Tirhuta Script: The traditional script in which all genealogical records are kept; essential for the system's continuity.

Part III: Essay Format Questions

- The Evolution of Genealogical Record-Keeping: Analyze the transition of Maithil record-keeping from oral tradition and "Samuha Lekhya" (mentioned by Kumarila Bhatta) to the institutionalized Panji Prabandh under King Harisimhadeva.

- **The Sociological Impact of Lineage Hierarchy:** Discuss how the classification of Maithil Brahmins into Shrotriya, Yogya, and Jaibar influenced social dynamics, marriage practices, and the internal politics of the Mithila region.
- **Panji as Traditional Science:** Evaluate the Panji Prabandh as a pre-modern form of "genome mapping." How does its focus on 32 branches of ancestry and sapinda restrictions align with modern concerns regarding genetic diversity and hereditary health?
- **The Role of the Panjikaar in Maithil Society:** Explore the responsibilities, ethical requirements, and historical prestige of the Panjikaar. How has their role shifted from royal appointees to independent guardians of cultural heritage?
- **Lineage Faults and Social Integration:** Using the examples from the "Dushun Panji" (such as marriages involving different castes or foreigners), discuss how the Maithil community historically recorded and eventually integrated or managed lineage deviations.

Part IV: Glossary of Key Terms

Term, Definition

Beeji Purush, The founding ancestor of a specific lineage or Mulu.

Chhandog, Maithil Brahmins who follow the Kauthuma branch of the Samaveda.

Dushun Panji, "A register of ""faults"" or deviations within a lineage, such as prohibited marriages."

Gotra, "A clan or lineage descending from one of the primary ancient sages (e.g., Shandilya, Vatsa)."

Jaibar, A category of Maithil Brahmins who did not initially maintain formalized Panji records or whose records were less prestigious.

Jati Shuddhi, The concept of maintaining the purity of the caste or lineage.

Mulu, "The ""root"" or original lineage of a family."

Mulu Gram, The original ancestral village associated with a specific Mulu.

Panji, The compiled genealogical records or books of the Maithil community.

Panjibadh, A category of individuals whose names and lineages are officially recorded in the Panji books.

Panjikar, A professional genealogist authorized to maintain records and verify marriage eligibility.

Pravara, "Illustrious ancestors within a Gotra, typically sages who composed Vedic hymns."

Sapinda, "Relatives connected by the same ""pinda"" (body/lineage); marriage within specific degrees of Sapinda relationship is prohibited."

Shaktri, The formal investigation of ancestry (6 or 7 generations) conducted before issuing a Siddhanta.

Shrotriya, "The highest social tier of Maithil Brahmins, noted for their strict adherence to rituals and lineage purity."

Siddhanta, "A formal clearance certificate issued by a Panjikar, permitting a marriage to proceed."

Tirhuta, "The traditional script of the Maithili language, used for all historical Panji manuscripts."

Uderh, The comprehensive genealogical profile of an individual used to check marriage compatibility.

Vajasaneyi, Maithil Brahmins who follow the Madhyandina branch of the Yajurveda.

Yogya, A tier of Maithil Brahmins ranking below Shrotriya but above Panjibadh.

3

The 1,500-Year-Old Social Algorithm: Decoding Mithila's Ancient "Genome Map"

In the modern age, we view services like 23andMe or Ancestry.com as the pinnacle of genealogical tech. Yet, these are fundamentally **reactive** tools—they tell us what we are based on the past. In the Mithila region of South Asia, an extraordinary "bio-social ledger" known as the **Panji Prabandh** has operated for over 1,000 years as a **proactive biological firewall**. Established as early as 450 AD and codified into a decentralized social contract by King Harisimhadeva in 1326 AD (Shaka 1248), this system didn't just record ancestry; it was designed to predictively determine the biological viability of the next generation. It is, in every sense, a distributed human database that put data integrity above social ego.

12. The 32-Point Pedigree Check (The "Original Algorithm")

Long before the advent of digital nodes, the Mithila system utilized a rigorous concept called **Utegh** to verify lineage. To determine if a union was permissible, a genealogist had to identify the **BattisKula** (32 lineages). This required tracking 32 specific ancestral nodes for every individual—including paternal and maternal grandparents and great-grandparents across multiple intersecting lines. In a pre-paper society, this represented a massive computational challenge. The Panjekar (genealogist) had to mentally "query" these 32 nodes for every proposed union, a non-linear verification process that ensured the "database" remained free of redundant genetic loops.

13. The "Siddhanta" — Marriage by Permission

The architect of the modern Panji system, **KingHarisimhaddeva**, formalized the role of the Panjekar as the ultimate gatekeeper of social data. No marriage was considered valid or "shastric" without a mandatory **Siddhanta**—a formal certificate of permission. This certificate was a declaration of **Asvajanatva** (non-relatedness), proving the couple were not "Swajana" (closely related). "The Panji-Prabandh's primary rule became that without a 'Siddhanta,' a marriage would be considered un-shastric (unauthorized)."

14. Ancient Genetic Safeguards (The 6/7 Generation Rule)

The system's "source code" was the **Sapindal**ogic, which translates to the "sharing of body particles"—the ancient equivalent of shared genetic markers. To ensure maximum genetic distance (or heterosis) and prevent the degradation caused by inbreeding, the Panji enforced a specific **asymmetrical** filtering system:

- Paternal Side: Marriage was prohibited within seven generations on the father's side.
- Mother's Side: Marriage was prohibited within five generations on the mother's side. By mapping these generations with such granularity, the Mithila society created a manual genome map that identified potential "genetic overlaps" centuries before the double helix was ever visualized.

15. The Honesty of "Dosh" (Blemish) Records

While most family trees are edited to hide "scandals," the Panji Prabandh functioned on the principle of absolute **data integrity**. **The records contain transparent entries regarding** Dosh, or lineage blemishes. For the "social algorithm" to remain functional, negative data was considered just as valuable as positive data. Erasing a blemish was seen as corrupting the

database, which would cause the entire genealogical map to fail. The source records include startlingly honest data points, such as marriages with "unknown castes," "devadasis," or even specific mentions of "Yavani" (Muslim) connections—such as the record of Daulti Jahan—and "Chamar" (leather worker) lineages.

16. Materiality and Preservation: The "Palm-Leaf Server"

The preservation of this 1,500-year history was a masterpiece of ancient knowledge systems. The records were the lifeblood of the **Tirhut** script, written on **Tala Patra** (palm leaves) using an indelible ink derived from forest herbs. Because these physical "servers" were susceptible to decay, the Panjikars followed a strict maintenance protocol: the leaves had to be dried in the sun during **Singha Rashi** (when the sun is in Leo, typically August 16 to September 15), the period of the year when solar intensity is strongest. This prevented moisture and fungal rot, ensuring the data survived for over a millennium without state patronage.

Conclusion: A Legacy of Memory

The Panji Prabandh is more than a relic; it is a sophisticated bio-social ledger that has survived through the sheer social will to maintain data accuracy. Today, as we transition these palm leaves into digital and Devanagari formats, we are essentially migrating a 1,500-year-old human database into a new architecture. In our age of temporary digital footprints and "deleted" histories, what will remain of our lineage 1, years from now?

Strategic Framework for the Digitization and Modernization of Mithila's Panji Records

17. Executive Context: The Living Genome (450 AD – Present)

The Mithila Panji system represents a monumental "Genome Mapping" effort that provides an unbroken genealogical continuum from approximately 450 AD to the present. This archive functions as the world's most sophisticated and long-standing ancestral database, predating modern genetic ledgers by over a millennium. By meticulously documenting lineages across generations, the Panji system preserves the biological and cultural heritage of the Maithil people. **The Three Pillars of Panji Significance:**

- **Historical Legitimacy:** Established as a state-regulated institution under King Harisimhadeva, providing a formalized record of legal and social standing.

- **Cultural Identity:** The primary vessel for the preservation of the Tirhuta script and the traditional socio-legal frameworks of the Mithila region.
- **Biological Integrity:** A scientific and scriptural imperative designed to prevent consanguinity through the strict enforcement of Sapinda (prohibited kinship) marriage rules. As the Chief Heritage Archivist, I oversee the transition from fragile, century-old palm-leaf manuscripts (Tala-patra) to a resilient digital framework. This modernization is a strategic necessity to prevent the permanent loss of this irreplaceable cultural genome.

18. Historical Foundations and Institutional Legacy

The formalization of the Panji records occurred in the 14th century (c. 1326 AD / Shaka 1248) under the aegis of King Harisimhadeva. This state-mandated reform was necessitated by the "Harinath Upadhyaya incident," in which a renowned scholar of Dharma-shastra unknowingly married a relative within prohibited degrees. This accidental violation of social norms demonstrated that the Samuh-Lekhya (informal/oral) period of record-keeping was no longer sufficient for maintaining social order. To ensure data integrity, King Harisimhadeva established the Panji-Prabandh, appointing specific scholars as the first official archivists. He entrusted **Gunakar Jha** of the Mandua Moola with the Brahmin records, while **Shankardatta** and **Vijayadatta** were appointed to oversee the records for the Kayastha and Kshatriya communities, respectively.

The Evolution of Panji Documentation

Feature, Samuh-Lekhya Period (Pre-1326 AD), Panji-Prabandh Period (Post-1326 AD)

Authority, Informal/Decentralized, State-Regulated/Royal Decree

Methodology, Subjective Memory & Oral Tradition, Formal Manuscript Registry by Panjikars

Verification, Prone to error and kinship overlap, Objective Asvajanat (non-kinship) verification

Structural Focus, Disparate ancestral tracking, "Systematic mapping of Gotra, Moola, and Grama"

19. Data Architecture: Gotra, Moola, and Pravara Frameworks

The Panji archive utilizes a multi-dimensional data architecture where genealogical identifiers serve as unique keys for identification. The vertical

division of the Brahmin community is categorized by Vedic branches: the **Chhândogya**(Samveda) and the **Vajasaneyi**(Yajurveda/Madhyandina).

Primary Genealogical Entities

- The 20 Gotras: Paternal lineages such as Shandilya, Vatsa, Savarna, Kashyapa, Parashara, Bharadwaja, Katyayana, Garga, Kaushika, Alambukaksha, Krishnatraya, Gautama, Maudgalya, Vashistha, Kaundinya, Upmanyu, Kapila, Vishnuvridhhi, Chhandi, and Jatukarna .
- Pravara Distinction: Gotras are classified as Tri-Pravara (three ancestral sages) or Panch-Pravara (five ancestral sages). Gotras like Vatsa, Savarna, and Garga follow the five-sage framework, whereas others like Shandilya and Kashyapa follow the three-sage system.
- The 167 Moola-Grams: These track the Moola (ancestral root village) and the Grama (current residence). Each lineage identifies a Bijapurush (founding ancestor) as the primary root in the data architecture.

Moola Hierarchies and Grading

The archive maintains a tiered grading system for the 35 main Moolas (including the 34 primary Moolas and the Khanam branch of the Phandah Moola):

- Ayanti Shrestha (Elite): Includes Kharaure, Khauwal, Budhabaray, Mandar, Darihar, Ghusaut, Bisauti, Karmuha, Narauna, Bhaniam, Hariamb, Sarisab, and Sodarpur .
- Dvitiya Shrestha (Second Grade): Includes Gangwalwar, Raiwar, Kujaulwar, Alewar, Pahiwar, Sakaraywar, Paliwar, Bisewar, Fanwar, Uchitwar, Tandulwar, Kataiwar, and Tilwar .
- Madhyam (Intermediate): Includes Digho, Balaincha, Ekaharay, Panchobh, Baliyas, Japjwal, Takwal, and Mandua .

20. The 'Siddhanta' Logic: Consanguinity and the 16 'Chhapati' Barriers

The functional objective of the archive is the issuance of a **Siddhanta**(certificate of marriage eligibility). This process utilizes a Boolean logic-gate to verify Asvajanat (non-kinship status) by investigating 16 specific genealogical obstacles known as **Chhapati**.

The 16 Genealogical Obstacles (Investigation Points)

A Panjekar must verify the absence of lineage overlap in these 16 checkpoints for the bride:

- Paternal great-great-grandfather's paternal lineage (Vriddha Pitamah).

- Paternal great-great-grandfather's father-in-law (Pitamah's Matamah).
- Paternal great-grandfather's paternal grandmother's paternal line.
- Paternal great-grandfather's paternal grandmother's father-in-law.
- Paternal grandmother's paternal great-grandfather.
- Paternal father's maternal grandfather's maternal grandfather.
- Paternal grandmother's maternal great-grandfather.
- Paternal grandmother's maternal grandfather's maternal line.
- Maternal grandfather's paternal great-grandfather (Pramataamah).
- Maternal great-grandfather's maternal grandfather.
- Maternal grandfather's maternal great-grandfather.
- Maternal grandfather's maternal grandmother's maternal line.
- Maternal grandmother's paternal great-grandfather.
- Maternal grandmother's paternal maternal grandfather.
- Maternal grandmother's maternal great-grandfather.
- Maternal grandmother's maternal grandmother's maternal line.

Generational Purity Mandate

The system enforces the strict scriptural boundaries of Sapinda :

- Paternal Side: Marriage is prohibited within 7 generations (though traditionally refined to 6 in practice following Maharaja Mahesh Thakur).
- Maternal Side: Marriage is prohibited within 5 generations .

21. Paleographic and Physical Preservation Strategy

The physical archive consists of *Tala-patra* manuscripts that are highly sensitive to environmental stressors. Traditional preservation requires the manuscripts to be dried specifically when the **Sun** is in the sign of Leo (mid-August to mid-September) to utilize the peak intensity of the sunlight.

Data Access Crisis

The decline of **Tirhut** script literacy among modern professionals constitutes a critical access crisis. Without transliteration, the archive remains a "dark data" repository, inaccessible to the community it serves.

Physical Threats vs. Strategic Mitigations

Threat Category, Specific Danger, Strategic Mitigation

Environmental, Humidity and moisture-induced rot., Climate-controlled digital vault storage.

Biological, Insect infestation and damage from skin oils., High-resolution non-contact digitization.

Structural, Friction from tight bindings and loose threads., "Digital rebinding into ""Uteh-Panji"" electronic formats."

Linguistic, Total loss of Tirhuta literacy., Automated transliteration into Devanagari.

22. Modernization and Digitization Roadmap

The strategic vision is to transition the Panji from a physical collection into a searchable, resilient digital ecosystem. This transformation ensures the survival of the "Living Genome" by applying modern data management to ancient lineages.

The Next-Generation Digital Archive

- **Multilayered Documentation:** The digital system must differentiate between Moola Panji (original roots), Sakha Panji (branch records), and Dushana Panji (records of lineage flaws or contamination used for risk management).
 - **Transliteration Mandate:** All records must be transliterated into Devanagari to ensure accessibility while maintaining the original Tirhuta for paleographic reference.
 - **Uteh-Panji Data Integrity:** The digital framework must emulate the Uteh-Panji (comprehensive update) format, allowing for the continuous, real-time entry of births and marriages.
 - **Cryptographic Siddhanta:** The modern Panjekar functions as a System Administrator. The Siddhanta process will be treated as a logic-based verification where the output is a secure, verifiable certificate of eligibility based on the 16-point Chhapati check. By digitizing this unique cultural asset, we bridge the 1,500-year history of Mithila's lineages with the demands of the digital future, ensuring that the world's most sophisticated genealogical database remains an active, living record.
- ### # Strategic Framework for the Digitization and Modernization of Mithila's Panji Records

23. Executive Context: The Living Genome (450 AD – Present)

The Mithila Panji system represents a monumental "Genome Mapping" effort that provides an unbroken genealogical continuum from approximately 450 AD. As the world's most sophisticated and long-standing ancestral

database, it serves as a sophisticated record of descent that predates modern genetic ledgers by over a millennium. This archive is not merely a collection of names but a strategic repository of Maithil identity, ensuring the biological and cultural continuity of the region. **The Three Pillars of Panji Significance:**

- **Historical Legitimacy:** Rooted in the state-mandated reforms of King Harisimhadeva, the system provides a formalized record of legal and social standing.
- **Cultural Identity:** The archive is the primary guardian of the Tirhuta script and the linguistic nuances of the Mithila heritage.
- **Biological Integrity:** It functions as a scientific and scriptural imperative to prevent marriage within prohibited degrees of kinship (Sapinda), safeguarding the population against consanguinity. As the Chief Heritage Archivist, I oversee the urgent transition of these records from fragile palm-leaf manuscripts (Tala-patra) to a permanent, secure digital archive to ensure institutional survival.

24. Historical Foundations and Institutional Legacy

The institutionalization of Mithila's records reached a strategic turning point in the 14th century (c. 1326 AD / Shaka 1248) under the reign of King Harisimhadeva. This transition was precipitated by the "Harinath Upadhyaya incident." Harinath, a scholar of Dharma-shastra, unknowingly entered into a marriage that violated prohibited degrees of kinship. This accidental breach of social and scriptural norms highlighted the dangerous limitations of the informal Samuh-Lekhya (oral/informal) period. Recognizing that social stability required infallible record-keeping, King Harisimhadeva mandated the formalization of records under state authority. He appointed foundational 'Panjikars' to maintain these ledgers: **Gunakar Jha** of the Mandua Moola for the Brahmins, **Shankardatta** for the Kayasthas, and **Vijayadatta** for the Kshatriyas. This reform established the **Panji-Prabandh**, a state-regulated system of data entry and verification.

The Evolution of Panji Documentation

Feature, Samuh-Lekhya Period (Pre-1326 AD), Panji-Prabandh Period (Post-1326 AD)

Authority, Informal/Family-based memory, State-mandated/Royal decree

Record Keeping, Oral tradition and disparate notes, Formal manuscripts maintained by Panjikars

Verification, Subjective and prone to kinship error, Objective verification via Siddhanta (eligibility)

Scope, Disorganized ancestral tracking, Comprehensive mapping of Gotra and Moola

25. Data Architecture: Gotra, Moola, and Pravara Frameworks

The Panji system utilizes a technical data architecture where genealogical identifiers serve as unique data keys for individual identification. A critical vertical division exists based on Vedic affiliation: the **Chhandogya** (Samveda) and the **Vajasaneyi** (Yajurveda/Madhyandina).

Primary Genealogical Entities

- The 20 Gotras: The archive tracks twenty primary paternal lineages including Shandilya, Vatsa, Savarna, Kashyapa, Parashara, Bharadwaja, Katyayana, Garga, Kaushika, Alambukaksha, Krishnatraya, Gautama, Maudgalya, Vashistha, Kaundinya, Upmanyu, Kapila, Vishnuvridhi, Chhandi, and Jatukarna .
- Pravara Framework: Lineages are distinguished between Tri-Pravara (three sages) and Panch-Pravara (five sages). Gotras like Vatsa and Savarna follow the Panch-Pravara system, while Shandilya and Kashyapa follow the Tri-Pravara system.
- The 167 Moola-Grams: These track ancestral roots (Moola) and current residences (Grama), with each family lineage tied to a Bijapurush (founding ancestor).

Moola Hierarchies and Grading

The archive categorizes the 35 main Moolas (34 primary + the Khanam branch of the Phandah Moola) into three grades:

- Ayanti Shrestha (Elite): Includes Kharaure, Khauwal, Budhabaray, Mandar, Darihar, Ghusaut, Bisauti, Karmuha, Narauna, Bhaniam, Hariamb, Sarisab, and Sodarpur .
- Dvitiya Shrestha (Second Grade): Includes Gangwalwar, Raiwar, Kujaulwar, Alewar, Pahiwar, Sakaraywar, Paliwar, Bisewar, Fanwar, Uchitwar, Tandulwar, Kataiwar, and Tilwar .
- Madhyam (Intermediate): Includes Digho, Balaincha, Ekaharay, Panchobh, Baliyas, Japjwal, Takwal, and Mandua .

26. The 'Siddhanta' Logic: Consanguinity and the 16 'Chhapati' Barriers

The ultimate function of the **Panji** is to determine marriage eligibility through the **Siddhanta** process, ensuring that the union is **Asvajanat** (non-kinship). This is governed by the **Chhapati** (The 16 Genealogical Obstacles).

The 16 Chhapati Determination

Before a certificate of eligibility is issued, the Panjikaar must investigate 16 specific points of lineage for the bride to ensure no overlap with the groom:

- Paternal great-great-grandfather's lineage (**Vridha Pitamah**).
- Paternal great-great-grandfather's father-in-law (**Matamah** of the **Pitamah**).
- Paternal great-grandfather's paternal grandmother's father's line.
- Paternal great-grandfather's maternal grandmother's father's line.
- Paternal grandmother's paternal great-grandfather's line.
- Paternal father's maternal grandfather's maternal grandfather's line.
- Paternal grandmother's maternal great-grandfather's line.
- Paternal grandmother's maternal grandmother's maternal line.
- Maternal grandfather's paternal great-grandfather's line.
- Maternal great-grandfather's maternal grandfather's line.
- Maternal grandfather's maternal great-grandfather's line.
- Maternal grandfather's maternal grandmother's maternal line.
- Maternal grandmother's paternal great-grandfather's line.
- Maternal grandmother's paternal maternal grandfather's line.
- Maternal grandmother's maternal great-grandfather's line.
- Maternal grandmother's maternal grandmother's maternal line.

The Generational Purity Mandate

- Paternal Side: Marriage is prohibited within 7 generations (though traditionally refined to 6 as per Maharaja Mahesh Thakur).
- Maternal Side: Marriage is prohibited within 5 generations .

27. Paleographic and Physical Preservation Strategy

The physical archive is exceptionally vulnerable. Traditional preservation requires drying the manuscripts in the intense sunlight of late August to mid-September, specifically when the **Sun** is in the sign of **Leo** .

The Tirhuta Script Crisis

The primary language of the archive, **Tirhuta**, is seeing a sharp decline in literacy. This "data access crisis" threatens to render the Panji a dead archive if it is not transliterated for modern users.

Physical Threats vs. Strategic Mitigations

Threat Category, Specific Danger, Strategic Mitigation

Environmental, Humidity and moisture leading to rot., Climate-controlled digital storage.

Biological, Insect infestation and damage from oil/handling., High-resolution scanning; zero-contact archival access.

Structural, Damage from tight binding and loose threads., "Digital rebinding and ""Uteh-Panji"" digital formatting."

Linguistic, Decline in Tirhuta literacy., Transliteration into Devanagari script.

28. Modernization and Digitization Roadmap

The strategic vision transforms the Panji system from fragile manuscripts into a searchable, resilient, and transliterated database.

Requirements for the Next-Generation Archive

- **Multi-Vault Digital Records:** The digital architecture must account for different Panji types: the Moola Panji (original roots), Sakha Panji (branch records), and the Dushana Panji (records of lineage contamination/flaws for risk management).
- **Transliteration:** Mandatory conversion of Tirhuta script into Devanagari to broaden accessibility while preserving phonetic integrity.
- **Data Integrity (Uteh-Panji Format):** The system must allow for the continuous digital update of new births and marriages, maintaining the format of the traditional "Uteh-Panji."
- **Logical Verification:** The modern Panjekar will serve as a System Administrator, where the "Siddhanta" is issued as a logic-based verification of Asvajanat status, clearing the 16-point Chhapati check. This roadmap bridges the gap between the ancient 450 AD lineages and the digital future, ensuring Mithila's Panji remains an irreplaceable cultural asset.

Protocol for Genealogical Verification and Marital Eligibility (Siddhanta)

29. Historical Foundation and the Ethics of Lineage Preservation

The 'Panji Prabandh' system constitutes the world's most extensive "Genome Mapping" apparatus, preserving the biological and spiritual integrity of the Maithil Brahmin community from approximately 450 AD to the present. This institutionalized genealogical record is designed to maintain Jati Shuddhi (caste purity) and prevent Sapinda (consanguineous) unions. By meticulously tracking the "Seed" of each lineage, the system ensures that every marital alliance complies with the rigors of Shastric law. Historically, the transition from decentralized memory to formalized documentation was mandated in 1326 AD (Saka 1248) by King Harisimhadeva. Disturbed by the accidental violation of marriage rules among scholars—most notably the case of Mahapandit Harinath Upadhyaya—the King centralized genealogical authority. He entrusted the 'Panji Prabandh' to **Gunakar Jha** of the Mandar Moola (Phinandah branch), appointing him the primary custodian of these records. While the system was initially intended for Brahmins, Kshatriyas, and Kayasthas, it has survived in its most rigorous form among Maithil Brahmins and Karna Kayasthas. Modern census data within the system confirms the existence of **185 total Panjis**: 32 designated for the Srotريا tier and 153 for the Yogya and Panjibadh (Vanshaj) tiers.

30. Core Taxonomic Classifications: Gotra, Pravara, and Moola

Genealogical verification relies on a tripartite taxonomy that defines an individual's identity: Gotra (lineage), Pravara (illustrious sages), and Moola (ancestral village). These classifications act as the primary filter for eligibility.

The 20 Gotras and the Seven Foundations

The Maithil Brahmin community is organized into twenty Gotras. Of these, seven are recognized as the "Main Gotras" which form the bedrock of the community:

- Shandilya
 - Vatsa
 - Kashyapa
 - Savarna
 - Parashara
 - Bharadwaja
 - Katyayana
- The remaining thirteen Gotras include Garga, Kaushika, Alambukaksh, Krishnatrey, Gautama, Moudgalya, Vashistha, Kaundinya, Upamanyu, Kapil, Vishnuvridha, Tandi, and Jatukarna.

Pravara and Ritual Compatibility

The Pravara reflects the specific Rigvedic hymn-composers within a Gotra. Lineages are categorized by the number of these ancestors:

- Pancha-Pravara (Five Sages): Exclusively the Vatsa, Savarna, and Garga Gotras.
- Tri-Pravara (Three Sages): The remaining seventeen Gotras (e.g., Shandilya, Kashyapa, Parashara). Critical Prohibition: A specific technical barrier exists between the Vatsa and Savarna Gotras. Marriage between them is strictly forbidden as they share identical ancestral roots— Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana —rendering them a single biological unit for the purposes of Sapinda restrictions.

The Moola Hierarchy

There are **167 total Moolas (Ancestral Villages) identified, with 35 Main Moolas** serving as the primary markers of social standing:

- Ayanti Shrestha (First Class): Khandauriya, Khauadiya, Budhabariya, Madariya, Darihariya, Ghausautiya, Pisautiya, Karmaha, Narauniya, Babhaniyamaya, Hariambamaya, Sarisabiya, and Sodarpuriye.
- Dwitiya Shreni (Second Class): Gangolivar, Pautivar, Kujaulivar, Alevar, Pahidvar, Sakadivar, Palivar, Bisbevar, Panevar, Upachitivar, Tandulivar, Kataivar, and Tilaitivar.
- Madhyam Moola (Middle Class): Dirghghe, Baleunchai, Ekahare, Panchobhe, Baliyase, Jajival, Takival, and Mandue (including the Khanama branch of Phinandah).

31. The Uteh Framework: The Rule of 32 Ancestors

The 'Uteh' is the formal ancestral introduction (parichay) required to confirm that a union is not Sapinda . The Panjekar must verify **32 Moolas** representing 32 ancestors—16 from the paternal side and 16 from the maternal side. The standard for "generational abandonment" (ensuring no common ancestor exists within a specific degree) is rigorous:

- Srotiya: Must abandon 7 generations on the paternal side and 5 generations on the maternal.
- Panjibadh/Yogya: Must abandon 6 generations on the paternal side and 5 generations on the maternal. While historical texts like Manusmriti suggest 7 paternal generations, the influence of scholars like Mahesh

Thakur led to the standardized acceptance of 6 generations for the Panjibadh tiers. Central to this mapping is the identification of the Beeji Purush (Seed Ancestor), the earliest known progenitor of the lineage. The Panjekar, acting as the "Protector of the Seed," uses this figure as the anchor for all branch lineage (Sakha) mapping.

32. The 'Chhaphi' Protocol: 16-Point Ancestral Verification

The 'Chhaphi' (the sixth position) is the technical verification of the bride's ancestry to ensure no overlap with the groom's prohibited circles. The Panjekar must investigate the Moola and Gotra of the following 16 positions for the bride:

- Paternal Great-Grandfather's Father (Prapitamaha's Pitamaha).
- Paternal Great-Grandfather's Maternal Grandfather.
- Paternal Grandfather's Maternal Grandfather's Father.
- Paternal Grandfather's Maternal Grandfather's Maternal Grandfather.
- Paternal Grandmother's Paternal Great-Grandfather.
- Paternal Grandmother's Maternal Grandfather's Father.
- Paternal Grandmother's Paternal Grandfather's Father-in-law.
- Paternal Grandmother's Maternal Grandfather's Father-in-law.
- Maternal Grandfather's Paternal Great-Grandfather.
- Maternal Grandfather's Maternal Grandfather's Father-in-law.
- Maternal Grandfather's Paternal Grandfather's Father-in-law.
- Maternal Grandfather's Maternal Grandfather's Maternal Grandfather.
- Maternal Grandmother's Paternal Great-Grandfather.
- Maternal Grandmother's Maternal Grandfather's Father.
- Maternal Grandmother's Paternal Grandfather's Father-in-law.
- Maternal Grandmother's Maternal Grandfather's Father-in-law. If any of these 16 positions intersect with the groom's paternal (within 6/7 generations) or maternal (within 5 generations) lines, the union is invalid.

33. Statutory Constraints and Marital Barriers (Prohibitions)

The violation of Sapinda or Svajana (kinship) rules results in the union being declared Ashastric . Progeny from such unions were traditionally classified as 'Chandala' and excluded from the honors of Aryatva .

The Five Absolute Prohibitions

Per the Smriti texts of Manu and Yajnavalkya:

- Non-equality of Gotra: Parties must not share a Gotra.

- Non-equality of Pravara: Parties must not share a Pravara.
- Non-Sapinda of the Mother: No maternal overlap within 5 generations.
- Non-Sapinda of the Father: No paternal overlap within 6/7 generations.
- Katha Mamak: Prohibition of the progeny from a step-mother's brother.

The Dushun (Taint) Records

The system maintains the 'Dushun Panji', a register of historical lineage flaws. These records track unions that compromised status, such as:

- Agyat Vansh: Marriage into unknown or unverified lineages.
- Pithiaut Bhai: Prohibited unions with maternal cousins.
- Social Taints: Links to families previously classified as Chandala due to specific code violations.

34. Formalization of the 'Siddhanta' (Certificate of Eligibility)

The administrative culmination of the Panjika's work is the issuance of the **Siddhanta**, also known as the **Asvajana-patra**. This document serves as the professional certification that a union is scripturally and customarily valid.

Administrative Mandates

The Panjika must strictly adhere to the following:

- Cross-Referencing: Validating the Sakha Panji (branch) against the Moola Panji (original root).
- Laukik Verification: For Srotriya lineages, verifying that social status (Laukik) remains untainted.
- Manuscript Preservation: The physical Panjis are sacred and fragile. The Panjika must follow the ancient directive: "Jalat Raksha, Tailat Raksha, Raksha Sthula Bandhanat" (Protect from water, protect from oil, protect from loose binding). No marriage within the Maithil Brahmin community is considered valid or socially recognized without the formalized Asvajana-patra. The Panjika stands not as a clerk, but as the Protector of Dharma, ensuring that the biological and spiritual "Seed" of the community remains uncorrupted across the centuries.

Cultural Literacy Primer: Understanding the Maithil Social Hierarchy

35. Introduction: The Map of Your Identity

In Maithil culture, personal identity is not a matter of chance; it is a meticulous "Genome Mapping" connecting you to a lineage that has been

documented for over a millennium. This system, known as the **Panji Prabandh**, represents a living archive of identity covering a specific timeline from **450 AD to 2009 AD**. This record-keeping was formalized to preserve the biological and spiritual integrity of the community when the oral traditions of the Vedic age began to fade. To understand your place in this hierarchy is to understand how your life is mapped across ancestors, Vedic branches, and specific geographical roots. This journey begins with the most fundamental classification: the Gotra .

36. The Gotra: Our Ancestral Families

The **Gotra** is the widest lens of Maithil identity, representing a lineage descended from ancient Vedic sages (Rishis). It signifies a shared biological and spiritual origin. In Maithil society, there are **20** distinct Gotras that serve as the primary filter for social standing and matrimonial compatibility.

The Seven Primary Gotras

The following seven Gotras are the most prevalent within the community:

Number	Gotra Name	Ancestral Sage
1	Sandilya	Rishi Sandilya
2	Vatsa	Rishi Vatsa
3	Savarna	Rishi Savarna
4	Kashyapa	Rishi Kashyapa
5	Parashara	Rishi Parashara
6	Bharadwaj	Rishi Bharadwaj
7	Katyayana	Rishi Katyayana

The Remaining 13 Gotras

To complete the traditional 20 categories, the following Gotras are also recognized:

- Garga
- Kaushika
- Alambyakaksha
- Krishnatreya
- Gautama
- Maudgalya
- Vashistha
- Kaundinya
- Upamanyu
- Kapila
- Vishnuvruddhi
- Tandi

- **Jatukarna**The "So What?": Because members of the same Gotra are considered spiritual siblings, marriage within a Gotra is forbidden. However, while Gotra defines the family tree, the Moola defines the specific "root" of that family.

37. Moola and Moola-Gram: Finding Your Roots

If the Gotra is the broad family, the **Moola**(root) is the specific branch. Every Moola is associated with a **Moola-Gram**(**ancestral village**) and **traces back to a Beeji Purush**, the founding ancestor of that specific lineage. The Panji system records **167 types of Moolas**, with **34 to 35** recognized as primary lineages. Notably, while 34 were originally identified, the **Khanam** branch of the **Phandah** Moola was later recognized as the 35th high-lineage Moola. These are categorized into three prestige-based tiers:

- **Ayanti Shrestha** (First Category)
- **Lineages:** Kharaure, Khauar, Budhabar, Madar, Darihar, Ghausaut, Tisaut, Karmahe, Naraun, Babhaniyam, Hariambay, Sarisab, and Sodarpur.
- **Second Category**
- **Lineages:** Gangoliwar, Raupalwar, Kujaupalwar, Alewar, Paliwar, Sakariwar, Bisewar, Phanewar, Uchitwar, Handulwar, Kataiwar, and Bilaiwar.
- **Madhyam Moola** (Intermediate)
- **Lineages:** Dighey, Belonche, Ekharey, Panchobhey, Paliase, Jajwal, Takwal, and Handue. These family roots are further refined by their intellectual and ritualistic heritage, known as the **Pravara**.

38. Pravara: The Intellectual Lineage

The **Pravaras** system links a family to the specific ancient Rishis who composed the hymns of the Rigveda. This classification determines eligibility for sacred Vedic rituals and sacrifices (Yagyas). | **Pravara Type** |
Number of Sages | Associated Gotras || ----- | ----- | ----- || **Tri-Pravara** |
Three | Sandilya, Kashyapa, Parashara, Bharadwaj, Katyayana, Kaushika, Alambyakaksha, Krishnatreya, Gautama, Maudgalya, Vashistha, Kaundinya, Upamanyu, Kapila, Vishnuyrudhi, Tandi. || **Panch-Pravara** | Five | Vatsa, Savarna, Garga. |

Learner Insight: The Vatsa-Savarna Restriction A critical nuance for the learner is that even if two people have different Gotras, they may share the same Pravara ancestors. For example, the Vatsa and Savarna Gotras

share the same five ancestors (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana). Consequently, marriage between Vatsa and Savarna is strictly forbidden due to this identical intellectual lineage.

39. The Hierarchy: Shrotriya, Yogya, and Panjibaddh

In 1326 AD (1248 Saka), King Harisimhadeva of the Karnat dynasty formalized the Maithil social structure to preserve lineage purity. He appointed the scholar Gunakar Jha (of the Mandaaur-Phandua Moola) to lead the Panji Prabandheffort. The community was divided into three core ranks:

- Shrotriya: The highest tier, further subdivided into eight categories known as Chaugala. They adhere to the highest standards of Vedic conduct.
- Yogya: Meaning "eligible" or "qualified," this group represents those of high lineage ranking just below the Shrotriya.
- Panjibaddh (Vanshaj): Those whose lineages are formally recorded within the Panji system.
- Jaibar: Those whose lineages were not included in the formal records at the time of the initial census. These ranks are verified through the Udegh before any marriage can be sanctioned.

40. The Panji System in Practice: Marriage and Compatibility

The ultimate purpose of this genealogical mapping is to ensure a "Shastric" marriage—one that follows traditional laws. This is achieved through the issuance of a Siddhanta (formal permission) by a Panjekar (registrar).

The Udegh: The Ancestral Profile

Before a Siddhanta is issued, the Panjekar verifies the Udegh, which is a comprehensive introduction or profile of 32 Kulas (ancestral lineages). These 32 ancestors include:

- Paternal and Maternal Grandfathers and Grandmothers.
- The Great-Grandparents and lineages of those ancestors extending back several generations.

The Sapinda Rules

To achieve the state of Asanjana (unrelatedness), the couple must satisfy these specific generation-count rules:

- Paternal Side: A Shrotriya must avoid 7 generations of relation; a Panjibaddh/Vanshaj must avoid 6 generations.

- Maternal Side: All ranks must avoid 5 generations of relation.
- The Vimata Rule: Marriage is forbidden with the children of the brother of one's Vimata (step-mother).
- Gotra/Pravara: Different Gotras and Pravaras are required (with the specific exception of the Vatsa/Savarna ban).

41. Conclusion: A Living History

The *PanjiPrabandh* is a unique cultural treasure, a system of human record-keeping that predates modern genetics by nearly a thousand years. It was born out of a defensive necessity to preserve a distinct identity during a period of shifting social landscapes. By mastering these categories—Gotra, Moola, and Pravara—you are not merely learning about a social hierarchy; you are learning to read the map of a civilization. This system ensures that every Maithil is not an isolated individual, but a vital link in a historical chain stretching back to the dawn of the Vedic era.

TheChhaphiSystem: A Procedural Guide toMaithilGenealogical Logic

As a Senior Ethnologist specializing in the preservation of Vedic social structures, I present this guide to the**Panji**system. **This ancient Maithil Brahmin record-keeping method is one of the most sophisticated examples of historical information architecture in the world. Often described as a precursor to modern genome mapping, the system uses a mathematical logic calledChhaphi** to prevent prohibited marriages and ensure lineage purity.

42. Foundations of the Panji System

The Panji system was formally institutionalized in Shaka 1248 (1326 AD) under the patronage of**KingHarisimhadeva**, the Karnat Dynasty ruler of Mithila. The system arose as a response to a critical genealogical crisis: noble families were inadvertently entering into Svajana (incestuous or prohibited) unions because oral traditions had become fragmented. To address this, the King commissioned the scholar**GunakarJha** to document and consolidate the lineages of all Maithil Brahmin families. The primary objective was to establish a permanent, written "Human Database" to ensure every marriage adhered to strict Vedic requirements. By centralizing these records, the Mithila state ensured that couples were Asvajana (not related within prohibited degrees), thereby preventing the birth of offspring who would suffer a loss of social and religious standing—a status referred to in Smriti law as Chandala .While the logic of the Panji remains universal across the

community, a specialist must note the vertical division between **Samavedi**(Chandogya) and **Yajurvedi**(Vajasaneyi) Brahmins. While they follow the same genealogical rules, their rituals differ; for instance, Vajasaneyi weddings may occur by day or night, whereas Chandogya weddings must follow a specific sequence where the couple views the star Arundhati after sunset. This historical necessity leads us directly to the specific metrics—the "input data"—that Panjikars use to calculate eligibility.

43. The Building Blocks: Gotra, Mula, and Pravara

Genealogical identity in the Panji system is constructed through three core pillars. These determine an individual's specific "address" within the vast network of Maithil lineages. | Pillar | Definition | Significance || ----- | ----- | -
----- ||**Gotra**| Clan identity | Traces descent from a specific Vedic sage (Rishi). ||**Mula**| Ancestral Source | Identifies the *Mula-grama* (original village) where the lineage was first documented. ||**Pravara**| Sage Lineage | A sub-classification identifying the group of sages who composed Rigvedic hymns within a Gotra. |

The Identity Filters

While the source context identifies 20 distinct Gotras and 167 total Mulas, the community recognizes 34 (or 35, including the Khanama branch of Phanandah) as "Primary Mulas." The seven primary Gotras are:

- Shandilya
 - Vatsa
 - Kashyapa
 - Savarna
 - Parashara
 - Bharadwaja
 - Katyayana
- Critical Genealogical Note: A specialist must recognize that the Savarna and Vatsa Gotras, though distinct in name, share the same five ancestral sages (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana). Consequently, marriage between these two Gotras is strictly prohibited as if they were a single clan.

Understanding Pravara

A Gotra is further refined by its **Pravara**, categorizing the lineage by the number of associated sages:

- Tri-pravara: Associated with three sages (e.g., Shandilya, Kashyapa, Parashara).
- Pancha-pravara: Associated with five sages (e.g., Vatsa, Savarna, Garga). These identities serve as the primary filters for marriage; however, the true complexity of the Panji "algorithm" lies in the calculation of distance through the Sixteen Ancestral Steps.

44. The Algorithm of Chhaphi: The Sixteen Ancestral Steps

The **Chhaphi** (ancestral steps) is the procedural logic used to determine if a couple is related within prohibited degrees. To be eligible for marriage, both the bride and groom must be at least the **sixth** descendant (the Chhaphi node being the 1st, and the individual being the 6th) from sixteen specific ancestral nodes.

The Sixteen Prohibited Nodes (Chhaphi)

Following the precise technical chains of the Vaivahika Adhikara Nirnaya , these nodes are:

- Paternal Great-grandfather's Paternal Grandfather
- Paternal Great-grandfather's Maternal Grandfather
- Paternal Grandfather's Maternal Grandfather's Father
- Paternal Grandfather's Maternal Grandfather's Maternal Grandfather
- Paternal Grandmother's Paternal Great-grandfather
- Paternal Father's Maternal Grandfather's Maternal Grandfather
- Paternal Grandmother's Maternal Great-grandfather
- Paternal Grandmother's Maternal Grandmother's Maternal Grandfather
- Maternal Grandfather's Paternal Great-grandfather
- Maternal Great-grandfather's Maternal Grandfather
- Maternal Grandfather's Maternal Grandfather's Father
- Maternal Grandfather's Maternal Grandmother's Maternal Grandfather
- Maternal Grandmother's Paternal Great-grandfather
- Maternal Grandmother's Paternal Grandmother's Paternal Grandfather
- Maternal Grandmother's Maternal Great-grandfather
- Maternal Grandmother's Maternal Grandmother's Maternal

Grandfather The Logic of Distance: If any of these 16 ancestors appear in the other party's lineage within the prohibited generations, the union is blocked. This calculation ensures a genetic and spiritual "buffer" that preserves the integrity of the community.

45. The Rules of Marriage Eligibility (Sidhanta)

Once the Chhaphi is calculated, the Panjekar must verify several other prohibitions before issuing a final verdict, known as **Sidhanta**.

Eligibility Checklist:

- Exogamy of Gotra and Pravara: The bride and groom cannot belong to the same Gotra or share the same Pravara (noting the Vatsa/Savarna shared lineage rule).
- Sapinda Avoidance (Paternal): Historically 7 generations, but modified by scholars like MM Mahesh Thakur ; the 6th generation is currently treated as the limit for eligibility.
- Sapinda Avoidance (Maternal): The couple must not be blood relatives within 5 generations.
- Step-Maternal Uncle Rule (Katha Mama): A man cannot marry the child of his step-mother's brother.
- Asvajana Status: The Panjekar must confirm the couple are Asvajana (unrelated within these bounds). The ultimate goal of these rules is to ensure the marriage is Shastric . Unions failing these checks result in Svajana offspring, who are historically compared to the "Chandala" class, effectively losing their religious status and continuity.

46. The Panjekar: The Human Database

The **Panjekar** is the professional custodian of the **Samhu-Lekhya (collective records)**. **These records were traditionally preserved on** Talapatra (palm leaves) using a specialized ink made from forest herbs (Khadahi), designed to be resistant to water and oil. Preservation is so vital that the records are traditionally sun-dried only when the Sun is in Leo (mid-August to mid-September) to ensure maximum protection against moisture.

Primary Materials of the Panjekar:

- Mula Panji: Foundational records of ancestral villages and original sources.
- Sakha Panji: Branch records tracking how families migrated to different villages.
- Utegh: The technical list of 32 ancestors used to calculate the 16 Chhaphi nodes.

The Sidhanta Process

Before a wedding, families must obtain a **Sidhanta**-patra (or Asvajana-patra). The Panjika cross-references the lineages against the Samhu-Lekhya . If the couple is cleared, a written certificate is issued. Without this document, the marriage is considered unscriptural and is not recognized by the community.

47. Conclusion: The "Genome Mapping" Perspective

The Chhaphi system is a procedural marvel of information architecture, representing a 1,000-year-old attempt at tracking **genetic** distance long before modern DNA sequencing.

Key Takeaways for the Student Learner:

- **Procedural Precision:** The system utilizes 16 specific biological nodes to track relationships with mathematical accuracy, moving beyond vague notions of "family."
- **Information Resilience:** Using only Talapatra and specialized ink, the Panjika has maintained an unbroken "human database" for over 30 generations.
- **Prevention of In-breeding:** By mathematically defining the distance required to be Asvajana , the system effectively managed genetic diversity within a closed community for a millennium. Through the Chhaphi, we see how Mithila's ancient scholars used logic and rigorous record-keeping to solve the universal human challenge of maintaining lineage, health, and social identity.

The Comprehensive Guide to the Panji Prabandh: A 1,500-Year Heritage (450 AD – 2009 AD)

48. Introduction: The "Family GPS" of Mithila (Student Edition)

For over a millennium, the Maithil society of North Bihar and Nepal has maintained the **Panji Prabandh**, one of the most sophisticated genealogical systems in human history. Imagine a massive, 2,000-page "family map" or database that tracks every ancestor, original village, and marriage for nearly 1,500 years. This system functions like a strategic "Family GPS," preserving the identity and biological integrity of the society across generations. While the roots of these records trace back to 450 AD, the system was formally standardized in 1326 AD (Saka 1248) under **King Harisimha Deva**. **The catalyst for this formalization was a famous "identity crisis" involving the great scholar Pandit Harinath Upadhyaya** . Despite his immense knowledge of the scriptures, he accidentally married a close cousin (his

mother's brother's daughter) because there was no written record of his maternal lineage. When he realized his error, the society was shocked. Acting like a modern-day CEO ordering a massive "system update," King Harisimha Deva decreed that all family trees must be documented in writing—moving from Smriti (memory) to Lekhya (written records). This created a biological and social audit system, ensuring that people did not marry close relatives (protecting genetic health) and providing every Maithil Brahman with a verifiable "identity code." **SoWhat?:** The Panji Prabandh was a precursor to modern genetic mapping. Centuries before digital databases or DNA testing, Mithila established a rigorous social audit that prioritized genetic diversity and social accountability, creating one of the most stable and documented social structures in the world.

49. The Building Blocks: Gotra, Mool, and Pravara

To navigate the Panji, one must understand the technical architecture used to define an individual's identity. Every Maithil Brahman is identified by a unique combination of three pillars:

- **The 20 Gotras (Clans):** These represent lineages originating from specific Vedic Sages. As per the source (Page 0.), the 20 Gotras are: 1. Shandilya, 2. Vatsa, 3. Savarna, 4. Kashyap, 5. Parashar, 6. Bharadwaj, 7. Katyayan, 8. Garg, 9. Kaushik, 10. Alamyukaksh, 11. Krishnatrey, 12. Gautam, 13. Mudgalya, 14. Vashistha, 15. Kaundilya, 16. Upamanyu, 17. Kapil, 18. Vishnuvridhi, 19. Tandee, and 20. Jatukarna.
- **Mool (The Root Village):** This defines the original village where a family branch started. There are 167 total Mools, but 35 are recognized as "Main Mools." Historically, there were 34, but the Phanandah Mool (Khanama branch) was added as the 35th due to its rising status. Mools are categorized into three social grades:
- **Ayandishrestha (Highest):** Includes villages like Kharaure, Mandar, Sarisab, and Sodorpur.
- **Dwitiya (Second):** Includes Gangoliwar, Kujoliwar, and Pailwar.
- **Madhyam (Medium):** Includes Dighway, Belonche, and Ichhare.
- **Pravara (The Sages):** Families are classified based on the number of sages who composed Vedic hymns in their lineage: Tri-pravara (3 sages) or Pancha-pravara (5 sages).
- **The "Beeji Purush":** This is the "Seed Ancestor"—the earliest known forefather who established a specific family line (e.g., Pinayan Bhatt,

circa 400 AD, for the Mandar Mool). So What? : The transition from the Samuh-Lekhya (community records) to the standardized Panji meant that identity was no longer just about who you knew, but what was written. This prevented the "erasure of history" and ensured that every individual was anchored to a specific historical and geographical point.

50. The Marriage Algorithm: Rules of Adhikar (Eligibility)

The Panji system is essentially a complex algorithm used to verify marriage eligibility (Adhikar). The process is legalistic and scientifically rigorous.

- The Generational Rule: To ensure genetic distance, the system enforces the Sapinda rule. For Shrotriya (highest class) families, one must avoid 7 generations on the father's side and 5 generations on the mother's side. For Panjibaddh families, the rule is 6 generations on the father's side and 5 on the mother's.
- The "Chhathi" (The Sixteen Branches): A Panjekar must cross-check 16 specific ancestral relations to ensure no shared bloodline. These include:
 - Paternal grandfather's paternal grandfather.
 - Paternal grandfather's maternal grandfather.
 - Paternal grandmother's paternal grandfather.
 - Paternal grandmother's maternal grandfather. ...and so on, covering 16 distinct maternal and paternal paths (Source Page 0.9-0.).
- The "Siddhanta-patra": Once eligibility is proven, the Panjekar issues a Siddhanta-patra (or Asvajanat), a marriage certificate confirming the couple is not Svajana (too closely related).
- Utedh (Pedigree Analysis): This involves the exhaustive tracking of 32 maternal and paternal lines (Mools) of both the bride and groom to ensure total genealogical distance. So What? : This process functions as a "social audit." By prioritizing scientific genetic distance over personal choice, Mithila maintained high biological health and social consistency for centuries.

51. The Taxonomy of Social Status: Shrotriya to Jaywar

The Panji created a hierarchy based on ancestral scholarship and adherence to marriage rules.

- Class Divisions:
- Shrotriya: The highest scholarly grade.
- Yogya: The "deserving" or eligible class.

- Panjibaddh: Families formally registered in the systematic Panji.
- Jaywar: Those not formally recorded or who lost status.
- Laukika (Social Currency): Status was measured by Laukika , a metric of social standing. Marrying into a lower-status family caused Ksharan (decline), recorded in the Dushan Panji (The Record of Flaws).
- Reform of King Madhav Singh: In Saka 1644, King Madhav Singh updated the records to further categorize these branches, reinforcing the scholarly purity of the top tiers. So What? : The Panji system created a rigid social ladder where Laukika acted as a currency of honor. While it incentivized scholarship, it created a system where status was remarkably easy to lose through a single "incorrect" marriage but nearly impossible to regain.

52. Structural Guide to the Genealogical Blocks

The following table extracts the first 100 entries from the "Table of Instances" (pages 0.17–0.), which serve as the primary records of Mithila's social history.

Page No.	Block/Entry	Primary Lineage/Ancestry	Historical/Social Context (Notes)
0.	178/1	Sarisab / Palyas	Marriage of Chamru's son Gangadhar; descendants attained purity after 6 generations.
0.	178/2	Budhwal / Khauwal	Mentions Madhav, son of Bhim; maternal side unknown (Ajnat).
0.	71/1	Mandar / Sodorpur	Marriage into lower class; status impact on descendants of Bhavdatt.
0.	177/2	Sodorpur / Palyas	Records inter-caste (*Antar-jatiya) relations for descendant Bhmaru.
0.	196/7	Rauli / Ekahara	Lineage of Keshav; mentions unknown (Ajnat) status of Nanhu's maternal line.
0.	184/2	Sodorpur / Karmaha	Records Visho, Mahesh, and Jagat; maternal line includes unknown status.
0.	184/2	Hariam / Udanpur	Marriage of Gangu's son Keshav; mentions inter-caste (Antar-jatiya) status.
0.	186	Sarisab / Karmaha	Mentions Shrinath and Chakrapani; maternal status of Raghav is unknown.
0.	208/1	Koch Rajvansh (Assam)	Marriage of daughter Sohaago into Khauwal branch; royal genealogical link.
0.	208/2	Rauli / Ghusauti	Lineage of Vasudev's daughter; maternal line of Dhuru is unknown.
0.	196/7	Rauli / Ekahara	Lineage of Harihar; mentions maternal link to "Yavani" (foreigner/non-Aryan).
0.	216/1	Kujouli / Khauwal	Lineage of Gopal; mentions "Yavani" status in the maternal line of Lakhu.
0.	216/2	Khandwala / Mandar	Marriage of Mahesh and Gopal; mentions unknown status in paternal line.
0.	216/2	Gopadhi / Sarisab	Lineage of Ratnapani; maternal line refers to "Gopadhi-mata."
0.	102/1		

Darihara / Sodorpur | Lineage of Manasukh; maternal status of Nonai is unknown. || 0. | 215/1 | Sodorpur / Khauwal | Mentions "Devdasi" (temple servant) status in the maternal line of Harihar. || 0. | 215/2 | Budhwal / Khauwal | Mentions "Devdasi" status in the maternal line of poet Vidyapati. || 0. | 214/1 | Sodorpur / Tali | Lineage of Janardan; mentions "Devdasi" status in maternal line. || 0. | 214/2 | Sodorpur / Mandar | Lineage of Shrihari; maternal status of Jage is unknown/Devdasi. || 0. | 213/1 | Rauli / Budhwal | Mentions "Devdasi" maternal link for Manasukh. || 0. | 213/2 | Darihara / Rauli | Mentions "Devdasi" maternal link for Haridev. || 0. | 212/1 | West India (Pashchim) | Lineage of Latau Shiti; maternal side unknown status. || 0. | 212/2 | West India (Pashchim) | Lineage of Shiv; maternal status of Madhikar unknown. || 0. | 211/1 | Charmakar (Tanner) | Marriage into Talhanpur Mool; genealogical record of inter-caste union. || 0. | 211/11 | Sodorpur / Mandar | Lineage of Raghu; maternal line of Ananda's daughter. || 0. | 209/1 | Salakha / Budhwal | Lineage of Buddhikar; mentions unknown status marriage in Vasaun. || 0. | 209/11 | Karmaha / Sodorpur | Lineage of Jagannath Vaman; maternal status recorded as unknown (Ajnat). || 0. | 207/1 | Khandwala / Budhwal | Lineage of Bhavanandnath; mentions maternal line as "Rajaki" (Washerman). || 0. | 207/11 | Hariam / Palyas | Lineage of Bhagwat and Raghu; mentions "Rajaki" status in maternal line. || 0. | 179/1 | Sodorpur / Darihara | Lineage of Devdhar; maternal status of Ramak is unknown. || 0. | 179/II | Karmaha / Sodorpur | Lineage of Sabhapati; maternal status of Ramak is unknown. || 0. | 180/I | Sodorpur / Takwal | Lineage of Sayun; maternal status of Ganga and Rau unknown. || 0. | 180/II | Sodorpur / Mandar | Lineage of Lanh; maternal status of Vagake unknown. || 0. | 181/I | Sodorpur / Salakha | Prohibited lineage (Nishiddha-kul); records various "unknown" maternal links. || 0. | 181/2 | Budhwal / Darihara | Prohibited lineage; records Govind and Damu. || 0. | 182/1 | Sarisab / Karmaha | Prohibited lineage; records Shrinath and Chakrapani. || 0. | 182/2 | Sodorpur / Mandar | Prohibited lineage; records Harinath and Damu. || 0. | 183/1 | Sodorpur / Tali | Prohibited lineage; records Amupati and Banke. || 0. | 183/2 | Hariam / Darihara | Records Vasudev and Krishnadev; maternal status unknown. || 0. | 184/1 | Hariam / Udanpur | Lineage of Damu; mentions inter-caste union (Antar-jatiya). || 0. | 184/2 | Sodorpur / Karmaha | Lineage of Visho; maternal status of Harikar unknown. || 0. | 186/1 | Rauli / Ekahara | Lineage of Keshav; maternal status of Chandrak unknown. || 0. | 186/2 | Sarisab / Karmaha | Lineage of Chakrapani; maternal status of Raghav

unknown. || 0. | 187/1 | Sodorpur / Tali | Lineage of Narhari; maternal status of Shiv unknown. || 0. | 187/2 | Sodorpur / Hariam | Lineage of Raghunandan; maternal status of Jadaun unknown. || 0. | 177/1 | Sodorpur / Palyas | Lineage of Nath; maternal status of Gangadhar and Ramak unknown. || 0. | 188/1 | Tantinee (Weaver) | Record of Ram and Narasingh; marriage into unknown caste (Ajnat*). || 0. | 188/2 | Charmakarini | Genealogical record of the mother of famous logician Gangesh Upadhyaya. || 0. | 189/1 | Charmakarini | Lineage of Gangu and Medha; records "Charmakarini" maternal link. || 0. | 189/11 | Sodorpur / Tali | Lineage of Medha; records "Charmakarini" maternal link. || 0. | 190/1 | Hadini (Sweeper) | Lineage of Gong; marriage of Jagannath to Rudramati (Hadini status). || 0. | 190/II | Naraun / Mandar | Lineage of Gong; records Hadini/Rudramati maternal status. || 0. | 191/I | Khauwal / Baheradhi | Records inter-caste marriage of Rajeshwar into "Rajaki" (Washerman) line. || 0. | 191/II | Khauwal / Baheradhi | Records Sureshwar's marriage to a Rajaki girl. || 0. | 192/I | Sodorpur / Karmaha | Records Harinath's lineage; maternal line mentions Naraun village. || 0. | 192/II | Sodorpur / Belonche | Lineage of Hore; maternal status unknown. || 0. | 193/I | Hariam / Darihara | Lineage of Lanhi; maternal status unknown. || 0. | 193/II | Sodorpur / Ghusauti | Lineage of Parsara; records marriage of Haridatt. || 0. | 194/I | Charmakar (Tanner) | Lineage of Nidhi; marriage into "Charmakar" status line. || 0. | 194/II | Tailika (Oilman) | Marriage of Nand and Vasudev into Tailika (caste) line. || 0. | 195/I | Karmouli / Hariam | Records lineage from the great scholar Vardhaman and Bhishm. || 0. | 195/II | Charmakar | Records marriage of Giru into "Charmakar" (Tanner) line. || 0. | 196/I | Hadini / Rajaki | Lineage of Rudramati and Sureshwar; inter-caste status records. || 0. | 196/II | Rajaki (Washerman) | Records marriage of Sureshwar into Rajaki line. || 0. | 197/I | Yavani (Foreigner) | Lineage of Charudatt; records marriage to "Champo Yavani." || 0. | 197/II | Rajaki (Washerman) | Records marriage of Lakshmidhar into Rajaki line. || 0. | 198/I | Budhwal / Rauli | Lineage of Jagannath; maternal status of Jatu and Madhav unknown. || 0. | 198/II | Sodorpur / Karmaha | Lineage of Saju; maternal status of Jagat unknown. || 0. | 199/I | Sodorpur / Salakha | Lineage of Harikesh; maternal status of Chandro unknown. || 0. | 199/II | Palyas / Gangoli | Lineage of Manu; maternal status of Dashrath unknown. || 0. | 200/I | Sodorpur / Budhwal | Lineage of Manu; maternal status of Rupach unknown. || 0. | 200/II | Sodorpur / Baheradhi | Lineage of Chand; maternal status of Rati and Raghunath unknown. || 0. | 201/I | Yadav (Herdsman) | Lineage of Vasudev;

marriage into "Yadav" status line. || 0. | 201/II | Yadav (Herdsman) | Lineage of Haru and Hire; marriage into "Yadav" status line. || 0. | 202/I | Panichita | Lineage of Murari; maternal status of Batun unknown. || 0. | 202/II | Sodorpur / Karmaha | Lineage of Sarve; maternal status of Chand unknown. || 0. | 203/II | Sodorpur / Sakradi | Mentions inter-caste marriage into "Charmakar" line. || 0. | 203/I | Ram-Brahman | Mentions Logician Gangesh Upadhyaya's lineage from "Ram-Brahman" branch. || 0. | 204/I | Sodorpur / Baheradhi | Records marriage of Hore into "Ram-Brahman" line. || 0. | 204/II | Budhwal / Mandar | Records marriage of Hore into "Ram-Brahman" line. || 0. | 205/I | Guru-Patni | Marriage of Shiv Bhattabhushan to his Guru's wife; specific social stain recorded. || 0. | 205/II | Budhwal / Khauwal | Records marriage of Hore into "Ram-Brahman" line. || 0. | 206/I | Gangoli / Ram-Brahman | Records marriage of Lakshmeshwar into "Ram-Brahman" line. || 0. | 206/II | Sodorpur / Belonche | Records marriage of Lakshmeshwar into "Ram-Brahman" line. || 0. | 216/I | Yavani (Foreigner) | Marriage into the lineage of Daulat Jahan's daughter (Yavani status). || 0. | 227 | Mahishi Mool | Records various scholarly branches from Sakraidi and Budhwal. || 0. | 226/II | Naraun / Tali | Lineage of Jayaram; records scholarly titles. || 0. | 218/I | West India (Pashchim) | Records Latun and Gangu; maternal status of Panpikar unknown. || 0. | 218/II | Sodorpur / Tali | Records Magu and Ratu; lineage from West Indian origins. || 0. | 219/I | Kerwal Branch | Records Brahamshwar and Sthiti; maternal status of Nadi unknown. || 0. | 219/II | Sodorpur / Darihara | Records marriage of Lakshmeshwar into Gangoli line. || 0. | 220/I | Warshini Widow | Lineage of a widow's child; records "Warshini-vidhwa" status. || 0. | 220/II | Hariam / Sodorpur | Records lineage of Shivsingh and Dham. || 0. | 221/I | Dhivar (Fisherman) | Marriage of Mandan's wife to a child of "Dhivar-dasi" (Fisherman servant). || 0. | 221/II | Mandar / Karmaha | Records marriage of Govind into "Dasi" (servant) line. || 0. | 1-1 | Gangoli Mool | **Seed Ancestor (Beeji):**Gangadhar. || 0. | 1-4 | Khandwala Mool | **Seed Ancestor (Beeji):**Sankarshan. || 0. | 2-1 | Palyas Mool | **Seed Ancestor (Beeji):**Dharnidhar. || 0. | 2-2 | Mandar Mool | **Seed Ancestor (Beeji):**Pinayan Bhatt (approx. 450 AD). || 0. | 3-2 | Darihara Mool | **Seed Ancestor (Beeji):**Shrikar. |

So What? : These blocks prove that the Panji is not just an idealized list but a "living census" that honestly documents social complexities—including inter-caste marriages, unknown origins, and social stains. This transparency

has allowed the Maithil community to track its social evolution with unparalleled precision for over fifteen centuries.

Chapter 8

Special Studies: Q&A; Women in the Pañjī; Dooshan Pañjī and the Political Economy of Status

The Panji text outlines the **Panji Prabandha**, an extensive genealogical system established in the 14th century to document the lineage of **Maithil Brahmins** and other communities in the Mithila region. Initiated under the reign of **King Harisimhadeva**, this record-keeping tradition was designed to prevent prohibited marriages by tracking ancestral details across multiple generations. The sources detail a complex structure of **gotras (clans)** and **mools (ancestral villages)**, categorising families into specific social and hierarchical tiers based on their heritage. Essential to this system is the **Utedh**, a genealogical chart used by specialized registrars known as **Panjikars** to verify marital eligibility through a rigorous examination of maternal and paternal lines. Beyond marriage laws, the text reflects the preservation of **Maithila culture** and the **Tirhuta script**, illustrating a sophisticated historical effort to maintain community identity and genetic purity. Modern efforts to digitise and transliterate these ancient palm-leaf manuscripts aim to protect this 1,500-year-old genealogical heritage from physical decay and linguistic obsolescence.

How did the Panji Prabandha system reorganise Maithil society in 1326?

In 1326 AD (Shaka 1248), the ruler of Mithila, Maharaja Harisimhadeva, alongside contemporary scholars, introduced the **Panji Prabandha** system to radically reorganize Maithil society and its marital practices. This reorganization was triggered by the decline of the older family-maintained genealogical record system (**Samuha Lekhya**), which had led to people unknowingly entering into unscriptural marriages within forbidden degrees of kinship.

The Panji Prabandha system reorganized Maithil society in several key ways:

- **Centralization of Genealogical Records:** The responsibility of maintaining family lineages was taken away from individual families and institutionalized as an official state department.

- **Creation of the 'Panjekar' Class:** The king appointed specialized scholars known as Panjikars (genealogists) who traveled to each family to collect detailed ancestral information. The comprehensive written records containing data on every new birth and marriage became known as the Panji, and the citizens registered within these records were designated as Panjibaddha.
- **Mandatory Marriage Verification:** It became mandatory to obtain an authorization certificate (Siddhanta Patra or Aswajana Patra) from a state-appointed Panjekar before finalizing any marriage. This ensured the bride and groom did not fall within forbidden degrees of consanguinity—specifically, avoiding five generations on the mother's side and six to seven generations on the father's side. Any marriage without this certificate was considered unscriptural.
- **Social Stratification and Hierarchy:** While Harisimhadeva's original system was intended to be a purely scientific and egalitarian genealogical record across Brahmins, Kayasthas, and Kshatriyas, it fundamentally reorganized Maithil Brahmins into distinct hierarchical categories. Society was divided into classifications such as Shrotriya (the highest tier), Yogy, and Panjibaddha (or Vamshaj).
- **Long-Term Societal Shifts:** Over the centuries, this rigid classification system led to deep internal stratification and a decline in the democratic values of Mithila. It eventually gave rise to the Bikaua class (high-ranking men who married multiple times to confer their social status on lower-ranking families) and contributed to severe societal issues like child marriage and a significantly high number of widows.

Explain the 'Utedh' rules for determining marriage eligibility between families.

The 'Utedh' (or Utteh) rules form the fundamental genealogical framework used by Maithil Panjikars (genealogists) to determine strict marriage eligibility between a prospective bride and groom. Before a marriage can be formally authorised with a Siddhanta (authorisation certificate), the Panjekar must construct an 'Utedh Panji' for both families to meticulously map their lineages and ensure they do not violate scriptural rules of consanguinity.

The rules and structure of the Utedh calculation process involve the following key components:

1. The 32 Mools and Ancestral Mapping To determine eligibility, the Utedh maps out 32 ancestral* Mools* (root families) for both the bride and the groom. The chart introduces seven generations of ancestors, systematically detailing the lineages of the paternal and maternal grandfathers, grandmothers, and their respective ancestors. Specifically, the Utedh traces six generations on the paternal side and five generations on the maternal side for both parties to map out their complete biological lineage.

2. Formatting the Utedh Chart To create the Utedh, the Panjikar writes the bride's village and Mool village on the left side of the chart. Directly next to this, the specific Mool is listed, followed by the names of her ancestors in descending chronological order—starting from the great-great-great-grandfather down to the father. A structurally identical Utedh chart is simultaneously created for the groom.

3. The 16 Chhathi Calculation The most critical rule of the Utedh is calculating the 16 Chhathi. The Chhathi represents the 16 specific ancestors (drawn from both the maternal and paternal lines) from whom the bride or groom is exactly the sixth descendant.

- The Rule of Exclusion: Once the bride's 16 Chhathi are identified, they are cross-referenced with the groom's Utedh. If even one of the bride's 16 Chhathi ancestors appears within the groom's paternal lineage (Pitru-Paksha) within six generations, the marriage is strictly forbidden.
- The Exception: If the overlapping ancestor appears exclusively on the groom's maternal side (Matru-Paksha), the shared ancestry (Sapinda) is considered ceased, and the marriage is permitted.

4. Additional Prohibitions Alongside the Chhathi rules, the Utedh enforces three additional strict prohibitions to authorise a marriage:

- The bride and groom must not belong to the same Gotra (patrilineal clan).
- The bride and groom must not share the same Pravara (sage lineage associated with their Gotra).
- The bride must not be the offspring of the groom's step-mother's brother (a rule locally known as avoiding the Kathmama's lineage).

By cross-referencing these Utedh charts, the Panjikars scientifically ensure that the bloodlines are sufficiently distanced and all religious and genetic boundaries are respected before allowing the families to unite.

What are the roles of Gotras, Pravaras and Muls in lineage?

Gotras define the broad patrilineal ancestry within Maithil Brahmin society. Every Gotra is named after the earliest known great sage (Mahapurush) of that lineage, and belonging to the same Gotra indicates a shared patrilineal bloodline. There are 20 Gotras in total, with seven being particularly prominent and well-established, such as Shandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, and Katyayan. In the context of lineage and marriage, sharing the same Gotra strictly prohibits a marital union, ensuring genetic distance between families.

Pravaras represent the specific revered ancient sages from a family's lineage who are recognized as the composers of Rigvedic hymns. Maithil Brahmins are divided into two main Pravara categories based on their Gotra: those with three ancestral sages (Tri-pravara) and those with five (Panch-pravara). Historically, Pravaras were recited during Yagnas (fire rituals) to invoke the sacred fire. Much like Gotras, Pravaras act as a strict boundary for marital eligibility; a bride and groom must not share the same Pravara to be authorized for marriage.

Muls (Mools) pinpoint the exact geographical origin or the most ancient known village where the founding ancestor (Biji Purush) of a specific family branch originally settled. While Gotras identify the broad sage lineage, Muls identify the specific, localized sub-branch of that family. Historical records identify 167 distinct Muls scattered across various villages, which later evolved into a hierarchy where 34 or 35 were considered primary Muls for higher-ranking families.

The Mul is the most critical component for maintaining genealogical records (Panji). For instance, tracing a person's complete biological lineage to create an Utedh chart requires mapping out 32 ancestral Muls (tracing back grandparents and great-grandparents on both the maternal and paternal sides) to verify marriage eligibility. Furthermore, as families migrated, different branches of the same family were often identified by compounding their original Mul village with their newer settled village to prevent losing their exact lineage. While a Mul generally aligns with one specific Gotra, there are exceptions; for example, the Brahmpura Mul contains families belonging to multiple different Gotras (Shandilya, Vatsa, Kashyap, Alambukaksh, Gautam, and Garg).

Who are the thirty-two ancestral figures mentioned in the records?

The thirty-two ancestral figures mentioned in the records refer to the thirty-two root families (Kulas or Mools) that are meticulously mapped out to construct the Utedh chart, which details seven generations of a person's biological lineage

.

To verify marital eligibility and maintain the purity of the bloodline, the genealogists trace the ancestry back to these specific thirty-two figures, which include:

The paternal grandfather and paternal grandmother of the person's father and mother

.

The paternal grandfather and paternal grandmother of the person's maternal grandfather and maternal grandmother

.

The fathers of the person's mother and maternal grandmother

.

The primary purpose of mapping these specific ancestors is to scientifically guarantee genetic distance. According to the rigid rules of the Panji Prabandha, for a marriage to be authorized, the prospective bride or groom must fall exactly in the seventh generation (seventh position) descending from these thirty-two ancestors

. Mapping these thirty-two root branches ensures that the families are sufficiently distanced and do not violate the forbidden degrees of consanguinity.

What are the specific rules regarding mother's and father's lineages?

The specific rules regarding the mother's and father's lineages dictate the acceptable genetic distance (Sapindata) required to authorize a marriage under the Panji Prabandh system. Based on ancient Dharmashastra texts like the Manu Smriti, the primary directive governing this is **"MatrutahPanchamiTyaktva,PitrutahSaptami"** (abandon the fifth from the mother, abandon the seventh from the father).

The rules are strictly defined as follows:

- **Maternal Lineage (Matru-paksha):** A prospective bride and groom must not share an ancestor within five generations on the mother's side. Any

overlapping ancestor within this five-generation boundary prohibits the marriage. The shared ancestry is considered to cease after the fifth generation, making the sixth generation scientifically eligible for a marital union.

- **Paternal Lineage (Pitru-paksha):** The bloodline on the father's side is traced further back. A bride and groom must not share an ancestor within seven generations on the paternal side. While the original scriptural rule strictly excludes up to the seventh generation, some later records and regional modifications (such as those by Maharaja Mahesh Thakur) adjusted this to excluding six generations and accepting the seventh generation for marriage.

In practice, this means a bride cannot be a descendant within five generations of any man from the groom's maternal clan, nor can she be a descendant within seven (or six, as amended) generations of the groom's paternal clan. If these conditions are met alongside the Gotra and Pravara rules, the families are considered sufficiently distanced to marry.

How did Maharaja Harisimhadeva select the original Panjikars?

Maharaja Harisimhadeva selected the original Panjikars through **a joint decision with the contemporary learned scholars** of his kingdom. After convening an assembly to address the societal crisis of unscriptural marriages, the scholars and the king concluded that the vital task of managing genealogical records should be entrusted only to **the most capable and qualified individuals in society who were experts in Dharmashastra (religious texts) and deeply committed to protecting Dharma.**

Following these criteria, the king established an official state department and appointed the first Panjikars by **royal decree (Rajagnya)**. The original selections were specifically divided by caste:

- For the Maithil Brahmins: He appointed Sudhyaya Gunakar Jha of the Mahindrapur Pandua Mool. The king specifically sought out Gunakar Jha because he had already been voluntarily collecting and maintaining genealogical records of the Brahmin community on his own initiative.
- For the Karna Kayasthas: He appointed Shankardatt.
- For the Kshatriyas: He appointed Vijaydatt.

These selected experts were officially designated as Panjikars and were granted the exclusive state authority to verify bloodlines and issue the necessary authorization certificates before any marriage could take place.

What is the significance of the 16 Chhathi ancestors?

The 16 Chhathi refer to the 16 specific ancestors (drawn from both the maternal and paternal lineages) from whom a prospective bride or groom is exactly the sixth descendant

. They are the most critical component in calculating marriage eligibility within the Panji Prabandha system.

The significance of the 16 Chhathi lies in the following strict rules:

Foundation of Marital Verification: Before a marriage can be authorised, a Panjekar (genealogist) must first meticulously calculate and identify the bride's 16 Chhathi

. Once identified, these ancestors are cross-referenced with the groom's Utedh (genealogical chart) to ensure the bloodlines do not overlap within forbidden degrees

.

The Rule of Exclusion: If even one of the bride's 16 Chhathi ancestors appears anywhere within the groom's paternal lineage (Pitru-paksha) within six generations, the marriage is strictly prohibited

.

The Maternal Exception: If the overlapping Chhathi ancestor appears exclusively within the groom's maternal lineage (Matru-paksha), the shared ancestry is considered to have ceased, and the marital union is permitted

.

Equal Weight and Mutual Application: All 16 Chhathi hold equal importance, and no single ancestor among them is given special privilege or exemption under scriptural rules

. Furthermore, this strict genealogical cross-referencing applies equally to both the bride and the groom to guarantee scientific genetic distance between the two families.

How does the system define the same 'Gotra' prohibition?

In the Panji Prabandha system, the prohibition against marrying within the same Gotra is rooted in the concept of shared patrilineal ancestry.

The system defines the prohibition through the following principles:

- **Lineage and Blood Relation:** A Gotra acts as a marker of a family's patriarchal lineage (Vamsha-bodhak), indicating that all its members are descendants of a single, earliest known great sage (Mahapurush or Muni). Therefore, belonging to the same Gotra implies a direct blood relationship (Rakta Sambandha) among its members. For example, anyone belonging to the Shandilya Gotra is considered a direct descendant of the sage Shandilya.
- **The Rule of Prohibition:** To prevent marriages between closely related bloodlines, the system strictly dictates that a prospective bride and groom must not belong to the same Gotra (Saman Gotra).
- **Scriptural Basis:** This explicit prohibition serves as one of the primary rules for determining marriage eligibility and is heavily based on the directives of ancient Dharmashastra texts and scholars like Manu and Yajnavalkya.

Before any marriage can be authorized, the genealogists (Panjikars) must verify that the bride and groom do not share the same Gotra, ensuring that the necessary genetic and religious boundaries are respected.

What are the three tiers of Maithil Brahmin hierarchy?

The Maithil Brahmin society was hierarchically divided into three primary tiers based on their genealogical registration (Panji):

- **Shrotriya:** This is considered the highest tier within the hierarchy.
- **Yogya:** This constitutes the second or middle tier.
- **Panjibaddha** (also known as Vamshaj): This is the third tier, comprising the remaining registered families.

Additionally, the historical records note that individuals who were **not registered within the Panji system were classified separately as 'Jaewar'**(or Jaebar). Despite these strict hierarchical divisions, the fundamental Dharmashastra rules regarding marriage and religious conduct applied equally across the Shrotriya, Yogya, Panjibaddha, and Jaewar categories.

Over time, this hierarchy developed further internal stratifications; for example, the **Shrotriya** tier was sub-divided into 8 distinct categories, **while the Yogya and Vamshaj** tiers were divided into 15 categories.

How did the 1326 reorganisation create the Shrotriya hierarchy?

The 1326 reorganisation under Maharaja Harisimhadeva did not actually create the Shrotriya hierarchy. When the Panji Prabandha system was first established in 1326, it was a purely scientific and egalitarian genealogical record, and all Brahmins, Kayasthas, and Kshatriyas were treated as equals within their respective caste records. During this early period, only the Mool (root) books were used, and their sole purpose was to determine scriptural marital eligibility.

The hierarchical division into categories like Shrotriya, along with the rigid ranking of "high" and "low" families, emerged centuries later during the reign of Maharaja Madhav Singh. Around 1760 AD, certain intellectuals influenced the king to order the Panjikars (genealogists) to compile the *ShakhaPustaks* (branch books).

It was the introduction of this Shakha Panji system that officially partitioned the society and created these hierarchical classifications, which unfortunately gave rise to various social malpractices. As a direct result of these later modifications, the **Shrotriya** officially emerged as a distinct new Brahmin sub-caste in Mithila around 1800 AD, long after the original 1326 reorganisation.

Explain the role of Biji Purush in genealogical records.

In the Maithil genealogical records (Panji Prabandha), a **Biji Purush (biji puruṣa)** refers to the earliest known founding ancestor of a specific family lineage. The identification of the Biji Purush serves as the fundamental anchor for mapping a family's genetic history.

His role in the records is defined by the following key aspects:

- **Establishing the Mool (Root Village):** The concept of the Biji Purush is intrinsically tied to the Mool Gram (root village). The specific, ancient village where this founding ancestor originally resided and settled became the permanent Mool for all of his future descendants.
- **Unifying Scattered Family Branches:** Over centuries, as families grew, members naturally migrated and settled in various new villages, creating different family branches (Shakhas). However, the Panji records trace all these scattered individuals back to their original Mool Gram to prove they all descend from the same Biji Purush. For instance, historical records proved that two distinct branches residing in the villages of Mangarauni and Garh actually belonged to the same Mandar Mool, meaning they shared the exact same Biji Purush.

- **Scientific Tracking of Lineage:** By identifying the Biji Purush, genealogists (Panjikars) can compile a complete, unbroken biological history of a family's roots. This precise historical tracking is what allows them to confidently map out the 32 ancestral roots (Utedh) required to verify marriage eligibility and prevent unions within forbidden degrees of blood relation.

The historical records meticulously list the specific Biji Purush for various Mools to keep the lineages distinct. For example:

- The Biji Purush of the Gangoli Mool is Gangadhar.
- The Biji Purush of the Khandwala Mool is Sankarshan.
- The Biji Purush of the Mandar Mool is Trinayan Bhatt.

While a family's Gotra indicates their broad descent from an ancient revered sage, tracing the lineage back to the Biji Purush pinpoints the exact localized, historical patriarch who founded their specific sub-branch.

What was Maharaja Madhav Singh's role in the shakha system?

Maharaja Madhav Singh played the central role in establishing the **Shakha** Panji (branch books) system around 1760 AD. While the original Panji Prabandha introduced by Maharaja Harisimhadeva in 1326 was an egalitarian system that recorded all families equally in the Mul Panji, Maharaja Madhav Singh fundamentally altered this structure.

Under the influence of certain "intellectually driven" or "luxurious" individuals at his court, Madhav Singh officially ordered the Panjikars (genealogists) to compile the new **ShakhaPustaks**. His role and its impact on the system included:

- **Creation of Separate Records:** Prior to his reign, the Mul Panji was made equally for all families purely to determine marital eligibility. Madhav Singh mandated the creation of distinct, separate Shakha Panjis specifically tailored to divide families into categories such as Soti (Shrotriya), Jog (Yogya), and Panjibaddha.
- **Institutionalizing Hierarchy:** His order marked the beginning of a rigid hierarchical division within Maithil Brahmin society. The Shakha system officially categorized and ranked families as "high" and "low," discarding the egalitarian nature of the original records.
- **Long-Term Social Impact:** By systematically partitioning society through these branch books, his decree eventually led to the formal emergence of

the Shrotriya as a distinct sub-caste around 1800 AD. Furthermore, this rigid stratification gave rise to various deep-rooted social malpractices that subsequently plagued the community.

How did the later reorganisations lead to social malpractices?

The later reorganisations, specifically the introduction of the Shakha Panji system during Maharaja Madhav Singh's reign, fundamentally altered the original scientific purpose of the records by imposing rigid "high" and "low" hierarchical classifications. This shift led to severe internal stratification and a sharp decline in the democratic values of Mithila.

This rigid hierarchy directly fueled several devastating social malpractices:

- **Rise of the Bikaua Class and Polygamy:** The strict ranking system birthed the Bikaua class, where high-ranking men essentially sold their social status through multiple marriages. The original scientific and genealogical strictness of the Panji system was completely sidelined to accommodate this rampant malpractice of polygamy.
- **Absurd Relational Dynamics:** Due to these excessive marriages across different families, men became tangled in absurd and unscriptural relationships. A man could simultaneously become a father-in-law or son-in-law to one family and a brother-in-law (sadhu) to another. The Panjikars (genealogists) were left helpless as these chaotic unions openly violated the strict scriptural rules of consanguinity they were supposed to enforce.
- **Decline in Panjikars' Integrity:** The corruption of the system compromised the genealogists themselves, leading to a noticeable decline in their selfless service, truthfulness, and trustworthiness.
- **Child Marriage and the Widow Crisis:** Driven by families' desperate need to secure high-ranking grooms to elevate or maintain their status, the toxic practice of child marriage became deeply entrenched. Consequently, this led to an unprecedented and tragic increase in the number of widows within the community.

The historical records note that Maithil society continues to suffer from the long-term consequences of these malpractices, especially since strong social reform movements advocating for widow remarriage or opposing child marriage never truly materialized in the region.

Tell me more about the Panjika and the branch books they maintain.

The **Panjikars** are the officially designated genealogists of Mithila, and the **Shakha Pustaks** (branch books) they maintain are considered an unprecedented genealogical record system globally, tracing complex family histories over a span of more than 1,000 years.

The Role and Evolution of the Panjikars

- **Original Appointment:** The first Panjikars were appointed in 1326 AD by Maharaja Harisimhadeva. To manage the records across different communities, the king appointed Gunakar Jha for the Maithil Brahmins, Shankardatt for the Karna Kayasthas, and Vijaydatt for the Kshatriyas.
- **Marriage Authorization:** Their primary responsibility was to verify marital eligibility by mathematically ensuring that prospective brides and grooms did not share ancestors within forbidden degrees. If a union was scripturally permissible, the Panjikaar would issue an authorization certificate known as a Siddhanta or Aswajana Patra.
- **Hardships and Dedication:** Historically, Panjikars showed immense dedication. They travelled extensively from village to village to collect and cross-reference family data, often enduring great hardships without any state financial support or protection.
- **Decline in Integrity:** Over time, particularly as hierarchical ranks became more important than scriptural rules, the Panjikars' integrity declined. As the Bikaua class (men marrying multiple times for social status) emerged, Panjikars found themselves helpless and were forced to authorize unscriptural and absurd marital relationships, compromising their traditional truthfulness. Some modern Panjikars are also noted to sit at home and arbitrarily fill out records rather than traveling to collect accurate data.

The Shakha Pustaks (Branch Books) The original Panji system relied on a purely egalitarian Mul Panji (root book). However, around 1760 AD, Maharaja Madhav Singh ordered the Panjikars to compile the **Shakha Pustak** (branch books) specifically to separate society into hierarchical categories like Soti (Shrotriya), Jog (Yogya), and Panjibaddha.

The branch books have several unique and highly structured features:

- **Detailed Personal Histories:** The Shakha Panji is not just a list of names. It provides a comprehensive (Sangopang) description of individuals, documenting their education, titles, special attributes, changes in occupation, and detailed maternal lineages.

- **Alphabetical Indexing and Roots:** The books begin with an alphabetical index detailing the Gotras (sage lineages), the Mools (root families), the Moolgrams (founding villages), and the founding ancestors (Biji Purush) from whom the branches originated.
- **Sophisticated Numbering System (Ankan):** Because the lineages are vast and scattered, the branch books rely heavily on a complex numerical cross-referencing system. If a person's marriage is recorded, the book assigns a specific page and line number (e.g., "38/5", meaning page 38, line 5). If a reader needs to find the maternal or paternal ancestry of that person, the text provides the exact numerical coordinates to jump to an earlier or later page to trace the unbroken lineage.
- **Seven Types of Panji:** The broader Panji system, which the Shakha Pustak is a part of, actually consists of seven distinct types of records: Mool (roots), Shakha (branches), Gotra, Patra, Dooshan (books recording flaws or "blemishes" in a lineage), Utedh (consanguinity calculations), and Aswajanya Patra Panji.

Which families were assigned to the original 32 root Mools?

To clarify a slight misconception: the "32 root Mools" mentioned in the genealogical records do not refer to a fixed list of 32 original families for the entire society. Instead, as part of the Utedh calculation, "32 Mools" refers to the 32 specific ancestral positions (the great-great-great-grandparents) that must be mapped out for each individual bride and groom to verify their genetic distance.

At a societal level, the Panji records actually identify a total of **167 distinct** Mools (root families) among Maithil Brahmins.

Out of these 167, historical records highlight **34 or 35 primary** Mools (34 main roots plus the Khanam branch of the Fandah Mool) that were exceptionally prominent. These primary root families were later divided into a strict three-tier hierarchy:

1. The First Category (Ayant*Shreshtha- 13 Families)* This tier was considered the highest and included the following root families:

- Khandaaray
- Khauaaray
- Budhbaaray
- Maraaray
- Dariharay

- Ghusautay
- Tisautay
- Karamhay
- Naraunay
- Vabhaniyaamay
- Hariammay
- Sarisavay
- Sodarpuriyay

2. The Second Category (Dwitiya Shreni- 13 Families) This tier included the following root families:

- Gangolivar
- Pavaulivar (or Pabaulivar)
- Kujaulivar
- Alevar
- Vahidvar
- Sakaridvar
- Palivar
- Visevar
- Fanevar
- Uchitvar
- Pandulvar
- Kataivar
- Tilaivar

3. The Third Category (Madhyam *Mool- 8 Families)* This tier included the following root families:

- Dighave
- Valaunche
- Ekhare
- Panchobhe
- Valiyase
- Jajival
- Takval
- Pandue

How do Panjikars trace maternal ancestors in the Utedh chart?

In the Utedh chart, Panjikars trace the maternal lineage (Matru-paksha) back **five generations** to ensure no overlapping bloodlines (Sapindata) exist between the prospective bride and groom.

To map this out accurately, Panjikars mathematically calculate 16 specific ancestral positions (the Chhathi) from whom the bride or groom is the sixth descendant. While the first eight Chhathi map the father's lineage, the **9th through the 16th** Chhathi specifically isolate and trace the complex branches of the mother's biological ancestry.

According to the genealogical records, these maternal ancestors are traced as follows:

- 9th Chhathi: The maternal grandfather's great-grandfather (Matamaha's Prapitamaha).
- 10th Chhathi: The great-maternal grandfather's maternal grandfather (Pramatamaha's Matamaha).
- 11th Chhathi: The maternal grandfather's great-maternal grandfather (Matamaha's Pramatamaha).
- 12th Chhathi: The maternal grandfather's maternal grandmother's maternal grandfather (Matamaha's Matru-matamaha).
- 13th Chhathi: The maternal grandmother's great-grandfather (Matamahi's Prapitamaha).
- 14th Chhathi: The maternal grandmother's paternal maternal-grandfather (Matamahi's Pitru-matamaha).
- 15th Chhathi: The maternal grandmother's great-maternal grandfather (Matamahi's Pramatamaha).
- 16th Chhathi: The maternal grandmother's maternal grandmother's maternal grandfather (Matamahi's Matru-mahi's Matru-matamaha).

By identifying these specific root figures on the mother's side alongside the paternal figures, the Panjikars mathematically guarantee the scriptural rule of **"Matrutah Panchami Tyaktva"** (abandoning five generations from the mother's side) is strictly respected before a marriage can be authorized.

What specifically defines a sixth-generation descendant or 'Chhathi'?

In the Panji Prabandha system, a 'Chhathi' specifically defines an ancestor from whom a prospective bride or groom is exactly the **sixth descendant** (or in the sixth position).

There are exactly **16 such male ancestors**—collectively known as the 16 Chhathi—who are meticulously calculated by combining both the paternal (Pitru-kula) and maternal (Matru-kula) lineages of the individual.

The genealogical records strictly define these 16 specific ancestral positions. For example, a bride's 16 Chhathi consist of the following ancestors:

- Her great-grandfather's grandfather (the Vriddha Prapitamaha, who is considered the first Chhathi).
- The maternal grandfather of her great-grandfather.
- The father of her grandfather's maternal grandfather.
- The father-in-law of her grandfather's maternal grandfather.
- Her grandmother's great-grandfather.
- The maternal grandfather of her father's maternal grandfather.
- Her grandmother's great-maternal grandfather, and the maternal grandfather of her grandmother's maternal grandmother.
- Ancestors on the mother's side, such as her maternal grandfather's great-grandfather, up to the maternal grandfather of her maternal grandmother's maternal grandmother (who is the 16th Chhathi).

To verify if a marriage is scripturally permissible, the Panjikar (genealogist) must identify all 16 of these Chhathi for the bride. **If even one of these 16 specific sixth-generation ancestors appears anywhere within the groom's paternal side (Pitru*-paksha), the marriage is strictly prohibited***. The rules clearly state that all 16 Chhathi hold equal authority, and no single ancestor among them is given any special privilege or exemption.

What are the specific generational rules for paternal and maternal lines?

The generational rules for paternal and maternal lines define the acceptable genetic distance (Sapindata) required to authorize a marriage in the Panji Prabandha system. These rules are deeply rooted in ancient texts like the Manu Smriti and are summarized by the primary directive: **"*MatrutahPanchamiTyaktva,PitrutahSaptami"***(abandon the fifth from the mother, accept the seventh from the father).

The specific generational boundaries are enforced as follows:

- **Maternal Lineage (Matru-paksha):** According to the scriptures, shared ancestry ceases after the fifth generation (Panchamat Urdhvam). Therefore, a marriage is strictly prohibited if a prospective bride and groom share an ancestor within five generations on the mother's side.

Because the exclusion applies to five generations, the sixth-generation descendant (the Chhathi) on the maternal side is mathematically eligible for marriage.

- **Paternal Lineage (Pitru-paksha):** The required genetic distance is greater on the father's side. The original scriptural rule dictates that families must abandon seven generations of shared ancestry on the paternal side.
- **The Paternal Amendment:** Later in history, a prominent scholar and ruler, M.M. Maharaja Mahesh Thakur, introduced a regional modification to the paternal rule. He established that while six generations must be strictly excluded, the seventh generation can be deemed acceptable for a marital union. This modified arrangement became widely accepted by Maithil society.

In practice, the genealogists ensure these boundaries are not breached by mapping out the 32 ancestral Mools and identifying the 16 Chhathi ancestors. This scientifically guarantees that a bride is not a descendant within five generations of any man from the groom's maternal clan, nor within seven (or the amended six) generations of the groom's paternal clan.

How does the '16 Chhathi' calculation determine if a marriage is forbidden?

The '16 Chhathi' calculation determines if a marriage is forbidden by meticulously cross-referencing the specific sixth-generation ancestors of the prospective bride and groom.

The rules of this calculation dictate marriage eligibility as follows:

- **Identification of the 16 Chhathi:** The genealogist (Panjekar) must first mathematically identify the 16 specific ancestors—combining both the maternal and paternal clans—from whom the bride or groom is exactly the sixth descendant .
- **The Paternal Prohibition:** Once identified, the bride's 16 Chhathi are checked against the groom's genealogical chart. If even one of these 16 Chhathi ancestors appears anywhere within the groom's paternal lineage (Pitru-paksha) within six generations, the marriage is strictly forbidden ,,,
- **The Maternal Exception:** If the overlapping Chhathi ancestor appears exclusively in the groom's maternal lineage (Matru-paksha), the marriage is authorized ,,,
- **Equal Application and Weight:** This strict verification rule applies equally to both the bride and the groom . Furthermore, all 16 Chhathi ancestors hold equal importance and authority; scriptural rules do not

grant any special privilege, exception, or exemption to any single ancestor among the sixteen ,,

Why was Maharaja Madhav Singh's introduction of Shakha Pustaks significant?

Maharaja Madhav Singh's introduction of the *ShakhaPustaks (branch books) around 1760 AD was significant because it permanently transformed the Panji Prabandha from a purely scientific and egalitarian genealogical record into a rigid tool for social stratification. Prior to his decree, the records consisted solely of the Mul Panji*, which treated all registered families as absolute equals and was used exclusively to verify scriptural marital eligibility.

Under the influence of certain courtiers, Madhav Singh ordered the Panjikars (genealogists) to compile separate *ShakhaPanjis* specifically designed to divide society into hierarchical categories of "high" and "low," such as **Soti**(Shrotriya), **Jog**(Yogya), and **Panjibaddha**.

This reorganization had two major areas of significance:

1. Devastating SocialConsequences The institutionalisation of this hierarchy directly contradicted the original democratic values of Mithila and triggered severe, long-lasting social malpractices. The rigid focus on familial rank gave rise to the Bikaua class, where high-ranking men essentially sold their social status by engaging in rampant polygamy with lower-ranking families. Consequently, the desperate need for families to secure high-ranking grooms entrenched the practice of child marriage, which in turn led to an unprecedented and tragic increase in the widow population throughout the region.

2. Unprecedented Genealogical Complexity Despite their negative societal impact, the *ShakhaPustaks are recognised as a globally unprecedented genealogical achievement, successfully mapping interconnected family networks over a span of 1, years. These branch books went far beyond recording names; they provided comprehensive (Sangopang) personal histories, detailing an individual's education (Vidya), titles (Upadhi), special attributes, changes in occupation, and complete maternal lineages. To navigate this vast amount of scattered data, the ShakhaPustaks* utilized a highly sophisticated numerical cross-referencing system, allowing genealogists to trace an individual's unbroken biological lineage by jumping precisely between specific pages and lines across the records.

Who were Gunakar Jha, Shankardatt and Vijaydatt?

Gunakar Jha, Shankardatt, and Vijaydatt were the first official Panjikars (genealogists) appointed by Maharaja Harisimhadeva of the Karnat dynasty around 1326 AD to formally establish and manage the Panji Prabandha (genealogical record system) in Mithila. They were granted the exclusive state authority to maintain family lineages and scientifically verify marital eligibility before any marriage could be authorized.

To effectively manage the records across the society, the king specifically divided their appointments by community:

- Sudhyaya Gunakar Jha was appointed as the official genealogist for the Maithil Brahmins. Belonging to the Mahindrapur Pandua Mool, he was specifically sought out and chosen for this role because he had already been voluntarily collecting and preserving the genealogical history of the Brahmin community on his own initiative.
- Shankardatt was appointed to maintain the genealogical records for the Karna Kayasthas.
- Vijaydatt was appointed to maintain the genealogical records for the Kshatriyas.

Together, these three experts formed the foundational institution of the Panjikar system, ensuring that marriages across Mithila were conducted strictly according to scriptural rules of consanguinity and genetic distance.

What was the significance of Sudhyaya Gunakar Jha's prior work?

The significance of Sudhyaya Gunakar Jha's prior work lies in the fact that it served as the very foundation for the institutionalised Panji Prabandha system. Belonging to the Mahindrapur Pandua Mool, Gunakar Jha had already been voluntarily engaging in the meticulous collection and preservation of the genealogical histories of the Brahmins and other classes entirely on his own initiative.

His prior work was significant for the following reasons:

- **Foundation of the Official System:** His voluntary, systematic collection of family lineages caught the attention of the Karnat dynasty ruler, Maharaja Harisimhadeva. When the king and his assembly of contemporary scholars recognized the urgent need to protect scriptural marriage rules from being violated, they discovered Gunakar Jha's

existing body of work and officially entrusted him with the management of the Panji Prabandha.

- **The First Royal Appointment:** Because of his pre-existing expertise and dedication to genealogical tracking, the king issued a royal decree (Rajagnya) appointing him as the very first official Panjikar (genealogist) for the Maithil Brahmins.
- **A Lasting Legacy:** Gunakar Jha is recognised as the creator of the current form of the Panji Prabandha. The firm vow he took to collect, expand, and protect the genealogies of the Maithil society with immense dedication established a robust framework that has remained safely preserved, respected, and continuously utilized for centuries.

How did Panjikars verify ancestral information across different castes?

To verify ancestral information across different castes, the Panjikars utilised a meticulously structured, community-specific approach to data collection and genealogical calculation. When Maharaja Harisimhadeva established the Panji Prabandha in 1326 AD, the system was scientifically designed to encompass three main castes: the Maithil Brahmins, the Karna Kayasthas, and the Kshatriyas (Gandhavariya Rajputs).

The verification process was executed through the following methods:

1. Dedicated Caste Panjikars and Ground-Level Data Collection To ensure accurate mapping, the King appointed specific chief genealogists for each caste: Gunakar Jha for the Brahmins, Shankardatt for the Kayasthas, and Vijaydatt for the Kshatriyas. The genealogists (or Parichetas) travelled extensively from village to village, directly interviewing the head of each family. They recorded whatever ancestral memory the family possessed—often going back up to six generations or more—and mapped this data to identify each family's founding ancestor (Biji Purush), root village (Mool Gram), Gotra, and Pravara.

2. Caste-Specific Verification Rules While the fundamental goal of avoiding marriages within forbidden bloodlines was the same, the application differed slightly based on the caste:

- **Maithil Brahmins:** As discussed earlier, Panjikars mathematically verified eligibility by calculating the Utedh chart based on a family's Gotra, Pravara, and Mool, ensuring a bride and groom did not share any of the 16 Chhathi ancestors within the forbidden degrees.

- Karna Kayasthas: The verification process for this community had a unique scientific nuance. Because all Karna Kayasthas belong to a single Gotra (the Kashyap Gotra), the standard prohibition against marrying within the same Gotra could not be applied. Therefore, for Kayasthas, the Panjikars calculated the Utedh and verified marital eligibility exclusively based on the Mool (root family lineage).
- Kshatriyas: Initially, they were equally registered in the scientific Panji records. However, over time, the formal written Panji system became extinct among the Kshatriyas. Despite this, they continued to independently practice genealogical verification by strictly avoiding marriages in the specific root villages of their ancestors (such as the paternal grandmother's village) to prevent consanguinity.

Initially, this process was purely egalitarian; all Brahmins, Kayasthas, and Kshatriyas were recorded as absolute equals within their respective caste registers, with the sole purpose of authorising scripturally sound marriages.

What is the rule for the groom's step-mother's brother?

In the Panji Prabandha system, the specific rule regarding the groom's step-mother's brother (traditionally referred to as the **KathamamorKashta*Matul***) states that a **prospective bride must not be the offspring of the groom's step-mother's brother**.

This explicit prohibition serves as the fourth primary directive (Niyam 4) for determining marital eligibility. It is based on the foundational rules established by ancient scriptural scholars like Manu and Yajnavalkya, which were designed to prevent unions that violated acceptable relational boundaries. Therefore, genealogists must verify that a bride is not the daughter of the groom's step-maternal uncle before authorizing a marriage.

How is the 16 Chhathi calculation structured for verification?

The calculation and verification of the **16 Chhathi** are structured around a **meticulous genealogical charting process known as the Utedh**, which systematically measures the genetic distance between a prospective bride and groom.

The structure of this verification is executed by the Panjikars (genealogists) through the following steps:

1. Mapping the 32 Mools (Ancestral Roots) To begin the verification, the Panjikar must chart the Utedh, which requires compiling the ancestral history of **32 specific roots** for both the bride and the groom. This comprehensive

record maps out six generations of the paternal lineage (Pitru-kula) and five generations of the maternal lineage (Matru-kula). From these combined lineages, the genealogist isolates 16 specific ancestors from whom the bride or groom is exactly the sixth descendant.

2. Identifying the Specific 16 Chhathi Before authorizing any marriage, the Panjikar first mathematically calculates and identifies the bride's 16 Chhathi. The calculation traces ancestors in a descending order, pinpointing precise biological intersections across both sides of her family. The structure of these 16 ancestors is highly specific:

- 1st Chhathi: The bride's Vridha Prapitamaha (her great-grandfather's grandfather).
- 2nd to 8th Chhathi: These map the maternal branches within her father's side, such as her great-grandfather's father-in-law (2nd Chhathi), her grandfather's maternal grandfather's father (3rd Chhathi), or her grandmother's maternal grandfather (8th Chhathi).
- 9th to 16th Chhathi: These map the complex branches of her mother's biological ancestry, starting from her maternal grandfather's great-grandfather (9th Chhathi) and extending all the way to her maternal grandmother's maternal grandmother's maternal grandfather (16th Chhathi).

3. Cross-Referencing with the Groom's Chart Once all 16 of the bride's Chhathi are identified, the Panjikar creates the groom's Utedh. The core of the verification is to check if any of the bride's 16 specific Chhathi ancestors appear anywhere within the groom's recorded ancestry.

4. Applying the Rules of Prohibition and Exception The final marital eligibility is determined by where the overlapping ancestor falls in the groom's chart:

- The Prohibition: If even one of the 16 Chhathi ancestors appears anywhere in the groom's paternal lineage (Pitru-paksha), the marriage is strictly forbidden.
- The Exception: If the shared Chhathi ancestor appears exclusively within the groom's maternal lineage (Matru-paksha), the shared ancestry is considered to have adequately ceased, and the marriage is authorized.

The system structures this verification with absolute equality; **all 16 Chhathi hold equal importance and authority**. The ancient scriptural

rules do not grant any special privilege or exemption to any single ancestor among the sixteen, ensuring the genetic boundary is never compromised.

What criteria determines if an ancestor is in the maternal side?

In the Panji Prabandha system, an individual's ancestry is broadly divided into two primary clans: the Pitru-kula (paternal clan) and the Matru-kula (maternal clan).

The specific criterion that determines whether an ancestor belongs to the maternal or paternal side is defined by the following strict genealogical rule:

- The Paternal Classification Rule: The records explicitly state that both the paternal and maternal lineages of a person's father and grandfather are legally classified as the person's paternal side (Pitru-kula). This means that even if an ancestor comes from the father's mother's family (such as the father's maternal grandfather), they are strictly counted as part of the paternal side, not the maternal side.
- The Maternal Classification Rule: Consequently, an ancestor is only considered to be on the maternal side (Matru-paksha or Matru-kula) if they belong exclusively to the biological lineage of the individual's own mother.

This defining criterion is directly reflected in how genealogists calculate the 16 Chhathi (sixth-generation ancestors):

- The 1st through 8th Chhathis map out the father's side, which includes the father's maternal ancestors (e.g., the father's maternal grandfather).
- The 9th through 16th Chhathis strictly isolate the ancestors on the mother's side, tracing back exclusively through the maternal grandfather and maternal grandmother's lineages.

Furthermore, ancient Dharmashastra texts explicitly define specific maternal relatives (Matru Bandhava) as the descendants of the mother's maternal uncle, the mother's father's sister, and the mother's mother's sister, reinforcing the strict biological boundaries of the maternal clan.

What is the significance of the 167 Mools?

In the Panji Prabandha system, the **167** Mools represent the total number of distinct, foundational root families recorded for the entire Maithil Brahmin community.

While the community's overarching ancestry is broadly divided into 20 ancient Gotras (sage lineages), the 167 Mools serve as the specific, localized

origin points for family branches. Their significance is highlighted by the following points:

- **The Origin of All Branches:** Every Maithil Brahmin family traces its historical origin back to one of these 167 Mools. Over centuries, descendants from these 167 root families migrated and spread out to settle in various different regions and new villages across Mithila.
- **The Basis for the "Main" Families:** Out of the total 167 Mools, 34 (or 35, if including the Khanam branch of the Fandah Mool) were historically identified as the primary or most prominent root families.
- **Foundation of the Hierarchy:** As discussed earlier in our conversation, it was exclusively these 34 or 35 prominent families—drawn from the larger pool of 167—that were later classified into the strict three-tier societal hierarchy: the Ayant Shreshtha (first category), Dwitiya Shreni (second category), and Madhyam Mool (third category).
- **Comprehensive Record Keeping:** The genealogical branch books (Shakha Pustaks) maintained by the Panjikars (genealogists) were designed to contain the detailed histories and descriptions of all 167 Mools, ensuring no family's genetic map was left undocumented.

How did the Shakha Pustaks change Maithil hierarchy?

The introduction of the **Shakha Pustaks** (branch books) completely transformed the Maithil hierarchy by replacing a scientifically egalitarian genealogical system with a rigid structure of social ranking.

Originally, the Panji system established by Maharaja Harisimhadeva was purely genealogical and treated all registered Brahmins, Kayasthas, and Kshatriyas as absolute equals within their respective records. However, during the reign of Maharaja Madhav Singh, genealogists were explicitly ordered to compile the **Shakha Pustaks**, which fundamentally partitioned the society into hierarchical categories of "high" and "low".

This reorganisation changed the Maithil hierarchy in the following specific ways:

- **Categorisation of Families:** Instead of maintaining a single, equal Mul Panji for everyone, separate branch books were created to formally divide the community into distinct tiers, most notably the Soti (Shrotriya), Jog (Yogya), and Panjibaddha classifications.
- **Internal Stratification:** The society became broadly grouped into 'Pubaripar' (the highest-ranking Shrotriyas) and 'Pichhbaripar' (the

remaining Brahmins). The Shrotriya records were then further subdivided into specific hierarchical tiers known as Chaugala.

- **Loss of Democratic Values:** The imposition of this strict internal stratification directly contradicted the traditionally democratic values of Mithila and severely compromised the integrity, selflessness, and trustworthiness of the Panjikaar (genealogist) institution.
- **Rise of Devastating Social Malpractices:** By institutionalising social superiority, the Shakha Pustaks directly fueled several deeply harmful social evils. The desperation to secure or maintain high-ranking marital alliances led to the creation of the Bikaua class (high-ranking men who exploited their status through rampant polygamy), entrenched the practice of child marriage, and subsequently caused an unprecedented and tragic increase in the region's widow population.

Why is Same-Gotra marriage forbidden in the system?

In the Panji Prabandha system, **Sam-Gotra** (same Gotra) marriages are strictly forbidden because a Gotra functions as a direct indicator of patriarchal lineage (Vamsha-bodhak).

Every Gotra traces its members back to a single, ancient founding sage or patriarch (such as Shandilya or Bharadwaj). Consequently, if a prospective bride and groom belong to the same Gotra, it signifies that they are descendants of the exact same ancient ancestor, indicating a shared blood relationship (Rakta Sambandha) between them.

The primary purpose of the Panji genealogical system is to prevent consanguinity. Following the fundamental rules of marital eligibility established by ancient scholars like Manu and Yajnavalkya, a marriage is only permissible if the couple does not share the same Gotra or the same Pravara (sage lineage).

To absolutely guarantee that a Sam-Gotra union does not take place, the genealogists (Panjikars) must meticulously verify the Gotra, Pravara, and Mool (root family) of both individuals before authorizing the marriage.

Who are the Shrotriya, Yogya, and Panjibaddha categories?

The **Shrotriya** (Soti), **Yogya** (Jog), and **Panjibaddha** categories represent the rigid hierarchical tiers into which Maithil Brahmin society was systematically partitioned. As noted earlier in our conversation, these classifications did not exist in the original 1326 egalitarian system but were officially institutionalized when Maharaja Madhav Singh ordered

genealogists to compile separate branch books (*ShakhaPanjis*) tailored specifically for these newly formed ranks.

Based on the genealogical records, these categories are defined as follows:

- Shrotriya (Soti): Positioned at the absolute top of the social hierarchy, this group is traditionally referred to as Pubaripar. Their genealogical records, which are sometimes called Laukik, are highly exclusive and structured. The Shrotriyas possess 32 specific Panjis, which are further subdivided into 8 distinct Chaugala (categories).
- Yogya (Jog) and Panjibaddha: Families assigned to these subsequent tiers—along with other recorded descendants (Vanshaj)—are collectively classified as Pachhbaripar (the remaining Brahmins). The records for the Pachhbaripar are much more extensive, encompassing 15 distinct categories and 153 Panjis.
- Jaewar: Individuals and families who were completely left out of these tiered classifications and were not officially registered as Panjibaddha fell into a general category known as the Jaewar.

The Mechanics of the HierarchyA defining characteristic of this ranking system is that status is inherently downward-trending (Adhogami). If members of a high-ranking family (such as a Shrotriya) engage in marriage alliances with lower-ranking families, their elevated status steadily deteriorates and eventually ends. The genealogical texts note that due to the passage of time and such inter-tier marriages, the absolute first and second categories of this hierarchy eventually ceased to exist.

Scriptural Equality vs. Social StratificationWhile the branch books strictly enforced these divisions to create "high" and "low" societal statuses, the records explicitly point out the irony of the system. From the strict, original perspective of the Dharmashastras (ancient Hindu scriptures), there is absolutely no difference between a Shrotriya, a Yogya, a Panjibaddha, or a Jaewar. The fundamental rules of consanguinity and religious duty dictate exactly the same system for all of them, rendering the social hierarchy a purely man-made construct.

Explain the significance of the 167 Mul villages.

he 167 Mul (root) villages hold profound significance in the Panji Prabandha system because they represent the **comprehensive foundational geographic and genetic origins of the entire Maithil Brahmin community**.

Their significance is defined by several key factors in the genealogical records:

- **Geographical Anchor of the Biji Purush:** The term 'Mul' fundamentally denotes the ancient, original village (Mul Gram) where the earliest known founding ancestor (Biji Purush) of a specific family lineage originally resided. Every registered Maithil Brahmin traces their unbroken biological history back to one of these 167 root villages, which are categorized under 20 broader Gotras (ancient sage lineages). Over centuries, as descendants migrated and settled in various new regions, genealogists continuously linked their identities back to their original Mul village to maintain an accurate genetic map.
- **The Foundation of the 34 Primary Families:** Out of the total 167 root villages, 34 (or 35, if including the Khanam branch of the Fandah Mul) were historically recognized as the most prominent or "main" Muls. As the system evolved from an egalitarian record into a tool for social stratification, it was exclusively these 34 or 35 prominent Muls that were classified into the rigid three-tier hierarchy: the Ayant Shreshtha (first category), Dwitiya Shreni (second category), and Madhyam Mul (third category).
- **Status Based on Merit and Contribution:** The historical records emphasize that the prominence or "high" and "low" status of a specific Mul was originally not arbitrary. Instead, a root family's distinction was based on their deeds (Karma), sacraments (Sanskara), and specific scholarly or scriptural contributions (Shastriya Yogdan) to the society, which collectively enriched the region of Mithila.
- **Comprehensive Documentation:** The massive genealogical branch books (Shakha Pustaks) were structured to meticulously record the descendants, historical migrations, and detailed personal histories of all 167 Mul villages. This ensured that the complete genetic map of the society was preserved without leaving any family undocumented.

What is the role of a Panjekar in Mithila?

In Mithila, a **Panjekar** serves as an officially designated genealogist and a protector of the community's scriptural marital laws. Originally appointed by royal decree during the reign of Maharaja Harisimhadeva in 1326 AD, their role is central to the functioning and preservation of the vast Panji Prabandha genealogical system.

The primary responsibilities and roles of a Panjikaar include:

- **Verifying Marital Eligibility:** A Panjikaar's most critical role is to mathematically verify that a prospective bride and groom do not share ancestors within forbidden degrees of consanguinity. To do this, they chart the Utedh (a genealogical map) for the couple and verify that none of the 16 specific Chhathi (sixth-generation ancestors) overlap inappropriately between the maternal and paternal lines.
- **Issuing the Siddhanta (Authorization):** If the proposed marriage strictly adheres to the scriptural rules of genetic distance, the Panjikaar issues a formal authorization certificate known as a Siddhanta or Aswajana Patra. Without this official written approval from the Panjikaar, a marriage is considered unscriptural and invalid within Maithil society.
- **Data Collection and Record Maintenance:** Historically, Panjikaars showed immense dedication by travelling extensively from village to village, often enduring great hardships without royal financial protection, to interview family heads. They meticulously recorded new births, marriages, shifting lineages, and educational achievements, preserving this complex data in massive palm-leaf registers.
- **Managing Social Hierarchy:** While their original 14th-century role was purely scientific and egalitarian, it was fundamentally altered during the reign of Maharaja Madhav Singh. Panjikaars were ordered to compile Shakhya Pustaks (branch books) that categorized society into rigid, hierarchical tiers like Shrotriya (Soti), Yogya (Jog), and Panjibaddha.
- **Navigating Social Pressures:** As the society became rigidly stratified, the Panjikaars' traditional integrity was severely tested. The rise of the Bikaua class—men who engaged in rampant polygamy to sell their high social status—often forced Panjikaars to navigate and formally authorize absurd, unscriptural relational dynamics to accommodate the community's obsession with social rank.

What are the specific roles of the 167 Mools?

In the Panji Prabandha system, the 167 Mools serve several critical foundational and practical roles for the Maithil Brahmin community:

- **Geographical and Ancestral Anchors:** The term Mool fundamentally denotes the original ancient villages (Mool Gram) where the founding male ancestors (Biji Purush) of specific family lineages resided

approximately 1, years ago. Every registered Maithil Brahmin traces their unbroken biological history back to one of these 167 root villages.

- **Precise Identification Within Gotras:** While the community's overarching ancestry is broadly divided into 20 ancient Gotras (sage lineages), the 167 Mools act as specific, localized sub-categories within them. Genealogists use a family's Mool—alongside their Gotra and Pravara—as the primary tool to chart the Utedh and scientifically verify that a marriage does not violate scriptural rules of consanguinity.
- **Establishing Merit-Based Status:** Originally, the genealogical records were not designed to create an arbitrary "high" or "low" social hierarchy. The prominence and status of any of the 167 Mools were strictly based on their members' deeds (Karma), sacraments (Sanskara), and scholarly or scriptural contributions (Shastriya Yogdan) to the society. It was based on these specific merits that 34 (or 35) of the 167 Mools were historically recognised as the "main" families that enriched Mithila.
- **Tracking Historical Migrations and Sub-branches:** Over centuries, as descendants migrated from the 167 root villages to settle in new regions, Panjikars systematically linked these new sub-branches back to their original Mool. This allowed the system to manage incredibly complex genetic data; for instance, the records successfully map 74 distinct family branches back to their root villages within the Kashyap Gotra alone.

How is an Utedh chart formatted by a Panjekar?

To format an **Utedh** chart—the genealogical map used to verify marital eligibility—a Panjekar systematically lays out the 32 ancestral Mools to identify the 16 Chhathi (sixth-generation) ancestors.

According to the genealogical records, the Panjekar formats the chart using a specific spatial and chronological structure:

- **The Left Side (Vam Bhag):** The chart begins on the left side, where the Panjekar writes the prospective bride or groom's current residing village (Gram) and their ancient root village (Mool Gram).
- **The Right Side (Dahin Bhag):** Directly across on the right side, the specific Mool (root family) is recorded.
- **The Descending Lineage (Avarohi Kram):** Immediately below the Mool, the Panjekar lists the names of the individual's direct ancestors in a strict descending order. This specific written sequence is formatted as follows:
- **Ati Vriddha Prapitamaha** (Great-great-great-grandfather)

- Vriddha Prapitamaha (Great-great-grandfather)
- Prapitamaha (Great-grandfather)
- Pitamaha (Grandfather)
- Pita (Father).

By structuring the chart in this exact descending order, the Panjika easily isolates the **Vriddha Prapitamaha**, who is identified as the very first Chhathi—the specific ancestor from whom the prospective bride or groom is exactly the sixth descendant.

This identical formatting process is prepared equally for both the bride and the groom. Once formatted, the Panjika can mathematically cross-reference the two charts to ensure none of the 16 Chhathi ancestors overlap in a way that violates scriptural rules.

Tell me more about the later reforms by Maharaja Madhav Singh.

Maharaja Madhav Singh's reforms, enacted around **1760 AD**, fundamentally shifted the Panji Prabandha from an egalitarian genealogical database to a rigidly stratified social system.

According to historical records, **these reforms were heavily influenced by certain sycophantic courtiers** (described as "intellectually luxurious" individuals) who persuaded the King to issue a royal decree ordering the Panjikas to compile the **Shakha Pustaks** (branch books).

The key changes and consequences of his reforms included:

- Abandonment of the Equal Mool Panji: Before his decree, genealogists solely maintained the Mool Panji, which treated all registered families as absolute equals and was completely sufficient on its own for scientifically verifying marital eligibility.
- Creation of Separate Tiered Records: Madhav Singh ordered the creation of distinct, separate branch books tailored to forcefully divide the society into the hierarchical categories of Soti (Shrotriya), Jog (Yogya), and Panjibaddha.
- Emergence of a New Sub-caste: Following the compilation of these newly segregated books, the rigid classifications took permanent hold. This eventually led to the Shrotriya category crystallizing into an entirely new, exclusive Brahmin sub-caste in Mithila around 1800 AD.
- Institutionalisation of Social Evils: By arbitrarily imposing "high" and "low" ranks based on these records, the reforms replaced a functional,

scientific system with a toxic obsession over social status and the rote-learning of hierarchical behaviour. This state-mandated stratification directly gave rise to the severe social malpractices—such as the Bikaua class, rampant polygamy, and child marriage—that plagued Maithil society in later centuries.

The specific evidence detailing the bribes offered to upgrade an individual's status in the Panji hierarchy and to obtain favorable orders.

Based on the provided genealogical records, there are explicit instances where financial transactions ("donations" or bribes) were used to secure a favorable genealogical classification and upgrade a family's social status within the Panji system.

The specific details of these evidences include:

- The Bribe of 1. Lakh Takas: Lakshmipati Mishra of Dhakajari, who was known as a "Navalakhadhipati" (owner of nine lakhs), successfully acquired his official Panji status (specifically securing the Kodariye Mool and Shandilya Gotra) by giving a "Chanda" (donation) of 1. lakh Takas (Rupees) to Maharaja Rameshwar Singh.
- The Pindaruch Chaudharis: Through a similar process, the Chaudhari family of Pindaruch—specifically Nityanand Chaudhari—was also granted a formalized Panji status.
- Documentary Evidence: The historical texts explicitly note that the annexure of the book Panji Prabandh (Vol I & II) contains actual copies of these "genealogy-based upgradation orders," which act as direct "proof of upgradation for cash".

Tell me more about Lakshmipati Mishra's 1. lakh Taka payment.

The records explicitly document that **Lakshmipati Mishra was from Dhakajari and was notably recognized by the title "Navalakhadhipati" (meaning the owner of nine lakhs). By providing a "Chanda" (donation) of 1. lakh Takas to Maharaja Rameshwar Singh, he successfully purchased his official genealogical classification, specifically acquiring the Kodariye Mool within the Shandilya Gotra.**

The text highlights this specific payment as concrete documentary evidence of how wealthy individuals could effectively buy or upgrade their family's official status within the rigid social hierarchy of the Panji system.

Are there other recorded instances of caste-status upgrades in the light of Dooshan Panji?

In the light of the provided sources, the **Dooshan Panji** (often referred to as "**The Black Book**") was actually not used to record financial transactions for status upgrades. Instead, it was a highly secretive genealogical register dedicated exclusively to documenting flaws, degradations, or "impurities" (***Doshas***) that had entered a family's lineage.

The Dooshan Panji was maintained by genealogists to secretly track societal and genetic realities that deviated from strict scriptural norms. Its recorded instances include:

- **Inter-caste Marriages:** It explicitly documented marriages between Maithil Brahmins and people of other castes, specifically noting unions with Dalits (such as Charmakarinis, or tanners) and Muslims.
- **Widow Remarriages and Unconventional Births:** The book kept written documentary evidence of women remarrying after their husband's death, as well as children born outside of conventional timelines.

A prominent historical example of what the Dooshan Panji actually recorded is the case of the great Navya-Nyaya philosopher, **Gangesha Upadhyaya**. The secret records explicitly note the "flaw" that he was born five years after his father's death, and that he himself later married a Charmakarini.

Therefore, while cash-based status upgrades were facilitated through official "genealogy-based upgradation orders" (like those issued by the Darbhanga Raj), the Dooshan Panji served an entirely different purpose: acting as a hidden database of unscriptural marriages and genetic "flaws" so that genealogists could prevent those specific lineages from unknowingly causing negative consequences in future marital alliances.

Explain the relation between Gangesha Upadhyaya and Dooshan Panji.

The relationship between the great Navya-Nyaya philosopher Gangesha Upadhyaya and the Dooshan Panji (The Black Book) centers around the fact that this highly secretive genealogical register explicitly recorded societal and genetic "flaws" (Doshas) regarding his birth and marriage.

As the founder of the New Logic school of philosophy and author of the famous text *Tattvachintamani*, Gangesha Upadhyaya's legacy is deeply tied to the Dooshan Panji, which documented two major deviations from strict scriptural norms in his life:

- **Unconventional Birth:** The Dooshan Panji contains an ancient scribal note stating that Gangesha was born five years after the death of his father (recorded in the texts as "Pitri parokshe panch varsh vyatite Gangeshotpattiḥ").
- **Inter-caste Marriage:** The secret book explicitly records that Gangesha married a Charmakarini (a woman from the tanner community, which was considered a Dalit caste). Different entries within the records refer to his wife as Vallabha, Medha, or Aananda.

The Historical Cover-up and "Honour Killing" The presence of these entries in the Dooshan Panji led to a massive historical cover-up. According to the sources, later 20th-century scholars like Prof. Ramanath Jha were ashamed of Gangesha's roots and offspring due to these unscriptural realities. As a result, they chose to keep the Dooshan Panji a closely guarded secret.

This suppression is described in the texts as the "honour killing" of Gangesha Upadhyaya's legacy. Because the records were hidden, these scholars falsely informed researchers (such as Dinesh Chandra Bhattacharya in 1958) that Gangesha's family was completely ignored, his father's name was unknown, and his lineage had quickly dwindled into insignificance and gone extinct. It was not until the Dooshan Panji was finally released in 2009 that these hidden truths about his life were brought to light.

Additionally, the explicit documentation of his marriage to the Charmakarini Aananda found within the Dooshan Panji later served as the factual inspiration for the Maithili love story **'Shabdashastram'** ('The Science of Words'), authored by Gajendra Thakur.

How did Maharaja Rameshwar Singh's orders affect the social hierarchy?

Maharaja Rameshwar Singh's orders fundamentally impacted the social hierarchy by formalizing the stratification of the **Pachhbaripar** (the general category for the remaining Brahmins who were not classified in the top Shrotriya tier) and institutionalising the practice of buying social rank.

Specifically, his directives affected the hierarchy in the following ways:

- **Creation of a 15-Tier System:** Under the Maharaja's orders, the genealogists (Panjikars) formalized the genealogical records and social standing for the Pachhbaripar, dividing these families into 15 distinct hierarchical categories.
- **Monetization of Social Status:** This formal categorization process sparked massive disputes and controversies throughout the community.

The records explicitly note that there was widespread outrage because official Panji recognition and elevated status within these new tiers were granted to so-called "lower" families purely in exchange for money.

- **Direct Purchases of Lineage:** Wealthy individuals could now officially buy their way into the hierarchy. A notable example is Lakshmipati Mishra, a wealthy man known as a "Navalakhadhipati", who secured his official Panji classification (in the Shandilya Gotra) by giving a "donation" of 1. lakh Takas directly to Maharaja Rameshwar Singh.

By legally establishing these 15 tiers while simultaneously allowing ranks to be purchased for cash, his orders entrenched financial corruption deeply into the region's genealogical and social systems.

How did the 15 categories for Pachhbaripar Brahmins create conflict?

The creation of the 15 hierarchical categories for the **Pachhbaripar** (also recorded as Chhabaripar) Brahmins generated significant conflict because it exposed the blatant monetization of the genealogical system.

When the genealogists (Panjikars), acting on the orders of the Maharajadhiraj, established and initially published this 1 to 15 tier system, they invited the community to submit any written objections or feedback. The plan was to have a special assembly review these concerns before making the final publication.

However, massive disputes (vivad) immediately erupted across the community. The core of the outrage was the widespread realization that official Panji recognition and placement within these newly formed tiers were being granted to numerous so-called "lower" families purely in exchange for money (pai lae). This confirmed to the community that the hierarchy was compromised, as wealthy individuals were effectively buying their way into formalized social ranks.

What does the Shrotriya tier's exclusion of earlier categories mean?

The Shrotriya tier's exclusion and replacement of earlier categories signifies **the complete transformation of the Maithil genealogical system from a merit-based record into a rigid, sub-caste social hierarchy.**

The significance of this shift is defined by the following points:

- **Erasure of Merit-Based Status:** Originally, the system identified 34 or 35 prominent root families (Mools) based on their actual deeds (Karma), sacraments, and scriptural contributions, classifying them into the Ayant

Shreshtha (first category), Dwitiya Shreni (second category), and Madhyam Mool (third category).

- **Creation of an Artificial Sub-Caste:** When Maharaja Madhav Singh ordered the creation of the separate Shakha Pustaks (branch books), this original structure was abandoned in favour of the artificially created Shrotriya (Soti), Yogya (Jog), and Panjibaddha tiers. Consequently, the Shrotriya category eventually crystallized into an entirely new and exclusive Brahmin sub-caste around 1800 AD, overriding the ancient system.
- **The Downward-Trending Collapse:** A defining rule of this new Shrotriya-led hierarchy was that status was strictly downward-trending (Adhogami). If members of a high-ranking family married into lower tiers, their elevated status steadily deteriorated. The genealogical texts explicitly note that because of these strict marriage rules and the resulting social degradation, the original first and second categories (Ayant Shreshtha and Dwitiya Shreni) completely ceased to exist.

Which royal families issued these cash-based upgradation orders?

The cash-based genealogy upgradation orders were issued by the **Darbhangaraj** (the Maharajas of Darbhanga).

The historical records and annexures containing the documentary proof of these transactions are specifically linked to the Darbhanga royal family, such as Maharaja Rameshwar Singh, who received the 1. lakh Takas payment for a status upgrade.

The sources provide an interesting historical context regarding this royal family's influence:

- **British Indian Zamindars:** The texts note that the Maharajas of Darbhanga were actually "permanent settlement zamindars of Cornwallis" operating within British India. It was under their authority that these official genealogy-based upgradation orders were issued to wealthy individuals.
- **The Contrast with Nepal:** The records highlight that because there were no such zamindars or royal families issuing these types of status orders in the Nepalese part of Mithila, the cash-purchased sub-castes never took root there. Consequently, while the Darbhanga Raj's orders created the exclusive "Shrotriya" sub-caste in British India around 1800 AD, no such sub-caste exists among the Maithil Brahmins in Nepal today.

What are the specific marital rules for different hierarchical tiers?

The specific marital rules for the different hierarchical tiers in the Panji Prabandha system primarily revolved around the required generational distance (Sapinda) and the strict downward-trending nature of social status.

According to the genealogical records, the specific rules were enforced as follows:

- **Generational Distance for Shrotriyas:** The highest-ranking Shrotriyas were required to exclude 5 generations on the mother's side (Matri-paksha) and 7 generations on the father's side (Pitri-paksha) when calculating marital eligibility.
- **Generational Distance for Panjibaddhas:** Families in the Panjibaddha tier (often referred to as Vanshaj) were required to exclude 5 generations on the mother's side, but only 6 generations on the father's side.
- **The Rule of Degradation (Adhogami):** A fundamental rule of this hierarchy was that social status and lineage purity ("Panji and Pani") were strictly downward-trending. If a higher-ranking family married into a lower-ranking family (Nimna Kul), their elevated status systematically deteriorated over time and eventually ceased to exist.

The Scriptural Contradiction Despite the strict enforcement of these differing generational rules to separate the tiers, the texts point out a major contradiction. According to the original Dharmashastras (ancient Hindu scriptures), there is actually a single, uniform arrangement for everyone. Whether someone is a Shrotriya, a Yogya, a Panjibaddha, or an unrecorded Jaewar, the fundamental scriptural rules for marriage are completely identical, noting that the different marital rules applied to the tiers were an arbitrary societal construct.

Are marital rules the same for the Jaewar category?

Yes, according to the ancient scriptures (Dharmashastras), the marital rules are exactly the same for the **Jaewar** category.

The Jaewar were individuals and families who were left out of the formal, tiered classifications and were not officially registered as Panjibaddha. However, the genealogical texts explicitly state that from a strict scriptural perspective, there is a single, uniform arrangement applied to everyone.

The rules of consanguinity and marital eligibility are completely identical whether someone is a high-ranking Shrotriya, a Yogya, a Panjibaddha, or an

unrecorded Jaewar, meaning the differing rules later enforced by the tiered hierarchy were an arbitrary societal construct.

What are the common generational rules for all tiers?

According to the ancient Dharmashastras, the fundamental marital and generational rules are entirely identical for all Maithil Brahmins, regardless of whether they belong to the Shrotriya, Yogya, Panjibaddha, or Jaewar tiers.

The genealogical texts outline seven uniform rules that apply to everyone for verifying marital eligibility:

- **Same Caste (Swajati):** The prospective bride and groom must belong to the same caste.
- **Different Lineage:** The couple must not share the same Gotra (sage lineage) or Pravara (sage sub-lineage).
- **Generational Distance (Sapinda):** To prevent consanguinity, the bride must not be a descendant within five generations on the groom's mother's side (Matri-paksha) and within six generations (traditionally cited as seven) on the groom's father's side (Pitri-paksha).
- **The Step-Mother Rule (Kathmama):** The bride cannot be a descendant of the groom's stepmother's brother.
- **Grandparent Exclusions:** The bride must not be the direct offspring of the groom's paternal or maternal grandfather.
- **Sibling Hierarchy:** A younger sibling is not permitted to marry if their older sibling remains unmarried.
- **Living Wife's Sister:** A man is forbidden from marrying the biological sister of his currently living wife.

The records emphasize that these specific directives form a single, scientifically and scripturally sound framework designed to ensure genetic distance and the birth of healthy offspring, proving that the differing rules later enforced to separate the social tiers were purely artificial constructs.

What is the 'Rule of 16' for sixth-generation ancestors?

The "**Rule of 16**" refers to the 16 specific ancestral figures—known as the **Chhathi**—from whom a prospective bride or groom is exactly the sixth-generation descendant.

In the Panji Prabandha system, these 16 ancestors are mathematically isolated by mapping out the 32 root families (Mools) across both the paternal and maternal lineages.

Identifying the 16 Chhathi The genealogist (Panjikar) identifies these 16 distinct generational nodes for both the bride and the groom. The list covers complex relational branches, such as:

- 1st Chhathi: The grandfather of the great-grandfather.
- 8th Chhathi: The maternal grandfather of the paternal grandmother.
- 16th Chhathi: The maternal grandfather of the maternal grandmother.

The Marital Test (Consanguinity Rules) All 16 Chhathi hold equal importance in the verification process. Once the 16 sixth-generation ancestors are identified for the bride, they are cross-referenced with the groom's chart using strict scriptural logic:

- The Paternal Block: If even a single one of the bride's 16 Chhathi ancestors appears anywhere in the groom's paternal lineage (Pitri-paksha), the marriage is strictly forbidden and deemed invalid. This is because scriptural rules require a genetic distance of more than six generations on the father's side.
- The Maternal Allowance: However, if that exact same sixth-generation ancestor appears in the groom's maternal lineage (Matri-paksha), the marriage is officially authorized. This is because the consanguinity rule for the mother's side only requires an exclusion of five generations; therefore, a sixth-generation connection is perfectly acceptable.

This rule applies equally to both the bride and the groom, ensuring that the genetic distance between the two families strictly adheres to the ancient Dharmashastras.

Are the marital rules for women also documented?

Yes, the marital rules and genealogical details are meticulously documented for women, and the fundamental rules of consanguinity apply equally to both the bride (Kanya) and the groom (Var).

The records highlight several specific details regarding how women are treated within the Panji Prabandha system:

- Equal Application of Consanguinity Rules: The ancient scriptures explicitly dictate that just as a groom must avoid specific generational overlaps, a bride is only considered eligible and highly recommended for marriage if she is not a Sapinda (a blood relative within forbidden degrees) of either her mother's or her father's side.

- **Charting the Bride's Lineage:** To verify a marriage, the genealogist (Panjekar) must create an Utedh chart specifically for the bride. They systematically map out her direct descending lineage—from her great-grandparents down to her parents—to mathematically isolate her exact 16 Chhathi (sixth-generation ancestors) across both her maternal and paternal lines. This chart is then cross-referenced with the groom's chart to ensure there is no genetic overlap.
- **Preservation of Women's Names:** The texts emphasize a highly significant and progressive feature of the Panji Prabandha: despite existing in a heavily male-dominated society where women's identities were often historically forgotten, this genealogical system deliberately documented and preserved the names of women unbroken, generation after generation.

By recording the female lineages with the exact same mathematical precision as the male lineages, the genealogists ensured that the genetic logic of the system functioned flawlessly across centuries.

How did Panjikers document women's names historically?

Historically, Panjikers took a remarkably progressive approach to documenting women's names, especially considering the era. In a highly male-dominated society where women's identities and names were often forgotten or excluded from historical texts, the Panji Prabandha system deliberately **preserved** women's names continuously from generation to generation.

The specific ways they documented women included:

- **Recording Unbroken Lineages:** To map out the complex genetic networks, Panjikers meticulously recorded the births and marriages of women just as they did for men. If a family had a daughter instead of a son, the genealogist would explicitly record her in the registers using the terms Suta (daughter) or Sutascha (and daughters) to ensure the lineage was not lost.
- **Formatting the Bride's Details:** When verifying a marriage, the genealogist systematically charted the bride's ancestry. In the Utedh chart, the Panjekar would formally write the prospective bride's current residing village and her ancient root village (Mool Gram) on the left side of the document, laying out her direct ancestors to mathematically isolate her 16 Chhathi.

- **Preserving the Legacy of Female Scholars:** Because of this rigorous documentation, the names and achievements of prominent historical women were safeguarded. For instance, the records proudly preserve the legacy of Thakurain Lakhima, an exceptionally brilliant female scholar and philosopher from the 13th/14th century, noting her profound intellect and eloquence in scriptural debates.
- **Documenting Female Genealogists:** While the role of a Panjekar was almost exclusively male, the genealogical texts explicitly mention that the Panji records of the Rasadh-Arariya region uniquely document the name of a female genealogist (Stri-ganak).

By recording female lineages with this level of mathematical precision, the genealogists ensured that the genetic logic of the Panji Prabandha functioned flawlessly, acting as a historical testament to the community's recognition of maternal ancestry.

Could you provide information on the judgment concerning Mahesh Thakur in respect of Panaji?

Mahamahopadhyaya Maharaja Mahesh Thakur made a significant ruling (known as a Vyavastha) regarding the rules of consanguinity and generational distance (Sapinda) used to determine marital eligibility in the Panji system.

According to the ancient scriptural directives, a prospective bride and groom must exclude five generations on the mother's side (Matri-paksha) and seven generations on the father's side (Pitri-paksha). This traditional rule was stated as **"Matritahpanchamimtyaktvapitritahsaptamimtyajet"** (abandon the fifth on the mother's side and the seventh on the father's side).

However, **Mahesh Thakur modified this traditional interpretation to "SaptamimBhajet"**, specifically ruling that the seventh generation on the father's side is actually acceptable (**graahya**) and authorized for marriage. Under this arrangement, the father's lineage is counted up to seven generations, where one ancestor is the giver of the Pinda, three are sharers of the Pinda (Pinda Bhagi), and three partake in the remnants (Lep Bhagi*).

This specific ruling provided by Mahesh Thakur was happily accepted by the society and became the officially recognized standard for verifying marital eligibility within the Panji records.

What is the 'Saptamim Bhajet' modification for the seventh generation?

The "SaptamimBhajet" modification fundamentally changed the marital eligibility rules regarding a person's paternal lineage (Pitri-paksha).

Originally, the ancient scriptural rule for preventing consanguinity (Sapinda) was stated as **"Matritahpanchamimtyaktvapitritahsaptamimtyajet"**— meaning one must abandon (exclude) five generations on the mother's side and seven generations on the father's side.

However, Mahamahopadhyaya Maharaja Mahesh Thakur modified the rule regarding the father's side from **"tyajet"** (abandon) to "SaptamimBhajet" (accept the seventh).

Specifically, this modification meant:

- **Acceptance of the Seventh Generation:** While the first six generations on the groom's paternal side remained strictly forbidden (tyajya), the seventh generation was officially declared acceptable and authorized (graahya) for marriage.
- **The Pinda Calculation:** This mathematical boundary of seven generations was based on the traditional understanding that within a lineage of seven, there is one giver of the Pinda, three sharers of the Pinda (Pinda Bhagi), and three who partake in the remnants (Lep Bhagi).
- **Societal Adoption:** The community happily accepted this specific ruling (Vyavastha) provided by Mahesh Thakur, and the "Saptamim Bhajet" rule became the formalized standard used by genealogists to verify marriages.

Because of this modification, genealogists only needed to ensure a genetic distance of exactly six full generations on the father's side, rather than seven, allowing a marriage to take place if the shared ancestor appeared in the seventh generation.

How is a daughter recorded if there are no sons?

In the Panji genealogical records, if a person does not have a single son but has a daughter, she is explicitly recorded to ensure the lineage is preserved.

The genealogists documented this by using specific Sanskrit terminology:

- Instead of a son's name, the term Suta (sutā, meaning daughter) or Sutascha (sutāśca, meaning "and daughters") is written next to the individual's name.

To provide context on how this fits into the broader recording system, male offspring were recorded with specific numerical indicators:

- Sutah (sutaḥ) indicated exactly one son.
- Satau (satau) indicated two sons.
- Sutah (sutāḥ) indicated three or more sons.

However, in the absolute absence of male heirs, the use of Suta or Sutascha guaranteed that a daughter was officially registered. This meticulous documentation was crucial because her exact identity needed to be mathematically tracked for verifying future marital eligibility and generational distance across the maternal line.

Tell me more about the female genealogist documented in Arariya.

The provided sources mention that the Panji records from the Rasadh-Arariya region uniquely document the presence of a female genealogist (Striganak). This stands out as a notable exception in a tradition where the role of a genealogist (Panjekar) was almost exclusively held by men.

However, the given texts do not actually reveal her specific name, nor do they provide any further biographical details or context about her life and work. They merely state the fact that the mention of her name is uniquely found within the Utedh Panji records of that specific region, alongside the documentation of the six ancestors used to calculate marital eligibility.

Since the current sources lack further details about her identity, would you like me to run a quick search to see if we can discover her name and more about her history?

Where is the Rasadh-Arariya region located?

The Rasadh-Arariya region is located within the historical bounds of the **Dharampur** Pargana in the eastern part of the Mithila area.

Based on the geographical details provided in the records:

- Arariya is a district. The historical Dharampur Pargana encompasses the western parts of the present-day Arariya, Purnia, and Katihar districts. The texts also note that the Sultanpur Pargana within the Arariya district contains about forty villages with a dense Brahmin population.
- Rasadh is a specific village situated within this Dharampur Pargana.

Historically, the village of Rasadh was highly renowned for its prosperity and intellect. It served as a prominent centre where scholars who had received their education in Kashi would travel to participate in scriptural debates (Shastrartha) and receive honours.

Which village was a major centre for Kashi scholars?

The village of **Rashadh** (or Rasadh) was a major centre for Kashi scholars. Located in the Dharmapur Pargana, this village was historically renowned for its prosperity and intellect, serving as a prominent destination where scholars who had received their education in Kashi would travel to participate in scriptural debates (Shastrartha) and receive honours.

What is the significance of the Dooshan Panji?

The **Dooshan** Panji (often referred to as the "impure secret book" or "The Black Book") is one of the seven types of genealogical registers (Panji) maintained in the Maithil Brahmin tradition. Its primary significance lies in its highly secretive and objective documentation of societal and genetic "flaws" (Doshas) or instances of degradation (Ksharan) that entered various family lineages.

The core significance of the Dooshan Panji can be understood through the following key aspects:

- **Recording Societal Deviations:** It served as the official repository for documenting unscriptural realities and "burning questions" of the time. This included explicit records of inter-caste marriages (such as unions with individuals from the Charmakar or Muslim communities), marriages with unknown maternal lineages, and highly unconventional births. For example, as discussed earlier, it is the text that recorded the Navya-Nyaya philosopher Gangesha Upadhyaya being born five years after his father's death and marrying a Charmakarini.
- **Tracking Lineage Purification:** The purpose of documenting these genetic and societal flaws was not to permanently condemn a family, but to track the lineage so that it could be saved from future negative consequences regarding marital eligibility. By mathematically mapping these "impure" branches, the system could identify when a bloodline was officially "purified" over time. The text provides an example of a lineage stemming from an inter-caste marriage that was mathematically deemed "completely pure" (Purnatah Shuddha) by the time it reached the sixth generation.
- **Objective Historical Transparency:** The Dooshan Panji demonstrates that ancient genealogists recorded historical events and offspring without prejudice or permanent malice. It highlights an advanced historical consciousness where the society objectively documented reality,

understanding that major controversies or societal disruptions would eventually fade from public memory and the collective mind over time.

- Subject of Modern Cover-ups: Because the book contained these "impure secrets" regarding the roots of highly revered historical figures, it was intentionally suppressed by later 20th-century scholars (like Prof. Ramanath Jha) who were ashamed of these unscriptural realities. This desire to hide the contents of the Dooshan Panji resulted in the historical cover-up of certain legacies until the book was finally released to the public in 2009.

Who was Ramanath Jha and why did he suppress the Dooshan Panji book?

Professor Ramanath Jha was a **20th-century scholar** who possessed deep knowledge of the Maithil Panji (genealogical) records. He suppressed the Dooshan Panji (also known as the "impure secret book" or "The Black Book") out of **obscurantism and a desire to hide the "unscriptural" realities** recorded within its pages.

The primary reason for this suppression was that he was **ashamed of the historical truths regarding highly revered figures**, most notably the great Navya-Nyaya philosopher Gangesha Upadhyaya. The Dooshan Panji explicitly documented that Gangesha was born five years after the death of his father and that he had engaged in an inter-caste marriage with a Charmkarini (a woman from the tanner community).

Instead of allowing these objective historical facts to be known, **Jha deliberately kept the Dooshan*Panji*** a secret and facilitated a historical cover-up. **He provided false information to other historians, such as Dinesh Chandra Bhattacharya, leading them to wrongly conclude and publish that Gangesha's family had simply "dwindled into insignificance" and gone extinct. The sources condemn this deliberate erasure of a revered scholar's true lineage and inter-caste marriage as an "honour killing of Gangesh Upadhyaya".**

Who is Udaya Nath Jha 'Ashok' and what is his role in "honour killing of Gangesh Upadhyaya"

Udayanath Jha 'Ashok' is an author who wrote a 2016 monograph on the great Navya-Nyaya philosopher Gangesha Upadhyaya, published by the Sahitya Akademi. He is also a recipient of the Sahitya Akademi's Bhasha Samman award.

His role in the "honour killing" of Gangesha Upadhyaya involves continuing the deliberate historical cover-up that was initially started by the 20th-century scholar Prof. Ramanath Jha.

As discussed in our previous conversation, Prof. Ramanath Jha had originally hidden the Dooshan Panji because he was ashamed that it recorded Gangesha being born five years after his father's death and marrying a Charmkarini (a woman from the tanner community). Even though this "Black Book" was finally released to the public in 2009—making the truth about Gangesha's lineage widely available—Udayanath Jha 'Ashok' still chose to suppress these facts in his 2016 monograph.

The sources note that his role in this "honour killing" of Gangesha's legacy includes:

- **Perpetuating False History:** Instead of using the 2016 monograph to correct the historical record, he appeared ashamed of Gangesha's roots and deliberately confused the issue.
- **Ignoring the Released Records:** He mockingly pretended to search for Gangesha's name and lineage, refusing to muster the courage to tell the truth despite the objective records being public since 2009.
- **Repeating the Cover-up:** He ended up simply repeating the false narrative published by Dinesh Chandra Bhattacharya in 1958 (which incorrectly claimed that Gangesha's family had gone extinct), thereby carrying out a "casteist agenda" into the 21st century.

By refusing to acknowledge Gangesha's true lineage and inter-caste marriage, the sources argue that Udayanath Jha 'Ashok' and the Sahitya Akademi hypocritically took forward the "honour killing" of Gangesha Upadhyaya.

How were the 15 categories for Pachhbaripar Brahmins officially defined?

The 15 categories (Shrenis) for the **Pachhbaripar** were officially structured by the genealogists (Panjikars) into a hierarchy containing 153 distinct genealogical groups or Panjis.

When officially defining and classifying these newly formed Laukik (social/worldly) sub-lineages across the 1 to 15 tiers, the authorities relied on two primary naming conventions:

- Names of Prominent Individuals: Many categories were officially defined and recorded directly under the name of a specific individual (Laukik person).
- Names of Villages: Other categories were defined based on the names of specific villages associated with the families.

The genealogical texts provide a list of examples illustrating how these official titles were established using a blend of personal identities and geographical locations. Some of the defining titles included:

- Categories defined by individual names such as Nityanand Chaudhari (associated with Pindaruch), Lakshmipati Mishra (Dhagjari), Kant Jha (Chanpura), and Lal Thakur (Dhamdaha).
- Categories defined by villages or a combination of village and individual, such as Singhwar (Mathuresh Thakur), Maniyari (Madhupati Mishra), Amaun (Balakram Pathak), and Vasantpur (Madhav Mishra).

These 15 categories were formalized under the orders of the Maharajadhiraj. Because these Laukik definitions were heavily tied to specific, wealthy individuals who could simply purchase their placement and official recognition, the resulting 15-tier system became a monetized hierarchy rather than a merit-based spiritual classification.

How did Gangesha Upadhyaya's family supposedly go extinct?

The supposed extinction of Gangesha Upadhyaya's family was **ad deliberate historical cover-up orchestrated by 20th-century scholars to hide his unconventional origins and inter-caste marriage.**

According to the objective records found in the Dooshan Panji (The Black Book), the great Navya-Nyaya philosopher was born five years after the death of his father and later married a Charmkarini (a woman from the tanner community). Because these historical facts were considered "unscriptural" and shameful by later orthodox standards, **Prof. Ramanath Jha intentionally kept the Dooshan Panji secret*.**

To obscure the truth, Prof. Jha fed false information to the historian **Dinesh Chandra Bhattacharya**, who relied on it for his 1958 book, "History of Navya-Nyaya in Mithila". In this text, Bhattacharya incorrectly published that Gangesha's family possessed an "inferior social status" and was therefore completely ignored by society, to the point where even his father's name was allegedly unknown. Consequently, Bhattacharya wrongly concluded that **"the**

family dwindled into insignificance again and became extinct soon after his son's death".

This fabricated narrative of the family's extinction, driven by a casteist agenda to erase his true roots, is condemned in the sources as the "**honour killing of Gangesh Upadhyaya**". Despite the public release of the Dooshan Panji in 2009—which proved his lineage was actually meticulously tracked rather than extinct—this false story of the family's disappearance was hypocritically perpetuated into the 21st century by authors like Udayanath Jha 'Ashok'.

How is the fifth Chhathi ancestor calculated for the bride?

The fifth Chhathi (sixth-generation ancestor) for a prospective bride is mathematically calculated as her **paternal grandmother's great-grandfather**(*Pitamahi'sPrapitamah*). This can also be described genealogically as her paternal grandfather's father-in-law's grandfather.

To isolate this specific ancestor, the genealogist traces the lineage back exactly six generational steps. The historical records provide a specific example of how this descent is mapped:

- First Generation (The 5th Chhathi): The ancestor himself (e.g., Brajanath Jha of the Sakaradhi Mool).
- Second Generation: His son (e.g., Harshnath Jha).
- Third Generation: His grandson, who becomes the father-in-law to the bride's grandfather (e.g., Siddhinath Jha).
- Fourth Generation: The son-in-law, who is the bride's paternal grandfather (e.g., Pitambar Jha).
- Fifth Generation: The bride's father (e.g., Shashinath Jha).
- Sixth Generation: The prospective bride herself.

Through this exact step-by-step lineage, the bride is placed exactly at the sixth position from her paternal grandmother's great-grandfather, officially establishing him as her fifth Chhathi for the purpose of verifying marital eligibility.

The Archival Omission and Relational Mapping of Women in Mithila's PanjiPrabandh

Introduction: The Structural Epistemology of Mithila's PanjiPrabandh

The Panji Prabandh (genealogical records) of the Mithila region, located in northeastern Bihar and the Terai region of Nepal, represents one of the most

highly structured, state-sponsored genealogical systems in the Indian subcontinent. Established in 1326 or 1327 AD under the patronage of King Harisimhadeva of the Karnat dynasty, this extensive archival system was designed to regulate marriage alliances, maintain caste endogamy, and prevent consanguineous marriages among the Maithil Brahmins and Karna Kayasthas. The system divided the community into ranked hierarchical categories, primarily Shrotriya (or Soit), Yogya (or Jog), and Panjibaddh, with unregistered families categorized as Jaibar.

The origin of the Panji Prabandh is traditionally attributed to a socio-legal crisis involving Pandit Harinath Upadhyaya, a renowned court scholar of Dharmashastra in the village of Satadhara. Due to the absence of systematic, written genealogical records, Pandit Harinath Upadhyaya unwittingly married a woman who was a maternal cousin within the prohibited degrees of consanguinity (Sapinda). The marital transgression came to light after his wife was accosted by a man of the lower-caste Dusadh community. Though a black snake miraculously intervened to save her, rumors of an improper meeting forced her to undergo an ordeal by fire, holding a red-hot iron rod to prove her chastity. When her hands burned, she was declared guilty under standard interpretations, yet she was determined to prove her purity.

She approached Lakhima Thakurain (also known as Lakkhima Devi), a highly learned female philosopher and the wife of the famous lawgiver Chandeshvara Thakkura. Recognizing that the wife's hands had burned not due to unchastity but because of the spiritual pollution of an unrecognized Sapinda marriage, Lakhima advised her to request a retrial with a modified oath. Upon declaring before the court that she had not had relations with any outcaste other than her husband, her hands remained unburned. This revelation shocked the community: the court pundit Harinath Upadhyaya had committed a serious breach of exogamy by marrying his cousin's daughter's daughter within the fifth degree of maternal kinship, rendering his wife a Chandalini in the eyes of the law.

To prevent such unrecognized transgressions, King Harisimhadeva established a state-backed bureaucracy of genealogists known as Panjikars. The primary function of these genealogists was to collect family histories and issue a Siddhanta (a certificate of matrimonial eligibility) before any marriage could be solemnized, confirming that the prospective bride and groom did not share common ancestors within the prohibited degrees of Sapinda.

Structural Erasure: The Relational Node and Kinship Syntax

Within this highly structured patrilineal framework, women were historically documented not as independent entities, but strictly as relational nodes—conduits through which lineages intersected and status was transferred. In the standard public registers of the Mool Panji (the root registers) and the Shakha Panji (branch books), the personal names of women were systematically omitted. This was not a consequence of archival negligence, but a deliberate feature of the Panji methodology. Because the system was designed as a mathematical apparatus to compute consanguinity (Utedh), the personal identity of a female was irrelevant to the calculation. The system required tracking her Mool (village of paternal origin), her Gotra (paternal clan), her Pravara (sages associated with the clan), and her father's paternal pedigree.

Consequently, women were recorded solely through a standardized kinship syntax that defined them in relation to their closest male relatives. A typical entry in the palm-leaf manuscripts (patras) documented a female through specific Sanskrit and Maithili kinship terms and abbreviations.

Notation / Kinship Term		Sanskrit / Maithili Script		Meaning		Genealogical Context & Application
-------------------------	--	----------------------------	--	---------	--	------------------------------------

Suta / Putri		śutā / putrī		Daughter of		Links a female node directly to her father's lineage to trace her paternal descent line. ⁴
--------------	--	--------------	--	-------------	--	---

Patni / Vallabha		patnī / vallabhā		Wife of		Connects a female node to her husband's family line, marking the formal union of two lineages. ⁴
------------------	--	------------------	--	---------	--	---

Dau (or Ddau)		dau / ddau		Daughter's son (Dauhita) / Maternal Grandfather		Indicates the maternal grandfather (Matamaha) or mother's maternal grandfather (Matrmatamaha) to verify the maternal side of the pedigree. ⁴
---------------	--	------------	--	---	--	---

Adya		ādyā		First / Primary wife		Designates the first wife or the primary matrimonial alliance of a male, used to establish the primary line of descent. ⁴
------	--	------	--	----------------------	--	--

Apara		aparā		Subsequent wife / Subsequent marriage		Documents second, third, or subsequent wives, essential for tracking complex hypergamous and polygamous families. ⁴
-------	--	-------	--	---------------------------------------	--	--

Sāñ		sa~		From / Originating from		Identifies the ancestral village (Mool-gram) associated with the family branch. ⁴
-----	--	-----	--	-------------------------	--	--

This syntax ensured that the maternal grandfather's lineage (Matrika) could be systematically computed. A woman's pedigree was expressed as a relational chain, such as:

By converting female identities into functional relational nodes, the Panji system maintained mathematical precision while systematically erasing the personal names of women from the standard public record.

The Cross-Referencing Coordinates and Lineage Algebra

To manage the enormous volume of data across generations without duplicating long paternal lineages, Panjikars developed a highly sophisticated indexing and cross-referencing coordinate system. Instead of transcribing a maternal grandfather's entire paternal tree each time his daughter's children were recorded, the Panjkar used a coordinate code consisting of the page number and line number of the grandfather's primary entry in the Shakha Panji.

For example, an entry in the Shakha Panji might contain a coordinate note such as "114/4". This coordinate directed the reader to Folio 114, Line 4 of the manuscript, where the full paternal pedigree of Rav Shankar of the Valiyasa mool was documented. His marriage to the daughter of Pratitnath of the Pavouli mool was fully mapped at coordinate "103/2". By navigating these coordinates, a genealogist could instantly reconstruct the maternal lineage (Matrik) of any individual across several centuries, maintaining a compact and manageable database on fragile palm leaves.

This algebraic tracking of maternal lineages was crucial for computing the sixteen consanguineous nodes, known as the Chhatis. Before a marriage could be approved, the Panjkar calculated these sixteen generational boundaries for the prospective bride to ensure she did not overlap with the groom's prohibited maternal or paternal lines.

Chhati Node | Relationship Definition in the Panji Syntax | Prohibited Degree of Kinship

First Chhati | Paternal Great-Grandfather's Paternal Grandfather | 6th generation from paternal line.4

Second Chhati | Paternal Great-Grandfather's Maternal Grandfather | 6th generation from maternal line.4

Third Chhati | Paternal Grandfather's Maternal Grandfather's Father | 6th generation from maternal line.4

Fourth Chhati | Paternal Grandfather's Maternal Grandfather's Father-in-law | 6th generation from maternal line.4

Fifth Chhati | Paternal Grandmother's Paternal Great-Grandfather | 6th generation from paternal line.4

Sixth Chhati | Father's Maternal Grandfather's Maternal Grandfather | 6th generation from maternal line.⁴

Seventh Chhati | Paternal Grandmother's Maternal Great-Grandfather | 6th generation from maternal line.⁴

Eighth Chhati | Paternal Grandmother's Maternal Grandmother's Father | 6th generation from maternal line.⁴

Ninth Chhati | Maternal Grandfather's Paternal Great-Grandfather | 6th generation from paternal line.⁴

Tenth Chhati | Maternal Great-Grandfather's Maternal Grandfather | 6th generation from maternal line.⁴

Eleventh Chhati | Maternal Grandfather's Maternal Great-Grandfather | 6th generation from maternal line.⁴

Twelfth Chhati | Maternal Grandfather's Maternal Grandmother's Father | 6th generation from maternal line.⁴

Thirteenth Chhati | Maternal Grandmother's Paternal Great-Grandfather | 6th generation from paternal line.⁴

Fourteenth Chhati | Maternal Grandmother's Paternal Grandfather's Father-in-law | 6th generation from paternal line.⁴

Fifteenth Chhati | Maternal Grandmother's Maternal Great-Grandfather | 6th generation from maternal line.⁴

Sixteenth Chhati | Maternal Grandmother's Maternal Grandmother's Paternal Grandfather | 6th generation from maternal line.⁴

If any of these sixteen Chhati lines of the bride overlapped with the groom's paternal line within seven generations, or maternal line within five generations, the marriage was declared Anadhikar (lacking rights) and was forbidden.

Contextual Exceptions: The Socioeconomics of theRasarh-Araria Sub-Archive

The absolute omission of female personal names from Maithil genealogies contains one notable historical exception. Panji manuscripts and primary Maithili studies explicitly record that:

"Only in theRasarh-Araria Panji is the mention of women's/female names found in the Panji." ("mātrarasāgha-arariyākapañjīmestrīgaṇakakanāmakaullekhapañjīmebhetaitaachi"*) 4

This unique recording of female personal names within the registers of the Rasarh-Araria branch—located on the eastern frontier of Mithila, spanning

the Purnea and Araria districts of modern-day Bihar—represents a significant archival deviation. A social and economic analysis of this region explains why personal names became necessary in this specific geographic sub-archive.

Historically, the eastern districts of Mithila were dominated by large, wealthy estate holdings, notably held by the Srinagar and Champanagar branches of royal landholders (Zamindars). Under British colonial land policies, particularly the Permanent Settlement of 1793, the exact legal identification of individuals holding land or receiving maintenance allowances became a matter of strict legal and civil litigation.

The ruling families of these eastern estates frequently practiced the transfer of large, rent-free landed properties—referred to as Devotter Mahals and Talukas—directly to their daughters, sisters, and widows for their lifelong maintenance. For example, when brothers in these noble families divided their estates, large tracts of land, such as two hundred bighas of rent-free land at Mouja-Rasarh, were formally settled in the names of female descendants for their maintenance.

The legal and administrative records of the Srinagar branch preserve the specific names of these women, including Yog Maya Dai (assigned the Bara Singhoul Taluka), Maha Maya Dai (assigned the Kedali Taluka), Nity Maya Dai (assigned the Chakla Taluka), Maina Dai (assigned the Shahpur Taluka), Baba Dai, Kirtimaya, and Dharmamaya Daiji. Under the jurisdiction of British courts and traditional land registries, recording a female merely as "the daughter of Abhaynath" or "the granddaughter of Hari" was legally insufficient to protect her land tenure or to secure her monthly maintenance allowances.

To prevent estate disputes and satisfy the requirements of colonial land registries, the local Panjikars of the Rasarh-Araria branch adapted their traditional methods. They began recording the actual, personal names of these female landholders directly in the Panji registers. This synthesis of traditional ritual genealogy with colonial property rights forced the Panjikars of this sub-region to depart from the structural anonymity that characterized the rest of Mithila.

Transgressive Inscriptions: Female Names in the Dooshan Panji

The structural documentation of women also played a critical role in the Dooshan Panji (popularly termed "The Black Book" or the register of

pollutions). While the public *ShakhaPanjis projected an unblemished narrative of caste purity and hypergamous elevation, the secret Dooshan Panji* served as a pragmatist's counter-archive, detailing lineage "pollutions," illicit alliances, marriages within prohibited degrees, and inter-caste unions.

In the Dooshan Panji, the documentation of women was highly precise, recording alliances with women from outside the accepted endogamous boundaries. This secret record was maintained because, under traditional rules, a family that had suffered a "pollution" could gradually regain its status and achieve "purification" (Purnatah Shuddha) after five or six generations of strictly verified endogamous marriages.

A prominent historical example documented within the Dooshan Panji concerns the family of Gangesh Upadhyaya, the 14th-century founder of the Navya-Nyaya (New Logic) school of Indian philosophy. Publicly, Gangesh Upadhyaya was celebrated as a Jagadguru and Param Guru. However, the Dooshan Panji preserves the private reality:

"From the**Chhadan**root, the wife (Vallabha) of Gangesh, the author of**Tattvachintamani**, was**Charmakarini**[belonging to the tanner**caste**]...It is recorded that Gangesh was born five years after the passing of his father (Pitri**Parokshe**Panch Varsh**Vyatite**)."* 4

This entry reveals that Gangesh was born five years after his father's death, and his mother is recorded as a lower-caste woman named Medha.

Additionally, the Dooshan Panji preserves the rare, explicit names of women in cases of extreme genealogical anomalies. In the Devanand Panji, the daughter of Gangesh's son Supan is explicitly named "Gora":

"Jagadguru**Gaṅgeś**sutSupandau**Bhaṇḍārisam-saṅHarādityadau**. Putrasutā-cha**GorāJajivāl-saṅJivepatnī**..."* 4

Furthermore, the Dooshan Panji provides a detailed, generation-by-generation mapping of how lower-caste maternal lines were tracked across centuries until their descendants achieved purification.

[Generation 1] Gunawati Himsha (Outcaste/Aan Jatik woman)

| (Married Chamaru of Valiyasa Mool)

[Generation 2] Gangadhar

| (Married daughter of Nathu of Sarisav Mool)

[Generation 3] Visho

| (Married daughter of Gangu of Sakaradhi Mool)

[Generation 4] Goge

| (Married daughter of Kanhu of Panichobh Mool)

[Generation 5] Rud (Rudra)

| (Married daughter of Helu of Darihara Mool)

[Generation 6] Chand

| (Married daughter of Horai of Pali Mool)

[Generation 7] Ram (Maternal lineage unknown)

| (Married daughter of Chand of Narwal Mool)

[Generation 8] Devadhar (Declared "Purnatah Shuddha" or completely purified)

Through this highly systematic tracking of maternal descent, the Dooshan Panji ensured that the genetic and social "pollutions" brought by women from outside the caste were monitored over six generations, until the lineage could once again be integrated into the public, elite hypergamous marriage pool.

Philosophical and Literary Dimensions of Elite Women

The systematic erasure of female personal names in standard Maithil genealogies stands in stark contrast to the prominent intellectual and political roles played by elite women in Mithila's history. While ordinary women were strictly bound by the purdah (veiling) system and hypergamous dependency, noble and scholarly women frequently managed estates, patronized great poets, and made significant contributions to orthodox Hindu philosophy.

Notable Mithila Woman | Historical Era & Royal Association | Key Intellectual / Political Contribution | Status in Traditional Genealogies

Lakhima Thakurain (Lakkhima Devi) | Chief Queen of Shivasimha, Oiniwar Dynasty (15th Century).²⁰ | Author of Padarthachandra, a treatise on Nyaya Vaisheshika philosophy; advisor on social laws and re-trials.⁵ | Omitted or recorded solely by her title (Thakurain) and husband's name.⁴

Queen Visvasa Devi | Ruler of Mithila (15th Century, ruled for 12 years).²⁰ | Patron of the poet Vidyapati; commissioned major Sanskrit legal and religious works like the Gangavakayavali.²⁰ | Omitted from standard public paternal registries.⁴

Queen Dhiramati | Queen of Shivasimha's court, Oiniwar Dynasty.²⁰ | Prominent patron of learning and literature; supported early Maithili and Sanskrit compositions.²⁰ | Omitted from standard public paternal registries.⁴

Chandrakala | Granddaughter of Vidyapati (15th Century).²⁰ | Renowned classical poet; quoted in Lochan's Rajtarangini.²⁰ | Omitted from standard public paternal registries.⁴

These women achieved significant personal renown and wielded substantial political and intellectual power. Yet, under the rules of the Panji Prabandh, their individual names were excluded from the standard public genealogies. This dichotomy demonstrates that the Panji was not a historical narrative designed to honor individuals, but a highly specialized, functional database built to compute caste purity and exogamous boundaries.

Conclusion: The Contemporary Trajectory of Maithil Genealogy

Over seven centuries, the Panji Prabandh served as the social and genetic backbone of the Mithila region, preserving an unbroken record of hundreds of thousands of family trees. Within this complex system, women were historically documented as relational nodes designed to calculate caste purity and exogamous boundaries. The unique exception of the Rasarh-Araria Panji demonstrates how traditional genealogical practices adapted to socioeconomic shifts, recording female personal names to secure legal land titles under colonial rule.

In the modern era, the traditional Panji system faces significant challenges. Urbanization, global migration, and the rise of digital matchmaking platforms have led many younger families to prioritize education and career compatibility over ancestral lineage verification. However, the historic palm-leaf manuscripts and basaha paper scrolls of the Panjikars remain an invaluable archive. Efforts by organizations like the National Mission for Manuscripts to digitize these centuries-old records represent a crucial step toward preserving Mithila's unique cultural and sociological heritage.

PART 3
PRĀCĪN PAÑJĪ — GENOME MAPPING
VOLUME I

Chapter 9

Prācīn Pañjī, Khaṇḍa 1: Villages, Families, Lineages, and Gotras (Pages 1–65)

Prācīn Pañjī of Mithila — Khaṇḍa 1: Research Report

PRĀCĪN PAÑJĪ OF MITHILA

Khaṇḍa 1: The Ancient Genealogy

A Comprehensive Research Report on Villages, Families, Lineages,
Gotras, Scholarly Titles & Genealogical Structures

Source: Genome Mapping (450 AD – 2009 AD) — Panji Prabandha of
Mithila, Khaṇḍa 1

Analysis prepared for Videha Parallel Literature Movement | May 2026

1. Overview of Khaṇḍa 1: Prācīn Pañjī

Khaṇḍa 1 (khaṇḍa 1 – prācīna pañjī, 'The Ancient Genealogy') constitutes the foundational stratum of the Panji Prabandha corpus of Mithila. Spanning pages 1. through 1. of the digitised volume, it preserves the oldest surviving genealogical record of Maithil Brahmin families across the Tirhut heartland, rendered in a bilingual format — the left column in Mithilakshara-influenced Devanagari, and the right column in Kaithi-transliterated Devanagari — with both columns carrying identical genealogical data. This duplication reflects the Panjekar's practice of ensuring legibility across two distinct scribal traditions.

The text opens with the invocatory formula 'Atha patra pañjī likhyate' (atha patra pañjī likhate / atha sapatra pañjī likhate) — 'Now the genealogical

register is written' — establishing its ritual-juridical function as an authoritative record, not merely a genealogical chronicle. The corpus is structured as a cascade of village-clusters (mūla-grāma) linked by the genealogical notation system employing suta (son), sutā (daughter), dau/dautā (maternal nephew's son, i.e., the individual being placed), and bīji/vīji (maternal line anchor).

The historical anchor of Khaṇḍa 1 is Halāyudha of Gaṅgolī — identified in the opening entry as the founder-patriarch whose descendants branch across more than seventy named villages. The text then proceeds through over fifty named sections (numbered 1 through 5 in the document, each marking a genealogical sub-cycle or māṭṛka-cakra) before concluding with a colophon recording the scribe and date: Śāka 1778 / Saṃvat 1863, Śrāvaṇa Kṛṣṇa Tṛtīyā — approximately August 1856 CE — attesting to the most recent redaction of this 'ancient' layer of the Pañjī.

2. Geographical Coverage: Villages and Settlement Clusters

2.1 Named Villages (Grāma) — Complete Register

Khaṇḍa 1 names at least 122 distinct localities. These range from major mūla-grāma (home-clusters with Panjīkar classification authority) to secondary settlements where branches of families are recorded as resident. The following table presents all named villages as they appear in the text, with their approximate modern identification where determinable.

Village Name (Pañjī)	Modern / Alternate Form	Status in Corpus	Notable Families/Entries
salisaba / sarisaba	Sarisa, Mithila	Primary mūla-grāma	Śāṇḍilya gotra; multiple Mahāmahopādhyāya lines
gaṅgolī	Gangoli, Sitamarhi area	Primary mūla; Halāyudha's seat	Historical anchor; Mūla lineage opener
khaṇḍabalā / khaṇḍabarā	Khandabla	Primary mūla-grāma	Vats gotra extensive entries; Ṭhākura lines
jalaṇḍavāla / jajivāla	Jajwal / Jalajwal	Primary mūla-grāma	Pāṇḍolī affiliates; dense genealogy
māṇḍala / māṇḍara	Mandar, Muzaffarpur dist.	Primary mūla-grāma	Kāḍya/Kāśyapa gotra centre
baliyāsa	Baliayas, Mithila	Primary mūla-grāma	Extensive vatsa-gotra branches

- satalakhā / satarakhā | Satlakha | Secondary settlement | Kāśyapa-gotra families; multiple sub-branches
- ekaraharā / ekaralā | Ekraha | Secondary settlement | Bhāradvāja gotra mentions
- vilvacañcaka / belau~ca | Belauncha | Primary mūla-grāma | Extensive Ayācī / Dāna-śīla lineages
- dariharā | Darihara | Primary mūla-grāma | Kādya gotra; Mahāmahopādhyāya clusters
- niuna / nādauna | Nadon, Sitamarhi | Secondary settlement | Multiple gotra branches
- pañcobha / pañcarobha | Panchobh | Secondary settlement | Sāvarṇa gotra mentions
- kujaulī | Kujoli, Madhubani | Primary mūla-grāma | Kātyāyana gotra centre; Mahāmahopādhyāya lines
- budhavāla / badhuvāla | Budhwal | Primary mūla-grāma | Vatsa gotra branches; Ṭhākura lineages
- sakaunā | Sakauna | Secondary settlement | Smaller genealogical entries
- phanandara / phanandi | Fanandar | Secondary settlement | Recurring connection point
- alaya / alaī | Alai | Primary mūla-grāma | Dense Kāśyapa-gotra network
- babhaniyāma | Babhaniyan | Secondary settlement | Vatsa gotra; warrior-title families
- khauāla / khauāra | Khauaal / Khavar | Primary mūla-grāma | Kādya gotra; Nānyadeva royal connection
- saṃkarāḍhī / sakarāḍhī | Sankradhi | Primary mūla-grāma | Kādya gotra; extensive Panjīkar notation
- ghosota / ghusauta | Ghosaut | Secondary settlement | Pāraśara gotra; scholars
- karambarā / kalambalā | Karambara | Secondary settlement | Multiple gotra entries
- ṭaṅkavāla / ṭaṅkavāra | Tankwar | Secondary settlement | Śaṇḍilya-affiliated
- nikhūta / nikhūpata | Nikhut | Secondary settlement | Mahāmahopādhyāya vidyādhara line
- koilakha | Koilakh | Secondary settlement | Scattered references
- yamugāma | Yamugam | Secondary settlement | Frequent connection point; multiple mātṛkā

brahmapura		Brahmapur		Secondary settlement		Śāṇḍilya gotra branches
murājapura		Murajpur		Secondary settlement		Kādyā gotra branches
siṃḍoā		Sindoa		Secondary settlement		Individual entries
viṭhauḷī		Vithauli		Secondary settlement		Rudra-aditya line
paikaṭola / pekaṭola		Paiktal		Secondary settlement		Scattered references
rekaurā / rekolā		Rekaura / Rekola		Secondary settlement		Sankradhi sub-cluster
bhūtaharī		Bhuthari		Secondary settlement		Scholars; Nikhut area
varmallī / baulī		Baurolī / Varmolli		Secondary settlement		Various gotra
dhosiyāma		Dhosiya		Secondary settlement		Maudgalya gotra mentioned
taraunī		Tarauni		Secondary settlement		Multiple recurring entries
bhaṛagāmā		Bhadgama		Secondary settlement		Individual family entries
chataunī		Chhatauni		Secondary settlement		Maudgalya-Jallaki area
ḍoma ṭekārī		Dom Tekari		Special entry (non-Brahmin?)		Caturvedādhyāyī Kāmadeva — unique entry
jallakī / jālaya		Jallay		Secondary settlement		Vatsa gotra; Kātyāyana cluster
mehandī / merendī		Mehandi		Secondary settlement		Scholars; Hṛḍikeśa line
miguāla / nanautī		Miguaal / Nanauti		Secondary settlement		Maudgalya gotra
bhandavāla / bhandavāra		Bhandavar		Secondary settlement		Vatsa gotra branches
gaṛhanikhūta		Gadh Nikhut		Settlement variant		Vidyāpati / Vidyādhara line
netavāra		Netawar		Secondary settlement		Agnihotrika mahāmahopādhyāya
jarahāṭiyā		Jarhatiya		Secondary settlement		Many recurring entries
berahaṛī / beraivā		Berahadi / Baraiva		Secondary settlement		Scholar lineages
tripuraulī		Tripurauli		Secondary settlement		Pāraśara gotra
lohanā / loinā		Lohana		Secondary settlement		Kṛṣṇātreyā gotra
kakaraṭra		Kakarod		Secondary settlement		Kādyā gotra entries

Note: The register above captures the major localities. A further 60–70 hamlet-level references appear in genealogical chains as 'vāsī' (resident) markers without formal mūla designation, indicating the corpus covers a geographic spread of roughly 150+ distinct inhabited locations across the Tirhut administrative division.

2.2 Mūla-Grāma Cluster Analysis

The mūla-grāma system organises villages into genealogically-defined clusters. Khaṇḍa 1 reveals the following primary cluster frequencies — measured by number of genealogical chains passing through each node:

Mūla Cluster	Approx. Chain Count	Dominant Gotra	Geographic Zone
māṇḍala / māṇḍara	174+	Kādyā / Kāśyapa	Muzaffarpur district
sarisaba / salisaba	150+	Śāṇḍilya	Sitamarhi district
khauāla / khauāra	149+	Kādyā	Madhubani / Sitamarhi
sakarāḍhī / saṃkarāḍhī	100+	Kādyā	Eastern Tirhut
kujaulī	88+	Kātyāyana	Madhubani
beharāḍhī / baherāḍhī	59+	Multiple	Sitamarhi area
jālaya / jallakī	42+	Vatsa / Kātyāyana	Madhubani
gaṅgolī	38+	Historical anchor	Sitamarhi dist.
belau~ca / vilvacañcaka	35+	Bhāradvāja	Sitamarhi dist.
satalakhā	32+	Kāśyapa	Central Tirhut
dariharā	30+	Kādyā	Western Tirhut

3. Gotra Classification — Complete Register

The Pañjī's gotra register for Khaṇḍa 1 is given explicitly in section 14 (pages 1.9–1.) and confirmed throughout the genealogical chains. The system uses the Smārta eight-gotra framework with Mithilā-specific extensions:

Gotra	Sanskrit Form	Villages Assigned	Special Notes
śāṇḍilya / śāṇḍilye	Śāṇḍilya	sarisaba, maruā (miligrāma/baulī), khaṇḍabalā, gaṅgolī, yamugāma, kaliyana, mohari, saṃjhuāla, bhaḍāna, pāṇḍolī, jalajavāla, daribhata, tiraī, māvaha, simunāma, siṃhāśrama, sasārava (sodarapura), stalita, kaṣariyā, allāri, hoīyā, talhanapura, parisarā, parasamḍā, vīranāma, uttamapura, kodariyā, chatimana, barebā, madhavāla, gaṅgolaśra, bhaṭaurā, budhaurā, brahmapurā, koiyāla, kelarivāla, gaṅguālaśca, dhosiyaṃma, chataunī, miguāla, nanautī, tapanapuraśvā	Most extensive gotra in corpus; 40+ assigned villages

vatsa | Vatsa | līlī (pālī), dariamba, tisorī, rāuṛha, ṭamkabāla, dhusauta, jajuāla, paddī, jallakī (jālaya), bhandavāla, koiyāla, kelarivāla, nanaura, ḍaṛhāra, prathita, karamarābudhavāla, bhaṛāna, lārī, soina, sakaunā, phanandara, moharī, baṛhavāla, tisau~ta, varūālī, pāṇḍoli, berahādhī, baraivā, bhaṇḍārisama, babhaniyāma, ucita, tapanapurā, viṛuvāla, niravāla, citrallī, jarahaṭiyā, ratavāla, brahmapurā, saraunī | Second largest; 38+ villages

kāśyapa / kādya | Kāśyapa / Kādya | oini, khauālā, saṃkarādhī, jagati, dariharā, māṇḍala, baliyāsa, pacāuṭa, kaṭāī, satalakhā, pāṇḍuā, mānalichā, merandī, bhaduāla, sakala, pakaliyā, budhavāla, pibhūyā, mauri, janaka-bhūtaharī, mahākāśyape, chādanaśca, thariyā, dostī, bharerā, kusumālīmḍa, niravāla, naguradaraśra | Royal connection (Nānyadeva); Kādya = special Mithilā classification

pārāśara | Pārāśara | niuna, suragana, sakurī, suirī, piravāla, nadāma, maheśari, sakarahonaśraca, soina, tilai, varevācāpi | Smaller cluster; Nadon area

kātyāyana | Kātyāyana | kujaulī, nanautī, jallakī, vatigāmaśraca | Madhubani centre

sāvarṇa | Sāvarṇa | sondapura, pinacobha, varevā, nandola, merandī | Small cluster

alāmbukākṣa | Alāmbukākṣa | kaṭāī, brahmapurā cāpi | Very small; specialised

kauśika | Kauśika | nikhūti (paramparā) | Single entry

kṛṣṇātraya | Kṛṣṇātreya | lohanā, busavana, sāndra, podonī ca | Small cluster

gautama | Gautama | brahmapurā, uttimapura, koiyālaṃ, cāpi | Small cluster

bhāradvāja | Bhāradvāja | ekaraharā, belau~ca (vilvacaṅcaka), deyāmaśrāpi, kaligāma, bhūtaharī, goṛhāla, godholica | Bhāradvāja-varga

maudgalya | Maudgalya | ratavālo, mālichastathā, dīgho, nopa, kāpya, jallakī tatravattamate | North-eastern cluster

vaśiṣṭha | Vaśiṣṭha | kauśilye, punaśca, kokuā, viṣṇuvṛti, vāla | Small cluster

kaunḍilya | Kaunḍilya | ekaratyuvīśalyu, pāuna, spī, gotrāśraca | Small cluster

pāsātaṇḍī | Pāsātaṇḍī | kaṭāī (ekamātra) | Single-village gotra

mīmāṃsaka (upādhi) | Mīmāṃsaka | alaya, usaraulī (upagotra padavī) | Not a gotra but qualifier-title for specific scholars

Analytical note: The gotra list in section 14 is unusual in including a verse for the Kādyā (Kāśyapa) gotra: 'dānaśauryaṃ pratāpaiśca prasiddhā yatra pāṛthivāḥ — Oinīsā sarvataḥ śreṣṭhā svosva-dharma-pravartikāḥ' — 'Those rulers who are renowned for liberality, valour and majesty; the Oinīsā are the best in all respects, upholding their own dharma.' This verse links the Kādyā/Kāśyapa gotra explicitly to ksatriya (royal) ancestry, explaining the special status of this gotra cluster and its association with the Karnāṭa dynasty of Mithilā, particularly Nānyadeva.

4. Notable Families and Lineage Chains

4.1 Historical Anchor: Halāyudha of Gaṅgolī

The opening entry of Khaṇḍa 1 establishes Halāyudha (halāyudha) as the genealogical primus. His descendants from Gaṅgolī form the ur-trunk from which two sons — Vīra and Nārāyaṇa — branch out. Nārāyaṇa's son Śūlapāṇi (śūlapāṇi) then generates two sons, Rāleś and Śāṅkau (possibly Śāṅkara), initiating the register for Khaṇḍa Barā (Khaṇḍabalā) village. This opening sequence (pages 1.17–1.) is the oldest generational stratum in the corpus. Halāyudha is historically identified as the court scholar (Mahāmātya) of Vallāla Sena of Bengal (c. 1175–1225 CE), placing the genealogical origin squarely in the late 12th century.

The notation '(05/04)' following Vīra indicates his genealogical position code — 05 = birth order rank among brothers, 04 = total siblings — a data-encoding technique unique to the Pañjī system, enabling reconstruction of family size at each generation.

4.2 The Mahāmahopādhyāya Scholarly Lineages

Khaṇḍa 1 records at least 47 holders of the title Mahāmahopādhyāya (abbreviated ma.ma.u., ma.ma.upā., or spelled out fully). These represent the highest scholarly honour in Mithilā, awarded to masters of the Navya-Nyāya tradition and related Brahmanical sciences. The major Mahāmahopādhyāya lineages traceable in this volume:

Name		Mūla / Village		Generation (approx.)		Scholarly Specialisation
nidhi (Nidhi)		khaṇḍabalā		Post-Halāyudha, 3rd-4th		Classical scholar
nārāyaṇa		khaṇḍabalā		4th-5th		Dharma-Adhikara-nīka
devaśarman		Various		5th-6th		Known descendant cluster

jagannātha		pokharaunī–ṭamkavāla		6th-7th		Recorded at Sitamarhi area
narasiṃha (Narasiṃha)		māṇḍala area		7th-8th		tarkācārya–mahāstra– vidyāpāraṅgata
vaṃśadhara		sakurī		8th-9th		Post-Narasiṃha generation
harikeśa		khaṇḍabalā		9th-10th		Major scholarly title holder
rāmeśvara		ṭeṭala–pāṇḍuā–karamarā		10th-11th		60/02 notation = large sibling set
gadādhara (Gadādhara)		Various		11th-12th		Dharmadhikaranika
jayādḥiti (Jayādḥiti)		gaṅgolī		12th-13th		Extensive progeny
laleśvara / ralleśvara		guradī–sarisaba		13th-14th		Scholar cluster
jīveśvara		Various		14th-15th		Last recorded in chain
vācaspati (Vācaspati)		samauli area		Various		Repeated title; paramaguru
umāpati		Multiple mūla		Various		Extensive entries
sureśvara		pārupura–sakarādhī		16th-17th		Three brothers with ma.ma. title
viśvanātha		Multiple		17th-18th		Late corpus entries
ravinātha		Multiple		18th-19th		Near-contemporary entries
raghunātha (Raghunātha)		Multiple		18th-20th		Near-contemporary; probable Raghunātha Śiromaṇi period
govinda (title-bearer)		Various		17th-18th		ma.ma. govinda – major Madhubani line
kṛṣṇānanda		khauāla area		19th-20th		Near-contemporary
sadānanda (Sadānanda)		Various		Various		Jagadguru and Kaṇṭokarāha epithet
lakṣmīnātha		Multiple		Various		Kavikaṇṭhābharaṇa title
madhusūdana		Multiple		Various		Multiple lines
jīvanātha		Multiple		Various		ma.ma.u. with Somauī alias

The density of Mahāmahopādhyāya titles concentrated in a relatively small geographic zone — primarily the Khauaal–Sarisā–Khandabla triangle — confirms the Pañjī's function as a record of intellectual élite formation in Mithilā, not merely biological genealogy.

4.3 The Narasiṃha Scholar-Chain — A Specimen Lineage

One of the most elaborate scholarly lineage chains in Khaṇḍa 1 is the Narasiṃha chain (pages 1.18–1.), reconstructed below. It represents the apex of Navya-Nyāya intellectual genealogy as recorded in the Pañjī:

Generation	Name	Title / Designation	Notation
1	trinayanabhaṭṭa	Ancestor patriarch	Mātrkā origin: Māṇḍal
2	āryabhaṭṭa	Scholar	e sutau (son of above)
3	udayabhaṭṭa	Scholar	e sutau
4	vijayabhaṭṭa	Scholar	e sutau
5	sulocanabhaṭṭa (= sunayanabhaṭṭa)	Scholar	e sutau
6	[unnamed]bhaṭṭa	Scholar	e sutau
7	dharmajaṭīmiśra	Scholar	e sutau
8	dhārājaṭīmiśra	Scholar	e sutau
9	brahmajaṭīmiśra	Scholar	e sutau
10	tripurajaṭīmiśra	Scholar	e sutau
11	vidyujaṭīmiśra	Scholar	e sutau
12	ajayasimha	Scholar-warrior	e sutau
13	vijayasimha	Scholar-warrior	e sutau
14	[unnamed]		e sutau
15	ādivarāha	Scholar	e sutau
16	mahovarāha	Scholar	e sutau
17	duryodhanasimha	Scholar	e sutau
18		soṛhara-jayasimha	takācārya–mahāstra–vidyāpāraṅgata mahāmahopādhyāya narasiṃha 10/06 notation

This 18-generation scholar-chain — embedded within the genealogical matrix — represents a unique intersection of intellectual history and genealogical record. The terminal figure Narasiṃha, bearing the compounded title 'Tarkācārya-mahāstra-vidyāpāraṅgata Mahāmahopādhyāya,' is the apex classical scholar of this branch. His successors Nidhi and Śilapāṇi continue the line into documented Mithilā intellectual history.

4.4 Royal and State-Official Lineages

Khaṇḍa 1 preserves titles of the Karnāṭa royal administrative apparatus, confirming the Pañjī's origin in the Vallāla-Nānyadeva period. The following

state-official designations appear within genealogical chains — attached to named individuals — not merely as honorifics but as hereditary occupational markers:

Title (Sanskrit)	Function	Occurrence in Text	Associated Family
mahāmattaka	Senior royal official	Multiple entries	Particularly Jajval-affiliated
mahāsāmantādhipati	Lord paramount of feudatories	Page 1.28	Śāntivigrāhika Devāditya branch
parāgārika (pārāgārika)	Treasurer / store-keeper	Page 1.28	Śāntivigrāhika branch
naivāṃdhika	River/ford official	Page 1.28	Same branch
bhāṇḍāgārika	Armoury/treasury keeper	Page 1.28	Multiple family branches
sthānāntarika	Transfer/posting officer	Page 1.28	Hari Cakra branch
mudrāhastaka	Seal-bearer (chancellor)	Page 1.28	Lakṣmīdatta family
vārtika	Trade supervisor	Page 1.28	Śāntivigrāhika branch
saprakraya	Trade/commerce officer	Page 1.28	Associated with Gaṇeśvara
śāntivigrāhika	Peace-treaty officer	Page 1.28	Devāditya — central figure
rājavallabha	Royal favourite / chamberlain	Page 1.28	Śubha-datta
agnihotrika	Royal Agnihotra priest	Pages 1.4, 1.51	Viśvambhara family
dharmādhikārika / dharmādhikāriṇika	Judicial/religious officer	Multiple pages	Recurring scholarly title
purohita	Royal priest	Scattered entries	Multiple families

The clustering of these administrative titles within a single genealogical subsection (pages 1.28–1.) suggests this preserves a snap-shot of the actual Karnāṭa court hierarchy, with Śāntivigrāhika Devāditya (śāntivigrāhika devāditya) as the central figure bearing no fewer than nine distinct state titles simultaneously — an extraordinarily concentrated record of medieval Mithilā bureaucratic organisation.

4.5 Unique Entries and Exceptional Records

Beyond the standard suta/sutā chains, several entries in Khaṇḍa 1 stand out for their anomalous or historically significant character:

- Dom Tekārī — Brahmin / Non-Brahmin Interface: Page 1. records 'Atha Ḍom Ṭekārī grāma tatra Caturvedādhyāyī Kāmadevo bīji' — 'Then the village of Ḍom Ṭekārī: therein the four-Veda-studying Kāmadeva is the bīji [genealogical anchor].' The designation 'Ḍom Ṭekārī' (a village with Ḍom community association) in a Brahmin genealogical register is anomalous, suggesting either a Brahmin settlement within or adjacent to a Ḍom hamlet, or an early record of caste-boundary ambiguity in Tirhut.
- Ayācī Lineage — The Renunciants: The term 'Ayācī' (ayācī, 'one who does not ask/beg') appears as a personal epithet for specific scholars, particularly in the Bhavānātha family (page 1.): 'Bhavānātha pra. Ayācīsuta Śambhunātha Rudranāthāpaty.' This designates a scholarly sub-lineage whose members took a vow of non-solicitation — maintaining themselves without requesting gifts — a rare ascetic characteristic within householder Brahmin genealogy.
- Tegachchhiya Entries: The term 'Tegachchhiya' (attenuated/thinned lineage) appears in several village entries, notably in the Saudarapura and Khauāla clusters. These mark lineages where the genealogical chain has become so attenuated — through male-line failure, adoption, or out-migration — that the Panjīkar has recorded the family as 'thinned out' rather than extinct. This is a formal genealogical status in the Pañjī taxonomy.
- Vidyāpati the Poet: Page 1. preserves 'Vidyāpati — Puḍrīka — Machadī' — 'Vidyāpati [settled at] Puḍrīka-Machadī [village].' This is a direct genealogical placement of the great Maithilī poet Vidyāpati (c. 1352–1448 CE) within the Pañjī matrix, confirming his Māithil Brahmin status and ancestral village identification.
- Mādhavanātha (Mīthaul) — The Calcified Formula: Page 1. records an extraordinary chain where the formula 'e sutau' (and his son) repeats through 18 generations without interruption — the longest continuous e-sutau chain in the document. This likely represents an idealised or schematised deep-time pedigree rather than verified historical record.
- Female Ancestors Named: At page 1., 'Nona sutā (Nona prabhṛti) Rūpamātī — Māṇḍal' appears — a rare instance where a female ancestor is named (Rūpamātī, 'beautiful mother') rather than merely designated as the unnamed maternal link. The Pañjī normally renders women invisible in the patrilineal chain; named women represent exceptions of unusual status.

- The Maudgalya Verse: Page 1. contains the verse 'Maudgalyai ratavālo mālchastathā dīghonopatkapy jallakī tatravattmate' — assigning Maudgalya gotra families to four villages including Jallakī. This verse form for gotra assignment (rather than prose list) is unusual within the corpus and may indicate a later interpolation from a different manuscript tradition.

5. The Genealogical Notation System of Khaṇḍa 1

5.1 Core Formula Grammar

Khaṇḍa 1 employs a compact but highly expressive notation grammar. The core elements:

Symbol/Term | Sanskrit | Meaning | Example from Text

suta | Suta | Son (direct male descent) | 'Rāmadeva suta Keśava' = Keśava son of Rāmadeva

sutau | Sutau (dual) | Two sons (dual marker) | 'e sutau Vīra Nārāyaṇaḥ' = his two sons Vīra and Nārāyaṇa

sutā | Sutā (plural) | Sons/daughters (plural) | 'Ē sutā Śaṅkara Vibhū...' = his sons Śaṅkara, Vibhū...

dau / dauo | Dau / Dautā | Maternal nephew's son (the placed individual) | 'Saliṣab saṃ Kāmadeva dau' = [placed via] Saliṣab-Kāmadeva

ddaou / ddau | Dvandau / double-dau | Paternal + maternal double line | Both lines confirmed

sa~ / sa~ X Y dau | Sana / from | From village X via person Y | 'Kujauli saṃ Mādhava dau' = from Kujoli via Mādhava

bījī / vījī | Bījī / Vījī | Maternal-line anchor (bīja = seed) | 'Gaṅgolī saṃ bījī Gaṅgādhara' = Gaṅgolī anchor Gaṅgādhara

māṭṛka | Māṭṛka | Maternal cluster origin | 'Sarisa-māṭṛka' = maternal home at Sarisa

prao / prathamāparokṣe | Pra. / Prathamā-parokṣe | Alias / also known as | 'Rāmū pra. Rāmodara' = Rāmū alias Rāmodara

vāsī | Vāsī | Resident of | 'Pāṭhaka-vāsī' = resident at Pāṭhaka village

(XX/YY) | Fractional code | Sibling rank XX of total YY | '(05/04)' = 5th of 4 siblings [or 5th born, 4 total]

bao | Ba. | Born (birth notation variant) | Birth-order marker in some entries

ete X grāma | Ete X grāma | End of X village section | Section boundary marker
atha / an / atha X grāma | Atha X grāma | Now [beginning] village X | Section opening formula
iti X pañjī | Iti X Pañjī | End of X's genealogy | Personal lineage closing formula
ṭīpa | Ṭīpa | Additional note / annotation | Secondary information marker

5.2 The Mātṛkā-Cakra (Maternal Cycle) System

A distinctive structural feature of Khaṇḍa 1 is the mātṛkā-cakra (maternal cycle), explicitly invoked with the formula 'evaṃ X mātṛka-cakraṃ' — 'thus the maternal cycle of X [is completed].' These cycles mark the completion of one complete genealogical circuit through the dau-bījī network, establishing that every living male in the register is validly connected to his assigned mūla-grāma through both his father's line (genealogy) and his mother's clan (mātṛkā). The document records over 55 named mātṛkā-cakra completions within Khaṇḍa 1, each effectively certifying the social legitimacy of the connected families.

Notable mātṛkā-cakra completions in Khaṇḍa 1 include: Śrīdhara-mātṛka-cakra (page 1.), Śore-mātṛka-cakra (page 1.), Gaṅgādhara-mātṛka-cakra (page 1.), Baidhyanātha-mātṛka-cakra (page 1.), Manori-mātṛka-cakra, Pañcadhaneśa-mātṛka-cakra, and Bachhāi-mātṛka-cakra among others.

6. Quantitative Analysis of the Corpus

Metric | Value | Notes

Total pages | 65 (1.1–1.65) | Bilingual format; right column used for analysis

Named sections (numbered) | 57 | Section markers 1 through 57

Distinct villages named | 122+ | Mūla + secondary settlements

Genealogical relation markers (suta/sutā/dau) | 3,500+ | Estimated from density analysis

Mātṛkā-cakra completions | 55+ | 'Evaṃ X mātṛka-cakraṃ' formulae

Mahāmahopādhyāya title holders | 47+ | Named individuals with full title

Mahopādhyāya / Maho. holders | 150+ | Abbreviated form

Gotras represented | 17 | Including Mīmāṃsaka sub-qualifier

Primary mūla-grāma clusters | 11 | Frequency >30 chains

State/administrative titles | 14 types | Royal court designations
Scholarly honorary titles | 24 types | Academic/religious designations
Named female individuals | ~8 | Highly unusual; normally invisible
Tegachchhiya (attenuated) entries | ~15 | Formal genealogical status
Colophon date | Śāka 1778 = c. 1856 CE | Scribe: Pañcā Rāmānanda (Paṇḍuā)
Historical span claimed | 450 CE – 2009 CE | 1,559 years; verified from ~1175 CE
Approximate living generation count | 50–60 generations | Back to Halāyudha; ~25 years/gen

7. The Colophon and Scribal Record

Page 1. preserves a partial colophon embedded within a genealogical entry, recording the conditions of the manuscript's production:

|| śubha śāke 1 san 1 sālā śrāvaṇa kṛṣṇatṛtīyāyāṃ dinakarau pāṇḍuā sa~ pā~
rāmānanda likhita midam ṭha. lakṣmīdhara suto gaṇeśa: ||

Translation: 'Auspicious: In Śāka 1778 [= c. 1856 CE], year 1263 [Samvat], on the third day of the dark fortnight of Śrāvaṇa [approximately July–August], from Paṇḍuā [village], Pañcā Rāmānanda has written this. [The entry concerns:] Ṭhākura Lakṣmīdhara's son Gaṇeśa.'

This colophon reveals: (1) the scribe's name — Rāmānanda, with honorific Pañcā (Pañca = five, possibly a caste sub-designation or five-fold scholar title); (2) his home village — Paṇḍuā; (3) the precise date — Śrāvaṇa Kṛṣṇa Tṛtīyā, Śāka 1778, which converts to approximately August 1856 CE; (4) that this is a scribal copy (likhita), not the original composition. The original composition is attributed to the Panjīkar tradition itself, stretching back to the 13th century CE.

A second scribal note appears in the body of section 77 (page 1.): 'Jhaṃū. Na. Śākhā lekhaḥaḥ Ḍomāi Miśrā / Monaśārvā pustaka / Tacita pañcāri lino śomśe' — indicating at least two distinct scribal traditions (the Jhāmū-Nava Śākhā and the Monaśārvā tradition) contributed to Khaṇḍa 1's compilation, lending the document a composite textual character typical of the larger Pañjī corpus.

8. Analytical Synthesis: What Khaṇḍa 1 Reveals

8.1 Social Architecture

Khaṇḍa 1 reveals Maithil Brahmin society as organised along three simultaneous axes: gotra (patrilineal descent classification), mūla-grāma (home-cluster for residence and marriage eligibility), and mātṛkā (maternal clan for the dau-network). The interaction of these three axes creates a matrix of identity far more complex than simple patrilineal reckoning. The Pañji is the instrument that maps this three-dimensional social space.

8.2 Intellectual Geography

The concentration of Mahāmahopādhyāya titles in the Khauaal–Sarisa–Khandabla triangle, with secondary clusters at Kujoli and Darihara, corresponds precisely to the known centres of Navya-Nyāya philosophical activity in Mithilā. Gaṅgeśa Upādhyāya's home village of Kariān (Kardaha) lies within this zone. Khaṇḍa 1 thus provides the genealogical scaffolding for the social production of Navya-Nyāya scholarship — showing that intellectual lineages and biological lineages were actively maintained as parallel systems.

8.3 Royal-Brahmin Symbiosis

The Kādya/Kāśyapa gotra's special position — blessed with a panegyric verse and assigned the largest cluster of villages — reflects the historical alliance between the Karnāṭa dynasty (Nānyadeva, Gaṅgadeva, Narasiṃhadeva) and specific Brahmin families. The state-official titles embedded in genealogical entries (Śāntivigrāhika, Mahāmattaka, etc.) demonstrate that these were not merely honorary but functional positions passed within identified family lines.

8.4 The Digitisation Significance

The bilingual format of this volume — Mithilakshara alongside Kaithi-transliterated Devanagari — represents the Pañji Project's most ambitious intervention: rendering a script that fewer than 100, people can read into the Devanagari standard accessible to all Hindi-Maithili literates. Khaṇḍa 1's 65 pages encode approximately 1, years of social history for roughly 5, named individuals across 122 villages. As a standalone data unit within the larger

Pañjī Prabandha digitisation project, it constitutes the single most data-dense document in the Videha digital archive.

9. Index of Major Entries

9.1 Selected Personal Names Index (with section references)

Name	Title/Role	Section(s)	Mūla/Village
halāyudha (Halāyudha)	Historical anchor;	Vallāla Sena's court	Opening / §17 gaṅgolī
narasiṃha (Narasiṃha)	ma.ma.u. Tarkācārya-mahāstra-vidyāpāraṅgata	§19, p.1.18	māṇḍala area
nidhi (Nidhi)	ma.ma.u.	§19, p.1.19	khaṇḍabalā
vibhākara (Vibhākara)	Scholar	Multiple	Various
vācaspati (Vācaspati)	paramaguru; ma.ma.u.	§99, multiple	samauli
jagannātha (Jagannātha)	ma.ma.u.	§19	pokharaunī-ṭaṃkavāla
śāntivigrāhika devāditya	9-fold court official	§28, p.1.28	nānyapura area
laleśvara (Ralleśvara)	ma.ma.u.	§20, p.1.20	guradī-sarisaba
gaṅgeśa upādhyāya (Gaṅgeśa)	Pañjī notation; Navya-Nyāya founder	§60, p.1.60	Kariān area
pakṣadhara (Pakṣadhara)	nyāyaśāstrī	§28, p.1.27	khaulā
vidyāpati (Vidyāpati)	Poet; genealogical placement	§4, p.1.4	puṇarīka-macchadī
ayācī (Ayācī-title bearer)	Non-soliciting scholar	§3, p.1.3	Multiple
kaviśekhara candranātha	Court poet title	§124, p.1.124	Late entries
ḍumāī miśra (Ḍomāī Miśra)	Scribe (Monaśārvā tradition)	Colophon, §77	Scribal note
pā~ rāmānanda (Rāmānanda)	Primary scribe; Pañcā title	Colophon, p.1.77	Paṇḍuā

10. Concluding Note

Khaṇḍa 1 of the Prācīn Pañjī — the 'ancient genealogy' — is not ancient in the sense of being composed in antiquity. It is ancient in the sense that it records the deepest stratum of genealogical memory maintained by the Panjikar tradition: families and villages that were already established when the Pañjī system was instituted under the Karnāṭa kings in the 12th century

CE. The 65 pages analysed here constitute a living map of Maithil social history: 122 villages, 17 gotras, 55+ genealogical cycle-completions, 47 documented Mahāmahopādhyāya scholars, and a unique administrative record of the Karnāṭa court hierarchy — all encoded in the compact, precise grammar of the suta/dau/māṭṛkā notation system that the Panjīkar tradition has maintained without interruption for over eight hundred years.

The Videha digitisation project, by rendering this bilingual document into searchable Devanagari, transforms Khaṇḍa 1 from a manuscript held by a shrinking community of Panjīkar practitioners into an open scholarly resource — completing the transition from milieu de mémoire (living memory) to lieu de mémoire (site of recorded memory) in the most productive sense of that theoretical distinction.

1. Overview and Structure of Pages 66–347

Unlike the opening Khaṇḍa 1 (pages 1–65) which established the foundational genealogical vocabulary, this continuation section is characterised by far greater density and complexity: longer individual genealogical chains, more compound scholarly titles, a marked expansion into Nepal-adjacent geography (particularly around the Simaravāḍa–Rataulī corridor), and crucially, the insertion of dated marriage colophons — real-time records embedded within the ancient genealogical frame — that bridge the 12th century Pañjī tradition with entries dated 01..2003, 09..2003, 15..2003, 20..2004, 21..2004, and others. This fusion of deep time and contemporary event is unique in South Asian manuscript traditions.

The document's section sequence is non-consecutive as numbered (§58, §61, §64, §65, §66, §68, §71, §79, §80, §88, §89, §97, §98, §99, §101, §109, §115, §117, §118, §121, §124, §178), indicating that the full corpus section-count far exceeds what appears in this partial volume, with intervening sections presumably in other Khaṇḍa files.

2. Geographical Coverage: New Villages and Localities

2.1 Dominant New Village Cluster: Karmaharā

The single most significant geographical finding in pages 66–347 is the emergence of Karmaharā (karamahā) as the dominant reference village — appearing 292 times, surpassing even Māṇḍar's 174+ references in Khaṇḍa 1's first 65 pages. Karmaharā functions as the primary maternal-line anchor for dozens of genealogical cycles in this section. Its density confirms that the Pañjī's geographical emphasis shifts eastward as the corpus progresses, with Karmaharā (identified with present-day Karmahe, Madhubani district) emerging as the central node of a dense web of scholarly and landowning families in the Madhubani–Sitamarhi corridor.

2.2 Complete Register of New Villages (Not in Pages 1–65)

The following localities appear for the first time in pages 66–347, either as mūla-grāma anchors or as documented residential settlements. Frequencies marked as 'high' denote 10+ appearances; 'medium' 5–9; 'low' 1–4.

Village Name (Pañjī)	Modern Identification	Frequency	Significance
rataulī / Rataulī	Ratauli, near Darihara, Sitamarhi	High (25+)	Major new mūla; forms Rataulī–Darihara sub-cluster; Nepal-border corridor
mahanaurā / Mahnaura	Mahnaura, Madhubani	High (11+)	Khauāl sub-node; appears in §184 and §§109+ clusters
naḍuāra / Naḍuār	Naduwar, Madhubani	Medium (4+)	Linked to Karmaharā cluster; Kṛṣṇa-lineage families
simaravāḍa / Simaravād	Simraon area, near Janakpur (Nepal)	Medium (5+)	Nepal-border corridor; Ṭhākura lineage anchor
khāṃguḍa / Khāṅguḍ	Khangud, Sitamarhi area	Medium (14+)	Sarisa sub-cluster; appears with 'Vaidika' prefix families
taraunī / Taraunī	Tarauni, Madhubani	High (15+)	New mūla node; recurring Karmaharā connection

ḍumarā / Ḍūmrā | Dumra, Sitamarhi | High (13+) | Major new settlement; Budhavāla sub-cluster

gaṃgorā / Gaṃgorā | Gangora, near Budhwal | Medium (7+) | Budhavāla-Gaṃgorā pairing; Śāṇḍilya gotra branch

bhauālavāsī / Bhauālavāsī | Bhauāl = Kathmandu Valley, Nepal | Low (1) | Extraordinary Nepal diaspora reference; p.1.93 §83

rakhavāī / Rakhavāḍī | Rakhwadi, Sitamarhi | Low (1) | Appears in §58 early entries

mahiṣī / Mahiṣī | Mahishi, Saharsa district | Medium (6+) | Eastern Mithilā reference; unusual geographic reach

kaṭaiyā / Kaṭaiyā | Kataia, Madhubani | Medium (4+) | New satellite; appears with Māṇḍar connection

raiṃyāma / Raiṃyām | Raiyam, Sitamarhi area | Medium (7+) | New settlement; Sodarapura linkage

hasaulī / Hasaulī | Hasauli, Sitamarhi | Medium (5+) | Darihara-adjacent; Gaṅgādhara family centre

sudaī / Sudaī | Sudai village, Madhubani | Low (1) | §82 reference; Vāchaspati family

ghaula / Ghaul | Ghaul, Sitamarhi area | Low (1) | §83 Vāchaspati family entry

akuṣī / Akuṣī | Akusi, Madhubani | Low (3) | Ṭakabāla sub-cluster

pharaharā / Pharaharā | Faraha, Darbhanga area | Medium (5+) | Budhavāla sub-cluster; §§84+

rūcaulī / Rūcaulī | Ruchauli, Sitamarhi | Medium (5+) | Karmaharā sub-node; §84 Viśvanātha line

kanholī / Kanhaulī | Kanhaulī, Madhubani | Medium (5+) | Sodarapura pairing; Rāmacandra family

viśāḍhī / Viśāḍhī | Vishadhi, Madhubani | Low (3) | Laxmīdhara mātṛka-cakra entry

bhakharaulī / Bhakhraulī | Bhakharauli, Madhubani | Low (3) | Kujaulī sub-cluster

deśuāla / Deśuāl | Deshual | Low (1) | §85 Deśuāla reference with Vaidika prefix

nāhasa / Nāhas | Nahas village | Medium (4+) | Khauāl sub-cluster; Gaṇeśa lineage

haraḍī / Haraḍī | Haradi, Sakradhi area | Medium (4+) | §§85+ Kṛṣṇasimha families

jamadaulī / Jamadaulī | Jamdauli | Medium (4+) | §124 closing section;
Tejapati entry

maṅgaraunā / Maṅgaurnā | Mangaurna, Madhubani | Low (2) | Hariakha
sub-cluster; Jivanātha line

piparā / Pipara | Pipra village | Low (2) | Scattered; §§88+

maḷiṅgiyā / Maḷiṅgiyā | Malingiya | Low (1) | §83 with Nepal connection
(Maḷiṅgiyā Kujaulī)

bhākuri / Bhākuri | Bhakuri | Low (1) | §86 Cāṇa sub-lineage

gidhavāla / Gidhavāl | Gidhwal | Low (1) | §87 Harikar family

kaṭamā / Kaṭmā | Katma | Low (2) | Hariakha pairing; §§79+

ujāna / Ujāna | Ujan | Low (1) | §87 Dinakar sub-entry

jagaura / Jagaur | Jagaur, Madhubani | Medium (5+) | Māṇḍar sub-cluster;
appearing from §85+

jhaṃjhārapura / Jhañjhārapur | Jhanjharpur, Madhubani (town) | Low (2) |
§109 Dāmodara entry

talhanapura / Talhanpur | Talhanpur | Low (3) | §61 Keśava sub-chain

sulhanī / Sulhanī | Sulhani, Sitamarhi area | Low (2) | §§84, 109 Cāṇa
family entry

murānapura / Murānpur | Muranapur | Low (1) | §87 Śrīhari sub-cluster

ogahī / Oghī | Ogahi | Low (2) | §87 Śubhaṃkara family; Baliyas-adjacent

lohanā / Lohana | Lohana, Saharsa area | Medium (6+) | §§87, 107+
Kṛṣṇātreyā/Maudgalya gotra

paranāma / Paraṇām | Parnam | Low (1) | §119 late entry

kohuā / Kohuā | Kohua | Low (1) | Late section reference

behaṭa / Behaṭ | Behat | Medium (4+) | Karmaharā sub-zone; recurring
§§84+

āhila / Āhila | Ahil | Low (2) | Ravauālā sub-cluster

nāhasavāsī / Nāhas-vāsī | Nahas residents | Low (1) | §84 Bhādagāma-
Jajivāla linkage

patrapuraulī / Patrapurauḷī | Patrapurauli | Low (2) | §85 Viśvanātha sub-
chain

brahmapura ravauāla / Brahmapur-Ravauāl | Brahmapur near Ravauala |
Low (2) | §83 Vanamālī sub-entry

siṃhauḷa / Siṃhaul | Sinhoul | Low (3) | §§88+ Māṇḍar-adjacent

puḍe narauna / Puḍe Naraun | Pude Naraun | Low (4+) | Distinguishes
from regular Naraun entries

dolamānapura / Dolmānpur | Dolmanpur | Low (1) | §§107 Mahānū sub-chain

vadanāma / Vadanāma | Vadanam (variant) | Low (1) | Late section

parayāma / Parayāma | Parayam | Medium (4+) | §§107, 126 Budhavāla sub-cluster

kusaulī / Kusaulī | Kusauli | Low (2) | §§85 Ananta sub-chain

lāhanavāsī / Lāhana-vāsī | Lahana residents | Low (1) | §83 Ajamuna entry

tetarihāra / Teṭarihār | Tetarihar, Madhubani | Low (2) | Sodarapura sub-cluster

2.3 The Rataulī–Darihara Sub-Cluster

A significant new geographic sub-system emerges in pages 66–347 around the Rataulī–Darihara corridor, distinct from the Darihara references in Khaṇḍa 1's first 65 pages. Rataulī in this section appears specifically as 'Rataulī–Darihara' (rataulī dariharā sa~), marking it as a jointly-identified paired node — suggesting a hamlet administratively or genealogically attached to Darihara proper but distinct enough to require separate identification. The Rataulī families connect most frequently through Simaravāḍa (near Janakpur, Nepal), indicating a genealogical corridor that straddles the present-day India–Nepal border.

The Bhauālavāsī entry (p., §83) is especially remarkable: 'vāvūsutā Bhauālavāsī Amarāvati-darihara-sām Rāmka dau' — 'Bābu's sons include [one who is] a Bhauāla-resident [Kathmandu Valley], [others at] Amarāvati [and] Darihara via Rāmka.' This is a direct record of Mithilā Brahmin diaspora reaching the Kathmandu Valley, linking Bhauāl (modern Nepal's former kingdom around Kathmandu) with Darihara in a single genealogical entry.

3. Families and Lineage Chains: What Is Unique

3.1 The Avalamba-Sarasvatī Title: A Unique Scholarly Honorific

Page 1., section §79, preserves one of the most unusual compound titles in the entire Pañjī corpus: 'Mahāmahopādhyāya Hariśvara suto Avalamba-Sarasvatī-dānkit Mahāmahopādhyāya Bateśa Puruṣottamo' — 'The Mahāmahopādhyāya Hariśvara's son [is] the Avalamba-Sarasvatī-marked [i.e. specially designated] Mahāmahopādhyāya Bateśa Puruṣottama.' The compound 'Avalamba-Sarasvatī-dānkit' means literally 'bearing the

stamp/seal of the Sustaining Sarasvatī' — an honorific implying that this scholar was recognized as a support-pillar (avalambā = prop, support) of the goddess of learning. This title is found nowhere else in Khaṇḍa 1 and represents a singular academic designation of the highest order.

The Bateśa Puruṣottama line then produces his son Sarasvatī Rāma — whose very personal name echoes his father's title — who continues to Karmaharā (the dominant village of this section), confirming that the most rarified scholarly honors cluster around the Karmaharā–Darihara–Khaṇḍa triangle.

3.2 The Mahārāja Mādhava Siṃha Royal Entry

Pages 1. and 1.127–1. preserve one of the most extraordinary records in the entire Pañjī corpus: the direct genealogical placement of the Mithilā royal family of Mādhavasimha within the Brahmin genealogical register. This is not merely honorific — it follows the full suta/dau notation grammar and places Mādhavasimha as a factual dau (maternal nephew's descendant) within a specified lineage chain.

Person	Title/Designation	Page/Section	Genealogical Note
mahārāja mādharma siṃha	Mahārāja; 'Vivdhityādi' (various titles)	p.1.119, §109; p.1.127	Sons recorded in full; Khaṇḍabalā as dau-source
bābū prajāpati siṃha	Bābū Prajāpatisingh	p.1.127, §115	Son #1 of Mādhavasimha; (194/09 notation)
bābū dharmapati siṃha	Bābū Dharmapatisingh	p.1.127, §115	Son #2; (279/08 notation)
bābū puṇyapati siṃha	Mithilārāja-Kulabhūṣaṇa Bābū Puṇyapatisingh	p.1.127, §115	Son #3; full royal epithet preserved
bābū ḍolapati siṃha	Bābū Ḍolapatisingh	p.1.127, §115	Son #4; (184/02 notation)
bābū dhanapati siṃha	Bābū Ravatyunāmaka Dhanapatisingh	p.1.127, §115	Son #5; alias 'Ravagat' noted
mahārāja suṃdara	Mithilābhūṣaṇa Mahārāja Sundar	p.1.127, §116	Related royal; sons: Mithilānātha, Mithileśvara Mahārāja Narapati
mahārāja nara pati	Vivdhityādi Mahārāja; 'Mithileśvara'	p.1.127, §116	Full title-cluster preserved; sons include Rāghava Siṃha, Śivanandana Siṃha, Raghunanana Siṃha, Mahogra-Pratā-Dharmakarmāvatāra-Sarvsvadātā Bābū Nandanandana Siṃha, Ṭh. Thākura Siṃha alias Rudra Pati Siṃha
rājā bhagīratha	Rājā Bhagīratha	p.1.119	Father's chain: Mahārāja Samara Siṃha → Rājā Bhagīratha → Rāya Raghu Deva

mahārāja samara siṃha | Mahārāja Samara Siṃha | p.1.121 | Linked to 'Samasta Prakriyā Mahārāja Kṛṣṇadeva-Rūdranārāyaṇa-dānkit-Haridevo'

mahārāja kṛṣṇadeva rūdranārāyaṇa | Title: Samasta-Prakriyā-Mahārāja | p.1.121 | Compound ruler-title; Rūdranārāyaṇa as regnal name

mahārāja lakṣmīnārāyaṇa | Mahārāja Lakṣmīnārāyaṇa | p.1.135 | Late entry in §115 continuation; sons: Rūdranārāyaṇa, Brajanārāyaṇa, Naranārāyaṇa, Ainapal Nārāyaṇa, Tegabahādura, Miharūpanātha, Bābu Ujvala Govinda

mahārāja phatehanārāyaṇa | Mahārāja Fateh Nārāyaṇa | p.1.135 | Son of Rūdranārāyaṇa

kalikarnāvatāra rājā līlānanda siṃha | Kalikarnāvatāra Rāja Līlānanda Siṃha | p.1.171+ | Highest royal-philosophical title; 'Epoch-Ear-Incarnate'

mahārāja vedānanda siṃha | Mahārāja Vedānanda Siṃha | p.1.171 | Late chapter; father of Kalikarnāvatāra

The compound title 'Samasta-Prakriyā-Virājamān Mahārājādhirāja Mādhava Siṃha' that appears in the full title entry (p..) translates as 'He who is resplendent with all royal dignities, Great King of Kings Mādhava Siṃha' — a claim to supremacy over all Mithilā. The Pañjī's recording of this title within a Brahmin genealogical register constitutes a unique legitimization document: by placing the royal family within the brahminical dau-network, the Pañjīkar was asserting the Mithilārāja's ritual integration with the highest scholarly families.

3.3 New Scholarly Title Compounds

Pages 66–347 introduce several scholarly title compounds not found in the first 65 pages. These represent the full spectrum of academic recognition in late-medieval Mithilā:

Title Compound	Transliteration	Page/Section	Meaning/Significance
avalamba sarasvatī dānkita	Avalamba-Sarasvatī-dānkit	p.1.89, §79	Seal of the Sustaining Sarasvatī — unique highest honor
jyotirvimaya / jyotirvida	Jyotirvimaya / Jyotirvid	p.1.73, §37 onwards	Astrological scholar-expert; calendar-science designation
kavindra dānkita	Kavindra-dānkit	p.1.131, §108	Poet-laureate seal; royal designation of chief poet
llavakāra dānkita	Llavakāra-dānkit	p.1.93 §83	Administrative-scholar seal; llava = administrative division officer

- bupī śrutidhara dāṅkita | Bupī-Śrutīdhara-dāṅkit | p.1.91 | Dual title: intelligence + oral-tradition bearer
- sarvajña garība / sarvajñāna garība | Sarvajña Garība | p.1.125, §109 | 'The All-knowing Pauper' — remarkable paradoxical epithet
- mahottara pratāpurūṣottama | Mahottara Pratāpuruṣottama | p.1.121, §109 | Compound royal-scholarly: 'Most eminent man of highest glory'
- dharmāntrādā / dhammāghakaraṇīka | Dharmāntrādā / Dharmādhikaraṇīka | p.1.73, multiple | Judicial-religious officer designation
- cāturmāsika manasabadāra hajārī | Cāturmāsika Mansabdār Hazārī | p.1.171 §127 | Four-month military commander of 1000 — Mughal-era title integrated into Pañjī
- paurāṇika | Paurāṇika | Multiple | Specialist in the Purāṇas — distinct from Naiyāyika lineages
- vaiyākaraṇa | Vaiyākaraṇa | Multiple pp. | Sanskrit grammarian designation — appears as personal title
- vaidika | Vaidika | Multiple pp. | Vedic-ritual specialist — appears as prefix to personal names
- maho. mādhyāya / ma.ma.u. | Mahopādhyāya / M.M.U. | Throughout | Standard abbreviated forms; 34+ instances in this section alone
- agnihotrika ma.ma.u. | Agnihotrika M.M.U. | p.1.171 §127 | Agnihotra-performing Mahāmahopādhyāya — rare dual designation
- aniruddha / anirūi | Aniruddha — as a personal m.m. title | Multiple | Name used as quasi-title for a specific scholar in Sodarapura line

The Sarvajña Garība Entry

The epithet 'Sarvajña Garība' — literally 'All-Knowing Pauper' — is one of the most striking personal designations in the corpus. Appearing at p. as a dau-source ('Pāli saṃ Sarvajñāna Garība dau'), the name encodes a paradox familiar in Indian philosophical traditions: the scholar who possesses omniscient knowledge but renounces all material wealth. The name itself has been absorbed into the genealogical system as a family identifier, suggesting that an ancestor's spiritual achievement was so distinctive that it became the family's genealogical calling-card for subsequent generations.

3.4 The Cāturmāsika Mansabdār Hazārī Entry

Page 1., section §127, preserves a remarkable title-cluster that signals the encounter between the Pañjī's Brahmin genealogical system and the Mughal

administrative apparatus: 'Mahādāra Devānanda suta Cāturmāsika-Mansabdār-Hazārī Rāmānanda Caudharī Māniknandana' — 'Generous Devānanda's son: the Four-Month Commander-of-a-Thousand Rāmānanda Caudhary Māniknandana.' The 'Mansabdār Hazārī' (commander of 1000 troops in the Mughal mansab system) is integrated seamlessly into the Pañjī's suta-chain notation, demonstrating that by the time this entry was recorded, Mughal administrative titles had been absorbed into Mithilā's genealogical legitimation apparatus. The addition of 'Cāturmāsika' (four-monthly, possibly indicating seasonal administrative appointment or ceremonial frequency) further refines the entry's administrative-historical value.

This family's genealogy continues to produce 'Rāja Dulārasimha Bābu Ekalāla Simha alias Tejānanda Simha' and eventually 'Mahārāja Vedānanda Simha' whose son 'Kalikarnāvatāra Rāja Līlānanda Simha Bahādur' receives the Khalsa-era Rajput title 'Bahādur' — tracing the family's trajectory from Mughal mansabdār through late-Mughal to Rajput-styled local kingship within a single genealogical chain spanning perhaps six to eight generations.

3.5 The Mādhavasimha Royal Sub-Cluster: Sons Recorded

One of the most important genealogical records in pages 66–347 is the complete listing of Mādhavasimha's sons (p., §115–116). Section §115 records: 'Vivdhityādi Mahārāja Mādhavasimha suto Bābu Ramāpati Simha' followed by a complete list of sons with their sibling-rank notation codes, unusual for royal entries which normally appear only in summary form in the Pañjī.

Section §116 then records a further royal lineage culminating with 'Mithilābhūṣaṇa Mahārāja Sundar suto Mithilānātha Mithileśvara Mahārāja Narapati' — placing both the 'Sundar' branch and the 'Mādhavasimha' branch as distinct sons of a common ancestor in the Khaṇḍabalā dau-network. The Mithilā royal family is thus placed within the Brahmin Pañjī as legitimate members of the dau-bīji network, their kingship validated by genealogical integration with the very families that provided them religious legitimacy.

3.6 The Bhramar Mātṛka-Cakra and Its Scholar Chain

Page 1., §36 records the completion of the 'Bhramar mātṛka-cakra' — a cycle named after the ancestor Bhramar. What makes this cycle unique is that it is explicitly linked to the Belauṇca village entry for a Mahāmahopādhyāya line, and the Bhramar figure is identified as having been the ancestor of the

'Jyotirvimay Bāchā' who bears the rare astrological-scholar title. This creates a documented three-generation chain linking a named ancestor (Bhramar) to a named scholarly title (Jyotirvimay) to a named village (Belauñca) — the kind of precision that makes the Pañjī an unparalleled historical source.

4. Mātṛkā-Cakra Completions in Pages 66–347

The mātṛkā-cakra ('maternal cycle completion') formula 'evaṃ X mātṛka-cakraṃ' appears at least 16 times in the extracted right-column text, marking the completion of genealogical circuits. Each completion certifies the social legitimacy of the connected family network. The following mātṛkā-cakras are explicitly completed in pages 66–347 (section §§58–127+):

Mātṛkā-Cakra Name	Anchor Figure	Page Reference	Connected Villages
kamalā pati mātṛka cakra	Kamalāpati	p.1.68 (§58)	Darihara, Māṇḍar, Belauñca
gaṃga mātṛka cakra	Gaṃga / Miśra Gaṃga	p.1.68 (§58)	Sakhudī-Sakrāḍhī, Sodarapura, Karmaharā
mahinātha mātṛka cakra	Miśra Mahināthu	p.1.69 (§58)	Darihara, Karmaharā, Māṇḍar
kulapati mātṛka cakra	Kulapati	p.1.69 (§58)	Alaya, Māṇḍar, Belauñca, Darihara
bhramara mātṛka cakra	Bhumar / Bhramar	p.1.73 (§36)	Belauñca, Sodarapura, Māṇḍar
harideva mātṛka cakra	Harideva	p.1.70 (§61)	Ghusauta, Sodarapura, Pāli
mahī mātṛka cakra	Mahī	p.1.69 (§59)	Jomkī, Sarisa, Jajivāla
vaṃśī mātṛka cakra	Vaṃśī	p.1.69	Oinīsā, Pāli, Sodarapura
vīra mātṛka cakra	Vīra	p.1.69 (§61)	Sodarapura, Pāli, Māṇḍar
dhīra mātṛka cakra	Dhīra	p.1.91 (§87)	Sarisa, Karmaharā, Darihara, Taisaumta
raghunātha mātṛka cakra	Miśra Raghunātha	p.1.73 (§36–37)	Darihara, Belauñca, Māṇḍar, Sodarapura
lakṣmīdhara mātṛka cakra	Lakṣmīdhara	p.1.91 (§87)	Karmaharā, Simrī, Viśāḍhī, Lohana
meheśa mātṛka cakra	Mahesh (Mahiṣī)	p.1.89 (§77)	Mahiṣī, Sodarapura, Māṇḍar

rāma mātṛka cakra		Rāma		p.1.89 (§80)		Darihara, Karmaharā, Sodarapura, Pāli
chabanū mātṛka cakra		Chhabanu / Chhabanū		p.1.91 (§81)		Darihara, Sodarapura, Khauāla
līlānātha mātṛka cakra		Līlānātha		p.1.175 (late)		Khaṇḍabalā, Sodarapura, Māṇḍar
matinātha mātṛka cakra		Matinātha		p.1.89 (§79)		Sodarapura, Sarisa, Māṇḍar, Karmaharā
bhikhiyā mātṛka cakra		Bhikhiyā / Bhirivayā		p.1.95 (§85)		Kujaulī, Sihaul, Māṇḍar

5. Marriage Colophons: Dated Contemporary Records

One of the most remarkable features of pages 66–347 — unique in the Pañjī corpus as far as can be determined — is the insertion of dated marriage records (vivāha-prakarana) within the genealogical chains. These colophons, embedded mid-text, record specific marriages with calendrical dates expressed in both traditional Pañcāṅga notation (tithi, vara, pakṣa, māsa) and Common Era dates (sometimes with day names in English or numerical DD.MM.YYYY format). They transform a historical manuscript into a living record that bridges the 12th century origin of the Pañjī tradition to the year 2004 CE.

Groom Name		Traditional Date		CE Date		Page		Notes
ṭha. candramaṇi / Ṭh. Candramaṇi		Mārgaśīrṣa Śukla Pūrṇimā, Kuja (Tuesday)		09.12.2003		p.1.119, §109		First dated colophon; Vighnadeśa alias Tejamani

[scholarly lineage] complete

The use of English day-names ('Tuesday', 'Monday Morning') alongside Sanskrit tithi notation in documents dated 2003–2004 is linguistically extraordinary. It reflects the Pañjīkar's pragmatic adaptation: the traditional calendar (tithi-based) remained the formal genealogical record, but English day-names were added as a concession to the solar-calendar literacy of the families being registered. This is the Pañjī tradition not fossilising but actively evolving in real time.

The closing formula for the Mahāmahopādhyāya Bhagīratha colophon reads: 'Ete Mahāmahopādhyāya Bhagīratha-prasiddha Medhā-santati samāptāḥ | Māgha Śukla Trayodaśyāṃ Kuje || 03..2004' — 'The lineage of the renowned Mahāmahopādhyāya Bhagīratha [thus] ends. [Dated:] Māgha Bright Thirteenth, Tuesday, 03..2004.' This is both a genealogical closure and a dated manuscript colophon, giving the exact date of the Panjīkar's work — February 3, 2004.

6. Notable Individual Entries

6.1 The 'Kavi Vidyāpati' Entry

Page 1., section §87, preserves a late but explicit entry: 'devanātha suto Kavi Vidyāpati Cahī sodarapura saṃ jagannātha dau' — 'Devanātha's son: the poet Vidyāpati [placed at] Cahī via Sodarapura through Jagannātha.' This is distinct from the Khaṇḍa 1 §4 placement in pages 1–65 and represents a second Pañjī placement of Vidyāpati within the genealogical matrix, this time at a different village (Cahī) and with a different dau-chain, suggesting either that the Panjīkar maintained two parallel records for the poet, or that two members of the same family carried the name.

6.2 The Ṭhākura Prefix Families

A distinctive feature of pages 66–347 is the proliferation of 'Ṭhākura' (ṭha. / ṭhao) prefixed individuals — a designation for persons of high Kṣatriya or upper-Brahmin status. In this section, 'Ṭhākura' is used not merely as a respectful title but as a formal genealogical prefix indicating that the individual concerned has a confirmed marriage-record (vivāha-prakaraṇa) appended to his entry. The Ṭhākura-prefix persons whose marriages are recorded constitute a distinct sub-register within the Pañjī — a marriage registry embedded in the genealogical text — with each Ṭhākura entry concluded by the formula 'evaṃ Ṭh. X vivāha:' followed by a date.

6.3 The Pām Prefix — Scholar-Family Marker

The prefix 'Pām' (pā~) or 'Pāñca' appears consistently before names of individuals from specific scholarly families in pages 66–347. Examples: 'Pām Ratidhara', 'Pām Keśava', 'Pām Ramadeva', 'Pām Hariśvara'. This prefix — short for Pañcāyatī or perhaps Pañca-śrotriya — indicates that the family holds the highest Brahmin ranking (the 'Pañca' or five-fold śrotriya

classification) within the Mithilā caste hierarchy. These are the families from whom Mahāmahopādhyāya title-holders most frequently emerge.

6.4 The Bhauālavāsī — Nepal Diaspora

As noted in Section 2, the Bhauālavāsī entry (p.) is the single most geographically distant reference in the entire Pañjī. 'Bhauāl' (bhauāla) identifies the Bagmati corridor of present-day Nepal — the valley region around Kathmandu. The entry documents a son of the Bābu family who had settled in this region, while his brothers are placed at Amarāvātī (a locality name) and Darihara. The Pañjīkar's ability to track this diaspora and incorporate it into the official genealogical register demonstrates the remarkable organisational reach of the Pañjī system.

6.5 The Vaidika Sub-Lineage

A substantial number of individuals in pages 66–347 bear the prefix 'Vaidika' (vaidika), indicating Vedic-ritual specialist status. Unlike 'Mahāmahopādhyāya' which denotes philosophical-scholarly excellence, 'Vaidika' marks families whose primary hereditary function was the performance of Vedic rituals. Pages 1.119–1. contain a particularly dense cluster: 'Vaidika Yudanātha', 'Vaidika Viśvambhara', 'Vaidika Jīvanātha', 'Vaidika Vanmālī', 'Vaidika Sarvamjñāna'. The Vaidika families form a parallel sub-system to the Naiyāyika (logic-philosophy) families, both operating within the same genealogical matrix but traceable through different title traditions.

6.6 Rāya and Rāyata Families

The title 'Rāya' (rāya) — a revenue-officer designation deriving from Persian 'Rāy' (regional officer/accountant) — appears frequently as a prefix in pages 66–347, particularly in contexts linking Brahmin families to Mughal and post-Mughal administrative service. Notable examples include: 'Rāya Uttama Nārāyaṇa', 'Rāya Śaṃkara', 'Rāya Hemānagada', 'Rāya Naya', 'Rāya Candra Nārāyaṇa'. These families occupy an intermediate position in the Mithilā social hierarchy — between the purely scholarly Mahāmahopādhyāya families and the ruling Kṣatriya lineages — and their incorporation into the Pañjī confirms that the register tracked administrative-economic status alongside ritual-scholarly credentials.

7. Quantitative Analysis

Metric | Value | Notes

Total pages analysed | 110 (document pp. 131–347) | Right-column (Kaithi-Devanagari) used

Sections documented | §58 through §127+ (non-consecutive) | 22 numbered sections visible; gaps indicate other Khaṇḍa files

Māṭrkā-cakra completions | 18 named cycles | More than Khaṇḍa 1 §1–57 in absolute count

Marriage colophon records | 24+ vivāha entries | With CE dates 2003–2004; unprecedented in Pañjī tradition

New villages (not in pages 1–65) | 54 distinct localities | Of which 12 appear with medium–high frequency

Karmaharā occurrences | 292 | Single highest-frequency village in entire corpus

Mahāmahopādhyāya title (full + abbrev.) | 48+ | Including 14 full spellings, 34+ abbreviated

Ṭhākura-prefix marriage records | 20+ | Distinct sub-register embedded in genealogy

Royal entries (Mahārāja title) | 41 | Including full Mādhavasimha son-listing

Nepal-linked entries | 3 distinct references | Bhauālavāsī, Simaravād, Maliṅgiyā Kujaulī

Vaidika-prefix individuals | 15+ | Distinct sub-lineage tracking ritual specialists

Rāya-prefix individuals | 12+ | Mughal-era revenue-officer families

Unique title compounds (new to this section) | 10+ | Avalamba-Sarasvatī, Sarvajña Garība, Cāturmāsika Mansabdār, etc.

Dated colophons with CE year 2003–2004 | 8 confirmed dates | Real-time records within ancient genealogical frame

Pām-prefix individuals | 20+ | Highest Brahmin status marker

Estimated named individuals | 4,000+ | Within suta/dau chains across 110 pages

Pauḍā section (§178) anomaly | Section §178 appears | Far beyond §127; suggests massive corpus gap or numbering from different volume

8. Synthesis: What Pages 66–347 Add to the Scholarly Record

8.1 The Temporal Collapse

The most intellectually significant feature of pages 66–347 is what may be called the 'temporal collapse' — the point at which an ancient genealogical register, rooted in the 12th century, suddenly admits dated entries from 2003 and 2004. This is not merely a curiosity: it is documentary evidence that the Pañjī tradition remained not only alive but juridically active until at least 2004. The marriage colophons embedded in this section were presumably inserted by the same Panjīkar who was collating the ancient chains, meaning that the Panjīkar's office was still being consulted for matrimonial validation in the 21st century — a living institutional continuity of over 800 years.

8.2 Karmaharā as Analytical Key

The emergence of Karmaharā as the highest-frequency reference village in this section — appearing 292 times against Māṇḍar's 174 in Khaṇḍa 1 pages 1–65 — is not merely a quantitative finding. It reflects a genuine historical shift in Mithilā's scholarly-familial geography: by the period that this section of the Pañjī was crystallising (probably 17th–18th century for the core chains, with 21st-century additions), Karmaharā had become the dominant Brahmin intellectual centre of the eastern Tirhut region, perhaps at the expense of the older Māṇḍar–Sarisa–Khauāla triangle documented in the first section.

8.3 The Royal Integration

The detailed recording of Mādhavasīmha's sons and the Mithilārāja genealogy within a Brahmin genealogical register represents the Pañjī at its most politically significant. By placing the ruling family within the dau-bīji matrix, the Panjīkar was performing an act of social constitution: declaring that the king's legitimacy was not merely military or hereditary but genealogically certified by the same system that certified every Brahmin family's social status. This was the Pañjī's deepest political function — and pages 66–347 preserve it in its most explicit surviving form.

8.4 The Nepal Corridor

The three Nepal-linked entries in pages 66–347 — Bhauālavāsī (Kathmandu Valley diaspora), Simaravād (Janakpur corridor), and Malingiyā Kujaulī (Malingiya near Nepal border) — confirm what historical scholarship has long suspected: the Mithilā Brahmin community was not bounded by political borders. The Pañjī's tracking of diaspora families into the Kathmandu Valley demonstrates an organisational reach that transcended the Gorakhā–Mithilā border long before that border was formalised. These entries are primary sources for the history of Brahmin migration from Tirhut into Nepal.

8.5 The Script Continuity

The bilingual format maintained throughout pages 66–347 — Mithilakshara alongside Kaithi-Devanagari — is itself a political statement. The Mithilakshara script, increasingly endangered, is here preserved alongside its transliteration, ensuring that the genealogical content could be read by both the traditional Pañjīkar community (Mithilakshara-literate) and the broader Devanagari-literate population. The Videha digitisation project, by encoding this section in searchable text, extends this transliteration project into the digital era, potentially making the Pañjī's records accessible to genealogical researchers worldwide for the first time.

9. Index of Key Entries and Cross-References

9.1 Personal Names of Special Interest

Name | Title/Role | Page/§ | Mūla/Village Connection

kamalā pati / Kamalāpati | Mātrkā-cakra anchor | p.1.68, §58 | Darihara, Māṇḍar

avalamba sarasvatī dānkita baṭeśa / Bateśa | Unique highest scholarly title | p.1.89, §79 | Ghusauta, Karmaharā

sarasvatī rāma / Sarasvatī Rāma | Son of Bateśa; scholar | p.1.89, §79 | Karmaharā

mahārāja mādharma siṃha / Mādharma Siṃha | Mithilā Mahārāja | p.1.119–1.127 | Khaṇḍabalā dau-anchor

puṇyapati siṃha / Puṇyapatisiṃha | Mithilārāja-Kulabhūṣaṇa | p.1.127, §115 | Son of Mādhavasīṃha

- mahārāja nara pati / Narapati | Mithileśvara | p.1.127, §116 | Royal; Nandanandana Siṃha sons
- kalikarṇāvatāra līlānanda siṃha | Philosopher-king title | p.1.171+ | Mahārāja Vedānanda's son
- manasabadāra hajārī ramānanda / Rāmānanda | Mughal Mansabdār Hazārī | p.1.171, §127 | Cāturmāsika; Amravātī, Darihara
- sarvajñāna garība / Sarvajñāna Garība | The All-Knowing Pauper (title) | p.1.125 | Pāli dau-source
- kavi vidyāpati / Kavi Vidyāpati | Poet; second Pañjī placement | p.1.91, §87 | Cahī, Sodarapura
- jyotiprvida bāchā / Jyotiprvid Bāchā | Astrological scholar-title | p.1.73 | Belauñca; Bhramar cakra
- mahāmaho. prītinātha / Prītinātha | M.M.U.; major scholar | p.1.73, §36–37 | Sodarapura, Darihara
- maho. raghunātha (jyotirvidyā yadunātha + kavindra) | Compound title holder | p.1.79, §79 | Multiple
- ma.ma. bandhu / M.M. Bandhu | Recurring anchor title | Multiple pages | Sodarapura-linked
- vaidika yadunātha / Vaidika Yadunātha | Vaidika sub-lineage | p.1.93, §83 | Khāṅguḍ, Sarisa
- ma.ma.u. rūnātha / Rūnātha | Late Khaṇḍa scholar | p.1.131, §108 | Khaṇḍabalā anchor
- rāya candranārāyaṇa / Candra Nārāyaṇa | Revenue-officer family | p.1.135 | Sūragana; sons = royal names
- rājā bhagīratha / Rāja Bhagīratha | Royal; Samara Siṃha son | p.1.119 | Sodarapura dau
- maho. sīnā / Mahopādhyāya Sīnā | Major scholar; extended chain | p.1.131, §108 | M.M. Kṛṣṇasiṃha lineage
- ma.ma. śubhaṃkara / Śubhaṃkara | Compound title; Mahottar Pratāpuruṣottama | p.1.121, §109 | Darihara, Karmaharā

10. Concluding Note

Pages 66–347 of the Panji Prabandha of Mithila — covering Khaṇḍa 1's continuation from §58 onwards — constitute a qualitative advance over the foundational section in pages 1–65. Where the first section established the grammar and principal nodes of the genealogical system, this section demonstrates its full operational complexity: new villages entering the

matrix, new scholarly titles being coined and recorded, royal families being incorporated, Nepal-linked diaspora being tracked, and — most astonishingly — real-time marriage events from 2003 and 2004 being inserted into an 800-year-old genealogical tradition without interruption or rupture.

The 292 appearances of Karmaharā alone justify the characterisation of this section as a distinct geographical epoch within the Pañjī: not the 12th-century Halāyudha-anchored world of Gaṅgolī and Māṇḍar, but the fully matured 17th–18th century (and ongoing) world of the eastern Tirhut intellectual heartland, where the Karmaharā–Darihara–Khauāla triangle had become the new centre of Maithil scholarly gravity.

The marriage colophons — 24 or more distinct records with CE dates — are without parallel in Indian genealogical manuscript traditions. They demonstrate that the Pañjī was not a historical archive but a juridical instrument: a living constitution of Maithil social order, consulted and updated in real time by families who continued to regard genealogical certification as the foundation of social legitimacy. The Videha digitisation project, by making this section available in searchable Devanagari, has transformed a closed institutional document into an open scholarly resource — completing a process that the Panjīkar tradition began in Mithilakshara eight centuries ago.

PDF source: Final_348-690.pdf | 160 pages | Document pages 348–690

Research report prepared for Videha Parallel Literature Movement | May 2026

1. Overview: Pages 348–690 in the Panji Corpus

The PDF Final_348-690.pdf spans 160 pages of the Panji Prabandha of Mithila, covering document pages 348 through 690. This is the largest of the three volumes analysed, and it represents the fullest flowering of the Pañjī tradition — genealogical density at its maximum, geographical spread at its widest, and the encounter with Indian modernity at its most vivid. Where pages 1–65 established the 12th-century genealogical grammar and pages 66–347 showed that grammar under expansion, pages 348–690 show it under adaptation: a system designed for pre-modern Brahmin society absorbing

railways, universities, police hierarchies, income tax offices, inter-religious marriages in Sweden, and British imperial honours.

The dominant geographical shift from previous volumes is striking: Sodarapura (sodara ura / sodara ura) emerges as the single highest-frequency village in this volume with 853 appearances, overtaking Karmaharā (580) and Māṇḍar (621). This signals a new geographic gravity centre — Sodarapura appears to function as the primary administrative node for the eastern Tirhut Brahmin population recorded in this section. Darihara (558), Khauāla (361), and Narauna (376) form the secondary cluster, with Hariakha (331), Khaṇḍabalā (326), and Valiyāsa (291) completing the dense inner network.

The 160 pages contain 41 vivāha (marriage) records — significantly more per page than previous volumes — and 91 Mahārāja-titled entries, reflecting a royal lineage that reaches extraordinary complexity in the Mādhavasimha, Chhatrasimha, Rāmeśvarasimha, and Kāmeśvarasimha dynastic branches. The Mahāmahopādhyāya abbreviation (mao mao) appears 116 times, confirming sustained scholarly production even as modernising pressures reshape the vocabulary of achievement.

2. Geographical Coverage: New Localities and Village Frequency Analysis

2.1 Village Frequency Rankings — A Major Geographical Shift

The following frequency table demonstrates how the centre of genealogical gravity has shifted across the three volumes of the Panji Prabandha:

Village (Pañjī form)	Modern ID	Freq. pp.348–690	Freq. pp.66–347	Significance of Shift
sodara ura / Sodarapura	Sudarpur, Sitamarhi-Madhubani border	853	Low	New dominant node; emerges as primary administrative centre
māṇḍara / Māṇḍar	Mandar, Muzaffarpur	621	Moderate	Returns to high frequency; dau-source for royal lineages
karamahā / Karmaharā	Karmahe, Madhubani	580	292 (dominant)	Still very high but yields top position
darihara / Darihara	Darihara, Sitamarhi	558	High	Sustained prominence; Ṭhākura family hub

narauna / Narauna		Narona, Sitamarhi		376		High		Gateway village for Nepal-corridor families
khauāla / Khauāla		Khavar, Madhubani		361		149 (pp.1–65)		Steady presence; Kādyā gotra centre
hariama / Hariakha		Hariakha, Sitamarhi		331		High		New prominence; appears as dau/bīji source
khaṇḍabalā / Khaṇḍabalā		Khandabla, Sitamarhi		326		High		Sustained; Ṭhākura title families' hub
valiyāsa / Valiyāsa		Valiayas, Madhubani		291		Moderate		New prominence; Jyotirmaya scholar families
sakarāḍhī / Sakrāḍhī		Sakradhi, Madhubani		259		100+ (pp.1–65)		Sustained prominence
sarisaba / Sarisa		Sarisa, Sitamarhi		231		150+ (pp.1–65)		Slightly declining but still major
belau~ca / Belaūṇca		Belauncha, Sitamarhi		197		High		Sustained; Bhāradvāja families
kujaulī / Kujaulī		Kujoli, Madhubani		154		88+ (pp.1–65)		Steady; Kātyāyana scholars
budhavāla / Budhavāla		Budhwal		145		High		Important dau source; Śāṇḍilya gotra
alaya / Alaya		Alai		143		Moderate		New prominence
jājīvāla / Jājīvāla		Jajwal		102		Moderate		Bhāradvāja gotra families
ghusauta / Ghusauta		Ghusaut		94		Moderate		Maudgalya-adjacent gotra
baherāḍhī / Baherāḍhī		Baheradi		79		High		Vatsa gotra families
oini / Oini		Oini		12		Rare		Kādyā gotra home village; Nānyadeva connection
laravāī / Lravāī		Larvai		10		Low		New appearance; Valiyāsa sub-cluster
ucita / Ucita		Uchit		12		Low		New mūla-grāma entry
jālaya / Jālaya		Jalay, Saharsa		37		Rare		New prominence; royal family dau-source
tataila / Tatail		Tatail		6		Not present		New entry; Sakrāḍhī sub-cluster
digho / Digho		Digho		57		Low		New prominence; Kaunḍilya families
suragana / Suragan		Suragan		46		Low		New prominence; Rāya family connections

2.2 Newly Documented Localities (Not in Pages 1–347)

Pages 348–690 introduce several localities not previously documented in the corpus. These reflect geographical expansion or families moving into the genealogical register for the first time:

Locality | Modern Identification | Significance

kolit̥ṭā / Koliṭṭa | Calcutta (Kolkata) | Diaspora entry: families placed at 'Koliṭṭā Pāli' — confirmed urban migration to Calcutta, documented within the genealogical matrix

kaṭihāra / Kaṭihār | Katihar, Bihar (dist. HQ) | 'Rāja Rāmacandra (Kaṭihāra)' — family identified by their base at Katihar town, a major junction city; unique district-HQ designation

svīḍana / Svīḍana | Sweden, Europe | Extraordinary: 'Bābu Khaḍagapati Siṃha sutā Svīḍana deśe antadhārmika vivāha:' — a son of Khaḍagapati Singh recorded as having performed an inter-faith marriage in Sweden

sandahapura / Sandahpur | Sandahpur | New mūla reference; Valiyāsa sub-cluster

parasarama / Parasrama | Parsarama | New entry; Saragana pairing

haraḍī / Haraḍī | Haradi, Saharsa area | Sakrāḍhī sub-cluster; 'Vaiyākaraṇa Kṛṣṇapati dau' marker

allāpara / Allāpar | Allapur | Oinīsā pairing; Kāḍya gotra families

sugaunā oini / Sugaunā Oini | Sugauna near Oini | Paired locality; royal family dau-source

rohāḍa / Rohāḍa | Rohad | Kṛṣṇātreyā families; unusual geographic reference

nānyapura / Nānyapura | Nānyapura (Nānyadeva's capital) | Historical reference to the Karnāṭa royal capital; connected to Oinīsā cluster

vehaṭa / Vehaṭa | Vekat | Karmaharā sub-zone; Kṛṣṇadeva family

baṛavāḍa / Baḍavāḍ | Badvad | Late entry; Bhādagāma-adjacent

kacharā / Kachrā | Kachra | Śāṇḍilya-gotra families; new mūla reference

ujoṛā / Ujoḍā | Ujoda | Late volume entry; Ekāhara sub-cluster

belasāma / Belasāma | Belasam, near Budhval | New paired locality with Budhavāla

beharāvāsī / Behrā-vāsī | Residents of Behra | 'Beharāvāsī satlakḥā saṃ' — distinct from Beherāḍhī

rakhavārī / Rakhavārī | Rakhwari | Hariyam sub-cluster; new prominence

pisaulī / Pisaulī | Pisauli | New entry; Khauāla sub-cluster

3. Notable Families and Lineage Chains

3.1 The Royal Genealogical Complex: Mādhavasīmha to Kāmeśvarasīmha

Pages 348–690 contain the most elaborate royal genealogy in the entire Pañjī corpus. The Mithilā royal family, first introduced in pages 66–347, here reaches its full documented complexity across multiple generations and multiple marriage records. The central figure is Mahārāja Mādhava Sīmha, whose descendants are tracked through four distinct marriage events (chaturtha vivāha = fourth marriage) and whose sons, grandsons, and great-grandsons span military, administrative, and scholarly careers in both traditional and colonial frameworks.

Royal Figure | Title/Designation | Section | Distinguishing Record

mahārājā mādharma sīmha / Mādhavasīmha | Vivdhityādi Mahārāja; multiple sons | pp.348–370, §§109–116 | Four marriages documented (caturtha vivāha); sons include Kumar Kṛṣṇasīmha, Govindasīmha

mahārājā bahādura chatra sīmha / Chatrasīmha Bahādur | Mahārāja Bahādur | pp.560–566 | Son of Mādhavasīmha; distinct lineage branch; son Bābu Vāsudeva Sīmha

mahārāja bahādura rāmeśvara sīmha / Rāmeśvarasīmha | Vivdhityādi Mahārāja Bahādur | p.566 | Full title preserved; son = Kāmeśvarasīmha

mahārājādhirāja bahādura kāmēśvara sīmha / Kāmēśvarasīmha | K.C.I.E. Litt.; Mahārājādhirāja Bahādur | p.566 | Imperial British honour K.C.I.E. (Knight Commander of Indian Empire) + Litt. (literary distinction) recorded; second marriage documented

mahārāja kumāra viśveśvara sīmha / Viśveśvarasīmha Bahādur | Mahārāja Kumāra | p.566 | Son of Kāmēśvarasīmha; Taraunī-Karmaharā dau-source rājā vijaya govinda sīmha / Vijaya-Govinda Sīmha | Rāja; (200/08 notation) | p.396 | Separate royal branch; placed via Pālī–Nandipati dau

mahārāja maheśvara sīmha / Maheśvarasīmha | Mahārāja | p.403 | Sons: Samasta-prayādi Mahārājādhirāja Lakṣmeśvara Sīmha, Mahārāja Rāmeśvara Sīmha

mahārājādhirāja lakṣmeśvara sīmha / Lakṣmeśvarasīmha | Samasta-prayādi Mahārājādhirāja | p.403 | Complete royal title preserved; sons documented via Kujaulī dau

mahārānī / Mahārānī Samara Siṃha | Mahārāja | p.389 | Connected to Suragana-Rāya Rūdranārāyaṇa line; Kṛṣṇadeva-Rūdranārāyaṇadānkit entry
ṭha. giradhārī siṃha / Ṭh. Girdhārī Siṃha | Six marriages documented |
pp.249–251 | Extraordinary: 6 vivāha colophons for single individual; dated
Caitra Kṛṣṇa Dvādaśī for 2nd

bābū khaḍgapati siṃha / Bābu Khaḍgapati Siṃha | Son married in Sweden
| p.286 | Svīḍana deśe antadhārmika vivāha — Sweden inter-faith marriage
recorded in Pañjī

ṭha. ayodhyānātha siṃha 'baṃgālī' / Ṭh. Ayodhyānātha Siṃha | Income Tax
Commissioner son | p.496 | Son Āśutoṣa Siṃha listed as 'Income Tax
Comm' within genealogical chain

bhagavata nārāyaṇa / Bhagavata Nārāyaṇa | DIG Police grandson | p.499 |
Grandson Brajamohana: 'D.I.G. (Police)' — Deputy Inspector General of
Police

ṭha. mohana siṃha / Ṭh. Mohana Siṃha | Mādhavasīṃha branch | p.484 |
Sons: Jaya Nārāyaṇa Siṃha, Rṣi Nārāyaṇa Siṃha, Prabhuta Siṃha,
Ātmūnārāyaṇa Siṃha, Dharuna Siṃha, Dvāparkānātha Siṃha (6 sons fully
named)

The K.C.I.E. Entry: British Imperial Honours in the Pañjī

The entry for Mahārājādhīrāja Kāmeśvara Siṃha (page 566) is the only instance in all three volumes where a British imperial honour is recorded within the genealogical matrix. 'Vivdhityādi Mahārāja Bahādur Kāmeśvara Siṃha (K.C.I.E. Litt.)' — the parenthetical notation K.C.I.E. (Knight Commander of the Indian Empire) alongside 'Litt.' (Doctor of Letters, honorary) places this ruler at the intersection of Mithilā kingship and British colonial recognition. The Pañjī records this not as a biographical footnote but within the standard suta-chain notation, treating imperial honours as equivalent to the traditional Vivdhityādi and Mahārājādhīrāja designations. This is the genealogical system absorbing colonial modernity without rupture.

The Sweden Inter-Faith Marriage

Page 286, within the Bābu Khaḍgapati Siṃha chain, preserves in parenthesis: '(Bābu Khaḍgapati Siṃha sutā Svīḍana deśe antadhārmika vivāha:)' — 'The daughters/sons of Bābu Khaḍgapati Siṃha [performed] an inter-faith marriage in the country of Sweden.' The term 'antadhārmika' (between-religions) is a euphemism for inter-religious marriage. The Pañjī,

which exists to certify caste endogamy, here records its own transgression without comment — the parenthetical marker rather than the standard vivāha formula suggests the Pañjīkar acknowledged the marriage without fully integrating it into the genealogical chain. The son Bābu Jīveśvara Siṃha's subsequent entry follows normally, confirming the family's continued participation in the Pañjī system despite the inter-faith union.

The Anterjātiya Entry

A second extraordinary inter-caste entry appears at page 573: '(antajātiya vivāha:)' — 'inter-caste marriage' — recorded parenthetically for Śrī Dīkanandana Siṃha's sons. Like the Sweden entry, this is preserved in brackets, marked as exceptional but not expunged. These two entries together document the Pañjī tradition's pragmatic response to social change: acknowledge the deviance, bracket it formally, continue the lineage.

3.2 The Abhinavā-Sarasvatī Title Complex

Page 301, within the Fnandaha-Sodarapura cluster, preserves a remarkable scholarly title chain: 'Sarvadātā Mahāmahopādhyāya Raghunātha suta Mahāmahopādhyāya Bhavānīdatta ... Mahopādhyāya Pītāmbara sutā Abhinava-Sarasvatī-dānkit Mahāmahopādhyāya Hilocana, Mahopādhyāya Daṇḍapāṇi alias Ghañjaya, Mahopādhyāya Ṭikākāraka Gaukuḷanātha, Sudopādhyāya Jagannātha.' This passage, covering a single family's scholarly output, contains no fewer than seven distinct Mahopādhyāya-level titles in one lineage, including:

Title Compound | Meaning | Novelty

sarvasvadātā / Sarvadātā | 'The giver of everything' — ultimate patronage epithet | Highest patronage designation; Khaṇḍa 1 had Sarvajña Garība ('all-knowing pauper'), here the opposite extreme

abhinava sarasvatī dānkitā / Abhinava-Sarasvatī-dānkit | 'Bearing the seal of the New/Fresh Sarasvatī' | Variant of Avalamba-Sarasvatī from pages 66–347; this is 'Abhinava' (new/fresh) not 'Avalamba' (supportive) — a distinct honor

ṭikākāraka / Ṭikākāraka | 'Commentary-maker' — scholarly commentator | Professional designation for a scholar whose primary work is writing commentaries (ṭikā)

sudopādhyāya / Sudopādhyāya | 'Good/excellent Upādhyāya' — merit designation | Rare honorific prefix emphasizing quality of scholarship rather than quantity

daṇḍapāṇi alias ghañjaya / Daṇḍapāṇi alias Ghañjaya | Combined classical name with personal alias | Unusual classical epithet (Daṇḍapāṇi = 'staff-bearer', epithet of Yama or Śiva) + alias; scholarly honorific in narrative form
maho. prajāyaka / Mahopādhyāya Prajāyaka | 'The generative Mahopādhyāya' | Highly unusual; prajāyaka = 'generator/progenitor' used as a scholarly qualifier

3.3 The Calcutta University Maithili Entry

Page 290, within the Maḥiṣī cluster, contains an entry of direct relevance to Maithili literary history: 'Mahopādhyāya Rāja alias Śivadatta, Jyotiprvīd Achhu [Upādhyāya Tī (7/05)] Vaiyākaraṇa Prādhyāpaka (Calcutta University Maithili Deptt.) Khadabhī' — 'Rāja alias Śivadatta, Jyotirvid-scholar Achhu, [alongside] the Vaiyākaraṇa (Grammarians) who served as Professor (Prādhyāpaka) in the Maithili Department of Calcutta University.' This is the first known Pañjī record of an individual holding an academic post specifically in a Maithili language department — linking the genealogical tradition to the emergence of Maithili as a university subject in the colonial period. The entry occurs within a family whose compound titles span Jyotirvid (astrological scholar), Vaiyākaraṇa (grammarian), and Prādhyāpaka (university professor), suggesting a family tradition of evolving from traditional to modern academic scholarship.

3.4 Maḥiṣī as Scholarly Satellite

The village Maḥiṣī (maḥiṣī, modern Mahishi, Saharsa district) emerges in pages 348–690 as a distinctive scholarly satellite in the Pañjī's eastern geographic range. Maḥiṣī is historically known as the seat of the scholar Maṇḍana Miśra (the opponent of Ādi Śaṃkara in the classical Mīmāṃsā-Advaita debate) and as a centre of Mīmāṃsā scholarship. The Pañjī entries connecting Maḥiṣī to Budhavāla and Darihara clusters confirm that the village maintained its scholarly reputation into the 19th and 20th centuries — the families from Maḥiṣī in this section carry Vaiyākaraṇa (grammarian) titles and appear in the Calcutta University Maithili Department entry above.

3.5 The Rāya Families: Mughal-to-British Administrative Continuity

The Rāya (rāya / rāya) title appears 53 times in pages 348–690, concentrated particularly in the Sūragana–Jālaya–Darihara corridor. Unlike the Ṭhākura

prefix (which marks high-status Brahmin ritual families), the Rāya prefix marks families in revenue administration — a lineage of service stretching from the Mughal amīl system through colonial zamīndārī. Notable Rāya families in this section:

- Rāya Rūdranārāyaṇa (p.) — connected to Mahārāja Samara Siṃha via Suragana; sons Rāya Rāmadeva, Rāya Jayadeva, Rāya Bhavadeva represent three brothers in simultaneous administrative service.
- Rāya Candra Nārāyaṇa (p.) — recorded with sons 'Rāja Devanārāyaṇa, Rāja Śrīnārāyaṇa, Nārāyaṇa, Rāya Lalīta Nārāyaṇa, Rāya Kīrtimunārāyaṇa' — five sons all bearing royal-administrative names, suggesting a family policy of naming sons for continued administrative legitimacy.
- Rāya Vāgīśa (p.) — connected to Mahopādhyāya lineage via Valiyāsa; transitions from revenue-officer to scholarly family within one generation.

3.6 The Kavi Jīvakarṇa Entry: A Poet in the Pañjī

Page 407 contains a unique designation: 'Bhaveśa suto jīvakarṇu: baulyasam balabhara suta maheśa dau' — identifying Jīvakarṇa as a 'kavi' (poet) in subsequent entries. A few lines later, his genealogical chain produces 'Jīvakarṇa suto Rūradatta, Bhairapadatta' — the family continues in the register. The designation of a named poet within the Pañjī's suta-chain, rather than merely noting the family, echoes the earlier Kavi Vidyāpati placement. These poet-entries in the Pañjī suggest the Panjīkar treated literary excellence as a genealogical credential alongside scholarly titles and administrative positions.

3.7 Mādhurakavi Māghava: The 'Sweet Poet' Designation

Page 407 also preserves an extraordinary compound: 'Amaru suto mahāi mahāi sutā Mādhurakavi Māghava Yaddhū Maṇināthā' — listing 'Mādhurakavi Māghava' (the sweet/melodious poet Māghava) as a personal designation within a genealogical chain. The compound Mādhurakavi — 'sweet poet' or 'poet of sweetness' — is a title indicating mastery of the śṛṅgāra (erotic/romantic) and madhura (sweet) aesthetic registers. Its appearance in the Pañjī alongside brothers Yaddhū and Maṇinātha confirms that poetic excellence was treated as a heritable family credential in Mithilā's social economy.

4. New Scholarly Title Compounds in Pages 348–690

Pages 348–690 introduce a significant number of scholarly title compounds not found in the two previous volumes. These reflect the full maturation of the Mithilā academic title system across the 18th–20th centuries:

Title Compound | Transliteration | Page Ref. | Significance

abhinava sarasvatī dāṅkita | Abhinava-Sarasvatī-dāṅkit | p.301 | 'Fresh Sarasvatī seal'; distinct from Avalamba-Sarasvatī (pages 66–347); indicates continued innovation in title-coinage

sarvasvadātā / sarvadātā | Sarvadātā / Sarvadāta | p.301, ×6 | 'Giver of everything'; highest patronage epithet; antipode of 'Sarvajña Garība' from earlier section

ṭīkakāraka | Ṭīkākāraka | p.301 | 'Commentary-maker'; professional scholarly designation for commentarial specialists

sudopādhyāya | Sudopādhyāya | p.301 | 'Good/excellent Upādhyāya'; merit qualifier rather than specialty designation

daṇḍapāṇi / daṇḍapāṇi | Daṇḍapāṇi / Daṇḍapāṇi | pp.407+ | Classical epithet absorbed as personal title; 'staff-bearer' (Yama's attribute used as honor)

vaiyāo / vaiyākaraṇa (as title prefix) | Vaiyā. / Vaiyākaraṇa | ×45 | Sanskrit grammarian; here used as a standing prefix equivalent to 'M.M.' — 45 instances vs occasional use in earlier volumes

jyoo / jyotiprvida | Jyo. / Jyotirvid / Jyotirvimaya | ×26 | Astrological scholar; high frequency confirms Jyotiḥśāstra remained a parallel prestige track to Navya-Nyāya

prādhyaṇika (Calcutta University) | Prādhyaṇika | p.290 | 'Professor'; first appearance of modern academic title within the genealogical chain

jyoo brahmadatta | Jyo. Brahmadatta | Late pages | Jyotirvid + personal name compound; specific scholarly lineage marker

mahovāṇā / maho baccī | Mahovāṇa / Maho Baccī | p.301 | Informal diminutive compounds in Maithilī for 'great teacher' — indicates vernacularisation of Sanskrit titles

Income Tax Comm. | Ānkara Āyakara Āyukta | p.496 | Modern bureaucratic title in English embedded in Sanskrit-grammar genealogical chain

D.I.G. (Police) | Polis Upamahānirīkṣaka | p.499 | Deputy Inspector General of Police — full English abbreviation in Devanagari-script genealogy

K.C.I.E. Litt. | Knight Commander Indian Empire + Litt.D. | p.566 | British imperial honour + honorary doctorate; recorded within traditional Vivdhityādi-Mahārāja title cluster

madhura kavi / mādura kavi | Mādhurakavi | p.407 | 'Sweet/melodious poet'; aesthetic-register designation indicating śṛṅgāra poetic mastery

5. Marriage Colophons: Scale and Diversity

Pages 348–690 contain 41 vivāha records — the densest concentration in the corpus. These range from single first-marriage notations to individuals with six documented marriages (ṣaṣṭhama vivāha — sixth marriage). The colophons include the longest marriage record chains in the entire corpus, a dated inter-faith marriage abroad, an inter-caste marriage, and multiple colophons with traditional Pañcāṅga dates alongside CE calendar notation.

Bride/Groom Identifier | Marriage Number | Calendar Notation | CE Date/Notes | Page

ṭha. giradhārī siṃha / Girdhārī Siṃha | 2nd–6th documented | 'Caitra Kṛṣṇa Dvādaśyām Budhe' for 2nd | Saṃvat 1337 = 1880 CE (2nd marriage); total 6 marriages | pp.249–251

ṭha. maheśa ṣaṣṭhama / Ṭh. Mahesh | 6th marriage | ṣaṣṭhama pavavāi | Sixth marriage noted; extraordinary | pp.~392

ṭha. brajabhūṣaṇa ṣaṣṭhama / Ṭh. Brajabhūṣaṇa | 6th marriage | '(6) evaṃ Ṭh. Brajabhūṣaṇa ṣaṣṭhama vivāha' | Sixth marriage — same formula as above | pp.~409

bābū khaḍgapati siṃha / Khaḍgapati Siṃha | — | 'Svīḍana deśe antadhārmika vivāha' | Sweden inter-faith marriage; parenthetical | p.286

śrī/śrīdī/mānīka nandana siṃha | — | 'Antajātiya vivāha' | Inter-caste marriage; parenthetical | p.573

mādhava siṃha caturtha / Mādhavasīṃha | 4th marriage | 'Mādhava Siṃha caturtha vivāha' | Royal 4th marriage | pp.563–566

mahārājādhirāja kāmēśvara siṃha | 2nd marriage | 'Kāmēśvara Siṃha dvitīya vivāha' | Royal 2nd marriage of KCIE-holder | p.566

ṭha. choṭaku pra. vedamaṇi | — | 'Phālguna Kṛṣṇa Caturdaśyām Budhe (166/03)' | Traditional date; 'Wednesday' | p.166

ṭha. durgeśvara dvitīya / Ṭh. Durgeśvara | 2nd marriage | — | Noted with sons Jagadīśa, Vinoda | Late pages

ṭha. kāśīnātha / Ṭh. Kāśīnātha | — | — | Colophon formula with Pāṭhaka title | p.176

- ṭha. yoganātha paṃcama / Ṭh. Yōganātha | 5th marriage | 'Ṭh. Yōganātha paṃcama vivāha' | Fifth marriage | pp.~392
- ṭha. mukunda dvitīya / Ṭh. Mukunda | 2nd marriage | 'Ṭh. Mukunda dvitīya vivāha' | With EC date colophon | Late pages
- ṭha. hemadatta dvitīya / Ṭh. Hemadatta | 2nd marriage | '09.2004 Bhārakṣṇa' | CE date 2004 noted | Late pages
- ṭha. jīrakkhana caturtha / Ṭh. Jīrakkhaṇa | 4th marriage | '(4) evaṃ Ṭh. Jīrakkhaṇa caturtha vivāha' | Fourth marriage | pp.~409
- ṭha. jayarāja siṃha (1st & 2nd) / Ṭh. Jayrāja Siṃha | 2 marriages; sons from 3rd-wife wife at Amrāvati | 'evaṃ Ṭh. Jayrāja Siṃha prathamam + dvitīya vivāha; 3rd wife at Amrāvati Hariyam' | Multi-wife record | pp.~249
- ṭha. giradhara siṃha tṛtīya / Girdhara Siṃha | 3rd marriage | — | 'Dvitīya, Tṛtīya, Caturtha' all noted | pp.249–251
- ṭha. gopīnātha prathama / Ṭh. Gopīnātha | 1st + sons noted | — | Colophon-type opening for new lineage | pp.306
- ṭha. dhīranātha siṃha / Ṭh. Dhīranātha Siṃha | — | — | Vivāha colophon | pp.234
- ṭha. rāmeśvara siṃha / Ṭh. Rāmeśvara Siṃha | — | — | Colophon entry | pp.265
- ṭha. barmolī tṛtīya / Ṭh. Barmolī | 3rd marriage | — | Third marriage recorded | pp.320

The presence of six-marriage colophons (ṣaṣṭhama vivāha) for two different individuals in this volume is without precedent in the previous two volumes. These reflect the historical reality of serial marriage among upper-caste men — whether due to wife's death, childlessness, or social ambition — and the Pañjī's duty-bound recording of each marriage as a genealogical fact. The parenthetical treatment of the Sweden inter-faith and inter-caste marriages demonstrates that the Pañjī had no formal mechanism for exclusion, only for quarantine via the bracket notation.

6. Quantitative Analysis

Metric | Value | Notes

Total pages analysed | 160 (pp.348–690) | Largest of the three volumes

Document pages covered | 348–690 (343 page range) | Right-column Kaithi-Devanagari used

Vivāha (marriage) colophons	41	Most per-page-dense of all three volumes
Persons with 4+ marriages documented	5+	Girdhārī Siṃha (6), Mahesh (6), Brajabhūṣaṇa (6), Mādhavasimha (4), Kāmeśvarasimha (2+)
Mahārāja-title entries	91	Full royal complex; multiple dynasty branches
Mahāmahopādhyāya (full+abbrev.)	116+	Sustained scholarly production
Vaiyākaraṇa prefix entries	45	Grammarian specialists; high concentration
Jyotirvid entries	26	Astrological scholars; parallel track to Naiyāyikas
Rāya prefix (administrative)	53	Revenue officer families; Mughal-to-British transition
Sarvadātā title holders	6	Highest patronage epithet; unique to this volume
Abhinava-Sarasvatī-dānkit	1	New compound; variant of Avalamba-Sarasvatī from pp.66–347
Modern titles (English)	3 types	Income Tax Comm., D.I.G. (Police), K.C.I.E.
Geographic outliers	3	Kotitṭā (Calcutta), Svīḍana (Sweden), Kaṭihāra (Katihar town)
Inter-faith/inter-caste marriages	2	Bracketed; Sweden + unnamed
New localities (not in pp.1–347)	19	Including urban/diaspora references
Sodarapura frequency	853	Highest-frequency village in entire corpus
Named poets in genealogy	2	Kavi Jivakarṇa + Mādhurakavi Māghava
Calcutta University entry	1	Prādhyāpaka Maithili Dept.
Estimated named individuals	6,000+	Across 160 pages

7. Gallery of Unique Entries

7.1 'Raja Ramalochana (Katihar)' — Urban Identity Marker

Page 389 records 'Mahipati suto Rāja Rāmacandra (Kaṭihāra) Mahāu Khauāla saṃ Bhaiyā dau' — placing 'Rāja Rāmacandra' with the identifier 'Kaṭihāra' (Katihar), a major junction city and district headquarters in eastern Bihar. This is not a village but an urban administrative centre — its use as a genealogical identifier (vāsī-equivalent) reflects the family's urban relocation and the Pañjī's pragmatic adaptation: when a family moves to a city rather than a village, the city name is recorded in place of the mūla-grāma.

7.2 'Kolkata (Pāli)' — Calcutta as a Mūla Reference

Page 351 contains 'Koliṭṭā Pāli saṃ Maheśa dau' — using 'Kolkata (Pāli)' as a dau-source, where 'Pāli' is the sub-locality within Kolkata where the family maintained their Mithilā-community identity. This is the Pañjī's way of recording that a family's genealogical authority for a marriage-connection passed through their Calcutta community branch. The use of 'Pāli' alongside 'Koliṭṭā' suggests a specific Maithili neighbourhood or community cluster within the city — a Mithilā diaspora enclave in colonial Calcutta.

7.3 'Sannha-vāsī Karmaharā' — Multi-Compound Residential Designation

Page 351 also contains 'Sannavāsī Karmaharā saṃ Mukunda suta Harapati dau' — 'from Sannha-resident [family] at Karmaharā via Mukunda's son Harapati.' The 'Sannavāsī' designation (resident of Sannha — possibly a neighbourhood or hamlet) combined with Karmaharā as the mūla creates a hyper-specific three-level geographic identifier: district → village → sub-village residential cluster. This granularity is unusual even within the Pañjī's detailed geographic tracking.

7.4 The Llavakāra-dāṅkit Entry Revisited

Page 676, near the document's end, contains a compressed entry: 'Rāya Rāmadeva sūtā ... āli saṃ Llavakāra dāṃ. Bhavānātha' — the 'Llavakāra-dāṅkit' (administrative-officer seal) title appearing again, this time for a Rāya-family member. This confirms that the Llavakāra designation, first seen in pages 66–347, remained in active use through the later portions of the corpus and applied to revenue-officer as well as scholarly families.

7.5 Vaṃśī, Ganesha, Hariyama — The Triadic Dau Formula

Throughout pages 348–690, a recurring triadic dau formula appears: 'Vaṃśī saṃ X dau — Ganeśa saṃ Y dau — Hariyama saṃ Z dau' — where three villages serve as sequential dau-sources for siblings within the same family. This triadic pattern, where one family's three sons take wives from three distinct sub-clusters, is more common in this volume than in the previous two. It reflects the increased geographic spread of marriage networks in the later genealogical layers, as families became dispersed enough that no single mūla-cluster could supply all marriage partners.

8. Analytical Synthesis

8.1 The Pañjī Meets Indian Modernity

Pages 348–690 document the Pañji Prabandha tradition's encounter with Indian modernity in its fullest form. Within a single volume, the same genealogical notation that was designed to track Brahmin family-status in 12th-century Mithilā is used to record a British imperial knighthood (K.C.I.E.), a Deputy Inspector General of Police, an Income Tax Commissioner, a Calcutta University professor, and an inter-faith marriage in Sweden. The system does not break — it bends. Imperial honours are treated like Vivdhityādi epithets; university posts are treated like Mahopādhyāya titles; urban residence (Kolkata, Katihar) is treated like a mūla-grāma. The Pañjī's capacity for absorption is its most remarkable institutional feature.

8.2 Sodarapura as the New Gravitational Centre

The emergence of Sodarapura (853 appearances) as the dominant village in this volume has a specific historical explanation. Sodarapura (modern Sudarpur) lies at the confluence of several Brahmin settlement zones in the Sitamarhi–Madhubani corridor. By the 18th–19th century — the period when most of the genealogical chains in this volume were crystallising — Sodarapura had become a primary registration point for families seeking Pañjīkar certification. Its dominance reflects the administrative geography of the Pañjī tradition itself: when families from diverse sub-clusters needed to formalise a marriage connection, Sodarapura's Pañjīkar office was the primary referral node.

8.3 Royal Legitimation at Scale

The 91 Mahārāja-title entries in pages 348–690 — compared to 41 in pages 66–347 — reflect the expansion of the royal genealogical complex from a single Mādhavasīmha entry to a multi-branched dynastic record spanning Chhatrasīmha, Rāmeśvarasīmha, Kāmeśvarasīmha, Maheśvarasīmha, Lakṣmeśvarasīmha, and numerous collateral branches. The Pañjī here functions as a royal chronicle within a genealogical register — each new branch needs Pañjīkar certification of its membership in the dau-bīji network, and each certification is recorded. By the time Kāmeśvarasīmha receives his K.C.I.E., the royal family has been in the Pañjī for at least six generations.

8.4 The Complete Vivāha Sub-Registry

The 41 marriage colophons in pages 348–690 — including multi-marriage records for individuals with 4, 5, and 6 documented marriages — constitute a sub-registry of Mithilā elite matrimonial history spanning roughly 1880 to 2004 CE. The Saṃvat 1337 date on Girdhārī Siṃha's second marriage (= 1880 CE) provides the earliest dateable colophon in this volume, while the September 2004 CE date on Hemadatta's second marriage provides the latest. This 124-year range of matrimonial records, embedded within genealogical chains that trace back to the 12th century, makes pages 348–690 the single most temporally rich section of the entire Panji Prabandha.

9. Index of Key Entries

Name | Title/Role | Page | Connection

mahārājādhirāja kāmēśvara siṃha | K.C.I.E. Litt.; Vivdhityādi Mahārājādhirāja | p.566 | Son of Rāmeśvarasiṃha; KCIE holder

bābū khaḍgapati siṃha | Royal; son married in Sweden | p.286 | Inter-faith marriage in Sweden documented

ṭha. āśutoṣa siṃha | Income Tax Commissioner | p.496 | Son of Ayodhyānātha Siṃha alias 'Baṃgālī'

brajamohana | D.I.G. (Police) | p.499 | Son in Bhagavata Nārāyaṇa lineage
maho. hilocana / Mahopādhyāya Hilocana | Abhinava-Sarasvatī-dāṅkit M.M. | p.301 | Highest new title compound in this volume

vaiyākaraṇa prādhyaṇṇa (kalakattā viśva) | Maithili Dept. Professor, Calcutta Univ. | p.290 | First university post in Pañjī corpus

rājā rāma locana (kaṭihāra) | Raja; Katihar-identified | p.389 | Urban district-HQ as genealogical identifier

mādura kavi māghava / Mādhurakavi Māghava | Sweet Poet — śṛṅgāra aesthetic designation | p.407 | Aesthetic title as genealogical credential

kavi jīvakarṇa / Kavi Jīvakarṇa | Poet — designated within suta-chain | p.407 | Second named poet in this section

mao mao sarvasvadātā raghunātha / Sarvadātā Raghunātha | M.M.; ultimate patronage epithet | p.301 | Highest patronage designation

mahārāja maheśvara siṃha | Mahārāja; father of Lakṣmeśvara | p.403 | Royal complex; sons include multiple titled figures

ṭha. giradhārī siṃha | 6 marriages documented | pp.249–251 | Most-married individual in entire corpus

vācaspati / Vācaspati | Recurring Paramguru anchor | Multiple | Consistent anchor across all three volumes

mao mao bhavānīdatta / Bhavānīdatta | Mahāmahopādhyāya; Sarvadātā chain | p.301 | Scholarly title complex

mahārānī / Mahārāja Samara Siṃha | Mahārāja; Suragana branch | p.389 | Connected to Kṛṣṇadeva-Rūdranārāyaṇadānkit entry

10. Concluding Note

Pages 348–690 of the Panji Prabandha complete what may be called the Pañjī's 'long 19th century' — the period in which the 12th-century genealogical system, designed for a stable agrarian Brahmin community in the Tirhut heartland, was forced to accommodate the full pressure of Indian modernity: British imperial administration, urban migration to Calcutta, university education, inter-faith marriage abroad, and the emergence of professional careers (police officer, income tax commissioner, university professor) that had no traditional equivalent. The Pañjī absorbed all of this without structural collapse — not because it was infinitely flexible, but because its core technology (the suta/dau notation within a mūla-grāma matrix) was robust enough to treat any social fact as a genealogical coordinate.

The 853 appearances of Sodarapura, the 91 royal-title entries, the 41 marriage colophons, and the three extraordinary entries (Sweden inter-faith marriage, Calcutta University Maithili professorship, K.C.I.E. knighthood) make pages 348–690 the single most historically information-dense section of the Panji Prabandha. Together with the two previous volumes, they constitute a genealogical record of extraordinary depth — eight centuries of Maithil social history encoded in a compact, precise notation system that proved adaptable enough to survive from the Karnāṭa kingdom to the Swedish diaspora.

Chapter 12

Mithila's Living Genome: Pañjī Prabandha Volume I — Section 2 (Uṭīp Sub-Commentary)

MITHILA'S LIVING GENOME

A Comprehensive Scholarly Report on

Genome Mapping (450 A.D. – 2009 A.D.): The Panjī Prabandha of Mithila

[jīnoma maipiṅga (4 e.ḍī. sa~ 2 e.ḍī.) – mithilāka pañjī prabandha]

Volume II, Section 2 (Uṭīp / Sub-Commentary)

Prepared as an Analytical and Explanatory Scholarly Report

Drawing upon Anthropological, Sociological, Genealogical,
and Historical Frameworks

Source Document Series:

Videha Parallel Literature Movement

Gajendra Thakur, Founder-Editor

1. THE DOCUMENT: IDENTITY AND ARCHITECTURE

1.1 What Is This Document?

The text under examination is Volume II, Section 2 (Khaṇḍa 2) of a monumental work titled Jīnom Maipiṅga (450 A.D. to 2009 A.D.) — Mithilāk Pañjī Prabandha, translatable as "Genome Mapping (450 A.D. to 2009 A.D.) — The Genealogical Record Management of Mithila." The section presented is the Uṭīp, which in Maithili scholarly tradition means "sub-commentary" or "supplementary lineage record."

The framing of genealogical data as "genome mapping" is a deliberate intellectual move by the editor: it asserts that traditional Pañjī is, in essence, an indigenous biotechnology — a continuous, living database of human genetic and social inheritance, maintained by a dedicated priestly-scholarly class across fifteen-plus centuries.

Full Title | Jīnom Maipiṅg (450 A.D. – 2009 A.D.) – Mithilāk Pañjī Prabandha

Volume | II

Section | Khaṇḍa 2 (khaṇḍa 2) — Uṭṭip (upaṭīpa)

Script | Devanagari (Maithili dialect conventions)

Language | Classical Maithili (genealogical register)

Page Range | 2.2 to 2.72 (71 pages of dense genealogical text)

Sub-sections | 155+ numbered Uṭṭip sub-entries across villages and lineages

Families / Lineage Trees | Several hundred individual family trees (vaṃśa-vṛkṣa)

Temporal Span | Approximately 450 A.D. to 2009 A.D. (1,559 years)

Geographical Coverage | Mithila region (present-day North Bihar, India; and Terai Nepal)

Publication Context | Videha Parallel Literature Movement

1.2 The Genre: Pañjī Prabandha

The Pañjī Prabandha (pañjī prabandha) is one of the most remarkable indigenous record-keeping systems in world history. It is a hereditary genealogical register maintained by a caste of specialists known as Pañjīkāra or Pañjīkār, who function as official custodians of patrilineal and matrimonial data among Maithili Brahmin communities.

Unlike European parish records or Chinese clan genealogies, the Pañjī is a living, transactional document: it is consulted and updated at every marriage negotiation to verify gotra (patrilineal exogamous clan), mūl (root lineage), pravara (Vedic sage-ancestry), and matrimonial compatibility across an enormous kinship network. The Pañjīkār acts as a human search engine — or, in the document's own framing, a genetic database manager.

Key Concept: The Pañjī system is not archival in the Western sense; it is operational genealogy. Its purpose is not merely commemoration but active social governance — determining who may marry whom across hundreds of villages and dozens of generations.

1.3 The Uṭṭp (upaṭṭpa) Sub-genre

The specific section before us is titled Uṭṭp, meaning "sub-note" or "supplementary annotation." Within the Pañjī architecture:

- The main Pañjī (Mūl Pañjī) records primary lineages of high-status Maithili Brahmin families.
- The Uṭṭp records secondary, collateral, and migrant branches — families who have moved to new villages, lineages that branched from the main stem, or sub-families whose records needed a supplementary volume.
- The Uṭṭp is therefore a genealogical "overflow" or "index extension" — essential for completeness, and in practice indispensable because Mithila's Brahmin population spread across hundreds of villages through strategic marriage migration.

The section is further divided by geographic circuit: Sakkari-Sārisab-Pāhītōl, Digaumdh, Kanhauli, Mānī, Hāṭī, Tetraharā, Mahiyā, Mahiṣī, Maṃgaraunī, Barlirājpur, Naḍuār, Bheṭ, Rurauculī, Tarauni, Jhañjhārpur, Analapur, Gaṃgaurā, Ḍumrā, Simarivār, Murajpur, Raṭaulī, Ṭarauni, and many others — each a village or village-cluster in the Mithila heartland.

2. MITHILA AND THE MAITHILI BRAHMIN WORLD

2.1 Geographical and Historical Setting

Mithila (mithilā) is a cultural-linguistic region straddling the North Bihar plains of India and the eastern Terai of Nepal. Bounded roughly by the Gandak (Narayani) river to the west, the Mahananda/Kosi to the east, the Himalayan foothills to the north, and the Gangetic plain to the south, it encompasses a zone of extraordinary cultural continuity. The mythological capital is Janakpur (in Nepal), home of King Janaka, father of Sītā.

This region was the seat of one of the most intellectually sophisticated Brahmin communities in South Asia. Mithila produced Gaṅgeśa Upādhyāya (author of the *Tattvacintāmaṇi*, the foundational text of Navya-Nyāya logic), Vidyāpati (the great Maithili poet), and Maṇḍana Miśra. The Maithili Brahmin community — especially the Śrotriyas and Yogyas — developed institutional mechanisms of extraordinary sophistication to maintain their social identity across millennia.

2.2 Caste Stratification Within Maithili Brahmins

The Pañjī system is specifically associated with Maithili Brahmins, who are themselves internally stratified. Understanding this stratification is crucial to reading the document:

Śrotriya | The highest-rank Maithili Brahmins; fullest Pañjī regulation applied; marriage choices most restricted

Yogya | Second tier; also regulated by Pañjī but with slightly wider permissible marriage circles

Pañjī-baddha | "Pañjī-bound" — all families whose marriages are recorded and regulated by the system

Pañjikāra | The hereditary custodian-scribes who maintain and interpret the Pañjī

Mūl | Root lineage — the fundamental genealogical identity unit

Gotra | Patrilineal exogamous clan, traced to a Vedic sage (ṛṣi)

Pravara | Series of ancestral sages invoked in ritual; determines marriage prohibitions

Designations appearing throughout the document confirm this stratification: persons are identified as Vaidika (vaidika — Vedic scholar), Vaidya (vaidya — physician/medical practitioner), Mahāmahopādhyāya (mahāmahopādhyāya — the highest traditional scholarly title), and Pañḍita (pañḍita — learned man). These are not decorative epithets but functional social identifiers that determine ritual rank and marriage eligibility.

2.3 The Social Logic of Endogamy and Exogamy

The Pañjī system navigates a complex dual imperative:

Exogamy (gotra rule): A man and woman of the same gotra (patrilineal clan) may NEVER marry — this is a categorical prohibition treated as equivalent to incest. The Pañjī identifies gotra at every step.

Endogamy (community rule): Marriage must be within the broadly defined Maithili Brahmin community, and more specifically within compatible sub-tiers of the hierarchy.

The result is a highly constrained combinatorial problem: find a suitable spouse across hundreds of villages, satisfying both gotra-exogamy and community-endogamy, without repeating a marriage alliance too recently (the "sapinda" prohibition). This is precisely what the Pañjī solves — it is a

medieval information system for solving a massive, recurring constraint-satisfaction problem across a geographically dispersed community.

3. THE GENEALOGICAL GRAMMAR: HOW TO READ THE ENTRIES

3.1 The Formal Structure of Each Entry

Every entry in this Uṭīp follows a rigidly standardized formula, written in a dense, abbreviated Classical Maithili. Once the grammar is decoded, each line yields a precise genealogical statement. The fundamental unit is:

Format:[Father's name] suto/suta [Son(s)/Daughter(s)] [Village/Location] saṃ [Mother's lineage source — donor's name] dau [Village of maternal grandfather] ddau

Let us parse the standard vocabulary:

suto (suto) | "Son of" — masculine singular child (one son)

sutau (sutau) | "Two sons of" — masculine dual (exactly two sons)

suta (sutā) | "Sons/children of" — masculine plural (three or more sons)

sutāśca | "Sons and daughters of" — indicating mixed male-female progeny

dau (dau) | "Dau" — abbreviation of dauhadra or dauhi — the maternal side donor

ddau (ddau) | "Maternal grandfather" — the father of the mother

saṃ (sa~) | "From" — indicating provenance of the bride (village origin)

apara (aparā) | "Another / additional" — marking a polygamous second or third wife's children

mūl/pravara indicator | Numbers in parentheses like (286//01) — Pañjī page/entry reference numbers

pra (pra) | Abbreviation for "prāyukta" — also known as / alias

ātmā (ātmārāma etc.) | "Self" names — used when someone's alias or second name follows

3.2 The Parenthetical Number System

Throughout the text, every married couple entry is followed by parenthetical numbers such as (286//0), (202//0), (109//0), etc. These are cross-reference codes to the main Pañjī volumes, indicating:

- The volume/page number in the primary Pañjī register where the maternal lineage is recorded
- Sub-entry identifiers within that page
- These codes allow the Pañjīkāra to cross-verify any claim by consulting the master register

This numerical cross-referencing system is essentially a pre-digital relational database — primary keys linking entries across multiple volumes. It prevents fraud, ensures consistency, and allows rapid lookup of any individual's complete ancestry across both paternal and maternal lines.

3.3 Village Identifiers as Lineage Addresses

Every individual and every married pair is associated with a specific village. Villages that appear as sources of brides or maternal lines include:

- Sārisab (sarisaba) — repeatedly cited; a major lineage-hub village in Madhubani district
- Darbhanga (dariharā) — major city and cultural center of Mithila
- Khaṇḍabalā (khaṇḍabalā) — another lineage-hub; associated with the Siṃha (Singh) Kāyastha nobility
- Māṇḍar (māṇḍara), Pābaulī (pabaulī), Saudāpur (sodarapura) — major donor villages
- Narauna (narauna), Pālī (pālī), Budhavāla (budhavāla), Hariyam (hariamba) — frequently appearing
- Karmaharā (karamahā), Ekharā (ekaharā), Sakrāṇhī (sakarāḍhī), Ghosaut (ghosota)
- Siṃhaulī (siṃhaulī), Alaya (alaya), Kujaulī (kujaulī), Kumārī (kumārī)

In the Pañjī system, a village is not merely a geographical location — it is a genealogical coordinate. Knowing that someone comes "from Sārisab, Māṇḍar saṃ" immediately narrows the field of possible lineages and helps the Pañjīkāra locate the relevant entries.

3.4 Multi-Wife (Apara) Notations

The repeated use of "apara" (aparā — "another") throughout the text documents polygamy systematically. When a man had multiple wives, each wife's children are listed separately under the same father's name, with "apara" marking the subsequent wives. This is non-judgmental recording —

the Pañjī does not comment on polygamy but simply traces all biological descent lines for matrimonial verification purposes.

This practice has a direct genealogical consequence: multiple parallel descent lines from one man, each with different maternal lineages (gotras, villages), creating complex kinship webs that only the Pañjī can fully document.

4. PROMINENT FAMILIES, TITLES, AND NOTABLE INDIVIDUALS

4.1 The Institutional Title System

The document is studded with honorific titles that function as social metadata. Understanding them reveals the professional and ritual stratification of Maithili society:

Mahāmahopādhyāya (mahāmahopādhyāya) | The highest traditional scholarly title in Sanskrit learning; equivalent to a distinguished professor or Doctor of Letters. Extremely rare.

Mahopādhyāya (mahopādhyāya) | Senior scholar of Sanskrit/traditional learning

Vaidyakaraṇī (vaiyākaraṇī) | Specialist in Sanskrit grammar (vyākaraṇa); grammarian

Jyautiṣī (jyotiṣī / jyo.) | Astrologer-astronomer; officiates at calendrical and ritual functions

Māmāṃśaka (mīmāṃśaka / rimmāṃśaka) | Specialist in Mīmāṃsā — Vedic exegesis/ritualistic philosophy

Sadu (sadu) | Abbreviation indicating a Sadupādhyāya — a sub-specialist scholar grade

Vaidika (vaidika) | Vedic ritualist; one who performs or maintains Vedic sacrificial traditions

Kavī (karavi) | Poet; indicates literary accomplishment

Ṭhākur (ṭhākura) | Title for Kāyastha (scribal/administrative) nobility, not Brahmin

Rāja / Kumāra (rājā / kumāra) | Royal/noble title — appears for Rāja families like Vijay Govinda Singh

D.G.P. / M.B.B.S. / M.A. | Modern professional credentials — showing the document spans into the modern era

4.2 The Siṃha (Singh) Noble Houses

A remarkable feature of the Uṭīp is its documentation of the Khaṇḍabalā Siṃha clan — a noble Kāyastha family of great standing whose daughters married into Brahmin families. Entries repeatedly reference:

- Vābu Ghaṇeśvara Siṃha (vābū ghaṇeśvara siṃha) of Khaṇḍabalā — a frequently cited noble patron
- Vābu Rāmacandra Siṃha, Mahārāja Mādhava Siṃha, Mahārāja Cheha Siṃha — successive noble rulers
- Vābu Tañjheśvara Siṃha, Vābu Vasudeva Siṃha, Vābu Prājāpati Siṃha — landed nobility
- Rāja Vijaya Govinda Siṃha — explicitly titled as a Raja with political functions
- Mahārājā Maḥiṣvara Siṃha and Mahārājādhirāja Rāmeśvara Siṃha Bahādura — indicating a ruling family of considerable importance

The documentation of inter-caste alliances through marriage (Brahmin grooms, Kāyastha noble families as bride-donors or related families) illustrates how the Pañjī captures not just religious but political-social alliances. The noble Siṃha families of Khaṇḍabalā functioned as patrons of Brahmin learning and their genealogy was tracked precisely because matrimonial connections to them conferred prestige.

4.3 Scholars of National and International Distinction

Several individuals documented in the Uṭīp achieved extraordinary distinction in the modern academic world, demonstrating the continuity of the community's scholastic tradition from classical to modern times:

Mahāmahopādhyāya Dr. Sir Gaṅgānātha Jhā (m.m. ḍā. sara gaṃgānātha): Vice Chancellor of Allahabad University; Professor at Oxford University, England. One of the greatest Sanskrit scholars of the 20th century. His works on Indian philosophy (Nyāya, Mīmāṃsā, Prābhākara) are foundational. The Uṭīp records his gotra, paternal lineage (from Maḥiṣī Pālī village), and his sons — Dr. Bhavānātha, Dr. Prof. Amarnātha, Dr. Śivanātha, Dr. Vibhūtinātha, and Dr. Ādityānātha.

Dr. Prof. Amarnātha Jhā is recorded as "Proof in Oxford University England - V.C. Allahabad University" — the proof here likely meaning "Professor," indicating he too rose to the Vice Chancellorship.

Dr. Vibhūtinātha is recorded as "L. Colonel Deputy Governor of Delhi, Town Planner of Delhi" — documenting a lineage member who served in senior civil/military administration.

Prof. Meṣeśvara (M.A., Ph.D., D.Litt.): Professor; the document records his village of Māni-Saudāpur and his son Sañjaya.

Prof. (Ānaṃda) Gaṃgādhara: M.A. in Hindi, Maithili, Economics; Department Head of Patna College. Documented in the Digaṃdh lineage.

Pro. Govinda and Pro. Jagadīśa: Both identified as "Maithilī Sāhityakāra" (Maithili literary authors), documenting creative writers within the genealogical record.

This seamless integration of medieval scholarly titles (Mahāmahopādhyāya), professional credentials (M.B.B.S., D.G.P., C.S.M.B.B.S., L.L.B.), and traditional categories (Vaidyakaraṇī, Jyautiṣī) within a single document illustrates how the Pañjī evolved to absorb modernity while maintaining its pre-modern classificatory logic.

4.4 Modern Professionals Documented

The Uṭīp conscientiously documents modern professional identities alongside traditional ones, reflecting the community's transition into modernity:

- D.G.P. Bhīmanātha (Director General of Police — a senior Indian Police Service officer)
- Civil Surgeon (medical officer of senior rank in colonial/post-colonial administration)
- M.B.B.S. doctors (multiple instances — Snehāṃśu Pratāpa, Dr. Ṛṣiśvara, etc.)
- Engineers — "Mukhya Abhiyantā" (Chief Engineer) and "E. Sureśa" (Engineer Sureśa)
- Vakīl (lawyer/advocate) — noted as Pañcānanda, Jagadīśa
- Dena Bank Chairman — noted against Śambhūpati's son Lakṣmaṇa
- I.A.S. (Indian Administrative Service) officer — Maṃtheśvara, noted in the Gaṃgaurā lineage
- Sāhityakāra (literary authors) — multiple individuals noted as Maithili writers

The inclusion of these details is remarkable: it shows that the Pañjīkāra updated records with modern professional achievements, treating an IAS

posting or a medical degree as socially significant genealogical data comparable to a traditional scholarly title.

5. GEOGRAPHIC COVERAGE: THE MITHILA KINSHIP MAP

5.1 Village Clusters and Sub-circuits

The Uṭīp is organized into geographic sub-circuits, each representing a cluster of villages whose lineages are recorded together because of their historical matrimonial connections. The major circuits documented in this volume include:

Sakkari-Sārisab-Pāhīṭol Circuit | Sections 1–14; covers Sārisab, Khāṃgar, Joṃkī, and adjacent hamlets

Sārisab Saudāpur Circuit | Sections 25–40; covers Bhadu'ār, Cāpāhī, Tāranagara, Lālagāñja, Gaṛhabanailī

Pūrvārīpāra — Digaumdh Circuit | Sections 41–51; covers Digaumdh Saudāpur, Navatola, Bhāṭṭapurā, Bakhtaurī

Kanhaurī Saudāpur Circuit | Sections 52–55; covers Maṃgaraunī, Ujāna

Māni Saudāpur Circuit | Sections 56–58; covers Bhāṭṭapurā

Hāṭī Saudāpur Circuit | Section 59; covers Tetraharā, Kalpayamphara

Mahiṣī Pālī Circuit | Sections 62–77; covers Pāhīṭol, Maṃgaḍapatṭī, Gañgolī, Isāhpur, Lohanā

Maṃgaraunī Pālī Circuit | Sections 78–79; covers Lakhanaura, Jamdaulī, Khāṛarāta

Barlirājpur-Hariyamba Circuit | Sections 79–95; covers Pāhīṭola, Beheta, Bhāṭṭapurā, Gaṛhbanailī

Pūrvārī Naḍuār Circuit | Sections 106–110; covers Durgāgañja, Kaṭihāra

Beheta Karmaharā Circuit | Sections 111–120; covers Viṭṭho, Hāṭī, Kalāyamphara

Tarauni Karmaharā Circuit | Sections 122–124; covers Ujāna, Avāma, Basaiṭī

Jhañjhārpur Karmaharā Circuit | Sections 125–127; covers Lakhanaura

Analapur Karmaharā Circuit | Sections 128–129; covers Bhāṭṭapurā

Gaṃgaurā Budhavāla Circuit | Sections 131–133; covers Lālgāñja

Ḍumrā Budhavāla Circuit | Sections 134–136; covers Dīpa, Gūnamatī

Simarivār Khauāla Circuit | Sections 137–141; covers Sārisab, Rāmapura

5.2 Migration Patterns

By tracing which villages consistently appear as bride-sources (saṃ) versus groom-sources, the Uṭīp allows reconstruction of marriage migration patterns. Key observations:

Darbhanga (Darahārā) appears as both a donor and recipient village, confirming its status as a major urban center where multiple lineages converged. Khaṇḍabalā functions primarily as a donor village — its Siṃha noble houses gave daughters to Brahmin scholars across many circuits. Sārisab, Māṇḍar, Pābaulī, and Saudāpur are high-frequency bilateral nodes — indicating dense, long-term marriage exchange between these villages. Villages in Nepal's Terai (referenced obliquely through "Nepal" mentions and cross-references to Nepalese Maithili texts) are linked into the network, confirming the system's trans-national geographic span.

The migration of individual families is also directly documented: entries noting a family "moving to" (ujāna — upstream or distant settlement) a new location, or being categorized as Pūrvārīpāra (eastern circuit) versus Paścimārīpāra (western circuit), create a spatial map of demographic movement within Mithila over centuries.

6. THE PAÑJĪ AS ANTHROPOLOGICAL INSTITUTION

6.1 A System of Social Verification and Identity Control

The Pañjī Prabandha is, in anthropological terms, one of the world's most sophisticated systems of identity management. Comparable institutions include:

- Chinese clan genealogies (zǔpǔ) — which are, however, primarily archival and commemorative
- European noble genealogies maintained by Heralds — primarily concerned with property and title
- Jewish oral genealogies (yichus) — more status-conferring than regulating

The Pañjī is unique in combining all three functions — archival, status-conferring, and actively regulatory — with a professional maintenance class (Pañjikāra), formal cross-referencing, and binding social authority. No

marriage among regulated Maithili Brahmin families could be solemnized without Pañjī clearance.

6.2 The Pañjikāra as Social Specialist

The Pañjikāra family (or families) who maintained these records functioned as a distinctive social sub-caste. Their knowledge was hereditary, professional, and monopolistic. From the anthropological evidence in this text:

- They maintained multiple physical volumes (the cross-references span several hundred pages in each volume)
- They memorized lineage trees to a depth of 15–20 generations
- They officiated at marriage negotiations as expert witnesses
- They charged fees for their services (this is documented in historical accounts of the system)
- Their authority was recognized across the entire Mithila region, transcending local political boundaries

The Uṭip itself represents the Pañjikāra's working notes — the supplementary register needed when the main Pañjī was too general to capture all branches. Its existence signals the system's adaptive capacity: as families proliferated and migrated, the Pañjī expanded accordingly.

6.3 Gender in the Pañjī System

The Pañjī is, structurally, a patrilineal document: it traces descent through the male line and records women primarily as connection points between lineages (as daughters of X who married Y). Women appear in the Pañjī only through their fathers and husbands.

However, this is not to say women were genealogically invisible. On the contrary:

- A woman's gotra and mūl are crucial data for marriage clearance (she must not share her husband's gotra)
- The maternal line (the ddau side) is recorded at every generation — meaning every man's mother's father's lineage is documented
- "Dampati lekhaka" (husband-wife writers) traditions documented in Videha archives show that women did participate in literary production

- The "Gośāunī putrī" (daughter of Gośāumñī) entries and "sutāśca" (sons and daughters) notations acknowledge female progeny even if not genealogically traced further

6.4 Polygamy, Succession, and Social Complexity

The repeated "apara" (second wife, third wife) entries reveal that polygamy was normalized and systematically documented among the elite Brahmin families recorded here. Observations:

- Multiple wives were common — entries with three or four "apara" wives per man appear
- Each wife's children are carefully separated and their maternal lineages independently verified
- Half-siblings from different mothers are genealogically distinguished even though they share the same father
- Childlessness (some entries trail off with "saṃ ... suta ... dau ... saṃ ... ddau" with blanks) is recorded but not stigmatized

This systematic polygamy documentation reflects a society where elite male status enabled multiple marriages, but also where the resulting genealogical complexity required institutional management — which the Pañjī provided.

7. LINGUISTIC AND TEXTUAL ANALYSIS

7.1 The Language of the Pañjī

The text is written in Classical Maithili in its specialized genealogical register — a formal, highly compressed dialect distinct from literary or spoken Maithili. Key features:

- Archaic Maithili grammatical forms (suto/sutau/suta for singular/dual/plural children)
- Sanskrit-derived technical vocabulary (gotra, pravara, mūla, Vaidika, Māmāṃśaka)
- Village-name inflections in the ablative (Sārisab saṃ = "from Sārisab")
- Extreme compression — each entry encodes 4–5 generations of genealogical data in 2–3 lines
- Numbers in parentheses as cross-references — an indigenous citation system

- Abbreviations: pr./pro. for prāyukta (alias), Ut. for Uṭīp, Sha. for Śāka era dating

The document's dating references alternate between two systems: Śāka era (śāo — adding approximately 78 years to get Common Era year) and the Uṭīp's own internal numbering, indicating the system was maintained across multiple historical periods using period-appropriate dating conventions.

7.2 The Formula as Cultural Code

The standardized genealogical formula — "[Person] suto [Child]: [Village] saṃ [Name] suta [Name] dau [Village] saṃ [Name] ddau" — is a cultural code of extraordinary density. A single line encodes:

- Paternal descent (father's name, grandfather's name)
- Village of domicile (current family location)
- Mother's paternal lineage (maternal grandfather's name and his village)
- Maternal great-grandfather's lineage (ddau side, second degree)
- Cross-reference to main Pañjī volume for verification

This formula has remained stable for centuries — entries from the early Śāka-era sections use the same grammatical structure as entries from 2009, demonstrating the conservatism of the institutional genre.

7.3 Devanagari Script and Maithili Orthography

The document uses Devanagari script with Maithili-specific orthographic conventions. Notable features include the use of the anusvāra (nasalization mark) in positions unusual for standard Hindi or Sanskrit, and the preservation of certain old Maithili phonological distinctions. The Tirhuta script (native to Mithila) is not used in this volume, which is printed in Devanagari for wider accessibility — consistent with the Videha movement's biliteracy approach.

8. THE "GENOME MAPPING" METAPHOR: A CRITICAL ANALYSIS

8.1 Why "Genome"?

The title's invocation of "genome mapping" is not accidental or merely ornamental. It represents a deliberate intellectual argument made by the editor (Gajendra Thakur) and the Videha Parallel Literature Movement:

- Like a genome, the Pañjī is a complete, continuous, and self-referencing record of biological and social inheritance
- Like genomic data, Pañjī information is used to make decisions about compatibility and future inheritance
- Like genomic mapping projects (which reconstruct evolutionary history), the Pañjī traces historical lineages with precision
- Like genomic databases, the Pañjī is maintained by specialists, cross-referenced, and updated continuously

8.2 The Biocultural Argument

The metaphor makes an implicit biocultural argument: that the Pañjī system has, for 1, years, been performing the same function as modern population genetics — tracking heritable traits (in this case, social and ritual traits defined as heritable: gotra, pravara, mūl) across a large, geographically dispersed population.

From an anthropological standpoint, this is a defensible claim. The Pañjī has, in effect, created a centuries-long natural experiment in endogamy and kinship regulation, the demographic consequences of which could in principle be analyzed using modern tools. The 450 A.D.–2009 A.D. span represents approximately 50–60 generations — a genealogical dataset of extraordinary depth.

8.3 The Political Argument

The metaphor also serves a political function within the Videha movement's agenda: it asserts the scientific and scholarly equivalence of indigenous knowledge systems with Western academic disciplines. By framing the Pañjī as "genome mapping," the text claims for it the prestige of modern science while insisting it is genuinely indigenous — a rebuttal to the colonial-era dismissal of traditional Indian knowledge as unscientific or merely superstitious.

9. THE VIDEHA PARALLEL LITERATURE MOVEMENT: CONTEXT

9.1 Counter-Canonical Scholarship

This document is published under the aegis of the Videha Parallel Literature Movement, founded by Gajendra Thakur, editor of Videha (videha.co.in), the first Maithili fortnightly eJournal. The Movement is explicitly positioned as a counter-canonical alternative to the Sahitya Akademi institutional authority.

The decision to publish a work like the Pañjī Uṭīp within this counter-canonical framework is significant: it asserts that the Pañjī tradition — marginalized by mainstream Maithili literary institutions as "mere genealogy" — is in fact a sophisticated literary and scholarly genre deserving serious academic attention.

9.2 Digital Preservation as Political Act

By digitizing, editing, and making accessible the Pañjī Uṭīp through the Videha platform, Thakur performs an act of cultural preservation with political dimensions:

- Endangered knowledge: The Pañjikāra tradition is declining as younger generations abandon the hereditary profession
- Digital accessibility: Moving from manuscript/printed register to digital text vastly increases accessibility
- Linguistic assertion: Publishing in Maithili (rather than Hindi or English) asserts the language's sufficiency for serious scholarship
- Community memory: For Maithili Brahmin families scattered across North Bihar and the diaspora, digital Pañjī access reconnects them to genealogical roots

9.3 Scholarly Innovation

The framing of the Pañjī as "Genome Mapping" and the integration of modern credentials (IAS, D.G.P., M.B.B.S.) alongside medieval titles (Mahāmahopādhyāya, Vaidyakaraṇī) within the same institutional record is itself a form of scholarly innovation — a demonstration that indigenous knowledge systems have the capacity to absorb and incorporate modernity on their own terms, without dissolving into it.

10. HISTORICAL DEPTH: TEMPORAL LAYERS IN THE DOCUMENT

10.1 Śāka Era Dating

The document uses Śāka era dates (denoted by "Sha." or śāo) for older entries. The Śāka era begins in 78 A.D. Therefore:

- Śāka 78 = 156 A.D.
- Śāka 800 = 878 A.D.
- Śāka 1900 = 1978 A.D.

References to Śāka dates in the 100–300 range (corresponding to approximately 178–378 A.D.) would place some lineage origins in the pre-Gupta to early Gupta period — consistent with the document's claim of coverage from 450 A.D. References in the 1900+ range align with the late 20th century, when the most recent entries were recorded.

10.2 Evidence of Medieval Lineages

Several entries document individuals with classical Sanskrit scholarly titles (Māmāṃśaka, Vaidyakaraṇī, Jyautiṣī) who would have flourished in the medieval period (roughly 1000–1700 A.D.). The Pañjī's capacity to trace from these scholars to their living 20th-century descendants is its most remarkable historical feature — it provides a continuous thread through the medieval and early modern periods for which other historical documentation of ordinary (non-royal) families is extremely scarce.

10.3 Continuity Through Political Disruption

The period 450–2009 A.D. encompasses the Gupta Empire, the Pāla dynasty, Sultanate rule, Mughal suzerainty, British colonial administration, and post-Independence India — multiple complete transformations of the political order. Through all of this, the Pañjī system continued. This continuity itself is a major historical fact: it demonstrates that the Maithili Brahmin community maintained institutional self-governance through kinship and matrimonial regulation that survived political disruption. The Pañjī is thus also a history of community resilience and institutional durability.

11. OBSERVATIONS AND CONCLUSIONS

11.1 What This Document Tells Us About Mithila

Reading this Uṭīp carefully yields the following observations of anthropological, sociological, and historical significance:

- Mithila's Brahmin community was extraordinarily geographically mobile within the region — families moved between dozens of villages across multiple generations, but maintained genealogical connectivity through the Pañjī
- Scholarly achievement (Sanskrit grammar, philosophy, astrology, poetry) was not individual but lineage-embedded — the same families produced scholars across generations, and this was tracked and celebrated
- The transition from medieval to modern was not disruptive but cumulative — modern credentials were added to, not substituted for, traditional ones
- Women were genealogically essential though textually marginal — every man's maternal lineage was recorded to three degrees, making women crucial nodes even within a patrilineal system
- The document reflects a community with high levels of internal social differentiation that was carefully managed through an information system rather than through political coercion

11.2 The Document's Significance for Genealogical Scholarship

This Uṭīp represents one of the most substantial collections of continuous genealogical data available for any South Asian community. Its significance for genealogical scholarship includes:

- Depth: 1, years of continuous lineage data in a single community
- Breadth: Hundreds of families across dozens of villages documented simultaneously
- Verification: Cross-referencing system creates internal consistency checks
- Modernity integration: Seamless incorporation of post-1947 credentials
- Bi-directional tracing: Both paternal (suta) and maternal (dau/ddau) lines documented

11.3 Limitations and Lacunae

No scholarly report would be complete without acknowledging limitations:

- Gender bias: Women's own lineages are not traced forward — daughters vanish from the record after their marriage entry
- Social exclusivity: The Pañjī documents only Brahmin (and some Kāyastha-adjacent) families — the vast majority of Mithila's population (Dalit, OBC, Muslim, and other communities) are entirely absent
- Scribal variation: The compression of the format means errors, omissions, and ambiguities are difficult to detect without cross-referencing multiple volumes
- Oral supplement: Much Pañjī knowledge was oral and has not been systematically captured in the written record
- Ink of entries: This volume (2009 A.D.) captures a moment — many entries trail off with blanks, indicating ongoing recording

11.4 Final Assessment

The Jīnom Maipīṅg — Mithilāk Pañjī Prabandha, Volume II, Section 2 (Uṭīp) is a document of world-class significance for the study of genealogy, kinship, social stratification, community identity, and indigenous knowledge systems. It represents an unbroken scholarly and social tradition of fifteen centuries, maintained by a community that understood — long before modern bioinformatics — that tracking hereditary information systematically across generations is one of the most powerful tools for social organization.

Its publication within the Videha Parallel Literature Movement places it squarely within a project of cultural recovery and reassertion: the argument that the intellectual traditions of Mithila are not mere historical relics but living, evolving systems of knowledge production that deserve the same scholarly attention as any academic discipline. The "genome mapping" metaphor is thus both analytically precise and politically meaningful — a claim that indigenous science is science, and that the Pañjī Prabandha is one of humanity's great unrecognized intellectual achievements.

Chapter 13

Genome Mapping Volume I: Analytical Report on Mithilak Pañjee Prabandha

GENOME MAPPING OF MITHILA

An Analytical Report on Volume II of

Jeenoam Maeping (450 A.D. – 2009 A.D.) — Mithilak Panjee Prabandha

A Comprehensive Scholarly Examination in Anthropology, Sociology, and
Genealogy

Prepared as an Explanatory Academic Report

Prefatory Note: What This Document Is

The uploaded document, bearing the title Jeenoam Maeping (450 A.D. – 2009 A.D.) – Mithilak Panjee Prabandha, is Volume II (Khanda 2) of a monumental genealogical compilation concerning the Brahmin (Maithil Brahmin) community of the Mithila region in the present-day states of Bihar and Jharkhand in India, as well as parts of the Terai region of Nepal. The work represents a continuation — likely one of multiple volumes — of what the editors and compilers call a 'Genome Mapping' of Mithila across approximately fifteen centuries, from the mid-fifth century of the Common Era to the first decade of the twenty-first century.

This report explains, in full scholarly depth, what the document is, what tradition it belongs to, what information it encodes, how that information is structured, what social and cultural realities it reflects, and why such a document is of extraordinary significance in the fields of historical

anthropology, Indological studies, social history, caste sociology, and the theory of oral and textual genealogical knowledge systems.

Section I: The Panjee Tradition — Origins and Historical Context

1.1 What Is the Panjee System?

The Panjee Prabandha (literally 'genealogical administration' or 'genealogical management') is a centuries-old institution unique to the Maithil Brahmin community of the Mithila cultural zone. The word 'Panjee' derives from the Sanskrit/Maithili root meaning 'register' or 'record.' The institution is, in essence, a living database of patrilineal descent, managed by a hereditary class of professional genealogists called Panji Bads or Panjeekar.

The origins of the Panjee system are traditionally ascribed to the reign of Harsimha Deva (circa 1301–1324 CE), a king of the Karnat dynasty who ruled Mithila from Simraon. According to tradition, he commissioned the first systematic genealogical registration of Maithil Brahmin families to regulate marriage alliances and prevent violations of gotra (patrilineal clan) and pravara (lineage categories within a gotra) exogamy rules. The system has been maintained — with updates, additions, and revisions — ever since, making it one of the oldest continuously operative genealogical registries in the world.

The document's subtitle calls the work a 'Genome Mapping,' deploying a contemporary scientific metaphor deliberately: just as modern genomics maps the genetic lineages of populations, the Panjee system maps social and genealogical lineages in explicit, codified, and verifiable form.

1.2 The Maithil Brahmin Community: Sociological Overview

The Maithil Brahmins are a sub-group of the broader Brahmin varna (the priestly-scholarly class in the Hindu caste hierarchy). They are associated specifically with the Mithila region, a cultural-geographical area centred on the ancient city of Videha/Mithila (modern Sitamarhi, Madhubani, Darbhanga, and Muzaffarpur districts of Bihar). Maithili is their mother tongue, one of the recognized literary languages of India, belonging to the Magadhan Prakrit family.

Within the Maithil Brahmin community, the Panjee system applies specifically to those who have registered their families within it — known as Shrotriyas (those who follow Vedic learning and tradition). The document deals with lineages traced across numerous villages, collectively constituting what scholars call the panjika's 'territory' (khanda or division). Volume II represents a particular territorial and genealogical bloc.

The community is itself sub-divided by numerous criteria that the Panjee system meticulously tracks: gotra (exogamous patrilineal clan, tracing back to a Vedic sage), mool (the original ancestral village or founding site), mula-purusha (founding progenitor), and shreni (quality-rank within the community, e.g., Shrotriya, Yogya, or Jayyach).

1.3 The Professional Genealogist (Panjeekar)

The Panjeekar (keeper of the Panjee) is a hereditary professional genealogist whose family has maintained the records of specific segments of the Maithil Brahmin population across generations. A Panjeekar does not merely copy records; he actively updates them by visiting client families, recording births, deaths, marriages, and migrations, and encoding this information in the compact formula-notation that the Panjee employs. His authority is recognized by the community: no marriage can be contracted between two Maithil Brahmin families without consulting the relevant Panjeekar to verify that no prohibited relationship exists.

The Panjee as a system thus functions as both a historical archive and a living regulatory institution — a 'genealogical constitution' of the community, to use a modern analogy.

Section II: Structure and Format of the Document

2.1 The Title and Volume Context

The document is paginated as pages 2. through 2., indicating it is an internal section of the second khanda (volume/section) of a larger work. The running header reads: 'Jeenam Maeping (450 A.D. se 2009 A.D.) – Mithilak Panjee Prabandha' — 'Genome Mapping (from 450 CE to 2009 CE) — Genealogical Administration of Mithila.'

The subheading on each page reads 'Khanda 2 — Upatip' (Volume 2 — Sub-record/Annotation). The term Upatip (from Sanskrit upa = 'secondary' or

'supplementary' + tip = 'note') signals that these are detailed sub-records or glosses, as opposed to the main tabular Panjee records. This is a recognized division within Panjee scholarship: the main Panjee contains compressed entries, and the Upatip contains expanded genealogical notes with fuller family histories.

2.2 Geographical Organization

The entries in Volume II are organized geographically — by village (gram) of origin or residence. Each block of entries is introduced by a heading announcing the gram and the administrative direction (purvari par = eastern bank; pashchhari par = western bank) or the paar (territorial division). This reflects the fact that the Panjee system's territorial organization follows river systems and directional quadrants: villages on the eastern and western banks of rivers like the Kamla, Bagmati, Kosi, and their tributaries are treated as distinct units.

In the segment of the document we have, the following villages and localities appear as major nodes:

Fawaripar Satoli — Gangoli Najira (entries 155–158)

Purvari Par Rajora — Rampur (entries 159–161)

Sihauli — Lohana, Charou (entries 162–175)

Sulhani — Manglabani, Naruaar (entries 183–194)

Pude — Mahaail, Koilarbaha (entries 197–207)

Bhour — Rajgram, Hemnagarr (entries 215–224)

Loam — Sugaun, Dugaganj (entries 208–213)

Kandhouli — Katihaar (entries 213–214)

Each village name is followed by genealogical entries for the families traced to that village. The cross-referencing between villages is constant: families moved, married across localities, and the Panjee tracks both the home village (mool grama) and the current village of residence.

2.3 The Grammatical-Notational System

The Panjee uses a highly compressed, formulaic notation in Maithili-Sanskrit mixed script (Devanagari). Understanding this notation is the key to reading the document. The following is a systematic decoding:

Core Genealogical Terms

Suta / Sutou / Suta:Son / Two sons / Sons (plural). This is the primary descent marker. 'X suta Y' means 'X's son is Y.'

Dau / Dou:The father-in-law's side (the bridegroom's father / the person through whom the wife is given). Encodes the marriage alliance: 'X suta Y, Village A se Z suta W dau' = 'X's son Y was given in marriage [to a bride] from Village A, [specifically through] the lineage of Z's son W [as the officiating party].'

Ddau (written as d^dou):The maternal grandfather's line (nana paksha). Double-dau encodes the maternal genealogy of the bride.'

Pr. / Pra.:Abbreviation for 'prakhyaat' = 'known as,' 'alias,' or 'popular name.' Maithil Brahmins commonly had a formal name and a familiar nickname. E.g., 'Feku pr. Dinabandhu' = 'Feku, known formally as Dinabandhu.'

Apara:'Another [entry for the same person],' indicating an alternative alliance or additional genealogical information.'

M.M.U. / Maho.:'Mahaamahopaadhyaya' — a very high scholarly-honorific title indicating a person of great learning; equivalent to a Distinguished Professor or highest academic honor. Entries bearing M.M.U. signal an individual of outstanding scholarly distinction.'

Vaidyak / Vaiya.:Abbreviation for 'Vaiyaakarana' — a specialist in Sanskrit grammar (Vyaakarana). Marks a person as a professional grammarian.'

Nauyi / Naiyayik:A specialist in Nyaya philosophy (logic and epistemology). Marks a professional logician.'

Jyotirvidh / Jyo.:An astrologer-astronomer.'

Sahityakaar:A literary author or poet.'

Kavi:Poet.'

S. / Sa.:'Swaami' (gentleman, master) or a rank indicator.'

Thakur / Th.:A title of social honor, particularly for Kayastha and upper-caste families who are not Brahmins but appear in the Panjee as marriage alliance partners; also used for Brahmins of the kshatriya-aligned Bhumihaar class.'

Babu / Vabu:'Gentleman/Master,' a honorific for zamindars (landed gentry), rajas, and men of rank. Entries reading 'Vabu X Singh' or 'Babu X Singh' indicate landed aristocracy.'

Maharaj:'Great King,' used for actual royalty or major zamindars of quasi-regal status.'

Raja:'King,' applied to regional rulers and large zamindars.'

Ray / Rai:A title of the Kayastha (administrative/clerical caste) upper class; also used for distinguished Brahmin scholars granted this title by rulers.'

Da. / Daa.:'Doctor' (Da. = Dr.), appearing in later entries indicating modern medical or academic degrees (e.g., 'Da. Shyamsundar MBBS CS').'

M.A. / Ph.D.:Modern academic degrees, appearing in entries from the twentieth century.'

I.A.S. / I.P.S.:Indian Administrative Service / Indian Police Service — elite civil service cadres, their mention signals exceptional social achievement.'

Lt. Colonel:Military rank, appearing in the twentieth-century entries.'

Reference Numbers

Each genealogical entry contains references in the format '(U.T. xxx/yy)' or '(Ra. xxx/yy)'. These are cross-references to specific entries in the main Panjee register:

U.T. = Upatip (the supplementary annotation volume itself, cross-referencing back to other entries).

Ra. = The main register number and sub-entry number.

The number before the slash is the main register folio or entry number; the number after is a sub-entry or variant.

These cross-references are the connective tissue of the system — they link scattered families across the entire corpus of Panjee volumes.

2.4 Directional Indicators and Territorial Divisions

Entries frequently mention:

Purvari par = eastern bank (of a river, used as a territorial marker).

Pashchari par / Fawaripar = western bank.

Ujan = upstream.

Grambhog = the 'gram-bhojan,' i.e., a village's inauguration or establishment marker.

These terms establish spatial coordinates within the Panjee's organizational grid. Mithila's genealogical geography is structured along river systems

(Kamla, Bagmati, Kosi, Gandak), and the directional indicators tell the reader on which bank and in what direction from a reference point the village lies.

Section III: Content Analysis — What the Entries Tell Us

3.1 Patrilineal Descent and the Male Line

The foundational logic of the Panjee is agnatic (patrilineal) — descent flows exclusively through males. Every entry records a father-to-son chain. The depth of genealogical memory encoded is remarkable: in many entries, six to nine generations of continuous male descent are recorded within a single compressed line.

A typical entry reads (transliterated and translated): 'Rananath suta Shivankara pra. Rudranath Harshankara pra. Adyanath Dayankara Samankara Shambhushankara Vijayashankaraa: Khandbala se Khagpati Singh suta Vabu Harshpati Singh dau (Ra. 294/102) Hariyambha se Panchamani ddau.'

Decoded: The sons of Rananath are Shivankara (alias Rudranath), Harshankara (alias Adyanath), Dayankara, Samankara, Shambhushankara, and Vijayashankara. [Concerning their marriage alliance:] From the village Khandbala, [they married into the family of] Khagpati Singh's son Vabu Harshpati Singh [as the dau-party, i.e., the bride-giving side]. Cross-reference: Register 294, sub-entry 102. On the Hariyambha side, Panchamani is the maternal grandfather's representative (ddau-party).

The information density is extraordinary. In one formulaic sentence, we learn: six sons of one man; the village of the groom's family; the names of two generations on the bride-giving side; and two cross-reference numbers linking to full entries elsewhere.

3.2 Marriage Alliance Networks (Kula and Rista)

The Panjee's deepest sociological function is to map marriage alliances. Every genealogical entry records, for each male member, the marriage alliance through which his wife came — specifically identifying the bride's father's family (dau side) and the maternal grandfather's family (ddau side). This dual recording reflects the Maithil Brahmin custom of tracking three generations of genealogical distance to prevent close-kin marriage.

The villages that appear as dau and ddau partners in the document represent the actual geographical range of marriage networks. From the entries, we can identify that families from the following villages routinely intermarried:

Saurisab (Sarisab): appears dozens of times as a dau or ddau source village.

Paboli (Paboli/Paholi): similarly frequent.

Karimahāl (Karimaha): very frequent — one of the major alliance villages.

Niyaun (Niuan): appears constantly as a marriage source.

Sodarpur (Sodaipur): extremely frequent throughout.

Khandbala (Khandbala): frequent, and associated with several Babu/Raja families.

Hariyambha: appears throughout as a ddau source.

Dariharaa (Darbhanga area): consistent presence.

Pali: very frequent across all sections.

Maandaar (Mandar): frequent.

Bujuwal, Kujowuli, Paholi, Saksarhi, Ekahar, Pandua: all repeatedly named.

This inter-village marriage network, when mapped graphically, would reveal the precise geographic extent of the Maithil Brahmin matrimonial universe — and by extension, their social solidarity network — across at least the districts of Madhubani, Darbhanga, Sitamarhi, Muzaffarpur, Samastipur, and parts of Begusarai in Bihar.

3.3 Titles, Professions, and Social Ranks

One of the most ethnographically rich aspects of the document is its recording of titles and professions alongside genealogical data. These annotations reveal the occupational and status differentiation within the Maithil Brahmin community across centuries.

Scholarly Titles

The title M.M.U. (Mahaamaahopaadhyaya) appears multiple times, indicating individuals who attained the highest recognition in Sanskrit learning. One entry mentions 'M.M.U. Sadananda' and 'M.M.U. Sadan suta Maho. Shashthiīnath Mishra,' signalling a family of multi-generational scholars. The Vaiyaakarana (grammarian) title appears for specialists in Sanskrit grammar — a highly prestigious specialization in Mithila, which was for centuries a major center of Sanskrit grammatical scholarship (the

Maithil school of grammar, represented by figures like Chandradhar Mishra, was nationally renowned).

The Naaiyayik (Nyaya logician) designation, appearing for example in 'Naiyayik Maho. Durgadhar suta Nagesh Vidyadharo,' identifies specialists in the Nyaya-Vaisheshika philosophical-logical tradition, for which Mithila was the most important center in India from the twelfth to eighteenth centuries — home to the philosopher Gangesa Upadhyaya (c. 1325 CE), founder of the Navya-Nyaya (New Logic) school.

Royal and Aristocratic Titles

The document records multiple families bearing the title Raja and Maharaja: 'Maharaj Maarav Singh suta Maharaj Chhatrasingh,' 'Raja Devanarayana suta Raja Rupanarayana,' 'Raja Lilanada Singh.' These are not emperors but regional rulers and zamindars (landed aristocrats) — the holders of large estates (talukas, villages) under the Mughal, British, and post-independence revenue systems.

The Babu/Vabu title (used extensively for the Khandbala estate's Singh family: 'Vabu Samapati Singh,' 'Vabu Khagapati Singh,' 'Vabu Harshpati Singh,' 'Vabu Ganesha Singh,' etc.) marks a prominent zamindari lineage whose members held social power in the Mithila region over several centuries. Similarly, the Ray families (like 'Ray Chilka pra. Chandranarayan') are from the Kayastha administrative class, indicating that the Panjee tracked inter-caste alliances as well.

Modern Professional Titles

In entries from the twentieth century, the Panjee incorporates modern credentials alongside traditional ones, demonstrating the institution's adaptive capacity: 'Da. Shyamsundar (M.B.B.S., C.S.),' 'M.A., Ph.D.,' 'I.A.S.' (Indian Administrative Service), 'I.P.S.' (Indian Police Service), 'Lt. Colonel Gurakar,' 'Prof.,' 'Dr. Pro. Principal (B.N. College, Patna).' One entry names 'Soc. Prof. Ugranath' (a professor of sociology). This intergenerational continuity of recording — from Sanskrit pandits to MBBS doctors to IAS officers — across fifteen centuries within a single notational framework is without parallel in any known genealogical system.

3.4 Female Presence in a Patrilineal Document

While the Panjee is fundamentally patrilineal, women are not entirely absent — they appear structurally, as the pivot of the alliance system. Every dau/ddau recording implicitly encodes a woman: she is the person through whom the two families are connected. The bride is never named — she is genealogically invisible in the patrilineal chain — but the families from which she comes are always recorded. This structural invisibility of women, combined with the structural centrality of their movement between families, is one of the most sociologically significant features of the system.

In some entries, we glimpse widows, second wives (through 'apara' second-alliance entries), and in very rare cases, women's names appear in the context of female lineages or matrilineal cross-references in the ddau entries. The Maithil system, unlike some North Indian hypergamous systems, maintains strict records of both bride-giving and bride-taking across multiple generations, which paradoxically creates a more complete (if implicit) archive of women's genealogical role than systems that record only the male line.

3.5 Migration, Settlement, and Demographic Patterns

The Panjee entries track geographical mobility. Every entry records both the ancestral village (from which a family originates) and the current village (where the alliance is contracted). Phrases like 'Gram Aarambha' (beginning of the village's record) mark new village entries, indicating when a family relocated and established itself in a new place.

From the document, we can identify several major patterns:

Movement between the Madhubani, Darbhanga, Sitamarhi, and Muzaffarpur districts of Bihar is constant. Families from Sihaoli marry into Lohana; families from Rajgram connect with Charou; families from Sulhani spread into Manglabani and Naruaar.

There is a clear directional drift: many families move from eastern areas (near the Nepal border) southward and westward toward larger towns and administrative centers — Darbhanga, Muzaffarpur, Patna.

Some entries show families settling in Jhanjharpur, a significant market town in Madhubani district, and Champanagar, reflecting urbanization trends.

Entries for Lalgang (Lalganj), a town near Madhubani, appear in the context of twentieth-century families, reflecting post-independence urban migration.

Nepal-proximate villages (Sugaun, Alai areas) appear frequently, reflecting the historical Mithila cultural zone that straddles the modern India-Nepal border.

Section IV: The Social Ecology of the Khandbala Estate

4.1 The Khandbala Singh Family as a Social Pivot

Throughout the document, one family stands out as exceptionally prominent: the Singh family of Khandbala (Khandabala). In Maithil genealogical terms, the Singhs of Khandbala are Bhumihars or high-caste Kayasthas who had achieved zamindar (landowning) status. They appear not as Brahmins in the Panjee proper but as the marriage-giving family (dau side) for numerous Brahmin households — meaning Brahmin families were taking brides from or giving brides to the Khandbala estate.

The names recorded for this family over several generations include:

Vabu Samapati Singh, Vabu Khagapati Singh, Vabu Harshpati Singh, Vabu Prajapati Singh, Vabu Punyapati Singh, Vabu Sureshwara Singh, Vabu Harsharani Singh, Vabu Adyadatta Singh, Vabu Giteshwara Singh, Vabu Durgapati Singh, Vabu Lalit Singh, Vabu Vijayapati Singh, Vabu Ganesha Singh.

Maharaj Maarav Singh, Maharaj Chhatrasingh, Maharaaja Rudra Singh, Maharaj Maheshwar Singh, Maharaj Kameshwar Singh.

The sheer frequency of the Khandbala family as a marriage-alliance partner — appearing in dozens of entries across the document — indicates that this zamindari family was one of the central social nodes of the Mithila matrimonial universe during the seventeenth through early twentieth centuries. Their repeated appearance reflects the social reality of Brahmin-Bhumihar or Brahmin-Kayastha alliances, which were common in Mithila despite theoretical caste endogamy, and which the Panjee faithfully records without disapproval.

4.2 Other Prominent Lineages

The document records several other families whose genealogical depth and social importance are evident from the frequency and elaboration of their entries:

The Sadananda lineage from Sulhani Niaun: A family of long-standing Sanskrit scholars (M.M.U. Sadananda, M.M.U. Sadde = Sadananda), connected to several distinguished branches.

The Ramanarayana/Devanarayana Royal Ray family of Loam-Sugaun: A Kayastha Raja family whose sons bore titles like Raja Devanarayana, Raja Rupanarayana, Raja Sriinarayan. Their descendants include Ray Ghagopala Narayana, Ray Chetanarayana, and into the twentieth century Ray Lilananad Narayana.

The Darbhanga Maharaja family: Tangentially referenced through the mention of Maharaj Rudra Singh and Maharaj Maheshwar Singh of Khandbala, who connect to the broader Darbhanga Raj genealogical orbit.

The Tanaranath/Acharya family of Pude: Recording 'Acharya Ramanath' whose sons hold M.A., Ph.D. degrees, and 'Sahityakaar Prof. Tantranath'— a professor and literary figure — indicating a scholarly family that transitioned from Sanskrit to modern academia.

Section V: Temporal Depth — Fifteen Centuries of Record

5.1 The Chronological Range and What It Implies

The document's subtitle explicitly states coverage from 450 CE to 2009 CE — roughly 1, years. This is not rhetorical: the Panjee tradition claims (and the oldest layers of the records substantiate) genealogical memory reaching back to the period of early medieval Mithila, when the Kayastha-Brahmin cultural synthesis that defines Maithil civilization was being consolidated.

From an anthropological standpoint, this temporal depth is extraordinary. Most genealogical systems in the world lose reliable track of descent after four to seven generations (roughly 100–175 years). Systems that claim depth beyond this typically become mythological — listing legendary ancestors rather than historically traceable individuals. The Panjee system's claim to fifteen centuries of reliable genealogy is debated by historians, but what is not debatable is that the recorded entries from the seventeenth century onward are historically verifiable against land records, temple inscriptions, Sanskrit manuscripts, and colonial-era survey records.

In the document before us, entries from what appears to be the seventeenth through early twentieth centuries are the most densely populated with verifiable data. The earliest layers (pre-1600) are sparser, suggesting that

these older entries were reconstructed from fragmentary sources during the major Panjee revivals (in the sixteenth and again in the eighteenth-nineteenth centuries, during the Darbhanga Maharaja's active patronage of Panjee compilation).

5.2 Dating of Internal Events

An extraordinary detail appears in one entry: 'Iti Paan Vidyananda Suputrasya Abhinava Muraari Pathhadhi Satoli Darihara Upatip Aashaadha Sapami Budha — 09..2008 Wednesday.' This is a colophon note — a scribal annotation — recording the date and day of completion of a specific Upatip section: 9 July 2008, a Wednesday, in the Hindu month of Aashaadha. This type of embedded scribal dating is invaluable for scholars: it proves the document's compilation is modern (the 2009 endpoint in the title is thus corroborated) and shows that active fieldwork for these entries was conducted by the Panjeekar as recently as 2008.

Section VI: The Loam-Sugaun Section — A Case Study in Depth

6.1 The Loa-Sugaun Entries (Sections 208–212)

The document contains an especially detailed section covering the village of Loam (Loa), within the Sugaun area, which records the extensive genealogy of the Ray (Rai) family that held the status of local rulers. Entry 208 begins: 'Atha Loam Sugaun Gram Likhate — (125/04) Ray Chilka Prasiddha Chandranarayan sutaa Raja Devanarayana Raja Shri Narayana Ray Shyamanarayana Ray Lalit Narayana Ray Kirti Narayana:...'

This records the sons of the distinguished Ray Chilka (alias Chandranarayan): Raja Devanarayana, Raja Shriinarayana (who became a Raja), Ray Shyamanarayana, Ray Lalitnarayan, and Ray Kirtinaarayan. The entry then follows Raja Devanarayana's line for several more generations, ultimately recording his descendants in the twentieth century bearing names like Ray Vijayanarayana, Ray Chetanarayana, Ray Homendranarayan, Ray Sanjiv, Ray Sameer, down to one who holds the title 'I.A.S.' (Naresh Chandra, I.A.S.) — a member of the Indian Administrative Service, the elite civil service of independent India.

This single lineage thus compresses in its record the social transformation of Mithila from medieval regional kingship (Raja, 17th-18th century) through colonial-era zamindari (Ray, 19th century) to post-independence meritocratic civil service (I.A.S., 20th century) — three distinct regimes of social power, all within one family's recorded genealogy.

6.2 The Bhour-Rajgram Kshatriya Thakur Families (Sections 215–224)

The Bhour-Rajgram section is the most extensive in the document and records the genealogy of what appears to be a Kayastha-Kshatriya family of considerable local power: the Thakur (Th.) families of the Rajgram area. Unlike the Brahmin lineages elsewhere in the document, these families bear the title Thakur and their male members use Singh as a suffix — both markers of Kshatriya or Kayastha status.

The foundational figure recorded is 'Bhaiyan pra. Gouriinaath' (Bhaiyan, alias Gouriinaath), whose sons are 'Ajit Singh, Udghot Singh, Ujha Singh, Ravuni pra. Vujuwal.' The subsequent generations expand dramatically: within three generations, the family had multiple branches extending through Mohan Singh, Jagat Singh, Damoder Singh, Mahaaraaj Krsna Singh, Mahaaraaj Chhatrasingh, and Mahaaraaj Rudra Singh — suggesting a family that achieved quasi-regal status by the eighteenth century.

Particularly notable is the extended treatment of the 'Dharma-Shura Mahaamaahopaadhyaya Krsna Singh' and his descendants — the title M.M.U. applied to a Kshatriya (non-Brahmin) individual is exceptional and signals a family that had achieved Sanskrit scholastic distinction alongside their martial/administrative identity. His sons include Visheshwara Singh, Theghnaath Singh, and Kaarinath Singh — the last of whom is followed by grandsons bearing modern legislative titles: 'Member of Legislative Assembly (Bihar) Kamalnath Singh Thakur' — a democratically elected lawmaker in independent India.

Section VII: The Navya-Nyaya Scholarly Tradition in the Entries

7.1 Mithila as the Center of Indian Logic

Among the most intellectually significant entries in the document are those that record individuals designated as Naiyayika (specialists in Nyaya philosophy). The Nyaya school, founded by the sage Gautama, is one of the six orthodox systems (astika darshanas) of Hindu philosophy. Its focus is on the theory of knowledge (epistemology) and logic. Mithila was, from approximately the twelfth century through the eighteenth century, the preeminent center of Navya-Nyaya (New Logic) — the reformed, technically sophisticated Nyaya philosophy associated above all with Gangesa Upadhyaya (c. 1325 CE) of Mithila.

Entry 165 records: 'Naiyayika Maho. Durgadhara sutou Nagesh Vidyadhara: Pali se Nairik Sharanaath suta M.M.U. Da. Sh. Ganganaath dau (U.T. 37/10) Sakaradhi se Vaiya. Harshanaath ddau.' This records a distinguished scholarly family: 'Naiyayik Maaho. Durgadhara's sons Nagesh and Vidyadhara [married into the family of] Nairik Sharanaath's son, the M.M.U. Dr. Sir Ganganaath [as the dau party].'

The mention of 'M.M.U. Da. Sh. Ganganaath' is of the highest historical significance: this is almost certainly a reference to Mahamaahopaadhyaaya Dr. Sir Ganganatha Jha (1871–1941), one of the greatest Sanskrit scholars of the twentieth century, who served as Vice-Chancellor of Allahabad University and was knighted ('Sir') by the British Crown for his monumental translations of Sanskrit philosophical texts. His appearance in the Panjee as a dau-side marriage partner confirms his Maithil Brahmin identity and locates him within this very genealogical network.

7.2 Philosophical-Academic Descent Chains

The document records entire families of scholars across generations. For instance, in Section 204, the Tanaranath family of Pude is recorded as: 'Tanranath suta: Acharya Ramanath M.A.Ph.D., Sahityakaar Pro. Tantranath, Sachinaath, Bodhanath pra. Surial, Ravinaath pra. Sunil.' Acharya Ramanath's own sons are listed with their degrees: 'Mrinanath M.A.P.H.D., Mahinath M.A.P.H., Naranath M.A.P.M., Duganath M.A.P.H.D., Vidyanaath.'

This family's trajectory — from the traditional scholarly title Acharya (Brahmin teacher) through to multiple PhD holders — exemplifies the continuity between the traditional Sanskrit pandita and the modern academic professor that characterizes the Maithil intellectual class's engagement with modernity. That the Panjee continues to record their genealogy in the same format used for medieval pandit families is a testament to the system's durability.

Section VIII: Anthropological and Sociological Significance

8.1 The Panjee as a Social Technology

From a sociological perspective, the Panjee system represents one of humanity's most elaborate 'social technologies' — a deliberately designed institutional mechanism for managing social reproduction. Its primary social functions include:

Exogamy regulation: preventing marriage between relatives within prohibited degrees, defined by gotra, pravara, mool, and genealogical proximity.

Status validation: certifying the caste authenticity and social standing of families seeking prestigious marriage alliances.

Alliance memory: preserving the network of existing alliances across generations, which has implications for inheritance, ritual obligations, and social solidarity.

Social mobility tracking: recording the rise of families through scholarly achievement, political power, or economic success — and, implicitly, the decline of families that disappear from the records.

8.2 The Panjee as an Archive of Social History

For historians, the Panjee volumes constitute a primary source of extraordinary value. The entries in this volume alone document:

The zamindari system of colonial Bihar, through the frequent mention of Babu, Raja, and Maharaja titleholders who were the intermediary landowners under British revenue law.

The emergence of a modern educated class among Maithil Brahmins — the doctors, professors, IAS officers, and lawyers — from the late nineteenth century onward.

The persistence of inter-village marriage networks across colonial boundaries, suggesting that social life operated at a scale and with a logic that the colonial administrative grid only imperfectly captured.

The geographical spread of families — from Nepal's Terai through northern Bihar — which illuminates the transnational character of Maithil culture long before 'transnationalism' became an analytical category.

8.3 The Panjee and Women's History

The Panjee presents a profound paradox for feminist historical anthropology: it is a document that simultaneously renders women invisible (by name) and indispensable (by function). Every family entry is structured around a woman's movement — from her natal family to her marital family — as the mechanism that creates genealogical connections. The dau and ddau formulas encode, in compressed form, the entire system of women's exchange that anthropologists call the 'alliance theory of kinship' (associated with Claude Lévi-Strauss and Marcel Mauss).

A rigorous feminist reading of the Panjee would trace the invisible women behind every alliance entry. For example, the entry 'X suta Y, Karimahāl se Z suta W dau, Niyaun se M ddau' records that Y married a woman who came from Karimahāl (Z's son W is her father or guardian) and whose maternal family is from Niyaun (M is the maternal grandfather). Three family networks are implicitly encoded in a six-word formula — and at the center of all three is an unnamed woman.

8.4 The Panjee and the Theory of Social Memory

The Panjee represents what sociologists call 'institutionalized social memory' — memory that is externalized from individual minds into a text-based system maintained by professionals. Maurice Halbwachs's concept of 'collective memory' and Jan Assmann's 'cultural memory' both find in the Panjee an unusually pure and explicit instantiation.

Unlike oral genealogies (which are subject to telescoping, inversion, and selective forgetting), the Panjee preserves genealogical information in a form that resists distortion: its cross-referencing system means that any single entry is embedded in a web of mutual citations, making fraudulent alteration detectable. The cross-references to other volumes, the registration numbers, the colophon dates — all these serve as internal consistency checks that give

the system a degree of archival integrity unusual for pre-modern record-keeping.

Section IX: Textual and Linguistic Analysis

9.1 The Language of the Panjee

The language of the document is a specialized register of Maithili heavily inflected with Sanskrit grammatical forms and technical genealogical vocabulary. It is neither classical Sanskrit nor colloquial Maithili but a professional technical idiom developed specifically for the Panjee tradition.

Key linguistic features include:

Sanskrit case endings applied to Maithili nouns: 'Sutah' (nominative singular), 'Sutou' (nominative dual), 'Sutaa:' (nominative plural) — the three forms used to indicate one son, two sons, or multiple sons.

Sanskrit compounds for titles: Mahaamaahopadhyaya (Great Most Respected Teacher), Vaiyaakarana (grammarian), Jyotirvidh (astrologer), Sahityakaara (literary author).

Maithili syntax in the ordering of information: the Subject-Object-Verb order and the use of 'se' (from) as the ablative marker ('Karimahah se' = 'from Karimahah').

Devanagari script with Maithili-specific orthographic conventions: the half-character forms, the nasal markers, and the vowel matras follow Maithili rather than Hindi conventions.

9.2 The Script and Encoding

The document uses Devanagari script, the standard writing system for Maithili (alongside the indigenous Tirhuta/Mithilakshar script, which the Panjee tradition historically used but which has now largely been superseded by Devanagari in printed editions). The use of Devanagari for this compilation reflects the twentieth-century standardization of Maithili typography. The original Panjee manuscripts, preserved by individual Panjee families, were traditionally written in Tirhuta/Mithilakshar on palm leaves or later on paper.

Section X: The Panjee in the Modern World — Continuity and Contestation

10.1 The Panjee's Adaptation to Modernity

The document before us was compiled or finalized in 2008–2009, as evidenced by the internal scribal date. This means that as recently as one generation ago, professional Panjiikars were actively conducting genealogical surveys of Maithil Brahmin families across Bihar and Nepal, recording marriages, births, and professional credentials in the same notational system used by their predecessors centuries earlier.

The inclusion of modern credentials (Ph.D., M.B.B.S., I.A.S., Lt. Colonel) alongside traditional titles (M.M.U., Vaiyaakarana, Naiyayik) within the same entries demonstrates the Panjee's remarkable adaptive flexibility. Rather than becoming a museum artifact, it has continued to evolve as a living register — incorporating the new status markers of the modern world without abandoning the genealogical logic that gives it its regulatory and historical function.

10.2 Critiques and Contestations

The Panjee system has not been without controversy. From a sociological standpoint, it has been criticized as:

A mechanism for enforcing caste hierarchy: by making marriage validation dependent on Panjee certification, the system maintains Brahmin endogamy and excludes inter-caste alliances from legitimate genealogical memory.

A patriarchal instrument: by recording only male lines and treating women as unmarked genealogical conduits, it participates in the systematic erasure of women from historical record.

A class-biased archive: by recording primarily families of sufficient social standing to warrant Panjee registration, it systematically underrepresents poorer or lower-status Maithil Brahmin families.

A site of potential manipulation: several studies have documented cases where families paid for fraudulent Panjee entries to claim higher social status (higher shreni = higher ritual rank within the Brahmin hierarchy).

These critiques notwithstanding, the Panjee remains one of the most significant genealogical archives in the world — invaluable for historical, anthropological, demographic, and linguistic research.

10.3 The 'Genome Mapping' Metaphor

The deliberate deployment of the scientific metaphor 'Genome Mapping' in the title of this compilation deserves comment. The compilers/editors of this work (associated with the Videha literary-scholarly movement, as the context suggests) are consciously repositioning the Panjee tradition within a discourse of modern scientific precision and analytical rigor. Just as genomic DNA encodes the biological heritage of an individual, the Panjee encodes the social-genealogical heritage of a community.

The metaphor is apt in several ways: both systems track descent across multiple generations, both use systematic notation to compress complex information, both serve regulatory functions (the genome regulates biological development; the Panjee regulates social reproduction), and both can be 'read' by specialists to extract information invisible to the untrained eye. The metaphor is also productively ironic: genomics is a universal, caste-blind science, while the Panjee is a caste-specific social technology — the juxtaposition highlights both the system's sophistication and its historical embeddedness in caste society.

Section XI: Conclusion

The document Jeenoam Maeping (450 A.D. – 2009 A.D.) — Mithilak Panjee Prabandha, Volume II (Khanda 2, Upatip), pages 2. to 2., is a segment of one of the most extraordinary genealogical archives in the world. It belongs to the Panjee Prabandha tradition of the Maithil Brahmin community of Mithila — a system of professional genealogical management that has been maintained continuously for approximately seven centuries.

As a document of anthropological and sociological significance, it encodes:

Patrilineal genealogies spanning six to nine generations per entry, across dozens of villages in Bihar and Nepal.

Marriage alliance networks linking families across a geographic area of hundreds of square kilometers.

Titles, professions, and social ranks spanning from medieval Sanskrit scholarship (M.M.U., Vaiyaakarana, Naiyayik) through colonial-era aristocracy (Raja, Maharaja, Babu) to modern meritocracy (Ph.D., I.A.S., M.B.B.S.).

Demographic evidence of urbanization, migration, and occupational change over three centuries.

Indirect evidence of women's social role, movement, and function within a patrilineal kinship system.

Cross-references to a larger corpus of Panjee volumes that together constitute an unparalleled multi-century social database.

For scholars of Indian history, Maithili linguistics and literature, Sanskrit philosophical traditions, caste sociology, genealogical science, and the anthropology of kinship — this document, and the larger tradition it represents, constitutes a resource of the highest importance. Its careful scholarly edition and analysis represents a critical contribution to the preservation and interpretation of one of South Asia's most complex and durable social institutions.

Chapter 14

Pampilā Pañjī, Khaṇḍa 3 — Nāgarāma: Comprehensive Analytical Report (Volume I)

Comprehensive Analysis: Nāgarāma Panji Prabandh (Khanda 3) Videha Parallel Literature Series

Comprehensive Analytical Report

Nāgarāma Khanda (Khanda 3) of the
Pampilā Panji Prabandh (Genome Mapping 450 AD – 2009 AD)

jīnoma maipiṃga (450 e.ḍī. sa~ 2009 e.ḍī.) – pampilā ñjī prabandha

Prepared by: Gajendra Thakur, Founder-Editor, Videha (videha.co.in)

Videha Parallel Literature Movement | A Counter-Canonical Analysis

I. Document Identity and Nature of the Source

The document under analysis is Khanda 3 (khaṇḍa 3), the Nāgarāma section, of the Pampilā Panji Prabandh — a monumental Maithil Brahmin genealogical register stretching from circa 450 AD to 2009 AD. The full title rendered in the document itself reads: 'jīnoma maipiṃga (4 e.ḍī. sa~ 2 e.ḍī.) – pampilā ñjī prabandha', which the compilers have imaginatively translated as 'Genome Mapping', acknowledging the panji system's function as a biological and social record of descent lines across fifteen-plus centuries.

The panji is not simply a genealogical tree. It is simultaneously a legal instrument (marriage eligibility is determined by consulting it), a sociological archive (recording village affiliations, professional titles, and marital alliances), a linguistic record (preserving old Maithili orthography and place-

name forms), and a political document (reflecting the distribution of learned Brahmin families across the Mithila region and its diasporas extending to Bengal, Nepal, Purnea, Muzaffarpur, Munger-Banka, Saharsa, Madhubani, Darbhanga, and Champaran). This Khanda covers the 'Nāgarāma' territorial cluster — a web of villages in the Madhubani-Darbhanga belt — and contains 225 numbered blocks spread across pages 3. to 3. of the printed edition.

1.1 The Panji System: An Institution

The Pampilā Panji tradition is traced to Harisingh Deva, king of Mithila (fl. 14th century), who commissioned a systematic registration of Maithil Brahmin families under five Panji offices, each responsible for a territorial cluster. The Nāgarāma Panji was one of these five, covering the central and northern Madhubani region. The register was maintained orally and in manuscript form, updated by hereditary Panji officers (panjikāra). The present printed edition represents a modern consolidation and 'genome mapping' of those records — cross-referenced, indexed by serial number, and extended to living individuals as of approximately 2005–2009.

The social function is critical: no Maithil Brahmin marriage is considered legitimate without panji consultation. The register determines whether a proposed alliance would violate the rules of sapinda (common ancestor within seven generations) or sagotra (same clan/lineage). The document thus continues to have immediate legal-social force for the Maithil Brahmin community worldwide, including in diaspora settings.

1.2 Layout Conventions and Reading Grammar

The document follows a formulaic grammar that the reader must decode to extract meaning. Every block is structured around a chain of descent expressed through the following grammatical particles in Maithili:

suta / sutā / suto | son/s / daughter/s / two sons — the subject of the main descent line

dau (dauhitra) | grandson through a daughter = maternal uncle-nephew linkage, indicating the person's mother's natal family

ddau (dauhitrīdauhitra) | two generations maternal; marks the second maternal cross-reference

tha. (thākura) | honorific prefix; denotes a male head of household of high standing

pā~ (pā~ca = paṃcāṃga) | prefix indicating a scholar-astrologer family or learned Brahmin

jyo. (jyotiṣī) | jyotiṣī — hereditary astrologer; professional title retained as prefix

vaiyā. (vaiyākaraṇa) | grammarian; indicates formal training in Sanskrit Vyākaraṇa

maho. (mahopādhyāya) | mahopādhyāya — an honorific Sanskrit title for senior scholars

ma.ma. (mahāmahopādhyāya) | the highest traditional Sanskrit scholar's title

pra. (prasiddha nāma) | 'known as'; marks an alternate/popular name following the formal name

karamahā, valiyāsa, sakarādhī... | village names — the key geographic cross-references in every block

aparā | another; marks a second or subsequent wife's lineage or son

The reading direction is: Personal name → titles/aliases → village of bride's family → her father's name → her father's father's name → marker 'dau' → maternal cross-link village → maternal grandfather's name → 'ddau'. Each such unit describes one marriage alliance. Multiple 'aparā' sections describe polygamous or subsequent alliances.

II. Territorial Geography of the Nāgarāma Cluster

The Nāgarāma Khanda is named for the central hub village of Nāgarāma, which functions as the nodal reference point for this cluster's panji office. The territorial extent documented in this Khanda is vast, encompassing villages across at minimum five modern districts of Bihar and beyond. The following geography is decoded from the block headings:

2.1 Core Villages (Primary Settlement Zones)

The primary genealogical villages — those whose male lines are traced as the 'main' descent — include: Sandahpur (sandahapura), Shishpur (śiśapura), Katka (kaṭakā), Khāngud (khā~guṛa), Sakurī (sakurī), Sarisab (sarisaba), Bhad-gāma (bhaṛagāma), Gaur Sodarpur (gaura sodarapura), Raiyan (raiyaṃa), Digaundh (digaundha), Mahishī (mahiṣī), Kanhaulī (kanhaulī), Suvai (sakurī pallī), Phūldāhā (phūladāhā), Jamdaulī (jamadaulī), Harisaulī (hasaulī), Jagaur (jagaura), Khorī (khorara), Rohand (rohāṛa), Pāchadhī (pacāṛhī), Parahi (parahī), Haripur (haripura), Samaiyā (samayā), and Sukhait

(sukhaita). These are the villages whose Brahmin families' descent lines form the structural backbone of the Khanda.

2.2 Alliance Villages (Cross-Reference Matrix)

The marriage-alliance villages — cited in the 'dau/ddau' positions — constitute a far broader network. Recurring alliance villages mentioned across hundreds of blocks include: Karamahā (karamahā), Valiyās (valiyāsa), Sarisab (sarisaba), Pandua (paṇḍuā), Khauāl (khauāla), Pālī (pālī), Saurath (saurāṭha), Sodarpur (sodarapura), Bhaurālī (bhaura-khaṇḍabalā), Dandapāṇi (daṇḍapāṇi), Darihara (darihara), Ekahara (ekaharā), Pabauli (pabaulī), Māṇḍar (māṇḍara), Kusaut (gusauta), Jajiwāl (jajjivāla), Bhelaum̐c (belau~ca), Naraun̐ (narauna), Pahilwārā (pahalavārā), Kujaulī (kujaulī), Uchit (ucita), Bharatpurā, Gusaut, Saktihā (satalakhā), and dozens more.

This network extends geographically beyond the core Madhubani district into: Darbhanga (villages like Valiyās, Pandua, Sodarpur), Sitamarhi (Naraun̐), Muzaffarpur (Bachha-kotā area, Machakanautā), Purniyā (Nāhar, Banaili, Rāṇīṭol), Saharsa-Supaul (Dātha, Berāhī), Champaran (Canapur, Pacadhī), and Nepal (Janakpur belt). The diaspora reach documented includes Bhagalpur, Munger, and even references to urban postings.

2.3 Village Name Standardisation Issues

A significant research challenge in this document is the variable spelling of village names. The same village appears under multiple orthographic forms: 'valiyāsa / baliyāsa / valiyāma' are all the same Valiyās; 'bhelau~ca / belau~ca / velau~ca' are all Bhelaum̐ca. This reflects the organic, oral transmission of the panji tradition and the multiple hands involved in compilation. Cross-referencing requires a normalisation map of approximately 60–80 village name variants.

III. Deep Structural Analysis of Selected Blocks

The following section provides close analytical readings of specific numbered blocks. Each block is treated as a unit of genealogical, linguistic, sociological, and historical data. The blocks are selected to represent different types of lineage structures, title clusters, geographic zones, and temporal depths.

3.1 Blocks 1–4 (Pages 3.2–3.3): Sandahpur–Sishpur Cluster

Block 1 — (nagarāma sandahapura sa~ sihavāra, Page 3.2)

This is the opening block of the Khanda and encodes one of the most structurally complex lineage chains, beginning from a reference point coded as (270/2), which is a cross-index to another Panji register. The genealogical chain opens:

ṭha. ā~khī sutā lāla pra. guṇākara udana paraśmani hīrākā karamahā sa~ nanū
sūta gaṃgeśa dau (270/5) paḍuā sa~ pā~ paśupati dau ṭha. lāla suto
nagaradhārī abadha nabahārī kau hariama sa~ bhavakṛṣṇa sūta prānnātha dau
dariharā sa~ śivadatta dau

Decoding this opening chain reveals several layers simultaneously:

NAME STRUCTURE: The first named individual is 'ṭha. ā~khī' (Thākur Āṃkhī) — 'Āṃkhī' is an informal/affectionate name (literally 'eyes'), extremely common in Mithila's folk naming tradition where body-part names, nature names, and auspicious syllable combinations are used. His children are listed: 'lāla pra. guṇākara' (Lāl, known as Guṇākar), 'udana', 'paraśmani', and 'hīrā'. The 'pra.' abbreviation (prasiddha = popular name) indicates that 'lāla' was the formal panji name but 'guṇākara' was how he was actually known — a crucial distinction showing the gap between registration names and living identities.

ALLIANCE STRUCTURE: 'karamahā sa~ nanū sūta gaṃgeśa dau' tells us that the daughters of Āṃkhī married into the Karamahā village, specifically into the family of Gaṃgeśa, son of Nanū. The name 'gaṃgeśa' (Gaṃgeśa) is significant — it is a Navya-Nyāya philosopher's name, specifically borne by Gaṃgeśa Upādhyāya of Navadvīpa (Darbhanga origin, fl. c. 1325 AD), the founder of the Tattvacintāmaṇi school. This raises the question of whether this entry records an early alliance with the philosopher's family or a namesake tradition honouring him. The cross-reference '(270/2)' suggests the full lineage pre-dates this section and can be found in another Khanda.

DESCENT CONTINUITY: 'ṭha. lāla suto nagaradhārī abadha nabahārī kau' — Lāl (= Guṇākar) had two sons: Nagardhārī and Avadhnavaḥārī. The coupling 'suto...kau' (suton...kau) is the dual form, indicating exactly two male heirs. 'hariama sa~ bhavakṛṣṇa sūta prānnātha dau' — Nagardhārī's family sought a bride from Hariam village, from the family of Prānnātha, son of Bhavakṛṣṇa. This is then counter-linked: 'dariharā sa~ śivadatta dau' — the maternal counter-link goes to Darihara village, specifically Śivadatta.

What this complex four-village network (Sandahpur origin → Karamahā alliance → Hariam bride → Darihara maternal link) in a single opening paragraph reveals is the principle that Maithil Brahmin marriage alliances operated as a quadrilateral system: one does not simply note a marriage, but records the full four-node genealogical context that determines future marriage eligibility for all descendants.

Block 2 — Second Branch from Sandahpur (Page 3.2)

Block 2 continues the Sandahpur–Sishvad lineage but focuses on a different sub-branch beginning with 'ṭha. udana' (Udana), a brother of Āṃkhī's children. The critical entry reads:

ṭha. harṣamani pra. naharā suto bācāka: karamahā sa~ citradhara suta ṛddhi
dau dariharā sa~ binū dau ṭha. bācā sūtā bālāmukunda rājā gānā chedīkā

Here 'harṣamani pra. naharā' (Harṣamaṇi, known as Naharā) has one son Bācā. The name 'naharā' is an interesting informal name from the Maithili folk lexicon, and 'harṣamani' is a compound of 'Harṣa' (joy/delight) + 'maṇi' (gem) — a style of naming reflecting the 'gem of joy' sentiment. Bācā's four children are: Bālāmukunda, Rājā, Gānā, and Chedī — note that 'Rājā' is used as a personal name, not a title. This is characteristic of Mithila naming practice where royal epithets (Rājā, Rāṇā, Thākur) circulate as given names, especially in high-status Brahmin families.

'ṭhe. bāla mukunda sūtā paṇḍuā sa~ pā~ buddhinātha suta pā~ thādū dau karamahā sa~ śyāmanātha dau' — Bālāmukunda's family is identified through double alliance: bride from Pandua (family of Thādū, son of Buddhinātha, himself a 'pā~' = learned Brahmin) and maternal link to Karamahā (Śyāmanātha). The title 'pā~' on both 'pā~ buddhinātha' and 'pā~ thādū' indicates this was a hereditary scholarly family of the Pandua cluster.

Block 5 — Sandahpur to Shishpur Lineage (Page 3.2–3.3)

Block 5, headed 'sandahapura sa~ śiśapura (367/2)', is structurally rich because it shows the branching of a single ancestral line into multiple geographically dispersed sub-families over several generations. The entry opens:

ṭha. bandhu suto madhurāpati narapati pālī sa~ nandana suta manahara dau khauāla sa~ vidyāpati dau ṭha. madhurāpati suto vācha śivānandano belau~ca sa~ lālā suta bālacandra dau karamahā sa~ vaṃśīdhara dau

The name 'narapati' (Narapati = lord of men) alongside 'madhurāpati' (Madhurāpati = lord of sweetness/Mathura) in the same sibling set shows the poetic naming conventions of the period. 'ṭha. bācha sutā citradhara caṇḍidatta phatura rāma lakṣmaṇa' — four sons with markedly different naming styles: Citradhara (pictorial/artistic name), Caṇḍidatta (gift of goddess Caṇḍī), Phaturam (vernacular Maithili-Hindi compound), and Lakṣmaṇa (Rāmāyaṇa epic name). This mixture of Śākta names (Caṇḍidatta), Vaiṣṇava-epic names (Lakṣmaṇa), and folk Maithili names (Phaturam) in one sibling set reflects the religious pluralism of 17th–18th century Mithila households.

'sakarāḍhī sa~ devakṛṣṇa suta śyāmalāla dau hariama sa~ ramānātha dau' — The bride for Citradhara's line comes from Sakrādī village, family of Śyāmalāl son of Devakṛṣṇa, with maternal link at Hariam (Ramānātha). This is the first appearance in Khanda 3 of the Sakrādī cluster, which emerges as one of the most frequently cited alliance villages across the entire Nāgarāma Khanda.

The most significant entry in Block 5 is the sub-branch 'muktinātha sutā vighneśa dineśa bhavēśa maheśā' — four sons of Muktinaātha all bearing names ending in '-eśa' (lord), a poetic symmetry in naming that marks a cultivated literary family. The subsequent generation: 'ṭha. vidhneśa sutā vaccā pra. umeśa pīlū nareśa pūranā' shows the next generation using more informal names alongside formal ones — 'pīlū' is an extremely informal/affectionate diminutive.

3.2 Block 33 (Page 3.11): Khāngud to Padahiya — A Three-Generation Scientific Profile

Block 33 is one of the most intellectually significant in the entire Khanda because it records a lineage containing a professional scientist (yaṃtrajña = mechanical/instrument engineer) alongside traditional scholarly designations.

yaṃtrajñadayānātha sutā tārānanda candrānandau sakarāḍhī sa~ lānhā suta gokulānanda dau pālī sa~ pā~ curmana dau (tārānanda suto narendra amarendro

The prefix 'yaṃtrajña' (Yantrajna = one who knows/works with machines/instruments) applied to Dayānātha is a remarkable intrusion of modern professional vocabulary into the ancient panji genre. The panji traditionally used titles like 'vaiyākaraṇa', 'jyotiṣī', 'mahopādhyāya'. The appearance of 'yaṃtrajña' signals that this individual was an engineer or

technical professional in the colonial or early post-independence period. The panji officer preserved this designation as part of identity, just as it had preserved 'pāṭhaka', 'jyotiṣī', and 'vaidya' for generations.

Dayānātha's two sons: Tārānanda and Candrānanda. The alliance for this generation: 'sakarādhī sa~ lānhā suta gokulānanda dau' — from Sakrādī, the family of Gokulānanda son of Lānhā. Tārānanda's two sons Narendra and Amarendra represent the generation born roughly in the 1930s–1950s. The subsequent entry reveals a further evolution:

candrānanda suto sañjaya: mahiṣī budhavāla sa~...harivaṃśa dau sakurī
valiyāsa...sa~...dau sañjaya suto...cainapura (baluā)...

Candrānanda's son Sañjaya (Sanjay) represents the generation of the 1960s–70s. His marriage alliance extends to Chainpur (Balua) — a location in Saharsa/Supaul district — demonstrating how the Nāgarāma panji network by the late 20th century spanned an increasingly wide geographic radius. 'jayanātha suto sadācārī arthaudyamī ramānanda sūryamanando' — this entry is extraordinary. The name 'arthaudyamī' (Arthaudyamī = economic entrepreneur/businessman) is used as a personal designation alongside the formal name 'ramānanda', indicating that by the time this person was being registered, the panji had extended its professional title vocabulary to include modern economic categories. This family shows the complete arc from 'yaṃtrajña' (engineer-grandfather) to 'arthaudyamī' (businessman-son) across two generations.

Further in Block 33: 'lalana pra. śyāmānanda suto varuṇa| ānahila hariama sa~ guṇānanda suta nāgeśvara dau śrīmān guṇānanda suto sadāvattī nāgeśvara (pra. a.) ḍā. pro. arthaśāstrī (lakṣmeśvaro)' — here 'ḍā. pro. arthaśāstrī' (Dr. Professor, Economist) is inserted as a professional designation before a formal name. The full title cluster on one individual — Dr., Professor, Economist (Artha-śāstrī) — followed by the personal name Lakṣmeśvara shows how the panji adapted to absorb modern academic credentials as identity-defining markers. This professor-economist's lineage goes back to the 'yaṃtrajña' engineer in the same block, giving us three professional generations visible within the genealogical record.

3.3 Block 122 (Page 3.35): Kanhaulī to Māmgarauṇī — The Justice, the IAS Officer, and the C.P.M. M.P.

Political and Administrative Professions in the Panji

Block 122 contains one of the most politically significant clusters in the entire Khanda. It is headed 'kanhaulī sa~ māmgarauṇī (62)' and contains an extraordinary concentration of high modern public offices recorded within a single genealogical sequence:

dūtakhī pra. lūṭaneśvara sūtā bhaiyā candrā pra. sadde jāge hīṃgū nagirajā
rājendrā: pālisa~ nityānanda suta bholānātha dau pabaulī sa~ nārāyaṇadatta
ddau śītala sūtā jāstisa amaranātha kamalanātha pro: trilokanātha I.A.S.
vindunāthā dariharā sa~ digambara suta vaiyā. śivaśaṃkara dau didhosa~
muktinātha ddau

Śītala's four children are listed: Justice Amarnātha, Kamalnātha, Prof. Trilokanātha (I.A.S.), and Vindunātha. The designation cluster here is unprecedented: a High Court Justice ('jāstisa'), a Professor who is also an IAS officer (the rare combination of academic and administrative civil service), all within one sibling set.

The marriage-alliance entry for this generation reads 'dariharā sa~ digambara suta vaiyā. śivaśaṃkara dau didhosa~ muktinātha ddau' — the bride came from Darihara village, family of Vaidyākaraṇa (Sanskrit grammarian) Śivaśaṃkara son of Digambara. This pairing of a Justice/IAS family in the groom's line with a traditional 'vaiyākaraṇa' family in the bride's line illustrates the social dynamics of mid-20th century Maithil Brahmin marriage alliances: modern credentials were valued, but traditional scholarly lineages remained prestigious marriage targets.

Earlier in the same block: 'jyotiramaṇa sūtā paṇḍuā sa~ guṇānanda suta mejara kṛṣṇānanda dau karamahā sa~ narasiṃha ddau' — the maternal alliance cites 'mejara kṛṣṇānanda' (Major Krishnānanda), a military officer from Pandua village. Military rank as a genealogical identifier appearing in the panji marks the early 20th century period of Maithil participation in the British Indian Army.

Still further in Block 122: 'vakīla śaṃkarānanda sūtā ambikānanda vivekānanda śitalānanda mitrānandā: narauna sa~ śarmabhunātha suta phuṇccī pra. śaktinātha dau' — 'vakīla śaṃkarānanda' (Advocate/Lawyer Śaṃkarānanda) is another modern professional title inserted as a genealogical identifier. His children all bear '-ānanda' suffixed names:

Ambikānanda, Vivekānanda, Śītalānanda, Mitrānanda — all spiritually charged names, the selection of 'Vivekānanda' being particularly notable as it echoes the name of the great 19th-century Vedānta reformer, suggesting the family's intellectual-spiritual orientation in the nationalist period.

The climactic entry in Block 122 comes near the end: 'kālikānanda suto kulānanda: lakhanaura jhūmjhārapura karamahā sa~ devānanda suta khagendra dau... vakīla śaṃkarānanda suto tulānanda C.P.M. (M.P.) caturānandā:' — here 'C.P.M. (M.P.)' — Communist Party of India (Marxist) Member of Parliament — appears as a political designation in the panji. Tulānanda served as a CPI(M) Member of Parliament, and this fact is recorded in the genealogical register as a defining identity marker for future marriage consultation purposes, just as 'jyotiṣī' or 'mahopādhyāya' had been recorded for previous generations. This is arguably the most ideologically startling entry in the document: a communist parliamentarian's credentials enshrined in a Brahmin genealogical register that governs marriage eligibility through descent and purity calculations.

3.4 Block 148 (Page 3.42): Raiyan to Rājahaḍā — The Allahabad University Connection

The Most Concentrated Academic Cluster

Block 148 is exceptional for its concentration of academic credentials in a single family unit. It documents the 'Jigdev' (jayadeva) family of the Raiyan Sodarpur village:

ma.ma. jayadeva sūtā (EX.V.C. ALLAHABAD UNIVERSITY) ma.ma. pā.
ḍā. umeśa rameśo khauāla sa~ yadunātha suta janaka dau sodarapura sa~
hanumāna ddaū

The full credential string attached to Jayadeva is breathtaking: 'ma.ma.' (Mahāmahopādhyāya — the highest traditional Sanskrit title) + 'EX.V.C. ALLAHABAD UNIVERSITY' (former Vice-Chancellor of Allahabad University, one of India's premier institutions). The fusion of the medieval Sanskrit honorific 'mahāmahopādhyāya' with the modern academic administrative title 'Ex. Vice Chancellor' on a single individual embodies the Maithil Brahmin ideal of being simultaneously rooted in the Sanskritic tradition and achieving distinction in the modern Western-educated administrative framework.

His sons: 'ma.ma. pā. dā. umeśa' (Dr. Umesh, also a Mahāmahopādhyāya and 'pā.' scholar) and 'rameśa'. Dr. Umesh's children: 'pro. jayakānta (Writer Hist.ry of Maithile Literature) pro. kṛṣṇakānta bhūgarbhaśāstrī vijayakānta prabhākānta pro. sudhākānta' — five children. 'Writer History of Maithile Literature' is recorded in parentheses in Roman script as a distinguishing attribute — indicating that Prf. Jayakānta had published a history of Maithili literature, perhaps one of the early systematic studies of the field. 'bhūgarbhaśāstrī' (Bhūgarbhaśāstrī = geologist) appears as a professional designation for Vijayakānta — geology as a modern science entering the panji vocabulary.

The marriage alliance for this generation: 'narauna sa~ taskara ke śava suta surendra dau dariharā sa~ lakṣmīkānta ddau' — the bride's family from Naraun is identified with 'taskara' (Taskara) as a personal name before 'keśava'. 'taskara' literally means 'thief/smuggler' but functions here purely as a personal name — Maithili folk naming includes deliberately inauspicious or 'anti-name' conventions (just as parents sometimes named children 'Chor', 'Bikhāri', or similar words as protective amulets against evil eye or early death).

The geographical reach of this family is also significant: 'Dr. Jayakānta suta...Phandaha sâṇ son Parmananda dau...Pandua sâṇ pâm Shivnandin d'dau' — the marriage went to Phandaha and Pandua villages, extending the alliance network across three distinct territorial clusters of the Nāgarāma Panji zone.

3.5 Block 183 (Page 3.54–3.55): Rohad to Bhavānīpur — A Political Dynasty

The Chaudhary (cau.) Baccū Dynasty and Regional Political Power

Block 183 presents what is arguably the most politically concentrated lineage in the entire Khanda. Beginning with 'cau. baccū' (Chaudhary Baccū), it documents five generations of a family in which regional political power is explicitly recorded as genealogical identity:

cau. baccū sutā ānanda kiśora yugala kiśora navala kiśora nagaravara kiśora
nandana kiśora paravana kiśorā: valiyāsa sa~ suphala suta rājā dau (09/17)
karamahā sa~ śītalādatta ddau

Chaudhary Baccū had six sons, all bearing names ending in '-kiśora' (Young Lord): Ānanda Kiśora, Yugala Kiśora, Navala Kiśora, Nagaravara Kiśora,

Nandana Kiśora, and Paravana Kiśora. The repetition of the suffix creates a naming system within the family — a signature pattern that allows instant identification of siblings and establishes a strong family brand. The 'cau.' (Chaudhary) prefix indicates zamindari/landed gentry status.

The son Dharmanarayaṇa's descendants are then catalogued with remarkable specificity: 'harinārāyaṇa suvendra nārāyaṇa mapendra nārāyaṇa śobhendra nārāyaṇa surendra nārāyaṇā' — five sons again using a suffix-repetition system with '-nārāyaṇa'. Then: 'surendra nārāyaṇa suto śailendra vijayendra mahendra...vuārā' — 'vuārā' is an informal/family nickname. The names 'śailendra' (Śailendra), 'vijayendra' (Vijayendra), 'mahendra' (Mahendra) are all Indra-compound names, another systematic family naming convention.

The entry 'harinārāyaṇa sutā suśīla indra vinoda aśoka manojā' shifts to entirely modern, colloquial names — Sushil, Vinod, Ashok, Manoj — marking a generational break in naming convention that correlates with post-independence urbanisation. The Indra-Nārāyaṇa compounds give way to single-syllable Bollywood-era names.

Block 184 continues this lineage and records: 'yugala kiśora suto upendra nārāyaṇa: valiyāsa sa~ raghuvīra suta gayādatta dau (B 57//5) sarisaba sa~ batahana ddau' — noting '(B 57//5)' as a cross-reference to another register entry. 'upendra nārāyaṇa sutā rāmamohana śyāmanareśa' — the progression from 'nārāyaṇa' compound names to simple 'rāmamohana' and the adjective-style 'śyāmanareśa' (Śyāma-Naresh = dark lord, also evocative of Kṛṣṇa) shows the continuing evolution of naming conventions within the same bloodline.

Block 185 then enters the explicitly political sphere: 'parabala kiśora suto devendra nārāyaṇa: hāṭī pālī sa~ yadurāi suta prayāgadatta dau khauāla sa~ ugranātha ddau' and then 'jagadīśa nārāyaṇa sutā...gusauta sa~ kumarasuta śrīpati dau jajjivāla sa~ bhaiu ddau'. The final entry in Block 185 records: '(389//8) pati suto manīka: alaya sa~ janādamana suta anātha dau (330/2) sodarapura sa~ lakṣamana ddau' — cross-references '(389/8)' and '(330/2)' point to entries in other Panji Khandas, indicating this dynasty's descent is documented in at least three separate territorial registers, signalling its pan-Mithila importance.

IV. Evolution of Professional Titles: A Longitudinal Analysis

One of the most historically valuable analytical layers of the Nāgarāma Panji is the sequential record of professional designations across generations. Unlike modern genealogical records that note only names and dates, the panji preserved occupational identity as an intrinsic component of a person's genealogical signature. The following analysis traces the arc from traditional to modern professional titles across the 225 blocks:

4.1 Traditional Scholarly Titles (Pre-1800)

pā~ (pā~cāṅḡika) | Hereditary almanac-maker / astro-calendar specialist. Appears in Blocks 1, 5, 16, 26 etc.

jyo. (jyotiṣī) | Hereditary jyotiṣī / astrologer. One of the most common titles. Blocks 5, 14, 22, 38, 65, 91 etc.

vaiyākaraṇa (vaiyā.) | Sanskrit grammarian. Blocks 27, 28, 55, 66, 91, 109, 117, 148, 196 etc.

mahopādhyāya (maho.) | Senior teacher/scholar, higher than 'paṇḍit'. Blocks 11, 38, 65, 91, 126, 136 etc.

ma.ma. (mahāmahopādhyāya) | Highest traditional Sanskrit title. Blocks 38, 51, 91, 112, 148, 190 etc.

paurāṇika | Specialist in the Purāṇas; hereditary Kathā-performer. Blocks 66, 106, 166 etc.

nalatṛiṣāstrācārya | Expert in three traditional sciences. Block 72, rare specialist title.

tāṃtrika śiromaṇi | Crown of tantric practitioners. Block 196, very rare.

4.2 Legal and Administrative Titles (Colonial Period, c. 1858–1947)

vakīla / Vakīl | Lawyer/Advocate. Blocks 48 (Brigadier Brajamohana), 66, 122, 139 etc.

mejara / Major | Military officer, British Indian Army. Block 120, 122 etc.

ukīla harikānta | 'Ukīl' variant for Advocate. Block 1, very early use.

ḍīvāna bhavānīdatta | Dīvān (revenue minister/administrator). Block 186.

phaujādāra | Military/police officer. Block 97, early modern term.

bhūgabhaṃśāstrī | Geologist. Block 148, post-independence professional science term.

4.3 Modern Professional and Academic Titles (Post-1947)

yamtrajña | Engineer/Mechanical technician. Block 33. Earliest modern professional title.

ḍā. / Dr. | Medical doctor or PhD. Blocks 33, 34, 35, 36, 100, 120, 148, 174, 196, 222 etc.

pro. / Prof. | University Professor. Blocks 120, 122, 148 etc.

Ex.V.C. | Former Vice-Chancellor (Allahabad University). Block 148. Unique entry.

arthaśāstrī | Economist (academic designation). Block 33.

arthaudyamī | Economic entrepreneur/businessman. Block 33. Extraordinary entry.

I.A.S. | Indian Administrative Service officer. Block 122.

C.P.M. (M.P.) | Communist Party of India (Marxist) Member of Parliament. Block 122.

jaṣṭisa | High Court Justice / Judge. Block 122.

M.B.B.S. M.D. | Medical degrees recorded as genealogical identifiers. Block 174.

bhūgabhaṃśāstrī | Geologist (professional science). Block 148.

Writer Hist.ry of Maithile Literature | Literary-historical authorship. Block 148.

L.L.B. | Law degree. Block 72.

E.E. (abhiyaṃtā) | Executive Engineer (civil service). Block 62.

bhūgarbha abhiyaṃtā-ravuni nideśaka | Mining Director/Engineer. Block 62.

rabha.pū.pavahāra pava.sa.adhyakṣa | State Legislative Assembly Member. Block 174.

ke.ndriya grāmīṇa rājya maṃtrī | Central Minister for Rural Affairs. Block 174.

The full arc from 'pā~' (almanac-specialist, pre-1400 AD) to 'C.P.M. (M.P.)' (Communist parliamentarian, post-1952) recorded within the same genealogical register, under the same formatting conventions, for the same functional purpose of marriage eligibility, is one of the most striking examples of institutional continuity and adaptive capacity in South Asian intellectual history.

V. Naming Conventions: A Linguistic and Cultural Analysis

The Nāgarāma Panji is a treasure trove for onomastics — the study of naming practices. Across 225 blocks, thousands of personal names are recorded, allowing systematic analysis of naming conventions across roughly 15 centuries and across different social strata within the Maithil Brahmin community.

5.1 Compound Name Patterns

The most common Maithil Brahmin naming patterns involve compounding with divine/cosmic elements. The following patterns are observed consistently:

-nātha suffix | Lord, protector. E.g.: Gaṃgenātha, Śivanātha, Devnātha, Rāmnātha, Chandrannātha. Extremely common.

-datta suffix | Gift of (a deity). E.g.: Śivadatta, Bhavānīdatta, Rāmdatta, Gaṃgādatta. Brahminic tradition.

-ānanda suffix | Bliss of (a deity/concept). E.g.: Vivekānanda, Śītalānanda, Tārānanda. Post-19th c. increase.

-kānta suffix | Dear to / beloved of. E.g.: Mithilākānta, Kāśīkānta, Kamalākānta. Aesthetic naming.

-nārāyaṇa suffix | Vishnu-compound. E.g.: Śrīnārāyaṇa, Kṛṣṇanārāyaṇa. High Vaishnava influence.

-kiśora suffix | Young-lord compound. E.g.: Yugala Kiśora, Ānanda Kiśora. Often in sibling sets.

maṇi- / -maṇi | Gem/jewel. E.g.: Harṣamaṇi, Candramaṇi, Bhuvaneśvarimaṇi. Both prefix and suffix.

Informal/folk names | Āṃkhī (eyes), Naharā (canal), Pīlū (diminutive), Baucā, Ghonghī. Parallel naming system.

Dual-name (formal + pra.) | Formal panji name + popular name. E.g.: 'harṣamani pra. naharā', 'rāma pra. raghudeva'. Standard structure.

Anti-names | Taskara (thief), Bikhārī (beggar), Garibnātha (lord of the poor). Protective folk convention.

5.2 Temporal Shifts in Naming

The panji reveals distinct chronological layers in naming conventions. In the early generations (inferred pre-1700 based on generation counting), Sanskrit Śaiva names predominate: Śivadatta, Śivanātha, Candraśekhara, Maheśvara,

Nīlakaṇṭha. Moving into the 18th–19th centuries, Vaiṣṇava names increase sharply: Lakṣmīnārāyaṇa, Govarddhana, Kṛṣṇadeva, Rādhākānta. The Bhakti movement's influence on Mithila naming is traceable through the panji with greater precision than through any literary source.

Post-1857, names reflecting colonial contact appear: 'Phaujadār' (military officer-name), 'Vakīl' as a given name rather than just a title prefix. Post-1947, short, simple, modern names increase: Sanjay, Vijay, Arun, Manoj, Ashok, Sunil, Anita. By the 1980s–2000s entries, the naming patterns are virtually indistinguishable from general north Indian middle-class practice, reflecting acculturation to the national mainstream.

5.3 Women's Names in the Panji

Women are not recorded as individuals in the panji — they appear only as the axis of marriage alliances (village name + father's name = bride's identification). However, occasionally a woman's name surfaces in the text through the 'patnī anītā' (wife Anita) formula in Block 14 or similar parenthetical insertions. The near-total absence of women's names is itself a structural feature of the panji as a patrilineal instrument, reflecting the deeply asymmetric genealogical epistemology of the tradition. The Videha Parallel Literature Movement's critique of exactly this erasure is thus documented in the very source material this analysis examines.

VI. Geographic Dispersal and Diaspora Patterns

One of the most historically significant data-sets embedded in the Nāgarāma Panji is the record of geographic dispersal. The panji was designed to track family movement, since a man who moved to another region remained registered under his original village's panji but had to have his new location noted so that marriage eligibility could be correctly calculated across distance.

6.1 Within-Bihar Dispersal

The most common migration pattern visible in the text is movement from the Madhubani-Darbhanga core to Purniyā (Purnia) district, especially the Banaili estate area. Numerous blocks end with '...pūrṇiyā~' or '...banailī pūrṇiyā~', indicating that branches of core Nāgarāma families had settled in the Purnea region, likely attracted by the Banaili Raj's patronage of Maithil

scholars and pandits. Block 16, 21, 29, and 39 all document such Purnea branches explicitly.

Muzaffarpur district appears repeatedly, especially the Machakanautā (Machakanauta) and Viṣṇudattapur areas in Blocks 80–82. Bhagalpur-Munger area appears in Block 71 (Teladīhā). Saharsa-Supaul areas appear in Blocks 64, 65 (Rāntī, Dīhā). Champaran (Camparān) appears in Blocks 217–218. This indicates a systematic eastward and westward dispersal from the core Madhubani cluster.

6.2 Nepal and Trans-Border Dispersal

Several blocks document families settled in Nepal. Block 33 mentions 'cainapura (baluā)' and the Madheshī belt locations. Block 35 references 'navagaṛhā naḍuāra karamahā' — 'Naḍuāra' and 'Navagaḍhā' are Nepal Tarai locations. Block 217 mentions 'Champarāndesh' (Champaran-Nepal border zone). The Nepal Tarai ('Madheshī') diaspora of Maithil Brahmins is thus documented in the panji alongside their Indian cousins, with marriage alliances crossing the border in both directions.

6.3 Urban Professional Migration

By the later entries (Blocks 120–225), a new migration pattern appears: families settling in named urban locations for professional reasons. Block 34 mentions 'Śivanagara' (a town colony). Block 71 references 'capāhī gusauta' which is near Darbhanga city. Block 100 mentions 'cānapurā samīpe śivanagara'. Block 33 has 'khamagaṛā ratipāra belau~ca sa~...' indicating settlement near specific urban nodes. By Blocks 174 and 183, entries reference 'rabha.pū.pavahāra' (state government posting), 'ke.ndriya...mamtrī' (Central Government Minister) — indicating families that had fully entered the Delhi-national administrative sphere while retaining their panji registration in Madhubani.

VII. The Cross-Reference System: Decoding the Numerical Codes

The Nāgarāma Khanda deploys an extensive numerical cross-reference system that links it to other Khanda volumes of the same Panji Prabandh. These codes appear in parentheses throughout the text: '(270/2)', '(333)', '(B 45//4)', '(A 19//8)', '(naga. 3.92//3)', 'na. (341/3)', 'ug. (17//3)' etc.

7.1 Types of Cross-References

(270/2), (333)... | Bare numbers = cross-reference to another entry within the same Panji system by page/entry number

(B 45//4) | B-prefix = cross-reference to a specific named sub-volume or Bayāna register

(A 18//2) | A-prefix = cross-reference to another Panji Khanda (likely Khanda 1 or Khanda 2)

(naga. / na.) | Abbreviation of 'Nāgarāma' = self-reference within this Khanda at given number

(ug. / u.) | Possibly 'Ugana' or another territorial sub-cluster code

(D. 82/5) | D-prefix = possibly 'Darbhanga' sub-register or a different panji office

(J.E.) | Possibly 'Junior Engineer' — a modern professional credential code

(śā. / ba.) | Possibly 'Śāka' era reference or Brahmin sub-group code

The cross-reference system reveals that the Nāgarāma Panji is not a standalone document but part of a multi-volume, multi-office genealogical network. A family appearing in Block 14 of Nāgarāma Khanda 3 may have their deeper ancestral line recorded in entries (270/2) of another volume, requiring the panji officer to consult multiple registers before delivering a marriage eligibility ruling. This constitutes a genuinely complex information management system, maintained for centuries before the age of databases, through a combination of numbered manuscript folios and expert memory.

IX. Significance Within the Videha Parallel History Framework

The Videha Parallel Literature Movement, founded by Gajendra Thakur, explicitly positions itself as a counter-canonical alternative to Sahitya Akademi institutional authority. From this perspective, the Nāgarāma Panji Prabandh occupies a complex and somewhat paradoxical position: it is simultaneously an instrument of brahminic social control (governing marriage through patrilineal descent tracking, rendering women invisible as genealogical subjects, encoding caste hierarchy in every entry) AND an extraordinary repository of subaltern, folk, and vernacular data that institutional literary history has completely ignored.

The panji records the 'vaidya' (doctor/physician) tradition alongside the 'mahopādhyāya' tradition — local medical practice alongside high Sanskrit

learning. It records the 'yantrajna' engineer, the 'C.P.M. M.P.', the folk names like 'Pīlū', 'Ghongī', 'Āmkhī' that never appear in the canonical literary tradition. It preserves place-name forms ('Nāhar', 'Raiyan', 'Digaundh') in their living Maithili pronunciations rather than their Sanskritised or Persianised official forms. It documents the existence and location of dozens of villages that no other historical record preserves.

The Videha framework's 'four-fold methodology' — Indian Rasa-Dhvani-Vakrokti Aesthetics, Western Critical Theory, Navya-Nyāya Epistemology of Gaṃgeśa Upādhyāya, and the Videha Parallel History Framework — is directly applicable to this document. Through the Navya-Nyāya lens, the panji itself performs a kind of 'anumāna' (inference) logic: from the stated genealogical propositions (A is son of B, B married daughter of C from village X), one derives the inference (therefore A is eligible/ineligible to marry Y). The panji officer is functioning as a Naiyāyika logician applied to social epistemology. This connection between the panji tradition and the Navya-Nyāya tradition of Mithila — both arising from the same geographic, cultural, and intellectual milieu — deserves systematic scholarly attention.

From the Western Critical Theory perspective, the panji's structural erasure of women's names and identities, its implicit hierarchy of gotras and śākhās, and its recording of 'purity' calculations as genealogical data all constitute what Gayatri Spivak might term the 'epistemic violence' embedded in archival practice. Yet the same document's organic absorption of communist parliamentarians, women scientists (fragmentary references), and modern professionals into its framework also demonstrates the system's remarkable adaptive resilience — not unlike the way the Brahminic tradition has historically absorbed heterodox elements into its own categories.

X. Conclusions and Research Directions

The Nāgarāma Khanda of the Pampilā Panji Prabandh is one of the most complex and data-rich genealogical documents in the Maithil literary tradition. Its 225 blocks, spanning an inferred timeline of roughly 600–700 years of genealogical memory (with some reference points extending to the 450 AD founding date), constitute an irreplaceable primary source for:

53. DEMOGRAPHIC HISTORY — family sizes, marriage patterns, polygamy rates, migration patterns, mortality inference (through absent generations).

54. PROFESSIONAL AND SOCIAL HISTORY — the evolution of occupational categories from Sanskritic scholarly titles through colonial administrative designations to modern academic and political credentials.
55. ONOMASTICS — systematic naming convention analysis across 15+ generations and c. 600 years, revealing Śaiva-Vaiṣṇava religious shifts, Bhakti movement influence, colonial contact effects, and post-independence cultural changes.
56. HISTORICAL GEOGRAPHY — village network reconstruction, diaspora mapping, and identification of settlements not recorded in official land records or colonial gazetteers.
57. LINGUISTIC HISTORY — preservation of archaic Maithili vocabulary, place-name forms, title systems, and grammatical structures that have been lost from the literary register.
58. NAVYA-NYĀYA GENEALOGY — the Gaṃgeśa name appearing in Block 1 invites systematic investigation of the panji's connections to the Tattvacintāmaṇi philosophical tradition of Mithila.

Critical editions of the panji, combined with the methodology of the Videha Parallel History Framework, would constitute a landmark contribution to Maithili studies, South Asian social history, and the history of knowledge-management systems in pre-modern India.

This report was prepared as part of the ongoing Videha Parallel History of Mithila&Maithili Literature project. For the complete critical appreciation series covering 142 Maithili authors, see videha.co.in.

Page range | 3.94 to 3.139 (46 pages)

Entry range | Block 226 through Block 358

Script | Devanagari (Hindi/Maithili orthography)

Language of entries | Sanskrit-Maithili genealogical notation

Genre | Panjika — traditional Maithili lineage register (kulpanjika)

Estimated period covered | Roughly 450 A.D. to 2009 A.D. per title; most datable entries 17th–20th century

Geographic focus | Mithila region: Nāgramī, Mangauni, Hati, Samauli, Balirajpur, Rakhvari, Nagvad, Mahishi, Taruni, Naduar, Mazhaura, Gangaura, Dumra, Hariyam and dozens of sub-villages

2. Nature and Structure of a Panjika

A Panjika (pañjikā) is the foundational genealogical document of Maithili Brahmin society. It is not a mere family tree but a legal, ritual, and social instrument. Understanding its structure is essential before analysing individual entries.

2.1 Structural Formula

Every entry in this text follows a strict grammatical template derived from Sanskrit genealogical grammar. The basic unit is:

[Name] suta / suto / suta: [son(s)] [village-A] sam [maternal-side-ancestor] sut [maternal lineage member] dau ... [village-B] sam [paternal-lineage-side] ddau

Key terms decoded:

- suta (suta) | sons (plural)
- suto (suto) | two sons (dual form)
- suta: (sutah) | one son (singular nominative)
- sa~ (sam) | from (village or gotra marker)
- dau (dau) | dau = dauhitra reference, the maternal side connection
- ddau (ddau) | double-dau, the dau's dau — grandmother's lineage
- pra. (pr.) | prakrit/common name (nickname or popular name)
- aparā (apara) | another wife / second branch
- kā (ka) / ko (ko) | feminine/neuter plural suffix for daughters
- jyo. (jyo.) | Jyotishi — astrologer-scholar designation
- vaiyā. (vaiya.) | Vaiyakarana — grammarian designation
- pāṭhaka (pathak) | hereditary scholarly title
- ma.ma. (m.m.) | Mahamahopadhyaya — highest scholarly title
- cau. (chau.) | Chaudhary — landed-gentry honorific
- ṭha. (th.) | Thakur — honorific for respected elder

2.2 Village Codes

Villages are referenced by shortened names throughout. They serve double duty: they identify residence and encode gotra-wise marital affiliation. The most frequently appearing villages in this khanda are:

Sararasab, Jajival, Sodarpura, Pavauli, Pahadi, Dariharas, Khavaul, Mandar, Baliyas, Belaunca, Pandua, Satlakha, Ekahara, Sakrari, Kujaulli, Parhi, Gangauli, Pali, Naruna, Karamaha, Ghusauta, Ddigho, Tegval, Bherarai

Each village name is a compressed reference to a known gotra-cluster. A Maithili reader does not need the full name; the shortened form instantly signals which kinship-group provided the bride or witnessed the dau relationship.

3. Deep Analysis: Selected Blocks

The following sections analyse individual entry-blocks in depth, unpacking genealogical, social, geographical, and onomastic information layer by layer.

Block 226 (Page 3.94): Mangauni to Madarri — Devakinandan's Line

devakīnandana dau (B 86//2) karamahā sa~ jālpādatta ddau|| yaṭā śamkara sutā ... rohāra sakarārḥī sa~ mākiṇḍeya suta ṭhakkū dau ... jajivāla sa~ govinda ddau||

Opening citation — B 86//2: The notation 'B 86//2' is a cross-reference to another batch/volume entry. 'B' likely denotes a branch-volume or backup register. The double-slash number is a folio or sub-entry index. This intertextual referencing is characteristic of high-quality Panjika traditions: no information stands alone.

Devakinandan — village Karamaha — dau Jalpadatta: The entry opens by establishing that Devakinandan's maternal connection (dau) comes from Karamaha, via a person named Jalpadatta. The 'd-d-au' (ddau) from Jajival via Govind then traces the dau's dau — two maternal generations are fixed at the outset, anchoring this entire branch within a confirmed kinship network.

Yata Shankar's sons — Rohar Sakrari branch: Shankar's sons are marked by an unusual marker: '...' (ellipsis). In Panjika notation, ellipsis dots mean either the name is temporarily omitted (to be filled at verification) or the entry is pending confirmation. The dau for this sub-branch comes from Sakrari via Makandeya's son Thakku — giving us a Makandeya-Thakku patrilineal chain that is itself a datable reference point.

Dayashankar's line — Sarisab branch: Dayashankar's sons marry into Sarisab via Bhairavadatta's son Bilat, with dau from Pali via Babu Shashidhar. The village Sarisab is one of the most prestigious villages in

Maithili Brahmin genealogy, so this connection elevates the lineage's prestige.

Lutun and Ramanath — Ekahara branch:Lutun's sons include Ramanath (pr. Khatru — popular name Khatru) and another, through Ekahara via Sanaphul's son Man Khinu, with dau from Sakrari via Kanhai. The 'pr.' notation tells us Ramanath was known colloquially as Khatru — such dual-naming is common when a child received an auspicious formal name but was called by an informal name at home.

Ramanath's extended family — Sahityacharya Pracharya Dinanath:Among Ramanath's sons appears the title 'Sahityacharya Pracharya Dinanath' — a son who attained the Sahityacharya degree (a traditional Sanskrit literary doctorate) and became an Acharya (head teacher/principal). This is among the first glimpses of formal scholarly credentialing within this volume. His sons Bhaskar (engineer — abhiyaṃtā) and Pushkar represent a generational shift: the father is a classical scholar-principal, while his sons have taken up modern professions.

Bhagavanji's incomplete entry:'... Mangauni ... sam ... sut ... dau Phanda sam ... ddau' — three sets of dots indicate multiple pending verifications. This typically means the Panjika compiler was working from partial information, possibly from an oral source that had gaps.

Block 226–227 (Page 3.94): Mangauni to Virasayar — The Vanshamani Sub-Branch

śivana suto vaṃśamani gr̥himaji baliyāsa sa~ bhagīratha suta kuñjā dau ... viherār̥hī sa~ maheramāna ddau||

Shivan's two sons — Vanshamani and Grihimani:The dual ending '-o' (suto) confirms exactly two sons. Vanshamani's maternal connection runs to Baliyas via Bhagirath's son Kunja, with the dau's dau through Viherari via Maheramana. This traces a four-generation maternal chain in one line.

Vanshamani's son — Sarisab branch:'Sarasab sam Chhaban sut Bhikhiya dau' — Chhaban and Bhikhiya are father-son in the Sarisab cluster. Bhikhiya is a diminutive/popular name (probably for a person with a more formal Sanskrit name). The Darahara village provides the dau's dau via Brajanath.

Brahmdatta and Dharmdatta — Jajival branch:Shobhanath's two sons receive their maternal connections through Jajival via Bhau's son Hemu. The village Pavanachobh (pavanacobha) appears for the dau's dau, providing

Madhurapati — this rare village name appears repeatedly in this khanda, suggesting it was a significant kinship-node in the Nagrami sub-region.

Brahmdatta's sons — Buvua pr. Gopal and Jagamohan: 'Buvua pr. Gopal' — the prefix 'pr.' before Gopal tells us Buvua was the formal name but Gopal the popular one. This is an exact inversion of what we saw with Ramanath/Khatru above, showing both directions of formal/popular naming were common.

Manniki's son Ruri — Satlakha branch: Mannik's son Ruri (Rurimji) draws his maternal side from Satlakha via Hari Narayan's son Lala, with dau from Pavoli via Aanhar. 'Aanhar' is another popular/informal name (it means 'blind' in Maithili) used as a personal name, showing that names from physical characteristics were commonly given.

Block 228 (Page 3.95): Mangauni — The Bhratrijan Line

bhatrjana suto ānanda: pavaulī sa~ bhātū suta sītārāma dau ... valiyāsa sa~ bhavēśa ddau||

Bhatarjan and his line: Bhatarjan's single son Ananda draws his maternal side from Pavauli via Bhatu's son Sitaram, with ddau from Baliyas via Bhavesh. The choice of Sitaram (an avatar name) and the Bhatu-Sitaram father-son pair suggests this family's naming convention followed Vaishnava devotional practice.

Vacha's son Shyamanath — Khandabala branch: Vacha's son is Shyamanath, connected maternally to Khandabala via Doni's son Dinabandhu. The ddau comes from Alay via Pathak Dubari. The title 'Pathak' for the ddau-side person indicates a scholarly family background — Pathaks were the highest Maithili sub-caste known for Vedic learning.

Dayanath's sons — Adnanath and Premnath: Both sons' maternal chain traces back to Khavaul via Raghunath's son Durgadatt (with B-notation 100//5), dau from Jajival via Umapatti. The 'B 100//5' cross-reference again shows the register is coordinated with a master volume. The 'apara suta' (aparā sutā) — sons of the other wife — are listed separately via Satlakha and Sodarpura, demonstrating that polygamous families had careful separate genealogical documentation.

Kalanath's daughters — triple-dot entries: 'Kalanath suta ... Darahara sam Rohini sut Shridatt ddau' with additional daughters via Pavoli via Pathak Raghuvir. When a daughter is listed, the entry tracks where she married out

— into which village, via which family. Daughters are not omitted from the Panjika but their entries trace their destination rather than their descent.

The nine sons of Aparā (Sanphul line): An aparā wife produces a remarkable nine sons: Hanumanadatt, Bhagavanadatt, Shankardatt, Chandidatt, Ishvaridatt — all five receiving their maternal chain via Belaunch via Jaynarayan's son Ray Lacha. This dense cluster of devotional names (Hanuman, Bhagavan, Shankar, Chandi, Ishvari) points to a Shaiva-Shakta-Vaishnava eclectic naming pattern typical of 18th–19th century Mithila.

Blocks 230–232 (Pages 3.95–3.96): Hati to Satlakha and Vilakhinad

atha hāṭī pālī grāmārambha: bhavagaratha suto kālidāśa: māṇḍara sa~ rūcinātha suta gopa dau ... pālī sa~ viṣṇu ddau||

'Atha'— the formal commencement: The word 'atha' (atha) signals a new village or sub-section beginning. 'Atha Hati Pali gramrambha' — 'now begins the Hati Pali village section'. This liturgical opener (atha is the first word of Panini's grammar) reflects the sacred character of the Panjika — it is not merely a record but a ritual document.

Bhavaratha to Kalidash — Mandar branch: Kalidash is the son of Bhavaratha, connected through Mandar via Ruchinathas son Gop, with ddau from Pali via Vishnu. 'Gop' (cowherd, a common name in Krishnabhakti families) and 'Vishnu' together signal a strong Vaishnava household at the dau/ddau level.

Nath's three children — Vacha, Chhitari, Harikrishna: 'Nath suta Bacha Chhitari Harikrishna' — all three from Sodarpara via Vadani's son Fakir, dau from Baliyas via Dharu. 'Fakir' as a personal name is significant: it is an Arabic/Persian-derived word meaning wandering ascetic, adopted as a personal name, indicating the cosmopolitan cultural mix in 18th-century Mithila where Sufi-Muslim vocabulary entered personal naming.

Vacha's sons — Bhikhiya, Nanu, Baburaiya: A triplet from Sarisab via Purusottam's son Ratanu, dau from Karamaha via Mahinath. 'Bhikhiya' (from bhiksha, begging bowl — a mendicant-inspired name), 'Nanu' (child's word for small), 'Baburaiya' (compound of babu + raiya, a vernacular honorific) — three names that span the Sanskrit, rustic Maithili, and Urdu-influenced registers simultaneously.

The Yadvira sub-branch — Prayadatt, Hanumanadatt, Bhagavanadatt, Nauabati: Four sons of Yadvira (Block 231) connect to Belaunch via Umai's son Ruri, dau from Sakrari via Hemanath. 'Nauabati' is a compound name (nauba = drum, bati = lamp flame), an unusual poetic name. His son Yashhodhar connects through Vindhī Mahaura via Ramanath's son Ugranath — pointing to an inter-regional marriage link extending to Mahaura, a market town.

Block 232 (Page 3.96): Hati to Vilakhinad — Chanurajha Haridash Jha

dukhabhamjana suto dhana dullaho pavaulī sa~ gatiṛāma suta dukharana dau ... valiṃyāsa sa~ paśupati ddau||

Name 'Dukhabhanjan' — The Name as Prayer: 'Dukhabhanjan' literally means 'destroyer of suffering' — an epithet of the divine applied as a personal name. This is a naming theology: the child is named after a divine attribute in the hope that the deity's grace attaches to the family. Many names in this text are similarly theophoric — they name the deity's function rather than the deity directly.

Dhan and Dullaha — two sons: Dhan (wealth) and Dullaha (bridegroom) are popular/vernacular names rather than Sanskrit formal names. Their coexistence in the same entry with full Sanskrit dau-ddau chains shows that the Panjika accepts both high-register and low-register names without distinction — what matters is the kinship chain, not the name's etymology.

Keshavnarayan's line — the Mandhan entry: Keshavnarayan's son Mandhan connects via Darahara via Gauridatt's son Khushihal, dau from Pali via Durgadatt. 'Khushihal' is a Persian/Urdu name (khush = happy, hal = state), again reflecting the cultural porosity of Mithila naming conventions. His son Shyam is described through Sakrari via Bhagirath's son Gangadatt — and then the genealogy continues into Budhval via Mahipati, creating a three-generation chain.

Hemanath pr. Babujik — Baliyas branch: 'Hemanath pr. Babujik' — Babujik is the popular name (a diminutive of Babuji, respectful address for a father/elder). The 'ji' suffix denotes respect. This naming pattern — taking an honorific used to address elders and converting it into a child's name — is a form of affectionate naming found across Mithila.

Harivamsh's son — Khavaul branch:Harivamsh's son traces back to Khavaul via Nehal's son Ramnath, dau from Pavanachobh via Rajamani. 'Rajamani' (king-jewel) is a poetic compound name — it names the child as a jewel among kings.

Block 238 (Page 3.97): Samauli Village — New Section Opening

atha samauli nallī grāmārambha: pradyumna sutā rājīva locana kamala
ghoghanā: jajivāla sa~ rāmadeva suta ghanī dau ... māṇḍara sa~ raghudeva
ddau||

Pradyumna's four sons:The four sons — Rajiv Lochan, Kamal, Ghoghan — are named with a mix of Vaishnava (Pradyumna is Krishna's son; Rajiv Lochan means lotus-eyed — an epithet of Vishnu), botanical (Kamal = lotus), and rustic (Ghoghan = thunderstorm or drum) names. A single father naming one son with a sophisticated Sanskrit epithet, another with a simple Sanskrit noun, and a third with a Maithili vernacular word reflects how naming was not ideologically uniform even within a single household.

Rajiv Lochan's son Hariharadatt:'Pavauli sam Pradyumna sut Bhikkh dau' — the son connects maternally back to Pavauli via Pradyumna's son Bhikkha (another mendicant-inspired name), dau from Pavanachobh via Purusottam. This creates a Pradyumna → Bhikkha → Hariharadatt naming chain that illustrates how name-reuse works across generations: 'Pradyumna' appears in both the grandfather's generation and the dau-side generation simultaneously.

Hariharadatt's sons — Rajamani, Sonamani, Paramani:Three sons share the -mani (jewel) suffix, a common Maithili naming convention: rajamani (king-jewel), sonamani (gold-jewel), paramani (precious-jewel). Their maternal side runs to Sodarpura via Dharani's son Kamalnayan. 'Kamalnayan' (lotus-eyed) is the same epithet as 'Rajiv Lochan' one generation earlier — showing that divine epithets circulated continuously as names.

'Thothri'branch — Kanhai pr. Vishnu-Mani: An 'apara Hariharadatt suto Thothrik' entry introduces a second-wife branch. Kanhai pr. Vishnumani tells us the child was named Kanhai (a name for Krishna, from the Sanskrit Kanha) but was formally known as Vishnumani. Two Vaishnava names for the same person: one the popular name used at home, the other the formal ceremonial name. Their maternal chain goes to Darahara via Garib's son Chanan — 'Garib' (poor, humble) being another Urdu-derived name.

Block 244 (Page 3.98): Samauli — Scholarly Titles and Occupational Names

indrapati suta: śaṃkara: māṇḍara sa~ ... muktinātha dau ... sa~ ... ddau||
śaṃkara suta: nīlāmbara:

Neelambar — Sky-Blue Cloud: Neelambar (nīlāmbara = blue sky/cloud) is a poetic name frequently given in Maithili families. It can reference Vishnu (who is blue-complexioned) or simply be a nature name. Neelambar's sons Mahipati and Upe appear — Mahipati (master of the earth = a king's epithet) and Upe (short for Upendra, another name for Indra or Vishnu).

Upe's sons — Sanaphul, Phekan, Chhota: 'Sanaphul' (flowering creeper), 'Phekan' (one who throws/tosses — a colloquial Maithili verb-derived name), and 'Chhota' (small/little) represent three completely different naming registers in one family. Sanaphul is poetic-botanical; Phekan is colloquial-verb; Chhota is the most casual possible name — often given to younger siblings.

Sanaphul's son Govindadatta: Via Belaunch via Bhaiyaram's son Ankhi, dau from Pali via Panchai. 'Ankhi' means 'eyes' in Maithili — another body-part name used as personal name. 'Panchai' is a corruption/popular form of Panchanan (five-faced Shiva). The chain Bhaiyaram → Ankhi → Govindadatta again mixes Sanskrit (Govindadatta = gift of Govind) with rustic Maithili (Ankhi).

Phekan's sons Banmali and Krishnakant: Banmali (garland-wearer, an epithet of Vishnu) and Krishnakant (beloved of Krishna or one dear to Krishna) continue the Vaishnava naming pattern. Their maternal side is via Mandar via Devan's son Rudi — 'Rudi' is a shortened popular form of Rudra (Shiva), interesting in a Vaishnava-named family.

Block 253 (Page 3.102): Balirajpur to Chopta — Navalkishor Mishra

bavuā jī pra. jayakṛṣṇa sutā kumara jī amaranātha pitāmabara pra. a. navalakiśora jagadīśa satyanārāyaṇa: jajivāla sa~ bavujana suta bāvūlāla dau sakarāṅhī sa~ lānhā ddau||

'Buvuaji pr. Jayakrishna' — layers of naming: This person has three names in one entry: Buvuaji (familiar/family address), pr. (popular name) Jayakrishna (victory of Krishna). The formal name Jayakrishna is the Panjika's canonical entry; Buvuaji is what the community called him; both are recorded.

Five sons — diversity of naming:Kumarji (prince, with the honorific 'ji'), Amarnath (immortal lord — Shaiva), Pitambar pr. A. Navalkishor (yellow-robed — Vaishnava — plus a popular abbreviation to 'A.' suggesting an additional nickname now lost), Jagadish (lord of the world), Satyanarayan (truth-Narayan/Vishnu). These five sons span Shaiva (Amarnath), Vaishnava (Pitambar, Satyanarayan, Jagadish), regal (Kumarji), and philosophical (Navalkishor = new Youth) naming ideologies.

Navalkishor's sons — modern professions:'Pro. Shyamanand, Injinivar Manoj Kumar, Subodh Kumar' — a professor, an engineer, and a third son. These occupational titles embedded in the genealogical record show the Panjika adapting to modernity: traditional Sanskrit names still appear, but their holders' occupations are now secular modern professions rather than the traditional Jyotishi, Vaiyakarana, or Pathak roles.

Injinivar Manoj Kumar's sons — Sanjiv, Santosh, Raiyam:The maternal chain runs to Sodarpura via Ramesh's son Raghunandan pr. Hira. The popular name 'Hira' (diamond) for Raghunandan shows the continued use of gem-names as popular alternatives. 'Raiyam' in the son-list is unusual — it may be a place-name used as a personal name, or a variant of Rajaram.

Block 254 (Page 3.103): Balirajpur to Chopta — Vishvambhar Mishra 'Vagish'

sāhityācārya prau. dā. viśvambhara miśra'vāgīśa'suto paṇḍuā sa~ pā~ śabhakhakhayā suta pā~ modānanda dau ... sararasaba sa~ mukunda ddau||

Sahityacharya Prof. Dr. Vishvambhar Mishra 'Vagish':This entry is remarkable for its layering of titles: Sahityacharya (traditional classical doctorate in literature), Prof. (Professor — modern academic), Dr. (doctoral degree — modern university), followed by the nom de plume 'Vagish' (lord of speech — a pen-name). Four different credentialing systems are recorded in one genealogical entry: traditional Sanskrit learning, modern professorship, modern doctorate, and literary pseudonym.

Vagish's two sons — Phandua branch:The maternal chain runs to Pandua via Pam Bhikhiya's son Pam Modananda, dau from Sarisab via Mukund. The 'Pam' prefix (a contraction of Pandita — learned person) before both Bhikhiya and Modananda shows that even persons with humble popular names (Bhikhiya = beggar-related) could carry the 'Pam/Pandit' scholarly

title, indicating achievement-based rather than purely birth-based scholarly recognition.

Nilambar's sons — gazette reference:'Nilambar suta ... Gajhara Raiyam Sodarapura sam Manmohan sut: Mukund: Pandua sam Pam Garib sut Jagatmani dau ... Gangauli sam Nandi ddau' — 'Garib' (poor) as the name of a Pandita, and 'Jagatmani' (world-jewel) as his son, creates a striking contrast. The Gangauli-Nandi ddau link connects this family to one of the most respected Gangauli families.

Rameshvar's sons — Mahadev, Bhairav, Chandranath:'Mahadev, Bhairav, Chandranath' — a Shaiva triplet. Bhairav's sons are described as 'Kamendr Kumar, Timir Kumar, Virsayar' — 'Virsayar' here is a village name used as a personal name. The maternal line for Bhairav's sons runs to Mandar via Ugranath's son Harrikant, dau from Khandabala via Th. Avadhi.

Block 294 (Page 3.116): Nagvad to Samauli — Tharanand's Scholarly Family

ṭha. tārānanda sūtā āśānanda virānanda jagatānanda vinodānanda: ... sodarapura sa~ puruṣottama suta jayanandana dau ... hararaama sa~ musahaṛa ddau|| 1 III M.A.

1934 III M.A. — a dateable credential:'III M.A. 1934' embedded in a genealogical entry is extraordinary: it records that Ashananda passed his M.A. examination (Third division) in 1934. This is one of the rare precise dates in the entire text, anchoring the genealogy to the modern calendar. It also reveals candidly that the M.A. was obtained in the third division — the Panjika records achievement without flattery.

Virananda's sons — Double M.A. and engineers:'M.A. Double Yashodananda, Engineer Lalananda Engineer, Shyamananda Pleadser, Bunnulal I.T. Commission, Chhotu M.A.' — in a single family: two engineers, one double M.A., a lawyer (Pleader), a member of an Income Tax Commission, and another M.A. This is a mid-20th century professional family in full transition from classical to modern education. The Panjika meticulously records each credential.

Virananda's Khavaul connection:'Vamshamani sut Lekhnanth dau Sodarapura sam Goshai ddau' — Lekhnanath (lord of writing) as a name in the maternal chain is fitting for a family producing M.A. holders. Goshai (a Shaiva ascetic title used as personal name) on the ddau side suggests the

maternal-maternal family maintained classical religious traditions even as the primary line modernised.

Acharyya Vinodananda: 'Acharya Vinodananda' is listed with the title 'Acharya' — an educational title. His son Ghurananda ('Ghuran' = one who wanders or turns — a rustic Maithili name) and Raju (another rustic informal name) show again how classical names and rustic popular names coexist within a single generation.

Apucchha's sons — Suryananda, Shobbhananda, Jivananda: Three sons, all with the -ananda suffix: Suryananda (sun-bliss), Shobbhananda (beauty-bliss), Jivananda (life-bliss). Their maternal connection is to Khandabala via Mukund Singh's son Devraj Singh — here 'Singh' appears as the kshatriya component, showing inter-varna marriage links are documented in the Panjika.

Block 307 (Page 3.120): Nagvad to Rashad — The Vakil Brajmohan Family

ṭha. vakīla brajamohana sūtā M.S. narendramohana prāṇamohana, surendra mohana prācārya (vakīla) mohana (vidhi ma.vi. sthāyanakartā) virendra vakīla yogendramohanā...

'Vakil Brajmohan' — the embedded professional title: The title 'Vakil' (lawyer/advocate) precedes the name, treating it as part of the identity. This is the Panjika adapting to the colonial-era legal profession: the Bar qualification has become as heritable and identity-defining as the traditional Jyotishi or Vaiyakarana titles.

The sons — a law family: M.S. Narendramohan (Master of Science — unusual for a legal family, suggesting an interdisciplinary career), Pranamahan, Surendramohan Pracharya (Acharya-Principal), Mohan (identified as 'Vidhi M.Vi. Sthayankarta' — a permanent faculty member of a law university), Virendar Vakil (another lawyer), Yogendramohan. A single father produces: a scientist, a principal, a law professor, multiple lawyers.

The Sodarpura maternal connection: 'Sodarpura sam Vasudeva sut Gangadhar dau ... Sakrari sam Keshav ddau' — the maternal side's Vasudeva-Gangadhar chain (both Vaishnava names) and the ddau-side Keshav (another Vishnu epithet) confirm that this legally modern family maintained Vaishnava naming conventions on both maternal lines.

Narendramohan's sons — Abhiyanta Nripendramohan, Mohana: 'Abhiyanta' = Engineer. The prefix title again: Nripendramohan's profession is incorporated into the genealogical record. The maternal chain for this generation runs to Sodarpura via Bachan's son Ramkumar, dau from Satlakha via Vasudeva — showing the family maintained the same Sodarpura-Satlakha affiliation across at least three generations.

Virendramohan's sons — the legal dynasty continues: 'Vakil Anshu, Vakil Aashu' — both sons are also vakils. The legal profession has become dynastically heritable within two generations. The maternal line runs to Baliyas via Padmanath's son Timir Bhairav, dau from Ghusaut via Durganath.

Block 316 (Page 3.124): Analapura to Nah — Dr. Prof. Vedanath's Line

tārānātha sutā śasiddhanātha īsanātha dā. pro. vedanāthā (maithilī bhāṣāka saḥityakāra) khauāla sa~ anirūddha suta gaṇeśa dau ... hararaama sa~ musahara ddau||

'Maithili Bhashaak Sahityakar'— the Panjika honours literature: The parenthetical description 'Maithili Bhashaak Sahityakar' (literary figure of the Maithili language) for Dr. Prof. Vedanath is extraordinary. The genealogical record typically notes scholarly titles (Jyotishi, Vaiyakarana, Sahityacharya) but this notation explicitly identifies him as a creative writer in Maithili — bridging the traditional scholarly apparatus with modern literary identity.

Vedanath's sons — Bhavtosha pr. Madhava and Ashutosha pr. Manohar: Both sons carry dual names: formal (Bhavtosha = satisfaction of existence; Ashutosha = easily pleased — both Shaiva epithet forms) and popular (Madhava = Vaishnava name; Manohar = heart-stealing). The formal Shaiva names and popular Vaishnava names in the same pair suggest the household maintained both traditions.

Kamalnath's sons — Ridhdhanath and Budhdhanath: A pair of names ending in '-dhanath' (wealth-lord). Their connection is via Khavaul via Yuvraj's son Ghanshyam, dau from Titsaunt via Chiranjeev. 'Chiranjeev' (immortal/long-lived) as a personal name is a blessing-name — common practice of naming children with auspicious qualities hoped for them.

Nena's son Ganapati — Mandhar connection: Ganapati (Ganesha, remover of obstacles) connects via Mandar via Ramadhana's son Thithara, dau from

Khandabala via Jirankrani. 'Thithara' (stubborn/firm — a colloquial Maithili adjective as personal name) for the dau-side person and 'Jirankrani' (an unclear compound, possibly geographic) for the ddau-side show the range of name-types in a single entry.

Block 345 (Page 3.135): Mahishi to Kailakh — Nityananda and the I.P.S. Family

gamgādhara sutā mahāvīra I.P.S. (D.I.G.) balavīra jayavīrā jamunī jajivāla sa~ śatañjīva suta rāmeśvara dau ... māṇḍara sa~ bodhū ddau||

Mahavir I.P.S. (D.I.G.): This entry records that Mahavir reached the rank of Deputy Inspector General (D.I.G.) in the Indian Police Service (I.P.S.). This is among the highest administrative positions documented in the Panjika. The Panjika tradition of recording scholarly titles (Jyotishi, M.M.) has been seamlessly extended to record modern civil service ranks. The I.P.S./D.I.G. notation sits within a standard genealogical formula as if it were simply another honorific.

Block 346 — I.A.S. and the next generation: I.P.S. Balvir's sons are 'I.A.S. Arun, I.A.S. Amit' — both Indian Administrative Service officers. Father in I.P.S., both sons in I.A.S.: the civil service tradition has become familially heritable. 'Sutashch Prathama I.A.S. Putri' — a daughter is explicitly noted as 'first I.A.S. among daughters', a remarkable gender-inclusive notation in a traditionally patrilineal document.

The Saurath connection: The maternal chain for this generation runs to 'Saurath Badyam Pavauli sam Chakradhar sut Avadh Bihari dau ... Naruna sam Vachcha sut Shivshankar ddau'. Saurath is the most sacred marriage-fair site in all of Mithila — the annual Saurath Sabha where Maithili Brahmin marriages are arranged. Being connected to a Saurath family is a mark of social eminence.

Block 347 (Page 3.135): Mahishi to Bhaunsiyar — Patak Baun, Calcutta High Court

(138/4) pāṭhaka bāuna (Jury in- Calcutta H.C.) suto kamalanayana lakṣamano ekaharā sa~ kṛṣṇananda suta lāla dau ...

'Jury in Calcutta H.C.' — colonial judicial service: Patak Baun's description as a Jury member of the Calcutta High Court places him in the colonial-era judicial system. The English notation 'Jury in- Calcutta H.C.' is inserted

verbatim into the Devanagari text — code-switching within the Panjika itself. This entry dates to the British colonial period and shows that participation in the colonial court system was considered as notable as traditional scholarly roles.

Kamalnayan's sons — Jayanath, Dulahar, Shyamnath: Three sons with different name-registers: Jayanath (victory-lord, Sanskrit), Dulahar (beloved, Maithili-Urdu), Shyamnath (dark-lord, Sanskrit-Shaiva). Their maternal connection via Darahara via Gati's son Rojhan (an unusual name — perhaps a corruption or a local variant), dau from Sodarpura via Bachhru shows the family's network spanning Darahara and Sodarpura.

Tejanath's line — Sodarpura connection: Tejanath: Sodarpurasam Mahadeva sut Gopal dau ... Sakrari sam Ananda ddau' — Mahadeva-Gopal as father-son presents the Shaiva-Vaishnava pairing again. The Sakrari-Ananda ddau connection places the family within the prestigious Sakrari kinship cluster.

Bhodhanath pr. Arthanath — Vaiyas Raghunath's daughter-connection: Bhodhanath's son Arthanath connects to the Tilaya village via Jhapatsingh's son Suday Singh, dau from Darahara via Janakinath. Arthanath's sons — Muktinath, Kripanath, Gopinath, Radhanath — follow the 'nath' naming convention consistently, a Shaiva tradition of appending '-nath' (lord) to every name.

Block 352 (Page 3.136): Hariyam — Pashupati's Deep Lineage

atha hariyāma budhavāla grāmārambha:- paśupati sutā brahmapati mahipati narapati medhāpati madhurāpattaya: sararasaba sa~ apūcha suta amana dau ... belau~ca sa~ bavudī ddau||

Five sons all ending in -pati: Brahmpati (lord of Brahma/sacred knowledge), Mahipati (lord of earth), Narpati (lord of men), Medhapati (lord of intelligence), Madhurapati (lord of sweetness). The '-pati' suffix is a lordship-naming convention; all five sons receive epithets of dominion. This disciplined naming convention within a single family shows how Mithila naming traditions created internal coherence within lineages.

Sarisab dau and Belaunch ddau — premier connections: 'Sarasab sam Apuchha sut Aman dau ... Belaunch sam Bavudi ddau' — Sarisab and Belaunch are two of the most prestigious villages in the Nagrami section.

Both appearing together in the dau-ddau pair signals maximum social prestige for this Pashupati line.

Brahmpati's sons — Saheb and Bachhru: Via Kujauilli via Gaurinath's son Rami, dau from Mandar via Vabu. 'Rami' (a short form of Ramadeva or simply the feminine Rama) as a male name shows gender-fluid name usage. Saheb's sons run via Darahara via Abhinandan's son Keshav — Keshav is Vishnu's epithet (the beautiful-haired one), maintaining the Vaishnava thread.

Narpati's son Rudrpati — Ekahara connection: Rudrpati (lord of Rudra = Shiva) connects via Ekahara via Vidudi's son Aniruddha, dau from Gangauli via Kriparam. Aniruddha is one of the four vyuhās of Vishnu in Pancharatra theology — here used as a personal name. The family naming theology deepens: Narpati, Rudrpati, Aniruddha span Vaishnava theology carefully.

Madhurpati's two sons — Shripati and Dharapati: A further '-pati' pair: Shripati (lord of Sri/Lakshmi = Vishnu) and Dharapati (lord of the earth = a king's epithet). Via Sarisab via Nilambar's son Jivanath, dau from Baliyas via Ramdi. 'Ramdi' as a personal name (a popular shortened form of Ramadevi) for a male shows another instance of flexible gender-coding in Maithili names.

4. Thematic and Cross-Cutting Analysis

4.1 Name Typology Across the Khanda

The names recorded in this khanda can be grouped into seven recurring typological categories:

Category | Examples | Significance

Sanskrit Theophoric | Hariharadatt, Govindadatta, Bhagavanadatt, Muktinath | Deity-gift or deity-lord compounds; most common type

Sanskrit Epithet | Rajiv Lochan, Kamalnayan, Neelambar, Vanshamani | Poetic descriptive names; often Vishnu/Shiva epithets

Maithili Vernacular | Phekan, Chhota, Ankhi, Ghoghan, Buvua | Informal, often body/nature/colloquial; used as popular names

Persian/Urdu Loanwords | Fakir, Khushihal, Garib, Dullaha | Cultural porosity; Sufi/Indo-Persian naming layer

Botanical/Nature | Sanaphul, Banmali, Kamal, Ghoghan | Flower, plant, storm names; poetic tradition

Credential-Names		Sahityacharya, Vakil, Injinivar, I.P.S., I.A.S.	
Professional titles embedded as name-prefix/identity			
Blessing/Aspiration		Chiranjeev, Dukhabhanjan, Amarnath, Ananda	
Names expressing desired qualities for the child			

4.2 The Dual-Name System (Formal + Popular)

A structurally consistent feature across every section is the dual-name notation using 'pr.' (pra. = prakrit/popular name). The Panjika records both names because the formal Sanskrit name governs ritual and legal contexts, while the popular name governs daily social life. Key observations:

Direction 1 — Sanskrit formal, vernacular popular:Ramanath pr. Khatru; Hemanath pr. Babujik; Bhavtoshha pr. Madhava. The Sanskrit name is the Panjika's authoritative entry.

Direction 2 — Vernacular formal, Sanskrit popular:Buvuaji pr. Jayakrishna. Here the family title (Buvuaji) is the entry, and the formal Sanskrit name is the 'pr.'

Direction 3 — One Sanskrit, one Persian:Dullaha pr. various entries — Urdu-derived name alongside Sanskrit. Shows neither tradition dominated exclusively.

Implication:The dual-name system reveals that Maithili Brahmin families operated bilingually and bi-culturally in their naming. The Panjika's insistence on recording both names is a sociolinguistic document of code-switching in premodern Mithila.

4.3 Professional Credentials as Genealogical Data

Across the khanda, the Panjika progressively expands its definition of 'heritable credentials' from classical titles to modern ones:

*Classical: Jyotishi (astrologer), Vaiyakarana (grammarian), Pathak (scholar), Mahamahopadhyaya (M.M.), Sahityacharya

Transitional: Sahityacharya + Pracharya + Dr. (Vishvambhar Mishra Vagish, Block 254)

Modern: M.A., M.Sc., Engineer, Pleader/Vakil, I.T. Commission, I.P.S. D.I.G., I.A.S.*

The trajectory covers roughly 300 years of educational history. The earliest entries (Blocks 226–232) contain only Sanskrit titles; by Blocks 293–307, modern university degrees dominate; by Block 345–346, civil service ranks

at I.P.S./I.A.S. level appear. This makes the Panjika an inadvertent history of Maithili Brahmin engagement with colonial and post-independence modernity.

4.4 Gender Documentation

Though the Panjika is overwhelmingly patrilineal, daughters appear in two contexts:

As daughters (ka/ko suffix): When daughters are listed, their entry records their marital destination — which village and family they married into. This is the 'daughter-out' record.

The I.A.S. daughter notation (Block 346): 'Sutashch Prathama I.A.S. Putri' — 'and also daughters; the first I.A.S. among daughters.' This exceptional notation records a daughter's professional achievement, not her marital destination. It represents a profound shift in what the Panjika considers worth recording for women: from destination-in-marriage to achievement-in-career.

The अपरा (second wife) system: Polygamous families carefully separate the genealogies of different wives' children. The 'apara suta' (another wife's sons) notation ensures legal genealogical clarity — which children belong to which mother matters for inheritance and ritual rights. Multiple 'apara' branches in a single entry (see Block 228 with nine अपरा sons) show the systematic rigour of this documentation.

4.5 Geographic Network

The village references in this khanda create a map of the Nagrami sub-region's kinship geography. The most frequently referenced villages cluster into three functional categories:

Prestige villages: Sarisab, Sodarpura, Jajival, Khandabala, Belaunch, Pandua. Appearing in dau/ddau position for high-status families.

Bridge villages: Mandar, Baliyas, Darahara, Pavauli, Ekahara. Medium-frequency, connecting multiple lineages.

Peripheral villages: Pavanachobh, Viherari, Tegval, Naruna. Lower frequency, often in ddau (grandmother's side) position.

The dau-ddau network means that every person is simultaneously a member of their own village's cluster AND connected to at least two other village-clusters through their mother and maternal grandmother. This creates a web of mutual kinship obligation across the entire Nagrami region.

4.6 Chronological Markers

Precise dates are rare in Panjika tradition, but this khanda contains several:

B-notation cross-references: 'B 86//2', 'B 100//5', 'B 62/3' etc. refer to other volume/folio entries. These suggest the Panjika was compiled in multiple stages, with cross-referencing between volumes.

'1934 III M.A.' (Block 294): Places the Ashananda generation definitively in the 1930s. Working backward, his grandfather Tharananda would be c.1880–1900; great-grandfather c.1855–1880.

'Calcutta H.C. Jury' (Block 347): Places Patak Baun in the colonial period, likely late 19th century, given that his grandson-generation entries involve M.A. degrees and modern engineers.

I.P.S./I.A.S. entries (Blocks 345–346): Post-1947 Independence entries, given that the I.P.S. and I.A.S. replaced the Indian Police Service/Indian Civil Service only after independence.

These markers allow a rough chronological calibration: the earliest entries in this khanda (those with no modern titles) date to c.1650–1750 A.D.; the densest cluster of entries is c.1800–1900; the most recent entries reach the 1980s–2000s.

5. The Panjika as Literature and Social Document

The Panjika is simultaneously several things:

Legal instrument: It establishes gotra, lineage, and marital eligibility. Marriages in Maithili society were (and often still are) contracted only after Panjika verification to confirm absence of prohibited-degree relationships.

Historical archive: The embedded professional titles, village networks, and name-patterns constitute an unintentional social history of Mithila across 300+ years.

Linguistic record: The names themselves are a corpus of Maithili, Sanskrit, Persian, and Urdu vocabulary as used in real-life naming contexts from the 17th to 21st century.

Theological document: The naming patterns reveal which deities were most invoked in naming, how Shaiva and Vaishnava traditions coexisted, and how devotional practice translated into domestic nomenclature.

Sociological data: The apara-wife documentation, the daughter-destination entries, the credential-recording, and the village-network encode the social structure of Maithili Brahmin society with a precision no ethnographic text of the period achieves.

The 'Genome Mapping' framing of the title is apt: the Panjika traces the biological, social, and cultural DNA of a community across fifteen centuries — not as narrative history but as a dense, compressed, maximally information-rich genealogical code.

6. Notes on the Videha Parallel History Framework

In the context of Gajendra Thakur's Videha Parallel Literature Movement, this Panjika is significant as a counter-canonical source. The official Maithili literary canon recorded by Sahitya Akademi tends to highlight individual authors and their texts. The Panjika, by contrast, records the community as a whole — its farmers, scholars, lawyers, engineers, second wives, daughters, and blind men (Aanhar) alongside its Mahamahopadhyayas and I.A.S. officers.

The Videha Parallel History framework, which emphasises subaltern voices and non-canonical texts, finds in the Panjika exactly such a non-canonical source: a document compiled not by literary institutions but by kulgurusara (family genealogists) for entirely practical social purposes, yet containing a richer social history than most formally composed chronicles.

The Panjika's inclusion of occupational markers for women (Block 346's I.A.S. daughter), Urdu loanwords in personal names, mendicant-inspired names (Fakir, Bhikhiya), and village-level naming customs (body-part names like Ankhi; verb-names like Phekan) all constitute the 'what the canon left out' material that the Parallel History framework seeks to recover.

Chapter 16

Pañjī Prabandha, Khaṇḍa 3 (Nagramā): Blocks 359–466 (Volume I)

Pañjī Prabandha — Khaṇḍa 3 (Nagramā) | Analytical Report

Genome Mapping (450 A.D. – 2009 A.D.)

pamapilāka ṇjī prabandha — khaṇḍa 3 (nagarāma)

A Comprehensive Analytical Report on the Maithil Brahmin Genealogical Register

Blocks 359–466 | Pages 3.156–3.

1. The Nature and Structure of the Panjī Text

The forty pages under analysis constitute a portion of the third volume (Khaṇḍa 3) of the Panjī Prabandha — literally the 'administration of genealogical records' — governing the Maithil Brahmin community of the Mithila region (present-day northern Bihar and the Tarai belt of Nepal). The text is titled 'Genome Mapping (450 A.D. to 2009 A.D.),' an evocative modern metaphor applied to what is, in essence, a biological and social lineage database extending over fifteen centuries.

The Panjī system is one of the most elaborate indigenous documentary traditions in South Asia. Originally established under the Karnāṭa dynasty king Harisingh Deva (c. 1300 A.D.) and institutionalized by the Panjī Prabandha, the register tracks patrilineal descent (gotra), village affiliation (mūla grāma), and cognatic/agamic relationships across thousands of families. It has been maintained by hereditary Panjī scholars (Panjīkāra or Panjīvāla) who certify marriages to prevent prohibited cross-cousin and

close-kin unions. No Maithil Brahmin marriage was traditionally recognized without verification in the register.

This volume is organized in numbered blocks (here running from 359 to 466), each devoted to a cluster of families typically identified by a sacred address (the invocation 'om̐ [deity]-nāthāya namaḥ') and one or more ancestral village names. The geographic trail winds through Darbhanga, Madhubani, Sitamarhi, Muzaffarpur, Supaul, West Champaran, Purnia, and across into Nepal (Simraon, Goṭham, Vindhī, etc.). The coverage is thus a social cartography of Maithil Brahmin settlement from the medieval period to the digital age.

2. Structural Components of Each Block

Each numbered block is a micro-chapter with a consistent internal architecture. Understanding this architecture is prerequisite to any analytical reading.

2.1 The Invocation Header

Every block opens with a Sanskrit invocation in the form 'om̐ [divine name]āya namaḥ' or 'om̐ namaḥ [deity]'. This is not merely decorative. The deity named correlates with the primary gotra or kula-devatā (clan deity) of the lineage group being recorded. Examples across these blocks include:

Block / Invocation | Divine Name & Geographic Tag

Block 359 | om̐ rāmeśvarāya namaḥ — Rāmeśvara (form of Śiva) | Village: Vicādhī (Hulāsh)

Block 360 | om̐ vāsukīnāthāya namaḥ — Vāsukīnātha | Village: Kuā to Rāmṭī

Block 364 | om̐ namaḥ parahaṭa raśāḍhya śīśinagara-pūrṇayā~

Block 370 | om̐ nīlagrīvāya namaḥ — Nīlagrīva (Śiva) | Mangaurī

Block 373 | om̐ rāmeśvarāya namaḥ — Rāmeśvara | Mangaurī

Block 379 | om̐ vṛṣabhavāhanāya namaḥ — Vṛṣabhavāhana (Śiva) | Pilakhvāḍ

Block 388 | om̐ bhujaṃgaloka patyai namaḥ — Bhujangaloka | Baiganī

Block 402 | om̐ śūlapāṇaye namaḥ — Śūlapāṇī | Jagatpur

Block 447 | om̐ vāsukīnāthāya namaḥ | Sukhait to Pilakhvāḍ

Block 461 | om̐ — Haḍarī to Saurāth

The progression of deity names — overwhelmingly Śaiva (Rāmeśvara, Nīlagrīva, Vṛṣabhavāhana, Śūlapāṇī, Mahākāla, Bhīmaśaṃkara, Āśutoṣa) with rare Vaiṣṇava or goddess references — reflects the historically Śaiva orientation of Maithil Brahmin religious culture, particularly strong in the Darbhanga Raj heartland.

2.2 The Village Declaration (grāmārambha)

After the invocation, a new village is often introduced with the phrase 'atha [village name] grāmārambhah' (herewith begins the [village name] section). Some blocks compress multiple villages. The density of village citations — Kuā, Rāmṭī, Mallichhām, Parahaṭ, Māṇḍar, Khauāl, Darbhara, Saurath, Naraun, Pabauśal, Sarisab, Pahalacom, Satalakhā, Belauñca, Jijāl, Karamahā, etc. — creates a topographic matrix of Maithil settlement across the Mithilā plain.

2.3 The Genealogical Entry Formula

The core entry formula is: [Person A] suta/sutā/suto [Person B] :: [village name] sa~ [grandfather's name] suta [father's name] dau [mother's village] sa~ [maternal grandfather] ddau. This encodes:

Symbol / Abbreviation | Meaning in Genealogical Context

suta / sutā / suto | Son(s) / Daughter(s) of the preceding person

[village] sa~ ... dau | 'dau' = dauhitra sambandha — the mother's natal lineage (father's side)

[village] sa~ ... ddau | 'ddau' = dvidauhitra — the mother's mother's lineage (maternal grandmother's side)

pra. | Abbreviation of prakāśita or prasiddha — 'known as' (a popular alias)

vaiyā. | Short for vaiyākaraṇa — a grammarian; a scholar title

ma.ma. | Short for mahāmahopādhyāya — the highest traditional scholarly title

jyo. | Short for jyotiṣī — an astrologer

ṭha. | Short for ṭhākura — a landed gentry title

cau. | Short for caudharī — a community headman

pā~ | Short for pā~re / pāṇḍe — a specific sub-designation of Brahmin

(B XX/YY) | Cross-reference to another block and line in the register

The dual-maternal tracking (dau and ddau) is particularly significant: it records two generations of maternal descent simultaneously, allowing the

Panjī scholar to verify that no bride and groom share a common ancestor within the prohibited degrees on BOTH the paternal AND maternal sides. This is genealogical computing of remarkable sophistication, operating without modern databases but through a highly structured text protocol.

3. Deep Analysis: Selected Blocks

3.1 Blocks 359–362: The Vicāḍhī–Kuā Cluster (nagarāma / Vicāḍhī / Kuā)

Block 359 opens with the Ananta sub-lineage (anantasuto baidyanātha dāmodara — 'sons of Ananta: Baidyanātha, Dāmodara') in the Māṇḍar gotra-cluster. The immediate descendants of Baidyanātha disperse through the villages of Darbhara, Sarisab, and Sodarpur, reflecting the typical pattern of scattered settlement across a radius of 20–40 km. The maternal affiliations (dau/ddau) connect to Satalakhā, Bhelaunc, Pāli, and Naraun — all core Maithil Brahmin settlement nodes.

The Dāmodara branch (dāmodara suto lakṣmaṇa dinabandhuko — 'Dāmodara's sons: Lakṣmaṇa and Dinabandhu') is a classical bifurcation. Lakṣmaṇa's line (lakṣmaṇa suto khagapati hariko — 'Lakṣmaṇa's sons: Khagapati, Hari') extends to Khagapati whose four sons (meghanātha, devanātha, hṛdayanātha, premanātha) are recorded with their full maternal pedigrees. This is a five-generation chain visible in a single paragraph-block.

Critically, Hṛdayanātha's son Yadunātha (hṛdayanātha suta yadunātha) is connected to Darbharā through the Meśa-Minā lineage — a specific inter-village alliance that the Panjī tracks. Yadunātha's son Bhāyalāla connects to Vaśiloyā village through Sonī sub-clan (sonī suta īśvaradatta dau). This chain — Ananta → Baidyanātha → Dāmodara → Lakṣmaṇa → Khagapati → Hṛdayanātha → Yadunātha → Bhāyalāla — represents eight generations, and if we accept the ca. 450 A.D. start-date for the register's scope, this particular branch was likely established in the 17th–18th century given typical genealogical depth.

Block 360 (vāsukīnāthāya namaḥ, Kuā to Rāmṭī) opens with the Kuā village section (atha kuā tisau-ta grāmārambha:). The Jaganātha → Bhaiyo/Girdhari bifurcation is illustrative: Bhaiyo (bhaiyo) generates Kamalanayam and Apachhi through the Sōdapur (sodarapura) maternal connection, while Girdhari (giradhārī) generates Cirañjīva and Devakṛṣṇa. Cirañjīva's five sons

— Kamalanārāyaṇa, Jagat-nārāyaṇa, Śrīnārāyaṇa, Bhagatnārāyaṇa, Mōdanārāyaṇa — all carry the characteristic -nārāyaṇa suffix, which in this context signals affiliation with a specific Vaiṣṇava sub-tradition within an otherwise predominantly Śaiva register.

Block 362 (oṃ somanāthāya namaḥ) records the Haridev → Sadīānanda branch: Sadī's sons (Bācā, Thothā, Nenā) are spread across different maternal networks. Bācā's sons (Bhīmadatta, Kāśīnātha) generate further bifurcations, and the cross-reference '(B 41//8)' in Block 359 signals a deliberate link to an earlier entry — the register maintains internal consistency through these cross-references, functioning like hyperlinks in the manuscript tradition.

3.2 Blocks 363–367: The Parahaṭ–Cāṇapurā Cluster (parahaṭa / cāṇapurā)

Block 364 is remarkable for the presence of the Mahāmahopādhyāya title (abbreviated ma.ma.) — the highest traditional scholarly honour in Maithil culture — associated with the Śrī Khagesh and his descendant Rājā Vidyānidhī Hṛdayanidhi. The full title chain ma.ma. khageśa suto ma.ma. rājā pra. vidyāni hṛdayanidhi signals that both father and son held this distinction, which was extremely rare and indicates a family of exceptional Sanskrit learning.

The Rājā's sons include Catuṣkraṇḍa-Yajñakartā Dhīrendra (cātuṣcaraṇa yajñakartā ma.ma. dhīrendra), described as a four-Vedic sacrificer. This is one of only a handful of references in these forty pages to actual ritual performance — most of the register is purely genealogical — making it a rare documentary trace of lived Sanskrit learning within the genealogical framework.

Block 365 (Cāṇapurā, Parihārī, Badri-Ṭhākura) records the Raghunātha → Mahermān/Teja bifurcation. The descendants of Mahermān (ṭha. maheramāna) show an unusually dense settlement pattern: sons Ānkhī, Lakṣmaṇa, Chatrakara are each based in different villages (Sōdapur, Pāli, Darbharā), and Ānkhī's sons (Saṃsādhara, Rājā, Manamohana, Fatarī) demonstrate four simultaneous settlements in Belaunc, Pāli, Pabausal, and Hariama — the classic Maithil pattern of 'dispersed but connected' agnatic clusters.

Block 366 (oṃ mahākālāya namaḥ, Cāṇapurā) records the Lakṣmaṇa → Chakauḍī branch. Chakauḍī's four sons (yadunātha, durgānātha, kīrtinātha,

vaidyanātha) illustrate a naming pattern common throughout these pages: brothers receive names from the same thematic cluster (here, all Śaiva epithets ending in -nātha). Vaidyanātha's sons Rudranātha and Ugranātha extend the pattern further. The maternal connections (Bhelaunc, Jijāl, Sōdapur) trace a tight geographic web around the Darbhanga nucleus.

3.3 Blocks 370–376: The Mangaurī–Khōjapura Scholarly Cluster

Blocks 370–376 document arguably the most intellectually distinguished family cluster in the entire forty-page corpus: the descendants of Sadu-Upādhyāya Rāmabhadra in Mangaurī (maṃgaraunī).

Block 370 opens with the extraordinary Rāmabhadra pedigree: his sons include Paṇḍitarāja Padāhita (paṇḍitarāja padāhita), Mahāmahopādhyāya Madhusūdana (ma.ma. madhusūdana), Mahāmahopādhyāya Baidyanātha-Pitāmbara (ma.ma. baidyanātha pra. pitāmbara), Sadu-Upādhyāya Umananda, Mahāmahopādhyāya Bāgīśa, Mahāmahopādhyāya Śatridaṇḍī-Sannyāsī. The sheer density of scholarly titles in a single sibship is unparalleled in these pages and marks the family as the great intellectual dynasty of the Darbhanga region in the medieval and early modern period.

The Rāmabhadra Dynasty — Scholarly Titles Recorded Paṇḍitarāja (King of Scholars) | Mahāmahopādhyāya (5× in siblings) | Sadu-Upādhyāya | Sannyāsī-Scholar | Śatridaṇḍī (holder of the triple staff of renunciation)

M.M. Madhusūdana's sons include M.M. Gośāmī Madana and Baladeva. Gośāmī Madana's son Gaṅgādatta, and his son Śivadatta, extend the scholarly line. The Baladeva branch produces Gośāmī Jīvanātha, Sonāī (alias Rāmanātha), and Hariātha — the latter a name connecting the family to the Vaiṣṇava tradition.

Block 373 (om rāmeśvarāya namaḥ, Mangaurī) records M.M. Pitāmbara's sons: M.M. Śatrilocana, M.M. Daṇḍapāṇi (alias Dhanañjaya), M.M. Ṭikākāraka Ṣaḍyantri Gokulātha. Gokulātha's title Ṣaḍyantri (holder of the six-fold [scholastic] system) indicates a pandit who mastered all six Vedāṅgas. His sons M.M. Sarvsvadātā Raghunātha and Lakṣmīnātha continue the lineage, and Raghunātha's son Jayakṛṣṇa is recorded in Block 373.

The grandchildren of M.M. Bhavānīdatta (kavi śaṃkaradatta, nanu pra. rudradatta, pā~khī pra. īśvarīdatta, ramādatta, mānāpura govindadatta, phaturī pra. tīrthadatta) represent the diaspora of this great family across

multiple villages (Darbhārā, Sarisab, Pāli, Mānapura). The very alias 'kavi śaṃkaradatta' — 'the poet Śaṃkara-datta' — is a direct record that this person was known as a poet, extremely rare autobiographical data embedded in a genealogical list.

Block 374–376 track the further dispersal: Nanu Rudradatta's son Mannulāl and Sonelāl; Sonelāl's son Lālā → Rāmapāla → Śivajī (alias Śivanandana); and eventually into the 20th century with Manojakumāra (B.Sc. Hons.), Babhlā alias Saṅjīvakumāra (M.A.), Ajaya alias Cunnā (B.Tech Mechanical Engineering). These modern academic qualifications, inserted into the genealogical stream, mark the point where the register transitions from traditional to modern credentialization.

3.4 Blocks 379–382: The Pilakhvād–Mangaurī Branch and M.M. Vāgīśa's Lineage

Block 379 records M.M. Upādhyāya Umananda's sons Dharmēśvara and Guṇīśvara (dhameśvara, guṇīśvara). Guṇīśvara's son Gośāmī Dharānātha generates a triad: Khagānātha, Bhajata, and Jhāuṃṭī. The Khagānātha branch is connected to Sōdapur through the 'Umananda → Bhavana' link. The 'Jhāuṃṭī' line (jhāēṭī sutā bhaiyana bavua śaktinātha) leads to Bhaiyan's son Śrīnātha, and ultimately to 'Bhūla sutas — Joyanta and Subanta' — names that are characteristically Bengali-influenced, suggesting cross-cultural contact in the northern Champaran region.

Block 382 (oṃ dukhaharanāthāya namaḥ, Mangaurī) records M.M. Vāgīśa's sons: Lāl alias Girdhara and Mahīdhara. The title Chātuś-caraṇa-Yajñakartā for M.M. Dhīrendra (son of Lāl/Girdhara) recurs here from Block 364, confirming a family tradition of Vedic sacrifice. M.M. Ratiśa's son Isānanātha, and Isānanātha's sons Śobhanātha and Rūpanātha, carry the scholarly tradition into what appears to be the 17th–18th century.

3.5 Blocks 383–387: The Alaya–Lagamā Geographic Corridor

Block 383 (oṃ śītikanṭhāya namaḥ, Rājagrāma) opens with 'atha alaya grāmārambhaḥ' — establishing Alaya as a new ancestral village hub. Vaṃśī's sons (Puraṇḍara, Ratiśa, Caturbhūja, Mahī) are each connected to Belauñca through the Bāchani-Vīra maternal chain.

The Candrapati branch (Block 383) is noteworthy for its sheer fecundity: seven sons (Devīdatta, Śītalādatta, Nārāyaṇadatta, Viṣṇudatta, Gaurīdatta,

Lakṣmīdatta, Paraśī) — all with the characteristic -datta suffix (gift of a god), a naming convention associated with devotional Śaivism. Each of these seven generates further branches. The Dīnabandhu sub-line (Dīnabandhu → Hariśchandra, Lalīcandra, Caṇḍeśvara, Sūryadeva, Amarendra) shows the transition to 19th century naming fashions: Hariśchandra (the famous noble king of tradition), Lalīcandra (a Romantic-era sensibility), Caṇḍeśvara (classical Śaiva), Amarendra (sovereignty-themed).

Block 384 (om simheśvaranāthāya namaḥ, Raśādha) records the Lāl → Nenā/Īsvarīdatta/Caṇḍīdatta/Girijādatta quadruple branching. The Nenā sub-line connects to Darbharā through the Gaṃgeśa-Dharmadatta link. The Ratīśvara → Pītāmbara/Mandhara bifurcation leads to Māṇḍar through the Vaṭāī-Rāmdhara-Dharaṇī maternal chain — a particularly deep triple-generational tracking.

Block 385–386 (Pilakhvāḍ, Baligaḍha, Lagamā) introduce the Pāṭhaka sub-community: Pāṭhaka Dubari (pāṭhaka dubari), Pāṭhaka Kṛṣṇapati, Pāṭhaka Ratīśa (rājamaṅgala pra. vucana), Pāṭhaka Satīśa, Pāṭhaka Girīśa, Pāṭhaka Ratiśa. The 'Pāṭhaka' prefix (literally 'reader/reciter') marks a sub-group of Brahmins whose traditional profession was recitation — a distinction preserved in the Panjī even as the families diversified economically. Pāṭhaka Gaṅgādhara's sons (Dharaṇīdhara, Ratīśa, Girīśa, Satīśa) and their further descendants extend across Darbharā, Ekaharā, Jijāl, and Karamahā.

3.6 Blocks 388–395: The Baiganī–Baṃśī Rāja Dynasty

Blocks 388–395 contain the most politically significant genealogy in the entire forty-page corpus: the Rāja lineage of Baiganī village, the aristocratic branch connected to the Banaili Rāmgāḍha royal house.

Block 388 opens with Caudharī Devānanda, whose sons include Paramānanda, Paṇāma Hajārī, and Mahinakānanda. The key figure is Vābu (lord/master) Harirāla Siṃha, whose son Vābu Kalitanātha Siṃha becomes the progenitor of a ruling line. Kalitanātha's son Vābu Tīrthānanda Siṃha is noted. This line terminates — via Līlānanda Siṃha Bahādura's branch (Block 388) — in the titles Rājā, Kumāra, and eventually reaches figures identified as Rājā Kalyāṇānanda Siṃha, Rājā Kīrtīyānanda Siṃha Bahādura, and the extensive Śyāmananda Siṃha family (described as 'Saṃgīta Śāstra Mārtaṇḍa' — Sun of the Science of Music, a prestigious title).

Block 389 records Ānarabula Rājā Bahādura Kīrtyānanda Siṃha (the full honorific including the English 'Honourable') and his sons Kumāra Śyāmananda Siṃha, Kumāra Vimalānanda alias Bholanjī, Kumāra Tārānanda Siṃha alias Bhagavānjī, and others. The son Dr. Prof. Bālānanda Siṃha is identified as a visiting professor in Germany and the West Indies — extraordinary data for a genealogical register, documenting 20th-century international academic diaspora.

Block 390 enters the main Rājā lineage: Rājā Rudranānda Siṃha → Rājā Śrīnandana Siṃha → Kumāra Gaṅgānanda Siṃha → Saccidānanda Siṃha alias Sanātanañjī. Sanātanañjī's children include Isānanda alias Prakāśa, Ilānanda alias Vikāśa, and Dr. Saumāvāda alias Isvarānanda — again documenting the academic-professional transition. The register notes marriages into specific family lines (the Cāṇapurā/Nahaś Khauāl connections), maintaining the traditional dual-maternal verification even for this royal family.

Block 391 continues the Rājā Kālikānanda Siṃha branch, covering his six sons: Abhayānanda alias Nārāyaṇajī, Vijayānanda alias Sihebjī, Dhanānanda alias Damanjī, Pramodānanda alias Pramoda, Śrī Divyānanda alias Jasmantjī, and Mohan jī. Nārāyaṇa jī's son Śaṃkarānanda alias Putalam has sons including a Journalist Cetanānanda Siṃha — a further instance of professional identity embedded in the genealogical record. The designation 'Journalist' (in English) appears here as a social credential parallel to the traditional scholarly titles.

3.7 Blocks 392–398: The Paramgaḍha–Piṇḍāruchha Chaudhuri Community

Block 392 (om amaranāthāya namaḥ, Piṇḍāruchha) opens the Paramgaḍha section with Caudharī Śyāmalāla and his sons Śivalāla, Rājā alias Hṛdayalāla, Nenā alias Premalāla. The 'Caudharī' title (community headman) contrasts with the Rājā/Kumāra titles of the Baiganī line, marking a distinct socio-political stratum.

Fecanlāla's son Lucana alias Paramānanda → Dhaneśvara → Lalīta Kumāra, Vinaya Kumāra, Sañjīva Kumāra, Śatrubhuvana Kumāra, Atimita Kumāra alias Sukumāra form a six-son generation — the naming here fully modern, using Kumāra as a honorific suffix rather than a caste marker.

Block 393 (Piṇḍāruchha) records the Akṣayalāla → Navīnacandra/Viśvanātha bifurcation. The Navīnacandra branch is particularly rich: his 'other sons' (Praphullacandra, Nirmūlacandra, Vijayacandra, Subhāṣacandra, Íśvaracandra) all carry the -candra (moon) suffix — a distinctive naming fashion of the late 19th/early 20th century Bengal and Bihar literati, reflecting the influence of Bengali Renaissance culture on Maithil naming practices. The -candra names contrast sharply with the -nātha and -datta names of earlier generations, marking a cultural transition point datable to approximately 1860–1920.

The most significant genealogical entry in Block 422 (Kailakh) involves the Govana alias Govarddhana family, whose sons include I.P.S. (Ex. G.P. Bihar) Mihira Kumāra, I.P.S. (Railway I.G.) Śaṃkara Kumāra, and I.A.S. (Adv. World Bank) Subhāṣacandra alias Rājana. These governmental service designations (Indian Police Service, Indian Administrative Service) are inserted into the genealogical record as the modern equivalent of the traditional scholastic titles. The I.A.S. Adhīra Kumāra appears with his World Bank advisory role, and his son I.A.S. Pravīra Kumāra married into the Bhāradvāja gotra. The register thus consciously maps the replacement of Paṇḍitarāja and Mahāmahopādhyāya by IAS and IPS as the community's new prestige markers.

3.8 Blocks 402–406: The Jagatpur Ōhina Royal Lineage (Simraongarh)

Block 402 (om śūlapāṇaye namaḥ, Simraongarh) is one of the most historically significant blocks in the corpus. It opens with a Sanskrit verse: 'dāna śaurya pratāpaiśca prasiddhā yatra pārhavāḥ | oihana sā sarvuta śroṣṭhā svasvadharmā pravartakāḥ' ('There where the kings are renowned for charity, valour, and power — Oihin is the best of all, promoter of self-dharma'). This verse is a panegyric insertion, marking this block as covering the genealogy of a historically prominent ruling lineage.

The lineage traced here is explicitly connected to Simraongarh (Simraon Fort), the medieval capital of the Karnāṭa dynasty and one of the most important historical sites in Mithilā. The register records: Rājāpaṇḍita Kāmeśvara → Rājā Bhōgīśvara (768 Śaka year = c. 846 A.D.) → Mahāmahattaka Kusumeśvara → Mahārājadhirāja Bhavēśvara alias Bhavasimha. The title Mahārājadhirāja (King of Kings) and the explicit Śaka date mark this as one of the earliest dateable genealogical entries in the

blocks under analysis, pushing the lineage record back to the 9th century A.D.

Block 403 continues with Mahārājādhirāja Śivasimha → Mahārājādhirāja Padmasimha → through Rāja Ratnasimha alias Narasimha, Rāja Vijaya Nārāyaṇa alias Raghunṣimha, Rāja Vīranārāyaṇa Siṃha alias Bhānusiṃha. This is clearly the genealogical record of the medieval Mithilā ruling houses. Mahārāja Ratnasimha's sons Dhīrasimha alias Hṛdayanārāyaṇa, Bhairavasimha alias Hariānārāyaṇa, and Kumāra Candrasimha further establish the dynastic chain.

Block 403 then provides the Mahārāja Rāmabhadrasimha alias Satyānārāyaṇa → Mahārāja Lakṣmīnātha Siṃha alias Kaṃsanārāyaṇa entry, connecting the medieval Karnāṭa lineage to what may be the Darbhanga Rāja house. The entries for Kumāra Balabhadra and the Candautā Pāli maternal connections trace the matrimonial alliances of this ruling family into the Pañjī network, confirming that even kings required Pañjī verification for marriage purposes.

3.9 Blocks 420–428: The Nāhas Khauāl Scholarly Complex

Blocks 420–428 constitute one of the densest and most interconnected sections of the corpus. The Nāhas Khauāl grāmārambha opens Block 420 with Guṇākara's sons (Mana alias Brahma-datta, Dhana alias Rudradatta), and the Goṣāṃī sub-line (jyo. Hṛdayadatta, Nanu, Kāmha, Veṇīdatta, Pām Rāma, Śaṃkara-datta, Iśvaradatta, Nenamahana).

The jyo. (Jyotiṣī/astrologer) designation for Hṛdayadatta marks him as a professional astrologer — a specific occupational identity that the Pañjī preserves alongside the genealogical data. His descendants through Jānakinātha → Baidyanātha → Kīrtanātha ultimately lead (in Block 422) to the I.P.S. and I.A.S. officials noted above, making this one of the most vivid cases of occupational and social transformation documented in the register.

Block 421 (om Kailakh, Bharāma) records the Śrīnātha → Candranātha/Sūryanātha/Tārānātha trifurcation. The Tārānātha sub-line is remarkable: his son Bhīmanātha is identified as 'Pro. (lekhaka kavi maithilī)' — a professor who is a writer and poet in Maithili. This is an extraordinary moment of literary self-identification within the genealogical register: the Pañjī itself, which governs Maithili social structure, records a son who became a Maithili creative writer. The sons of Bhīmanātha — Daman and

Sumana — carry names from the tradition of Sanskrit poetry (Damana and Sumana are classical hero-names).

Block 422 contains the Vaṃśamahana → Bhaiyānātha/Ṭekanātha/Lekhanātha trifurcation. Lekhanātha's son Tārānātha → Jyotiṣanātha → Somnātha — all three carrying celestial/astral names consistent with a family of astrologers. The Jyotiṣanātha designation would be appropriate for such a family. The Somnātha sub-line connects through Sōdapur to the Manohara-Gośāmī link, closing a genealogical circle with Block 370's Mangaurī scholarly cluster.

3.10 Blocks 429–434: The Cāṇapurā Social Complex

Block 429 opens with a dense quadruple-generation descent from Paramānanda: sons Hirānanda, Śivarāma, Matirāma, Gatirāma, Harapati, Dinārāma, Rājārāma, Hṛdayarāma, and Cāmna (nine sons — unusually large, likely representing different mothers or a compressed multi-generational record). This block covers the Śivarāma lineage through to the Caṇḍihitti branch.

Block 430 records the Saṃtoṣī → Sabūradatta/Dullaha bifurcation. Dullaha's sons Jayanātha and Bholānātha generate further lines. Bholānātha's five sons (Vaḍūkanātha, Badrinātha, Kedāranātha, Nennā) use four different naming conventions simultaneously: the -nātha pattern (Śaiva devotional), and the colloquial Nennā (a pet-name, showing that informal names were also preserved). The entry 'Vaḍūkanātha suta [hariam Harinaherana sueta nāthe dau... Oihin] suggests that even this branch maintained the genealogical verification link to the Jagatpur Oihin royal lineage entered in Block 402.

Block 431 (Cāṇapurā Basaiṭha) records Nātha's sons (Pyāre, Ghōghana, Daravārī, Govarddhana) with the full maternal chain. The Daravārī → Harinārāyaṇa/Jagat-nārāyaṇa branch connects to Ṭakabāla through Datta → Gopīnātha. The Matirāma sub-line (Block 431) provides one of the fuller maternal pedigree chains: Matirāma → Dubarī/Bhaiyā/Yaddhū/Digbara/Umāī/Raiyā — six sons with the full maternal verifications from Budhavāla, Sodarpur, Pāli, Hariama, and Karamahā, creating a five-village maternal web.

3.11 Blocks 447–450: The Sukhait–Pilakhvāḍ M.M. Nena Line

Block 447 (om vāsukīnāthāya namaḥ) opens the Sukhait Khauāl section with M.M. Nena's family — a lineage of Mahāmahopādhyāyas rivaling the

Mangaurī Rāmabhadra line. M.M. Nena's sons include Lānhī, Jyo. Dhūttarāja/Bhānā, M.M. Vabujana, Jānī, Jñānī, and Dhyānī — the last three (Jānī, Jñānī, Dhyānī = 'Knower, Knowledgeable, Contemplative') being a transparently literary naming cluster, suggesting naming with a philosophical intention.

M.M. Vabujana's sons M.M. Vabū alias Dukhamocana and M.M. Caumē (Khañjana) continue the scholarly tradition. Caumē's descendants (Pītāmbara, Dāmodara, Vaidya Guṇākara, Lakṣmīdhara) are all Pañjī-verified scholars. Lakṣmīdhara's son Dañña alias Vaṃśīdhara and Bhavana carry the family into Block 449, where Lakṣmīdhara's line leads to the son of Dañña whose 'principal' branch (I.P.S.) connects to the modern Govana/Govarddhana family in Block 422 — a cross-block genealogical circuit.

Block 448 records the Śatrilocana branch: sons Baidyanātha, Amaranātha, Dharmānātha. Amaranātha's descendants settle in Gaṃgaulī/Mahiṣī Pāli, while Dharmānātha's line goes through the Belauñca network. The Pītāmbara → Mahāvīra/Bhagavānjī bifurcation in Block 448 includes Mahāvīra's son Ācārya Ḍā. Śaṃkara, identified as a doctor — another professional identity embedded in the genealogical stream. The Malichchhāma Naraun connection (Block 448) links this Sukhait Nena line back to the Parahaṭ Sōdapur network of Block 451, confirming the register's function as a network graph of the entire Maithil Brahmin community.

3.12 Blocks 451–466: The Parahaṭ–Haḍaṭī Peripheral Clusters

Blocks 451–466 document the more peripheral geographic extensions of the Mithilā genealogical network: Parahaṭ Sakrādhī, Satalakhā, Veḍharā, Jhauā, Kachuvā, Velaḍīhā/Munger, Haḍaṭī, Lohanā, Rohaḍ, and finally Supaul on the Nepal border.

Block 451 (om Nāhara, Parahaṭ Sakrādhī) opens with Haridev → Abhinandana/Vāsudeva. Abhinandana's sub-line (Umaḥpati → Jyo. Khakinū, Ṭekana) leads through five generations to Madhukara → Tejannātha. The cross-reference (B 41//8) connects this branch to an entry 150+ blocks earlier in the main register, demonstrating the pan-register coherence of the genealogical database.

Block 452 (Parahaṭ to Satalakhā) records the Pām Bhavānī → Bahādura/Nanu branch. Pām Dūrivayā's daughter-sons include Vaiyā. Śrīnandana, Pām Hariñandana, and Bhālacandra alias Kañṭī — the last

demonstrating the persistence of colloquial aliases (Kañṭī = 'thorn', a fondly ironic pet-name) alongside formal names.

Blocks 453–456 (Parahaṭ to Paṭuvāhā, Vaḍagāṃva, Irśāda-Apara Kājhi, Jhauā) document several interesting social phenomena. Block 455 contains 'Irśāda' (Irshad) as a place-name alongside Paṭuvāhā — a Muslim administrative locality, indicating that the Panjī records geographic movements even into areas of mixed Hindu-Muslim settlement. Block 456 records the Candra-Tīrthamānī bifurcation: Tīrthamānī's sons connect to Sōdapur through the Kōdāī → Ṭhākuraḍatta link, while Kulmaṇī's son Yugeśvara connects to Pāli through Nenā → Gudar. The Kanhāī → Mēghanātha/Tīrthamānī bifurcation (Block 456) traces parallel cousins across different village settlements.

Block 458 (om Velaḍīhā-Munger) is geographic significant: it documents the genealogy of families who had migrated as far as Munger (Monghyr), over 100 km from the Darbhanga nucleus, yet remained within the Panjī system. The Jayakṛṣṇa branch (Jñānī śāstri Naiyāyika Darśanaśāstrajña Udayakānta — a scholar identified as expert in Nyāya/logic and Darśana/philosophy) is notable. His sons' names (Vijayakānta, Kṛṣṇakānta, Vinayakānta) lead to Kṛṣṇakānta's sons 'Aṭala Bihārī Lālakṛṣṇa...' — a transparent reference to two prominent political figures whose names appear here in this genealogical context, suggesting naming children after political heroes of the late 20th century.

Block 461 (Haḍarī to Saurath) opens with Pām Yogī → Tārāpati → Rāmanātha/Śukhkhī, connecting to the famous Saurath Sabha (the Maithil Brahmin marriage fair). The cross-reference to Bhelaunc and the M.M. Mukunda sub-line (Block 461) ties this peripheral village into the core scholarly network. The Mahāmahopādhyāya Mukunda's son Vaiyā. Jayakṛṣṇa and his descendants maintain the scholarly tradition even in this outer geographic zone.

Blocks 465–466 (Lohanā Sakrāḍhī and Rohaḍ to Haripura) close the forty-page corpus with two final geographic nodes. Block 465 (Lohanā) records the simple Raghupati → Girapati → Premanātha → Acyuta → Dūbūla alias Śrīnārāyaṇa chain — short but clear, showing a family that maintained the Panjī record even as it was reduced to a single-son succession across several generations. Block 466 (Rohaḍ to Haripura) records the Narasiṃha → Bhaveśa/Patī bifurcation, with Bhaveśa's son Tilakā and Patī's son

Manabodha extending through the Alaya network back into the main Darbhanga cluster, completing a geographic circuit.

4. Thematic Patterns and Socio-Historical Findings

4.1 Generational Depth and Temporal Range

Across the forty pages, the genealogical chains average 8–12 generations of traceable paternal descent, with some lines (particularly the Mangaurī scholarly family and the Baiganī Rāja line) reaching back 15–18 generations. If we assume 25–30 years per generation, this places the earliest entries for these families in the 14th–16th centuries A.D. The title claim of '450 A.D.' in the volume's title refers to the theoretical beginning of the entire Panjī project, not necessarily to the individual entries, which cluster heavily in the 17th–20th centuries with occasional medieval data points.

4.2 Naming Conventions as Social Data

The register reveals clear naming-period stratifications. Pre-18th century: -nātha, -datta, -deva, -pati suffixes (Śaiva/devotional); 18th-19th century: -nārāyaṇa, -kṛṣṇa (Vaiṣṇava influence increasing); 19th century: -candra (Bengali Renaissance influence); Early 20th century: -kumāra (modernity marker); Post-independence: modern Hindi/English-influenced names with academic qualifications appended.

4.3 Occupational and Professional Stratification

Professional Title / Credential | Context / Block Reference

Paṇḍitarāja | Highest traditional scholar; present in Blocks 364, 370

Mahāmahopādhyāya (ma.ma.) | National scholarly title; ~15 instances across 40 pages

Ṣaḍyantri (ṣaḍyantrī) | Holder of all six Vedāṃgas; Block 373

Yajñakartā | Vedic sacrificer; Blocks 364, 382

Naiyāyika Darśanśāstrajña | Logician and philosopher; Block 458

Vaidya (vaiyā.) | Physician or Grammarian (context-dependent); ~20 instances

Jyotiṣī (jyo.) | Astrologer; Blocks 420, 427, 447

Kavi (kavi) | Poet; Block 373

Lekhaka-Kavi Maithilī (Prof.) | Maithili writer-professor; Block 421

Journalist (English) | Journalist; Blocks 391, 428

I.A.S. / I.P.S. | Indian Administrative/Police Service; Blocks 392, 422, 428

Adv. World Bank | World Bank Adviser; Block 428

Visiting Prof. Germany/West Indies | International academic; Block 389

B.Tech Mechanical | Engineering graduate; Block 364

B.P.S.C. | Bihar Public Service Commission; Blocks 409, 422

4.4 Geographic Networks

The maternal village citations (the dau/ddau system) create a quantifiable social network. The most frequently cited villages as maternal sources across these forty pages are: Sōdapur (~150 citations), Darbharā (~120), Pāli (~110), Belauñca (~100), Khauāla (~90), Karamahā (~80), Jijāla (~70), Sarisaba (~65), Pabauśala (~60), Māṇḍara (~55), Ekaharā (~50). These figures confirm Sōdapur, Darbharā, and Pāli as the three apex nodes of the Maithil Brahmin matrimonial network in the Darbhanga region.

4.5 Cross-Block Internal Cross-Referencing

The register employs a sophisticated system of cross-references — e.g., '(B 41//8)', '(B 33/7)', '(B 92/2)', '(u.pra. 270/5)' — that function as inter-document hyperlinks. These references appear approximately 80–100 times in the forty pages, indicating a densely connected database. The 'u.pra.' prefix likely refers to 'Uttara Prabandha' (an additional supplementary volume), suggesting the multi-volume nature of the complete Panjī system. This internal cross-referencing is the textual mechanism that prevents genealogical errors accumulating across volumes.

5. The Panjī as Literary and Documentary Form

The Panjī Prabandha occupies a unique position in South Asian documentary literature. It is simultaneously a legal document (marriages are invalid without it), a historical archive (it preserves medieval genealogies), a sociological survey (it maps settlement patterns and occupational change), and a literary text (it embeds titles, epithets, aliases, and occasional panegyric verses).

The forty pages analysed here demonstrate all these dimensions. The Sanskrit verse in Block 402 (the Oihin eulogy) is a fragment of court poetry. The titles Paṇḍitarāja and Ṣaḍyantri are accolades from a living evaluative tradition.

The aliases (Kavi, Lekhaka-Kavi Maithilī, Journalist) record how families self-identified beyond their lineage. The academic qualifications (M.A., B.Sc. Hons., B.Tech, I.A.S., Visiting Professor) mark the terminal transformation of traditional status hierarchies under modernity.

Perhaps most significantly for the Videha Parallel Literature Movement's interests: the presence of 'Pro. (lekhaka kavi maithilī)' in Block 421 — a Maithili-language writer identified within the Panjī itself — positions Maithili literary culture as genealogically encoded. The Panjī, which is the ultimate arbiter of social identity in Maithil society, here acknowledges creative writing in Maithili as a legitimate social credential. This is a small but crucial data point for the study of Maithili literary sociology.

6. Conclusion

The forty pages of Panjī Prabandha, Khaṇḍa 3 (blocks 359–466), constitute a micro-civilization in text. They record:

- Over 3, individual named persons across approximately 15 generations.
- More than 200 distinct village names serving as genealogical anchors.
- A continuous documentary tradition from at least the 9th century (Mahārāja Bhavēśvara of Simraon) to 2009.
- The complete spectrum of Maithil Brahmin social life: from royal dynasties (Baiganī Rājas, Simraongarh Karnāṭa descendants) to scholarly families (M.M. Nena, M.M. Rāmabhadra of Mangaurī) to professional communities (Pāṭhaka reciters, Jyotiṣī astrologers, Vaidya physicians) to modern professionals (IAS, IPS, journalists, professors).
- The geographic arc of Maithil settlement from the Darbhanga nucleus outward to Champaran, Purnia, Munger, Supaul, and across into Nepal.

The Panjī Prabandha is not merely a genealogical register. It is the primary document of Maithil civilization — a text in which biology, sociology, history, geography, religion, and literature converge. Its systematic study, facilitated by Videha's digitization mission, opens a uniquely direct window into one of South Asia's most continuously documented communities.

Panji Prabandha of Mithila: Genealogical Mapping (450 AD – 2009 AD), Comprehensive Research Report

PANJI PRABANDHA OF MITHILA

Genealogical Mapping (450 AD – 2009 AD)

jīniyolaôjikala maipim̃ga • pañjī prabandha • bhāga-2

A COMPREHENSIVE RESEARCH REPORT

Anthropological · Sociological · Genealogical Analysis

*Based on: Genealogical Mapping 450 AD – 2009 AD (Part 2)&

Punji Diwali 2014 Issue | Shruti Publication, Delhi*

Authors: Gajendra Thakur · Nagendra Kumar Jha · Panjekar Vidyanand Jha

ISBN 978-93-80538-62-4 | First Edition 2012 | Shruti Publication, New Delhi

Abstract

The Panji Prabandha (pañjī prabandha) of Mithila constitutes one of the most remarkable living genealogical systems in human history — a continuously updated, professionally maintained kinship register that has documented Maithil Brahmin lineages from approximately 450 AD to the present, spanning over fifteen centuries without interruption. The two primary documents under analysis — the Genealogical Mapping Part 2 (2012) edited by Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha, and the Punji Diwali 2014 issue — together provide both the structural meta-framework and the raw genealogical data of this system.

This report examines the Panji system through three convergent analytical lenses: (1) Anthropological theories of kinship, exogamy, and social memory; (2) Sociological frameworks of social stratification, endogamy, caste institution, and knowledge-power formations; and (3) Genealogical methodologies for understanding lineage documentation, oral-written interfaces, and the professional Panjika tradition. The analysis reveals the Panji system as a unique civilizational achievement: a bureaucratic genealogical apparatus that simultaneously functions as a marriage-regulation mechanism, a social mobility index, a historical archive, and a living inscription of Maithil Brahmin identity.

1. Introduction: The Panji Prabandha as Civilizational Document

1.1 The Document Corpus

The two texts under analysis are complementary in nature. The first, the Prelim-a.pdf (Genealogical Mapping 450 AD – 2009 AD, Part 2), constitutes the editorial scaffolding and index of a major scholarly project: the digitization, Tirhuta-script rendering, Devanagari transliteration, and systematic organisation of Mithila's panji manuscripts. The table of contents alone spans over one hundred and twenty thematic village-cluster entries, covering genealogical lines across the entire Tirhut region — from the Sodarpur, Mandara, Khauāl, Kujāl, Baheerāhi, Jalayā and Karamahā mūla (clan origin) groups to far-flung branches in Bengal, Nepal, and diaspora settlements.

The second document, punji-01-Diwali2014.pdf (77 pages), is the actual genealogical corpus itself — a dense, bilingual (Maithili Devanagari and Devanagari-transliterated Kaithi) record of patrilineal descent chains, marriage alliances (identified by the dau formula indicating the maternal uncle's lineage), and village-of-origin codes. A quantitative scan of this document reveals over 3, instances of genealogical relational terms (suta/sutā/putra/dau), with major mūla clusters appearing with the following frequency: Māṇḍara (174), Sodarpur (150), Khauāla (149), Sakarārhi (100), Kujaulī (88), Baheerārhi (59), Jālaya (42). This density of structured genealogical notation is without parallel in any other living South Asian textual tradition.

1.2 Historical Origins: The Vallāl Sena Connection

The opening lines of the main panji corpus immediately situate the system within a precise historical moment: the court of Vallāl Sena (Ballal Sena), the twelfth-century Sena dynasty ruler of Bengal, whose Mahāmātya (prime minister) Siṃhāśrama initiated the formalisation of the panji system. The text records:

baṃgālaka śāsaka vallāla senaka mahāmātya: siṃhāśrama saṃvījī
mahāmahopādhyāya halāyudhaḥ (1150–1225)

Halāyudha — described as Mahāmahopādhyāya (the highest academic honorific of the era) — appears not only as a genealogical figure but as a critical mediating scholar at the political-intellectual interface of Sena rule. His dates (1150–1225 CE) place him at the zenith of the Sena period, when a sophisticated Sanskritic bureaucracy was being constructed across the Bengal-Mithila corridor. Ballāl Sena's famous kulinism (Kulinism) — his reformist reorganisation of Brahmin social hierarchy into kulīna (pure) and mūla (original) grades — directly necessitated the Panji apparatus as its administrative infrastructure.

This historical origin places the Panji system at the intersection of two major social transformations: the consolidation of Brahminical hierarchies under Sena patronage, and the creation of an endogamous record-keeping institution that would outlast its royal patron by nearly nine centuries.

2. Anthropological Analysis

2.1 Kinship Structure: Patrilineality, Gotra, and Sapinda

From a classic Lévi-Straussian perspective, the Panji system is fundamentally a kinship exchange apparatus. Every genealogical entry records not simply descent but marriage alliances (the dau formula — indicating from which lineage a bride was taken), encoding the structural logic of prescriptive exogamy. The system thus functions as what Lévi-Strauss would call an 'atom of kinship' writ large — a society-wide map of permitted and prohibited marriages.

The Panji maintains three simultaneous exogamic prohibitions that go beyond the standard sapinda rules of Dharmasāstra: (1) gotra exogamy — no marriage within the same patrilineal clan (gotras such as Kāśyapa, Śaṇḍilya, Vatsa, Bhāradvāja appear throughout the corpus); (2) pravara exogamy — no

marriage among those sharing common Vedic ancestral seers; and (3) the uniquely Maithili mūla/dau cross-reference system — no marriage within a defined generational radius traceable through the panji record. The Panji effectively operationalises what Max Gluckman would have called a 'network of networks' — a system where each genealogical node is simultaneously embedded in multiple overlapping kinship obligations.

2.1.1 The Mūla System as Segmentary Lineage

The concept of mūla (origin) in the Panji parallels Evans-Pritchard's model of segmentary lineage systems among the Nuer — where identity is always relational and contextual, defined by which level of segmentation is relevant to any given interaction. A Maithil Brahmin's mūla-identity — whether Sodarpur, Māṇḍara, Khauāl, Kujaulī — determines not merely descent but the entire web of marriage permissions and prohibitions. The data consistently shows that the most frequent mūla groups (Māṇḍara, Sodarpur, Khauāl) are precisely those that served as the oldest and most prestigious lineage clusters, their prestige maintained through and because of their extensive panji documentation.

Significantly, the Panji also records 'tegaChiya' (tegachiyā) entries — lineages that have become too dispersed or attenuated for full documentation — suggesting that the system itself has a built-in mechanism for acknowledging genealogical entropy, what Jack Goody would term the 'management of memory' in literate societies.

2.2 Social Memory and the Oral-Written Interface

Maurice Halbwachs's theory of 'collective memory' finds its most institutionalised South Asian expression in the Panji system. The Panjīkar (pañjīkāra) — the hereditary genealogical specialist — is not merely a record-keeper but an active agent of social memory, whose professional legitimacy depends on his ability to arbitrate disputed descent claims and certify marriage eligibility. The Panji corpus preserves memory not as narrative but as structured data — a mode that Jan Assmann would describe as 'cultural memory' in its highest institutionalised form, where memory is abstracted from individual bearers and housed in a bureaucratic text.

The bilingual format visible throughout the punji-01-Diwali2014 document — parallel columns of Maithili Devanagari text and Devanagari-transliterated Kaithi — itself encodes a historical transition from the older

Kaithi-script manuscript tradition to the modern Devanagari print culture. This is precisely the interface that the Genealogical Mapping project (Prelim-a.pdf) sets out to preserve through digital imaging, Tirhuta script rendering, and systematic Devanagari transliteration.

2.2.1 The Panjkar as Memory Professional

Pierre Nora's distinction between *milieux de mémoire* (living environments of memory) and *lieux de mémoire* (institutionalised sites of memory) is instructive here. The Panji straddles both: it originated as a living oral-performative practice of Panjkar specialists who carried genealogies in memory and verified them through consultation, but over centuries became crystallised into manuscript repositories and now digital archives. The Panjkar thus embodies what Paul Connerton calls 'incorporating practices' — embodied professional knowledge that cannot be fully reduced to the written record.

The Punji document studied here demonstrates this dual character: the text preserves the grammatical condensation of the oral genre (the *suta/sutā/dau* formula) while being materially transmitted in written and printed form. The presence of Vidyanand Jha as 'Pañjikāra' (ñjikāra) in the authorship of the Genealogical Mapping project confirms that the scholarly editing of these texts continues to require the direct participation of hereditary genealogical professionals.

2.3 Marriage Regulation and Alliance Theory

Following David Schneider's critique of kinship anthropology, one must be careful not to reduce the Panji to a merely biological genealogical record. The system is fundamentally about alliance — the creation and maintenance of social bonds through regulated marriage exchange. Each *dau* entry in the corpus is simultaneously a historical record, a legal certification, and a social statement: it records who married whom, from which lineage a bride was taken, and thus maps the entire historical network of inter-lineage alliances.

The frequency of cross-references to specific villages — Kujaulī (88 *mūla* references), Baherārhi (59), Jālaya (42), alongside the dominant Māṇḍara (174) and Sodarpur (150) clusters — reveals a geographic concentration of alliance networks in the core Tirhut region (modern Madhubani, Darbhanga, and Sitamarhi districts). The Panji thus constitutes what Klass Woortmann

calls a 'moral geography' of kinship — a map not just of biological descent but of social obligation across space and time.

Particularly noteworthy is the extensive documentation of dispersal: the table of contents of Prelim-a.pdf includes entries for lineages that have migrated to Bengal ('Bodeghram Bangal Pradesh'), Nepal ('Purniyā śākhā'), Bhagalpur, and even contemporary Delhi. This tracking of diaspora branches across nine centuries reveals the Panji as an instrument of what Appadurai calls 'ethnoscapes' — the social imagination of a community defined not by territory but by genealogical network.

3. Sociological Analysis

3.1 The Panji as Social Stratification Apparatus

Louis Dumont's analysis of the Homo Hierarchicus — the ideology of hierarchical wholeness in Hindu caste society — finds its most elaborate textual operationalisation in the Panji system. The Panji does not merely record existing social hierarchy; it actively produces and reproduces it by certifying kulīna (pure) versus mūla (original) status, by maintaining records of inter-caste marriage infractions (prāyaścitta records), and by providing the documentary basis for social mobility claims.

The Sena-period origin of the system — rooted in Ballāl Sena's explicit project of Brahmin social engineering — reveals the Panji as what Foucault would call a 'technology of the self' converted into a 'technology of governance': a system that produces docile genealogical subjects whose social identity is entirely legible to, and certifiable by, a specialist apparatus of knowledge-power. The Panjīkar class — whose professional monopoly on genealogical knowledge gave them significant social power — exemplifies what Gramsci would recognise as 'organic intellectuals' of the Brahmin social order.

3.1.1 Kulīnism and Social Mobility

The kulīna system established by Ballāl Sena created a rigid hierarchy with kulīna Brahmins at the apex and mūla Brahmins below. The Panji became the instrument by which this hierarchy was maintained, disputed, and occasionally subverted. As the corpus shows, claims to kulīna status required not merely oral assertion but documentary verification through the panji record — creating what Weber would recognise as a form of 'bureaucratic

legitimation' of social honour (Ehrenprädikat). The Panji thus functioned as the organisational infrastructure of Weberian 'status groups' (Stände) within the Brahmin varna.

The practice of recording multiple marriages (the text notes instances of 'dvādaśa vivāhāḥ' — twelve marriages) for high-kulīna men reflects the systemic polygamy that Sena-era kulīnism institutionalised: kulīna men of the highest grade were in such social demand as marriage partners that they routinely contracted marriages with dozens of women from lower-grade Brahmin families seeking alliance with kulīna prestige. The Panji thus documented — and thereby legitimated — a system of social exploitation operating through the institution of marriage.

3.2 Knowledge Production and the Panjīkar Institution

Bourdieu's concept of 'cultural capital' illuminates the Panjīkar's social position. The Panjīkar family — those with hereditary access to the panji manuscripts and the professional training to read and interpret them — held a monopoly on a form of cultural capital that was irreplaceable in Maithil Brahmin society. No marriage among proper Maithil Brahmins could be contracted without Panjīkar verification. This gatekeeping function translated directly into economic capital (consultation fees), social capital (patronage networks across the Tirhut region), and symbolic capital (the prestige of being the authoritative arbiter of community identity).

The current project — digitising the panji manuscripts, rendering them in Tirhuta and Devanagari, and publishing them in print and digital formats — represents a significant transformation of this knowledge economy. By making panji data publicly accessible through Shruti Publication and the Videha digital platform, the editors (particularly Gajendra Thakur) are democratising a knowledge system that was historically the exclusive preserve of Panjīkar specialists. This democratisation itself has sociological dimensions: it potentially disrupts the Panjīkar's professional monopoly while simultaneously making the system accessible to the broader Maithil diaspora.

3.2.1 The Panji in the Digital Age

The Prelim-a.pdf document — with its careful documentation of digital imaging, Tirhuta script encoding, and Devanagari transliteration methodology — represents the Panji system's adaptation to the conditions of

what Manuel Castells calls the 'network society.' The panji, originally a regional manuscript tradition, is being converted into a digital archive accessible to the global Maithil diaspora. This transition raises profound questions about the continued social function of the Panjika specialist when the raw data of the panji becomes digitally searchable.

Benedict Anderson's analysis of 'print capitalism' and its role in creating imagined communities is directly applicable here. The print publication of the Genealogical Mapping series — and its parallel digital dissemination through Videha — is actively constructing a pan-regional and diaspora Maithil identity whose social cohesion is anchored in shared genealogical memory. The Panji, originally a local manuscript tradition, is becoming an instrument of what might be called 'digital print nationalism' for the Maithil community.

3.3 Gender and the Panji System

A critical sociological reading of the Panji corpus cannot avoid its fundamental androcentric structure. The system is entirely organised around patrilineal descent (suta — son, for male line) with women appearing only as marriage connectors (the sutā/putra formula for daughters) or as maternal kin identifiers (the dau formula tracking a bride's natal lineage). Women are thus structurally present in the Panji as nodes in alliance networks but absent as independent genealogical subjects.

This structural invisibility reflects what Adrienne Rich identified as 'compulsory heterosexuality' institutionalised at the level of kinship documentation: women's social existence is recorded only in relation to their reproductive and marital function within patrilineal networks. The 'dampati lekhaka' (husband-wife author) tradition celebrated in Maithili literary history has no counterpart in the Panji system, which is structurally incapable of recording women's independent social contributions.

This critique does not diminish the historical value of the Panji data; it contextualises it. The Panji's patrilineal structure is consistent with the broader gender ideology of Sanskritic Brahminism, and its analysis illuminates precisely why feminist historians of South Asia have emphasised the need for supplementary sources — women's oral traditions, Madhubani art, vernacular literature — to recover women's historical agency within Maithil culture.

4. Genealogical Methodology and Documentary Analysis

4.1 The Panji's Formal Grammar

The Panji employs a highly condensed technical grammar for recording genealogical information. The core formula observable throughout the punji-01-Diwali2014 corpus follows a consistent pattern:

Formula | Meaning

[Name] suta / sutau / sutā | Son of [Name] / two sons of / daughter(s) of

[Village] sam [Name] dau | From [Village lineage], [Name]'s [maternal uncle's] line

apar / apara | Another / alternatively (marking variant branches)

mūla | Origin clan/ancestral group

pr0 / pra0 | Abbreviation for prathama / 'known as' (nickname marker)

ka / kau | Genitive particle indicating possession/relation

nī0 / nī | Nī: from (ablative, village-of-origin marker)

du dau | Dau reduplicated: confirming double maternal lineage reference

This compact notation system allows an entire genealogical line — spanning birth, village-affiliation, gotra, marriage alliance, and branch variations — to be recorded in a single Maithili sentence. The economic density of this notation is remarkable: a single page of the punji document records dozens of individual genealogical facts that would require pages of discursive prose in a Western genealogical record.

4.1.1 Computational Genealogy: The Panji as Database

Viewed through the lens of contemporary database theory, the Panji is a relational database *avant la lettre*. Each genealogical entry consists of: (1) a primary key (individual name), (2) foreign keys linking to the father's entry, mother's natal village, and maternal uncle's lineage; (3) attribute fields for village-of-origin, gotra, and variant names (prathama/nickname). The mūla-dau cross-reference system creates a multi-dimensional relational structure that makes the Panji conceptually equivalent to a sophisticated two-table relational join.

The quantitative density of the corpus — 3, genealogical relationship markers in 77 pages, averaging 44 per page — demonstrates a level of structured information density that is remarkable for a pre-computational manuscript tradition. The digitisation project documented in Prelim-a.pdf

represents the conversion of this analogue relational database into a digital format, preserving both the historical record and the structural logic of the original system.

4.2 Chronological Depth and Verification

The claim of continuous documentation from 450 AD to 2009 AD — a span of fifteen-and-a-half centuries — is the most ambitious genealogical claim in the South Asian tradition. For comparative perspective: European nobility records rarely exceed five centuries of continuous documentation; Chinese clan genealogies (zupu) typically document twenty to forty generations; and Jewish yichus records, while ancient, are rarely as systematically structured as the Panji.

The Panji's chronological claim rests on several verification pillars: (1) the correlation of named individuals with datable historical events (the Halāyudha entry, corroborated by independent Sanskrit scholarship placing him ca. 1150–1225; Vallāl Sena's historical reign, approximately 1159–1178 CE); (2) the internal consistency of generational calculations (approximately 25–30 years per generation would yield 52–62 generations for 1, years, consistent with the depth of documentation); and (3) cross-correlation with dated Sanskrit inscriptions, copper plate grants (tāmrapaṭṭa), and other epigraphic sources from the Tirhut region.

4.2.1 The Tegachchiya Problem

The Panji's own internal acknowledgement of 'tegaChiya' (attenuated/lost) branches — where lineages have become untraceable through the formal record — reveals an important self-limiting mechanism. The table of contents of Prelim-a.pdf includes explicit tegaChiya entries for major mūla groups: Nagaṛh Ghasoṭa tegaChiya, Ekahara Rūcholī tegaChiya, Darahara Rājanpurā tegaChiya. This institutional recognition of genealogical entropy suggests a system sophisticated enough to document its own limitations — a mark of epistemological maturity that distinguishes the Panji from mere hagiographic genealogy.

4.3 The Mūla Geography: A Micro-Regional Social Cartography

The geographic distribution of mūla clusters in the Panji corpus constitutes what Doreen Massey would call a 'power-geometry' of space: the social significance of belonging to a Sodarpur, Māṇḍara, or Khauāl lineage is

inseparable from the geographic locations these names reference. The Sodarpur mūla refers to a cluster of villages in the Darbhanga-Samastipur region; Māṇḍara to the Madara/Mandra area; Khauāl to the Khauāl area near Darbhanga; Kujaulī to Kujholi village; Baheṛārhi to villages near Saharsa.

The Panji thus encodes a micro-regional geography of social distinction: where you originate genealogically determines your social identity, marriage eligibility, and community obligations. This 'genealogical geography' is precisely what allows the system to function across such a wide spatial and temporal range — the village-name codes carry sufficient information density to locate any individual within the entire Maithil Brahmin social space.

5. Comparative Perspectives: Global Genealogical Traditions

5.1 The Panji and Comparable World Traditions

The Panji system invites comparison with other major genealogical traditions, both to establish its uniqueness and to situate it within the global history of genealogical practice.

Tradition | Comparison with Panji

Chinese Zupu (clan genealogies) | Similar patrilineal depth but rarely institutionally maintained by professional specialists; typically compiled retrospectively every 30–60 years rather than continuously updated

Jewish Yichus records | Comparable function in regulating marriages and certifying religious status (Kohen, Levi lineages), but less structured as a cross-referenced database

European Nobility records (Heraldry) | Similar function in certifying social status but confined to political/military elite; the Panji covers an entire professional-religious community (Maithil Brahmins)

Maori Whakapapa | Similar depth of genealogical recitation and social function, but primarily oral with written records appearing only post-colonially

Mormon (LDS) Genealogy | Comparable scale of documentation but primarily retrospective and driven by theological (proxy baptism) rather than social-regulatory concerns

Rajput Vansavali records | Directly comparable South Asian parallel: hereditary genealogists (Charans/Bhats) maintaining warrior-caste genealogies, but with less systematic cross-referencing than the Panji

The Panji's distinctive features — continuous professional maintenance across fifteen centuries, systematic cross-referencing of patrilineal and matrilineal lines, geographic encoding, and its function as a live marriage-regulatory instrument — make it unique among world genealogical traditions. No other system combines depth of time, breadth of community coverage, structural sophistication, and continued living use in the way the Panji does.

5.2 The Panji and Mithila's Intellectual Heritage

The Panji system developed in precisely the same intellectual milieu that produced the Navya-Nyāya philosophical school of Gaṅgeśa Upādhyāya (c. 1300 CE) — the rigorous epistemological tradition centred in Mithila that remains one of the most sophisticated systems of formal logic in world philosophy. This parallel development is not coincidental: both the Panji system and the Navya-Nyāya tradition reflect the same underlying Maithil intellectual culture's commitment to precise definition, systematic cross-referencing, and the construction of comprehensive structured knowledge systems.

Gaṅgeśa's Tattvacintāmaṇi — with its rigorous analysis of the conditions of valid inference (anumāna), the nature of perceptual knowledge (pratyakṣa), and the formal structure of knowledge relations — operates on the same cultural substrate that produced the Panji's sophisticated relational genealogical grammar. Both systems require professional specialists (Naiyāyikas and Pañjikāras respectively), both involve the management of complex structured information, and both serve as instruments of social legitimation within the Maithil Brahmin community. The Panji is, in a sense, the applied social science of a culture whose theoretical science was Navya-Nyāya.

6. The Digitisation Project: Stakes and Methodology

6.1 The Genealogical Mapping Project (Gajendra Thakur, Nagendra Kumar Jha, Vidyanand Jha)

The Genealogical Mapping project — of which the Prelim-a.pdf constitutes the editorial front matter of Part 2 — represents a major archival intervention. The project undertakes: (1) digital imaging of manuscript panji documents; (2) encoding in Tirhuta script (the traditional script of Mithila,

historically used for panji manuscripts before the transition to Kaithi and then Devanagari); (3) Devanagari transliteration for broader accessibility; and (4) systematic editorial organisation into a village-cluster-based indexing system.

This project is doubly significant: it preserves a manuscript tradition at risk of physical deterioration while simultaneously converting it into a format accessible to the Maithil diaspora and scholarly community worldwide. The Shruti Publication imprint — a Delhi-based house with a strong track record in Maithil literature — provides the institutional infrastructure for print distribution, while the Videha digital platform (videha.co.in) extends access to the global digital audience.

6.1.1 Methodological Innovations

The editorial methodology of the Genealogical Mapping project makes several significant innovations: the insistence on Tirhuta script encoding (preserving connection to the historical manuscript tradition even as the text is made digitally accessible), the parallel Kaithi-Devanagari bilingual format (visible in the panji document's two-column layout), and the systematic indexing of over 150 named village-cluster genealogical lines in the table of contents of Part 2 alone.

The inclusion of Panjekar Vidyanand Jha as a co-author alongside scholars Gajendra Thakur and Nagendra Kumar Jha is methodologically important: it ensures that the professional genealogical expertise of the hereditary Panjekar tradition directly informs the editorial decisions, rather than having scholarly editors work from manuscripts without specialist genealogical knowledge.

6.2 Sociological Stakes of Digitisation

The digitisation of the Panji raises profound sociological questions about the future of the system. If the primary tool of Panjekar professional authority — the manuscript panji — becomes publicly accessible in digital form, what happens to the social institution of the Panjekar? Three possible trajectories present themselves:

First, democratisation: digital accessibility allows Maithil Brahmins worldwide to trace their own genealogical lines without requiring Panjekar consultation, potentially empowering individuals while diminishing professional gatekeeping. Second, scholarly reconstitution: the Panji data, once digitalised and indexed, becomes available for historical, demographic,

and sociological research that was previously impossible at scale — potentially yielding major insights into migration patterns, marriage networks, and social change across fifteen centuries. Third, institutional adaptation: the Panjekar tradition may adapt by shifting from manuscript consultation to digital database management, maintaining expertise while changing its technological medium.

All three trajectories are likely to occur simultaneously. What is certain is that the Genealogical Mapping project, by converting the Panji from a restricted manuscript tradition into a publicly accessible digital archive, is one of the most significant cultural interventions in Maithil intellectual history of the past century.

7. Conclusions

The Panji Prabandha of Mithila, as documented in the two texts under analysis, presents itself as one of the most extraordinary achievements of South Asian social organisation: a genealogical system that has functioned continuously for fifteen centuries, regulating marriage, certifying social identity, and preserving community memory across the entire Tirhut region and its global diaspora.

Anthropologically, the Panji is a uniquely institutionalised form of social memory that has navigated the oral-written interface with unusual sophistication, maintaining the professional Panjekar tradition while adapting across script systems (Tirhuta, Kaithi, Devanagari) and media (manuscript, print, digital). Sociologically, it is a technology of social stratification that simultaneously maintains Brahmin hierarchy and provides the documentary infrastructure for social mobility claims — a Foucauldian knowledge-power apparatus that outlasted its royal founders by nine centuries. Genealogically, its formal grammar — the mūla-dau cross-referencing system — constitutes a pre-computational relational database of remarkable structural sophistication.

The Genealogical Mapping project of Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha is, within this context, more than a scholarly archival project: it is an act of cultural sovereignty, preserving Mithila's most significant institutional knowledge system against physical deterioration while making it accessible to the global Maithil community. The Panji's transition to digital format marks not the end of a tradition but its most

ambitious phase of expansion — from a regional manuscript to a global digital archive, carrying fifteen centuries of genealogical memory into the twenty-first century.

DOOSHAN PAÑJĪ — THE BLACK BOOK OF MITHILA

Chapter 18

The Dooshan Pañjī of Mithila: A Comprehensive Scholarly Report

THE DOOSHAN PAÑJĪ OF MITHILA: A COMPREHENSIVE SCHOLARLY REPORT

Reference: Gajendra Thakur's Dooshan Pañjī / "The Black Book" (2023)

I. PRELIMINARY ORIENTATION: WHAT IS THE PAÑJĪ SYSTEM?

To understand the Dooshan Pañjī, one must first understand the broader Pañjī system within which it operates — one of the most extraordinary genealogical institutions in world history.

The Pañjī (Pañjī-Prabandha) is the genealogical record system of the Maithil Brahmin, Karna Kayastha, and Kshatriya communities of the Mithila region (roughly corresponding to the Tirhut/North Bihar and the Terai belt of Nepal). It is not merely a family tree in the Western sense. It is a living, institutionally maintained, continuously updated archive of lineage, marriage, ritual status, caste transgression, and social history — maintained in Mithilaksara (Tirhuta script) on palm-leaf (talpatra) and birch-bark manuscripts across centuries.

The document under examination was created by Gajendra Thakur, founder-editor of Videha, based on his transcription and transliteration of original Pañjī manuscripts — work that began in Chaitra 2000 CE and involved the conversion of approximately 11, palm-leaf manuscript images from Mithilaksara into Devanagari.

II. TYPOLOGY OF THE PAÑJĪ: THE SEVEN SPECIES

The document opens with a taxonomic statement of immense importance for understanding the system's internal logic. It states that the Pañjī is of seven types:

1. Mūla Pañjī (Root/Primary Record)— The foundational genealogical register, common to all, which traces every family's origins from a defined ancestral stock. Before the reforms instituted under Madhav Singh, all Pañjīs were structured uniformly in this mode.

2. Shākhā Pañjī (Branch Record)— A later subdivision, created when Darbhanga ruler Madhav Singh (18th century, around 1760 CE / approximately 1800 CE by revised dating) ordered the Pañjīkāras (hereditary genealogists) to compile branch-specific registers. This gave rise to the Shrotriya sub-caste distinction (see Section VII below). Sub-divisions include:

- Upa-Tīp ("sub-note" registers, as in the Sotipura records)
- Nagraam (western-border village) records

3. Gotra Pañjī (Lineage-Clan Record)— Records the gotra (Vedic exogamous clan designation, named after ancient Rishis) and traces its ancient primordial origin. This serves the exogamy regulation function: no two persons of the same gotra may marry.

4. Patra Pañjī (Leaf/Generation Record)— In circulation for approximately 500 years. It introduces the Mūlāgrāma (ancestral home village) as a permanent identifying tag attached to each individual's record. This is the reference most commonly invoked during marriage negotiations.

5. Dooshan Pañjī (Defect/Taint Record)— The subject of this document. Dooshan means "defect," "blemish," or "pollution." This register records every transgression, anomaly, or departure from endogamous norm in a family's lineage: inter-caste marriages, unions with women of unknown lineage, Devadāsī mothers, births from widows, unions with Muslims, births after a father's death, and so on. This is the "Black Book" of the system.

6. Utedhā Pañjī (Sapiṇḍa Release Record)— Records the Sapiṇḍa relationships (those related through the offering of funeral rice balls up to six generations of paternal ancestors), which determine within which boundary marriages are prohibited. It lists six generations of ancestors to establish when the kinship bar (sapiṇḍa nivṛtti) ceases and marriage becomes permissible.

7. Asvājanya-Patra Pañjī (Non-natural/Irregular Lineage Record)— A catch-all register for irregular, unverifiable, or contested genealogical situations.

A significant sub-note: The document mentions that only the Rasarh-Araria Pañjī contains the names of women (*strī-gaṇaka nāma*) within the genealogical record. This is a remarkable sociological observation: across the vast system, women are ordinarily recorded only functionally — as mothers, daughters, wives — rather than by name. The Rasarh-Araria branch is an anomaly in this respect, preserving female nominal identity.

III. HISTORICAL FOUNDATION OF THE PAÑJĪ SYSTEM

The document provides an invaluable historiographical account of the system's origins:

Harasimhadeva (1294–post-1324 CE), a ruler of the Karnat dynasty of Mithila, was the official founder of the Pañjī-Prabandha. He was born in 1294 CE and ascended the throne in 1307 CE. He was descended from **Nanyadeva**, who founded the Karnat dynasty in 1019 Śaka (approximately 1097 CE), as recorded in the verse Nanda-Indu-Shunya-Shashi Shaka Varshe.

Harasimhadeva appointed three inaugural genealogists:

- Gunakar Jha — for the Maithil Brahmins
- Shankardatt — for the Karna Kayasthas
- Vijaydatt — for the Kshatriyas

The current form of the system was formally inaugurated in **1248 Śaka / 1326 CE**. This followed Harasimhadeva's flight to Nepal after his defeat by **Ghiyasuddin Tughlaq** in 1324–25 CE.

This dating places the Pañjī system at approximately **700 years** of continuous operation as a formal institution — though the document itself claims the total recorded tradition encompasses **over 1, years** of genealogical memory, reaching back well before the Karnat-period formalization. When considered from that longer perspective, it constitutes what the document correctly identifies as "the most extensive record of human lineage in world history" — genealogies of populations spread across a large geographic region, maintained honestly and continuously under conditions of poverty, foreign rule, and social disruption.

The **1760 CE reform under Madhav Singh** (Mithilesh Maharaja, a permanent settlement zamindar under the British Cornwallis system) ordered the Pañjikāras to compile Shākhā Pustaks (branch-record books). The document makes an important claim here: the Shrotriya sub-caste as a distinct social category **did not exist before approximately 1800 CE** in the British India part of Mithila. Before this, "Shrotriya" simply referred to one engaged in Vedic study — an educational designation, not a caste sub-identity. This distinction between the Indian and Nepali portions of Mithila is crucial: in the Nepal portion, Shrotriya retains its original meaning (educational stream), while in British India it became a hereditary sub-caste designation, partly through the upgradation-for-cash system of which the book provides documentary evidence in its annexures.

IV. THE DOOSHAN PAÑJĪ: ITS NATURE, PURPOSE, AND SOCIAL LOGIC

A. What Is "Dooshan"?

Dooshan (Sanskrit: dūṣaṇa) literally means "that which contaminates, pollutes, or taints." In the genealogical context, it refers to any marriage alliance or birth circumstance that introduces an element of jāti-bhedī (caste-crossing), anapekṣita (unverifiable lineage), or dharma-bahirāgata (normative transgression) into a Brahmin family line.

The Dooshan Pañjī is, in the words of the document itself, "the record of the erosion (kṣaraṇa) that has occurred in a lineage." This is an important framing: kṣaraṇa means a gradual wearing away or leakage, suggesting the system's metaphor is one of genealogical purity as an integrity to be maintained over time, with recorded "breaches."

B. Why Record Transgressions at All?

This is perhaps the most intellectually striking feature of the Dooshan Pañjī. The obvious function of a genealogical system in a caste society is to enforce endogamy — to prevent inter-caste marriage. Why, then, record what one wishes to prevent?

The document offers a sophisticated answer: the recording happens **long after the event** (bahut bādame ekara charca sambhava hoita achi), precisely when the tainted lineage has been "laundered" through successive generations of endogamous marriage and when its descendants are now fully integrated into

Brahmin society. The example of **Devadhar** (Table 1) is paradigmatic: Gunawati Himsha, a woman of "another caste," married Chamaru of Valiyasa lineage; their union produced Gangadhar. Through the next **six generations** of daughters and sons-in-law drawn entirely from recognized Brahmin Mūlas (Sarisav, Sakaradhi, Panichobh, Darihara, Pali, Narwal), the family was considered purnatah shuddha — completely purified. Only at that point is the historical record, previously suppressed, published in the Dooshan Pañjī.

The sociological function is therefore **forward-looking, not punitive**. The document states explicitly: the purpose is that related lineages might avoid the dupariṇāma (bad consequence) of unknowingly marrying back into a lineage whose taint has not yet completed the six-generation purification cycle. It is, in modern terms, a form of genealogical epidemiology — a tracking system for recessive social "risk factors" in marriage networks.

C. The Paradox of Social Liberalism and the Dooshan Pañjī

The document makes a culturally significant and counterintuitive argument: the existence of the Dooshan Pañjī is evidence not of Mithila's casteism but of its relatives **social openness and reformability**. The argument runs as follows:

In a society of total, rigid, unforgiving caste orthodoxy, inter-caste unions would either be completely suppressed (and thus invisible to any documentary record) or would result in permanent, hereditary ostracism with no mechanism for reintegration. The Dooshan Pañjī demonstrates that Mithila society had:

- A formal mechanism for eventual reintegration — the six-generation purification protocol
- An honest documentary impulse — a willingness to record rather than erase
- No permanent hatred (vidveṣa) as a lasting social disposition — the document states that even "burning questions" (dalmalaita karaewāli ghaṭanā) become kālātīta (time-transcendent, obsolete) and are forgotten

The document frames Mithila society as udāra (liberal) and namanaśīla (flexible) in comparison with other Indian civilizations of the same period, noting the absence of dhārmika kaṭṭarapana (religious fundamentalism) as a permanent feature of the Maithil social character.

V. SOCIAL CONTENT OF THE DOOSHAN PAÑJĪ: THE 97 TABLES

The heart of the document consists of 97 genealogical tables, each recording a specific "tainted" marriage event or lineage anomaly, followed by the subsequent generational chain. These tables are not random — they constitute a structured typological survey of every kind of normative transgression recorded in the broader Pañjī corpus.

The following categories of "dooshan" (transgression type) emerge from analysis of all 97 tables:

A. Inter-Caste Marriage with Specific Named Communities

1. Charmakārī/Charmakārīñī (Cobbler/Tanner women): This is the most extensively documented category in the Dooshan Pañjī, and it carries world-historical significance because it includes the genealogy of **Gaṅgeśa Upādhyāya**, the founder of the Navya-Nyāya (New Logic) school of Indian philosophy (see Section VI below).

Table 24 (Entry 211/1): Records "Ānandā Charmakārī" (ānandā 211/1) — a Cobbler-community woman — whose lineage extends through Talhanapur, Takwal, Darihara, Panchobh, Merandi, Brahmapur, connected to the lineage of "Baiju."

Tables 49–51 (Entries 188/2, 189/1, 189/II): These are the Gaṅgeśa entries — recording that the wife (Vallabhā) of Gaṅgeśa, author of the *Tattvachintāmaṇi*, was a Charmakārīñī (a woman of the tanner/cobbler community), and that Gaṅgeśa was born *pitṛ-parokṣe pañca-varṣa-vyafīte* — five years after the death of his father.

Tables 50, 51 (189/1, 189/II): Another lineage involving Charmakārīñī Medhā — her descendants extend through Sodarpur, Alay, Mandar, Naraun, Panichobh, Khandvala, Deeh Darihara, Brahmapur, and Korai.

Tables 63, 78 (195/II, 203/II): Record Hiruā Charmakār (a male cobbler-caste individual) whose daughter married a Brahmin of Pali Mūla, producing a lineage extending through Budwal, Sakradhi, Mandar, Fanandah, Pakliya, Alay, Belmohon.

2. Rājaka (Washerman community) women: Tables 29–30 (207/1, 207/II): Record marriages in Rajak (rājaka dharma / rājaka mānakī) tradition, with lineages extending through Khandvala, Budwal, Mandar, Takwal, Valiyasa, Brahmapur, and Meranda. A particularly notable detail: Table 30 records

Rājaka Paramparā (washerman tradition) with the note "rājaka parivārā mātrikā" — the maternal lineage is explicitly from a washerman family.

Tables 54–55 (191/I, 191/II), 64–65 (196/I, 196/II): Record Haḍiṇī Rudramatī Rājaka paramparā — a woman named Rudramati from the washerman (Rājaka) tradition. The Brahmin lineage from Khauwal (Sadhukar–Shrikar–Vibhakar) married into this line. The records track subsequent generations through Mandar, Valihara, Didhoi.

3. Caṇḍāla / Chamar (Untouchable castes) — general: Several entries involve unions with persons described simply as niṣiddha-kula ("prohibited lineage") or classified in the Gadahā Paṇḍoli village category, which appears as a terminal designation for progeny of such unions in multiple tables (35–43, spanning 181/1 through 183/2). The repeated appearance of "Arvind — Nidhi — niṣiddha-kula" in Gadahā Paṇḍoli across many entries suggests this village served as a settlement zone for such socially ambiguous lineages.

4. Gopa / Ahir (Cowherd caste) women: Table 52 (190/1, Haḍiṇī Rudramatī): Records Jagnath–Rudramati marriage as goṅga (ceremonially marked, irregular) — a specific vocabulary for inter-caste unions.

Table 56 (192/I): Lagārī Gopāi — "Gopāi of the Lagari (shepherd/cowherd) community." Records Gopaputrī (cowherd's daughter) marriage in Sodarpur-Karmahe lineage.

5. Taṃṭī / Tāntī (Weaver community) women: Table 48 (188/1): Shrinathasuta — a daughter of Shrinath who married into the Tāṃṭī jāti (weaver community). The table records the lineage through Tantani, Sodarpur, Sakradhi, Jalwal, Khandvala, Bharathi.

6. Tailika (Oil-presser community): Table 61 (194/II): Tailika Devāi — an oil-presser woman named Devai. The lineage involves Khandvala, Tisounta, Pandol, Khajuri, Sakradhi, with the note tailika Devāi antaḥjātīya (inter-caste with Tailika Devai).

7. Dhīvara (Fisherman community) women: Table 96 (221/1): Dhīvara Dāsī — "Fisherman-community servant woman." Mandan's wife is noted as belonging to this category. The lineage extends through Kujjauli, Mandar, Naraun, Suragan, Nikhuti.

8. Kocha / Assam Royal lineage: Table 9 (208/1): Kocha-rāja patnī Sohāgo — "Sohago, wife of a Koch (Assamese) raja." The Koch (Kochrajvanshi) were a northeast India royal dynasty. This entry records a Brahmin lineage (Khandvala, Bhauwal, Bhauwal, Mandar, Takwal, Valiyasa, Brahmapur,

Merandi, Korthwa) with a connection to the Koch royal house. Entry says explicitly: "Puttrikā nāma Sohāgo" — daughter named Sohago from the Assam Koch royal lineage.

B. Muslim/Yavana Lineage Entries

1. Yavana Daulatijahān: Tables 11–12 (196/7, 216/1): Dagara kī mātā (Dagara's mother) is Yavana Daulatijahām — a Muslim woman named Daulatijahan. Her lineage is carefully tracked through Pali–Satlakha–Gangoli–Nadam. The Brahmin lineage (from Pavauli, Ekahra, Jagati, Sodarpur, Pali, Satlakha, Gangoli) has a Muslim maternal ancestor.

Table 20 (213/1): Jānika (place), Babhniyal Mūla — the entry records Shṛīrāmaka-mātā (Devadāsī) in the Valiyasa column, meaning Ram's mother was a Devadāsī, and also involves a Yavana connection.

2. Pashchim Desha āgata (Arrivals from the West — unidentified lineage): Tables 22–23 (212/1, 212/2): These are genealogically enigmatic entries: persons who came from Pashchim Desha (western regions — possibly referring to Awadh, Rajputana, or even further west) with ajñāta kula-śīla — unknown or unverifiable lineage and character. The table records Mandar-Horai-Madhusudana-suta (entry: "Madhusudana's daughter of unknown lineage") in one case, and in the second case a person from Pashchim Desha whose lineage is tracked through Mandar, Khandvala, Darihara, Vaheradhi, Khauwal, and Jalaya.

3. Chāmpo Yavana (Muslim woman named Champo): Table 66 (197/I): Chāmpo Yavana — a Muslim woman named Champo. The Brahmin lineage (Mandar, Pachahi, Pavauli, Pakliya, Tirlathi, Karnaita) has a Muslim maternal ancestor, specifically as the wife of a person of the Koiyara Mūla.

C. Devadāsī Lineage Entries

The Devadāsī (temple-dancer/courtesan) entries are among the most sociologically significant in the document, as they reveal a formally documented interface between the Brahmin genealogical system and the temple-service community. Tables 16–21 (215/1 through 213/2) form a coherent cluster all labeled Jānika Devadāsa (servant of the divine / Devadasa) — a specific category within the Pañjī.

Table 16 (215/1):Records Harihara kī māta (Devadāsī) — Harihara's mother was a Devadasi. Connected to Sodarpur, Khauwal, Sodarpur, Darihara, Panichobh, Chando, Tilay, and Khauwal.

Table 17 (215/2):Records Vidyāpati kī māta (Devadāsī) — Vidyāpati's mother was a Devadasi. Connected to Budwal, Khauwal, Jaliwal, Mandar, Kurhan, Tilay.

Table 18 (214/1):Records Lākhū kī māta (Devadāsī) — Lakhu's mother was a Devadasi. From Sodarpur, Pali, Suragan, Darihara, Tilay-Shripati, Khauwal, Sodarpur.

Table 19 (214/2):Records Jāge kī māta (Devadāsa) — Jage's mother was a Devadasi. From Sodarpur, Mandar, Hariam, Mandar, Karmahe, Khauwal, Sodarpur.

Table 20 (213/1):Jānika Devadāsa — Records Shrīrāmaka māta (Devadāsī) in Valiyasa. The father's name for this entry's child is listed as Babhniyal.

Table 21 (213/2):Jānika Devadāsa — Records Vidyāpati kī māta (Devadāsī) via Tilay-Shripati–Khauwal route.

There is also a fascinating sub-cluster in Table 16: the Tilaya Shripati column across multiple Devadasi entries consistently links to a woman identified only as Vidyāpati kī māta (Devadāsī) — raising the possibility that this refers to the mother of the legendary poet Vidyāpati (ca. 1352–1448 CE), though the document does not make this claim explicitly.

The broader point: the Devadasi entries document a systematic, recurring interface between Brahmin scholarly families and the temple-arts community of Mithila, particularly in the Tilay, Khauwal, Sodarpur, and Jaliwal areas. This is not the record of isolated lapses but of an institutional pattern.

D. Widow Remarriage / Vidhavā Union Entries

Table 28:Vidhavā (widow) — the lineage of a son born of a widow is tracked through Sodarpur–Mandar–Gaul–Valiyasa–Monari–Pali–Kurisama–Kewtaram Pandoli. The mother is not named; she is identified only by marital status.

Table 94 (220/1):Vārtinī Vidhavā (a wandering widow / vārtinī suggests a woman who engages in occupational work, i.e., economically active) — records the descendants of her son Ganpati-Chand from Pali, Pavauli, Mandar, Purisama, Pandauli lineages.

E. Guru-Patnī (Teacher's Wife) Union

Table 82 (205/1):Guru-patnī — Records Bhaṭṭabhūṣaṇa of the Marrar Mūla who "married a guru's wife" (guru-patnī se vivāha kala). This represents one of the gravest categories of moral transgression in the dharmaśāstra framework (violation of the teacher-disciple relationship's sexual taboo). Yet here it is documented, with the lineage tracked through Khandvala, Karmahe, Naraun, Terhota, Kujjauli, without permanent erasure. The lineage is simply noted, and descendants are tracked.

F. Patha Patitā (Fallen Woman / Woman of Ill Repute) Entries

Tables 85, 93 (206/2, 219/2):Patha Patitā — literally "fallen on the road," a woman of morally compromised status (prostitute or equivalent). Two separate entries record Lakshesvara Hore who is described as having married a Gangoli path patitā kanyā (a fallen woman from Gangoli). One of these entries (206/2) is cross-referenced with a Parambrāhmaṇa (highest Brahmin) lineage connection, creating a particularly stark juxtaposition.

G. Parambrāhmaṇa (Mahāpātra) / Higher Brahmin Transgressions

Tables 79–81, 84 (203/1, 204/1, 204/II, 206/1):The Parambrāhmaṇa (Mahāpātra) entries record that Lakshesvara Hore, of a "highest Brahmin" status, married into various compromised lineages including the Gangoli fallen woman. The Parambrāhmaṇa designation in this context appears to be a title given to a lineage, perhaps associated with the Mahāpātra community of ritual specialists whose function involved contact with death pollution.

H. Antahjātīya (Inter-caste, General)

The term antahjātīya or antarjātīya (literally "between-caste" — i.e., inter-caste) appears as a general-purpose notation in multiple tables (Tables 41, 45, 47, 54, 60, 61, 64, 65) where the specific caste of the non-Brahmin partner is not named but the inter-caste nature of the union is recorded. This suggests the Pañjikāras did not always have detailed information about the partner's caste identity, but recorded the fact of transgression nonetheless.

I. Ajñāta (Unknown Lineage) Entries

A recurring formula across dozens of tables is ajñāta — "unknown" or "unknowable." This appears most often for maternal lineages: "Rāmaka

mātrka ajñāta" (Ram's maternal lineage unknown), "Harikarakī māta ajñāta" (Harikar's mother unknown), and so on. The ajñāta designation is itself a category of "dooshan" — uncertainty about maternal origin is treated as a form of genealogical taint, since the Pañjī system requires bilateral verification of lineage for a "clean" marriage alliance.

This is anthropologically significant: it means that the Dooshan Pañjī preserves evidence of **alarge class of women** in Mithila society — from Devadāsīs to unmarried mothers to women from communities that kept no genealogical records — who could not be fully documented within the Brahmin genealogical framework. Their descendants are tracked but their own identities are rendered as ajñāta, a sociological ghost.

VI. THE GANGESA UPADHYAYA ENTRIES: A CASE STUDY OF GENEALOGICAL SUPPRESSION AND SCHOLARLY INJUSTICE

The most explosive content of the Dooshan Pañjī concerns **Gaṅgeśa Upādhyāya** (approximately 13th–14th century CE), the founder of Navya-Nyāya — the New Logic school of Indian philosophy, headquartered at Mithila, which produced the most technically sophisticated epistemological system in the history of Indian thought. His magnum opus, the *Tattvachintāmaṇi* ("Jewel of Reflection on the Truth"), is the foundational text of the school.

A. What the Pañjī Records

Table 49 (188/2): The entry reads: Charmakāriṇī (woman of the cobbler/tanner community) → Chhadan Mūla → Gaṅgeśa, author of *Tattvachintāmaṇi*. His wife (Vallabhā) was from the Chhadan Mūla. The entry in the Dooshan Pañjī records her origin as Charmakāriṇī — a Dalit woman of the leather-working community.

Entry 21//10 (Mūla Pañjī): "Chhādan-saṅ Jagadguru Gaṅgeś — author of *Tattvachintāmaṇi*. From the Chhadan lineage, the wife (Vallabhā) of Gaṅgeśa, author of *Tattvachintāmaṇi*, was a Charmakāriṇī. It is recorded that Gaṅgeśa was born *pitṛ-parokṣe pañca-varṣa vyatīte* — five years after the passing of his father."

The expression *pitṛ-parokṣe pañca-varṣa vyatīte* Gaṅgeśotpattiḥ ("Gaṅgeśa's birth came five years after [his] father's absence/death") is noted as an

"prāchīn lekhaniyaḥ kutrāpi" — an ancient scribal marginal note found in various places in the old Pañjī manuscripts.

Table 50 (189/1):Records Charmakāriṇī Medhā — another Dalit woman named Medha — whose descendants are tracked through ten lineage stops (Sodarpur, Alay, Mandar, Naraun, Panichobh, Khandvala, Deeh Darihara, Brahmapur, Korai, Mandar).

Devānand Pañjī 339-3:Records Gaṅgeśa's son Supan (also called Hariśarma in some branches), who married into the Bhandarisam lineage, producing a son Harāditya, whose daughter Gorā married Jīve of Jajivāl village, with their son located at Sandagahi (Bhaveśvara). This establishes a verified multi-generation descendant trail.

Devānand Pañjī 30-5:Records Gaṅgeśa's grandson — his son Varddhmāna's daughter married Śivanātha son of Viśvanātha from Khandvala.

B. What Was Suppressed and by Whom

The document launches a detailed scholarly critique of two figures:

Prof. Ramanath Jha(20th century Maithil Sanskrit scholar): Despite being a leading authority on the Pañjī system, Ramanath Jha provided information about Gaṅgeśa to **Dinesh Chandra Bhattacharya** for the latter's History of Navya-Nyāya in Mithila (1958) that was deliberately incomplete. Bhattacharya, working from Ramanath Jha's inputs, wrote that "Gangesa's family is completely ignored and we are not expected to know even his father's name," that "the family which was inferior in social status is now extinct in Mithila," and that all descendants of the family "dwindled into insignificance again and became extinct soon after his son's death." The document characterizes this as a total falsehood — made possible only because Ramanath Jha withheld the Dooshan Pañjī evidence, which was known to him.

Udayanath Jha 'Ashok'(recipient of Sahitya Akademi's Bhasha Samman): His Sahitya Akademi monograph on Gaṅgeśa (2016) similarly failed to engage with the genealogical record despite its availability since 2009. The document characterizes this as a continuation of the same casteist agenda under a new institutional banner.

The charge is specific and serious: both scholars were aware (or should have been aware, post-2009) that Gaṅgeśa married a woman of the Charmakāra

(Dalit cobbler) community, and that this fact was recorded in the Pañjī. They suppressed or avoided this fact, which the author terms an **"honour killing"** — the posthumous social erasure of Gaṅgeśa's identity and lineage in order to protect the narrative of Navya-Nyāya as the pure product of high-caste Brahmin intellectual culture.

C. The Wider Philosophical-Historical Stakes

The document sets the Gaṅgeśa entries in a wider context of significance:

- Gaṅgeśa held the title Jagadguru AND Paramguru — the highest possible academic honorific in medieval India, equivalent in function (as the document notes) to "Distinguished University Professor." The document notes that only Nutan Vāchaspati later shared this dual honor.
- The transmission of Navya-Nyāya to Bengal: Vasudev of Bengal came to Mithila for study, memorized the Tattvachintāmaṇi, and returned to Bengal. Pakshadhar Mishra and other Mithila scholars refused to allow the text to be copied — a deliberate act of intellectual protectionism. Vasudev's disciple Raghunath Shiromani eventually established Navya-Nyāya in Navadvipa (Bengal) after defeating his guru Pakshadhar in a shāstrārtha (scriptural debate). This transfer of Navya-Nyāya out of Mithila into Bengal, where it flourished independently, is framed in the document as the "revenge of nature" against the honour-killing of Gaṅgeśa's family — the school lost its homeland because Mithila's scholarly establishment prioritized caste purity over intellectual inheritance.
- Gangesa's Descendant Chain (Authenticated): The document provides multiple cross-references from the Devānand Pañjī proving that the family did not go extinct as Bhattacharya/Ramanath Jha claimed. Supan (son), Harāditya (grandson through daughter), Bhavēśvara at Sandagahi, Varddhamāna (direct son), Varddhamāna's daughter's children — these are all documented.
- The literary reflex: Gaṅgeśa's son Varddhamāna addressed his father as sukavikairavakananenduh — "the moon to the white-lotus garden of good poets" — a phrase that suggests Gaṅgeśa was also a poet of distinction, though the conspiracy of social erasure has resulted in none of his poetry surviving in accessible form.
- International scholarship: The document cites Stephen H. Phillips (University of Texas), who completed the first full English translation of

all four sections of the *Tattvachintāmaṇi* (Bloomsbury Academic, 2020), and V.P. Bhatta, who completed another full four-volume translation by 2025 (Eastern Book Linkers, Delhi). Both works validate the international significance of Gaṅgeśa's contribution — but neither was possible to fully contextualize without the genealogical background that was suppressed for over a century. The document quotes Phillips's Stanford Encyclopedia of Philosophy entry, noting that genealogical records suggest Gaṅgeśa "had a wife and three sons and a daughter. One child was the famous Nyaya author, Vardhamana."

D. TheShabdashāstramConnection

The author (Gajendra Thakur) wrote a Maithili short story *Shabdashāstram* ("The Science of Words") based on the *Pañjī* records of Gaṅgeśa, specifically on the relationship with Ānandā Charmakāriṇī. The story was translated into English as "The Science of Words" and published in *Indian Literature* (Sahitya Akademi journal), Vol. 58, No. 2 (March/April 2014), pp. 78–93. This is a remarkable case of genealogical data generating literary fiction that was then published in the very journal of the institution accused of suppressing the underlying historical truth.

VII. THE SHROTRIYA QUESTION: CASTE SUB-IDENTITY AND COLONIAL GENEALOGY

The document contains an important socio-historical argument about the **Shrotriya sub-caste** whose implications reach beyond Mithila:

Before approximately 1800 CE (after Madhav Singh's reforms, which were formalized under British permanent settlement), the term *Shrotriya* in Maithil Brahmin contexts meant someone engaged in Vedic education — an educational-occupational designation. There was no *Shrotriya* as an inherited caste sub-identity.

The innovation of *Shrotriya* as a heritable sub-caste was:

- Triggered by Madhav Singh's 1760 CE order for *Shākhā Pañjī* compilation
- Formalized under British permanent settlement (Cornwallis era)
- Operationalized through upgradation-for-cash — the document mentions that the *Pañjī* book's annexure contains copies of "genealogy-based upgradation orders (proof of upgradation for cash)," meaning that

families could purchase their elevation to Shrotriya sub-caste status through the genealogical bureaucracy

This means the Shrotriya/non-Shrotriya distinction within Maithil Brahminism is **acolonial-era construction**, not an ancient social reality. In Nepal's portion of Mithila, where the British permanent settlement system did not apply, "Shrotriya" retains its educational meaning to this day.

This finding has profound implications for understanding how caste identities in general were hardened, formalized, and made heritable through the intersection of indigenous genealogical systems and colonial administrative-legal frameworks.

VIII. WOMEN IN THE DOOSHAN PAÑJĪ: A FEMINIST ANTHROPOLOGICAL READING

The Dooshan Pañjī, despite being a record of male lineages, provides — precisely through its catalog of "defects" — one of the richest archives of female social experience in pre-modern Mithila.

The Categories of Documented Women

Devadāsī Women: At least seven entries (Tables 16–21 and cross-referenced in the summary tables) document women who were temple performers/courtesan-class artists. Their sons are named and tracked; their own names are occasionally preserved (Vidyāpati kī māta, Harikara kī māta), though often they are identified only by function. The document notes that women like Devadāsī Santati in multiple entries were the mothers of children "now honored in society."

Widow Mothers (Vidhavā): Tables 28 and 94 specifically mark lineages of widows' sons — a significant fact because widow remarriage (or widow sexual activity leading to birth) was a major social transgression in upper-caste north Indian society of the medieval period. The Pañjī records these not for condemnation but for genealogical accuracy.

Wandering/Working Widows (Vārtinī Vidhavā): The vārtinī designation suggests a widow who engaged in vārtā (economic activity, trade) for livelihood. This is a woman who, by definition, moved in public economic space — unusual for upper-caste women.

Women of Unknown Identity (Aññāta Māta): Dozens of entries record children whose mothers are simply aññāta — unknown. These women left no

documentary trace except the children they bore. The system required bilateral documentation for marriage purity, so any child whose maternal lineage could not be verified was automatically placed in the Dooshan register.

The Rājaka Rudramatī: Rudramatī (from the washerman community) appears in multiple entries (Tables 52–55, 64–65) as a named individual whose descendants are extensively tracked. She is one of the few non-Brahmin women in the document who is consistently identified by name rather than only by community designation.

The Charmakāriṇī Medhā: Another named Dalit woman (Table 50, 189/1) whose lineage extends across ten genealogical stops — a breadth of documented impact that rivals many Brahmin women in the mainstream Pañjī.

The Rasarh-Araria Anomaly: As noted, only this regional sub-tradition of the Pañjī records women's names systematically. The contrast underscores how profoundly women were rendered genealogically invisible in the main system — present as biological conduits but absent as named social agents.

What This Tells Us

The Dooshan Pañjī, inadvertently, preserves a counter-archive of female social diversity in Mithila: cobblers, tanners, washerwomen, temple performers, wandering widows, Muslim women (Daulatijahām, Chāmpo), and the unnamed mothers of an entire Brahmin genealogy. None of these women appear in the canonical literary or historical records of Mithila. They exist only because the genealogical system needed to explain anomalies in male Brahmin lineages.

IX. THE NADAM-YAVANA CONNECTION AND INTER-RELIGIOUS GENEALOGY

The Yavana (Muslim/foreigner) entries in the Dooshan Pañjī deserve particular attention as a window into the social history of Hindu-Muslim coexistence at the village and family level in medieval Mithila.

Daulatijahām appears twice (Tables 11–12, 196/7 and 216/1) as the maternal ancestor of Brahmin lineages. She is called Yavana Daulatijahām — Daulatijahan the Muslim woman — and identified as Dagara kī mātā (mother of Dagara), connected to Nadam village in one entry and the Gangoli–

Khauwal region in another. This means that at some point (the generation before the entry's earliest recorded ancestor), a Brahmin man had a child with a Muslim woman named Daulatijahan. That child's descendants married back into Brahmin society and, by the time the Dooshan Pañjī records them, are themselves Brahmins — though the maternal Muslim origin is documented.

Chāmpo Yavana(Table 66, 197/1) is the patnī (wife) of a Koiyara lineage man from the Mandar-Pachahi-Pavauli region. Her children are tracked into Brahmin society.

Pashchim Desha āgataentries (Tables 22–23, 212/1, 212/2): Two separate families who "came from the west" with unknown lineage (ajñāta kula-śīla) are documented. The west may refer to Mughal-administered territories or to communities outside the Maithil genealogical network entirely.

The document contextualizes these entries within its broader argument about Mithila's social liberalism: the entries document what happened, they do not prescribe condemnation. The fact that descendants of Daulatijahan are now part of Brahmin society — without the Muslim origin erasing their Brahmin status after six generations — mirrors exactly the purification logic that applies to all other "tainted" lineages.

X. KARTOGRAPHY OF THE DOOSHAN PAÑJĪ: THE MŪLA-GRĀMA NETWORK

The 97 tables together function as an involuntary social geography of Mithila, mapping the genealogical network of approximately 50–60 named Mūla (ancestral home villages) across the region. These include:

Core Maithil Brahmin Mūla villagesthat appear as the primary nodes of the genealogical network: Sodarpur, Sarlakha, Khandvala, Darihara, Khauwal, Mandar, Pali, Budwal (Budhwal), Valiyasa, Hariam, Karmahe, Sakradhi, Panauli (Pavauli), Ghusaut, Panichobh, Naraun, Sarisav, Ekahra, Jagati, Alay, Takhwal, Fakandah (Fanandah), Simsim, Tirladi, Kujjauli, Sargana, Pachahi.

Peripheral or "defect-associated" terminal nodes: Gadahā Paṇḍoli, Belmohana, Korai, Nadam, Sinhasrama, Jalayal, Gorhini, Sui, Pakliya, Simbhunam, Bhiringi — these appear repeatedly as the endpoints of lineages that have absorbed the "tainted" element and are tracked until purification or integration is documented.

This geography is not static. The document records migrations (pravaas-āpravaas) — people who moved from their ancestral villages and whose new locations are tracked. The Pañjī thus also functions as a migration record, documenting how Mithila's Brahmin population dispersed and reconcentrated across the region over centuries.

XI. CRITICAL ASSESSMENT: THE PANJI AS WORLD HERITAGE DOCUMENT

Uniqueness in World Genealogical History

The document makes the claim — and it is well-supported — that **no other known society in world history** has produced a genealogical record of comparable scope, duration, and geographic spread maintained under comparable conditions of adversity. The key parameters:

- Duration: 700 years of formal institutional record (1326 CE to present), with genealogical memory reaching back to approximately 450 CE in the oldest strata
- Geographic scope: Hundreds of villages across Bihar and Nepal
- Population coverage: Every Maithil Brahmin, Karna Kayastha, and Kshatriya family in the region
- Conditions: Maintained under Muslim sultanate rule (Tughlaq, later Mughal), British colonial rule, extreme agrarian poverty, social disruption, and without institutional state support for centuries
- Intellectual integrity: The honest recording of transgressive material (the Dooshan Pañjī itself being the clearest example) rather than a sanitized genealogy

The 2009 Digitization and Release

Gajendra Thakur began transcription work in Chaitra 2000 CE, converting Mithilaksara manuscripts to Devanagari. In 2009, the Dooshan Pañjī was released publicly — both in book form (Pañjī Prabandha, parts I and II, available at videha.co.in/pothi.htm) and as DVDs containing 11, palm-leaf image JPEGs. The release caused intense controversy: the document mentions verbal abuse (in person and by phone), ongoing resentment, and the phenomenon of people becoming angry when the Dooshan Pañjī's contents are mentioned — described vividly as "jeno khūna pībi jeta" ("as if they would drink blood").

A complete PDF of the Dooshan Pañjī is available at the Internet Archive: ia601402.us.archive.org/31/items/maithili_202209/Gajendra_Thakur_Dooshan_Panji_The_Black_Book.pdf

The manuscripts were also uploaded to Google Books in 2009 and to the Videha website. **Anshuman Pandey** (University of Michigan, doctoral dissertation 2014: *Recasting the Brahmin in Medieval Mithila: Origins of Caste Identity among the Maithil Brahmins of North Bihar*) acknowledges receiving a complete digitized set of Pañjī records from Gajendra Thakur in 2007, noting that Pañjīkāras (hereditary genealogists) are usually reluctant to allow outside access to these records.

XII. THEORETICAL FRAMEWORKS FOR UNDERSTANDING THE DOOSHAN PAÑJĪ

Anthropological

The Dooshan Pañjī represents what Victor Turner would recognize as a record of liminality — the tracking of individuals and lineages in a threshold state, between categories, neither fully inside nor outside the social structure. The six-generation purification protocol is a formal rite of passage for lineages, not individuals, operating across multiple human lifetimes.

Claude Lévi-Strauss's analysis of kinship systems would recognize the Pañjī system as a unique empirical database for the study of alliance theory: it documents not just who married whom, but every case where the marriage rules were broken, and the subsequent genealogical management of those breaches.

Sociological

In terms of Weberian sociology, the Pañjī represents a form of **rationalized status management**— a bureaucratic system for the social construction and maintenance of honor (Ehre) as a collective property of lineages. The Dooshan Pañjī is the "negative ledger" in this honor-accounting system.

From a Durkheimian perspective, the system's persistence through centuries of political disruption demonstrates the extraordinary power of **collective representation**— the Pañjī as a shared social fact that transcends individual memory and reproduces the community's self-understanding across time.

Genealogical/Historical

The document's argument about Shrotriya as a colonial-era construction resonates strongly with **Nicholas Dirks's** thesis in *Castes of Mind* (2001): that caste as a rigid, heritable, administratively manageable category was partly a product of British colonial enumeration and governance rather than an unchanged ancient institution. The Pañjī evidence here is particularly valuable because it is indigenous, pre-colonial documentation that shows caste categories in process, permeable, and subject to reformulation.

XIII. CONCLUSION: THE SIGNIFICANCE OF THE DOOSHAN PAÑJĪ

The Dooshan Pañjī of Mithila is simultaneously:

A genealogical document of extraordinary scope and duration — the most ambitious sustained project of human lineage-recording in recorded history.

A social history of Mithila across 700+ years, documenting the lived reality of caste transgression, inter-community contact, social mobility, female agency, and community resilience that official histories have systematically ignored.

A philosophical archive — its most explosive entry concerns the founder of India's most technically sophisticated epistemological tradition, and reveals that Navya-Nyāya was born not in the rarefied atmosphere of high-caste Brahmin exclusivity but from a man whose wife was a Dalit cobbler-woman, born five years after his father's death — a biography that only the Dooshan Pañjī preserves.

A political document — its 2009 release triggered immediate controversy because it challenges the caste hierarchies and purity narratives that continue to organize Maithil Brahmin social life. The suppression of the Gaṅgeśa entries by Ramanath Jha and Udayanath Jha is not merely an intellectual failure but an act of what the author correctly names "honour killing" — the posthumous erasure of an identity because it does not conform to the social hierarchy.

A document of social healing — in its own terms, the Dooshan Pañjī is not an instrument of shaming but of liberation. Its logic is that recorded transgressions, once they have become *kālātīta* (time-transcended), lose their social toxicity. The publication of the Dooshan Pañjī is the act of declaring all its records *kālātīta* — consigning them to history rather than allowing them to remain as suppressible secrets used to police social hierarchies.

The last word belongs to the document itself: no society anywhere has maintained such a comprehensive, honest record of human lineage — including its contradictions, transgressions, and impurities — across such a span of time, across such a breadth of population, under such conditions of adversity. That is the achievement of the Pañjī system, and the Dooshan Pañjī is its most honest chapter.

Dūṣaṇa Pañjī — The Black Book: A Complete Study from Genealogical Theories

DŪṢAṆA PAÑJĪ / THE BLACK BOOK

dūṣaṇa pañjī

Gajendra Thakur | Videha Maithili Literature Movement

A COMPLETE STUDY FROM THE PERSPECTIVE OF GENEALOGICAL THEORIES

Methodology · Systems Analysis · Comparative Framework · Subaltern
Dimensions

***"Do not judge each day by the harvest you reap but by the seeds that
you plant."***

— Robert Louis Stevenson

I. Introduction: The Pañjī System as Genealogical Architecture

Gajendra Thakur's *Dūṣaṇa Pañjī / The Black Book* is not merely a historical compendium. It is the most sustained and rigorous engagement with a living genealogical system in South Asian scholarship — one that has recorded Maithila society's kinship networks without interruption for over 1, years. Published under the aegis of the Videha Maithili Literature Movement, this 237-page work functions simultaneously as a primary source anthology, an institutional history, and a theoretical intervention in how genealogical knowledge is constituted, preserved, and deployed.

The document's subtitle, 'Genome Mapping: 450 A.D. to 2009 A.D.,' signals Thakur's intent: to read the Pañjī not as a pre-modern curiosity but as a proto-scientific genealogical database that anticipates modern biological and demographic frameworks. This study examines the text from the full spectrum of genealogical theories — from classical kinship anthropology and biogenealogy to oral/documentary genealogy, subaltern genealogical critique, and digital archival theory.

II. The Pañjī Typology: A Seven-Fold Genealogical System

The Pañjī system is not monolithic. The text identifies seven distinct types, each serving a different genealogical function:

1. Mūla Pañjī (Root Register)

The foundational document tracing each family to its original settlement (mūlagrāma). The Mūla Pañjī embodies what genealogical theorists call 'place-based lineage' — the encoding of identity through territorial origin. Before the reign of Maharaja Mādhava Siṃha of Darbhanga, all Pañjīs were structured uniformly as Mūla registers. Theoretically, this corresponds to Fortes's concept of the 'lineage span' — the territorial extent and generational depth over which kinship relations are tracked.

2. Śākhā Pañjī (Branch Register)

Commissioned by Maharaja Mādhava Siṃha (c. 1760 CE), the Śākhā Pañjī records the branching of families as they migrated from their origin villages. It captures what Pierre Bourdieu theorizes as 'social genealogy' — the documented legitimization of status as families dispersed across the Mithilā landscape. Thakur notes critically that the Śākhā Pañjī's introduction also inaugurated the hierarchical Śrotiya classification system, converting a scientific record into an instrument of social stratification.

3. Gotra Pañjī (Lineage-Clan Register)

This register maps the 20 gotra (patrilineal descent groups) and 167 mūlas (sub-clans) of Maithil Brahmin society. Genealogical theory classifies this as a 'segmentary lineage' system of the type analyzed by Evans-Pritchard among the Nuer: a hierarchical nesting of identity from the widest Vedic gotra (Śāṇḍilya, Vatsa, Kāśyapa, etc.) down to the specific village sub-clan.

4. Patra Pañjī (Leaf/Progeny Register)

Dating from approximately 500 years before the text's composition, the Patra Pañjī records individual lineages (apatya) with their mūlagrāma. This corresponds precisely to what genealogists call 'vertical genealogy' — the diachronic tracing of a single line of descent across generations.

5. Dūṣaṇa Pañjī (Defect/Blemish Register)

The eponymous register of the work. The Dūṣaṇa Pañjī records instances of genealogical 'corruption' (kṣaraṇa) in a lineage: marriages outside prescribed boundaries, unknown parentage, cross-caste unions, and other departures from the normative system. Critically, the text argues that these records are disclosed only long after the events — after sufficient time has passed for the associated stigma to dissipate — serving as a genealogical corrective rather than a punitive instrument.

6. Uteḍha (Ancestral Mapping Document)

The Uteḍha is the operational tool of the Pañjī system: a genealogical matrix of 32 ancestors (sixteen on the bride's side, sixteen on the groom's side) constructed to determine marriage eligibility. It is the system's primary algorithm for sapinḍa prohibition — the prohibition of marriage between those sharing common ancestry. Theoretically, this is the closest analog in any world genealogical system to what modern genetics calls a 'kinship coefficient' calculation.

7. Asvājanya-patra Pañjī / Siddhānta-patra (Certificate of Non-Consanguinity)

The formal written certificate issued by the Pañjīkāra (registrar) affirming that a proposed marriage does not violate sapinḍa rules. This document institutionalizes the genealogical system's social function: the transformation of archival genealogical data into actionable social certification.

III. Institutional Genealogy: The Pañjī-Prabandha as State-Sanctioned Archive

From the perspective of institutional genealogical theory — concerned with how genealogical knowledge becomes formalized into state and social apparatus — the Pañjī-Prabandha represents a landmark case.

3.1 The 1326 CE Institutionalization

The text documents that prior to the 14th century, individuals maintained their own genealogical records (*samūha-lekhyā*). By the 13th century, this practice had declined to the point where Paṇḍita Harinatha Upādhyāya, the great Dharmaśāstra scholar, unknowingly contracted a prohibited marriage with his own paternal cousin's granddaughter. This failure of private genealogical memory precipitated a structural crisis.

In 1326 CE (Śāka 1248), under the impetus of Maharaja Harasiṃhadeva of the Karṇāṭa dynasty, the Maithil pandits resolved to transfer genealogical record-keeping from private households to a state-sanctioned corps of specialists — the Pañjikāras. This institutionalization corresponds closely to what anthropologist Jack Goody theorizes as the transition from 'oral genealogy' to 'written genealogy' — a shift that fundamentally alters the nature and authority of genealogical claims.

3.2 Harasiṃhadeva's Scientific Framework

Harasiṃhadeva's system was remarkable for its egalitarian design: all Brahmin, Kāyastha, and Kṣatriya families were recorded identically. The text states explicitly: 'Harasiṃhadeva's Pañjī was scientifically grounded (*vaijñānika ādhāra*) and constituted a pure genealogy (*śuddha vaṃśāvalī paricoaya*). All Brahmins, Kāyasthas, and Kṣatriyas were equal in their respective Pañjīs.' It was only under Maharaja Mādhava Siṃha (1760 CE) that hierarchical ranking (*Śrotriya, Yogya, Pañjībaddha, Jayavāra*) was introduced — a social corruption of a scientific record.

3.3 The Pañjikāra as Genealogical Professional

The text devotes substantial attention to the Pañjikāra as a professional genealogist. 185 Pañjikāras are documented: 32 serving the Śrotriya stratum and 153 serving Yogya and Vaṃśaja strata. The text decries the commercialization of the profession and calls for its ethical reform: 'The Pañjikāra is a guardian of culture, not a petty trader.' This resonates with contemporary debates in professional genealogical ethics about the responsibilities of record-keepers.

IV. Kinship Theory and the Sapiṇḍa Algorithm

The Pañjī system's marriage-eligibility algorithm — the Uteḍha with its 16 Natṭha (ancestral positions) — constitutes one of the most mathematically precise kinship prohibition systems in pre-modern social organization anywhere in the world.

4.1 The 32-Ancestor Matrix

The Uteḍha requires mapping 32 ancestors for both bride and groom: 16 patrilineal and 16 matrilineal for each party. The candidate must be in the 'sixth position' (ṣaṭha sthāna) or more removed from all 16 of the Natṭha on the paternal side; matrilineal Natṭha are calculated separately. This corresponds mathematically to a prohibition covering a 5-generation matrilineal and 7-generation (later 6-generation) patrilineal exclusion zone — a formula enshrined in Manu and Yājñavalkya and refined by Maheśa Ṭhākura.

4.2 Comparison with Alliance Theory

Lévi-Strauss's alliance theory posited that marriage prohibition systems are fundamentally about the exchange of women between groups to create social solidarity. The Pañjī system operates differently: its prohibitions are framed in terms of sapiṇḍa (shared ritual body) rather than alliance, and are bilateral (covering both maternal and paternal lines), making it closer to what Goody calls 'diverging devolution' systems than to the classic prescriptive alliance systems of Lévi-Strauss.

Yet the Pañjī's social function does produce alliance: the 16 Natṭha of each family become, in effect, a web of known relationships, and the Pañjikāra's Siddhānta-patra certifies the absence of sapiṇḍa as a precondition for forming new alliances. The system thus governs alliance through the management of descent records — an elegant inversion of Lévi-Strauss's model.

4.3 The Chromosomal Analogy

The text invokes a striking analogy, comparing the Uteḍha's 32-ancestor matrix to chromosomal mapping: 'In the current age of science, the determination of chromosomes (guṇasūtra) is of this type — our forebears (Ṛṣis) placed this in a systematic manner long before.' This is not naive scientism. The comparison is apt: the sapiṇḍa prohibition is, at its biological

base, a mechanism for reducing inbreeding coefficients. The 5th/7th generation prohibition corresponds roughly to a kinship coefficient below 1/128, approaching the threshold at which most genetic concerns about consanguinity become negligible.

This anticipation of population-genetic logic — articulated through Dharmaśāstra centuries before modern genetics — is among the most theoretically significant aspects of the Pañjī system.

4.4 The Four Prohibition Rules

The Pañjī system encodes four explicit marriage prohibition rules, grounded in Manusmṛti and Yājñavalkya:

- Rule 1 (Sapiṇḍa): The bride and groom must not share any of the 16 Naṭṭha in the groom's patrilineal descent.
- Rule 2 (Gotra): They must not belong to the same gotra.
- Rule 3 (Pravara): They must not share the same pravara (ancestral Ṛṣi).
- Rule 4 (Vimatā): The bride must not be the daughter of the groom's stepmother's brother.

These rules form a multi-layered prohibition system covering genetic, ritual, and social dimensions simultaneously — a sophistication unmatched in comparative systems.

V. Documentary vs. Oral Genealogy: The Pañjī's Textual Architecture

Genealogical theory distinguishes between oral genealogies (transmitted through memory, recitation, and performance) and documentary genealogies (preserved in written archives). The Pañjī system is unusual in being both simultaneously.

5.1 The Transition from Samūha-Lekhya to Institutional Archive

Kumārila Bhaṭṭa's 7th-century Tantravārttika records the existence of samūha-lekhya — collective written genealogical records maintained by elite families. The 1326 CE institutionalization transformed this private practice into a public archive. The text's account of this transition — from individual family records to the Pañjīkāra-managed corpus — tracks precisely what Clanchy (in 'From Memory to Written Record') identifies as the key medieval transition in record culture.

5.2 The Tirhuta Script as Genealogical Medium

All Pañjī manuscripts are written in Tirhutā (Maithilī) script — a fact of immense significance for understanding the relationship between script, community, and genealogical knowledge. The text argues that the Pañjī is effectively the lifeblood of Tirhutā script: 'The Pañjī is the prana (vital breath) of Tirhutā script.' The inaccessibility of the script to outsiders has simultaneously preserved the Pañjī and limited its scholarly reception — a classic paradox of archival exclusivity.

5.3 The Palm-Leaf Corpus

The physical archive consists of palm-leaf manuscripts (tālapatra), each book comprising 500-600 leaves. The text describes in precise detail the preparation, preservation, and organization of these manuscripts — including the annual sun-drying ritual (when the sun is in Siṃha Rāśi, approximately August 16 - September 15) and the injunction to protect manuscripts from water, oil, and physical binding. The oldest surviving manuscripts referenced include Pā. Raghudev Jhā's Māṇḍar mūla book (1690-1710 CE) and Pā. Devānanda Jhā's 'Nhoṭī' branch book (c. 1770-1780 CE).

The work begun in 2000 CE (Chaitra month) to digitize and transliterate this corpus — converting Tirhutā script into Devanagari — represents a critical archival intervention: the first systematic transfer of the Pañjī's genealogical data from a restricted manuscript tradition into a publicly accessible digital medium.

5.4 The Śākhā Pañjī as Genealogical Literature

The text claims that the Śākhā Pañjī is 'an unprecedented book — no such book has been found in any country, in any sect, or in any class anywhere in the world.' This claim invites comparison with the Welsh bardic genealogies, the Irish Book of Leinster, the Polynesian 'aro (genealogical recitations), and the Japanese kakochō. While none of these match the Pañjī's scale (1, years of continuous documentation across an entire region's population), the comparison illuminates the Pañjī's distinctiveness: it is not a dynastic genealogy but a total societal genealogy.

VI. The Genome Mapping Framework: Genealogy as Bio-Social Science

The text's most ambitious theoretical move is its framing of the Pañjī as a form of 'Genome Mapping' — a term Thakur uses deliberately and with precision.

6.1 Two-Phase Mapping

The text distinguishes between Genome Mapping (Phase 1, covering the three Khaṇḍas of the ancient Pañjī corpus) and 'Genealogical Mapping' (Phase 2), which constitutes 'Family History' — the foundation of any genomic study. This two-phase structure maps onto contemporary genomic methodology: population-level genetic data requires individual family history as its baseline.

6.2 Chronological Calibration via Generational Count

One of the text's most impressive achievements is its use of the Pañjī's generational records to calibrate historical chronology. Using a 40-year generation length, the text demonstrates:

- Āryabhaṭṭa (Ādibbhaṭṭa, of Māṇḍar-Kāśyapa gotra) is placed at generation 39 from the compilation point, yielding a birth date of approximately 476 CE — matching historical consensus.
- Goṇū Jhā (Karmahe Sonkariyām, Vatsa gotra) is placed at generation 24, yielding approximately 1050-1150 CE.
- Vidyāpati Ṭhakkura (Viṣaevāra, Bisfī-Kāśyapa) is placed at generation 14 from compilation, yielding approximately 1350-1435 CE — again matching historical consensus.

This use of generational depth to independently date historical figures is a sophisticated application of what genealogists call 'computational genealogy' — cross-validating documentary and demographic methods.

6.3 The Pañjī as Population Database

The text's claim that 'no human genealogy spread over such a vast territory has been recorded so comprehensively for more than 1, years, in the way the people of Mithilā have done' is substantiated by its statistics: 20 gotras, 167 mūlas (principal mūlas: 35, organized in three hierarchical tiers), 185 Pañjikāras, spanning a territory from Nepal to Bangladesh. By any measure,

the Pañjī constitutes one of the largest continuous human genealogical databases in world history.

VII. The Dūṣaṇa Pañjī: A Counter-Archive and Subaltern Genealogy

The titular Dūṣaṇa Pañjī — the Register of Defects — is theoretically the most subversive component of the system. Its 97 tabulated entries constitute a genealogical counter-archive that documents what the normative system sought to suppress.

7.1 What the Dūṣaṇa Pañjī Records

The tabulated entries in the Dūṣaṇa Pañjī record marriages across class, caste, and community boundaries:

- Marriages into 'unknown' lineages (ajñāta vaṃśa) — families whose ancestry could not be verified.
- Marriages into Dalit communities (e.g., Camār, specified directly in entries such as 'Valliyāsa Camaru suta Gaṅgādhara kī kanyā meṃ').
- Marriages with Devadāsī women (explicitly documented in entries 17-21 — Jānika Devadāsa records).
- Marriages into Muslim families ('Daulatijahām' appearing in entries 11-12).
- Marriages with women of unknown or inter-caste origin ('aṃtajātīya').
- Marriages into Koch Rajvanshi and other non-Maithil royal families.

The text provides specific genealogical tables for 97 such cases, each tracing the descent from the 'transgressive' union across multiple generations to show the contemporary family members descended from it.

7.2 The Politics of Disclosure

The Dūṣaṇa Pañjī's political logic is articulated explicitly: disclosure of these unions is postponed until 'kālātīta' — after the events have become temporally remote enough that their disclosure will not harm the living descendants. As the text states: 'When an event becomes kālātīta, it will have no adverse effect on any lineage; rather, it will serve as guidance for what decision should be taken in a similar situation.'

From the perspective of subaltern genealogical theory, this temporal logic is double-edged. On one hand, it protects Dalit and marginalized women and their descendants from contemporary stigma. On the other, it defers the full disclosure of Brahminic social mixing indefinitely, allowing the normative system to maintain the fiction of purity while quietly absorbing transgressive unions into its documented history.

7.3 Thakur's Subaltern Reading

Thakur foregrounds the *Dūṣaṇa Pañjī*'s evidence of inter-caste mixing as proof of what he calls the fundamental liberalism of Maithil society: 'The society that is described as *Jayavāra* has, since ancient times, been more liberal and tolerant compared to the other civilizations and cultures of India. No form of religious fanaticism has been a permanent feature here.'

This reading deploys the genealogical archive against Brahminic self-representation: the same *Pañjī* system that codified caste purity also documented, with ethnographic fidelity, the pervasive reality of caste transgression. The *Dūṣaṇa Pañjī* is thus a deconstructive genealogy — an archive that, in recording the exceptions to the rule, undermines the rule's claim to absolute authority.

7.4 Devadāsī Genealogy and Female Erasure

A significant sub-theme of the *Dūṣaṇa Pañjī* concerns *Devadāsī* women and their children. Entries 17-21 document the children of *Devadāsīs* who are '*ajñāta mānala gelih*' (considered unknown/unnamed) yet whose descendants are '*samādr̥ta*' (respected) in contemporary society. This pattern — the deliberate erasure of the mother's identity while preserving the patriline's record — reflects what Gerda Lerner identifies as the foundational mechanism of patriarchal genealogy: the invisibility of women's reproductive labor within the official record.

Critically, the text notes that 'only in the *Rasād̥ha-Arrariyā Pañjī* are women's names recorded.' This single exception illuminates the rule: the *Pañjī* system is structured around paternal descent, with women appearing only as relational terms (*māna*, *mātrika*, *dou* — daughter-in-law, mother's lineage, daughter). The *Dūṣaṇa Pañjī*'s documentation of *Devadāsī* mothers is thus a partial recovery of erased female genealogy — partial because the mothers' names are still suppressed.

VIII. The Gotra-Pravara System: Vedic Genealogy and Its Classification

The Pañjī's classification of Maithil Brahmins through gotra and pravara represents a Vedic genealogical taxonomy that predates the Pañjī-Prabandha by millennia.

8.1 The 20 Gotras

The text enumerates all 20 gotras of Maithil Brahmin society, each named after a primordial Vedic sage (Śāṇḍilya, Vatsa, Sāvarṇa, Kāśyapa, Parāśara, Bhāradvāja, Kātyāyana, Garga, Kauśika, Alāmbukākṣa, Kṛṣṇāneya, Gautama, Maudgalya, Vasiṣṭha, Kauṇḍinya, Upamanyū, Kapila, Viṣṇuvṛddhi, Taṇḍi, and Jātūkarna). This system represents a genealogical taxonomy in which all members of a gotra claim descent from a common primordial ancestor — precisely the 'segmentary lineage' structure theorized by Evans-Pritchard.

8.2 Pravara: The Sub-Lineage System

Pravara further subdivides gotras by identifying the 2-5 Ṛṣi ancestors who composed Ṛgvedic hymns. Dvipravara families (those with 2 ancestral Ṛṣis) and Pañcapravara (5 ancestral Ṛṣis) families cannot intermarry even if their gotras differ — since Vātsa and Sāvarṇa share the same Ṛṣi ancestors (Ova, Cyavana, Bhārgava, Jāmadagnya, Āplāvāna), marriages between them are prohibited despite their nominal gotra distinction.

The text provides the complete pravara list for all 20 gotras — a taxonomic resource of exceptional genealogical precision.

8.3 The Pañca Gauḍa Classification

The macro-genealogy of Brahmin communities across India is organized into two groups: Pañca Gauḍa (north of the Vindhya: Utkal, Kānyakubja, Gauḍa, Maithil, Sārasvata) and Pañca Draviḍa (south of the Vindhya: Kārnāṭa, Gujara, Tailaṅga, Draviḍa, Māhārāṣṭrīya). Maithil Brahmins are thus located within this macro-taxonomy as one of the five northern sub-groups — a classification that reflects the political-geographical organization of Brahminic culture in the post-Vedic period.

IX. Comparative Genealogical Theory: The Pañjī in Global Context

Situating the Pañjī within the global history of genealogical systems illuminates both its uniqueness and its theoretical significance.

9.1 Comparison with Medieval European Genealogy

Medieval European genealogical systems (Carolingian royal genealogies, the Welsh Triads, Domesday Book entries) served primarily dynastic and property functions. The Pañjī differs fundamentally: it is a total population genealogy covering all social strata (not just elites), maintained for ritual/marriage purposes rather than political legitimation, and organized around the principle of saṇḍa prohibition rather than inheritance.

9.2 Comparison with Chinese Genealogy (Zupu)

Chinese clan genealogies (zupu) are the closest global parallel to the Pañjī in terms of scope and continuity. Like the Pañjī, they record multiple generations of a clan's patrilineal descent. Unlike the Pañjī, they are maintained by the clans themselves rather than by an independent professional corps, and they do not function as a real-time marriage eligibility certification system. The Pañjī's institutional structure — with state-appointed Pañjikāras issuing legally recognized Siddhānta-patra — has no parallel in the Chinese system.

9.3 Comparison with Polynesian Genealogy

Polynesian genealogical recitations (like the Hawaiian Kumulipo) share the Pañjī's ambition of total genealogical coverage, but are primarily oral and cosmogonic — tracing descent from divine origins. The Pañjī is explicitly empirical and terrestrial, beginning its documented record from approximately 450 CE with named, historically verifiable individuals.

9.4 The Pañjī's Unique Features

In comparative perspective, the Pañjī system is distinguished by four features that have no global parallel in combination:

- Continuous documentation spanning 1,500+ years across an entire regional population.

- Independent professional genealogists (Pañjikāras) functioning as state-authorized certifiers.
- A mathematically precise kinship coefficient algorithm (the 32-ancestor Uteḍha) for marriage eligibility.
- A counter-archive (the Dūṣaṇa Pañjī) that simultaneously documents transgression against and within the normative system.

X. Critical Perspectives: Genealogy, Power, and Reform

A complete genealogical study of the Pañjī cannot avoid its implication in structures of social power. Thakur's text is itself a critical intervention, and its critique must be incorporated into the theoretical framework.

10.1 The Brahminic Capture of a Scientific System

Thakur's most sustained critique concerns the transformation of Harasiṃhadeva's egalitarian genealogical system into a vehicle for Brahminic social stratification. The introduction of the Śrottriya-Yogya-Pañjībaddha-Jayavāra hierarchy by Maharaja Mādhava Siṃha and court Brahmins converted the Pañjī from a scientific record into a ranking instrument. 'The classification of Śrottriya and others,' the text argues, 'began from the era of Maharaja Mādhava Siṃha and the practice of Śākhā Pañjī, and the harmful social practices arising from this ranking hierarchy began.'

10.2 Commercialization and Ethical Decay

The text denounces the commercialization of the Pañjikāra's function: demanding advance payment before issuing eligibility determinations, charging each person separately for a single group task, and prioritizing revenue over accuracy. This critique maps onto Bloch's analysis of how genealogical specialists across cultures face the tension between their civic function (as custodians of public knowledge) and their private interests (as holders of a specialized, monetizable skill).

10.3 The Reform Program

Thakur proposes a reform of the Pañjī system grounded in its original Dharmaśāstra logic. He argues that the Uteḍha's 16 Naṭṭha are equally weighted — no Naṭṭha has special priority over another — and that the asymmetry between the Śrottriya's full Śākhā recitation and the ordinary

person's Naṭṭha-based eligibility determination is a post-facto social invention with no Dharmaśāstra basis. The reform program calls for returning to the system's original scientific function: genealogical certification of marriage eligibility based on sapinḍa calculation alone.

10.4 Digital Archival Theory and the Pañjī's Future

The text's account of the digitization project begun in 2000 CE raises questions central to digital archival theory. The transliteration of Tirhutā manuscripts into Devanagari Maithili represents a script-crossing that changes the Pañjī's semiotic register: from a specialist's script accessible only to trained Pañjikāras, to a common Devanagari text accessible to any literate person. This democratization of access is simultaneously a decontextualization — separating the genealogical data from the specialized knowledge tradition that made it interpretable.

The text advocates for the digital availability of the Pañjī in 'the script most widely used among the majority of people' — recognizing that the system's survival in the age of globalization requires its translation into publicly accessible formats, even at the cost of some specialist knowledge.

XI. Navya-Nyāya Epistemology of the Pañjī: Genealogy as Inference

Gajendra Thakur's broader scholarly engagement with Navya-Nyāya philosophy — particularly the epistemology of Gaṅgeśa Upādhyāya — provides a distinctive theoretical lens for reading the Pañjī system. From the Navya-Nyāya perspective, genealogical knowledge is a form of anumāna (inference) structured by specific rules of evidence and certification.

11.1 Pratyakṣa and Anumāna in the Pañjī

The Pañjī system distinguishes between direct testimony (the Pañjikāra's personal knowledge of a lineage), recorded evidence (the written Pañjī texts), and inferred eligibility (the Siddhānta-patra issued on the basis of this evidence). This structure maps onto Navya-Nyāya's epistemological categories: pratyakṣa (direct perception), anumāna (inference), and śabda (testimony). The Pañjikāra's function is precisely anumāna: from the written record of 32 ancestors, the eligibility of a marriage is inferred.

11.2 The Uteḍha as Logical Schema

The Uteḍha's 16-Natṭha calculation can be formalized as a logical schema in Navya-Nyāya terms. Each Natṭha is a vyāpti (universal relation) of kinship; the Siddhānta-patra is the conclusion (sādhya) derived from the absence of any such vyāpti in the groom's patrilineal descent. The Pañjikāra performs what Gaṅgeśa would recognize as a pramāṇa — a valid means of knowledge — grounded in documented genealogical evidence.

XII. Conclusion: The Pañjī as a Theoretical Paradigm

Gajendra Thakur's Dūṣaṇa Pañjī / The Black Book presents the Maithila Pañjī system as a complete genealogical paradigm — one that integrates biological, social, institutional, documentary, and epistemological dimensions into a single coherent system. From the perspective of genealogical theory, it constitutes:

- A kinship system of exceptional mathematical precision, anticipating modern genetic understanding of consanguinity.
- An institutional archive of unparalleled continuity and scope, rivaling any documentary genealogical system in world history.
- A counter-archive (the Dūṣaṇa Pañjī) that documents the reality of inter-caste mixing, functioning as a subaltern genealogical record within and against the normative system.
- A site of ongoing social critique: Thakur's text uses the Pañjī's own evidence to contest the Brahminic hierarchy that has accumulated around it.
- A model for digital genealogical archival, as the ongoing transliteration project attempts to transfer 1, years of manuscript genealogy into a publicly accessible digital format.

The Pañjī is not a relic. It remains a living institution — issuing marriage eligibility certificates to contemporary Maithil families, recording new births and marriages, and continuing the unbroken genealogical record that began, according to the text's earliest traced entries, with Niniyana Bhaṭṭa (approximately 400 CE). Its theoretical significance for comparative genealogical studies, kinship anthropology, population genetics, archival science, and subaltern history has been systematically undervalued in scholarship outside the Maithila tradition.

Thakur's work is a corrective to that neglect. In framing the Pañjī as 'Genome Mapping,' he insists on its place not only in South Asian social history but in the global history of human attempts to know, record, and regulate the connections between generations.

A Comprehensive Research Report

through Anthropological, Sociological, and Genealogical Lenses

Primary Source: Dooshan Panji (Dooshan.pdf / Dooshan.docx)

Edited, Transliterated & Published by Gajendra Thakur

Videha eJournal | ISSN 2229-547X | videha.co.in

I. Introduction and Nature of the Source

The Dooshan Panji — literally the 'Defect Register' or 'Black Book' — is one of the most remarkable archival documents in the history of Indian genealogical traditions. It constitutes the fifth of seven canonical types of Panji (genealogical register) maintained among Maithil Brahmin communities of the Mithila region (modern Bihar and the Tarai of Nepal). Unlike the primary Mool Panji (root register), the Shakha Panji (branch register), the Gotra Panji (lineage register), the Patra Panji (issue register), and the Utedh Panji (sapinda-extinction register), the Dooshan Panji served the specific function of recording departures from normative endogamy — inter-caste unions, sexual irregularities, widow remarriage, marriages with

devadasi or artisan-caste women — and tracking the generational consequences for lineage status.

The document made available for this research is the Mithilakshar-to-Devanagari transliteration undertaken from the year 2000 CE onwards by Gajendra Thakur, editor of Videha eJournal. This transliteration drew upon palm-leaf and bark manuscripts (tarapatra and basaha patra) maintained by professional genealogists (Panjekar families) over approximately 1, years. The archive comprises upwards of 11, palm-leaf images (available on DVD and digitally at videha.co.in). The Dooshan Panji section relevant here was released publicly in 2009, with the Tables (1–97) constituting the primary empirical dataset examined in this report.

The document is simultaneously a genealogical archive, a sociological record, a caste-mobility ledger, and — as demonstrated through its central case study — a suppressed biographical record of Gaṅgeśa Upādhyāya (c. 13th–14th century CE), the founding philosopher of the Navya-Nyāya school of Indian logic. Its significance extends far beyond the regional: it is a primary source document for the history of Indian philosophy, caste, and the sociology of knowledge.

II. The Panji System: Structure and Historiography

II.1 Institutional Origins

The Panji-Prabandha system was formally institutionalised under King Harasimhadeva (born 1294 CE, acceded 1307 CE) of the Karnat dynasty of Mithila. As recorded in Jyotirishwar Thakur's Varna-Ratnakara, Harasimhadeva appointed Gunakar Jha as the first genealogist (Panjekar) for Maithil Brahmins, Shankardatt for Karna Kayasthas, and Vijaydatt for Kshatriyas. Following Harasimhadeva's flight to Nepal in 1324–25 CE after defeat by Ghiyasuddin Tughlaq, Mithila scholars fixed the commencement of the current Panji-Prabandha at 1248 Shaka / 1326 CE. This date is corroborated by internal Panji evidence.

A later and decisive restructuring occurred when Mithilesh Maharaja Madhav Singh, around 1760 CE, ordered the compilation of Shakha Pustaks (branch books). This event precipitated the emergence of the Shrotriya sub-caste — a crucial sociological datum: as demonstrated by Gajendra Thakur's analysis of authentic Panji files, the Shrotriya sub-caste did not exist in

British India before approximately 1800 CE and does not exist among Maithil Brahmins in the Nepal portion of Mithila even today. This demolishes retrospective claims of immemorial Shrotriya identity.

II.2 Typology of Panji Registers

The seven canonical types illuminate the system's comprehensive scope:

Mool Panji | Primary genealogical register; uniform in original form across all branches

Shakha Panji | Branch registers for Sochhat, Jog, and Panjibadhha sub-groups; includes Uptip (Sochhatpura) and Nagram (Pachiwar Par)

Gotra Panji | Records all gotras (exogamous lineage groups) and their ancient Mool (root villages)

Patra Panji | Records descendants (apatya); in use approximately 500 years; introduces Mool-gram reference

Dooshan Panji | Records genealogical 'defects' (ksharan) — the central subject of this report

Utedh Panji | Records sapinda extinction and known ancestors across generations

Aswajan-ya Patra Panji | Supplementary register for affinal kin; sole register (Rasadh-Araria) to record women's names

The Dooshan Panji's revelatory character lies in its documentation that inter-caste liaisons, marriages outside varna, and relationships with devadasi, artisan, and Dom communities were sufficiently frequent to require a dedicated institutional record. The very existence of the register proves that Mithila's Brahmin community was neither as endogamous nor as caste-rigid as later canonical historiography — and Sahitya Akademi-sanctioned scholarship — has claimed.

II.3 Anshuman Pandey's Independent Corroboration

The significance and reliability of these records are corroborated by independent academic use. Anshuman Pandey (University of Michigan, doctoral dissertation 2014: 'Recasting the Brahmin in Medieval Mithila: Origins of Caste Identity among the Maithil Brahmins of North Bihar') received a complete digitised set of Panji records from Gajendra Thakur in 2007, noting that Panjekar families — who regard these records as intellectual property — are typically reluctant to share them. Pandey's dissertation deployed these records to reconstruct the historical formation of

Maithil Brahmin caste identity in the medieval period, providing an independent scholarly validation of the archive's authenticity and analytical value.

III. Anthropological Analysis

III.1 The Panji as a Total Social Institution

In Marcel Mauss's sense of a 'total social fact' — one that simultaneously expresses religious, juridical, moral, economic, aesthetic, and morphological dimensions — the Panji system constitutes what may be called a Total Social Institution. It is not merely a genealogical register but the constitutive framework of social personhood in Mithila. Membership in the Panji is the condition of possibility for marriage, religious participation, property inheritance, and judicial standing within the community.

The Dooshan Panji, in particular, functions as what Erving Goffman would term a stigma register: a master document that attaches spoiled identity to lineages across generations. However — and this is the document's most anthropologically surprising feature — it simultaneously provides the mechanism for purification: the Tables systematically track the generational restoration of ritual status (the concept of Purnatah Shuddha, 'completely pure,' achieved by the sixth generation in the primary case studied, namely Example 1 in Table 1).

III.2 Kinship Analysis: Cross-Caste Marriages and Hypogamy

The 97 tables of the Dooshan Panji constitute a dataset of inter-caste and socially transgressive marriages documented over approximately 1, years. The following patterns emerge from a systematic reading:

- Hypogamic unions (Brahmin men with lower-caste women) are recorded but relatively rare; hypergamic unions (lower-caste men with Brahmin women) are also present.
- Marriages with Charmakar (leather-worker / tanner) women: most prominently in the case of Gaṅgeśa Upādhyāya's mother and, crucially, his wife (see Section V).
- Unions with devadasi (temple-dancers): multiple entries record maternal lineages connected to devadasi women; Examples 16, 17, 18, 20, 21

document children of devadasi mothers across the Shodarpura, Khowal, Tilaya, and Budwal Mool lineages.

- Marriages with Rajak (washerman-caste) women: Tables 54, 55, 64, 65, 66, 67 document inter-marriages between Brahmin men and Rajak women, with their genealogical ramifications tracked through multiple generations.
- Marriages with artisan castes (Charmakar/Charmakarin): Tables 49–51 explicitly name Charmakarin as maternal ancestor, with the lineage of Gaṅgeśa directly implicated.
- Unions with 'Antajatiya' persons (those of the lowest birth): Tables 45, 46, 47 record such unions without stigmatising them as final; the documents continue to track the lineages.
- A unique entry (Table 49, Entry 188/2) records a woman identified as Charmakarin from Babhaniyam (Bhabanipur) as the wife of a man identified with the Chhadan Mool — the lineage entry immediately preceding the explicit naming of Gaṅgeśa.
- Unions with Muslim women and widows who remarried: the editorial commentary in the document explicitly states this is among the categories the Dooshan Panji records.

From an anthropological standpoint, what is most significant is not the transgression itself but the institutional response: the Dooshan Panji neither condemns nor excommunicates. It tracks, it records, it projects forward. It is an instrument of social memory that maintains knowledge while managing the social distance required to prevent permanent ritual pollution. The mechanism of generational purification (Shuddhi in six generations) reflects a sophisticated, flexible caste logic — far more adaptive than later colonial-period rigidification of caste identity would suggest.

III.3 The Question of 'Burning Questions' (Dalilit Karnewali Ghatna)

The Dooshan Panji's editorial apparatus — reflected in Gajendra Thakur's framing — explicitly deploys the concept of a 'Burning Question': an event so socially disturbing that it agitates society and intellect for a brief period before being forgotten (*kaalatit bhay vismart hoit rahal*). The document argues that Mithila's social memory was paradoxically both long (sustained by Panji archives for 1, years) and systematically amnesiac (events forgotten once the social crisis passed). This is a precise articulation of what Maurice

Halbwachs would call the selective mechanism of collective memory, and what Paul Connerton calls 'forgetting as a social performance.'

The Panji system thus preserves what social forgetting seeks to erase. The Dooshan Panji is, in Connerton's terms, an 'inscribed memory' that survives the 'incorporated memory' (bodily, social, habitual) of the communities whose practices it records.

IV. Sociological Analysis

IV.1 Caste as Dynamic Process: Against the Colonial-Static Model

The dominant model of Indian caste — inherited from colonial ethnography (Risley, Blunt, Hutton) and its successors — treats caste as a fundamentally static, ascriptive, and hypergamically closed system. The Dooshan Panji fundamentally challenges this model. The document reveals caste in Mithila as a dynamic, processual, and negotiable social category in which:

- Inter-caste unions were sufficiently common to require dedicated institutional documentation across 97 cases.
- The consequences of such unions were tracked not as permanent excommunication but as generational trajectories capable of restoration.
- The genealogical record itself served as a form of social insurance, protecting the main lineage from 'ill-effects' (dushparinaam) while preserving knowledge of the departed branch.
- Knowledge of past 'defects' enabled communities to make informed judgements about contemporary social situations — a form of what we might call genealogical risk management.

This dynamic model resonates with Louis Dumont's recognition in *Homo Hierarchicus* (1966) that the opposition of pure and impure is not a fixed binary but a relational gradient — what matters is relative position, not absolute pollution. The Dooshan Panji institutionalises precisely this relational, processual understanding of purity.

IV.2 Gender and the Register: Women's Bodies as Genealogical Sites

The Dooshan Panji reveals a gendered sociology of genealogical recording. The document notes that only the Rasadh-Araria Panji records women's names at all — the other registers trace patrilineal descent and identify

women primarily as maternal roots (*matrik*) of their sons. This androcentrism is structurally significant: the 'defect' in genealogical terms is always defined in relation to the male line, yet it is the female body — the mother, wife, or daughter — through whom transgression enters and purification must work.

The repeated formula 'Mata Agyat' (Mother Unknown) — appearing in dozens of entries across the 97 tables — is sociologically revealing. It signifies not ignorance but deliberate suppression: the identity of mothers from lower castes or devadasi backgrounds was systematically withheld from the main genealogical record while being preserved in the Dooshan register. This is a gendered double inscription: the main register erases; the Dooshan register preserves.

The devadasi entries deserve particular attention. Examples 16–21 in the Tables document multiple lineages where the maternal grandmother or great-grandmother was a devadasi. The document neither pathologises this connection nor erases it — it records it with the same precision applied to all other genealogical facts. This suggests that the Mithila devadasi institution (connected, as elsewhere in India, to temple service) was not regarded as placing women entirely outside the sphere of genealogically significant social relationships.

IV.3 Mobility, Migration, and the Sociology of 'Paschhim Desh Se Agata'

Several entries in the Dooshan Panji record individuals described as arriving 'from the Western direction' (*Paschim Desh se Aगत*) — a formula indicating migration into the Mithila genealogical territory from outside. These entries pose a significant sociological question: how were outsiders incorporated into the Panji system? The document suggests that incorporation required tracing descent (or acknowledging its absence) and that certain transgressive unions were precisely with persons of unclear lineage — 'unknown caste and community' (*Agyat Vansh O Jati me*).

This mobility dimension connects the Dooshan Panji to larger questions in the sociology of Indian caste: the role of the frontier, migration, and political disruption (particularly the Tughlaq invasion and the Karnat dynasty's displacement) in reshaping caste boundaries and generating new social categories. The Shrotriya sub-caste itself — demonstrably created around 1800 CE through genealogical certification for cash — is the most dramatic

evidence that caste 'tradition' in Mithila was actively manufactured through the Panji apparatus.

IV.4 The Sociology of Knowledge: Honour Killing and Institutional Suppression

The document's most explosive sociological claim concerns the deliberate suppression of information from the Dooshan Panji by 20th-century scholars — specifically by Ramanath Jha and, subsequently, Udayanath Jha 'Ashok' — working within the institutional framework of Sahitya Akademi. Gajendra Thakur's editorial framework frames this suppression as an 'honour killing' of Gaṅgeśa Upādhyāya: the posthumous erasure of a philosopher's Charmakar wife and the circumstances of his birth from the authoritative scholarly record.

This sociological claim is specific and documentable. Dinesh Chandra Bhattacharya (1958, *History of Navya-Nyaya in Mithila*) — writing that the family connected to Gaṅgeśa 'dwindled into insignificance' and became 'extinct soon after his son's death' — did so on the basis of information provided by Ramanath Jha, who demonstrably knew of the Dooshan Panji evidence but withheld it. Bhattacharya further notes that 'the family which was inferior in social status is now extinct in Mithila' — a sentence that, read against the Dooshan Panji evidence, constitutes a statement about the Charmakar lineage connection that Ramanath Jha was unwilling to make explicit.

This is a textbook case of what Robert Merton called the sociology of knowledge operating within an institutional framework of power: knowledge production shaped not by empirical inadequacy but by caste ideology operating through scholarly authority. The Sahitya Akademi monograph by Udayanath Jha 'Ashok' (post-2009, therefore with full access to the Dooshan Panji evidence released that year) perpetuates this suppression, which Thakur documents with precision.

V. Genealogical Analysis: The Case of Gaṅgeśa Upādhyāya

V.1 Primary Evidence from the Dooshan Panji

The Dooshan Panji contains multiple overlapping records of Gaṅgeśa Upādhyāya's family. The key entry is:

Chhadan-sañ Tattva Chintāmaṇi kāraka Gaṅgeśak Vallabhā Charmakāriṇī
pitṛ parokṣe pañca varṣa vyatīte Tattva Chintāmaṇi kāraka Gaṅgeśotpatti
[Charmakāriṇī Medhāk santānak lāgime chalanhi]

Translation: 'From the Chhadan lineage, the wife (Vallabha) of Gaṅgeśa, the
author of Tattvacintāmaṇi, was Charmakāriṇī [a woman of the Charmakar /
tanner caste]. Five years after the passing (Pitri Parokshe Panch Varsh
Vyatite) of [Gaṅgeśa's] father, Gaṅgeśa, the author of Tattvacintāmaṇi, was
born. [The lineage continues through the descendants of Charmakāriṇī
Medhā.]'

Three additional Devānand Panji entries corroborate and extend this
information:

*Devānand Pañjī 39-2: 'Chhādan-sañ Jagadguru Guru Gaṅgeś sutāy
Babhaniyām-sañ Jayāditya sut Sādhukar patnī.'*

*Devānand Pañjī 339-3: 'Jagadguru Gaṅgeś sut Supan dau Bhaṇḍārisam-sañ
Harāditya dau. Putra sutā-cha Gorā Jajivāl sañ Jīve patnī e sut Sandagahi
Bhaveśvar...'*

*Devānand Pañjī 30-5: 'Chhādan-sañ Upāyakāraka Ma.Ma. Pā. Varddhamān
sutā-cha Khaṇḍavalā-sañ Viśvanāth sut Śivanāth patnī Gaṅgeś—Ma.Ma.
Varddhamān / Supan / Hariśarmma.'*

V.2 Genealogical Reconstruction

From the combined evidence of the Dooshan Panji and Devānand Panji, the
following genealogical reconstruction can be made:

Generation | Individual | Mool / Village | Panji Note

Paternal (unknown) | Father of Gaṅgeśa | Chhadan Mool | Died 5 years
before Gaṅgeśa's birth

Mother | Charmakāriṇī Medhā | Charmakar community | Wife of
Gaṅgeśa's father; Gaṅgeśa born posthumously

G (Philosopher) | Gaṅgeśa Upādhyāya | Chhadan / Chhadan Gram |
Jagadguru; Mahamahopadhyaya; author of Tattvacintāmaṇi

G+1 | Vallabha (wife) | Charmakāriṇī origin | Wife of Gaṅgeśa;
Charmakar caste

G+1 | Vardhamāna | Son of Gaṅgeśa | Mahamahopadhyaya; called father
'sukavikairavakananenduh'

G+1 | Supan / Hariśarmma | Sons of Gaṅgeśa | Devānand Panji 339-3

G+2 | Gorā | Son of Supan | Married into Jajivāl lineage

V.3 Genealogical Implications for the Navya-Nyāya Tradition

The genealogical evidence has direct philosophical-historical implications. Gaṅgeśa was posthumously born — this accounts for the absence of information about his father in subsequent records and explains Dinesh Chandra Bhattacharya's (1958) puzzling comment that 'there is no other reference to Gangesa' and that his family 'dwindled into insignificance.' The family's subsequent Charmakar connections rendered it genealogically 'impure' in the dominant Brahmin record — a social marginalisation that the Dooshan Panji precisely documents while the main Panji records suppress.

The transmission history of the Tattvacintāmaṇi illuminates the consequence. Pakshadhar Mishra — himself a contemporary of Vidyapati II (distinct from the Padavali poet) — refused to allow copies of the Tattvacintāmaṇi to be made in Mithila. It was Vasudeva of Bengal, a visiting student who memorised the text, and his disciple Raghunath Shiromani who established the Navya-Nyāya school at Navadvipa in Bengal. The displacement of Navya-Nyāya from Mithila to Bengal — standardly attributed to intellectual factors — is revealed by the Dooshan Panji evidence as at least partly a consequence of caste-based suppression: 'the extinction of the Navya-Nyāya School from Mithila was a revenge of nature against the honour killing of Gaṅgeśa Upādhyāya and his family.'

Stephen Phillips (Stanford Encyclopedia of Philosophy, 2020) corroborates that genealogical records in Mithila 'suggest that he had a wife and three sons and a daughter' — and that Gaṅgeśa's son Vardhamāna describes his father as 'jagad-guru,' equivalent to 'Distinguished University Professor.' This Stanford SEP entry, based on independent scholarship, is consistent with but does not reference the Dooshan Panji's fuller evidence — evidence that Gajendra Thakur has now placed in the public domain.

VI. The Dooshan Panji as World Heritage Document

VI.1 Comparative Genealogical Traditions

The Dooshan Panji's claim to world significance rests on a comparative genealogical argument made explicitly in Gajendra Thakur's editorial apparatus: 'In no society in the world has the genealogy of humans spread over such a vast geographical area been recorded in this way for more than 1,

years as the people of Mithilanchal have continuously preserved — honestly recording the education of their ancestors, the so-called attrition, and relationship details, artistic sensibility, migration and immigration; this is extraordinary.'

This claim, while expressed with regional pride, has empirical support. The closest comparanda are:

- Icelandic Sagas (9th–13th century): genealogically rich but covering a much smaller population and geography.
- Chinese Zupu (clan genealogies): vast in scope but far less systematically inter-caste in their recording.
- Jewish Yichus (pedigree) records: emphasise scholarly and rabbinic lineage but do not document transgressive unions.
- European nobility peerage records (Burke's Peerage, Almanach de Gotha): extensive but focused on elite lineages only.

The Mithila Panji system is exceptional in combining: (a) a span of 1,500+ years; (b) comprehensive coverage of an entire regional Brahmin community; (c) structured documentation of transgressive unions alongside normative genealogy; and (d) a mechanism for tracking cross-generational restoration of status. No comparable archive exists in world genealogical tradition.

VI.2 The Epistemological Status of the Panji

From a Navya-Nyāya epistemological standpoint — appropriately invoked given Gaṅgeśa's own connection to the document — the Panji constitutes a form of Shabda pramāṇa (testimony-based knowledge). Its reliability rests on the institutional continuity of the Panjekar families and the cross-referencing between multiple registers (Mool, Gotra, Patra, Dooshan, Devānand). The transliteration work undertaken by Gajendra Thakur from 2000 CE onward — and the publication of 11, palm-leaf images — constitutes a crucial epistemic upgrade: the transformation of oral/inscribed testimony into digitally verifiable evidence.

The academic use of the Panji evidence by Anshuman Pandey (2014) and its acknowledgement by Stephen Phillips (2020) in the Stanford Encyclopedia of Philosophy represent stages in the authorisation of this knowledge within Western academic epistemology — a process the Dooshan Panji itself would

recognise as a form of Shuddhi: the progressive validation of knowledge previously held to be impure or inadmissible.

VII. Political and Ethical Dimensions

VII.1 Caste Violence in Scholarship

The Dooshan Panji document is not merely an archival object but an active site of scholarly contestation. Gajendra Thakur's framing — the 'honour killing' of Gaṅgeśa Upādhyāya — deploys a contemporary vocabulary of caste-based violence to describe what is, in scholarly terms, a case of epistemic suppression: the deliberate withholding of genealogical evidence that would complicate the dominant, upper-caste narrative of Navya-Nyāya's founding figure.

The Sahitya Akademi's institutional role in this suppression deserves specific attention. As Gajendra Thakur documents, the Bhasha Samman awarded to Udayanath Jha 'Ashok' by the same body that published his monograph on Gaṅgeśa creates a circular system of validation in which the suppression of uncomfortable evidence is rewarded rather than corrected. This is not merely an academic dispute but a political economy of knowledge in which caste ideology operates through institutional channels.

VII.2 Dalit and Subaltern Stakes

The Dooshan Panji's explicit documentation of Brahmin men's unions with Charmakar (Dalit), Rajak, devadasi, and Muslim women — and the genealogical tracking of their descendants — constitutes primary evidence for the historical presence and social participation of subaltern communities in Mithila's cultural and intellectual life. The mother of Gaṅgeśa Upādhyāya was a Charmakāriṇī; his wife was a Charmakāriṇī. The Tattvacintāmaṇi — perhaps the most sophisticated work of logical epistemology in pre-modern world philosophy — was composed by a man whose family was by Panji standards genealogically compromised.

This has implications for Dalit intellectual history. The recovery of this evidence through the Dooshan Panji release (2009) and its inclusion in Gajendra Thakur's published research (including the short story 'Shabdashastram,' translated as 'The Science of Words,' Indian Literature, Sahitya Akademi, Vol. 58, No. 2, 2014) represents a small but significant

contribution to the rewriting of Indian intellectual history from a subaltern perspective.

VII.3 Mithila's Tolerance and Adaptive Social Logic

The document's editorial apparatus makes a broader sociological argument: that Mithila's society, despite being superficially categorised by the 'Jaivara' designation (implying caste privilege), demonstrated a historically documented pattern of tolerance, reform-openness, and non-permanent caste hostility. The Brahmin of Mithila, as the document argues, was 'more liberal and flexible compared to the other civilisations and cultures of India from ancient times; there was no permanent religious bigotry here. The scope for reform was continuously kept open.'

Whether one accepts this self-assessment or regards it with the critical distance appropriate to community self-representation, the Dooshan Panji evidence provides empirical grounding for at least a modified version of the claim: that Mithila's caste system was characterised by a managed fluidity unavailable under the rigidly endogamous model that colonial census-taking and subsequent scholarship imposed on Indian social history.

VIII. Methodological Reflections

VIII.1 Limits of Textual Extraction

This research report is based on the Mithilakshar-to-Devanagari transliteration of the Dooshan Panji and its English-language framing by Gajendra Thakur. The primary source (palm-leaf and bark manuscripts) is available digitally but requires specialised palaeographic expertise in Mithilakshar script for direct verification. Tables 1–97 present data in a compressed genealogical format in which individual identities are rendered as abbreviated syllables arranged in columnar trees — a format that reflects the oral and inscribed traditions of Panjika practice rather than the conventions of modern scholarship.

Future research should engage directly with: (a) the Mithilakshar originals; (b) the Panjika family traditions of interpretation; (c) the full Devānand Panji corpus (of which only selected entries are reproduced here); and (d) the archaeological and epigraphic record of the Karnat dynasty and early Mithila, against which the Panji's dating claims can be independently verified.

VIII.2 Archive, Memory, and Community

The Panji system raises fundamental questions about the relationship between community and archive. As Pierre Nora argues in his analysis of lieux de mémoire (sites of memory), the shift from milieu de mémoire (environments of memory, where memory is lived) to lieux de mémoire (where memory is deliberately preserved and commemorated) signals the death of living memory and the birth of history as archive. The Mithila Panji system occupies an intermediate position: it is an archive that has remained, for centuries, a living institution — a milieu de mémoire that has also always been a lieu de mémoire.

The digital release of 2009 — the transformation of palm-leaf images into downloadable JPEGs and Devanagari text on videha.co.in — represents a second-order archivisation: the archive of an archive, the inscription of a living genealogical system into the public record of global digital culture. This creates new possibilities for research and new risks of decontextualisation that future scholarship must navigate carefully.

IX. Conclusions

The Dooshan Panji is a document of exceptional world significance. Its contributions span multiple disciplines:

- In genealogical studies: it constitutes perhaps the most comprehensive inter-caste genealogical archive in world history, spanning 1, years and covering a regional population in extraordinary detail.
- In anthropology: it demonstrates the dynamic, processual, and negotiated character of caste in pre-colonial Mithila, challenging static colonial models and revealing sophisticated mechanisms for managing social transgression and restoring lineage status.
- In sociology: it exposes the political economy of knowledge production in which caste ideology operates through institutional channels (Sahitya Akademi) to suppress primary source evidence inconvenient to dominant social narratives.
- In the history of philosophy: it provides primary genealogical evidence for the social origins of Gaṅgeśa Upādhyāya and his family, with direct implications for the history of the Navya-Nyāya school and the displacement of that tradition from Mithila to Bengal.

- In gender studies: it reveals a gendered double inscription — the systematic erasure of women's names and social identities from main genealogical registers while their presence is preserved in the suppressed Dooshan register.
- In Dalit intellectual history: it provides primary evidence for the contribution of Charmakar, devadasi, and other subaltern communities to the social and intellectual history of Mithila.

The decision by Gajendra Thakur and the Videha Parallel Literature Movement to release this archive publicly in 2009 — and to place it in the context of a sustained critique of Sahitya Akademi's institutional casteism — represents an act of what we might call archival activism: the deployment of genealogical evidence in the service of a more inclusive and more truthful history of Mithila and Indian intellectual culture.

The Dooshan Panji deserves recognition as a primary source document of global scholarly significance and as a model of community-driven archival preservation. Its systematic study — with the full apparatus of anthropological, sociological, genealogical, palaeographic, and philosophical method — is among the most important scholarly tasks facing the field of Maithili and Mithila studies in the coming decades.

BIBLIOGRAPHY

The following bibliography consolidates primary and secondary sources cited across all chapters. Web-access citations, URLs, and Wikipedia references have been omitted.

Primary Sources

YavaniAssociations: Strikingly, the **Dooshan Panji** charts lineage lines featuring unions with Indo-Islamic or foreign individuals. For instance, it details lines descending from Doulati Jahan (described explicitly as *Yavani Doulati Jahan*, e.g., lines affecting Dhananjay, 196/7 and Gopal, 216/1).

Secondary Scholarship and Theoretical Works

VOL I THEORY.pdf

VOL II THEORY.pdf

BeejiPurush: The foundational ancestral patriarch from whom a primary lineage emerges.

MoolGram: The designated ancestral village of origin at the time of the 1326 A.D. classification.

MoolPanji: The primary, foundational baseline register capturing the horizontal distribution of lineages across original geographic villages.

ShakhaPanji: The branch book tracking genealogical offshoots down through successive generations, incorporating vertical metrics like education, titles, and migrations.

Gotra Panji: The structural index compiling the 20 primary Gotras (paternal lineages tracing back to ancient sages) and their associated Mools.

Patra Panji: Developed approximately 500 years ago to record specific mutations in habitation, charting sub-lineages and offshoot families (Apatya Gyan).

UthedPanji: The operational tracking ledger mapping 6 degrees of paternal and 5 degrees of maternal ancestors to calculate the rules of Sapinda (forbidden blood relationships).

AswajanapatraPanji (Siddhanta Patra): The formal, legally binding "Certificate of Non-Relationship" issued by a certified Panjekar, without which a marriage is declared uncanonical (Ashastriya).

DooshanPanji: The specialized register of systemic lineage fractures, biological intermixtures, and social status degradation.

Unions with Unknown/Exotic Groups:The text registers that Chamu (Valiyas Mool), Gangadhar, Nathu, and Wisho experienced lines of descent where daughters or mothers were of completely unknown extractions (Agnat Vansh/Jati).

Unions with Non-Brahmin Communities:The Panji logs explicit unions with lower socio-economic or non-Brahmin communities, such as connections involving a Charmakar (leatherworker community, e.g., the lineage of Anand, 211/1), Rajak (washerman community, e.g., Dharam, 207/1), and Tailik (oil-presser community, e.g., Devai, 194/11).

Indigenous Royal Outgroups:It logs instances like the marriage of Chandrapath's daughter into the **Koch Rajvanshi royal family of Assam**(Princess Sohago, 208/1).

Lineages associated with prominent figures like Visho (Sarisab Mool), Ratanu (Ghusaut Mool), and Madhav (Budhwal Mool) contain historical documentation of maternal roots linked to the Devadasi lineage systems.

These children were completely absorbed into the social fabric, and the registry carefully tracks their lines over several generations until their line achieved complete purification (typically by the 6th generation, as demonstrated in the lineage of Devadhar, who attained full lineage normalization).

Post-Mortem Overlaps:It explicitly records that the celebrated Navya-Nyaya philosopher **Gangesha Upadhyaya**(author of the Tattvacintamani) was born five years after the recorded death of his legal father (*PitruParokshe**Pancha Varsha**VyatiteGangeshotpatti*).

The "Taskar" Designation:In another instance, when Pandit Keshav Jha of Mangarouni willfully intercepted and rescued a bride originally selected for King Lakshmishwar Singh—and married her through a forced runtime Kanyadaan—the furious monarch officially summoned the Panjekar and legally ordered them to prefix the title **Taskar**(Thief) permanently to Keshav Jha's lineage in the state records.

Shrotriya(Soiti):**The elite ritual tier, categorized into**8 distinct structural subdivisions (**Chaugola**/Categories)**and managed through**32 primary **ShrotriyaPanjis**. Their lineages were termed **Laukit**.

Yogya (Jog):The intermediate rank assigned to families with high educational merit and scholastic background, but lacking the supreme ritual purity of the Shrotriyas.

Panjibaddh(Jaibar/ Vanshaja):The base tier comprising the general population of verified, registered lines. This segment was tracked through 153 distinct registries spanning 15 functional societal ranks.

High-status lineages (particularly top-tier Shrotriyas or highly ranked Yogya lines) often faced financial distress.

Conversely, lower-tier families (*Panjibaddh/Jaibar*) frequently accumulated substantial capital through agricultural expansion, administrative positions, or trade.

The Ghataks brokered hypergamous unions between wealthy lower-tier brides and highly ranked, financially strained grooms.

To institutionalize this transformation, substantial financial transactions were directed to the Panjikars under the guise of traveling expenses (Marga Vyaya) and registration premiums.

Gotra Exclusivity:The bride and groom cannot belong to the same paternal Gotra.

Pravara Exclusivity:They cannot share identical ancestral sages (Pravara).

Maternal Vimata Rule:The bride cannot be a direct descendant of the groom's stepmother's brother.

The Generational Distance Formula:

1st Chhathi:Paternal Great-Great-Grandfather's Father
(*Prapitamahak Pitāmaha*).

2nd Chhathi:Paternal Great-Great-Grandfather's Maternal Grandfather
(*Prapitamahak Mātāmaha*).

3rd Chhathi:Paternal Grandfather's Maternal Grandfather's Father.

4th Chhathi:Paternal Grandfather's Maternal Grandfather's Father-in-law.

5th Chhathi:Paternal Grandmother's Great-Great-Grandfather.

6th Chhathi:Father's Maternal Grandfather's Paternal Grandfather.

7th Chhathi:Paternal Grandmother's Maternal Great-Grandfather.

8th Chhathi:Paternal Grandmother's Maternal Grandmother's Father.

9th Chhathi:Maternal Grandfather's Great-Great-Grandfather.

10th Chhathi:Maternal Great-Grandfather's Paternal Grandfather.

11th Chhathi:Maternal Grandfather's Maternal Great-Grandfather.

12th Chhathi:Maternal Grandfather's Maternal Grandmother's Father.

13thChhathi:Maternal Grandmother's Great-Great-Grandfather.

14thChhathi:Maternal Grandmother's Paternal Grandfather's Father.

15thChhathi:Maternal Grandmother's Maternal Great-Grandfather.

16thChhathi:Maternal Grandmother's Maternal Grandmother's Father.

FirstChhathi:The grandfather of the bride's paternal great-grandfather (Vridha Prapitamaha).1

SecondChhathi:The maternal grandfather of the bride's paternal great-grandfather.1

ThirdChhathi:The paternal grandfather of the bride's paternal grandfather's maternal grandfather.1

FourthChhathi:The maternal grandfather of the bride's paternal grandfather's maternal grandfather.1

FifthChhathi:The paternal great-grandfather of the bride's paternal grandmother (Pitamahi).1

SixthChhathi:The maternal grandfather of the bride's father's maternal grandfather.1

SeventhChhathi:The maternal great-grandfather of the bride's paternal grandmother.1

EighthChhathi:The maternal grandfather of the bride's paternal grandmother's mother.1

NinthChhathi:The paternal great-grandfather of the bride's maternal grandfather (Matamaha).1

TenthChhathi:The maternal grandfather of the bride's maternal great-grandfather (Pramatamaha).1

EleventhChhathi:The maternal great-grandfather of the bride's maternal grandfather.1

TwelfthChhathi:The maternal grandfather of the bride's maternal grandfather's mother.1

ThirteenthChhathi:The paternal great-grandfather of the bride's maternal grandmother (Matamahi).1

FourteenthChhathi:The paternal grandfather of the bride's maternal grandmother's father.1

FifteenthChhathi:The maternal great-grandfather of the bride's maternal grandmother.1

SixteenthChhathi:The maternal grandfather of the bride's maternal grandmother's mother.1

Temporal Anomaly of Paternity:The registry contains an ancient scribal note stating that Gangesha was born five years after the passing of his father:

Inter-Caste Marriage:The ledger records that Gangesha's wife, Medha, was a Charmakarini (a woman from the untouchable leather-tanning/cobbler community).¹

Generation 1:Gunawati Himsha marries Chamaru of the *ValiyasaMool*, producing a son named Gangadhar.¹

Generation 2:Gangadhar's daughter is married to Nathu of the *SarisavMool*, producing a son named Visho.¹

Generation 3:Visho's daughter is married to Gangu of the *SakaradhiMool*, producing a son named Goge.¹

Generation 4:Goge's daughter marries Kanhu of the *PanichobhMool*, producing a son named Rudra.¹

Generation 5:Rudra's daughter marries Helu of the *DariharaMool*, producing a son named Chand, whose daughter subsequently marries Horai of the Pali Mool*, producing a son named Ram.¹

Generation 6:Ram's daughter is married to Chand of the Narwal Mool, and their son, Devadhar, is declared completely pure (Purnatah Shuddha).¹

Extreme Polygamy:High-status Bikaua men turned marriage into a primary profession, marrying between twenty-five and thirty women from lower-status families to extract continuous cash payments.¹⁵

Residential Abandonment:The Bikaua grooms typically abandoned their lower-status wives in their natal homes immediately after the ceremony.¹⁵ The wives remained with their own parents, where the groom would visit once a year or whenever he sought to extract more money.⁶

The Crisis of Mass Widowhood:Because a single Bikaua groom was married to dozens of women, his death instantly rendered a vast number of women—many of whom were child brides—widows.¹⁵ These widows were condemned to lives of severe social deprivation and isolation in their paternal households, as remarriage was strictly forbidden.¹⁵

The Starting Lineage:The registers officially begin by mapping theShandilya Gotra, specifically starting with theGangoliMool.

The First Ancestor (Aadi Purush):The very first foundational figure recorded in this block isGangadhar.

The First Generation:The record mathematically maps out that from one of Gangadhar's marriages, he had exactly two offspring (sons):Veer JhaandNarayan.

The Branching of Mools: The text then notes how this root family branched out geographically and genealogically:

The descendants of the first son, **Veer Jha**, became the founders (Biji) of the **Pavapalli** (or Pauli) **Mool**.

The descendants of the second son, **Narayan**, continued the line that eventually produced Sankarshan, who went on to establish the famous **Khandvala (Khadaure) Mool**.

Lal's Offspring: The text begins by listing the four sons of Lal: **Nena**, **Ishwaridutt**, **Chandudutt**, and **Girijadutt**.

Lal's Marriage: Lal's wife was the daughter (Dau) of Vamshidhar (son of Madhan) of the Darihara mool. Her maternal grandfather (Ddau) was Jivakarn of the Pali mool.

Nena: Nena's wife was the daughter of Dharmadutt (son of Gangesh) of the Darihara mool, and her maternal grandfather was Soni of the Karamha mool. The text then explicitly notes another son of Nena named **Bhool**.

Bhool (Son of Nena): Bhool's wife was the daughter of Santosh (son of Sanphulu) of the Khaual mool. The genealogist also records Santosh's marital details here to maintain the unbroken lineage: Santosh's wife was the daughter of Panji Eknath (son of Jaykrishna) of the Badhvas Sarisab mool, with her maternal grandfather being Khushiha of the Baliyas mool. Bhool's son is recorded as **Chiranjeev**.

Chiranjeev (Son of Bhool): Chiranjeev's wife was the daughter of In (son of Narayanadutt) of the Khaual mool, and her maternal grandfather was Rai Mohan Singh of the Tilay mool.

Ishwaridutt (Son of Lal): Ishwaridutt's wife was the daughter of Govind of the Naraun mool, and her maternal grandfather was Nandishwar of the Sodarpur mool.

Chandudutt (Son of Lal): Chandudutt's wife was the daughter of Pakhia (son of Machal) of the Bauli mool, and her maternal grandfather was Tota of the Pali mool.

Ratishwar: His sons were **Pitambar** and **Manadhar**. Ratishwar's wife was the daughter of Dharani (who was the son of Ramadhar and grandson of Chatai) of the Mandar mool, and her maternal grandfather was Bacha of the Jajival mool.

Mansukh: Mansukh's wife was the daughter of Bavnu (son of Gonad) of the Naraun mool, and her maternal grandfather was Nanu of the Sodarpur mool.

Mahi&Thakurdutt: Mahi's son was **Thakurdutt**. Mahi's wife was the daughter of Bhramar (son of Raghunath) of the Jonki Sarisab mool, and her maternal grandfather was Mahipati of the Mandar mool.

Umadutt:Thakurdutt's son was Umadutt. Thakurdutt's wife was the daughter of Jayarudra (son of Dhanad) of the Mandar mool, and her maternal grandfather was Bhaiya of the Belauch mool.

Theethar:Umadutt's son was Theethar. Umadutt's wife was the daughter of Nityanand (son of Manik) of the Pandua mool, and her maternal grandfather was Pakhia of the Naraun mool. Finally, Theethar's wife is recorded as the daughter of Mukund (son of Nath) of the Baliyas mool, and her maternal grandfather was Hriday Sukh of the Belauch mool.

Offspring: Meghanath had two sons, **Rudradhar** and **Jayarudra**.

Marriage: His wife was the daughter (Dau) of Shubh Pati (son of Saday) of the Jajival mool, and her maternal grandfather (Ddau) was Matiram of the Khauwal mool.

Offspring: Rudradhar had two sons, **Hridaynath** and **Ishaannath**.

Marriage: His wife was the daughter of Kalanidhi (son of Umapati) of the Naraun mool, with her maternal grandfather being Fakir of the Budhwal mool.

Offspring: Hridaynath had two sons, **Bhaiyalal** and **Jagatmani**.

Marriage: His wife was the daughter of Bhaiyan (son of Kuli) of the Sodarpur mool, and her maternal grandfather was Upadhyay Vagish of the Budhwal mool.

Jagatmani's Line: Jagatmani had a son named **Mukund**. Jagatmani's wife was the daughter of Fakiran (son of Shivanandan) of the Dighoy mool. Mukund's wife was the daughter of Gonu (son of Kamladatt) of the Jagati Bauli mool, with her maternal grandfather being Shitaladatt of the Pali mool.

Offspring: Ishaannath had three sons, **Khelanand**, Babulal, and Manohar.

Marriage: His wife was the daughter of Lalpani (son of Hem Pati) of the Karmaha mool, with her maternal grandfather being Chhakaudi of the Baliyas mool.

Khelanand's Line: Khelanand had two sons, **Someshwar** and **Ghatur**. Khelanand married the daughter of Vavue (son of Har Pati) of the Sodarpur mool. Someshwar married the daughter of Madhav (son of Hari Govind).

Babulal's Line: Babulal's first marriage was to the daughter of Chitradhar (son of Bachh) of the Dighoy mool. From this union, he had three sons: **Vasudev**, **Balmukund**, and **Phani**.

Vasudev had two sons, **Palat** and **Jagdish**. He married the daughter of Bhagavandatt (son of Yadurai) of the Pali mool.

Phani had a son, **Rameshwar**. He married the daughter of Keshav (son of Hanumandatt) of the Sodarpur mool. Rameshwar subsequently had two sons, **Shashikant** and **Gaurikant**, from his marriage to the daughter of Prabal Kishor of the Sodarpur mool.

Babulal's Second Line: The text explicitly notes another son of Babulal named **Shashinath**, recorded through a different maternal lineage linked to Mathuranath (son of Bhikshuk) of the Baheradhi mool.

Manohar's Line: Manohar's wife was the daughter of Savaknarayan (son of Shivanandan) of the Dighoy mool, and her maternal grandfather was Shyamlal of the Sakaradhi mool.

The block concludes by recording the marital details of Meghanath's second son, **Jayarudra**. His wife was the daughter of Bhaiyo (son of Bhavdev) of the Belauch mool, and her maternal grandfather was Prayagdatt of the Pali mool.

Offspring: He had three sons: **Anirudh**, **Basudev**, and **Gulaba**.

Marriage: His wife was the daughter of Manmohan (who was the son of Lakshmidatt and grandson of Nenava) of the Karmaha mool. Her maternal grandfather (Ddau) was Sonamani (son of Devanand) of the Baupli mool.

Offspring: He had a son named **Batesh**.

Marriage: His wife was the daughter of Madhusudan (son of Badan) of the Sodarpur mool, and her maternal grandfather was Muni of the Ghusaut mool.

Venidatt: He had a son named **Parameshwari Datt**. Venidatt's wife was the daughter of Phoiya (son of Narapati) of the Naraun mool, with her maternal grandfather being Balah of the Sodarpur mool.

Parameshwari Datt (Son of Venidatt): Parameshwari Datt subsequently had two sons, **Babulal** and **Khushru**. He married the daughter of Nena (son of Bavuraiya) of the Baupli mool, and her maternal grandfather was Kanhai of the Panichobh mool.

Offspring: Babulal had a son named **Kalikadatt**.

Marriage: Babulal's wife was the daughter of Girdhari (son of Jhotan) of the Pali mool, and her maternal grandfather was Pihiran of the Satlakha mool.

ADDENDUM

Structured Data Tables and Genealogical Archive

This addendum presents the structured genealogical data underlying the research in this volume. The data is drawn from six source archives: the Prācīn Pañjī, the Nagram Khaṇḍa 3, the Uṭṭp Khaṇḍa 2, the Dūṣaṇa Pañjī, the Pañjī Vol. II, and the Gotra-Mūla-Mūlāgrāma thesaurus compiled from Prelim-a, Prelim-b, and Puñjī-01 (Diwali 2014). All text has been rendered in standard IAST transliteration throughout.

Master Gotra × Mūla × Mūlāgrāma Table

The table below consolidates the primary Gotra, Mūla, and Mūlāgrāma records of Maithil Brahmin genealogy. Each entry identifies the ancestral clan (Gotra), the root lineage (Mūla), its founding village (Mūlāgrāma), the founding ancestor (Bījī Puruṣa), and the social classification. The seven major Gotras are Śāṇḍilya, Vatsa, Kāśyapa, Pārāśara, Sāvarṇa, Bhāradvāja, and Kātyāyana.

Gotra-Mūla Thesaurus: Classical and Laukika Names

Classical (Maulik) Mūla names are the canonical designations recorded in the Pañjī. Laukika (colloquial) variants are the forms in everyday usage. For example, Khaṇḍavala (classical) is also known as Khadaur; Gangoli as Ganguliwar; Sodarpura as Sodarpuriye. The thesaurus records 43 Mūlas under Śāṇḍilya, 40 under Vatsa, 27 under Kāśyapa.

Notable Persons Index

Key scholars and historical figures documented in the Pañjī records include: Gonū Jhā (Dhūrtarāja, M.M.U., 1050–1150 CE), Vidyāpati Ṭhākura (Mahākavi, 1350–1435 CE), Āryabhata (Scientist, 476–550 CE, 39th generation in Maṇḍar Mūla), Gaṃgeśa Upādhyāya (Navya-Nyāya founder, Tattvacintāmaṇi, c.1200–1280 CE), Lakṣmī Ṭhakurā'ini (Dharmaśāstri, 13th–14th c. CE), and Guṇākara Jhā (first Pañjikāra, appointed 1326 CE).

Genealogical Terminology

Suta / Sutā / Satau: Son / Daughter or sons (plural) / Two sons

Dau (Dauhitra): Daughter's son; maternal grandson

Ddau (Daudauhitra): Daughter's daughter's son

Mūla: Root lineage; original ancestral village designation

Mūlagrāma: Specific village of residence at time of Pañjī recording

Bījī Puruṣa: Seed-ancestor; earliest known founder of a Mūla

Gotra: Patrilineal clan traced to a Vedic sage (Ṛṣi)

Pravara: Sub-classification identifying Ṛgvedic sage ancestors within a Gotra

Uṭherha: 32-ancestor document mapping kinship nodes for marriage verification

Ṣaṣṭhī: 16 specific kinship positions checked for marriage eligibility

Siddhānta Patra: Certificate of non-kinship (Asvajanya Patra) issued by Pañjikāra

Dūṣaṇa Pañjī: The Black Book: register of genealogical deviations and transgressions

Mahamahopadhyāya: Highest scholarly title; greatest of great teachers

Pañjikāra: Authorized genealogist; keeper of Pañjī records

Śrotriya: Highest-ranked Maithil Brahmin category (Pubaripar)

Yogya / Pañjibaddha: Second and third tier Brahmin classifications (Pachhbaripar)

Sapiṇḍa: Kinship within prohibited degrees; basis of exogamy rules

Gramarambha: Opening of a village record in the Pañjī

Upaṭip (U.T.): Sub-note; supplementary annotation to the main Pañjī register

Sāmūha-Lekhya: Pre-1326 informal genealogical record system

The Pañjī Archive: Record Counts

The Pañjī Prabandha corpus spans 1,500 years of genealogical documentation (450–2009 CE). The digitised archive encompasses the following primary sections:

Source	Record Type	Count
Prācīn Pañjī §1–§73 (8 batches)	Location records	5,006
Prācīn Pañjī §1–§73 (8 batches)	Lineage chains	2,488
Pañjī Archive (Vol. I)	Location + lineage records	1,773
Uṭīp Khaṇḍa 2, §1–§224 (9 batches)	Marriage records	1,201
Uṭīp Khaṇḍa 2, §1–§224 (9 batches)	Lineage chains	1,100
Dūṣaṇa Pañjī, Batch 1	Kula-pollution register	97
Dūṣaṇa Pañjī, Batch 1	Village index	223
Nāgram Khaṇḍa 3, §1–§668 (9 batches)	Marriage records	19,208
Nāgram Khaṇḍa 3, §1–§668 (9 batches)	Lineage chains	996
Prācīn Pañjī Vol. II, paras 1–3456 (9 batches)	Marriage records	27,757
Prācīn Pañjī Vol. II, paras 1–3456 (9 batches)	Lineage chains	19,439
Prācīn Pañjī Vol. II, paras 1–3456 (9 batches)	Name index	1,350

Gotra × Mūla Counts

Śāṇḍilya: 43 Mūlas Vatsa: 40 Mūlas Kāśyapa: 27 Mūlas Pārāśara: 7 Mūlas Sāvārṇa: 5 Mūlas Bhāradvāja: 5 Mūlas Kātyāyana: 3 Mūlas Garga: 3 Mūlas

Decoding the Panji of Mithila
DATA COMPENDIUM

Structured Genealogical Tables from the Pañjī Archive

Genealogical Terminology

Term	Meaning
Suta / Sutā / Satau	Son / Daughter or plural sons / Two sons (Sanskrit grammatical dual)
Dau (Dauhitra)	Daughter's son; maternal grandson — key for bilateral kinship tracking
Ddau (Daudauhitra)	Daughter's daughter's son; double-dauhitra link
Mūla	Root lineage; the original ancestral village designation (167 recognised Mūlas)
Mūlagrāma	Specific village of residence at time the Pañjī was recorded
Bījī Puruṣa	Seed-ancestor; earliest known male founder of a specific Mūla
Gotra	Patrilineal clan traced to a Vedic sage; 20 Gotras total (7 major, 13 minor)
Pravara	Sub-classification of Rgvedic sage ancestors within a Gotra
Uṭherḥa (Uteh)	32-ancestor document mapping kinship for marriage verification
Saṣṭhī (Chhatth)	16 specific ancestral positions checked for marriage eligibility
Sapiṇḍa	Kinship within prohibited degrees; basis of exogamy rules
Siddhānta Patra (Asvajanya Patra)	Certificate confirming bride and groom are not prohibited relatives
Dūṣaṇa Pañjī	The Black Book: register of genealogical deviations (cross-caste unions, etc.)
Mahamahopadhyāya (M.M.U.)	Highest scholarly title; greatest of great teachers
Pañjikāra	Authorized genealogist; keeper and interpreter of Pañjī records
Śrotriya	Highest-ranked Maithil Brahmin (Pubaripar); records called Laukika
Yogya (Jog) / Pañjibaddha	Second and third tier Brahmin classifications (Pachhbaripar)
Jaibar	Category of Brahmins who initially lacked formal Pañjī records
Gramarambha	Opening formula of a village record (atha [village] grāmārambha)
Upaṭīp (U.T.)	Sub-note; supplementary annotation to the main Pañjī register
Sākhā Pañjī	Branch records; formalized c.1760 CE under Mahārāja Mādhava Siṃha
Sāmūha-Lekhya	Pre-1326 informal genealogical record system; predecessor to Pañjī
Vāsī	Inhabitant; used after a village name to indicate residence
Mātrika (Matrik)	Maternal lineage marker in genealogical records
Chhandog	Maithil Brahmin following Sāmaveda (Kauthuma branch)
Vajasaneyi	Maithil Brahmin following Yajurveda (Mādhyandina branch)
Bikauā	Men who marry multiple times (often elderly men marrying young girls)
Pachhbaripar / Pubaripar	Western-side / Eastern-side Brahmin classification in Pañjī hierarchy

The Seven Primary Gotras

#	Gotra	Sage	Pravara
1	Sāṇḍilya	Rṣi Sāṇḍilya	Tri-pravara
2	Vatsa	Rṣi Vatsa	Pañca-pravara
3	Sāvarna	Rṣi Sāvarna	Pañca-pravara
4	Kāśyapa	Rṣi Kāśyapa	Tri-pravara
5	Pārāśara	Rṣi Pārāśara	Tri-pravara
6	Bhāradvāja	Rṣi Bhāradvāja	Tri-pravara
7	Kātyāyana	Rṣi Kātyāyana	Tri-pravara

Notable Persons of the Pañji

Name	Mūla	Role	Period
Gonū Jhā (Dhūrtarāja, M.M.U.)	Karmahā (Sonakariyam)	Scholar-wit; 24th generation	1050–1150 CE
Vidyāpati Ṭhākura (Mahākavi)	Viṣphi (Bishayawar)	Mahākavi; Kīrtilata; court of Rāja Śivasimha	1350–1435 CE
Āryabhaṭṭa	Maṇḍar (Kāśyapa Mūla)	Scientist; 39th generation in Maṇḍar Mūla	476–550 CE
Jyotirīśvara Ṭhākura	Nashira (Havelee Deśa)	Varṇa-Ratnākara; first Maithili dictionary	c.1275–1350 CE
Lakṣimā Ṭhakurā'ini	Alaywar Baigani (Darihara)	Dharmaśāstri; key contributor to Pañjī structure	13–14th c. CE
Gaṃgeśa Upādhyāya	Budhwal (Dūṣaṇa Pañjī)	Navya-Nyāya founder; Tattvacintāmaṇi	c.1200–1280 CE
Guṇākara Jhā	Paṇḍua (Mahindrapur)	First Pañjikāra; appointed by Mahārāja Harisimhadeva	Active 1326 CE
Vidyānanda Jhā (Mohanji)	Paṇḍua (Mahindrapur)	Pañjikāra; author of Genome Mapping records	b. 1957 CE
Gajendra Thakur	Paṇichobh	Author; Editor, Videha Maithili eJournal; digitisation proje	Contemporary

INDEX OF DATA ADDENDUM

Panji Prabandha Addendum

Companion file: *Panji_Prabandha_Addendum_Merged*

Section A: Master Gotra × Mula × Mula-Gram Table

Consolidated Gotra-Mula genealogical taxonomy from all sources. Normalised to 9-column schema: Gotra, Mula, Mula_Gram, Biji_Purusha, Social_Category, Lineage_Description, Historical_Period, Source. Gotra | Mula | Mula_Gram key.

Sheet / Tab Name	Rows	Description
A_Gotra_Mula_Master	571	Merged from master + data tables 1-20 + prachin_uptip_21 (sheets 1–22). Normalised to 9-column sc...

Section B: Complete Flashcard Database

All Q/A flashcard pairs from every source, merged. Covers Panji terminology, historical facts, Gotra/Mula classifications, marriage rules, the seven Panji types, Dooshan Panji, scholarly titles, and genealogical notation conventions.

Sheet / Tab Name	Rows	Description
B_Flashcards	22643	Merged from master B Flashcards Merged (16002 rows) + new Flashcards_Merged.xlsx. Total: 22643 un...

Section C: Dooshan Pañjī Data Tables

Records from the Dooshan Pañjī — the Black Book of Mithila. Documents genealogical deviations: cross-caste marriages, unknown lineages, devadasi connections, and socially stigmatised unions. Includes records from Gamgeśa Upādhyāya (Chhadan Mool), Sodarpur, Pali, Karmaha, Karamaha, Darihara, and other key mulas.

Sheet / Tab Name	Rows	Description
C_Dooshan_Panji	348	Dooshan Panji (The Black Book) — records of genealogical deviations. Merged from DOOSHAN DATA TAB...

Section D: Nagram Pañjī — Khaṇḍa 3

Genealogical records from the Nagram cluster (Khaṇḍa 3). Person-level records with subject name, ancestry, village/clan, family relations, titles, and marital lineages.

Sheet / Tab Name	Rows	Description
D_Nagram_Khand3	30	Nagram cluster genealogical records. Merged from NAGRAM Data Table 01 onwards.xlsx + master D C *...

Section E: Prācīn Pañjī Vol. II — Genealogical Data

Records from Prācīn Pañjī Vol. II. Individual name, father, village, maternal ancestry, spouse parentage, sons/descendants.

Sheet / Tab Name	Rows	Description
E_Vol2_Genealogy	20	Prācīn Pañjī Vol. II genealogical records. Merged from VOL II GENEALOGY Data Tables 01 onwards.xl...

Section F: Mool-Gotra-Moolgram Thesaurus

Gotra-Mool-Moolgram thesaurus from Prelim-a, Prelim-b, Puñjī-01 (Diwali 2014), Videha ISSN 2229-547X. Classical (Maulik) and colloquial (Laukika) Mula names, village associations, notable persons index, genealogical terminology glossary (IAST throughout).

Sheet / Tab Name	Rows	Description
F_MoolGotra_Thesaurus	343	Gotra-Mool-Moolgram thesaurus from Prelim-a, Prelim-b, Puñjī-01 (Diwali 2014). All Devanagari con...

Section G: Mool-Gotra-Moolgram Genealogical Record Batches

Individual-level genealogical records from batches 0001–1391. Root village (Mula), progenitor (Beeji), descendants, current settlement, matrilineal relations, marriage connections.

Sheet / Tab Name	Rows	Description
G_MoolGotra_Records	11763	Individual genealogical records from mool-gotra-moolgram.xlsx batches 0001–1391. All Devanagari c...

Section : Panji Searchable Archive

Primary archive sheets (Panji-1 to Panji-7) with village/lineage root records, personal lineage data, Vol. II primary records, and Gotra-Mula master tables. Supporting reference sheets: Glossary, Seven-Gotras, Gotra-Mool-Pravara, Historical Periods, Identity Pillars, Notable Persons, Marriage Records, Village-Origin-Person tables.

Abbreviations Used in Data Tables

Abbreviation	Meaning
Suta / Sutā	Son / Daughter (Sanskrit grammatical markers)
Dau (Dauhitra)	Daughter's son; maternal grandson
Ddau (Daudauhitra)	Daughter's daughter's son
M.M. / M.M.U.	Mahamahopadhyāya / Mahamahopadhyāya (highest scholarly title)
Pr. (Prapautra)	Great-grandson; branch/alias marker
Mūla	Root lineage / ancestral village designation
Mūlagrāma	Specific village of residence at recording time
Bījī Puruṣa	Seed-ancestor; earliest known male founder of a Mūla
Gotra	Patrilineal clan traced to a Vedic sage
Pravara	Rgvedic sage sub-lineage within a Gotra
Utherha	32-ancestor kinship verification document
Ṣaṣṭhī	16 kinship positions checked for marriage eligibility
U.T.	Upaṭīp — supplementary sub-note annotation
IAST	International Alphabet of Sanskrit Transliteration (ISO 15919)
B //n	Batch reference code within Pañjī registers
sā / sam	Conjugal alliance marker — "married to" / "alliance with"

322	Parahara	Sargana (Sargana)	Loun		Samar Singh (Samar Chaudhary)	Maharaja, Chaudhary	Purnia (Basuli Raj)	1575-1625 AD	2
323	Sandhya	Sodapuri	Sodapuri, Sarvati, Digoun, Muni		Mahamahopadhyaya Irayathi, Hillewar, Jivendhar		Highly respected Ayaztha Shrestha (First Class) branch; known for 'Sadapuri Panji' and numerous academic titles Mahamahopadhyaya Jivanatha, Bhavadewar, Ajachi Mishra (Bharwadith), Shakti Mishra, Dhaka Kari	Mithila, Sarvati, Bengal (Migration), Nepal border regions	1
324	Vata	Pali (Palilwari)	Pali (Pari), Mahishi, Mangrosi		Kapili Deva, Hadhara		Primary root of the Vata Gota branch; classified as Shreotiya in branches like Mahishi and Mangrosi. Ajhmaraya, Parashottama, Mahamahopadhyaya Unupati, Upadhyaya.	Mithila, Nepal	1
325	Sandhya	Khadwala (Khadore)	Behat, Bhar, Deswal		Shankarshin (Sai Thakar)		Ayaztha Shrestha (First Class) Mula; founded by the son of Shalupati of the Narayan lineage. Mahamahopadhyaya Malach Thakar (Ruler of Darbhanga), Pratap Singh, Malhot Singh. Classified as Ayaztha Shrestha; includes the Guni and Shaili branches. Mahamahopadhyaya Gota Raj (1050-1150 AD), Ramprasad Upadhyaya (Guna of Chaitanya Mahaprabhu)	Mithila, Khandwa (Madhya Pradesh)	2
326	Vata	Karamba	Rachowk, Naruar, Behat		Vandahar		Large clan with 10 branches in Mithila; classified as Shreotiya in certain village branches. Aryabhata (Scientist, 476-550 AD), Narasimha, Chandigar.	Mithila (Darbhanga, Malhotani)	2
327	Kashyapa	Mandari (Mandari)	Mangarosi, Sibhuti		Trinayambhatta		Panjibhatta; the lineage of the first official Panjkar appointed in 1326 AD Sadapadhyaya Gunkar Jha, Modanad Jha, Vijaydev (Jha Mishra Ji)	Mithila, Nepal	2
328	Kashyapa	Pandua (Mahindapur)	Pal (Taiti)		Gunkar Jha		Lineage of the Sargana Loun and Basuli Raj families; notable for military and land-owning status. Maharaja Samar Singh (16th Century), Rani Lakshmi, Dr. Ratneswar Mishra	Mithila	1
329	Parahara	Sargana Loun	Loun		Pansapati (son-in-law of Agara Rai)		Established branch of Kashyapa Brahmins. Ravindra, Jayakar	Mithila	1
330	Kashyapa	Mandvi	Mandvi (Mandi)		Kameshwara		Village-based root within the Kashyapa clan. Divakar	Mithila	1
331	Bharadvaj	Behuch	Behuch (Wihapanchak)		Dharmaditya		Key settlement for Bharadvaj Brahmins. Mahaditya, Jivaditya	Mithila	1
333	Vata	Tankwal	Tankwal		Haripati		Documentation of lineage expansion from Tankwal. Lakshminari	Mithila	1
334	Sandhya		Sarvati, Gangoli				Yajurvedi; Samavedi (Chandogya) / Yajurvedi (Vajapeyasa) Sandhya, Aati (Guni), Devda	One of the most prominent and oldest lineages amongst Mathli Brahmins, particularly the Soti, Bhat, Khadwa (Khandwala) and Pawanli subclones. Historically established in the Sarvati-Pali region near Madhubani, producing numerous scholars (Mahamahopadhyaya) and administrators. The branch eventually established educational institutions in Central India.	1, 2
335	Vata		Pali (Pali)				Samavedi; Samavedi (Chandogya) / Yajurvedi (Vajapeyasa) Bhargava, Chyavana (Cyavana), Apranava (Apranava), Aarva, Jamalagiri (Jamalagiri)	A highly organized and numerous paternal lineage associated with ancestral villages like Pali and Haribhat. Known for significant migrations to Darbhanga, Patna, and Nepal, holding a high social status within the Panji hierarchy. Shares ancestors with the Sarvata gona, thus marriage between them is prohibited.	1, 2
336	Kashyapa		Orai (Orawar)				Yajurvedi; Samavedi (Chandogya) / Yajurvedi (Vajapeyasa) Kashyapa, Avatara, Nadhara	Lineage of the Orawar Dynasty (c. 1325-1525 AD) which ruled Mithila. Renowned for military prowess, patronage of Sanskrit literature, and includes many branches such as Mandari and Bisphi. The scholar Aryabhata is attributed to this lineage.	1, 2
337	Sarvata		Sondpur; Sondapur (Sodapur)				Samavedi; Samavedi (Chandogya) / Yajurvedi (Vajapeyasa) Bhargava, Chyavana (Cyavana), Apranava (Apranava), Aarva, Jamalagiri (Jamalagiri)	Based in Sondpur and Panchkoti, this lineage is part of the Pancha-Purwar group. Members often held high judicial and ministerial positions, including titles like 'Panji' (record keepers). Due to shared ancestry with the Vata gona, intermarriage is restricted by Panji rules.	1, 2
338	Parahara		Niam, Naruan (Naranam)				Yajurvedi; Samavedi (Chandogya) / Yajurvedi (Vajapeyasa) Parashara, Vashibha, Shakti	One of the seven major clans associated with villages like Niam, Sakari, and Naruan. Historically migrated from the Supanidha region towards the Ganga-Himalaya tract of Mithila. Known for agricultural land ownership, Vedic teaching, and the scholar poet 'Vijaypat' (of the Sakari branch).	1, 2
339	Bharadvaj		Ekahara				Yajurvedi; Samavedi (Chandogya) / Yajurvedi (Vajapeyasa) Angasra, Bahurajya, Bhavadewar	Descendants of Rishi Bharadvaj located primarily in villages like Behuch (Behunch), Ekahara, and Gadhi. This clan contributed extensively to Bhavadewar studies and maintained strict adherence to Vedic traditions across generations.	1, 2
340	Katyayana		Kojark; Karijoli (Karijhar)				Yajurvedi; Samavedi (Chandogya) / Yajurvedi (Vajapeyasa) Vahumara, Kariya (Karyama), Aila, Valam, Angasra	A major paternal lineage belonging to the Trinayavara group. Centered in Karijoli/Karijoli, they are notable for genealogical documentation, preserving ritual traditions, and maintaining detailed family registers. Significant presence in the Patna and Araia regions.	1, 2
341	Guntama		Bahurajya				Samavedi; Not a source Angasra, Ajaya, Guntama, Vashibha, Bahurajya	Primarily centered in Bahurajya, following the tradition of Rishi Guntama. Many descendants moved to Patna (Biharpur) and were involved in state administration. Shares the Bahurajya root village with other gona like Kashyapa and Vata, leading to complex marriage exclusions.	1, 2
342	Garga		Basaha (Vasi)				Yajurvedi (Vajapeyasa) Gargya, Gita, Vahnapanyama, Kaskika, Mandavyathava	Included in the Panchapurara group and found in villages such as Basan and Bahurajya. Many members were historically associated with Vedic scholarship and ministerial duties.	2
343	Krishnateya		Luhia				Yajurvedi Areyas, Achumama, Shyamavata	Centered in Luhia and Basuram. This clan is noted for its connections to the royal courts of Mithila as advisors.	1
344	Kankika		Nikhari				Kankika, Atri, Jamalagiriya	A smaller gona compared to the main seven, primarily identified with the Nikhari village. Part of the 'Vi-pravara' lineages defined during the 14th-century Panji reform.	1
345	Vashibha		Kothua				Yajurvedi Vashibha	A smaller but ritually significant clan linked to the villages of Kothua and Vishnveriti.	1
346	Kashyapa	Mandari (Mandari) / Mandi	Mangarosi / Mandi		Trinayambhatta (Trinayan Bhuti)	Yogya / Panjibhatta	Ancient lineage of Trinayambhatta; includes the scientist Aryabhata in his 7th generation and Mahamahopadhyaya Neatragh Mangarosi, Mandi, Mithila		1, 2
347	Sandhya	Khandwala (Khadore)	Bhar / Khandwala		Sankarshin (Sain Thakar) / Thakar Vata	Shreotiya	Descendants of Sankarshin (son of Hridayathi) and Thakar Vata. Includes Sankarshwariya and Bhagishwariyaya branches; established the Darbhanga Raj Bhar (Mahabhat), Khandwala, Mithila		1, 2
348	Kashyapa	Orai (Orawar)	Orai		Otyanda	Shreotiya / King	Main family of the Orawar dynasty, starting from Otyanda and including King Shivavama, known for charity and prowess. Orai, Mithila		1, 2
349	Kashyapa	Pandua (Paudua)	Mahindapur		Gunkara Jha	Panjibhatta	Lineage of the first Panjkar (registrar) appointed by King Harishchandra in 1326 AD Mahindapur, Mithila		2
350	Vata	Pali (Pari)	Pali		Karpidev		Lineage starting from Karpidev through Samaldev, Vandev, Adhiv, and Bhupak Pali, Mithila		1
351	Vata	Ekama Balam	Balam		Dharmadhar		Lineage of Dharmadhar including Padmanabhi, Shri Nidhi, and Shri Nath Balam, Mithila		1
352	Kashyapa	Khaul (Khaual)	Patana / Khaual		Prijapati	Panjibhatta / Brahmin	Lineage of Prijapati; a prominent Mula branch settled in Khaual and Patana Patana, Khaual, Mithila		1, 2
353	Vata	Karambha (Karambha)			Vandadhara	Brahmin	Lineage starting from Mahamahopadhyaya Vansadhara of the Smakaratiya branch. Smakaratiya, Mithila		2
354	Parahara	Sargana (Sargana)	Loun			Brahmin (Kings)	Lineage associated with the Sargana Loun Raj (Kings of Purnia area) Loun, Patna		2
355	Vata	Budhvala			Vandeva	Brahmin	Lineage of Vandeva from Budhvala Mithila		2
356	Kashyapa	Sankaradi	Sankaradi				Lineage of Sankaradi village belonging to the Kashyapa clan. Sankaradi, Mithila		1
357	Bharadvaj	Behuch (Behuch (Wihapanchak))	Behuch				Lineage associated with the Bhivapanchak village; a key settlement for Bharadvaj Brahmins. Behuch, Mithila		1
358	Mandapya	Rawal	Rawal				Lineage of Rawal village belonging to the Mandapya Gota. Rawal, Mithila		1
359	Kashyapa	Sakal	Sakal				Branch of the Kashyapa clan specifically noted for its settlement in Sakal Sakal, Mithila		1
360	Vata	Ghoseri	Ghoseri				Lineage from Ghoseri village within the Vata clan. Ghoseri, Mithila		1
361	Kashyap	Mandari (Mandari) / Mandi	Mangarosi / Mandi		Trinayambhatta (Bij Parusha)	Shreotiya Mahamahopadhyaya	Lived approximately 400 AD; 7th ancestor before Aryabhata. Lineage: Trinayambhatta Shripurav's Aryabhata Shripurav's Udayabhata Shripurav's Vijayabhata Shripurav's Trinayambhatta		1
362	Kashyap	Pandua (Pauda)	Mahendapur		Gunkar Jha	Panjibhatta Sadapadhyaya	Appointed as the first Panjkar in 1326 AD by King Harishchandra to manage Brahmin genealogical records.		1
363	Parahar	Sargan (Sargan)	Loun / Sargan		Samar Singh (Samar Chaudhary)	Panjibhatta Maharaj	Founder of the Sargana Loun branch in Patna region; descendant of Pansapati and Agara Rai.		1
364	Vata	Pali (Pali)	Mahishi / Pali		Kapil Dev	Panjibhatta / Shreotiya	Founder of the Pali branch in Mahishi village. Part of the initial Vata Gota migration.		1
365	Vata	Karambha (Karambha)	Sankarayan		Gota Jha	Mahamahopadhyaya	Famous scholar known as Dhruv; 24th generation in his lineage.		1
366	Kashyap	Khaual	Patana / Khaual		Prijapati (Bij Parusha)	Mahamahopadhyaya	Descendants include Vahapati and Unupati. Part of the Orawar dynasty related migration.		2
367	Bharadvaj	Ekahara (Ekahara)	Rachowli / Ekahara		Kandev	Charuvendhyayi	Ancient of the Ekahara lineage located in the village of Vihench.		2
368	Vata	Bilua	Bilua		Dharmadhar (Bij Parusha)	Pandua	Sons: Patanabha, Shrivada, Shrivani.		1
369	Kashyap	Burani	Burani		Divakar (Bij Parusha)	Avadhi	Sons: Bach, Shrivani.		2
370	Katyayana	Kojark (Koyark)	Bhakhouch / Koyark		Dantya		Ancient village Bhakhouch; branch known as Kojark.		1
371	Shandhya	Mahua	Mahua				Listed under Santalya Gona.		2

COMPLETE FLASHCARD DATABASE — All Sources Merged & Deduplicated

Sr. No	Question	Answer
1	What was the primary purpose for the creation of the Panji Prabandh during the medieval period?	To maintain the 'Jati Shuddhi' (caste purity) of Brahmins, Kayasthas, and Kshatriyas.
2	In the context of Maithil genealogy, what is an 'Uteh'?	An introduction of seven generations of ancestors, requiring the identification of 32 specific family lines.
3	What are the four specific pairs of great-grandparents required for a full 'Uteh' introduction?	Paternal Great-grandfather/Great-grandmother, Paternal Great-grandparents of the mother, Maternal Great-grandfather/Great-grandmother, and Maternal Great-grandparents of the mother.
4	According to Panji rules, what is the required generation gap for marriage on the paternal side?	The bride and groom must be separated by at least seven generations (often revised to six in specific practices).
5	What is the required generation gap for marriage on the maternal side in the Panji system?	The bride and groom must be separated by at least five generations.
6	Which historical ruler is credited with the formal organisation and institutionalisation of the Panji Prabandh?	Maharaja Hari Singh Dev (Karnat dynasty).
7	In which year (AD and Saka era) was the decision made to institutionalise the Panji records under state-appointed scholars?	1326 AD (Saka 1248).
8	Who was the scholar appointed by Maharaja Hari Singh Dev to manage the Panji records for Maithil Brahmins?	Pandit Gunakar Jha of the Mandar-Pandua Mula.
9	Who were the scholars appointed to manage the Panji records for Karna Kayasthas and Kshatriyas, respectively?	Shankardatt (for Kayasthas) and Vijaydatt (for Kshatriyas).
10	How many total Gotras are recognised within the Maithil Brahmin community according to the Panji?	20 Gotras.
11	What is the difference between 'Tri-pravar' and 'Pancha-pravar'?	Tri-pravar refers to Gotras with three Rigvedic sage ancestors, while Pancha-pravar refers to those with five.
12	Which three Gotras are classified as 'Pancha-pravar'?	Vatsa, Savarna, and Bharadwaj.
13	In Maithil genealogy, what does the term 'Beji Purush' represent?	The earliest known or founding ancestor of a specific family lineage or 'Mula'.
14	What is the difference between a 'Mula' and a 'Mula-Gram'?	Mula is the original ancestral root, while Mula-Gram is the specific village of residence at the time the Panji was recorded.
15	What are the two primary Vedic branches followed by Maithil Brahmins?	Yajurveda (Madhyandina Shakha) and Samaveda (Kauthuma Shakha).
16	What is the specific title given to Samavedi Maithil Brahmins in the Panji system?	Chhandogya.
17	What is the specific title given to Yajurvedi Maithil Brahmins in the Panji system?	Vajasaneyi.
18	How does the Chhandogya marriage ritual differ from the Vajasaneyi ritual regarding timing?	Chhandogya weddings occur in two parts (Purva and Uttara) with the latter after sunset, whereas Vajasaneyi weddings have no such division.
19	What is the 'Siddhanta Patra' (also known as Aswajana Patra)?	A formal certificate issued by a Panjkar confirming that a bride and groom are eligible to marry and are not 'Swajana' (forbidden relatives).
20	The list of Maithil Brahmin classifications includes Shrotriya, Yogya, Panjibaddh, and _____.	Jaibar.
21	In the Panji hierarchy, which category of Brahmins is also referred to as 'Pachhwari-paat'?	Those other than the Shrotriya (primarily the Panjibaddh and Yogya).
22	According to the 'Tanra Varttik' by Kumarila Bhatta, what was the 'Samuha-lekhyā' used for?	To record the lineage of noble families to ensure their qualities and flaws were remembered for future marriages.
23	What is the 'Chhatth' in the context of marriage eligibility calculation?	It refers to the 16 specific ancestral positions (paternal and maternal) from which a person's 6th generation status is calculated.
24	Who is the 1st 'Chhatth' ancestor used to determine a girl's marriage eligibility?	The Great-grandfather's Grandfather (Vridha-prapitamaha ke pitamaha).
25	What is the rule regarding a groom's mother's brother in the Panji system?	A groom cannot marry a girl who is the child of his mother's brother.
26	How many primary 'Mulas' were originally identified, and which branch was added later as the 35th?	167 were identified; the Phandah Mula's Kharaur branch was added as the 35th.
27	Identify the first three Gotras in the standard list of 20.	Shandilya, Vatsa, and Savarna.
28	Which script is traditionally used to write the Panji records?	Tirhuta (Mithilakshar).
29	What are the three main categories of the primary 35 Mulas?	Ayanthi Shrestha (First Class), Dwitiya Shreni (Second Class), and Madhyam (Middle Class).
30	According to the Panji preservation rule 'Jalat Raksha Tailat Raksha', what is the third thing one should protect books from?	Loose or weak binding (Sthul Bandhanat).
31	During which month/zodiac transition is it recommended to dry Panji books in the sun?	When the sun is in Leo (Sinha Rashi), roughly from 16th August to 15th September.
32	What are the seven types of Panji described in the text?	Mula, Shakha, Gotra, Panji, Dushan, Uteh, and Aswajanya-patra Panji.

33	Which Panji record specifically notes flaws or 'kshana' that have entered a lineage?	Dushan Panji.
34	The 'Behat-Kimaha' branch of the Shandilya Gotra is a notable exception because most Kimaha belong to the _____ Gotra.	Vatsa
35	In the classification of Panji, how many total 'Panjis' exist for the Shrotriya and Panjibaddh/Yogya categories?	185 total; 32 for Shrotriya and 153 for Yogya/Panjibaddh.
36	What is the status of Panji records for the Kshatriya community in the modern era?	They have largely become extinct (Vilupt).
37	Who is the 'Beji Purush' of the Mandar Mula established roughly in 400 AD?	Mahamahopadhyaya Trivenir Bhatta.
38	Which famous poet and scholar's lineage is traceable through the Shakha Panji?	Vidyapati Thakur.
39	What specific genealogical 'purity' issue occurred with Pandit Hari Nath Upadhyay that necessitated the formalisation of Panji?	He unknowingly married his own cousin (his father's sister's daughter's daughter) due to a lack of recorded lineage.
40	In the 'Pancha Gauda' classification of Brahmins, which five regions are included?	Utkal, Kanyakubja, Gauda, Maithil, and Saraswat.
41	In the 'Pancha Dravid' classification of Brahmins, which five regions are included?	Karnat, Gurjar, Tailang, Dravid, and Maharashtra.
42	Under which Maharaja did the 'Shakha Panji' and the classification into Shrotriya start?	Maharaja Madhav Singh.
43	Which scholar is known for the lineage of 'Modanand Jha' and 'Vidyanand Jha' spanning 19 generations?	Gunakar Jha.
44	Concept: Gotra	Definition: A paternal lineage tracking descent from a specific ancient sage (Rishi).
45	Concept: Pravara	Definition: The specific subset of distinguished ancestors within a Gotra who were composers of Vedic hymns.
46	How does the Panji determine 'Mula' for a person living in a new village?	The 'Mula' is fixed as the earliest known ancestral village, while the current residence becomes the 'Mula-Gram'.
47	What is the genealogical position known as 'Dauhitra'?	A grandson through one's daughter.
48	True or False: According to the Panji, marriage between Vatsa and Savarna Gotras is permitted because they are different Gotras.	False; they share the same ancestors and marriage between them is prohibited.
49	What is the social consequence of marrying a 'Swajana' (forbidden relative) according to ancient Smritis cited in the text?	The offspring are considered 'Chandala' and the parents are outcasted from Arya dignity.
50	Which Gotra includes Mulas like Dighey, Sarisab, Mahua, and Pali?	Shandilya.
51	Which Gotra includes Mulas like Oini, Khauaal, Mandar, and Visphi?	Kashyap.
52	The 11th 'Chhatth' used for checking eligibility is the maternal grandfather's _____.	Prapitamaha (Great-grandfather).
53	The 16th 'Chhatth' used for checking eligibility is the maternal grandmother's _____.	Matru-matamaha (Maternal great-grandfather).
54	What was the role of 'Panjikars' appointed by royal decree?	To verify lineages and issue 'Siddhanta' certificates ensuring no 'Swajana' marriage occurs.
55	Which Mula branch is historically associated with the poet Vidyapati?	Bisphi (Kashyap Gotra).
56	What is the primary difference in the Upanayana (sacred thread) ceremony between Vajasaneyi and Chhandogya Brahmins?	Vajasaneyi includes 'Ved-arambh' as a distinct sanskar, which is not counted separately in Chhandogya.
57	In the Panji hierarchy, 'Panjibaddh' people are those whose names were officially entered into the _____.	Panji (genealogical registers).
58	The Panji system records not just ancestry but also historical details like educational titles and _____.	Migrations (Pravas-Apravas).
59	What did Maharaja Kameshwar Singh award to genealogists who passed the 'Dhaut Pariksha'?	A 'Doshala' (shawl) and titles like 'Panji-Shastra Martand'.
60	How does the Panji track individuals who migrated to distant lands like Bengal or Assam?	They are recorded as 'Deshantar-vasi' or associated with the new village while retaining their original 'Mula'.
61	The Mula 'Bramhapura' is unique because it is found in _____ different Gotras.	Six (Shandilya, Vatsa, Kashyap, Alambukaksh, Gautam, and Bharve).
62	Which Panji is used specifically to understand the 'Apatatya' (descendants) of a line?	Par-Panji.
63	True or False: The Panji system allows for the recording of marriages with non-Brahmin or outcaste groups if they occur.	True; historical Panjis record such instances (e.g., marriages with 'Chamarkarin' or 'Yavani') as a matter of factual record.
64	What does 'Sthul Bandhanat' mean in the context of book preservation?	It refers to avoiding tight or heavy binding that could damage the palm-leaf or paper pages.
65	What is the primary purpose of the 'Panji Prabandh' system in Mithila?	To maintain caste purity and ensure the validity of marriages by verifying lineage.
66	Under whose reign was the Panji Prabandh system formally organised in Mithila?	Maharaja Harisimhadeva of the Karnata dynasty.

67	In what year (Shaka and Gregorian) was the Panji Prabandh officially implemented?	Shaka 1248, which corresponds to 1326 AD.
68	According to the Panji system, what are the two essential components of a Maithil Brahmin's identity?	Gotra and Moola.
69	How many total 'Gotras' are recognised among Maithil Brahmins?	20
70	Which seven Gotras are considered the most common and well-established in Mithila?	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
71	Term: Gotra	Definition: A lineage system tracing descent from a specific ancient sage (Rishi).
72	Term: Moolagram	Definition: The original village of residence of a lineage's founding ancestor.
73	Term: Beji Purush	Definition: The earliest known founding ancestor of a specific family lineage.
74	How does the Panji system define 'Pravara'?	A sub-classification of Gotra based on the specific ancestors who composed Rigvedic hymns.
75	What is the difference between 'Tri-pravara' and 'Panch-pravara' families?	Tri-pravara identifies three hymn-composing ancestors, while Panch-pravara identifies five.
76	Why is marriage prohibited between the 'Vatsa' and 'Savarna' Gotras?	They share the same hymn-composing ancestors (Pravaras), indicating a shared lineage.
77	In the context of lineage verification, what does the term 'Uti' refer to?	The detailed introduction and verification of 32 specific ancestral lines.
78	What is the maximum number of paternal generations that must be avoided to ensure marriage eligibility?	Seven generations (later modified to six in certain practices).
79	What is the maximum number of maternal generations that must be avoided to ensure marriage eligibility?	Five generations.
80	What was the total number of 'Moolas' (original family roots) initially recorded in the Panji system?	167
81	How many 'Main Moolas' are traditionally identified within the 167 original roots?	34 (later 35 including the Phandah branch).
82	Who was the first scholar to mention the 'Samuh Lekhya' (family records) before the formal Panji system?	Kumarila Bhatt in his work 'Tantra Varttik'.
83	Who was the specialist scholar appointed by Harisimhadeva to manage the Brahmin Panji?	Pandit Gunakar Jha.
84	Who was the scholar appointed to manage the Panji for the Karna Kayasthas?	Shankardatt.
85	Who was the scholar appointed to manage the Panji for the Kshatriyas?	Vijayadatt.
86	What is the 'Siddhanta Patra' (or Asvajana Patra)?	A formal certificate issued by a Panjkar confirming that a bride and groom are not prohibited relatives.
87	What is the title given to the professional genealogists who maintain and verify the Panji records?	Panjkar.
88	Into which two major Vedic branches are Maithil Brahmins divided based on their ritual practices?	Chhandogya (Samaveda) and Vajasaneyi (Yajurveda).
89	How do Chhandogya and Vajasaneyi Brahmins differ in their marriage rituals?	Chhandogya weddings are split into two parts (Purva and Uttara), whereas Vajasaneyi weddings have no such division.
90	Which branch of Yajurveda is followed by the Vajasaneyi Brahmins of Mithila?	The Madhyandina Shakha.
91	Which branch of Samaveda is followed by the Chhandogya Brahmins of Mithila?	The Kauthuma Shakha.
92	Into how many categories are Maithil Brahmins broadly classified based on lineage purity?	Three main categories: Shrotriya, Yogya, and Panjibaddh.
93	What is the term for Brahmins whose names are not recorded in the formal Panji books?	Jaibar.
94	How many 'Chaupala' (hierarchical categories) exist within the Shrotriya Panji?	Eight.
95	How many specific Panji books are dedicated to the Shrotriya and Yogya/Panjibaddh classes respectively?	32 for Shrotriyas and 153 for Yogya/Panjibaddh classes.
96	What is 'Laukiki' in the context of the Shrotriya class?	It refers to the specific Panji records tracking the Shrotriya lineage.
97	What are the names of the two subgroups of Maithil Brahmins based on geographic location in later periods?	Pubari (Eastern) and Pachhabari (Western).
98	Concept: Dushana Panji	A record of specific genealogical 'faults' or 'stains' in a family lineage to prevent their spread.
99	Concept: Shakha Panji	A detailed family tree tracking descendants and their specific maternal lineages over several centuries.
100	In the Panji system, what does 'Chhatth' (Sixth) signify in marriage eligibility?	The check of 16 specific ancestral positions to ensure a bride/groom is at least six degrees removed from common ancestors.

101	According to the mnemonic for book preservation, what are the three main threats to Panji manuscripts?	Water, oil, and loose binding.
102	During which astrological period (Sun in Leo) is it recommended to dry Panji manuscripts?	Roughly from 16 August to 15 September.
103	Which Gotra is exclusively followed by the 'Karna Kayasthas' of Mithila?	Kashyapa.
104	How is marriage eligibility determined for Karna Kayasthas, given they share a single Gotra?	Eligibility is based solely on the 'Moola' (ancestral root) and the 'Uti' (ancestral lineage).
105	What does the 'Beji' of a Moola represent in a family's history?	The specific founding individual from whom that branch of the family originated.
106	Why did Panji documentation cease among the Kshatriya community of Mithila?	Over time, the strict recording practice was lost, and they moved toward avoiding marriages within entire villages to prevent incest.
107	What was the major change introduced during the reign of Maharaja Madhav Singh regarding Panjis?	The introduction of 'Shakha Panji' and the formalisation of hierarchies like Shrotriya.
108	Which famous poet's genealogy is recorded in the Shakha Panjis for 19 generations?	Vidyapati Thakur.
109	According to the system of 'Pancha Gauda', which five Brahmin groups belong to North India?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
110	According to the system of 'Pancha Dravida', which five Brahmin groups belong to South India?	Karnata, Gurjara, Tailanga, Dravida, and Maharashtra.
111	What is the significance of the 'Vindhya Mountains' in Brahmin classification?	They serve as the geographic boundary between the Pancha Gauda (North) and Pancha Dravida (South) Brahmins.
112	In the Panji terminology, what is a 'Swajana'?	A relative with whom marriage is prohibited due to close blood relation (Sapinda).
113	What social consequence traditionally faced children born from prohibited 'Swajana' marriages?	They were historically categorised as 'Chandal' and excluded from Aryan social dignity.
114	Name the scholars credited with the modern digitization and editing of the Panji Theory material.	Gajendra Thakur, Nagendra Kumar Jha, and Panjekar Vidyanand Jha.
115	The Panji Prabandh is considered a medieval precursor to what modern biological concept?	Genome Mapping.
116	According to the text, what is the 'Adharam' of Dharma in the context of Mithila's culture?	The purity of the 'Jati' (caste/lineage) through births from valid, non-related parents.
117	What is the rule regarding the 'Mother's brother's children' in Maithil Brahmin marriage?	Marriage with the offspring of the mother's brother is strictly prohibited.
118	Term: Paanti	Definition: The social rank or 'line' indicating a family's standing within the Panji hierarchy.
119	How does the Panji record handle families that migrate or change villages?	It tracks both the 'Moola' (original village) and the 'Deragaon' (current village of residence).
120	Why is it considered ethical for a Panjekar to take disciples?	To ensure the survival of genealogical knowledge for future generations beyond just financial gain.
121	What historical event led to the creation of the Panji system, involving a scholar named Harinath Upadhyaya?	He inadvertently married his first cousin (mother's sister's daughter) due to a lack of genealogical records.
122	How many total ancestors are verified in the 'Uti' format for both the bride and groom?	32 for each (64 total).
123	What is the 'Adho-gami' nature of the Panji status?	Status generally declines (moves downward) if one marries into a lower-ranked Panji family.
124	In which year was the Panji Prabandh system officially established in Mithila?	1326 AD (Shaka 1248).
125	Who was the Karnata dynasty king responsible for the formal implementation of the Panji Prabandh?	Maharaja Harisimhadeva.
126	Which three primary social groups were initially covered by the Panji genealogical records?	Brahmins, Kayasthas, and Kshatriyas.
127	Term: Uteá,h	Definition: The formal introduction of ancestors required to verify marriage eligibility.
128	How many total ancestors must be identified in an Uteá,h to confirm a person's genealogical background?	32
129	What is the primary purpose of the Panji Prabandh system?	To maintain caste purity and regulate marriage eligibility based on lineage.
130	How many distinct Gotras are traditionally recognised among Maithil Brahmins?	20
131	Term: Moola	Definition: The original village or ancestral root from which a family lineage is derived.
132	How many 'Moola' (ancestral roots) were identified during the initial collection of Maithil Brahmin records?	167
133	What was the designation for Maithil Brahmins who were not formally recorded in the Panji?	Jaybar.
134	According to Panji rules, how many generations must be avoided on the paternal side for marriage?	Seven.

135	According to Panji rules, how many generations must be avoided on the maternal side for marriage?	Five.
136	Which two Maithil Brahmin Gotras are forbidden from intermarrying because they share the same ancestors?	Vatsa and Savarna.
137	What are the two major Vedic branches followed by Maithil Brahmins?	Yajurveda (Madhyandina branch) and Samaveda (Kauthuma branch).
138	Maithil Brahmins following the White Yajurveda are known as _____.	Vajasaneyi
139	Maithil Brahmins following the Samaveda are referred to as _____.	Chandoga
140	Term: Tri-pravara	Definition: A Gotra lineage that claims descent from three specific Vedic sages.
141	Term: Panch-pravara	Definition: A Gotra lineage that claims descent from five specific Vedic sages.
142	Who was the scholar appointed as the first Panjikar for Maithil Brahmins?	Gunakar Jha.
143	Who was the first person appointed to manage the Panji records for the Karna Kayasthas?	Shankardatta.
144	Who was the first person appointed to manage the Panji records for the Kshatriyas?	Vijayadatta.
145	Which later Maharaja of Darbhanga introduced the 'Shakha Panji' and created social hierarchies like Srotriya?	Maharaja Madhav Singh.
146	What is the function of a 'Siddhanta Patra'?	It is a formal certificate issued by a Panjikar confirming that a couple is eligible to marry.
147	Term: Dushana Panji	Definition: A specific register used to record defects, blemishes, or violations of social norms within a lineage.
148	In what script were the traditional Panji records primarily written?	Tirhuta (Mithilakshar).
149	What was the traditional physical material used for writing Panji records before the use of paper?	Palm leaves (Talpatra).
150	Term: Biji Purusha	Definition: The foundational ancestor or the earliest known patriarch of a specific Moola (ancestral root).
151	The five categories of Brahmins belonging to Northern India (including Maithils) are collectively known as _____.	Pancha Gauda
152	What is the technical term for a scholar who specialises in maintaining and verifying the Panji records?	Panjikar.
153	How does the Panji system identify a 'Srotriya' Brahmin?	By tracking a history of specific religious conduct and ancestral purity over several generations.
154	The list of 16 specific ancestors (8 on the paternal side and 8 on the maternal side) used to check for overlapping lineages is called the _____.	Chhadvith (Sixteen ancestors)
155	Which Gotra includes the Moolas of 'Dighwa', 'Sarisab', and 'Mahua'?	Shandilya.
156	Which Gotra includes the Moolas of 'Oini', 'Khoul', and 'Mandar'?	Kashyapa.
157	What is the significance of the year 1326 AD in the context of Mithila's genealogy?	It marks the formal 'Panji Prabandh' event where existing lineages were recorded and codified.
158	Term: Aswajanyapan	Definition: A state where a lineage becomes ineligible for certain social statuses due to marriage outside prescribed rules.
159	In the Karna Kayastha community, how many distinct Gotras are traditionally followed?	Only one (Kashyapa).
160	What does a 'Panji' record specifically track for each newborn in a family?	The name, the father's name, the mother's name, and the mother's ancestral Moola.
161	Which Panji register focuses specifically on the 'Sapinda' (blood relative) restrictions?	Uteá,h Panji.
162	How does the Panji system define a 'Yogya' Brahmin?	As a middle-tier classification between Srotriya and Panjibadh based on ancestral merit.
163	What historical event in the 14th century prompted the creation of the Panji system?	A high-ranking scholar inadvertently married a close relative due to a lack of genealogical records.
164	Concept: Grouping of Moolas	Definition: Moolas are often grouped by their Gotras; for instance, 'Pali' and 'Hariamb' belong to the Vatsa Gotra.
165	What is the 'Laukik' in the context of Srotriya Panji?	The specific social standing or 'fame' earned by a family through notable marriages or deeds.
166	How are the Panji books traditionally protected from decay?	They are dried in the harsh sun when it is in the Leo sign (August-September) and kept away from oil and water.
167	Which Gotra is associated with the 'Ekhara' and 'Pali' Moolas in the list of minor Gotras?	Kaundinya.
168	What is the primary difference between 'Tri-pravara' and 'Panch-pravara' regarding Rishis?	Tri-pravara invokes three sages, while Panch-pravara invokes five during religious rituals.

169	What was the significance of the work 'Tantra Vartika' by Kumarila Bhatta for genealogy?	It provided early philosophical justification for maintaining written ancestral records (Samuh-Lekhya).
170	What is a 'Bramhapura' Moola noted for in the text?	It is a rare instance of a Moola that appears across multiple different Gotras.
171	According to the Panji theory, birth alone does not ensure purity; it must be supported by ____.	Ancestral record verification (Panji)
172	Who wrote 'Varna Ratnakara', which mentions the 72 Rajput clans relevant to the Panji era?	Jyotirishwar Thakur.
173	The regional culture of Mithila was influenced by its geography, situated between the Himalayas and the ____ River.	Ganga
174	What was the primary purpose of establishing the 'Panji Prabandh' in medieval Mithila?	To maintain the genealogical purity (Jati Shuddhi) of Brahmins, Kayasthas, and Kshatriyas.
175	The introduction of seven generations of ancestors required for marriage eligibility is known as ____.	Uderh
176	How many total 'Gotras' (clans) are identified within the Maithil Brahmin community according to the Panji system?	\$20\$
177	How many original villages or lineages, known as 'Mulgrams', were initially recorded in the Panji records?	\$167\$
178	In the Maithil Brahmin hierarchy, what are the three main categories resulting from the Panji classification?	Shrotriya, Yogya, and Panjibaddha.
179	According to the Shastras, a 'Shrotriya' Brahmin must avoid how many generations of ancestors on the mother's side for marriage?	Five generations.
180	According to the Shastras, a 'Shrotriya' Brahmin must avoid how many generations of ancestors on the father's side for marriage?	Seven generations.
181	In modern practice, Maithil Brahmins generally avoid ____ generations on the father's side for marriage.	Six generations.
182	Which historical ruler of the Karnat dynasty is credited with the formal organisation of the Panji system?	Maharaja Harisimhadeva.
183	In which year (Shaka era and AD) was the Panji system officially instituted?	Shaka \$1248\$ (equivalent to \$1326\$ AD).
184	Who was the first person appointed to manage the Panji records for Maithil Brahmins?	Gunakar Jha.
185	Who was appointed to manage the Panji records for the Karna Kayastha community?	Shankaradutta.
186	Who was appointed to manage the Panji records for the Kshatriya community?	Vijayadutta.
187	The formal document issued by a Panjika to certify marriage eligibility is called a ____.	Siddhanta Patra (or Asvajana Patra).
188	The term 'Beeji Purush' refers to what in the context of a Maithil lineage?	The earliest known progenitor or ancestor of a specific 'Mul' (lineage).
189	What is the collective term for the 16 specific ancestral relations checked to ensure no overlap between bride and groom?	Chait (or Shadvidha).
190	Gotras that claim three sage ancestors for their Vedic rituals are classified as ____.	Tri-pravara.
191	Gotras that claim five sage ancestors for their Vedic rituals are classified as ____.	Panch-pravara.
192	Maithil Brahmins follow which two primary Vedas?	Yajurveda (Madhyandina branch) and Samaveda (Kauthuma branch).
193	Followers of the Yajurveda branch in Mithila are specifically known as ____.	Vajasaneyi.
194	Followers of the Samaveda branch in Mithila are specifically known as ____.	Chandoga.
195	In 'Uderh', a complete introduction requires the identification of ancestors from how many total 'Kulas' (lineages)?	\$32\$
196	The earliest mention of 'Samuh Lekhya' (collective records) used to protect lineage was by which philosopher?	Kumarila Bhatta (in Tantra Varttika).
197	What specific genealogical error did Pandit Harinath Upadhyaya commit that led to the formalisation of the Panji system?	He unknowingly married a close relative (his sister's daughter's daughter).
198	Which Maithil King initiated the 'Shakha Panji' (branch records) to distinguish between higher and lower social grades?	Maharaja Madhav Singh.
199	Term: 'Mulgram'	Definition: The original village where the 'Beeji Purush' (progenitor) of a family resided.
200	How many main 'Muls' (primary lineages) are currently identified within the Panji system?	\$35\$ (originally \$34\$ plus the Phandah branch).
201	According to the Panji system, the progeny of an ineligible marriage (Swajana) was historically classified as ____.	Chandal (outcaste).
202	What is the primary difference in marriage rituals between Samavedic (Chandoga) and Yajurvedic (Vajasaneyi) Brahmins in Mithila?	Chandogas perform the marriage in two parts (Purva and Uttara), whereas Vajasaneyis have no such division.

203	What must be confirmed about the bride's relationship to the groom's maternal uncle?	She must not be the child of the groom's mother's brother.
204	What are the names of the seven most prominent and well-established Gotras in Maithil Brahmin society?	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadvaja, and Katyayana.
205	Which Panji type specifically records the flaws or 'kshana' (degradations) that have occurred in a lineage?	Dushan Panji.
206	Which Panji type acts as a genealogical map, linking branches of families across different villages?	Shakha Panji.
207	To preserve Panji manuscripts, they should be dried when the sun enters which zodiac sign?	Leo (Simha Rashi), usually between mid-August and mid-September.
208	What three things are Panji manuscripts explicitly protected from according to the traditional verse?	Water (Jala), Oil (Taila), and loose binding (Shithila Bandhana).
209	The 'Panch Gauda' division of Brahmins includes which five regions?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
210	Which mountain range historically divides the 'Panch Gauda' Brahmins from the 'Panch Dravida' Brahmins?	Vindhyachal Mountains.
211	In the context of marriage eligibility, the 'Panchami' rule refers to avoiding five generations on which side?	The mother's side.
212	The 'Saptami' rule in marriage eligibility refers to avoiding seven generations on which side?	The father's side.
213	Which scholar's 'Siddhanta' (rule) regarding father-side generational limits was eventually accepted by the Maithil community?	Mahamahopadhyaya Mahesh Thakur.
214	True or False: The Panji system is currently actively maintained for Maithil Brahmins, Karna Kayasthas, and Rajputs.	False (it has largely disappeared among Rajputs).
215	A 'Panjikar' serves as the equivalent of a modern _____ in the context of lineage tracking.	Registrar or Genealogist.
216	What is the historical significance of 'Tirhuta' script in relation to the Panji system?	It is the original script in which all Panji records are written and preserved.
217	Concept: 'Beeji'	Definition: The foundational ancestor from whom a specific 'Mul' (original lineage) originates. Example: Sandilya for the 'Dighwa' Mul.
218	The first 'Chait' relation checked is the bride's relationship to which ancestor of her father?	The father's great-grandfather (Vridhdha Prapitamaha).
219	What is the primary script used for the digitisation and transliteration project mentioned in the source?	Devanagari (transliterated from Tirhuta).
220	Gotra: 'Bharadvaja'	Definition: One of the 20 Maithil Gotras, belonging to the Tri-pravara category with ancestors Bharadvaja, Angiras, and Barhaspatya.
221	Gotra: 'Vatsa'	Definition: One of the 20 Maithil Gotras, belonging to the Panch-pravara category with five distinct sage ancestors.
222	In the Panji system, if a person's name is recorded in the official registers, they are known as _____.	Panjibaddha.
223	Which Panji type is specifically used to verify the 'Sapinda' (shared blood/body) relationship?	Uderh Panji.
224	What historical event led to the creation of the 'Siddhanta Patra' requirement?	The realisation that people were forgetting their lineages, leading to unintentional prohibited marriages.
225	Maithil Brahmins of the 'Chandoga' (Samavedic) tradition must see which star after their wedding ceremony?	Arundhati (Tara).
226	The historical region of 'Mithila' is situated between the Himalayas and which river?	The Ganges (Ganga).
227	Which document is considered the 'Life Force' (Pranadhara) of the Tirhuta script?	The Panji Prabandh records.
228	According to the Panji, the Gotra 'Kashyapa' is associated with which three Pravara sages?	Kashyapa, Avatsara, and Naidhruva.
229	The Panji records identify how many sub-categories or grades among Shrotriya Brahmins?	Eight grades (including the 'Chauralla' system).
230	What is the 'Laukika' in the context of the Panji system?	The specific lineage records or titles associated with the Shrotriya category.
231	How many prohibited 'Chait' relations involve the maternal side of the bride?	Eight (from the \$9\$th to the \$16\$th 'Chait').
232	The Panji records are traditionally written on which material?	Palm leaves (Talpatra) or handmade paper (Basaha).
233	In what year was the Panji Prabandh (genealogy management system) of Mithila formally established?	1326 AD (Saka Era 1248).
234	Which ruler of the Karnata dynasty initiated the systematic recording of Maithil lineages?	Maharaja Harisimhaddeva.
235	What was the primary motive for creating the Panji system in Mithila?	To ensure caste purity and strictly follow marriage eligibility rules (avoiding prohibited relationships).

236	Who was the scholar appointed by Maharaja Harisimhadeva to manage the Panji for Maithil Brahmins?	Sadupadhyaya Gunaakar Jha.
237	Which social groups in Mithila originally maintained lineage records under the Panji Prabandh?	Brahmins, Kayasthas (Karn Kayastha), and Kshatriyas.
238	List the four hierarchical categories of Maithil Brahmins created through the Panji system.	Shrotriya, Yogya, Panjibaddh (Vamshaj), and Jaywar.
239	In Maithil Brahmin society, what defines the 'Jaywar' category?	Lineages that were not registered or indexed during the initial Panji Prabandh.
240	How many total 'Gotras' (clans) are identified within the Maithil Brahmin community?	20
241	Name the seven most prominent and populous Gotras among Maithil Brahmins.	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
242	What does the term 'Mula' represent in the context of the Panji system?	The original ancestral village or 'root' of a specific clan.
243	What is the total number of 'Mula Grams' (original villages) identified in the Panji records?	167
244	Define 'Beeji Purush' in Maithil genealogy.	The earliest known progenitor or 'seed' ancestor of a specific clan/lineage.
245	How many primary 'Mulas' (roots) were determined as the most significant during the 1326 AD classification?	34 (later expanded to 35).
246	In the Panji system, the term 'Pravara' refers to _____	The illustrious Vedic ancestors (Rishis) associated with a Gotra.
247	What is the difference between 'Tripravar' and 'Panchapravar' Gotras?	Tripravar Gotras have 3 designated Vedic ancestors, while Panchapravar have 5.
248	Which three Gotras are classified as 'Panchapravar'?	Vatsa, Savarna, and Bharv.
249	Why is marriage prohibited between individuals of the Vatsa and Savarna Gotras despite being distinct names?	They share the same Vedic ancestors (Pravaras).
250	Maithil Brahmins belong to which two primary Vedic branches (Shakhas)?	Yajurveda (Madhyandina branch) and Samaveda (Kauthuma branch).
251	Brahmins following the Madhyandina branch of the Yajurveda are known as _____	Vajasaneyi.
252	Brahmins following the Kauthuma branch of the Samaveda are known as _____	Chhandogya.
253	According to traditional Maithil marriage rules, how many generations must be excluded from the father's side?	7 generations (paternal side).
254	According to traditional Maithil marriage rules, how many generations must be excluded from the mother's side?	5 generations (maternal side).
255	Which historical figure modified the paternal exclusion rule to 6 generations for Maithil society?	Mahamaho-upadhyaya Maharaja Mahesh Thakur.
256	What is the 'Utedh' in Maithil genealogy?	A detailed pedigree chart checking 32 ancestral branches to verify marriage eligibility.
257	What is the function of a 'Panjekar'?	A specialist genealogist who maintains records and verifies if a couple is 'Asvajan' (unrelated) for marriage.
258	What is the 'Siddhant Patra' issued by a Panjekar?	A formal permit confirming that no prohibited degree of kinship (Sapinda) exists between a bride and groom.
259	The 16 specific ancestral positions that must be checked for prohibited matches are called _____	Chhaidht.
260	Under what condition is a match permitted if a 'Chhaidht' (prohibited ancestor) is shared?	If the shared ancestor appears in the groom's maternal line (Matru-paksh).
261	Which group of Brahmins is categorised as 'Panch-Gaud'?	Utkal, Kanyakubja, Gaud, Maithil, and Saraswat.
262	Which group of Brahmins is categorised as 'Panch-Dravid'?	Gurjar, Tailang, Dravid, Karnat, and Maharashtra.
263	What is the significance of the Vindhyachal Mountains in Brahmin classification?	They serve as the boundary between the Panch-Gaud (North) and Panch-Dravid (South) groups.
264	Which script was traditionally used to record the Panji manuscripts?	Tirhuta (Mithilakshar).
265	Term: 'Dushana Panji'	Definition: A record detailing 'flaws' or deviations from caste rules, such as irregular marriages, within a lineage.
266	What was the purpose of 'Sakha Panjis' introduced later by Maharaja Madhav Singh?	To provide more detailed branch records for different hierarchical sub-categories like Shrotriya.
267	What is a 'Laukik' in the Shrotriya Panji system?	The specific social standing or honorific status of a family based on its lineage history.
268	Which Chhandogya marriage ritual involves looking at the star Arundhati?	Uttar Vivah (performed after sunset).
269	How does the Panji system relate to modern 'Genome Mapping' in the author's theory?	It is viewed as an ancient, systematic method of tracking genetic heritage and biological lineage.
270	What is the 'Asapinda' rule in Hindu marriage law mentioned in the text?	The prohibition of marriage between individuals who share a common ancestor within a certain number of generations.
271	Which Maithil Brahmin category is often referred to as 'Jaywar'?	The general class of Brahmins who do not belong to the Shrotriya, Yogya, or Panjibaddh grades.

272	Who were the record-keepers for the Kshatriya clans in Mithila?	Vijayadatta and his descendants.
273	According to the text, what happened to the offspring of an 'irregular' marriage involving a non-Brahmin?	The lineage was documented in the 'Dushana Panji' to track the deviation from caste purity.
274	What is 'Samuha Lekhya'?	Collective written records of clan lineages, mentioned by Kumarila Bhatt in the 7th century.
275	Which Mula belongs to the 'Vatsa' Gotra and the village 'Karmahe'?	Karmahe.
276	In the Gotra 'Kashyapa', which Mula is associated with 'Mandi'?	Mandi.
277	Which Mula of the 'Shandilya' Gotra is associated with the 'Sarisab' lineage?	Sarisab.
278	The 'Panchapravar' list for the Vatsa Gotra includes Aurva, Chyavana, Bhargava, Jamadagnya, and _____	Apnuvana.
279	What was the role of the King of Mithila in the Panji system?	The King acted as the ultimate authority and protector of the Panji records and rules.
280	Why did Panjikars traditionally sun-dry the manuscripts during the month when the Sun enters Leo?	To preserve the palm leaves from moisture and pests using the intense heat of that season.
281	Term: 'Beeji'	Definition: The foundational ancestor of a specific 'Mula' (root) from whom the entire branch descends.
282	Which Panji type specifically records the names of female ancestors?	The Panjis of Mithila and Alariya (Maduat-Alariya).
283	How did regional migration affect the Maithil Brahmin identity according to the text?	It led to cultural variations in language, diet, and dress, leading to the classification of Brahmins by region (e.g., Maithil, Saraswat).
284	What is the 'Udhvardhi' division in Mithila?	A vertical division of Brahmins based on their specific Vedic Samhita (Vajasaneyi vs Chhandogya).
285	Identify the primary source of 'Dushana' (defects) mentioned in the 15th-20th examples.	Marriages or unions with individuals of 'Unknown' (Ajnaat) lineages or different castes.
286	Who was 'Modanand Jha' in the history of Panji Shastra?	A 20th-century scholar and Panjikar who received high academic titles for his mastery of lineage records.
287	The 'Utedh' system ensures that a person is not a _____ of their prospective spouse.	Sapinda (consanguineous relative).
288	What script is used in the modern digital documentation of Panji records as per the source?	Devanagari (for transliteration from the original Tirhuta).
289	In the context of the Panji, what does 'Transliteration' refer to?	The process of converting records from the ancient Tirhuta script to modern Devanagari script.
290	Which Gotra is associated with the 'Katyayana' lineage in Mithila?	Katyayana.
291	The Samavedi Brahmins of Mithila strictly follow the _____ branch (Shakha).	Kauthuma.
292	The Yajurvedi Brahmins of Mithila strictly follow the _____ branch (Shakha).	Madhyandina.
293	What is 'Vamshavali'?	A chronological family tree or lineage record.
294	According to the text, why is the Panji system considered 'Unique' (Advitiya)?	Because it contains a continuous and detailed record of thousands of families over nearly 700 to 1,000 years.
295	What was the 'Tantra Vartik's' view on lineage protection?	It stated that noble families protect their lineage with great effort through written group records (Samuha Lekhya).
296	Which Maithil Brahmin category is often described as 'Pachhwari-paat'?	The non-Shrotriya Brahmins (Yogya and Panjibaddh).
297	Which group is referred to as 'Pubari-paat'?	The Shrotriya Brahmins.
298	What is the primary purpose of the 'Panji Prabandh' in Mithila tradition?	To maintain caste purity and regulate marriage eligibility for Brahmins, Kayasthas, and Kshatriyas.
299	During which historical period was the 'Panji Prabandh' formally established?	The late medieval period, specifically around 1326 AD (Shaka 1248).
300	Who was the Karnat dynasty ruler responsible for formalising the Panji system?	Maharaja Harisinghdev.
301	Term: Udegh	The detailed introduction of 32 ancestors (maternal and paternal) required to verify marriage eligibility.
302	How many generations must be avoided for a marriage to be valid on the paternal side according to 'Shrotriya' rules?	Seven generations.
303	On the maternal side, how many generations must be avoided for a valid marriage in the Panji system?	Five generations.
304	What term is used for Maithil Brahmins who are not registered in the Panji records?	Jaibar.
305	Concept: Biji Purush	The earliest known ancestor from whom a specific lineage or 'Mool' originates.
306	How many 'Gotras' are identified among Maithil Brahmins in the Panji records?	20
307	Maithil Brahmins following the Yajurveda belong to the _____ branch.	Madhyandini (or Vajasaneyi).

308	What are the two main types of 'Pravara' families in the Maithil Brahmin community?	Tri-pravara (three ancestors) and Panch-pravara (five ancestors).
309	The 'Pravara' ancestors are defined as those who originally composed the _____.	Rigveda hymns (Suktas).
310	Which three Gotras are specifically classified as 'Panch-pravara'?	Vatsa, Savarna, and Bharadwaj (though the text also lists Arva).
311	The document issued by a Panjikar certifying that a couple is not 'Swajan' (related) is called a _____.	Siddhanta Patra (or Aswajan Patra).
312	What was the role of Pandit Gunakar Jha in the Panji system?	He was the first Panjikar appointed by Maharaja Harisinghdev to manage Brahmin records.
313	Who was appointed to manage the Panji records for the 'Karna Kayastha' community?	Shankardatt.
314	Term: Moolgram	The original village or ancestral home of a specific lineage.
315	According to the 'Pancha Gauda' classification, Mithila is one of the five Brahmin regions north of the _____.	Vindhyachal Mountains.
316	The classification of Maithil Brahmins into Shrotriya, Yogya, and Panjibaddha occurred during the reign of _____.	Maharaja Madhav Singh.
317	What is the primary difference in the 'Upanayana' (sacred thread) ceremony between Chhandog and Vajasaneyi Brahmins?	Chhandogs have four rituals (Name, Tonsure, Upanayana, Samavartan), while Vajasaneyis add Vedrambh.
318	In Chhandog tradition, when must the 'Uttara Vivah' (latter part of the wedding) take place?	After sunset, following the sighting of the star Arundhati.
319	The concept of 'Genome Mapping' in the text refers to the 1,500-year-old tradition of _____.	Panji Prabandh (genealogical record keeping).
320	What term is used for the 16 specific maternal/paternal nodes used to check marriage compatibility?	Chhatth.
321	Which philosopher's work, 'Tantra Vartik', is cited as an early reference for 'Samuh Lekhya' (lineage records)?	Kumarila Bhatta.
322	Why is marriage prohibited between members of the 'Vatsa' and 'Savarna' Gotras?	Because they share the same 'Biji' ancestors.
323	Term: Dushan Panji	A specific record used to document historical social or lineage 'defects' within a family tree.
324	How many 'Mools' (lineages) were initially identified in the records of Maithil Brahmins?	167
325	The 'Laukik' category of Panji records is primarily associated with the _____ hierarchy.	Shrotriya.
326	Under which conditions did 'Panji' records historically record marriages with other castes (e.g. 'Yavana' or 'Chamarkar')?	In the 'Dushan' or 'Upa-Panji' to track the resulting genealogical status of descendants.
327	How many 'Gotras' are considered 'super-eminent' or most populous in Maithil society?	Seven (Sandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, and Katyayan).
328	What is the significance of the 'Sapanpinda' rule in Hindu marriage law mentioned in the text?	It prohibits marriage between individuals who share common ancestors within defined generational limits.
329	The '1st Chhatth' refers to the lineage of the bride's _____.	Paternal Great-Great-Grandfather (Vridha Prapitamaha).
330	The '9th Chhatth' involves the lineage of the bride's _____.	Maternal Grandfather's Paternal Great-Grandfather.
331	Which branch of Brahmins is also known as 'Pachhwari Paanth'?	Non-Shrotriya Brahmins (Yogya and Panjibaddha).
332	What is the function of the 'Mool Panji'?	It provides a general record of all lineages and their ancestral origins.
333	Which Panji record details the specific branches that emerged from a main lineage?	Shakha Panji.
334	Concept: Siddhanta	The formal confirmation by a Panjikar that a proposed marriage does not violate scriptural or genealogical rules.
335	What is the '16th Chhatth' calculated from?	The Maternal Grandmother's Maternal Grandmother's father.
336	Maithil Brahmins are a sub-group of the larger _____ division of Indian Brahmins.	Pancha Gauda.
337	Why is the preservation of Panji books (palm leaves) advised against lion/sunlight damage in the text?	To protect the historical 'Genome Map' of the community for future generations.
338	Term: Sapanpinda Nirvritti	The point at which two families are far enough removed genealogically to allow marriage.
339	How does the text define a 'Shrotriya' Brahmin in the context of the Panji hierarchy?	The highest tier, characterised by strict adherence to rituals and genealogical purity.
340	The '20th Gotra' mentioned in the list is _____.	Jatukarna.
341	What is the historical significance of the year 1248 Shaka?	It marks the formal introduction of the Panji management system in Mithila.
342	Which professional is tasked with maintaining 'Genome Mapping' accuracy in the Panji system?	The Panjikar.
343	How does 'Tri-pravara' differ from 'Panch-pravara' regarding ancestors?	Tri-pravara claims three Vedic sage ancestors, while Panch-pravara claims five.
344	If a girl falls within the prohibited generations of a groom's paternal side, she is considered _____.	Swajan (a relative unsuitable for marriage).

345	The text compares the Panji system to modern _____ science.	Genetic/Genome Mapping.
346	What is the 'Udegh' of a groom compared to the bride's?	The groom also requires a 32-mool verification (his paternal and maternal lines) to ensure no overlap.
347	In the Maithil Panji, the 'Mool' identifies the clan, while the 'Moolgram' identifies the _____.	Ancestral village.
348	Which ancestor is the '13th Chhatth' based on?	The Maternal Grandmother's Paternal Great-Grandfather.
349	What historical reason does the text give for Brahmins becoming distinct based on regions (e.g. Maithil, Utkal)?	Regional differences in climate, language, diet, and local cultures over time.
350	What was the consequence of Pandit Harinath Upadhyay's accidental 'Swajan' marriage in the 14th century?	It triggered the formalisation of the Panji system to prevent such errors.
351	The 'Gotra' Sandilya is associated with which 'Pravara' sages?	Sandilya, Asit, and Deval.
352	Which branch of knowledge does the text claim the Panji system anticipated by centuries?	Chromosomal and genetic inheritance patterns.
353	How many primary 'Mools' are selected as 'Antya Shrestha' (Top Grade) in the Panji?	13 (e.g. Khadaure, Khauade, Bodhabade).
354	The 'Gotra' system in Mithila is _____ (paternal/maternal) in its descent pattern.	Patrilineal (Pitra-Pradhan).
355	Term: Aswajan Patra	A document proving a couple are not related, allowing a wedding to proceed.
356	How is the '6th Chhatth' calculated?	From the Paternal Father's Maternal Grandfather's Maternal Grandfather.
357	What is the 'Dushan' record's role in the 'Genome Mapping' process?	To prevent the 'pollution' of lineages by documenting where prohibited or non-caste marriages occurred.
358	Maithil Brahmins are divided into two Vedic groups: Samavedis and _____.	Yajurvedis.
359	The 'Shrotriya' group is divided into _____ (categories) in their Panji records.	Chaupala (or categories of hierarchy).
360	Which Gotra includes the sages Aurva, Chyavana, and Bhargava in its Pravara?	Vatsa (and Savarna).
361	A Panjekar verifies compatibility by checking _____ generations for the groom and bride.	Six paternal and five maternal.
362	The '10th Chhatth' refers to the bride's _____.	Great-Maternal Grandmother's Maternal Grandfather.
363	The formal collection of Panji records began on the Shaka date _____.	1248
364	Who was the 'Biji Purush' of the Simhashram lineage?	Mahamahopadhyaya Halayudha.
365	Which 'Mool' is famously associated with the poet Vidyapati?	Bishphi.
366	In the Panji logic, a marriage is prohibited if the bride is the _____ descendant of any of the 16 paternal/maternal nodes of the groom.	Sixth.
367	What happened to the Panji system for the Kshatriya (Rajput) community in Mithila?	It largely fell into disuse or became extinct over time, unlike the Brahmin records.
368	Term: Siddhanta Patra	The certificate of marriage permission issued by the royal Panjekar.
369	What is the significance of '167 Mools' in the text?	It represents the total number of distinct Brahmin lineages tracked in Mithila.
370	According to the text, 'Swajan' marriage results in progeny being considered _____.	Chandal (or socially excluded).
371	What is the primary purpose of the 'Panji Prabandha' system in Mithila?	To maintain genealogical records for ensuring caste purity and determining marriage eligibility.
372	Which three social groups were originally included in the Panji Prabandha system?	Brahmins, Kayasthas, and Kshatriyas.
373	According to the Panji system, what is the 'Uteh'?	A detailed introduction of 32 ancestors from both the paternal and maternal sides used to verify marriage eligibility.
374	In the Maithil Brahmin Panji system, how many generations must be avoided on the paternal side for a valid marriage?	Seven generations (often modified to six in later practice).
375	In the Maithil Brahmin Panji system, how many generations must be avoided on the maternal side for a valid marriage?	Five generations.
376	What are the four main social categories of Maithil Brahmins defined by the Panji records?	Shrotriya, Yogya, Panjibaddh, and Jaibar.
377	The term used for a Maithil Brahmin who is not registered in the formal Panji system is _____.	Jaibar
378	What is the total number of 'Gotras' identified within the Maithil Brahmin community?	20
379	Which two Vedic branches (Vedas) are primarily followed by Maithil Brahmins?	Yajurveda (Madhyandina Shakha) and Samaveda (Kauthuma Shakha).
380	Maithil Brahmins following the Samaveda are known as _____.	Chandoga

381	What is the total number of 'Mools' (original root villages) recorded in the Panji records?	167
382	Out of the 167 original villages, how many are considered 'Mukhya Mool' (primary roots)?	34 (later increased to 35 with the inclusion of the Khauwal branch of the Phandah mool).
383	Term: Bijipurush	Definition: The earliest known founding ancestor of a specific lineage or 'Mool'.
384	Which philosopher mentioned 'Samuha Lekhya' (group records) in the 7th Century to prove caste purity?	Kumarila Bhatta in his work 'Tantra Varttika'.
385	The formalisation of the Panji system occurred under which King of Mithila?	King Harisimhadeva of the Karnata dynasty.
386	In what year (AD) was the Panji Prabandha formally established following the assembly of scholars?	1326 AD (Saka 1248).
387	What historical event triggered King Harisimhadeva to formalise genealogical records?	The accidental marriage of the scholar Pandit Harinath Upadhyay to a close maternal relative.
388	Term: Panjekar	Definition: A state-appointed genealogist responsible for maintaining Panji records and verifying marriage eligibility.
389	What is the 'Siddhanta Patra' (or Aswajanya Patra)?	A formal certificate issued by a Panjekar confirming that the bride and groom are not prohibited relatives.
390	What are the two types of 'Pravaras' found among Maithil Brahmins?	Tri-pravara (three sage ancestors) and Panch-pravara (five sage ancestors).
391	Which specific ancestor is common to both the 'Vatsa' and 'Savarna' gotras, preventing marriage between them?	They share the same lineage of five sage ancestors (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana).
392	The list of 10 Brahmin divisions in India classifies Maithils under which broader category?	Panch-Gauda (the five northern groups).
393	Which geographical feature divides the 'Panch-Gauda' Brahmins from the 'Panch-Dravida' Brahmins?	The Vindhya mountain range.
394	How many 'Gotras' are found among the Karn Kayasthas of Mithila?	One (Kashyap).
395	The 16 prohibited genealogical positions for a bride are collectively known as ____.	Chhatth
396	If a bride's 'Chhatth' (prohibited ancestor) appears in the groom's ____ side, the marriage is prohibited.	Paternal (Pitripaksh)
397	If a bride's 'Chhatth' appears in the groom's ____ side, the marriage is permitted (after the 5th generation).	Maternal (Matripaksh)
398	What is 'Dushana Panji'?	A genealogical record that specifically tracks any flaws or historical transgressions in a family's lineage.
399	What is the difference between 'Mool' and 'Moolgram'?	Mool is the original ancestral village, while Moolgram is the specific village where the lineage resided during the Panji's formalisation.
400	Which Panjekar was initially appointed for the Brahmin community by King Harisimhadeva?	Gunaikar Jha.
401	Which Panjekar was initially appointed for the Karn Kayastha community?	Shankardatta.
402	Which Panjekar was initially appointed for the Kshatriya community?	Vijayadatta.
403	What is the significance of the month of 'Leo' (Sinha Rashi) for Panji preservation?	It is the recommended time to dry and air out the Panji manuscripts to protect them from moisture and pests.
404	The classification 'Pachhwari-paat' refers to which group of Maithil Brahmins?	The non-Shrotriya Brahmins (Yogya and Panjibaddh).
405	The classification 'Purbari-paat' refers to which group of Maithil Brahmins?	The Shrotriya Brahmins.
406	Which Sanskrit work provided the verse detailing the Saka year 1019 as the foundation for Nanyadeva's rule in Mithila?	The introductory verses of the Panji records.
407	Name one of the seven primary, most populous gotras of Maithil Brahmins.	Sandilya (others include Vatsa, Kashyap, Savarna, Parashara, Bharadwaj, and Katyayan).
408	According to the rule 'Matritah panchami, pitritah saptami', how many maternal generations must be avoided?	Five generations.
409	In the calculation of marriage eligibility, the bride must not be the daughter of the groom's ____.	Maternal uncle (Maima).
410	Who was the author of 'Smritisar', whose personal genealogical error led to the Panji reform?	Pandit Harinath Upadhyay.
411	Term: Shakha Panji	Definition: A specialized genealogical book documenting the branches and status changes of families, particularly Shrotriyas.
412	How many categories of Shrotriya Brahmins are currently identified in the records?	Eight (known as Chauwala or Chaurayil).
413	How many Shrotriya Panjis are currently in existence?	32
414	How many Panjis exist for the Yogya and Panjibaddh categories combined?	153

415	Concept: Adhogami	Definition: The downward social mobility of a lineage's status due to marriages into lower-ranked families.
416	In the list of 32 ancestral roots (Uteh), the 5th 'Chhatth' refers to the bride's _____.	Paternal grandmother's great-grandfather.
417	Which scripts were traditionally used to write the Panji records?	Tirhuta (Mithilakshar).
418	Why is the Savarna gotra prohibited from marrying into the Vatsa gotra?	Because they share identical 'Pravaras' (sage ancestors).
419	Which specific ancestor is the 'Bijipurush' of the Simhashram Mool?	Mahamahopadhyaya Halayudha.
420	The 10th 'Chhatth' in the genealogical search refers to the bride's _____.	Great-grandfather's maternal grandfather (Pramatamaha).
421	Under whose reign did the 'Shakha Panji' and the rigid hierarchy of Shrotriyas begin?	Maharaja Madhav Singh.
422	Which type of Panji record tracks historical 'Kshatran' or specific family status changes?	Dushana Panji.
423	The terminology 'Laukik' is primarily associated with which group's genealogy?	Shrotriya Brahmins.
424	What is the 'Aswajan-yapar' Panji?	A record detailing descendants from inter-caste or prohibited marriages.
425	In the context of Panji, what does 'Chhatth' literally mean in the calculation of prohibited degrees?	The sixth position/generation in a specific genealogical line.
426	Which Sanskrit work is cited to define the Sapinda relationship as 'five from the mother and seven from the father'?	Manusmriti.
427	The Panji records identify Maithils following the Vajasaneyi branch as followers of which Veda?	Yajurveda.
428	Which specific scholar's lineage is traced back to Tripurari Bhatta (c. 400 AD) in the Panji records?	Aryabhata.
429	The primary duty of a Panjekar before a marriage is to verify that the couple are _____.	Asapinda (not related within prohibited degrees).
430	In what year was the Panji Prabandh system established in Mithila according to the source?	\$1326\$ AD (Saka \$1248\$).
431	Which Karnata dynasty ruler is credited with the formalisation of the Maithil Panji system?	Maharaja Harisimhadeva.
432	The Maithil Panji system was primarily created to maintain the purity of which three castes?	Brahmin, Kayastha, and Kshatriya.
433	What is the term for the introduction of seven generations of ancestors required for marriage eligibility?	Udhedh.
434	According to the Panji system, how many maternal ancestors must be introduced for an 'Udhedh'?	Five generations.
435	According to the Panji system, how many paternal ancestors must be introduced for an 'Udhedh'?	Seven generations.
436	Which Maithil Brahmin group is designated as 'Jaywar'?	Those who were not registered in the formal Panji records.
437	In the modern Panji system, what is the required generation gap to be discarded on the father's side for marriage?	Seven generations (modified to six in later practices).
438	In the modern Panji system, what is the required generation gap to be discarded on the mother's side for marriage?	Five generations.
439	The Maithil Brahmins are divided into how many 'Mools' (original ancestral villages)?	\$167\$ Mools.
440	How many main 'Gotras' are listed for Maithil Brahmins in total?	\$20\$ Gotras.
441	Identify the two main Vedic branches (Shakhas) followed by Maithil Brahmins.	Yajurveda (Madhyandina) and Samaveda (Kauthuma).
442	Followers of the Samaveda Kauthuma branch are specifically referred to as _____.	Chhandog.
443	Followers of the Yajurveda Madhyandina branch are specifically referred to as _____.	Vajasaneyi.
444	What is the primary difference in the marriage ceremony of Chhandog Maithil Brahmins compared to others?	It is divided into two parts: Purva-Vivah and Uttar-Vivah (after seeing the star Arundhati).
445	What defines a 'Tri-pravara' family in the Maithil Brahmin tradition?	They have three ancestors who composed Rigvedic hymns.
446	What defines a 'Panch-pravara' family in the Maithil Brahmin tradition?	They have five ancestors who composed Rigvedic hymns.
447	Which two Gotras are forbidden from intermarrying because they share the same ancestors?	Vatsa and Savarna.
448	Who was the scholar whose 'Smritisara' text highlighted the danger of unintentional incestuous marriage, leading to the Panji system?	Pandit Harinath Upadhyaya.
449	The professional genealogist appointed by the King to maintain lineage records is known as a _____.	Panjekar.

450	Which individual was first tasked by King Harisimhadeva to manage the Brahmin Panji records?	Gunakar Jha.
451	Which individual was first tasked by King Harisimhadeva to manage the Karna Kayastha Panji records?	Shankardatta.
452	Which individual was first tasked by King Harisimhadeva to manage the Kshatriya Panji records?	Vijaydatta.
453	Identify the four social hierarchical categories of Maithil Brahmins created after the Panji management by Maharaja Madhav Singh.	Shrotriya, Yogya, Panjibaddh, and Jaywar.
454	The 'Panch-Gaud' classification includes Brahmins from Utkal, Kanyakubja, Gauda, Saraswat, and _____.	Maithil.
455	In the Panji system, what does 'Biji Purush' represent?	The earliest known progenitor or ancestor of a specific lineage.
456	Concept: Chhatwidh	Definition: Sixteen specific ancestral connections (e.g. Great-grandfather's maternal grandfather) checked to ensure marriage eligibility.
457	According to the source, why is the Panji system compared to 'Genome Mapping'?	Because it scientifically tracks genetic lineage to prevent consanguinity (inbreeding).
458	What is the script traditionally used to write the Panji records?	Tirhuta (Mithilakshar).
459	Which philosopher mentioned 'Samuha-lekhya' (group records) in his 'Tantravartika' as a precursor to lineage tracking?	Kumarila Bhatta.
460	How many ancestors are included in the 'Yavro Parichay' (thirty-two Mools introduction) during marriage rituals?	Thirty-two.
461	The practice of 'Dushan Panji' involves recording what type of information?	The faults or 'kshat' (blemishes) that occurred in a lineage over time.
462	Which Maithil King initiated the 'Shakha Panji' (branch records) which led to further social stratification?	Maharaja Madhav Singh.
463	In the Karna Kayastha community, how many Gotras exist?	Only one (Kashyap).
464	According to the rules of 'Sapinda', a marriage is generally avoided if the bride is within _____ generations of the groom's mother.	Five generations.
465	The specific village where a 'Biji Purush' originally resided is called the _____.	Moolgram.
466	What is the status of the Panji system in the Maithil Rajput (Kshatriya) community today according to the source?	It has largely disappeared, though some rules regarding village avoidance remain.
467	The term 'Asvajana Patra' is a synonym for which other document?	Siddhanta Patra.
468	According to the mnemonic 'Jalat Rakshet, Tailat Rakshet', what should the Panji manuscripts be protected from?	Water, oil, and loose binding.
469	During which solar month is it recommended to dry Panji manuscripts in the sun to prevent decay?	When the sun is in the sign of Leo (mid-August to mid-September).
470	Which Gotra is associated with the 'Khandabala' Mool, from which the Kings of Darbhanga emerged?	Shandilya.
471	What was the significance of the year \$450\$ AD in the 'Panji Theory Merged' text?	It marks the earliest ancestral starting point for the lineage data contained in the records.
472	Which social class of Maithil Brahmins is traditionally referred to as 'Pachhwari Paat'?	Non-Shrotriya Brahmins (Yogya and Panjibaddh).
473	Which social class of Maithil Brahmins is traditionally referred to as 'Pubari Paat'?	Shrotriya Brahmins.
474	The classification of Brahmins into ten types (Five Gauda, Five Dravida) was formalised at which geographical boundary?	The Vindhya Mountains.
475	A marriage resulting in a 'Chandala' child is defined in Smritis as a marriage with a _____.	Swajana (closely related relative).
476	Which deity or sage's name is often identical to the name of a 'Gotra' in Maithil tradition?	The ancient Rishi who founded the lineage.
477	The first 'Chhatwidh' ancestor to be checked for a bride is her _____.	Paternal Great-great-grandfather.
478	What is the title of the work by Jyotirishwar Thakur that mentions King Harisimhadeva?	Varna Ratnakar.
479	What is the purpose of 'Utekt' in the context of marriage?	It is a list of potential grooms for a girl, verified by the Panjekar \$5\$-\$10\$ years before marriage.
480	Identify the primary ethical concern raised by the author regarding modern Panjikers.	The commercialisation of the profession and charging excessive fees for services.
481	According to the text, the Panji system was a 'scientific basis' for what specific type of introduction?	Vamshavali (Genealogical) identity.
482	What was the primary purpose of the 'Panji Prabandh' (genealogical management) system when it was created in the medieval period?	To ensure 'Jati Shuddhita' (caste purity) for Brahmins, Kayasthas, and Kshatriyas.

483	The Panji system requires an introduction of how many generations for a Brahmin marriage candidate, a process known as 'Uterh'?	Seven generations.
484	To establish an individual's 'Uterh', how many specific family backgrounds (Kula) must be introduced?	Thirty-two.
485	Into which three primary categories are Maithil Brahmins divided according to the Panji system?	Srotriya, Yogya, and Panjibaddh.
486	What term is used to describe individuals who were not registered in the Panji records?	Jaywar.
487	In the Srotriya category, how many maternal generations must be avoided for a marriage to be permissible?	Five generations.
488	In the Srotriya category, how many paternal generations must be avoided for a valid marriage?	Seven generations.
489	For the 'Panjibaddh' category, how many paternal generations must be avoided in a marriage union?	Six generations.
490	How many 'Gotras' (lineages) are recorded within the Maithil Brahmin community?	Twenty.
491	How many 'Mula Grams' (original ancestral villages) were initially identified in the Panji records?	One hundred and sixty-seven.
492	How many primary 'Mulas' (roots) were determined out of the total 167?	Thirty-four (later thirty-five with the addition of the 'Khama' branch).
493	Based on Vedic rituals, Maithil Brahmins are divided into which two groups?	Chhandog (Samavedic) and Vajasaneyi (Yajurvedic).
494	According to the Puranas, the ten divisions of Brahmins are broadly categorised as 'Pancha Gaur' and _____.	Pancha Dravid.
495	Which geographical feature serves as the dividing line between the Pancha Gaur and Pancha Dravid Brahmins?	The Vindhyaachal Mountains.
496	Maithil Brahmins belong to which of the two broad Puranic groups of Indian Brahmins?	Pancha Gaur.
497	Vajasaneyi Brahmins follow which branch of the Yajurveda?	The Madhyandina branch.
498	Chhandog Brahmins follow which branch of the Samaveda?	The Kauthum branch.
499	In Chhandog marriages, when must the 'Uttar Vivah' (latter marriage) ideally take place?	After sunset, following the sighting of the star Arundhati.
500	According to the texts of Manu and Yajnavalkya, a marriage is forbidden if the bride is a 'Sapinda' of which two relatives?	The mother and the father.
501	What is the 'Samuha Lekhya', first mentioned by Kumarila Bhatta in 'Tantra Vartik'?	A written family record used to protect lineage and track virtues or defects.
502	What historical event in 1326 AD (Shaka 1248) led to the formal institutionalisation of the Panji records?	The decision by King Harisimhadeva to standardise genealogical records under state-appointed Pandits.
503	What is the title of a state-appointed Pandit authorised to verify marriage eligibility in Mithila?	Panjikar.
504	What is the 'Siddhanta Patra' (or Aswajanaya Patra) in the context of Maithil marriage?	A certificate of eligibility issued by a Panjikar confirming the bride and groom are not closely related.
505	In the Panji system, what does the term 'Beeji Purush' represent?	The earliest known ancestor or founder of a specific lineage/Kula.
506	The 'Mandav' village is the original home of a major Kula in which Gotra?	Kashyap.
507	In the Maithil Brahmin context, what does a 'Gotra' signify?	The name of a remote, learned ancestor (Rishi) from whom the family descends paternally.
508	Which seven Gotras are considered most prominent and populous among Maithil Brahmins?	Shandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, and Katyayan.
509	What is a 'Pravara'?	A list of distinguished Vedic ancestors (Rishis) associated with a specific Gotra.
510	How are 'Tri-pravara' and 'Panch-pravara' lineages distinguished?	By whether three or five of their ancestors composed hymns (Suktams) for the Rigveda.
511	Marriage is prohibited between the Vatsa and Savarna Gotras because they share what commonality?	They share the same ancestors (lineage).
512	Who was the first person assigned by King Harisimhadeva to manage the Brahmin Panji records?	Gunakar Jha.
513	Who was the first person assigned to manage the Karna Kayastha Panji records?	Shankardatta.
514	Who was the first person assigned to manage the Kshatriya Panji records under King Harisimhadeva?	Vijaydatta.
515	Which Maithil King introduced 'Shakha Panji' and the hierarchy of Srotriya classification?	Maharaja Madhav Singh.
516	What single Gotra is found among the Karna Kayastha community?	Kashyap.
517	The term 'Pubaripara' refers to which class of Maithil Brahmins?	Srotriyas.

518	The term 'Pachhbaripara' refers to which class of Maithil Brahmins?	The remaining Brahmins (Yogya, Panjibaddh, etc.) excluding Srotriyas.
519	According to the Panji preservation rule, from what three things must a Panji book be protected?	Water, oil, and loose binding.
520	What is 'Adhikar Mala'?	A list of potential eligible grooms prepared by a Panjekar for a bride's father years before marriage.
521	How many specific 'Chhatth' (genealogical relationship nodes) are checked to determine marriage eligibility?	Sixteen.
522	In the Panji system, what is the 'Dushan Panji' used for?	To record any flaws or 'Kshayan' (decay) that occurred in a specific lineage.
523	Term: Sapinda	Definition: Blood relatives sharing the same body particles, within specified generational limits for marriage exclusion.
524	Marriage is prohibited if the groom is a descendant of the bride's maternal ____.	Uncle (Mama).
525	Which Pandit of the Pandua Mula was the very first 'Panji Prabandhak' appointed by the King?	Ratnakar Jha.
526	In the Panji script, what is the 'Tirhuta' script?	The traditional script of Mithila in which Panji records were historically maintained.
527	Concept: Mula Panji	Definition: The original records containing the comprehensive genealogical data of all families within a group.
528	Which Puranic list identifies Utkal, Kanyakubja, Gauda, Maithil, and Saraswat as the ____ Gaur group?	Pancha.
529	Which Puranic list identifies Karnat, Gurjar, Tailang, Dravid, and Maharashtra as the ____ Dravid group?	Pancha.
530	In 'Uterh' calculations, the 1st 'Chhatth' refers to the bride's ____.	Vridhdha Prapitamaha (Great-great-grandfather).
531	The 2nd 'Chhatth' in marriage eligibility refers to the bride's ____.	Prapitamaha's Matamaha (Great-grandfather's maternal grandfather).
532	According to the rules of Sapinda, how many generations are avoided in the maternal line in the Smritis?	Five generations.
533	According to the Smritis, how many generations are avoided in the paternal line?	Seven generations.
534	If a bride belongs to any of the 16 Chhatth nodes of the groom's paternal side, the marriage is ____.	Prohibited (Invalid).
535	If a bride belongs to a Chhatth node on the groom's maternal side, is the marriage generally permitted?	Yes, it is often considered permissible ('Adhikar ho jayet').
536	Which famous Maithil scholar and king-priest is mentioned as having a lineage detailed over 19 generations in the Panji?	Mahamahopadhyaya Mahesh Thakur.
537	The Panji records for the Karna Kayastha community differ from Brahmins because they primarily use ____ for Uterh.	Mula (Roots) instead of Gotra.
538	In Panji preservation, which month is considered best for sun-drying the manuscripts due to intense heat?	Bhadrapada (approx. 16 August to 15 September).
539	A marriage where the couple shares the same Gotra or Pravara is considered ____.	Ashastriya (against scriptures) and prohibited.
540	What is the status of a child born from a 'Swajana' (related) marriage according to ancient Smritis?	They were historically considered 'Chandal' and excluded from Aryan dignity.
541	Which Vedic sage's hymns are associated with the 'Shandilya' Gotra for Pravara patha?	Shandilya, Asit, and Deval.
542	The Vatsa Gotra includes which five Rishis in its Panch-pravara?	Aurva, Chyavan, Bhargava, Jamadagnya, and Apnavan.
543	The Bharadwaj Gotra includes which three Rishis in its Tri-pravara?	Bharadwaj, Angiras, and Barhaspatya.
544	Which Panji type specifically tracks the maternal grandfather's root and village for the groom?	Pan Panji.
545	The 'Khama' branch of the Phandah Mula is notable for what historical reason?	It was established as the 35th Mula for a high lineage in a later period.
546	What historical source provides descriptions of 72 Rajput clans, some of which also used Panji records?	Varna-Ratnakar by Jyotirishwar Thakur.
547	Historically, which three social classes in Mithila maintained Panji records?	Brahmin, Kayastha, and Kshatriya.
548	Which Maithil scholar of the 18th generation from Gunakar Jha was awarded the title 'Panji Shastra Martand'?	Modanand Jha.
549	The 'Laukik' system is specifically associated with the Panjis of which group?	Srotriya Brahmins.
550	How many 'Chauvala' (classes) exist within the Srotriya Panji hierarchy?	Eight.
551	What is a 'Beeji Purush'?	The founder-ancestor from whom all branches of a Mula originate.
552	The 'Mula Gram' represents the ____ of a particular family branch.	Original ancestral residence.

553	In the Panji system, the term 'Ayanstha Shreshtha' refers to which category of roots?	The first/top category of ancestral roots.
554	Identify one root (Mula) from the 'Madhyam Mula' (middle category).	Dighway (or Belaunch, Ekahate, Panchobhe, etc.).
555	The 'Kauthum' branch belongs to which Veda?	Samaveda.
556	Which Veda's followers are called 'Vajasaneyi'?	Yajurveda.
557	According to the Panji theory, 'Jati' is determined by what factor?	Purity of birth (Janma-shuddhita).
558	Which historical work by Jyotirishwar mentions the existence of Panjis for the 'Ran-dhariya' Rajputs?	Varna-Ratnakar.
559	What is the meaning of 'Asanpinda' in the context of marriage?	A person who does not share a common ancestor within the forbidden generational range.
560	If a Panjkar finds a lineage flaw in the groom's family, in which Panji is this recorded?	Dushan Panji.
561	Which three social groups were originally included in the Panji Prabandh during the medieval period?	Brahmins, Kayasthas, and Kshatriyas.
562	In the context of Maithil genealogy, what does the term 'Uderh' refer to?	The introduction or identification of seven generations of ancestors.
563	How many total ancestral lines (Kulas) are required for a complete 'Uderh' identification?	Thirty-two.
564	Into which three hierarchical categories were Maithil Brahmins divided following the Panji registration?	Shrotriya, Yogya, and Panjibaddh.
565	What was the status of Brahmins who were not registered in the official Panji records?	They were known as Jaibar.
566	According to the Shrotriya tradition, how many generations must be avoided on the mother's side for marriage?	Five generations.
567	According to the Shrotriya tradition, how many generations must be avoided on the father's side for marriage?	Seven generations.
568	How many distinct 'Gotras' are recognized among Maithil Brahmins?	Twenty.
569	How many 'Moolgrams' (ancestral villages) were identified during the initial Panji Prabandh?	One hundred and sixty-seven.
570	In the Maithil Panji system, what is a 'Biji Purush'?	The earliest known progenitor or founding ancestor of a specific lineage (Kula).
571	Which Maithil Brahmin Gotras are classified as 'Panch-pravara' (having five ancestors who composed Vedic hymns)?	Vatsa, Savarna, and Bharadwaj (though Bharadwaj is often Tri-pravara, text notes Vatsa, Savarna, and Bharv as Panch-pravara).
572	What distinguishes a 'Tri-pravara' Gotra from a 'Panch-pravara' Gotra?	Tri-pravara identifies three sage ancestors, while Panch-pravara identifies five.
573	Why is marriage prohibited between the Vatsa and Savarna Gotras despite being distinct?	They share the same common ancestors.
574	Maithil Brahmins belong to which broader classification of Indian Brahmins?	Panch Gaur.
575	What geographical feature serves as the boundary between the 'Panch Gaur' and 'Panch Dravid' Brahmin groups?	The Vindhyachal Mountains.
576	Maithil Brahmins follow which two specific Vedas?	Yajurveda and Samaveda.
577	Followers of the Madhyandini branch of the Yajurveda are known as _____.	Vajasaneyi.
578	Followers of the Kauthuma branch of the Samaveda are known as _____.	Chandoga.
579	Which historical King of Mithila is credited with formalising the Panji system in 1326 AD?	Maharaja Harisimhadeva.
580	What specific incident involving Pundit Harinath Upadhyaya led to the systematisation of Panji records?	He inadvertently married a girl who was his first cousin (maternal uncle's daughter).
581	What is the official title of the scholars appointed by the state to maintain and verify genealogical records?	Panjkar.
582	What is a 'Siddhanta Patra' (also known as Asvajana Patra)?	A document issued by a Panjkar certifying that a couple is not related and is eligible to marry.
583	In Maithil genealogy, what is the difference between a 'Mool' and a 'Moolgram'?	Mool is the original lineage name, while Moolgram is the specific village associated with that lineage.
584	The first 'Panjkar' appointed for the Brahmin community by King Harisimhadeva was _____.	Gunakar Jha.
585	Who was appointed as the first Panjkar for the Karna Kayastha community?	Shankaradatta.
586	Under which ruler did the 'Shakha Panji' (branch records) begin to create finer sub-divisions like Shrotriya?	Maharaja Madhav Singh.
587	What does 'Dushan Panji' record?	The flaws or social transgressions associated with specific lineages.
588	The 'Chhavith' rule in Mithila marriage eligibility refers to checking _____ specific ancestral lines of the bride and groom.	Sixteen.

589	How many generations are avoided for marriage on the father's side in the 'Panjibaddh' category?	Six generations.
590	Term: Svajana	Definition: A term used for relatives within the prohibited degrees of marriage; marrying a Svajana was historically considered a major transgression.
591	Which script was traditionally used to write and preserve the Panji records?	Tirhuta (Mithilakshar).
592	How many primary 'Mools' were determined to be of the highest rank (Ayanti Shrestha)?	Thirteen.
593	Process: Marriage Eligibility	Step: Verify that the bride and groom do not share the same Gotra or Pravara.
594	Which religious text serves as the foundation for the marriage rules used in the Panji system?	Dharmashastras (specifically Smritis like Manu and Yajnavalkya).
595	What is the significance of the 15th-century philosopher Kumarila Bhatta in Panji history?	He mentioned 'Samuha Lekhya', an early form of collective lineage records.
596	According to the text, which month is considered ideal for drying and preserving Panji manuscripts?	Bhadrapada (when the Sun is in Leo), due to the intense heat.
597	Concept: Samreydi Brahmins	Attribute: They are the followers of the Samaveda and are also called Chandogas.
598	Concept: Sukla Yajurvedi Brahmins	Attribute: They are the followers of the Yajurveda and are also called Vajasaneyis.
599	How does the Upanayana (thread ceremony) of a Chandoga differ from a Vajasaneyi?	Chandogas have four specific samskaras (naming, tonsure, initiation, graduation), while Vajasaneyis include Vedarambha (starting Vedic study).
600	What is the major difference in marriage rituals between Chandoga and Vajasaneyi Brahmins?	Chandoga marriages are divided into two parts (Purva and Uttara), whereas Vajasaneyi marriages are performed in a single sequence.
601	In the Panji system, what is the 'Uteht' of a groom?	The detailed genealogical record of the groom's 32 ancestral lines used to check marriage eligibility.
602	According to the rules of 'Chhavith', a groom's mother's side must be clear of the bride's line for at least _____ generations.	Five.
603	The term 'Pachhwari Paith' is used to refer to which group of Maithil Brahmins?	The Non-Shrotriya Brahmins (Yogya and Panjibaddh).
604	What is the 'Laukik' in the context of Shrotriya Panji?	The specific village-based social identity or 'branch' within the Shrotriya hierarchy.
605	Which Gotra has the highest number of branches (seventy-four) mentioned in the text?	Kashyap.
606	According to the text, what is the status of a child born from a 'Svajana' (prohibited) marriage?	The child was historically considered a 'Chandal' and excluded from Aryan social limits.
607	Which specific Gotra is the only one found among Karna Kayasthas, according to the Panji records?	Kashyap.
608	The 'Panch Gaur' category includes Saraswat, Kanyakubja, Gaur, Maithil, and _____ Brahmins.	Utkal.
609	The 'Panch Dravid' category includes Karnat, Gurjar, Tailang, Dravid, and _____ Brahmins.	Maharashtriya.
610	Who was the legendary scholar known for the 'Smritisara' whose marriage mistake triggered the formalisation of Panji?	Pundit Harinath Upadhyaya.
611	In Panji terminology, what does 'Panjibaddh' literally mean?	One whose name and lineage are officially entered into the Panji records.
612	Which category of 'Mool' includes Dighve, Belaonchai, and Ekahate?	Madhyam Mool (Medium Mools).
613	A marriage is prohibited if the bride is the daughter of the groom's _____.	Maternal uncle (mother's brother).
614	What is the primary function of the 'Siddhanta' ceremony in Maithil Brahmin culture?	The public verification of genealogical eligibility before a marriage is finalised.
615	Which historical figure is described as the 'Karnat Chudamani' (Jewel of the Karnat dynasty)?	Maharaja Harisimhadeva.
616	What is the 'Adhikar Mala' in the Panji system?	A list of potential eligible grooms prepared for a girl several years before her marriage.
617	How many hierarchical 'Chauras' (categories) exist within the Shrotriya Panji?	Eight.
618	In the Panji system, why is the record of 'Dushan' (flaws) maintained?	To ensure that future generations remain aware of ancestral lapses and avoid their consequences.
619	Which ruler is credited with the formal systematisation of the Panji Prabandh in Mithila in 1326 AD?	Maharaja Harisimhadeva.
620	What event served as the primary catalyst for King Harisimhadeva to formalise genealogical records?	Pandit Harinath Upadhyay accidentally married his first cousin due to a lack of recorded family history.
621	Term: Uderh	Definition: The genealogical pedigree consisting of 32 ancestral lines required to verify marriage eligibility.

622	The formalisation of the Panji system in Mithila took place in the year \$1248\$ of which era?	The Shaka Era (corresponding to \$1326\$ AD).
623	What is the status of a child born from a 'Swa-jana' marriage (marriage within prohibited degrees)?	The child is traditionally considered a 'Chandala' and the family loses its social dignity.
624	Maithil Brahmins primarily belong to which of the five northern Brahmin groups?	The Panch-Gaur group.
625	Which mountain range serves as the traditional geographic boundary between the Panch-Gaur and Panch-Dravida Brahmins?	The Vindhychal mountains.
626	How many distinct Gotras are traditionally recognised within the Maithil Brahmin community?	\$20\$.
627	Term: Mula-gram	Definition: The original ancestral village or home of a family lineage as recorded in the Panji.
628	In the Panji system, what is a 'Biji Purush'?	The earliest known founding ancestor from whom a specific family line is traced.
629	What distinguishes a 'Tri-pravar' Gotra from a 'Panch-pravar' Gotra?	A Tri-pravar has three Rigvedic hymn-composing ancestors, while a Panch-pravar has five.
630	Why are marriages between members of the Vatsa and Savarna Gotras prohibited?	They share the same set of five ancestors (Panch-pravars), making them effectively the same lineage.
631	The Panji records identify a person's pedigree by tracing how many total ancestral roots?	\$32\$.
632	Term: Chhath	Definition: The sixteen specific positions in the maternal and paternal lines used to determine 'Sapiá'ṛá,a' (prohibited relationship) status.
633	According to the Smritis followed in the Panji system, how many generations of paternal ancestry are usually prohibited for marriage?	Seven generations (though sometimes modified to six).
634	How many generations must be clear of a common ancestor on the maternal side for a Maithil marriage to be permitted?	Five generations.
635	What is the function of a 'Siddhant' or 'Aswajana-patra'?	It is a certificate issued by a Panjekar confirming that the bride and groom are not related within prohibited degrees.
636	Which scholar was appointed by King Harisimhadeva as the first official Panjekar for the Brahmin community?	Gunakar Jha of Pandua Mula.
637	Who was the first scholar appointed to maintain the Panji records for the Karna Kayastha community?	Shankardutt.
638	Which group of Kshatriyas in Mithila is specifically mentioned as having historically maintained Panji records?	The Gandhavariya Rajputs.
639	How many original 'Mula' (root villages) were initially identified for the Brahmin community during the Panji Prabandh?	\$167\$.
640	Maithil Brahmins who follow the Madhyandini Shakha of the Shukla Yajurveda are known as _____.	Vajasaneyis.
641	Maithil Brahmins who follow the Kauthuma branch of the Samaveda are known as _____.	Chhandogyas.
642	What is the primary script used to maintain traditional Panji genealogical records?	Tirhuta (also known as Mithilakshar).
643	According to the traditional verse, what are the three hazards Panji manuscripts must be protected from?	Water, oil, and loose binding.
644	During which solar month should Panji manuscripts be dried in the sun for preservation?	When the Sun is in Leo (Sinha Rashi), typically mid-August to mid-September.
645	Which 7th-century philosopher first mentioned 'Samuh Lekhya' (collective genealogical records) in the work 'Tantravartika'?	Kumarila Bhatta.
646	How many Gotras are recognised among the Karna Kayasthas of Mithila?	One (Kashyap).
647	What hierarchical classification was introduced to the Panji system under Maharaja Madhav Singh (c. \$1760\$ AD)?	The classification into Shrotriya, Yogya, and Panjibaddha categories.
648	What is the primary ritual difference between Chhandogya and Vajasaneyi weddings in Mithila?	Chhandogyas must perform the Uttar-Vivah ceremony after sunset after sighting the star Arundhati.
649	Marriage is strictly prohibited with the offspring of which maternal relative?	The maternal uncle (MÄma).
650	Under the Panji rules, why is a person forbidden from marrying the child of their step-mother's brother?	They are considered a 'Swa-jana' (self-kin) relative under Smriti law.
651	What does the term 'Pachhwari' refer to in the context of Maithil Brahmin geography?	The group of Brahmins traditionally residing in the western part of the region.
652	How many Shrotriya Panjis are traditionally recognized?	\$32\$.
653	Term: Jaibar	Definition: Brahmins whose ancestors were not recorded in the initial Panji registers but are part of the broader community.
654	The 'Genome Mapping' mentioned in the source title is a modern pedagogical comparison for which traditional system?	The Panji Prabandh (Genealogical System) of Mithila.
655	Which two ancient Smriti texts are the primary authorities for the marriage laws within the Panji system?	Manu Smriti and Yajnavalkya Smriti.

656	What is the traditional name for the certificates confirming that a bride and groom do not share a prohibited common ancestor?	Siddhant Patra.
657	Which solar month is considered to have the most intense heat ('Kardav') suitable for drying Panji palm leaves?	Sinha (Leo).
658	Concept: Tri-pravar Gotras	Example: Sandilya, Kashyap, and Parashar are examples of Gotras with three hymn-composing ancestors.
659	Concept: Panch-pravar Gotras	Example: Vatsa, Savarna, and Bhardwaj (in some contexts) are examples of Gotras with five hymn-composing ancestors.
660	Which specific branch of the Shukla Yajurveda is followed by the Vajasaneyi Brahmins of Mithila?	The Madhyandini Shakha.
661	The 10th-century division of Indian Brahmins into ten groups is categorized into which two major five-group blocks?	Panch-Gaur and Panch-Dravida.
662	Which historical ruler is associated with the Shaka year \$1019\$ in the preface of the Panji records?	King Nanyadeva.
663	Term: Laukik	Definition: The specific lineage or sub-group identifier used within the Shrotriya Panji records.
664	What is the duty of a Panjikaar towards the future of the genealogical profession?	To train disciples (shishyas) to ensure the Tirhuta script and genealogical knowledge do not go extinct.
665	According to the source, why did separate Brahmin cultures emerge in regions like Mithila or Gaur?	Due to regional differences in climate, language, diet, attire, and geographic isolation.
666	What is the total number of Panjis dedicated to the Yogya and Panjibaddha classes?	\$153\$.
667	The ancient Videha dynasty was centered in which geographical region?	Mithila.
668	Who is credited with the systematic organisation of the 'Panji Prabandh' in Mithila?	Maharaja Harisimhadeva.
669	In what year was the 'Panji Prabandh' established according to the Shaka calendar?	\$1248\$ Shaka (approximately \$1326\$ AD).
670	What was the primary social objective of establishing the Panji system?	To maintain 'Jati Shuddhi' (caste purity) and record authentic lineages for marriage.
671	In Maithil Brahmin genealogy, what does the term 'Udedh' signify?	The detailed introduction and identification of \$32\$ ancestors.
672	According to the marriage laws recorded, how many generations must be avoided on the paternal side?	Seven generations.
673	According to the marriage laws recorded, how many generations must be avoided on the maternal side?	Five generations.
674	What are the three main hierarchical tiers of Maithil Brahmins established by the Panji system?	Shrotriya, Yogya, and Panjibaddha.
675	What term is used for Brahmins who were not registered in the formal Panji system?	Jaibar.
676	How many total 'Gotras' are recognised within the Maithil Brahmin community?	\$20\$ Gotras.
677	What is a 'Biji Purusha' in the context of Panji genealogy?	The earliest known progenitor or founding ancestor of a specific lineage.
678	How many 'Mula Grams' (root villages) were initially identified in the system?	\$167\$ Mula Grams.
679	Identify the \$35\$th Mula added later to the high-lineage group.	The 'Kharaunm' branch of the 'Phandah' Mula.
680	What defines a 'Tri-pravara' Gotra?	A lineage where three ancestors are credited with composing Rigvedic hymns.
681	What defines a 'Pancha-pravara' Gotra?	A lineage where five ancestors are credited with composing Rigvedic hymns.
682	Why is marriage prohibited between the Vatsa and Savarna Gotras?	Because they share the same set of five 'Pravara' ancestors.
683	Which specific branch of the Yajurveda do the 'Vajasaneyi' Brahmins follow?	The Madhyandina branch.
684	Which specific branch of the Samaveda do the 'Chandoga' Brahmins follow?	The Kauthuma branch.
685	Who was appointed by King Harisimhadeva to manage the records of the Brahmins?	Pandit Gunakar Jha.
686	Who was the first registrar (Panjikaar) appointed for the Karna Kayasthas?	Shankardatta.
687	Who was the first registrar (Panjikaar) appointed for the Kshatriya community?	Vijayadatta.
688	What is a 'Siddhanta Patra'?	A formal certificate issued by a Panjikaar confirming that a bride and groom are not related.
689	Which classification of Maithil Brahmins is traditionally divided into eight 'Chaurals' (categories)?	Shrotriya.
690	Which ancient philosopher first mentioned 'Samuha Lekhya' (collective genealogical records) in the 'Tantra Vartika'?	Kumarila Bhatta.

691	What is the purpose of the 'Dushan Panji'?	To record any known flaws or 'kshana' (blemishes) within a particular lineage.
692	What information is primarily tracked in a 'Sakha Panji'?	The branching out of lineages from their original root villages (Mula).
693	What does the term 'Asvajana Patra' signify?	A document certifying that the parties are not 'Svapinda' (closely related by blood).
694	How many 'Chhadwidh' (checkpoints) are analysed to determine marriage eligibility?	Sixteen genealogical points.
695	The five Northern Brahmin groups, including Maithils, are collectively known by what name?	Panch Gauda.
696	What is the significance of the year \$1760\$ AD in Panji history?	Maharaja Madhava Singh initiated the 'Sakha Panji' to further categorise lineages.
697	What linguistic script is traditionally used for writing Panji records?	Tirhuta (Mithilakshar).
698	Which Gotra is the only one recorded for the Karna Kayastha community in the source material?	Kashyapa.
699	In the context of lineage, what does 'Mula' represent?	The original village or 'root' location where the Biji Purusha resided.
700	What rule governs the storage of Panji books to prevent damage?	They must be protected from water, oil, and loose binding.
701	During which month of the year are Panji records traditionally dried in the sun?	The month when the Sun enters Leo (approx. \$16\$ August to \$15\$ September).
702	The first 'Chhadwidh' checkpoint (Pratham Chhadwidh) refers to which relative of the bride?	The paternal great-great-grandfather (Vridha Prapitamaha).
703	Which tier of Maithil Brahmins contains \$153\$ registered Panjis?	Yogya and Panjibaddha categories.
704	What was the occupation of Chaitanya Mahaprabhu's guru, Ramapati Upadhyaya, according to the Panji?	He was a Maithil Brahmin of the 'Karamhe' root village (Mula).
705	Which king of Mithila is mentioned as the 'Chudamani' of the Karnata dynasty?	Maharaja Harisimhadeva.
706	The term 'Panchaprastha' refers to which specific group in the Panji?	A specific settlement or group within the Keutiram branch.
707	In the Panji terminology, what is the role of a 'Panjikar'?	A specialised priest or scholar who verifies and maintains genealogical records.
708	How did the Panji records handle children born to 'Devadasis' in historical Mithila?	They were recorded in the 'Dushan Panji' but their descendants often remained part of the social fabric.
709	Which document tracks the educational and academic titles (Upadhis) of ancestors from \$450\$ AD onwards?	The ancient Panji Prabandh records.
710	According to the source, why did King Harisimhadeva take the Panji records from individuals and assign them to scholars?	Because common people and even some pundits had begun to forget their precise lineages, leading to illegal marriages.
711	Which Gotra includes the Mula 'Sakhuri' and ancestors like 'Mahamaho Deyi'?	Shandilya Gotra.
712	The 'Vatsa' Gotra is associated with which set of five Pravaras?	Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana.
713	The 'Kashyapa' Gotra is associated with which three Pravaras?	Kashyapa, Avatsara, and Naidhruva.
714	Which specific Panji record is used to ensure blood-related individuals do not marry within 'Sapinda' limits?	Udedh Panji.
715	Which historical figure's lineage in the Panji shows an unbroken record for \$19\$ generations up to the modern era?	The family of Panjikar Modanand Jha.
716	What is the cultural significance of the 'Tirhuta' script according to the text?	It is the 'soul' or 'life-force' of the Panji Prabandh.
717	The term 'Svarnav' is a synonym for which Gotra in the Panji system?	Savarna Gotra.
718	Which ancestor of the 'Mandi' Mula is cited as a 'Biji Purusha' with records dating back to \$400\$ AD?	Mahamaho Trivenibhata.
719	What major change occurred in the Panji system during the reign of Maharaja Madhava Singh?	The creation of hierarchical sub-divisions and the formal 'Sakha' (branch) documentation.
720	How many 'Grama' (villages) are typically mentioned in the 'Patra Panji' developed \$500\$ years ago?	Both the current village of residence and the Mula Grama (root village).
721	Which document is used to determine 'Sapinda Nivritti' (freedom from prohibited blood relations)?	Udedh Panji.
722	Identify the primary source of 'Dharmashastra' rules used by Panjikars to resolve marriage disputes.	Manu Smriti and Yajnavalkya Smriti.
723	In the Panji system, what happens to a lineage if a member marries a 'Chandal' or someone from an 'Agyat' (unknown) caste?	The lineage suffers 'Dushan' (corruption) and is moved to the Dushan Panji.
724	What is the specific prohibition regarding the daughter of a paternal uncle's maternal family?	She is ineligible for marriage if she falls within the prohibited generation count of the 'Chhadwidh'.
725	Which Mula is associated with the 'Srotiya' family residing in 'Sarisab'?	Sarisab Mula (Shandilya Gotra).
726	What is the role of 'Asvajana Patra' during the 'Siddhanta' ceremony?	It confirms in writing that the groom and bride have no forbidden kinship.

727	In what year and era was the 'Panji Prabandh' (genealogical management system) of Mithila officially initiated?	It was established in 1326 AD (Saka 1248) under the reign of King Harisimhadeva.
728	Which Karnat dynasty king is credited with formalising the Panji system in Mithila?	Maharaja Harisimhadeva.
729	What was the primary sociological purpose for establishing the Panji Prabandh?	To ensure 'Jati Shuddhi' (caste purity) and prevent prohibited degrees of relationship in marriages.
730	The introduction of seven generations of ancestors required for marriage eligibility in the Panji system is known as _____.	Udegh
731	According to the Panji system, how many maternal and paternal generations must be avoided to qualify for a 'Shrotriya' marriage?	Five generations on the mother's side and seven generations on the father's side.
732	Name the three primary social categories created by the Panji classification of Maithil Brahmins.	Shrotriya, Yogya, and Panjibaddh.
733	How many total 'Gotras' (clans) are documented within the Maithil Brahmin community?	20
734	What does the term 'Moolagrama' refer to in the context of Mithila genealogy?	The original village or place of residence associated with an ancestral lineage.
735	Who was the first 'Panjikar' (genealogist) appointed for the Maithil Brahmins by King Harisimhadeva?	Pandit Gunakar Jha of the Pandua Moola.
736	In the Karna Kayastha community, how many 'Gotras' are recognized according to the Panji theory?	Only one: the Kashyap Gotra.
737	What is a 'Siddhanta Patra' (also called 'Asvajana Patra') in the Panji system?	A formal certificate issued by a Panjikar confirming that a bride and groom are not prohibited relatives.
738	Which two Vedic branches (Shakhas) do Maithil Brahmins primarily follow?	The Madhyandina Shakha of the Yajurveda and the Kauthuma Shakha of the Samaveda.
739	According to the Panji system, a person is ineligible for marriage if they are a _____ (related to the same sapinda).	Svajana
740	What is the difference between 'Tri-pravara' and 'Panch-pravara' lineages?	Tri-pravara lineages claim three sage ancestors, while Panch-pravara claim five.
741	How many 'Chhatth' (specific genealogical nodes) are checked to determine marriage eligibility?	16
742	Which famous Maithili poet's genealogy is recorded in the Panji, showing his descent from Mahamahopadhyaya Jayaditya?	Vidyapati Thakur.
743	The practice of checking 32 specific ancestral lineages for a marriage match is called _____.	Battis Moola Ka Udegh
744	Why is the marriage between members of the 'Vatsa' and 'Savarna' gotras prohibited in Mithila?	Because they are considered to share the same ancestors (Anyanya).
745	What is the 'Dushana Panji'?	A record of perceived flaws or deviations in a lineage's history that could affect social standing.
746	In the 18th century, which Maharaja of Darbhanga introduced 'Sakha Panji' to further classify the Brahmin sub-groups?	Maharaja Madhav Singh.
747	Concept: Panch-Gaur Brahmins	Definition: The five northern Brahmin groups, including Utkal, Kanyakubja, Gaur, Maithil, and Saraswat.
748	How many main 'Moolas' were initially established during the Panji Prabandh?	167
749	What is the role of a 'Panjikar' in modern Mithila society?	To maintain genealogical records and verify marriage eligibility based on ancient texts and rules.
750	True or False: The Panji system was originally used by Brahmins, Kayasthas, and Kshatriyas in Mithila.	True.
751	The historical document 'Tantra Vartika' by _____ mentions 'Samuha Lekhya', an early form of genealogical records.	Kumarila Bhatta
752	According to Manu and Yajnavalkya, a marriage is prohibited if the bride is a _____ of the groom's mother.	Sapinda
753	How does the Panji system define the 'First Chhatth' for marriage eligibility check?	The paternal great-great-grandfather of the bride/groom.
754	Lineages that did not get recorded in the initial Panji registration became known as _____.	Jaibar (or Jaywar)
755	Which script was traditionally used to record and maintain the Panji manuscripts?	Tirhuta (Mithilakshar).
756	The genealogical data mapping from 450 AD to 2009 AD is metaphorically referred to in the text as _____.	Genome Mapping
757	Which Moola did the famous poet Vidyapati belong to?	Bisaphi (associated with the Kashyap Gotra).
758	Under the Panji rules, can a groom marry his maternal uncle's daughter?	No, it is strictly prohibited as per the rule against marrying offspring of the mother's brother.
759	What is the 'Laukika' in the context of the Shrotriya Panji?	The documented lineage and social standing specific to the Shrotriya category.
760	How many primary 'Moolas' are identified as the most prominent among the 167 documented?	34 (later 35 including the Phandah branch).
761	In the process of 'Siddhanta', what is verified if a person is found to be in the 'Chhatth' (sixth position) of a lineage?	They are ineligible for marriage if the connection is on the paternal side.

762	Which specific Gotra is associated with the 'Sandilya' lineage in the text?	Sandilya (one of the seven primary gotras).
763	The ancestral lineages that claim descent from the sage 'Kashyap' belong to which Gotra?	Kashyap Gotra.
764	What is the significance of the year 1326 AD in Mithila's social history?	It marks the formalisation of the Panji Prabandh by Maharaja Harisimhadeva.
765	What is the primary difference in the marriage rituals (Upayana) of 'Chhandoga' (Sama-vedi) and 'Vajasaneyi' (Yajur-vedi) Brahmins?	Chhandoga has four primary samskaras, while Vajasaneyi includes Vedarmbha as a distinct fifth samskara.
766	Which Panji type records the 'kshana' (flaws or social falls) in a family tree?	Dushana Panji.
767	The Panji records were historically preserved on which material to prevent damage from water and oil?	Palm leaves (Talpatra) or Basaha-patra.
768	How many lineages (Sakhas) does the 'Mandara' Moola (Kashyap Gotra) have according to the text?	74
769	In the classification of Moolas, names like 'Khadaure', 'Khauade', and 'Budhabade' belong to which category?	Ayanth Shrestha (First Category).
770	What is 'Pachhwari-pa' in the context of Maithil Brahmin hierarchy?	It refers to the Brahmin lineages remaining outside the Shrotriya (Purwari-pa) category.
771	According to the Panji theory, a child born from a 'Svajana' (prohibited) marriage is traditionally labelled as _____.	Chandala (in a ritual/social sense)
772	What is the function of the 'Moola Panji'?	It lists all the Gotras and their corresponding ancient Moolas.
773	Which scholar's lineage is traced back 12 generations before him to the 'Mandara' Moola in the text?	Mahamahopadhyaya Halayudha.
774	What is the rule for the 'Fifth Chhatth' in checking marriage compatibility?	It involves checking the paternal great-grandfather of the bride's paternal grandmother.
775	Why did Maharaja Madhav Singh initiate the 'Sakha Panji'?	To establish a more rigid social hierarchy and classification based on internal lineage purity.
776	Which Brahmin groups are categorized under the 'Panch Dravida' division?	Karnata, Gurjara, Tailanga, Dravida, and Maharashtriya.
777	How many 'Udeghs' (lineage tracks) are found in the Shrotriya Panji?	32
778	True or False: The Panji system allowed for the inclusion of lineages where a widow's child (after re-marriage) was born.	False; such cases were often recorded as 'Dushana' (flaws) or excluded from high ranks.
779	The term for a lineage that has 'fallen' due to improper marriage or conduct in the Panji is _____.	Kshana
780	What was the role of 'Shankaradatta' during the reign of Harisimhadeva?	He was the first Panjika appointed for the Karna Kayastha community.
781	According to Panji logic, marriage eligibility is regained after how many generations of 'Sapinda' separation on the father's side?	Seven (or six in some modified rules).
782	Which script's preservation is closely tied to the survival of the Panji records?	Tirhuta script.
783	The term 'Jaywar' refers to Brahmins who are _____.	Not officially registered in the formal Panji hierarchy (Panjibaddh).
784	In the context of Panji, what does 'Ayanth' signify?	A high-ranking or 'excellent' classification of a Moola.
785	Which King's court first debated the issue of 'Svajana' marriage, leading to the Panji system?	Maharaja Harisimhadeva, following a controversy involving Pandit Harinath Upadhyaya.
786	During which historical period was the 'Panji Prabandh' system for Maithil Brahmins, Kayasthas, and Kshatriyas created?	The Late Medieval period.
787	What was the primary purpose of the 'Panji Prabandh' system in Mithila?	To ensure 'Jati Shuddha' or caste purity.
788	The term _____ refers to the detailed introduction of 32 specific ancestors required to establish a Brahmin's lineage purity.	Udhedh
789	Which historical ruler is credited with the formal initiation and inspiration of the Panji Prabandh in 1326 AD?	Maharaja Harisimhadeva.
790	In the context of Panji lineage, what is a 'Biji Purush'?	The earliest known ancestor from whom a specific lineage is traced.
791	How many total 'Gotras' (clans) are identified among Maithil Brahmins in the Panji records?	20
792	List the three main hierarchical categories of Maithil Brahmins established during the Panji division.	Shrotriya, Yogya, and Panjibaddha.
793	What term is used for those who were not formally recorded in the Panji system but belong to the community?	Jaybar
794	According to the marriage rules for 'Shrotriyas', how many generations must be avoided on the father's side?	7 generations.
795	According to the marriage rules for 'Shrotriyas', how many generations must be avoided on the mother's side?	5 generations.

796	Panjibaddha Brahmins, also known as lineage descendants, must avoid \$5\$ generations on the maternal side and _____ on the paternal side for marriage.	\$6\$ generations
797	The two main Vedic divisions of Maithil Brahmins are the 'Samavedi' (Chhandogya) and the 'Shukla Yajurvedi', known as _____.	Vajasaneyi
798	What is the total number of 'Mula' (original roots) established in the Panji Prabandh?	\$167\$
799	How many 'Mula Gram' (original villages) were designated as the primary roots out of the \$167\$ total?	\$34\$ (later \$35\$ with the addition of the 'Khama' branch).
800	Define 'Tripravara' in the context of Maithil Brahmin lineages.	A lineage whose ancestors composed three specific hymns in the Rigveda.
801	Define 'Panchpravara' in the context of Maithil Brahmin lineages.	A lineage whose ancestors composed five specific hymns in the Rigveda.
802	Which three Gotras are specifically categorized as 'Panchpravara'?	Vatsa, Savarna, and Bharve.
803	Why is marriage prohibited between the 'Vatsa' and 'Savarna' Gotras despite being distinct?	Because they share the same ancient ancestors.
804	Into how many broad regional groups are Indian Brahmins traditionally divided in the Puranic texts?	\$10\$ groups (\$5\$ Pancha Gauda and \$5\$ Pancha Dravida).
805	Which regional group of the 'Pancha Gauda' division do the Maithil Brahmins belong to?	Maithil.
806	What geographical feature acts as the boundary between the 'Pancha Gauda' and 'Pancha Dravida' Brahmin groups?	The Vindhya mountain range.
807	The 'Vajasaneyi' (Yajurvedi) marriage ceremony can occur during the day or night, while the 'Chhandogya' (Samavedi) ceremony traditionally takes place after _____.	Sunset (after seeing the star Arundhati).
808	Concept: Sapinda	Definition: Relatives who share the same pinda (ancestral body/offering), determining marriage eligibility and ritual impurity.
809	According to Smriti texts like Manu and Yajnavalkya, a bride should not share the same _____ or Pravara as the groom.	Gotra
810	Who was the 'Mahapandit' whose accidental marriage to a close relative (his paternal cousin's daughter) led to the formalisation of Panji records?	Pandit Harinath Upadhyay.
811	What is the 'Siddhanta Patra' (also called 'Asvajana Patra')?	A formal certificate issued by a Panjkar confirming that a bride and groom are not ineligible relatives.
812	The official scholar appointed by the King to maintain and verify genealogical records is called a _____.	Panjkar
813	In the Panji system, what does the term 'Mula Gram' represent?	The original village or homestead of a family's earliest recorded ancestor.
814	How many 'Shrotriya' Panjis are currently maintained?	\$32\$
815	How many 'Yogya' and 'Panjibaddha' Panjis are currently maintained?	\$153\$
816	The term _____ refers to the specific calculation used to identify \$16\$ critical points in a lineage where a person is in the 'sixth' position.	Chhatva
817	Under the 'Chhatva' rule, if any of the \$16\$ identified ancestors appear in the groom's paternal side within \$6\$ generations, is the marriage allowed?	No, it is prohibited.
818	What is the 'Dushan Panji'?	A record detailing 'faults' or historical blemishes within specific lineages.
819	Which script is traditionally used to write and preserve Panji records?	Tirhuta (Mithilakshar).
820	The first official Panjkar for Maithil Brahmins appointed by Harisimhadeva was _____.	Gunakar Jha.
821	Who was appointed as the first Panjkar for the 'Karna Kayasthas'?	Shankardatta.
822	The Karna Kayasthas are generally associated with which single Gotra?	Kashyapa.
823	According to the texts, during which period (months) should Panji books be dried in the sun to prevent damage?	When the Sun is in the Leo (Simha) rashi (approx. \$16\$ August to \$15\$ September).
824	What is a 'Laukika' in the context of Panji classification?	The specific lineage branch or social rank within the Shrotriya category.
825	The 'Shrotriya' Brahmins are sometimes referred to as 'Pubari' (Easterners), while others are called _____ (Westerners).	Pachhabari
826	Which type of Panji record tracks changes in residence and family expansion over the last \$500\$ years?	Pan Panji.
827	The historical figure _____ is recorded in the Panji as having the lineage title 'Kavishekhhar' and serving in the Nepal court.	Jyotirishwar Thakur.

828	Which famous saint's guru, Ishwar Puri, is linked to the 'Katih' Mula of the Maithil Brahmins in the records?	Chaitanya Mahaprabhu.
829	The ancient mathematician _____ is mentioned in the Panji lineage under the Mandaar Mula.	Aryabhata
830	What is the primary Vedic branch followed by 'Chhandogya' Brahmins?	Samaveda (Kauthuma branch).
831	What is the primary Vedic branch followed by 'Vajasaneyi' Brahmins?	Yajurveda (Madhyandina branch).
832	The concept of 'Ayanati Shrestha' refers to which category of Mula?	The first/highest category of original lineages (e.g. Khadaure, Khauale).
833	How many ancestors are included in a standard 'Udhedh' for marriage verification?	\$32\$ ancestors (covering paternal and maternal lines).
834	The scholar _____ is credited with establishing the rule that the \$7^{th}\$ generation on the paternal side is eligible for marriage.	Maharaja Mahesh Thakur.
835	The term 'Svarnakarnaka' refers to what practice regarding Panji maintenance?	Digital imaging or copying of the Tirhuta script into modern Devanagari/digital formats.
836	What is the primary objective of the 'Panji Prabandh' system in Mithila?	Maintaining 'Jati Shuddhata' (caste purity) and genealogical records.
837	The Panji system was established to regulate lineages for which three social classes?	Brahmins, Kayasthas, and Kshatriyas.
838	In the context of Panji, what does the term 'Udegh' signify?	The introduction of 32 ancestral lineages required to verify marriage eligibility.
839	How many maternal generations must be avoided for a marriage to be considered valid under the Shrotriya rules?	Five generations.
840	How many paternal generations must be avoided for a marriage to be considered valid under the Shrotriya rules?	Seven generations.
841	Which specific ancestor count defines the 'Udegh' of a family?	A total of thirty-two ancestors.
842	Name the four hierarchical categories of Maithil Brahmins established by the Panji system.	Shrotriya, Yogya, Panjibaddha, and Jayabar.
843	What defines the 'Jayabar' category of Maithil Brahmins?	Those who were not formally registered in the Panji records.
844	How many distinct 'Gotras' (clans) are identified in the Maithil Brahmin community?	Twenty.
845	How many 'Moolas' (original ancestral villages) were identified during the system's inception?	One hundred and sixty-seven.
846	Out of the 167 Moolas, how many are considered 'Main' or 'Mukhya' Moolas?	Thirty-four or thirty-five.
847	What is the difference between 'Tri-pravara' and 'Pancha-pravara'?	The number of ancestors (three or five) who were Rigvedic hymn composers.
848	Which two major Vedic branches are followed by Maithil Brahmins?	Samaveda and Yajurveda.
849	The Yajurvedi Maithil Brahmins follow which specific Shakha?	Madhyandina (Vajasaneyi).
850	The Samavedi Maithil Brahmins follow which specific Shakha?	Kauthuma (Chhandogya).
851	Which geographical boundary divides the 'Pancha Gauda' from the 'Pancha Dravida' Brahmins?	The Vindhyachal Mountains.
852	Maithil Brahmins belong to which broader regional grouping of North Indian Brahmins?	Pancha Gauda.
853	Who was the Karnat dynasty king that formalised the Panji system?	Maharaja Harisimhadeva.
854	In which year (AD) was the Mithila Panji system officially consolidated?	1326 AD (Saka 1248).
855	What prompted the creation of the formal Panji system in the 14th century?	An accidental incestuous marriage involving Pandit Harinath Upadhyaya due to ignorance of lineage.
856	What is 'Siddhanta' (or Siddhanta Patra) in Maithil marriage traditions?	A formal permit issued by a Panjekar certifying that the couple is not blood-related.
857	Who is a 'Panjekar'?	A genealogical expert appointed to maintain records and verify marriage eligibility.
858	Name the first Panjekar appointed for Maithil Brahmins.	Gunakar Jha.
859	Name the first Panjekar appointed for the Karna Kayastha community.	Shankardatta.
860	What is a 'Beeji Purusha'?	The earliest known progenitor or root ancestor of a specific lineage recorded in the Panji.
861	Explain the concept of 'Moola Gram'.	The original village associated with the Beeji Purusha of a family line.
862	According to the Panji system, what occurs if a person marries a 'Svajana' (close relative)?	The offspring is traditionally considered 'Chandala' or socially excluded from Aryan status.
863	Which philosopher's work, 'Tantra Vartika', provided early 7th-century evidence for maintaining lineage records?	Kumarila Bhatta.

864	The 'Shakha Panji' (branch records) were introduced during the reign of which king?	Maharaja Madhav Singh.
865	What does 'Dushana Panji' record?	Defects, violations of caste rules, or historical flaws in a family's lineage.
866	In modern terms, what is the Panji system compared to by the authors?	Genome Mapping or Chromosome identification.
867	How many 'Chhadvis' (ancestral checkpoints) are tracked to determine marriage eligibility?	Sixteen.
868	A marriage is prohibited if any of the 16 'Chhadvis' of the bride appear in the _____ of the groom.	Paternal lineage (Pitripaksha).
869	What is the rule regarding the Gotra of the bride and groom?	They must not belong to the same Gotra (Sagotra marriage is forbidden).
870	Is a marriage between two people of the same Pravara permitted?	No, they must have distinct Pravaras.
871	What is the prohibition regarding the bride and the groom's maternal uncle?	The groom cannot marry the daughter of his maternal uncle.
872	How many Gotras are considered the most prominent or 'Mahakulas' in Maithil society?	Seven (Shandilya, Vatsa, Savarna, Kashyapa, Parashara, Bharadwaja, and Katyayana).
873	What is the significance of the 'Saka 1248' date in Mithila history?	It marks the formal registration and inception of the Panji records.
874	Which hierarchical category is considered the highest in the Maithil Brahmin social order?	Shrotriya.
875	The term 'Laukika' refers to which type of Panji specifically?	The Shrotriya Panji.
876	Under which conditions can the Panji books be dried to ensure preservation?	When the sun is in the Leo (Simha) constellation (approx. August-September).
877	What three things must Panji books be protected from according to traditional verses?	Water (Jala), Oil (Taila), and loose binding (Shithila Bandhan).
878	How many hierarchical 'Chauwalas' (classes) exist within the Shrotriya Panji?	Eight.
879	What is the 'Asvajana Patra'?	A document proving that the bride and groom are not related by blood within prohibited degrees.
880	Which Panji type tracks descendants and branch-wise expansions of a family?	Shakha Panji.
881	What are 'Aandhi' Moolas?	Main ancestral lineages from which various sub-branches (Shakhas) emerge.
882	Followers of the Kauthuma Shakha are specifically known as _____.	Chhandoga.
883	Followers of the Madhyandina Shakha are specifically known as _____.	Vajasaneyi.
884	What is the relationship between the 'Vatsa' and 'Savarna' Gotras regarding marriage?	Marriage between them is forbidden because they share the same ancestors.
885	Which Gotra is associated with the 'Mandi' village and has 74 sub-branches?	Kashyapa.
886	Which category of Brahmins is referred to as 'Pachhwari-paat'?	The non-Shrotriya Brahmins (Yogya and Panjibaddha).
887	The 'Adho-gami' nature of Panji refers to what social phenomenon?	The decline in status resulting from marriage into lower hierarchical ranks.
888	Who was the 'Beeji Purusha' of the Simhashram Moola according to the text?	Mahamahopadhyaya Halayudha.
889	In Karna Kayasthas, how many Gotras are typically recognised?	One (Kashyapa).
890	What does 'Sapíáṭṭá,a' refer to in the context of marriage laws?	Sharing the same body particles or having common ancestors within defined generations.
891	Who was the first Kshatriya Panjika appointed by King Harisimhadeva?	Vijayadatta.
892	What distinguishes 'Tri-pravara' Gotras from 'Panch-pravara' Gotras?	Tri-pravara Gotras cite three sages in their ritual invocation; Panch-pravara cite five.
893	List three Gotras that fall under the 'Panch-pravara' category.	Vatsa, Savarna, and Garga.
894	Name the first 'Chhadvi' (ancestor) checked for a bride's eligibility.	The paternal great-great-grandfather (Vridha Prapitamaha).
895	What role does the 'Dushana Panji' play in historical research?	It provides evidence of historical social anomalies, such as inter-caste marriages or widow remarriages.
896	Which king's assembly appointed Gunakar Jha as the head of Panji Prabandh?	Maharaja Harisimhadeva.
897	What is the 'Prathama Chhadvi' in the verification process?	The bride's paternal great-great-grandfather.
898	Marriage with a 'Matama-gotra' (mother's gotra) is prohibited if the groom is within which generation?	Within seven generations on the father's side and five on the mother's side.
899	What does the text claim is the 'Pranadhara' (life force) of the Tirhuta script?	The Panji Prabandh records.
900	In the Panji terminology, what is a 'Kula'?	A lineage or family group sharing common heritage.

901	Why is the Maithil Panji system considered 'unparalleled' by the authors?	It contains continuous genealogical records for over 1000 years across an entire community.
902	Who was the author of the 'Smritisara', whose marriage mistake led to the Panji system?	Pandit Harinath Upadhyaya.
903	What is 'Pancha Gauda'?	The five regional Brahmin groups of North India: Saraswat, Kanyakubja, Gauda, Maithil, and Utkal.
904	What is 'Pancha Dravida'?	The five regional Brahmin groups of South India: Karnataka, Gurjara, Tailanga, Dravida, and Maharashtra.
905	Which Gotra includes sages Shandilya, Asita, and Devala in its Pravara?	Shandilya.
906	The 'Vajasaneyi' marriage ceremony can occur at what time?	During the day or night, as there is no specific restriction mentioned compared to Chhandoga.
907	The 'Chhandoga' marriage ceremony must occur after which event?	After sunset, following the sighting of the star Arundhati.
908	What does the 'Moola Panji' specifically track?	The original ancestral identity and village of a family.
909	The 'Genome Mapping' of Mithila lineages described in the text spans from ____ AD to 2009 AD.	450
910	Term: Udhredh	Definition: The formal introduction or record of seven generations of ancestors used to determine marriage eligibility.
911	In the Panji system, how many total ancestors (kula) are traditionally identified in a full 'udhredh' introduction?	32
912	Name the three main hierarchical categories of Maithil Brahmins created through the Panji system.	Shrotriya, Yogya, and Panjibaddh.
913	What term is used for those who were not formally recorded in the Panji system?	Jaywar
914	According to traditional Shrotriya rules, how many generations must be avoided for marriage on the maternal side?	Five generations.
915	According to traditional Shrotriya rules, how many generations must be avoided for marriage on the paternal side?	Seven generations.
916	How many 'Gotras' are formally recognised within the Maithil Brahmin community?	20
917	How many 'Mula Grams' (original villages) were initially identified during the Panji classification?	167
918	Out of the 167 original villages, how many are considered the 'Main Mulas' (primary roots)?	34 (later expanded to 35).
919	Which sage-based lineages belong to the 'Panch-pravara' (five-ancestor) category?	Vatsa, Savarna, and Bharva.
920	Define the term 'Tri-pravara' in the context of Maithil Gotras.	Lineages whose three ancestors were composers of Vedic hymns (suktas).
921	Why is marriage prohibited between the Vatsa and Savarna Gotras despite being separate names?	Because they share the same common ancestors (identical Pravaras).
922	According to the 'Pancha Gauda' classification, which five Brahmin groups reside north of the Vindhya mountains?	Utkala, Kanyakubja, Gauda, Maithila, and Saraswata.
923	Which historical region's capital was the original home of the Maithil Brahmins?	Videha
924	Maithil Brahmins follow which specific branch (shakha) of the Yajurveda?	Madhyandina
925	What name is given to Maithil Brahmins who follow the Kauthuma branch of the Samaveda?	Chandoga
926	Maithil Brahmins who follow the Madhyandina branch of the Yajurveda are known as ____.	Vajasaneyi
927	How does the 'Uttara Vivaha' of Samavedic (Chandoga) Brahmins differ from Yajurvedic Brahmins?	It must take place after sunset following the viewing of the Arundhati star.
928	The first reference to 'Samuha Lekhya' (collective lineage records) is found in which philosopher's work?	Kumarila Bhatta (in the Tantravarttika).
929	Which king of the Karnata dynasty is credited with the formalised 'Panji Prabandh' in 1326 AD?	Maharaja Harisimhadeva
930	What was the specific year in the Shaka calendar when the Panji system was established?	Shaka 1248
931	Who was the scholar appointed by Maharaja Harisimhadeva to organise the Maithil Brahmin Panji?	Saduphadyaya Gunakar Jha
932	The certificate issued by a Panjikar confirming that a bride and groom are not related (non-sapinda) is called the ____.	Siddhanta Patra (or Asvajanapa Patra)
933	The scholar appointed for the Panji management of Karna Kayasthas was ____.	Shankar Datta
934	The scholar appointed for the Panji management of the Kshatriya community was ____.	Vijay Datta
935	Under whose reign was the 'Shakha Panji' (branch records) initiated, leading to modern social divisions?	Maharaja Madhav Singh

936	How many Gotras are identified for Karna Kayasthas in the Panji system?	One (Kashyap).
937	In the preservation of Panji manuscripts, during which month should the books be dried in the sun?	When the Sun is in the zodiac of Leo (approx. 16th August to 15th September).
938	Marriage is prohibited if either the bride or groom falls into the _____ position (Chhatth) of the other's lineage.	Sixth
939	M.M. Maharaja Mahesh Thakur ruled that the _____ generation of the paternal side is acceptable for marriage.	Seventh
940	The primary language and script used for the original Panji records is _____.	Tirhuta (Mithilakshar)
941	Concept: Laukik	Definition: The social status or 'honour' level recorded within the Shrotriya Panji branches.
942	In the calculation of marriage eligibility, how many specific positions (Chhatth) are verified in the bride's lineage?	16 positions.
943	Which Gotra does the scholar Gunakar Jha (the first Brahmin Panjkar) belong to?	Sandilya (specifically the Mohi-ji branch).
944	What is the consequence of marrying a 'Svajana' (prohibited relative) according to the Smritis mentioned in the text?	The offspring are considered 'Chandala' and the parents are ostracised from the Arya dignity.
945	The term 'Pubaripaha' refers to which category of Maithil Brahmins?	Shrotriya Brahmins.
946	The term 'Pachhbaripaha' refers to which category of Maithil Brahmins?	Jaywar Brahmins (non-Shrotriya).
947	Which type of Panji documents the 'Sapinda' (blood relation) details and ancestral names?	Udhredh Panji
948	The text lists _____ as a famous historical figure whose guru, Iban/Pratidatta, is recorded in the Panji.	Chaitanya Mahaprabhu
949	Term: Pancha Dravida	Definition: The five Brahmin groups residing south of the Vindhya mountains (Karnat, Gurjar, Tailang, Dravid, and Maharashtra).
950	According to the text, a student of Panji Shastra must avoid _____ when handling manuscripts to prevent decay.	Water, oil, and loose binding.
951	The scholar _____ is mentioned as having identified 4,000 Gotras in his historical research.	M.P. Chichalal Rao
952	Which Gotra is associated with the Pravaras: Kashyap, Avatsar, and Naidhruva?	Kashyap
953	What is the primary purpose of the 'Panji Prabandh' in the Mithila region?	To maintain caste purity and determine marriage eligibility for Brahmins, Kayasthas, and Kshatriyas.
954	In what year was the formal Panji system established under the patronage of King Harisimhadeva?	1326 AD (Saka 1248).
955	Who was the Maithil Brahmin appointed by King Harisimhadeva to manage the Brahmin Panji records?	Gunakar Jha.
956	The term 'Uteá,h' refers to the introduction and lineage of how many ancestors required for marriage verification?	Thirty-two ancestors (Battiis Kul).
957	Identify the three main social tiers of Maithil Brahmins established during the Panji management.	Srotriya, Yogya, and Panjibaddh.
958	What is the common name for Brahmins who were not formally recorded in the Panji system?	Jaebaar (or Jayabaar).
959	According to the Panji system, how many generations must be avoided for marriage on the father's side?	Seven generations.
960	According to the Panji system, how many generations must be avoided for marriage on the mother's side?	Five generations.
961	The Panji records identify a total of how many distinct 'Gotras' (clans) among Maithil Brahmins?	Twenty.
962	How many 'MĀ«l Grams' (original villages) were initially identified in the Panji system?	One hundred and sixty-seven.
963	Out of the 167 original villages, how many were designated as the 'Main MĀ«ls' (Mukhya MĀ«l)?	Thirty-four (later thirty-five including the Khanam branch of Phandah).
964	The term 'Beeji Purush' refers to which individual in a lineage?	The earliest known ancestor or the progenitor of a specific clan/branch.
965	What defines the 'Tri-Pravara' category in the Panji system?	Clans whose three ancestors were composers of Rigvedic hymns.
966	Which three Maithil Brahmin Gotras are classified as 'Panch-Pravara'?	Vatsa, Savarna, and Bharadwaj (though the text lists Bhargava/Vatsa/Savarna variants).
967	Name the two Vedic branches followed by Maithil Brahmins.	Yajurvedic (Madhyandini branch) and Samavedic (Kauthum branch).
968	What is the title given to Maithil Brahmins who follow the Samavedic Kauthum branch?	Chhandogya.
969	What is the title given to Maithil Brahmins who follow the Yajurvedic Madhyandini branch?	Vajasaneyi.
970	Explain the significance of the document known as 'Siddhanta Patra' (or Ashvajan Patra).	A formal certificate issued by a Panjkar confirming that the bride and groom are not related within forbidden degrees.

971	The 'Pancha Gauda' classification of Brahmins includes which five regional groups?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
972	The 'Pancha Dravida' Brahmins are geographically located in which direction relative to the Vindhya mountains?	South.
973	Why is marriage traditionally forbidden between the Savarna and Vatsa Gotras in the Panji system?	Because they share the same ancestors (lineage) despite having different clan names.
974	What is the specific duty of a 'Panjikar'?	To maintain genealogical records and verify the legality of marriages based on lineage.
975	In the context of Panji, what does the term 'Chhadvith' (or Chhad-vrit) represent?	The sixteen specific forbidden relations or 'checkpoints' in the lineage of the bride and groom.
976	What is the first 'Chhadvith' rule regarding the bride's lineage?	The relationship to the bride's paternal great-great-grandfather.
977	Identify the 'Main Māṅḍ' associated with the Sandilya Gotra that has many branches.	Digho (or Dighve).
978	Which scholar's 7th-century work 'Tantra Varttika' mentions the 'Samuh Lekhya' as a precursor to the Panji system?	Kumarila Bhatta.
979	The 'Dushana Panji' records what specific type of information?	Flaws or incidents of 'impurity' within a lineage to prevent their recurrence.
980	What is the difference between marriage rituals for Chhandogya and Vajasaneyi Brahmins regarding the 'Tara' (stars)?	Chhandogya marriages involve viewing the Arundhati star after sunset, while Vajasaneyi marriages have no such requirement.
981	The term 'Māṅḍ' in Panji theory primarily designates which two identifiers?	Progenitor (Beeji Purush) and Original Village (Māṅḍ Gram).
982	How many 'Sakha Panjis' (branch records) were initiated during the reign of Maharaja Madhav Singh?	The text notes they began during his reign to manage increasing social divisions and hierarchies.
983	Which Gotra is the only one found among the Karna Kayasthas according to the source?	Kashyap.
984	What was the 'Siddhanta' requirement introduced to ensure scriptural compliance in marriages?	No marriage is considered valid unless verified and approved by an appointed Panjikar.
985	The classification 'Pachhwari Paat' refers to which group of Maithil Brahmins?	The non-Srotriya Brahmins (Yogya and Panjibaddh).
986	How many categories of marriage records (Panjis) are mentioned, such as Māṅḍ, Sakha, and Gotra?	Seven (Māṅḍ, Sakha, Gotra, Patra, Dushana, Uteáḥ, and Ashvajan-Patra).
987	What unique genealogical document is used to track 'Sapinda' (blood relation) limits?	Uteáḥ Panji.
988	According to the text, what happened to the Panji system for the Kshatriya community over time?	It became extinct/obsolete, leading them to rely only on avoiding identical village names for marriages.
989	Identify the four sacraments (Samskaras) involved in a Chhandogya Upanayana.	Namkaran, Chudakaran, Upanayana, and Samavartan.
990	Which Brahmin subgroup was traditionally called 'Pubari Paat'?	Srotriya Brahmins.
991	What is the recommended method for preserving Panji manuscripts according to the traditional verse provided?	Protecting them from water, oil, and loose binding (Jalaat Rakshe, Tailaat Rakshe).
992	When is the best time to dry Panji manuscripts to prevent damage, according to the text?	When the Sun is in the Leo (Simha) constellation (approx. mid-August to mid-September).
993	Who was the first Panjikar appointed for the Karna Kayastha community?	Shankardatta.
994	Who was the first Panjikar appointed for the Kshatriya community?	Vijaydatta.
995	Concept: Pravara	Definition: The list of sage-ancestors associated with a Gotra who were composers of Vedic hymns.
996	The Panji system is often compared to which modern scientific field in the source title?	Genome Mapping.
997	Which city was the capital of the ancient Videha dynasty, the cultural heart of Mithila?	Mithila (Janakpur).
998	What determines if a Chhadvith relationship allows marriage?	A relation is forbidden if the ancestor appears in the groom's paternal side within 6 degrees, but permitted if found on the maternal side.
999	Under what condition is a child considered 'Chandal' in traditional Smriti laws mentioned in the text?	When born from a marriage between 'Svajana' (forbidden blood relatives).
1000	Identify the Gotra associated with the sage 'Atri' and 'Sankriti' in the Tri-Pravara list.	Vashistha.
1001	Which Gotra includes the sages 'Vatsa', 'Asita', and 'Devala'?	Sandilya.
1002	Name one 'Ati-Srestha' (first-tier) Māṅḍ mentioned in the text.	Kharaure, Khauware, or Budhabaware (among others).
1003	What is the significance of the 35th Māṅḍ, 'Khanam'?	It is a branch of the Phandah Māṅḍ that was elevated to high status in later periods.
1004	How does the Panji record describe the status of a 'Jaebari' Brahmin?	A Brahmin whose family lineage was not formally recorded in the organized Panji system.
1005	The text lists _____ as a key reason for the regional diversification of Brahmins in ancient India.	Climate, language, diet, and dress (Geographical influences).

1006	The title 'Vidyapati Thakur' appears in the Panji records; how many generations of his lineage are said to be documented?	Lineage starting from seven generations before him down to his modern descendants.
1007	What historical script is primarily used to write Panji records?	Tirhuta (Mithilakshar).
1008	According to the Panji calculations, if an ancestor is found in the 'six' (Chhadvith) for a bride, can she marry a groom if that ancestor is in his maternal side?	Yes, it is permissible.
1009	Which ancestor is considered the 'Progenitor' for the Mandar village branch of the Kashyap Gotra?	Tri-Nayan-Bhatta.
1010	The 'Laukik' system is specifically associated with which tier of Brahmins?	Srotriya.
1011	How many 'Chowalas' (categories) exist within the Srotriya Panji?	Eight.
1012	What is the total number of Srotriya Panjis listed in the text?	Thirty-two.
1013	What is the total number of Yogya and Panjibaddh Panjis listed in the text?	One hundred and fifty-three.
1014	Name the Gotra that includes the sages 'Shakti', 'Vashistha', and 'Parashara'.	Parashara.
1015	Which Gotra is associated with the sages 'Katyayana', 'Vishnu', and 'Angirasa'?	Katyayana.
1016	Who was the 'Beeji Purush' of the Simhashram MÅ«l mentioned as a contemporary of King Lakshman Sen?	Halayudha.
1017	What is the role of 'Dushana' in a lineage, as per the Panji records?	It marks a historical fault (e.g., inter-caste marriage or social exile) to allow future generations to account for it.
1018	According to the text, Maharaja Mahesh Thakur changed the father's side marriage restriction to which generation?	The 7th generation (making the 7th generation eligible for marriage).
1019	What was the purpose of creating 'Adhikaar Maalas' (eligibility lists) for young girls 5-10 years before marriage?	To pre-identify eligible grooms and simplify the final 'Siddhanta' process.
1020	Which Gotra corresponds to the sages 'Mudgala', 'Angirasa', and 'BhÅrmyashva'?	Mudgala.
1021	Identify the two types of Upanayana ceremonies mentioned for Vajasaneyi Brahmins.	Upanayana and VedÅrambha.
1022	What was the traditional writing surface for Panji records before paper?	Palm leaves (Taal-Patra).
1023	How does the Panji define a 'Main MÅ«l' versus a 'MÅ«l Gram'?	A Main MÅ«l is the ancestral source village, while MÅ«l Gram can refer to the village of residence during the formal establishment of the Panji.
1024	Which Gotra is linked to the sages 'Vishnuvridha', 'Kandapuccha', and 'Trasadasyu'?	Vishnuvridha.
1025	The phrase 'Maatritah Panchami, Pitritah Saptami' refers to what rule?	Avoiding five generations on the mother's side and seven on the father's side for marriage.
1026	According to the text, why did Srotriya Brahmins eventually get subdivided into 'Pahari' and other tiers?	Due to marriages into lower-tier families leading to a gradual decline in rank (Adhogami).
1027	The term 'Beeji' effectively functions as what in a genealogical tree?	The root or starting point of that specific family's documented history.
1028	What historical time period is covered by the Mithila Panji Prabandh genealogy records?	The records span from 450 AD to 2009 AD.
1029	Which ruler is credited with the formal initiation of the Panji Prabandh in Mithila?	Maharaja Harisimhadeva of the Karnat dynasty initiated the system.
1030	In what year of the Christian calendar was the Panji system officially established?	It was established in 1326 AD.
1031	The official establishment of the Panji system corresponds to which year in the Saka calendar?	It corresponds to Saka 1248.
1032	What was the primary social objective for the creation of the Panji Prabandh?	The primary objective was to ensure caste purity and regulate marriage eligibility.
1033	According to the Panji system, how many ancestral lineages comprise a full 'Uderh' introduction?	A full introduction comprises 32 ancestral lineages.
1034	On the paternal side, marriage is prohibited within how many generations?	Marriage is prohibited within seven generations on the paternal side.
1035	On the maternal side, marriage is prohibited within how many generations?	Marriage is prohibited within five generations on the maternal side.
1036	How many total Gotras are recognised among the Maithil Brahmins?	There are 20 recognised Gotras.
1037	What is the collective name for the five northern Brahmin groups, including the Maithils?	They are known as the Pancha Gauda.
1038	What is the collective name for the five southern Brahmin groups?	They are known as the Pancha Dravida.
1039	Which mountain range serves as the geographical boundary between the Pancha Gauda and Pancha Dravida?	The Vindhyachal Mountains serve as the boundary.
1040	What defines a 'Tri-pravara' lineage in the Maithil Brahmin community?	It is a lineage where three ancestors are credited with composing Vedic hymns.

1041	What defines a 'Panch-pravara' lineage?	It is a lineage where five ancestors are credited with composing Vedic hymns.
1042	Followers of the Madhyandina branch of the Shukla Yajurveda are referred to as _____.	Vajasaneyi
1043	Followers of the Kauthuma branch of the Samaveda are referred to as _____.	Chandoga
1044	What is the 'Siddhanta Patra' in the context of Mithila marriages?	It is a certificate issued by a Panjekar verifying marriage eligibility.
1045	What is the common name for the genealogist who maintains family records and verifies eligibility?	The genealogist is known as a Panjekar.
1046	Which Brahmin scholar was first entrusted with the Panji management by King Harisimhadeva?	Pandit Gunakar Jha was the first to be entrusted.
1047	In Panji terminology, what does the term 'Biji Purush' represent?	It represents the founding ancestor of a specific lineage or 'Mool'.
1048	How many 'Mools' (original villages/lineages) were initially identified for the Brahmin community?	There were 167 original Mools identified.
1049	The 'Shrotriya' classification refers to which group of Maithil Brahmins?	It refers to the highest rank within the caste hierarchy.
1050	Marriage alliances are prohibited between the Vatsa and Savarna Gotras because they share common _____.	Ancestors (Pravara)
1051	Which historical incident involving Pandit Harinath Upadhyaya led to the formalisation of the Panji system?	He unknowingly married a close relative due to a lack of genealogical records.
1052	What is 'Dushan Panji'?	It is a record of faults or social transgressions within a lineage.
1053	Who introduced the 'Shakha Panji' (branch records) during the later period?	Maharaja Madhav Singh introduced the Shakha Panji.
1054	What are the four essential sacraments for a Chandoga Brahmin?	They are Namakarana, Chudakarana, Upanayana, and Samavartana.
1055	Identify the primary script historically used to record the Panji manuscripts.	The Tirhuta (Mithilakshar) script was used.
1056	The term 'Moolgram' in the Panji system refers to the original _____ of a family.	Village
1057	Which Gotra is universally applied to the Karna Kayastha community in Mithila?	The Kashyap Gotra is applied to the entire community.
1058	What are the three main classes of Maithil Brahmins created during the Panji organisation?	The classes are Shrotriya, Yogya, and Panjibaddh.
1059	What is 'Asvajana Patra'?	It is another name for the certificate of non-relationship required for marriage.
1060	How many hymn-composing ancestors are listed for the Sandilya Gotra?	There are three ancestors: Sandilya, Asit, and Deval.
1061	Which ancestors are shared by the Vatsa and Savarna Gotras?	They share Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvan.
1062	What does 'Samuh Lekhya' refer to in the context of 7th-century genealogy?	It refers to documented collective family introductions mentioned by Kumarila Bhatta.
1063	The high-ranking 'Ayanthi Shrestha' category consists of how many primary Mools?	It consists of 13 primary Mools.
1064	What is 'Chhadwith' in the Panji marriage eligibility rules?	It refers to six ancestral positions used to determine prohibited relationships.
1065	Why must Panji books be dried when the sun enters the zodiac of Leo (Simha)?	It is the time of most intense heat, which helps preserve the palm leaves from moisture.
1066	Which 7th-century text is cited as an early reference for caste purity through lineage records?	The 'Tantra Vartika' by Kumarila Bhatta is cited.
1067	What are the three ancestors associated with the Parashar Gotra?	They are Shakti, Vashistha, and Parashar.
1068	According to the source, what is the role of 'Biji Purush' in identifying a lineage?	He is the oldest known ancestor from whom the lineage is traced.
1069	What are the three ancestors associated with the Bharadwaj Gotra?	They are Bharadwaj, Angiras, and Barhaspatya.
1070	In the context of Panji records, what does the 'Laukik' status refer to?	It refers to the social and genealogical standing of a Shrotriya family.
1071	What is the '1st Chhadwith' for a girl in the eligibility check?	It is her paternal great-grandfather's father.
1072	How many grades or 'Chauras' are there in the Shrotriya classification?	There are eight grades.
1073	What happened to the Panji system of the Kshatriyas over time?	It eventually became extinct and is no longer actively maintained.
1074	Which scholar's lineage is traced back to M.M. Halayudha and Biji Purush Trivikram Bhatta?	The scholar is Vidyanand Jha Mohiji.
1075	Who was the first Panjekar appointed for the Kayastha community?	Shankardutta was the first appointee.
1076	The 'Uttar Vivaha' ceremony, performed after seeing the star Arundhati, is specific to which Veda followers?	It is specific to the followers of the Samaveda (Chandogas).

1077	In Panji records, 'Dighwe' and 'Belonche' are examples of which Mool category?	They are examples of Madhyam Mools.
1078	What is the maximum number of Gotras listed in the Maithil Brahmin Panji?	The maximum number is 20.
1079	Name the three ancestors of the Kashyap Gotra Pravara.	They are Kashyap, Avatsara, and Naidhruva.
1080	The classification 'Panjibaddh' refers to those whose names were included in the _____.	Formalised genealogical records (Panji)
1081	Which ancestors define the Katyayan Gotra Pravara?	They are Katyayan, Vishnu, and Angiras.
1082	Which ancestors define the Gautam Gotra Pravara?	They are Angiras, Vashistha, and Barhaspatya.
1083	Identify the founding ancestor (Biji Purush) of the Mandar Mool of Kashyap Gotra.	Trivikram Bhatta is the founding ancestor.
1084	What is the 'Dushan' associated with a lineage?	It refers to genealogical 'impurities' or errors in the family line.
1085	The 'Pachhwari' Brahmins are those associated with the _____ of Mithila.	Western region
1086	Which text defines 'Svapinda' as those who are excluded from marriage due to shared ancestry?	The Smritis, specifically Manu and Yajnavalkya, define this.
1087	What does the term 'Adhahgami' imply about the status of a Panji?	It implies a downward movement or decline in lineage rank over time.
1088	Who was the teacher of Chaitanya Mahaprabhu mentioned in the Panji records?	Ramapati Upadhyaya was his teacher.
1089	To which Mool did the teacher of Chaitanya Mahaprabhu belong?	He belonged to the Kariyan Mool of the Vatsa Gotra.
1090	The poet Vidyapati Thakur's genealogy is recorded under which Panji branch?	It is recorded under the Bisphi branch of the Kashyap Gotra.
1091	What is the role of the 'Biji Purush' in determining marriage eligibility?	The Biji Purush helps identify the root lineage to check for common ancestry.
1092	How many ancestors are included in the 'Uderh' of the groom's paternal side for a marriage check?	There are six ancestors included.
1093	How many ancestors are included in the 'Uderh' of the groom's maternal side for a marriage check?	There are five ancestors included.
1094	The term 'Mool' identifies the lineage's connection to an original _____.	Village or habitat
1095	Which manuscript preservation technique is mentioned as being taught to Panji students?	The protection of books from water, oil, and loose binding.
1096	What is the '16th Chhadwith' for a girl in the Panji system?	It is her maternal grandmother's maternal grandfather.
1097	Which Gotra includes the ancestors Mudgala, Angiras, and Barhaspatya?	The Mudgala Gotra includes these ancestors.
1098	Who is the '5th Chhadwith' for a girl in the eligibility check?	It is her paternal grandmother's paternal great-grandfather.
1099	What is the '8th Chhadwith' for a girl?	It is her paternal grandmother's maternal grandfather.
1100	The term 'Ansh' refers to a _____ within a larger Mool.	Sub-branch or specific family line
1101	In Mithila genealogy, what is the 'Biji' of a Mool?	It is the source ancestor or the first person to settle in a specific Moolgram.
1102	How does the Shakha Panji differ from the Mool Panji?	The Shakha Panji is a more detailed branch record introduced later to track social status.
1103	Which classification of Maithil Brahmins is traditionally associated with the highest Vedic scholarship?	The Shrotriya classification is associated with this.
1104	The 'Pancha Dravida' Brahmins reside south of which mountain range?	They reside south of the Vindhyachal Mountains.
1105	What is the penalty mentioned for marrying a 'Svajana' (prohibited relative) in ancient times?	The couple was socially boycotted and their children were considered 'Chandala'.
1106	Identify the primary source for the 20 Gotras listed in the Mithila Panji.	The primary sources are the Vedic lineages of the seven great sages (Saptarishi).
1107	During which century was the formalisation of the Panji system initiated under King Harisimhadeva?	The 14th century (specifically 1326 AD or Shaka 1248).
1108	In the context of Panji genealogy, what does the term 'Utegh' represent?	A detailed introduction or list of 32 ancestral families (Mools) used to verify marriage eligibility.
1109	According to 'Panji Theory', how many generations must be avoided for marriage on the paternal side for a Srotriya Brahmin?	Seven generations.
1110	According to the Panji system, how many generations must be avoided for marriage on the maternal side?	Five generations.
1111	The Maithil Brahmin community is divided into how many 'Gotras' according to the source material?	20 Gotras.
1112	What are the three main social categories of Maithil Brahmins established by the Panji Prabandh?	Srotriya, Yogya, and Panjibaddh.
1113	What is the historical significance of the 'Shaka 1248' date in Mithila's history?	It marks the formal establishment of the Panji records to prevent prohibited marriages.
1114	Who was the 'Beji Purush' in the context of Mithila's genealogical records?	The earliest known or founding ancestor of a specific lineage or clan.

1115	Which two Vedas are primarily followed by Maithil Brahmins?	The Samaveda (Chandogya) and the Shukla Yajurveda (Vajasaneyi).
1116	What is the difference between 'Tri-Pravara' and 'Panch-Pravara' in Brahmin lineages?	Tri-Pravara lineages have three sage ancestors who composed Rigvedic hymns, while Panch-Pravara have five.
1117	Which specific Brahmin Gotras are categorised as 'Panch-Pravara'?	Vatsa, Saavarna, and Bharadwaj.
1118	What is a 'Moolgram' in the Panji system?	The original village or ancestral seat of a particular lineage.
1119	According to the Panji system, why can marriages not occur between the Vatsa and Saavarna Gotras?	Because they share the same set of five primary sage ancestors (Pravaras).
1120	The Panji system identifies how many 'main' Mools (lineages) for Maithil Brahmins?	35 (originally 34, plus the Khanam branch of the Phandah Mool).
1121	Which king of the Karnata dynasty is credited with starting the Panji Prabandh?	Maharaja Harisimhadeva.
1122	Who was appointed as the first registrar (Panjikaar) for Maithil Brahmins by King Harisimhadeva?	Gunanakar Jha.
1123	Who was the first Panjikaar appointed specifically for the Karna Kayasthas?	Shankardatta.
1124	What is the role of a 'Panjikaar' in Mithila society?	To maintain genealogical books and verify the eligibility of couples before marriage.
1125	In Maithil Brahmin classification, who are the 'Jaywars'?	Those who are not officially recorded in the Panji books or fall outside the top three categories.
1126	What specific incident involving Pandit Harinath Upadhyaya led to the formalisation of the Panji records?	He inadvertently married a close relative (his cousin's daughter) due to lack of recorded genealogical data.
1127	What are the two major geographical divisions of Brahmins in India according to the Puranas?	Pancha Gauda (Northern) and Pancha Dravida (Southern).
1128	Into which broader group do Maithil Brahmins fall within the ten-fold Puranic classification?	The Pancha Gauda group.
1129	In the Panji system, what does 'Laukik' refer to?	The specific lineage records or classifications used primarily for the Srotiya category.
1130	How many Srotiya Panji records are currently identified in the system?	32 Panjis.
1131	How many Panji records exist for the Yogya and Panjibaddh categories combined?	153 Panjis.
1132	What is 'Dooshan Panji' used for?	To record any flaws, social downgrades, or violations of tradition within a specific lineage.
1133	What is 'Sakha Panji' and who introduced it?	It is a branch-specific genealogical record introduced during the time of Maharaja Madhav Singh.
1134	In the Maithil Panji system, what is the 'Chhatth' (Sixth) rule?	A calculation identifying 16 specific ancestors (8 paternal, 8 maternal) to ensure a groom is not within the prohibited 6th degree of the bride.
1135	Under what condition can a 'Chhatth' ancestor appear in the groom's lineage without prohibiting the marriage?	If the ancestor appears only on the maternal side of the groom's lineage (as opposed to the paternal side).
1136	What are the terms 'Pubaripaar' and 'Pachbaripaar' used to distinguish?	The eastern (Srotiya) and western (remaining Brahmin) divisions of Maithil Brahmins.
1137	What is the 'Utegh Panji' specifically designed to reveal?	The 'Sapirinda' relationships (shared bloodline) of a person across multiple generations.
1138	According to the text, what are the three things from which Panji books must be protected?	Water, oil, and loose bindings.
1139	When is the recommended time of year to dry and preserve Panji books?	When the Sun is in the Leo (Simha) constellation (roughly 16 August to 15 September).
1140	What is the 'Mool Panji'?	The original, consolidated genealogical record of the different Brahmin clans.
1141	Why is the Panji Prabandh referred to as 'Genome Mapping' in the source title?	Because it systematically tracks genetic lineage and ancestry over 1,500 years to prevent inbreeding.
1142	Which Maithil poet's lineage is extensively documented in the Panji records?	Mahakavi Vidyapati Thakur.
1143	According to the records, which famous Indian mathematician's lineage is traced to the Mandar Mool?	Aryabhata.
1144	Which religious reformer's teacher, Ishwar Puri, is identified through the Panji records?	Chaitanya Mahaprabhu.
1145	What are the four types of religious ceremonies (Samskaras) specifically different for Chandogya Brahmins?	Namkarana, Chudakarana, Upayana, and Samavartana.
1146	In the Vajasaneyi marriage tradition, at what time can the ceremony take place?	It can occur at any time during the day or night (unlike Chandogya, which has specific timing).
1147	Term: Sapirinda	Definition: A relative connected by the same body or 'pinda' (ancestral offering), within prohibited degrees for marriage.
1148	How many Rajput clans are mentioned in the 'Varna Ratnakara' in relation to the Panji system?	72 clans (though 64 are described in detail).

1149	What is the significance of the year 2000 AD in the context of the source material?	It marked the beginning of digitising, transcribing, and editing the ancient Tirhuta Panji records into Devanagari.
1150	Who are the 'Ayanishrestha' Mools?	The first or highest category of lineages, including Mools like Khardore, Khauare, and Sarisab.
1151	The Panji system forbids marrying the child of which maternal relative?	The maternal uncle (mother's brother).
1152	What does the 'Aswajanyapan Panji' specifically track?	The genealogy of families that have lost their original social status or moved to different regions.
1153	How many generations of maternal ancestors are traditionally tracked in a standard Panji 'Utegh'?	Five generations.
1154	What is the primary historical purpose of the 'Panji Prabandha' system in Mithila?	To maintain caste purity and determine marriage eligibility through genealogical records.
1155	According to the source, in which year (AD) was the Panji system formally organised in Mithila?	1326 AD
1156	Which ruler of the Karnata dynasty is credited with the formal initiation of the Panji records?	Maharaja Harisimhadeva
1157	In the Panji system, what does the term 'Uderh' refer to?	The introduction of ancestors (usually seven generations) required for marriage verification.
1158	How many 'Gotras' (lineages) are traditionally identified among Maithil Brahmins in the Panji system?	20
1159	How many 'Muls' (original ancestral lineages) are recorded in the Maithil Brahmin Panji?	167
1160	The Panji system classifies Maithil Brahmins into three main hierarchical categories: Shrotriya, Yogya, and _____.	Panjibaddha
1161	What term is used for Brahmins who are not registered within the formal Panji system?	Jaybar
1162	Under the Shrotriya marriage rules, how many generations must be avoided on the paternal side?	Seven generations
1163	Under the Shrotriya marriage rules, how many generations must be avoided on the maternal side?	Five generations
1164	For the Panjibaddha category, how many generations must be avoided on the paternal side for a marriage to be valid?	Six generations
1165	Which specific ancestor is referred to as the 'Biji Purusha' in a family lineage?	The earliest known progenitor or the original ancestor of the clan.
1166	What does the term 'Mulgram' signify in the context of Panji genealogy?	The original village or place of residence of a specific family lineage.
1167	Into which two broad geographical groups are the Brahmins of India divided in the Puranas?	Pancha Gauda (Northern) and Pancha Dravida (Southern).
1168	The Maithil Brahmins belong to which of the 'Pancha Gauda' groups?	The Maithil group.
1169	Which two Vedas are primarily followed by the Maithil Brahmin community?	Yajurveda and Samaveda.
1170	What is the specific branch (shakha) of the Yajurveda followed by Maithil Brahmins?	Madhyandina Shakha
1171	Maithil Brahmins who follow the Madhyandina Shakha of the Yajurveda are known as _____.	Vajasaneyi
1172	Maithil Brahmins who follow the Kauthuma Shakha of the Samaveda are known as _____.	Chhandoga
1173	Which group of Maithil Brahmins traditionally performs marriage ceremonies only after sunset after seeing the stars?	Chhandogas (Samavedic followers)
1174	In Maithil Brahmin marriage customs, how many 'Samskaras' are performed during the Upanayana of a Vajasaneyi?	Four (Chudakarana, Upanayana, Vedarabmbha, and Samavartana).
1175	What script is traditionally used to write and maintain the Panji records?	Tirhuta (Mithilakshar)
1176	Who was the first scholar appointed by King Harisimhadeva to organise the Panji of Maithil Brahmins?	Pandit Gunakar Jha
1177	Who was the official tasked with maintaining the genealogical records for the Kshatriyas in Mithila?	Vijaydatta
1178	What is the 'Siddhanta Patra' in the Maithil marriage process?	A certificate issued by a Panjkar confirming that the bride and groom are not prohibited relatives.
1179	In the Panji system, what are the 'Shadvith'?	The 16 maternal and paternal points of origin used to check for prohibited degrees of relationship.
1180	Which scholar's work, 'Tantra Varttik', is cited as an early reference to 'Samuha Lekhya' (genealogical records)?	Kumarila Bhatta
1181	What defines the 'Tri-pravara' group within Maithil Brahmins?	Lineages whose three ancestors were composers of Vedic hymns.
1182	What defines the 'Panch-pravara' group within Maithil Brahmins?	Lineages whose five ancestors were composers of Vedic hymns.
1183	The Gotras Vatsa and Savarna are considered 'Sapurvar', meaning marriage between them is _____.	Forbidden (as they share the same ancestors).

1184	Which type of Panji record tracks the chronological expansion of families into different villages?	Shakha Panji
1185	Which Panji record specifically documents genealogical 'faults' or social deviations in a lineage?	Dushan Panji
1186	The Shrotriya category is further divided into how many 'Chaunwala' (grades)?	Eight
1187	The Yogya and Panjibaddha categories are divided into how many distinct grades?	15
1188	Which Maithil King initiated 'Shakha Panji' and the hierarchical division of Shrotriyas in the 18th century?	Maharaja Madhav Singh
1189	What is the 'Gotra Panji'?	A record containing all Gotras and their associated original Muls.
1190	Under the rules of marriage eligibility, a marriage is prohibited if any of the 16 Shadvith appear in the groom's ____.	Paternal lineage (Pitri-paksha)
1191	Is a marriage permitted if a Shadvith from the bride's side appears in the groom's maternal lineage (Matri-paksha)?	Yes
1192	According to the text, how many main Muls (ancestral units) were initially identified from the 167 total?	34 (later 35 with the addition of the Kharaur branch).
1193	The Maithil Brahmin Gotras like Shandilya, Vatsa, and Katyayana are part of the ____ group of seven major Gotras.	High-ranking or most populous
1194	What role does the 'Panjkar' play in the Mithila region?	A specialised genealogist who maintains records and verifies marriage eligibility.
1195	According to the Puranic geography cited, the boundary between Pancha Gauda and Pancha Dravida is the ____.	Vindhyachal Mountains
1196	What historical event in the 14th century led to the formalisation of the Panji system?	Pandit Harinath Upadhyaya unknowingly married a close relative due to a lack of genealogical records.
1197	Which Maithil Brahmin sub-group is also known as 'Pubaripar'?	Shrotriyas
1198	Which Maithil Brahmin sub-group is also known as 'Pachhwaripar'?	Non-Shrotriya Brahmins (Yogya and Panjibaddha).
1199	The 'Asvajana Patra' is another name for the ____ certificate.	Siddhanta
1200	How many 'Biji' ancestors' names are typically included in an 'Uderh'?	32 (representing 32 different ancestral points).
1201	Process: What is the first step a Panjkar takes when verifying marriage eligibility?	Determining the 16 'Shadvith' of the bride.
1202	Which Panji type details the specific 'Atma-Parichaya' (self-introduction) of 32 ancestral lines?	Uderh Panji
1203	What scientific term is used in the document's title to describe the function of the Panji system?	Genome Mapping
1204	The Karnata king Nanyadeva is mentioned in the text as an ancestor of which famous king?	Harisimhadeva
1205	The text mentions that inter-caste marriages or marriages with 'unknown lineages' are recorded in which supplementary Panji?	Dushan Panji
1206	What was the original source of genealogical tracking before the written Panji system was established?	Oral tradition and personal records kept by families.
1207	According to the Panji theory, why did the Brahmin community divide into regional groups like Utkala or Maithil?	Due to differences in climate, language, diet, and local culture over time.
1208	Which month is considered ideal for drying and preserving Panji manuscripts to protect them from moisture?	Bhadrapada (roughly 16 August to 15 September) when the sun is in Leo.
1209	What is the name of the 35th Mul that was added later as a high-ranking branch?	Kharaur (a branch of the Phandah Mul).
1210	Term: 'Laukik'	Definition: The specific sub-categories or social standings within the Shrotriya Panji.
1211	Which Gotra is the only one found among the 'Karna Kayasthas' of Mithila?	Kashyapa
1212	The text notes that the Panji system was also once prevalent among which other community besides Brahmins and Kayasthas?	Kshatriyas (specifically Rajputs like the Gandhavariya).
1213	What was the title given to Modanand Jha for his expertise in the Panji system?	Panji-Shastra Martanda
1214	In the Shadvith list, which relative is the 'First Shadvith'?	The paternal great-great-grandfather (Vridhdha Prapitamaha).
1215	In the Shadvith list, who is considered the 'Ninth Shadvith'?	The maternal grandfather's paternal great-grandfather.
1216	What is the 'Paanti' in the context of the Maithil social structure?	The social rank or row assigned to a family based on their genealogical record.
1217	Which historical ruler is credited with the formalisation of the Panji system in 1326 AD?	Maharaja Harisimhadeva of the Karnata dynasty formalised the system.
1218	In the context of Panji, what does the term 'Uteá,h' represent?	It refers to the detailed introduction of 32 ancestral lineages (vamsas) required for marriage eligibility.
1219	According to the Panji rules, how many generations must be avoided for marriage on the maternal side?	Marriage is prohibited within five generations on the maternal side.

1220	According to the original Shastric rules, how many generations must be avoided for marriage on the paternal side?	Marriage is prohibited within seven generations on the paternal side.
1221	Which category of Maithil Brahmins is considered the highest in the Panji hierarchy?	The Shrotriya category is considered the highest.
1222	What are the three main social tiers of Maithil Brahmins defined by the Panji system?	The three tiers are Shrotriya, Yogya, and Panjibaddh.
1223	How many 'Gotras' are recognised among Maithil Brahmins in the Panji system?	There are 20 recognised Gotras.
1224	What is the total number of 'Mools' (original village lineages) identified in the Maithil Brahmin community?	There are 167 identified Mools.
1225	In Maithil genealogy, who is a 'Biji Purush'?	The Biji Purush is the earliest known common ancestor of a specific lineage or Mool.
1226	The _____ is the name of the original ancestral village associated with a Maithil Brahmin's Mool.	Mool Gram
1227	What is the distinction between 'Tri-Pravara' and 'Panch-Pravara' in the Panji system?	It identifies whether a lineage has three or five distinct sage-ancestors who composed Vedic hymns.
1228	Followers of the Samaveda Kauthuma shakha in Mithila are known by which specific term?	They are known as 'Chandogya'.
1229	Followers of the Shukla Yajurveda Madhyandina shakha in Mithila are known by which term?	They are known as 'Vajasaneyi'.
1230	What is a 'Siddhant Patra' (or Asvajan Patra) in the Panji system?	It is a certificate issued by a Panjekar confirming that a bride and groom are not prohibited relations.
1231	Who was appointed as the first 'Panjekar' for the Maithil Brahmin community?	Pandit Gunakar Jha was the first Panjekar.
1232	Which Gotra is universally held by all members of the Karna Kayastha community in Mithila?	All members belong to the Kashyapa Gotra.
1233	The 'Panch Gauda' Brahmins are geographically located to the north of which mountain range?	They are located north of the Vindhya Mountains.
1234	The 'Panch Dravida' Brahmins are geographically located to the south of which mountain range?	They are located south of the Vindhya Mountains.
1235	Who introduced the 'Shakha Panji' (branch records) during the 18th century?	Maharaja Madhav Singh introduced the Shakha Panji.
1236	In which script are the original Panji records traditionally written?	They are written in the Tirhuta (Mithilakshar) script.
1237	What does the 'Dushan Panji' record in the Maithil genealogical system?	It records flaws or irregular marriages that occurred within a family lineage.
1238	What are the four essential ceremonies (Samskaras) for a 'Chandogya' Brahmin student?	The four are Namakaran, Chudakaran, Upanayana, and Samavartana.
1239	The rule 'Matritah Panchami, Pitritah Saptami' refers to what specific social restriction?	It refers to the prohibition of marriage within five maternal and seven paternal generations.
1240	Which philosopher mentioned 'Samuh Lekhya' (collective records) as early as the 7th century to protect lineage purity?	Kumarila Bhatta mentioned it in his work 'Tantra Vartika'.
1241	In the Panji system, what is the significance of the 'Chhaith'?	They are the 16 specific ancestral points (sixteen maternal and paternal lines) checked for marriage eligibility.
1242	What is the literal meaning of 'Panji' according to the source material?	It is a genealogical record where new births and marriages are continuously added.
1243	Which period is generally cited for the earliest recorded ancestors in the current Panji manuscripts?	The records trace back to approximately 450 AD.
1244	What happens to a Shrotriya family's rank if they marry into a lower-ranked Panjibaddh family?	The family's social rank declines through a process known as 'Laukik' degradation.
1245	According to the mnemonic 'Jalat Rakshet, Tailat Rakshet', what must Panji books be protected from?	They must be protected from water, oil, and loose binding.
1246	During which solar month is it traditionally recommended to dry the Panji palm-leaf manuscripts?	It is recommended when the Sun enters the constellation of Leo (Sinha rashi).
1247	How does the Panji system define 'Svajana'?	A person who is a prohibited blood relative according to the Shastric generational rules.
1248	The 'Atyant Shrestha' category refers to the first tier of which genealogical unit?	It refers to the first tier of the 35 main Mools.
1249	How does the source material justify the comparison between Panji and modern 'Genome Mapping'?	Both systems track hereditary traits and genetic lineages to ensure healthy and lawful progeny.
1250	What are the two major divisions of Maithil Brahmins based on the Vedas they follow?	They are divided into Samavedic (Chandogya) and Yajurvedic (Vajasaneyi) branches.
1251	Why were 34 (later 35) Mools designated as 'Main Mools' out of the total 167?	They were selected based on their historical prominence and purity at the time of formalisation.
1252	Who was the designated Panjekar for the Kshatriya (Rajput) lineages in Mithila?	Vijayadatta was the first Panjekar for the Kshatriyas.
1253	Which specific ancestor is the 'first Chhaith' in the calculation for a bride's eligibility?	The paternal great-great-grandfather (Vridhdha Prapitamaha).
1254	What is the 'Laukik' system within the Shrotriya Panji?	It is the record of status changes caused by marriage alliances between different family grades.

1255	The Panji system classifies Brahmin sub-groups as Uttakal, Kanyakubja, Gauda, Maithil, and _____.	Saraswat
1256	Which community's Panji records are currently considered largely extinct or obsolete according to the text?	The Panji records of the Kshatriya community have largely disappeared.
1257	What is the primary role of the 'Panjekar' in modern Maithil society?	They act as genealogical experts who verify bloodlines and authorise marriage eligibility.
1258	How many 'Panch-Pravara' Gotras are mentioned in the Maithil Brahmin list?	There are three: Vatsa, Savarna, and Bharadwaja (in certain variations).
1259	In the 18th century, which social factor led to the creation of 'Shakha Panjis' for Shrotriyas?	The emergence of distinct hierarchy-based social classes within the community.
1260	What is the relationship between 'Mool' and 'Gotra' in the Panji system?	A single Gotra can contain multiple Mools, representing different ancestral villages.
1261	The 'Madhyam Mool' category includes how many specific lineages?	It includes eight specific lineages.
1262	Which famous Maithili poet's lineage is extensively tracked across seven generations in the Panji records?	The poet Vidyapati Thakur's lineage is tracked.
1263	What was the year \$1248\$ Shake equivalent to in the Common Era calendar?	It is equivalent to \$1326\$ AD.
1264	What is the status of a child born from a 'Svajana' (prohibited) marriage according to ancient Smritis?	The child was traditionally considered 'Chandala' and excluded from Aryan social rites.
1265	Which sage is associated with the 'Sandilya' Gotra in the Panji list?	The sages are Sandilya, Asita, and Devala.
1266	Which Gotra is associated with the sages Shakti, Vashistha, and Parashara?	The Parashara Gotra.
1267	In the Panji system, the term 'Jaywar' refers to which group?	It refers to Brahmins who were not formally registered or 'Panjibaddh' during the initial management.
1268	What is the primary difference in marriage timing between the Vajasaneyi and Chandogya branches?	Chandogya marriages must see the star Arundhati after sunset, while Vajasaneyi marriages have no such restriction.
1269	Which historical region is the geographic origin of the Maithil Brahmins?	The ancient Videha kingdom, now known as Mithila.
1270	How many total 'Panjis' are maintained for the Yogya and Panjibaddh categories?	There are 153 Panjis maintained for these categories.
1271	What does the term 'Pachhwari Paat' signify in the Panji context?	It refers to the lower or common grades of Brahmin lineages outside the Shrotriya elite.
1272	What does 'Pubari Paat' signify in the Panji context?	It refers to the high-ranking Shrotriya lineages.
1273	The 'Mool' of a person is determined by which ancestral factor?	It is determined by the original village name stated by their earliest known ancestor during the registration.
1274	Term: Siddhant	Definition: The final verification and approval given by a Panjekar for a marriage to proceed.
1275	In what year was the formal 'Panji Prabandh' (Genealogical Management) established in Mithila?	1326 AD (Shaka 1248).
1276	Which ruler is credited with initiating the Mithila Panji system to ensure genealogical purity?	Maharaja Harisimhadeva.
1277	What is the primary purpose of the 'Panji' system in Mithila society?	To maintain 'jati shuddha' (caste purity) and prevent consanguineous marriages.
1278	The concept of _____ refers to the formal introduction of 32 ancestors required for marriage eligibility.	Udegh
1279	According to Smriti rules used in Panji, how many generations must be avoided on the father's side for marriage?	Seven generations.
1280	According to Smriti rules used in Panji, how many generations must be avoided on the mother's side for marriage?	Five generations.
1281	In the Maithil Brahmin hierarchy, which group is considered the highest following the Panji reform?	Shrotriya
1282	What term is used for those Brahmins who are not registered in the formal Panji system?	Jaywar
1283	How many total Gotras (clans) are recognised within the Maithil Brahmin community?	20
1284	Which seven Gotras are considered the most prominent and 'well-organised' in Mithila?	Sandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
1285	Term: Viji Purusha	Definition: The earliest known original ancestor of a specific lineage or clan.
1286	In the Panji system, what does the term 'Mool' signify?	The original ancestral village or seat of a family lineage.
1287	What is a 'Siddhant Patra' (also called Asajata Patra)?	A formal certificate issued by a Panjekar confirming that a couple is not related within prohibited degrees.
1288	The professional genealogists responsible for maintaining the records and certifying marriages are called _____.	Panjikars
1289	Why is marriage prohibited between the Vatsa and Savarna Gotras in Mithila?	They share common ancestors (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana).

1290	The rule of _____ involves checking 16 specific ancestral positions to ensure no blood relation exists between a bride and groom.	Chhadh
1291	Which philosopher's 'Tantra Vartika' is cited as the earliest mention of 'Samuha Lekhya' (group lineage records)?	Kumarila Bhatta.
1292	Who was the first scholar appointed by King Harisimhadeva to manage the Panji of Brahmins?	Gunakar Jha.
1293	Who was the official appointed to manage the Panji for the Kshatriya community?	Vijaydatt.
1294	Which Brahmin sub-group is categorised as 'Pachhwari Paith'?	The Non-Shrotriya Brahmins (Yogya and Panjibaddh).
1295	Into how many hierarchical categories are the Shrotriya Brahmin Panjis divided?	Eight (known as Chauvala).
1296	How many 'Main Mools' were initially identified out of the 167 total original villages?	34 (later increased to 35).
1297	How many Gotras are traditionally found within the Karna Kayastha community of Mithila?	One (Kashyapa Gotra).
1298	The 'Ayanti Shrestha' category represents the _____ class of original Brahmin lineages.	First
1299	What event reportedly triggered Maharaja Harisimhadeva to formalise the Panji system?	Pandit Harinath Upadhyaya unknowingly married his first cousin (maternal uncle's daughter).
1300	What is the distinction between 'Tri-pravara' and 'Pancha-pravara' lineages?	It refers to whether three or five distinct Vedic rishi ancestors are invoked in a Gotra's lineage.
1301	Identify the three Gotras that follow the 'Pancha-pravara' tradition.	Vatsa, Savarna, and Garga.
1302	To preserve the palm-leaf manuscripts, Panji books are traditionally dried when the Sun enters which zodiac sign?	Leo (Simha Rashi), usually between 16 August and 15 September.
1303	What does the term 'Pachhwari Paith' imply regarding the location of the Panji records?	Records of the Western (Pachhwari) group of Brahmins.
1304	The process of calculating 32 ancestral lineages to determine marriage eligibility is known as _____.	Uteht
1305	List the three ancestors associated with the Sandilya Gotra.	Sandilya, Asita, and Devala.
1306	The 'Dvitiya Shrestha' category of Mools includes lineages such as Rankoliwar and Paliwar, representing the _____ class.	Second
1307	What are 'Madhyam Mools' in the context of the Panji system?	Intermediate ancestral seats, such as Digkhwe and Belonche.
1308	In the Mithila hierarchy, what is the term for the 'marriage-eligible' category below Shrotriya?	Yogya
1309	Which script was traditionally used to record the Panji genealogies?	Tirhuta (Mithilakshar).
1310	The Panji records for the 'Pachhwari' group consist of _____ distinct books or registers.	153
1311	The Shrotriya group's records are limited to _____ distinct registers (Panjis).	32
1312	What is the 'Sakha Panji'?	A detailed branch-wise genealogy documenting titles, education, and maternal lineages.
1313	Who introduced the 'Sakha Panji' system during the reign of Maharaja Madhav Singh (c. 1760 AD)?	Panjikars acting under the King's order, which led to further sub-divisions.
1314	The first 'Chhadh' position (Pratham Chhadh) to be checked is the _____.	Father's father's father (Prapitamaha).
1315	In the calculation of eligibility, what is the 'Sajata' status?	A condition where the bride and groom are found to be related within prohibited degrees, making marriage illegal.
1316	Which Gotra is associated with the 'Oini' and 'Mandas' Mools?	Kashyapa.
1317	The Gotra associated with the 'Ekahra' and 'Panchobh' Mools is _____.	Savarna
1318	Which Gotra includes the Mools of 'Sarisab', 'Mahua', and 'Pali'?	Sandilya.
1319	The Panji system classifies the Samavedi Brahmins of Mithila as _____.	Chhandogya
1320	The Panji system classifies the Shukla Yajurvedi Brahmins of Mithila as _____.	Vajasaneyi
1321	What major difference exists between Chhandogya and Vajasaneyi marriage rituals in Mithila?	Chhandogya marriages must be conducted after sunset after seeing the star Arundhati.
1322	How does the Panji define a 'Panjibaddh' Brahmin?	One whose name and complete genealogy are formally entered into the Panji records.
1323	Which major academic text on Dharma Shastra is mentioned as being written by Pt. Harinath Upadhyaya?	Smritisar.
1324	In the 16 'Chhadh' rules, if an ancestral position matches the groom's paternal side, the marriage is _____.	Prohibited (No eligibility).
1325	If a matching ancestral position ('Chhadh') is found on the groom's maternal side, is the marriage permitted?	Yes, provided it is beyond the 5th generation.

1326	What historical term is used to describe the entire collection of Maithil Brahmin lineages?	Pancha-Gaud Maithil.
1327	The original home of the Maithil Brahmins according to the text is the region between the Himalayas and the _____ river.	Ganga
1328	Which Gotra includes the rishis Bharadwaja, Angirasa, and Barhaspatya?	Bharadwaja.
1329	Which sage is the Viji Purusha of the 'Mandas' Mool in the Kashyapa Gotra?	Trilocana Bhatta.
1330	Who is the Viji Purusha of the 'Simhashram' Mool?	Mahamahopadhyaya Halayudha.
1331	In the Panji, the term 'Laukika' refers specifically to which category's records?	Shrotriya Brahmins.
1332	How many major 'Veda' branches are followed by Maithil Brahmins?	Two (Yajurveda and Samaveda).
1333	The Yajurveda followers in Mithila belong specifically to the _____ branch.	Madhyandina
1334	The Samaveda followers in Mithila belong specifically to the _____ branch.	Kauthuma
1335	Which ancestor is the common link for the 'Sarisab' lineage within the Sandilya Gotra?	Ratnapani.
1336	How many generations on the father's side did Maharaja Mahesh Thakur later prescribe for marriage eligibility?	The 7th generation is acceptable (avoiding up to the 6th).
1337	What is the 'Moolgram'?	The specific village where a 'Viji Purusha' (original ancestor) resided at the time of Panji's creation.
1338	The professional fee or gift given to a Panjkar for their services is considered _____.	Prasad (honorarium).
1339	Which Panji register records the 'upadhi' (titles) and educational achievements of ancestors?	Sakha Panji.
1340	What happens if a Brahmin marries a 'Sajata' (forbidden relative) according to ancient Mithila law?	The offspring were historically considered 'Chandal' and the father was ostracised from Aryan status.
1341	The Gotra of the great poet Vidyapati was _____.	Kashyapa (specifically the Bisapi branch).
1342	Identify the Gotra associated with the Mool 'Kujoli'.	Katyayana.
1343	Lineages from the 'Alambukaaksh' Gotra are associated with which Mools?	Basam, Katai, and Brahmapura.
1344	The 'Vatsa' Gotra includes which common Mools?	Pali, Hariambe, Tisauti, and Tarkar.
1345	Which Gotra is associated with the 'Brahmapura' Mool across multiple lineages?	Sandilya, Vatsa, Kashyapa, and Gautama.
1346	In the context of Panji, what is 'Uti' (or Up-Teep)?	A supplementary register or sub-branch record, often for Shrotriya lineages.
1347	Who was the Karnata dynasty King responsible for initiating the 'Panji Prabandh' system in Mithila?	Maharaja Harisimhadeva.
1348	In what year (\$AD\$) was the formal Panji system established in Mithila?	\$1326\$ \$AD\$ (Shaka \$1248\$).
1349	What was the primary social objective behind the creation of the Panji Prabandh?	To maintain caste purity and prevent prohibited degrees of marriage.
1350	The term 'Udhe4'h' in the Panji system refers to the introduction of how many distinct ancestral lines?	\$32\$ ancestral lines.
1351	How many total 'Gotras' are identified within the Maithil Brahmin community according to the text?	\$20\$.
1352	Which two Gotras are traditionally prohibited from intermarrying because they share the same ancestors despite having different names?	Vatsa and Savarna.
1353	According to the Panji rules, how many generations must be avoided for marriage on the paternal side?	\$7\$ generations (modified to \$6\$ in some practices).
1354	Who was the first 'Panjkar' (genealogist) appointed by the King for the Maithil Brahmins?	Gunakar Jha.
1355	Who was the first 'Panjkar' appointed for the Karna Kayastha community?	Shankardatta.
1356	Who was the first 'Panjkar' appointed for the Rajput (Kshatriya) community in Mithila?	Vijayadatta.
1357	What is the collective term for the five Northern Brahmin groups, which includes Maithils, Kanyakubjas, and Gaudas?	Pancha Gauda.
1358	What geographical feature serves as the boundary between the Pancha Gauda and Pancha Dravida Brahmin groups?	The Vindhya Mountains.
1359	Maithil Brahmins primarily follow which two Vedas?	Yajurveda and Samaveda.
1360	Followers of the Madhyandina branch of the White Yajurveda in Mithila are known as _____.	Vajasaneyi.
1361	Followers of the Kauthuma branch of the Samaveda in Mithila are known as _____.	Chhandoga.

1362	What are the four specific sacraments (Samskaras) for a Chhandoga Brahmin during Upanayana?	Namakarana, Chudakarana, Upanayana, and Samavartana.
1363	In the context of the Panji system, what is a 'Mula'?	The ancestral village or root identity of a family.
1364	How many 'Mulas' (ancestral roots) were originally identified in the Maithil Brahmin Panji?	\$167\$.
1365	What is the difference between 'Mula' and 'Mula Grama'?	Mula is the original ancestral village; Mula Grama is the village where the family currently resides.
1366	A 'Tri-pravara' Gotra is one whose ancestors composed _____ distinct Suktas of the Rigveda.	\$3\$.
1367	A 'Pancha-pravara' Gotra is one whose ancestors composed _____ distinct Suktas of the Rigveda.	\$5\$.
1368	What are the three highest social categories of Maithil Brahmins as defined by the Panji system?	Shrotriya, Yogya, and Panjibaddha.
1369	What term is used for those Maithil Brahmins whose names are not recorded in the genealogical registers?	Jaybar.
1370	Which specific Panji records the faults, character issues, or prohibited marriages that occurred within a lineage?	Dushana Panji.
1371	Under which Maharaja's reign was the 'Shakha Panji' (branch register) introduced to further classify the community?	Maharaja Madhav Singh.
1372	What is a 'Siddhanta Patra' (or Asawajanya Patra)?	A certificate issued by a Panjekar confirming that a proposed marriage is not within prohibited degrees.
1373	The calculation of 'Chadhvitha' involves checking _____ specific ancestral relations for marriage eligibility.	\$16\$.
1374	In 'Chadhvitha', the 1st check refers to the father of the bride's _____.	Great-great-grandfather.
1375	What is the function of the 'Mula Panji'?	It records the original stock and expansion of various family roots.
1376	What is the function of the 'Gotra Panji'?	It lists all the Gotras and their corresponding ancient Mulas.
1377	Which Vedic branch includes 'Vedarambha' as one of the four Upanayana sacraments?	Vajasaneyi.
1378	How are Shrotriya Brahmins geographically distinguished from others in Mithila?	They are sometimes called 'Pubaripaata', while others are 'Pachhuaripaata'.
1379	How many sub-categories (Chauvala) are the Shrotriya Panjis divided into?	\$8\$ categories.
1380	How many sub-categories exist for the 'Yogya' and 'Vanshaja' (Panjibaddha) Brahmins?	\$15\$ categories.
1381	Who was the 14th-century scholar whose unintended marriage to a close relative spurred the formalisation of the Panji records?	Pandit Harinath Upadhyaya.
1382	What is the 'Biji Purusha' in a Maithil lineage?	The earliest known common ancestor of a specific Mula.
1383	The Panji system checks for 'Sapinda' relationships. What does 'Sapinda' mean?	Individuals who share a common ancestor and are thus forbidden to marry.
1384	Which script was traditionally used to maintain the Panji records in Mithila?	Tirhuta (Mithilakshar).
1385	What is the significance of the solar month of Simha (August-September) for Panji books?	It is the time when the palm-leaf or paper books are dried in the sun to preserve them.
1386	What is a 'Laukika' in the context of Shrotriya genealogy?	A specific branch or family identity within the Shrotriya category.
1387	Which Gotra includes the Mulas of 'Dighva' (Dighwe) and 'Sarisab'?	Shandilya.
1388	Which Gotra includes the Mulas of 'Oini' and 'Mandu'?	Kashyapa.
1389	Which Gotra includes the Mulas of 'Pali' and 'Hariamb'?	Vatsa.
1390	Which Gotra includes the Mula 'Ekahara'?	Bharadwaj (also Kaundinya).
1391	What is the specific rule regarding marriage and the maternal uncle's children in Mithila?	Marriage with the offspring of the maternal uncle is strictly prohibited.
1392	In the Panji system, what happens to a family's status if they marry into a lower category?	The family status descends (Adhogami), and they may eventually lose their Shrotriya rank.
1393	How many main 'Mulas' were selected as 'Atyant Shrestha' (first grade) lineages?	\$13\$.
1394	What is the 'Shakha Panji'?	A register that tracks the descendants and marriages of specific branches of a family tree.
1395	Which historical region's capital was Mithila, where these Brahmin traditions flourished?	Videha.
1396	What does the Panji indicate about the status of Maithil Kayasthas (Karna Kayasthas)?	They have only one Gotra (Kashyapa) and use Mula to determine marriage eligibility.
1397	According to the 'Tantra Vartika', why did King Harisimhadeva formalise the 'Samuha-lekhyas'?	To ensure that people did not forget their paternal and maternal lineages.
1398	Who was assigned to supervise the Panji of the Kshatriyas (Rajputs) in Mithila?	Vijayadatta.

1399	A marriage in Mithila is considered 'Ashastriya' (against scripture) if _____ is not obtained.	Siddhanta (official clearance from a Panjikar).
1400	What does 'Swarajana' mean in the context of marriage laws?	A person belonging to the same prohibited ancestral group.
1401	The record of maternal and paternal ancestors for marriage is called _____.	Panji.
1402	In the 16 'Chadhvitha' checks, what is the 9th check?	Paternal grandfather of the bride's maternal grandfather.
1403	How does the Panji system describe the marriage of 'Chaitanya Mahaprabhu's' guru, Ramapati Upadhyaya?	He was a Maithil Brahmin of the Vatsa Gotra (Kariama Mula) who settled in Bengal.
1404	What is the significance of the year \$1150\$ Shaka (\$1228\$ \$AD\$) in the text?	It is mentioned in relation to the genealogies of specific lineages like Mandu Mula.
1405	Why is 'Brahmapura' Mula unique in the Maithil Panji?	It is found across multiple Gotras, including Shandilya, Vatsa, and Kashyapa.
1406	What is the primary purpose of the 'Panji Prabandha' established in Mithila?	To maintain genealogical records and ensure caste purity for marriage eligibility.
1407	During which century was the Panji system formally established under the patronage of King Harisimhadeva?	The 14th Century (specifically 1326 AD / Shaka 1248).
1408	Which historical event triggered the formalisation of the Panji records?	Pandit Harinath Upadhyaya unknowingly married a close relative due to a lack of genealogical records.
1409	Who was the Karnat dynasty king credited with initiating the Panji Prabandha?	Maharaja Harisimhadeva.
1410	What term refers to the professional genealogists appointed by the king to maintain these records?	Panjikara.
1411	Maithil Brahmins are divided into two main Vedic branches; name the branch that follows the 'Yajurveda'.	Vajasaneyi (Madhyandina Shakha).
1412	Maithil Brahmins following the 'Samaveda' (Kauthuma Shakha) are commonly known as _____.	Chandoga.
1413	In the Panji system, what is the 'Udeha'?	A detailed record of 32 ancestral lineages used to verify marriage eligibility.
1414	What is the 'Siddhanta Patra' (or Aswajanapatra)?	A formal certificate issued by a Panjikara confirming that a bride and groom are not closely related.
1415	Define the term 'Swajana' in the context of Mithila marriage laws.	A person with whom marriage is prohibited due to prohibited blood relation (Sapinda).
1416	How many total 'Gotras' are recognised among Maithil Brahmins according to the source?	20
1417	Which seven 'Gotras' are considered the most prominent and systematic in the Maithil Brahmin community?	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
1418	In Maithil genealogy, what does 'Moola' signify?	The original ancestral village or root of a lineage.
1419	How many 'Moolas' (original roots) were initially identified and recorded?	167
1420	Out of the 167 'Moolas', how many are considered the 'Main Moolas' (Mukhya Moola)?	34 (later 35 including the Phandah branch).
1421	The classification of Maithil Brahmins into Shrotriya, Yogya, and Panjibaddha occurred during the reign of which king?	Maharaja Madhav Singh.
1422	Which group occupies the highest tier in the social hierarchy of Maithil Brahmins established by Maharaja Madhav Singh?	Shrotriya.
1423	What is the gap requirement for marriage on the paternal side for 'Shrotriya' Brahmins?	Seven generations.
1424	What is the gap requirement for marriage on the maternal side for 'Shrotriya' Brahmins?	Five generations.
1425	How many generations must be excluded on the paternal side for 'Panjibaddha' (and others) for marriage eligibility?	Six generations.
1426	Define 'Pravara' in the context of Brahmin lineages.	The group of illustrious rishi ancestors associated with a specific Gotra.
1427	Which three Gotras are classified as 'Pancha-pravara'?	Vatsa, Savarna, and Garga.
1428	According to the Panji rules, marriage is prohibited if the bride and groom share the same _____ or _____.	Gotra; Pravara.
1429	What is the 'Chhattha' (Sixth) rule in Maithil marriage eligibility?	Prohibition of marriage if any of the 16 identified 'Chhattha' ancestors of the bride appear in the groom's paternal lineage.
1430	Under the Panji rules, can a person marry the child of their step-mother's brother?	No, this is explicitly prohibited.
1431	What does 'Sakha Panji' record?	The expanded lineages of families as they moved from their original Moola to new villages.
1432	What is the 'Dooshana Panji' used for?	Recording 'faults' or deviations in a lineage to warn future generations.
1433	Which king of the Karnat dynasty is described as the 'Chudamani' (Crest-jewel)?	Maharaja Harisimhadeva.
1434	Who was the first scholar appointed to head the Panji management for Maithil Brahmins?	Gunakar Jha.

1435	Which group within Maithil society also maintained Panji records initially but later discontinued them?	Kshatriyas (Rajputs).
1436	What is the 'Laukika' in the context of Shrotriya Brahmins?	Specific sub-classifications or records within the Shrotriya Panji.
1437	How many 'Chhattha' (sixth-position) ancestors are verified for a bride during marriage eligibility checks?	16
1438	The rule 'Matritah Panchami, Pitritah Saptami' refers to the avoidance of how many generations?	Five from the mother's side and seven from the father's side.
1439	Who modified the paternal exclusion rule to six generations, which became widely accepted in Mithila?	Mahamahopadhyaya Mahesh Thakur.
1440	What term is used for Brahmins whose names were successfully recorded in the Panji registers?	Panjibaddha.
1441	What term was used for those not included in the formal Panji system?	Jaibar (or Jayewar).
1442	The 'Pancha Gauda' Brahmins include the Maithil, Saraswat, Kanyakubja, Gauda, and _____ communities.	Utkala.
1443	What is the geographical boundary between 'Pancha Gauda' and 'Pancha Dravida' Brahmins?	The Vindhya Mountains.
1444	Which Gotra includes the Moolas of 'Dighe', 'Sarisab', and 'Mahua'?	Shandilya.
1445	To which Gotra does the 'Oini' Moola belong?	Kashyapa.
1446	Which script was traditionally used to write the Panji books?	Tirhuta (Mithilakshar).
1447	What preservation method is advised for Panji books in the mnemonic 'Jalat Rakshe Tailat Rakshe'?	Protect from water, oil, and loose binding.
1448	During which solar month should Panji books be dried in the sun for preservation?	When the sun is in Leo (Singh Rashi), typically mid-August to mid-September.
1449	What is the 'Ayaanti Shrestha' tier in Moola classification?	The first/highest grade of Moolas (including Khadaure, Khauade, etc.).
1450	Name the second tier of Moolas mentioned in the text.	Dvadvitiya (including lineage-based moolas like Ranwalihar, etc.).
1451	What are 'Madhyam Moolas'?	Middle-tier Moolas such as Digher, Belaunch, and Panichobh.
1452	Which Gotra is associated with the 'Pali', 'Hariambe', and 'Takarwal' Moolas?	Vatsa.
1453	The Gotra 'Alambukaksha' contains which main Moola?	Basaam.
1454	Which Gotra is associated with the 'Nikhuti' Moola?	Kaushika.
1455	The 'Ekahara' and 'Pali' Moolas are found under which Gotra?	Kaundinya.
1456	What is unique about the marriage of Samavedi Brahmins (Chandoga) regarding timing?	The 'Uttara Vivaha' must take place after sunset after sighting the star Arundhati.
1457	Who is the famous Maithili poet whose 19-generation genealogy is preserved in the Panji?	Vidyapati Thakur.
1458	Which Moola is associated with the great scholar and reformer Mahesh Thakur?	Khadaure.
1459	What is 'Samuhalakhya', as mentioned by Kumarila Bhatta?	Ancient collective records of families used to preserve lineage history.
1460	Why is marriage prohibited between 'Savarna' and 'Vatsa' Gotras?	They are considered to share the same ancestral rishis (equivalent to being the same Gotra).
1461	In the verification process, how many paternal ancestors of the groom are checked against the bride's 'Chhattha' list?	Six generations.
1462	What is the 'Paanti' (or Panthi) in the Maithil Brahmin hierarchy?	The social rank or status assigned based on genealogical purity and conduct.
1463	Which group is referred to as 'Pubari Paanti'?	Shrotriya Brahmins.
1464	Which group is referred to as 'Pachhabari Paanti'?	Non-Shrotriya Brahmins (Yogya and others).
1465	What does the term 'Moola-Gram' represent in a Siddhanta record?	The combination of the original lineage root and the current village of residence.
1466	The text describes the Panji system as a precursor to what modern scientific concept?	Genome Mapping.
1467	Which king's court poet, Jyotirishwar Thakur, mentions Harisimhadeva in the 'Varna Ratnakara'?	Maharaja Harisimhadeva himself (he is the protagonist/hero).
1468	How many Rajput (Kshatriya) clans are listed in the 'Varna Ratnakara' context?	72 clans (with 64 detailed).
1469	What was the role of 'Vijayadatta' in Harisimhadeva's court?	Managing the Panji records for the Kshatriya community.
1470	Why is marriage prohibited with a daughter of the mother's brother (Matul Kanya) in Panji law?	It violates the maternal generation gap (Sapinda) rules.
1471	What is the significance of the year 1248 Shaka in Mithila history?	It is the year the Panji Prabandha was officially instituted.
1472	What is 'Ayaanchi'?	A title or status referring to those who do not ask for anything (associated with Pandit Bhavanath Mishra).
1473	Define 'Chaurasi' (or Chauala) in the context of Shrotriya rankings.	The specific hierarchical categories or 'groups' within the Shrotriya community.

1474	How many total Shrotriya Panjis are recorded in the system?	32
1475	How many Panjis are recorded for the Yogya and Panjibaddha categories?	153
1476	The 'Vatsa' Gotra includes rishis like Chyavana, Jamadagni, and _____.	Aurva.
1477	Which Gotra is associated with the 'Kushika', 'Atri', and 'Jamadagni' Pravaras?	Kaushika.
1478	What is 'Tirhuta' primarily considered in the context of Panji preservation?	The 'soul' or lifeline of the Panji Prabandha system.
1479	Which title was given to Modanand Jha for his expertise in Panji Shastra?	Panji Shastra Martand.
1480	The Panji system prevents marriage with the children of the father's sister (Pitri-swasa). True or False?	True.
1481	What is 'Karna Kayastha'?	The specific Kayastha community in Mithila that shares the Panji system with Brahmins.
1482	Which single Gotra is predominant among Karna Kayasthas?	Kashyapa.
1483	Which three social groups in Mithila were primarily covered by the Panji Prabandh?	Brahmins, Kayasthas, and Kshatriyas.
1484	What does the term 'Udegh' refer to in the context of Mithila genealogy?	The introduction of seven generations of ancestors required for marriage eligibility.
1485	In the Panji system, how many maternal and paternal ancestral lines must be verified for a marriage to be valid?	A total of thirty-two ancestral lines (Introduction of 32 ancestors).
1486	Into which three hierarchical categories were Maithil Brahmins divided during the Panji classification?	Shrotriya, Yogya, and Panjibaddha.
1487	What term is used for Brahmins who are not officially recorded in the Panji system?	Jaywar.
1488	According to traditional rules, how many generations must be avoided on the paternal side for a marriage to be permissible?	Seven generations (later modified to six in practice).
1489	How many generations must be avoided on the maternal side (Matripaksha) for a marriage in the Maithil Brahmin community?	Five generations.
1490	How many total 'Gotras' (clans) are recognized among Maithil Brahmins?	Twenty.
1491	The Maithil Brahmin community recognizes \$167\$ fundamental units known as _____.	Mools (or Moolgrams).
1492	How many 'main' Mools were originally identified from the total of \$167\$?	Thirty-four (later thirty-five with the addition of the 'Khama' branch).
1493	Which king of the Karnat dynasty formalized the Panji Prabandh system?	Maharaja Harisimhadeva.
1494	In which year (AD) was the Panji Prabandh system officially established in Mithila?	1326 AD (Saka 1248).
1495	Who was the scholar appointed by King Harisimhadeva to manage the Brahmin Panji Prabandh?	Pandit Gunakar Jha.
1496	Who was appointed as the official genealogist for the Kshatriya community in Mithila?	Vijayadatta.
1497	What are the two Vedic branches followed by Maithil Brahmins?	Yajurveda (Madhyandina branch) and Samaveda (Kauthuma branch).
1498	Maithil Brahmins who follow the Samaveda are referred to as _____.	Chandog.
1499	Maithil Brahmins who follow the Yajurveda are referred to as _____.	Vajasaneyi.
1500	What term refers to the earliest known ancestor of a specific lineage in a Panji record?	Beeji Purush.
1501	What is the 'Moolgram' in the Panji system?	The original village or ancestral home of a family lineage.
1502	The five northern Brahmin groups, including Maithils, are collectively known as the _____.	Pancha-Gauda.
1503	Which geographical feature serves as the dividing line between the Pancha-Gauda and Pancha-Dravida Brahmin groups?	The Vindhyaachal Mountains.
1504	What is the primary difference between a 'Tri-pravar' and a 'Panch-pravar' lineage?	Tri-pravar lineages name three sage ancestors, while Panch-pravar name five.
1505	List the three major gotras that fall under the 'Panch-pravar' category.	Vatsa, Savarna, and Gargya.
1506	What script is traditionally used to write the Panji records?	Tirhuta (also known as Mithilakshar).
1507	What is a 'Siddhanta Patra' (or Ashvajana-patra)?	A formal certificate issued by a Panjekar confirming that a bride and groom are not related by blood.
1508	Why is marriage prohibited between the Savarna and Vatsa gotras?	Because they share the same common ancestors (Pravaras).
1509	What was the inspiration behind the formalisation of Panji records in the 14th century?	Pandit Harinath Upadhyaya unknowingly married his first cousin due to lack of records.

1510	What is the 'Chhadwath' in the Panji evaluation process?	The sixteen critical ancestral points (sixth-degree ancestors) checked for commonality.
1511	What is the specific rule regarding marriage to a daughter of a maternal uncle (Mama)?	It is strictly prohibited.
1512	What is a 'Sakha Panji'?	A branch genealogy record initiated during the reign of Maharaja Madhav Singh in 1760 AD.
1513	What is a 'Dushan Panji'?	A record detailing 'flaws' or social/moral transgressions within a family lineage.
1514	Maithil Brahmins of the Shrotriya class are also referred to as _____.	Pubaripar (Easterners).
1515	Non-Shrotriya Maithil Brahmins are sometimes referred to by the term _____.	Pachhabaripar (Westerners).
1516	How many hierarchical categories (Chaupala) exist within the Shrotriya Panji?	Eight.
1517	What is the 'Adhikar Mala'?	A list prepared by a Panjekar for a father, detailing eligible grooms for his daughter.
1518	Which Sanskrit verse provides the rule for preserving Panji books?	Jalat Rakshet Tailat Rakshet (Protect from water, protect from oil).
1519	According to the Panji system, when is the best time to dry genealogical manuscripts?	When the Sun is in the Leo (Simha) constellation (approx. August-September).
1520	Which famous Maithil poet's lineage is meticulously preserved in the Panji records for several centuries?	Vidyapati Thakur.
1521	The title of the source material 'Genome Mapping' refers to which historical practice?	The recording of genealogical data in the Panji system over \$1,500\$ years.
1522	Which major Maithil Brahmin scholar wrote the 'Smritisar'?	Pandit Harinath Upadhyaya.
1523	How many Pravaras are associated with the 'Shandilya' gotra?	Three (Shandilya, Asit, and Deval).
1524	In the Maithil Brahmin community, which gotra is the only one recognized for Karna Kayasthas?	Kashyapa.
1525	The 'Laukik' refers to which specific type of Panji record?	The Shrotriya Panji.
1526	What is the 'Pari-Panji'?	A record used to track original villages and habitation history, prevalent for the last \$500\$ years.
1527	Who issued the order to compile the 'Sakha Panjis' which led to further social stratification?	Maharaja Madhav Singh.
1528	The rule 'Matritah Panchami, Pitritah Saptami' refers to what?	Avoiding five maternal generations and seven paternal generations in marriage.
1529	What was the historical capital of the Videha dynasty, which later became synonymous with Mithila?	Janakpur.
1530	Which branch of Yajurveda is specifically mentioned as being followed by Maithils?	Madhyandina Shakha.
1531	The Samavedi Maithil Brahmins follow the _____ branch of the Veda.	Kauthuma Shakha.
1532	What are the four main sacraments (Sanskars) performed for a 'Chandog' Brahmin during Upanayana?	Namkaran, Chura-karan, Upanayana, and Samavartan.
1533	How does the Upanayana process for a 'Vajasaneyi' Brahmin differ from a 'Chandog'?	Vajasaneyi includes 'Vedarambh' as one of the four key sacraments.
1534	Which philosophical text by Kumarila Bhatta is cited as the earliest mention of 'Samuh-Lekhya' (lineage records)?	Tantra Vartika.
1535	In the context of Panji records, what is a 'Behat'?	A sub-branch or local derivation of a Moolà!—à\$à!à!à!@.
1536	Why is the Maithil Panji system considered 'scientific' by the author?	Because it functions as a biological/genetic tracking system to prevent inbreeding.
1537	Which social class within Maithil Brahmins was historically identified by their high scholarly and ritual standards?	Shrotriya.
1538	The term 'Beeji' literally translates to _____.	Seed.
1539	What was the significance of Maharaja Kameshwar Singh in the history of Panjis?	He was the patron who awarded the title 'Panji-Shastra Martand' to expert genealogists.
1540	Which script-related movement does the author link to the preservation of Panji books?	The preservation of the Tirhuta (Mithilakshar) script.
1541	What is the primary reason the Panji system was not maintained among Kshatriyas over time?	Changes in political status and the loss of systematic scholarly patronage.
1542	If a bride is the 'Chhadwath' of the groom's paternal side, is the marriage allowed?	No, it is strictly forbidden.
1543	If a common ancestor appears in the maternal line (Matripaksha) for both parties at the sixth generation, is marriage permissible?	Yes, as the maternal prohibition only extends to the fifth generation.
1544	Which Maithil Brahmin scholar was the teacher of Chaitanya Mahaprabhu?	Ishvara Puri (or Paramananda Puri, associated with the Vatsa gotra and Kimah mool).
1545	List four of the eight 'Medium Mools' mentioned in the text.	Dighare, Belaunchi, Ekahate, and Panchobhe.

1546	What does 'Sapíáṭá_a' signify in the context of Hindu marriage laws used in Panji?	People sharing the same body particles or having common ancestors.
1547	The first 'Chhadwath' represents the relationship to which ancestor?	The paternal great-great-great grandfather (Vriddha-Prapitamaha).
1548	According to the Panji theory, why did regional Brahmin subgroups emerge?	Due to climatic differences, food habits, language, and geographic isolation.
1549	Which gotra is described as having \$74\$ branches spread across Mithila?	Kashyapa (specifically the Mandar branch).
1550	What term is used for those who issue the 'Siddhanta Patra'?	Panjikar.
1551	The Maithil Panji system is estimated to track lineage spanning more than _____ years.	One thousand.
1552	What is the 'Laukik' status in a Shrotriya family?	The relative social standing or honor of a family based on their past marriage alliances.
1553	According to the text, what happened to a person who married a 'Swajana' (forbidden relative)?	They were treated as outcastes and their children were considered 'Chandala' in status.
1554	Which historical figure's lineage in the Panji is used to calculate the date of ancient Indian astronomers like Aryabhatta?	The Mandar Mool lineage (linking to various 'Bhattas').
1555	During which historical period was the Panji Prabandh system initially created?	The medieval period (specifically around the 14th century AD).
1556	Which ruler of the Karnat dynasty is credited with the formalisation of the Panji system in Mithila?	Maharaja Harisimhadeva.
1557	In which Shaka year was the Panji system officially instituted?	Shaka 1248 (corresponding to 1326 AD).
1558	What was the primary social objective of creating the Panji Prabandh?	To ensure 'Jati Shuddhi' (purity of caste) for Brahmins, Kayasthas, and Kshatriyas.
1559	What does the term 'Udrehr' refer to in the context of Mithila genealogy?	The introduction and identification of 32 ancestors required for marriage eligibility.
1560	According to the Panji rules, how many generations must be avoided on the paternal side for a valid marriage?	Seven generations.
1561	How many generations must be avoided on the maternal side for a valid marriage in the Panji system?	Five generations.
1562	Name the four hierarchical categories into which Maithil Brahmins were divided following the Panji implementation.	Shrotriya, Yogya, Panjibaddh, and Jaywar.
1563	What is the total number of Gotras identified among Maithil Brahmins in the source text?	20 Gotras.
1564	How many 'Mula Grams' (original ancestral villages) were identified during the Panji Prabandh?	167 Mula Grams.
1565	Which Vedic branch do 'Vajasaneyi' Brahmins follow?	The Madhyandini Shakha of the Shukla Yajurveda.
1566	Which Vedic branch do 'Chandoga' Brahmins follow?	The Kauthuma Shakha of the Samaveda.
1567	What distinguishes 'Tri-pravara' from 'Panch-pravara' in the Gotra system?	Tri-pravara identifies three specific ancestors as Rigvedic seers, while Panch-pravara identifies five.
1568	Why is marriage prohibited between individuals of the Vatsa and Savarna Gotras despite being different Gotras?	They share the same set of ancestors (Pravaras).
1569	Who was the scholar appointed by Maharaja Harisimhadeva to lead the Panji documentation for Brahmins?	Saduphadyaya Gunakar Jha.
1570	Which scholar's work, the 'Tantra Vartika', is cited as an early historical reference for recorded lineage (Samuha Lekhya)?	Kumarila Bhatta.
1571	The calculation of _____ involves checking 16 specific ancestral relations to verify marriage compatibility.	Chadvith
1572	What is the common Gotra found among Karna Kayasthas according to the text?	Kashyapa.
1573	Which Panji specifically records 'Kshana' (defects or social lapses) within a family lineage?	Dushan Panji.
1574	What is the significance of the 'Beeji Purusha' in a family's genealogy?	He is the earliest known ancestor from whom the lineage is officially tracked.
1575	Which month of the year is traditionally recommended for drying Panji manuscripts to protect them from moisture?	When the Sun is in the Leo (Simha) rashi, roughly from 16 August to 15 September.
1576	The Pancha Gauda group of Brahmins includes Utkala, Kanyakubja, Gauda, Maithil, and _____.	Saraswat
1577	What is the primary difference between a 'Mula Panji' and a 'Shakha Panji'?	Mula Panji focuses on ancestral origins, while Shakha Panji details the expanded branches of families over time.
1578	Concept: Samuha Lekhya	Definition: A collective written record of lineage used by Brahmins and Kshatriyas to maintain family history and purity.
1579	Which specific ancestor in the calculation of Chadvith is known as the 'First Chadvith'?	The paternal great-grandfather's grandfather (Vriddha Prapitamaha's Pitamaha).
1580	Under which condition does a relation discovered in the Chadvith calculation allow a marriage to proceed?	If the relation is found on the maternal side (Matripaksha) rather than the paternal side (Pitripaksha).
1581	Name the script traditionally used to write and maintain the Panji manuscripts.	Tirhuta (Mithilakshara).

1582	According to Maharaja Harisimhadeva's decree, a marriage performed without a _____ is considered unscriptural.	Siddhanta (official genealogical verification)
1583	Which type of Panji documents the female ancestors of a lineage?	Strikartak (found within Udreh Panjis).
1584	How many main 'Mulas' (villages of origin) were designated as the primary 34/35 units of the system?	35 (including the Khanam branch of Phandah Mula).
1585	The Gotras of Vatsa, Savarna, and _____ are the only Maithil Brahmin Gotras following the Panch-pravara system.	Bhargava
1586	What title is given to the professional genealogists who maintain and verify the Panji records?	Panjikar.
1587	Who was the main examiner for the Panji Shastra Martand exams under Maharaja Kameshwar Singh?	Mahamahopadhyaya Dr Sir Ganganath Jha.
1588	What historical event in the 14th century prompted the formal institutionalisation of the Panji system?	Pandit Harinath Upadhyaya inadvertently marrying his cousin due to lack of recorded lineage.
1589	The term 'Jaywar' refers to Brahmins who were not _____ during the initial registration.	Panjibaddh (registered in the Panji books)
1590	Which scholar in the 18th century was commissioned by Maharaja Madhav Singh to create the 'Shakha Panji'?	Panji Pachanand Devanand Jha (also known as Chhoti Jha).
1591	In the Chadvith system, how many maternal-side ancestors are traditionally included in the calculation?	Five generations.
1592	The 16th Chadvith calculation involves the _____.	Maternal grandmother's maternal grandmother's maternal grandfather.
1593	What is the role of the 'Gotra Panji'?	To list all Gotras and their corresponding ancient Mula origins.
1594	Name one of the three threats to Panji manuscripts mentioned in the traditional mnemonic 'Jalat Raksha, Tailat Raksha'.	Water (Jala), Oil (Taila), or Loose binding (Sthula Bandhanat).
1595	Which specific branch of the Karnat dynasty ruled Mithila when the Panji system began?	Karnat Vanshiya Kshatriya Maharaja.
1596	The Panji system acts as a record of marriage prohibitions based on _____ (shared ancestry).	Sapinda
1597	Who was appointed to manage the Panji records for the Kayastha community?	Shankardatta.
1598	According to the text, which caste group has largely lost its Panji records in the modern era?	Kshatriyas.
1599	What is the 'Laukika' in the context of Shrotriya Panji?	The detailed genealogy of the Shrotriya class, divided into eight Chaurals.
1600	How many Shrotriya Panjis were historically recorded?	32 Panjis.
1601	How many Yogya and Panjibaddh Panjis were historically recorded?	153 Panjis.
1602	The 'Asvajana Patra' is another name for which document?	The Siddhanta Patra.
1603	What is the historical significance of the 'Tantra Vartika' regarding the Panji?	It provides the earliest textual mention of 'Samuha Lekhya' (group records) in the 7th century.
1604	Which Gotra is linked to the ancestors Shandilya, Asita, and Devala?	Shandilya.
1605	Which Gotra is linked to the ancestors Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana?	Vatsa (or Savarna).
1606	Which Gotra includes the Pravara ancestors Shakti, Vashishtha, and Parashara?	Parashara.
1607	Which Gotra includes the Pravara ancestors Katyayana, Vishnu, and Angirasa?	Katyayana.
1608	Why is the Shakha Panji of 1690-1710 AD by Madhusudan Jha considered unique?	It is written on palm leaves (Talpatra) and is one of the best-preserved early records.
1609	How does the Panji define the 'Paternal Side' for marriage calculations?	The six generations of the father's lineage (Pitripaksha).
1610	How does the Panji define the 'Maternal Side' for marriage calculations?	The five generations of the mother's lineage (Matripaksha).
1611	Which scholar is credited with the 19th generation preservation of the Panji records starting from Gunakar Jha?	Vidyanand Jha.
1612	What is the consequence of marrying a 'Svajana' (forbidden relative) according to the Smritis cited?	The offspring are considered 'Chandala' and the parents are ostracised from the Arya dignity.
1613	The 'Pancha Dravida' Brahmins are located south of which geographic landmark?	The Vindhyachal Mountains.
1614	The 'Pancha Gauda' Brahmins are located north of which geographic landmark?	The Vindhyachal Mountains.
1615	What does the Panji system identify as the 'root of Dharma'?	The purity of the Jati (caste).
1616	According to the Panji rules, a bride cannot be the daughter of the groom's _____.	Maternal uncle (Matamaha).
1617	Which term describes the process of calculating blood relations across 32 lineages?	Udreh Panji registration.

1618	In what year of the Common Era was the Mithila Panji system formally established?	1326 AD
1619	Which ruler of the Karnat dynasty is credited with initiating the Panji Prabandh system?	Maharaja Harisimhadeva
1620	What was the primary objective of the Panji system according to the source material?	To maintain the purity of the caste and regulate prohibited degrees of relationship in marriage.
1621	The identification of 32 ancestral branches required for Brahmin marriage verification is known as _____.	Uderh
1622	In the Panji system, the earliest known progenitor of a lineage branch is called the _____.	Beeji Purush
1623	According to Dharmashastra rules in the Panji, how many generations must be avoided on the paternal side for a marriage to be valid?	Seven
1624	According to Dharmashastra rules in the Panji, how many generations must be avoided on the maternal side for a marriage to be valid?	Five
1625	How many 'Gotras' (clans) are traditionally identified among Maithil Brahmins in the Panji system?	20
1626	The term 'Mool' in the Mithila genealogical records refers to the family's _____.	Ancestral village or place of origin.
1627	What certificate must be obtained from a Panjekar to confirm that a bride and groom are not related within prohibited degrees?	Siddhanta Patra (or Aswajanapatra)
1628	Which social group, in addition to Brahmins and Kayasthas, was originally included in the Panji system during its inception?	Kshatriyas
1629	Who was appointed as the first Panjekar for Maithil Brahmins by King Harisimhadeva?	Gunakar Jha
1630	Who was the first appointed Panjekar for the Karn Kayastha community?	Shankardutta
1631	Term: Pravara	Definition: The specific ancestral sages associated with a Gotra who were composers of Vedic hymns.
1632	What are the two specific types of Pravara classifications found in Maithil Brahmins based on the number of sages?	Tri-pravara (three sages) and Panch-pravara (five sages).
1633	Which three Gotras among the Maithil Brahmins fall under the 'Panch-pravara' category?	Vatsa, Savarna, and Garga.
1634	Maithil Brahmins are primarily followers of which two Vedas?	Yajurveda and Samaveda.
1635	Followers of the Madhyandini branch of the White Yajurveda in Mithila are known as _____.	Vajasaneyi
1636	How many 'Mool-grams' (original villages) were identified at the time of the Panji's creation?	167
1637	What is the function of the 'Dooshan Panji' within the genealogical records?	To record flaws, social exclusions, or 'doshas' within a lineage.
1638	Which type of Panji focuses on recording the current descendants and branches of a specific family lineage?	Shakha Panji
1639	In the calculation of 'Chhadwith', how many specific maternal and paternal relations are scrutinised?	16
1640	The script traditionally used to maintain and write the Panji records is called _____.	Tirhuta (or Mithilakshar)
1641	What historical event led to the institutionalisation of the Panji system by King Harisimhadeva?	A high-ranking scholar inadvertently married a close relative due to a lack of genealogical records.
1642	According to the Panji system, the bride must not be a descendant of the groom's _____.	Maternal uncle.
1643	Which category of Maithil Brahmins emerged as the highest tier during the later development of the Panji system?	Shrotriya
1644	The categorisation of Brahmins into 'Panch-Gauda' and 'Panch-Dravida' uses which mountain range as the geographical boundary?	Vindhya Range
1645	Under which Maharaja's reign was the 'Shakha Panji' (branch records) formally introduced?	Maharaja Madhava Singh
1646	What does the 'Laukik' refer to in the context of Shrotriya Panji management?	Specific social or lineage-based characteristics unique to the Shrotriya group.
1647	In the Panji terminology, families that were not formally registered but were otherwise eligible are known as _____.	Jaibar
1648	Which philosopher's 'Tantra Vartika' is cited as an early reference for the practice of 'Samuh-Lekhya' (group records)?	Kumarila Bhatta
1649	What is the primary difference between Chandoga and Vajasaneyi marriage rituals regarding timing?	Chandoga marriages have a specific 'Uttara Vivaha' performed after sunset after seeing the Arundhati star.
1650	In 'Chhadwith' calculations, the first relation checked (the paternal great-grandfather's father) is known as the _____.	First Chhadwith

1651	Concept: Sapanait	Definition: The condition of being related within prohibited degrees of kinship, making marriage illegal under local custom.
1652	How many 'Shakha' (branches) are documented for the specific Mandar Mool of the Kashyap Gotra?	74
1653	Which Gotra is exclusively found among the Karn Kayasthas of Mithila according to the source?	Kashyap
1654	What is the significance of the year 1019 Shaka mentioned in the Sanskrit verse regarding King Nanyadeva?	It marks the establishment of the Karnat dynasty in Mithila.
1655	The 'Uderh' document for a groom traditionally lists _____ ancestors.	32
1656	Which Panji records 'Kshatran' (flaws) to ensure descendants are aware of ancestral history?	Dooshan Panji
1657	What does the 'Mool Panji' primarily record?	The original ancestors (Beeji Purush) and their primary ancestral villages.
1658	Maithil Brahmins are classified into how many major social tiers (such as Shrotriya and Yogya)?	Three
1659	Which type of Panji helps in identifying 'Sapinda' relationships (close blood relations)?	Uderh Panji
1660	True or False: According to the Panji rules, a person can marry within their own Gotra if the Mool is different.	False
1661	Which season or month is specifically mentioned as the time to dry and preserve Panji books from moisture?	When the Sun is in the Leo (Simha) constellation (approx. August–September).
1662	What is the 16th Chhadwith relation used in marriage verification?	The maternal grandmother's maternal grandmother's father.
1663	The scholar who held the title 'Panji-Shastra Martand' was _____.	Modanand Jha
1664	Which family lineage is identified as having provided the majority of the original Panjikars?	The family of Gunakar Jha (Mandar Mool).
1665	The classification of Maithil Brahmins into Shrotriya, Yogya, and Panjibaddha occurred during the _____ period.	Medieval (Post-Karnat)
1666	How did the Panji system affect the Karn Kayastha community compared to Brahmins?	It followed similar genealogical principles but focused on different Mools and a single Gotra (Kashyap).
1667	Which historical source is used to determine the Pravaras of a specific Gotra?	The Vedic Samhitas (specifically the Rigveda).
1668	What was the purpose of creating 'Asvajanpatra'?	To serve as formal proof that the bride and groom do not share common blood within prohibited degrees.
1669	Why is the Mithila Panji system compared to 'Genome Mapping' in the text's title?	Because it tracks hereditary data and genetic lineage with precision over 1,500 years.
1670	In the context of the Panji, what is the 'Panch-Gauda' group?	The five northern Brahmin communities: Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
1671	Who was the ruler of Mithila during the time Maharaja Mahesh Thakur provided revised marriage guidelines?	The source suggests he was a pivotal scholar-ruler during the Mughal era (Maharaja of Darbhanga).
1672	Which relation is specifically excluded in Rule 4 of marriage eligibility?	The children of the groom's step-mother's brother.
1673	What is the traditional definition of 'Swa-jana' in the Panji system?	A person with whom marriage is prohibited due to close blood relationship.
1674	Which town served as the capital of the ancient Videha kingdom, which later became the heartland of the Panji system?	Mithila
1675	The 9th Chhadwith relation corresponds to the bride's _____.	Maternal grandfather's paternal great-grandfather.
1676	Which tier of Brahmins are referred to as 'Pachhwari-paat'?	Non-Shrotriya Brahmins (Yogya and Panjibaddha).
1677	The 'Gotra Panji' contains a comprehensive list of _____.	All Gotras and their associated ancient Mools.
1678	Which Panji expert was examined orally by Sir Ganganath Jha?	Modanand Jha
1679	The record that tracks the migration and current residence of family members is the _____.	Patra Panji
1680	How many Pravaras are assigned to the Sandilya Gotra?	Three (Sandilya, Asita, and Devala).
1681	How many generations of the maternal side are checked if the bride and groom belong to the same Mool?	Five
1682	Which relation constitutes the 'Third Chhadwith'?	The bride's paternal grandfather's maternal grandfather's father.
1683	What historical role did the 'Paricheta' play in the 14th century?	They were officials who travelled from village to village to collect and verify family genealogical data.
1684	The term for a marriage that violates the Panji rules is _____.	Ashastriya (or Sapanait marriage).
1685	Which document is considered the 'Lifeblood' (Pranadhara) of the Tirhuta script today?	The Panji Prabandh records.
1686	What was the primary administrative purpose of the Panji Prabandh in Mithila?	To maintain caste purity among Brahmins, Kayasthas, and Kshatriyas through genealogical records.
1687	The formal pedigree or introduction of 32 ancestral lineages required for marriage eligibility is known as _____.	Udegh
1688	How many distinct Gotras are identified within the Maithil Brahmin community according to the Panji records?	20

1689	Which historical ruler of the Karnata dynasty is credited with institutionalising the Panji system in \$1326\$ AD?	Maharaja Harisimhadeva
1690	What is the equivalent year in the Shaka calendar for the establishment of the Panji Prabandh in \$1326\$ AD?	Saka \$1248\$
1691	In the Panji hierarchy, what are the three primary categories of Brahmins?	Shrotriya, Yogya, and Panjibaddh.
1692	What term was used to describe those Brahmins who were not formally recorded in the Panji registers?	Jaibar
1693	For the Shrotriya class, how many generations must be excluded for marriage on the paternal side?	Seven generations.
1694	For the Shrotriya class, how many generations must be excluded for marriage on the maternal side?	Five generations.
1695	According to the Panji rules for the Panjibaddh class, how many paternal generations must be avoided for marriage?	Six generations.
1696	How many total 'Mools' (original ancestral roots) of Brahmins are identified in Mithila?	\$167\$
1697	Out of the \$167\$ Mools, how many are considered the primary or main Mools?	\$34\$ (later \$35\$ with the addition of the Khana branch).
1698	A Brahmin with three ancestors who authored Vedic hymns is classified as having a _____.	Tri-pravara
1699	A Brahmin with five ancestors who authored Vedic hymns is classified as having a _____.	Panch-pravara
1700	Why is marriage prohibited between individuals of the Savarna and Vatsa Gotras?	Because they share the same common ancestors.
1701	Name the five divisions of the 'Pancha Gauda' Brahmins.	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
1702	The geographical boundary for the Pancha Gauda Brahmins is the region north of the _____ Mountains.	Vindhyachal
1703	Maithil Brahmins following the Madhyandina branch of the Yajurveda are known as _____.	Vajasaneyi
1704	Maithil Brahmins following the Kauthuma branch of the Samaveda are known as _____.	Chandogya
1705	What is the key difference in wedding timing between Chandogya and Vajasaneyi Brahmins?	Chandogya marriages occur after sunset following the sighting of the star Arundhati.
1706	Which philosopher's 'Tantra Vartika' contains the earliest mention of the 'Samuh Lekhya' (group records) used in genealogy?	Kumarila Bhatta
1707	What specific document must a Panjekar issue to certify that a bride and groom are not related (non-Sapinda)?	Siddhanta Patra (also called Asvajana Patra).
1708	Who was the first Panjekar appointed for the Brahmin community by Maharaja Harisimhadeva?	Gunakar Jha
1709	What is the term for the original patriarch or ancestor who defines a lineage in the Panji records?	Biji Purusha
1710	What defines the 'Mool Gram' of an individual in the Panji system?	The original ancestral village from which the lineage began.
1711	How many Gotras are found within the Karna Kayastha community of Mithila?	One (Kashyapa).
1712	Term: Sakha Panji	Definition: A branch-wise genealogical record introduced during the time of Maharaja Madhav Singh to further categorise Brahmin sub-groups.
1713	In which script are the traditional Panji records of Mithila written?	Tirhuta (also known as Mithilakshara).
1714	What specific month is recommended for drying and maintaining the palm-leaf (Talapatra) Panji records?	The month when the Sun is in the zodiac sign of Leo (Simbha), roughly 16 August to 15 September.
1715	What is the minimum number of generations on the maternal side that must be cleared to satisfy 'Sapinda' rules according to Manu?	Five generations.
1716	What is the historical significance of the 'Smritisara' author Hari Nath Upadhyaya in Panji history?	He mistakenly married a close relative due to a lack of genealogical records, prompting the formalisation of the Panji Prabandh.
1717	The prohibition of marrying the daughter of a mother's brother or a father's sister is a core rule of the _____ system.	Panji
1718	What does the term 'Laukika' refer to in the context of the Shrotriya Panji?	The specific hierarchical status and marriage alliances tracked for the Shrotriya class.
1719	How many 'Chauris' (grades/classes) exist within the Shrotriya Panji records?	Eight
1720	The classification of Brahmins as 'Pachhwari-paat' generally refers to which group?	The non-Shrotriya Brahmins (Yogya and Panjibaddh).
1721	What happens to the hierarchical status of a lineage in the Shrotriya class over time due to inferior marriage alliances?	The status is 'Adhogami' (descending) and can eventually lead to the loss of Shrotriya ranking.
1722	What is the specific prohibition regarding the 'Matrimah' (maternal grandmother's) lineage in Udegh?	Marriage is prohibited if the groom and bride are within six generations of a common ancestor in that lineage.

1723	Which Brahmin Gotra is associated with the Pravaras: Shandilya, Asit, and Deval?	Shandilya
1724	Which Brahmin Gotra is associated with the Pravaras: Bhargava, Jamadagnya, Aurva, Chyavana, and Apnuvana?	Vatsa (or Savarna).
1725	The term 'Mool' refers to the original root, while the village of current residence is known as ____.	Dera
1726	Who is the legendary Biji Purusha of the lineage starting with \$1/1\$ in the Panji records?	Gangadhar of the Gangoli Mool.
1727	Which Mool is associated with the scholar Vidyapati Thakur?	Bisphi
1728	According to the excerpts, why is the Panji system considered a 'Genome Map' of the Mithila region?	Because it tracks hereditary traits, lineages, and genetic purity over more than a millennium.
1729	What is the status of the Panji system among the Mithila Kshatriya community today?	It has largely become extinct over time.
1730	The preservation rule 'Jalat Rakshet, Tailat Rakshet' advises keeping Panji books away from which two substances?	Water and Oil.
1731	In the table provided, the lineage of 'Ayabhata' (\$27\$) traces back to which Mool and Biji Purusha?	Mandai Mool and Biji Purusha Trivikram Bhatta.
1732	What was the 'Asvajan' status awarded to Siddhanta Patra applicants?	A declaration that the two families are unrelated within the prohibited degrees.
1733	How many ancestors are included in the identification of 'Chhaid-vadh' (the six-step lineage check)?	Six generations of ancestors in both paternal and maternal lines.
1734	Identify the Gotra associated with the Mool 'Khauaay'.	Kashyapa
1735	Identify the Gotra associated with the Mool 'Ekhatta'.	Bharadwaj
1736	Which Mool belongs to the Katyayana Gotra?	Kujoli
1737	The term 'Mula-Brahmapura' can be found across how many different Gotras?	Six (Shandilya, Vatsa, Kashyapa, Alambukaaksh, Gautama, and Gargya).
1738	In the context of the Panji, what does the title 'Mahamahopadhyaya' signify?	A high academic/scholarly title granted to learned individuals within a lineage.
1739	The person who officially calculates and records these lineages is called a ____.	Panjikar
1740	What is the significance of the year \$2009\$ AD in the title of the provided document?	It marks the end date of the chronological period covered by the research (\$450\$ AD to \$2009\$ AD).
1741	Which Mool is associated with the scholar and author of 'Varna Ratnakara', Jyotirishwar Thakur?	Pallie
1742	The rule 'Matritah Panchami Tyaktwa Pitritah Saptami Bhajet' refers to avoiding ____ generations on the mother's side and ____ on the father's.	Five; Seven.
1743	What was the role of 'Ashta Shrotriya' in the social hierarchy of Mithila?	They represented the eight highest grades of genealogical purity within the Shrotriya class.
1744	Which specific village is linked to the Mool 'Ghusout'?	Trilathi
1745	The concept of 'Biji' essentially serves as the ____ of a lineage in modern genomic terms.	Founder or root ancestor.
1746	According to the Panji excerpts, what determines one's membership in a specific Gotra?	Paternal descent from an ancient Sage (Rishi).
1747	What unique genealogical challenge is faced by the Karna Kayastha community regarding Gotras?	They all belong to a single Gotra (Kashyapa), so marriage is determined solely by 'Mool' (ancestral village) identity.
1748	The term 'Siddhant' in Mithila marriage customs refers to the formal ____.	Permission or certification for marriage by a Panjikar.
1749	Why is the preservation of Tirhuta script considered vital for Panji management?	Because almost all historical genealogical records are written exclusively in this script.
1750	According to the text, which class of Brahmins is designated as 'Sva-jan' in ancestral records?	Those who share common ancestors within the prohibited degree of seven generations.
1751	The Panji records identify how many primary classes or categories for the Shrotriya class?	Eight (known as Chauris).
1752	Which script-preservation project is mentioned as starting in the year \$2000\$ AD?	The transliteration of Tirhuta Panji records into Devanagari.
1753	Which Gotra includes the Mools: Onini, Sanaki-dhi, and Mandan?	Kashyapa
1754	What was the significance of 'Upar-Teep' in Panji documentation?	It refers to supplemental genealogical notes or branch updates within the Shrotriya records.
1755	The term 'Adau' in Panji entries refers to the ____.	Original or primary entry point of a lineage.
1756	Who is the primary author/researcher of the research titled 'Genome Mapping: Mithilak Panji Prabandh'?	Gajendra Thakur
1757	What historical event in \$1326\$ AD led to the creation of the Panji registers?	The realisation that learned men were unknowingly entering into prohibited marriages due to forgotten lineages.
1758	During which historical period was the Panji Prabandh system established?	The late medieval period.

1759	Define the term 'Uterh' in the context of Maithil genealogy.	An introduction or pedigree identifying seven generations of ancestors to determine marriage eligibility.
1760	How many ancestral lineages ('kuls') are required to establish a complete 'Uterh'?	Thirty-two.
1761	According to the Panji system, individuals who were not formally registered were categorised as _____.	Jayabaar
1762	For Shrotriya Brahmins, how many generations must be excluded on the father's side for a marriage to be valid?	Seven.
1763	For Shrotriya Brahmins, how many generations must be excluded on the mother's side for a marriage to be valid?	Five.
1764	The individuals known as 'Panjibadh' are generally required to avoid _____ generations on the father's side.	Six
1765	How many types of 'Gotras' are identified in the Maithil Brahmin community?	Twenty.
1766	How many 'Mools' (original roots) were initially identified in the Panji system?	One hundred and sixty-seven.
1767	Which two specific Vedic branches do Maithil Brahmins typically follow?	Samavedi and Shukla Yajurvedi.
1768	Maithil Brahmins following the Samaveda (Kauthuma branch) are referred to as _____.	Chandogya
1769	Maithil Brahmins following the Shukla Yajurveda (Madhyandini branch) are referred to as _____.	Vajasaneyi
1770	How many 'Mools' are considered primary out of the total 167?	Thirty-four (later thirty-five including the Kharnam branch).
1771	What are the three main hierarchical categories of Maithil Brahmins mentioned in the text?	Shrotriya, Yogya, and Panjibadh.
1772	List the three Gotras that belong to the 'Pancha-Pravara' category.	Vatsa, Savarna, and Bharadwaj (specifically listed as Vatsa, Savarna, and Garga in the Pravara section).
1773	In Maithil tradition, a 'Tri-Pravara' Gotra is one whose ancestors composed three _____ of the Rigveda.	Suktas (hymns)
1774	Which King is credited with the formal systematisation of the Panji records in 1326 AD?	Maharaja Harisimhadeva.
1775	The specific date for Maharaja Harisimhadeva's decree is Shaka 1248, which corresponds to the year _____ AD.	1326
1776	Who was the scholar appointed by Harisimhadeva to manage the Brahmin Panji records?	Pandit Gunakar Jha.
1777	Which scholar was appointed to manage the Panji records for the Karna Kayasthas?	Shankar Dutt.
1778	Who was appointed as the registrar for the Kshatriya Panji records under Harisimhadeva?	Vijay Dutt.
1779	The certificate of marriage compatibility issued by a Panjikaar is known as _____.	Siddhant Patra (or Aswajanchan Patra)
1780	What is the meaning of 'Pancha-Gauda' in the context of Brahmin classification?	The five northern Brahmin groups: Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
1781	Which mountain range serves as the geographical boundary between the Pancha-Gauda and Pancha-Dravida Brahmins?	The Vindhya mountains.
1782	Define 'Biji Purusha' in Maithil genealogy.	The earliest known ancestor or the progenitor of a specific lineage/Mool.
1783	What is a 'Moolgram'?	The original ancestral village from which a family lineage originated.
1784	The Shrotriya category is further divided into _____ classes or 'Chaurallas'.	Eight
1785	How many 'Panjis' (books of records) currently exist for the Shrotriya category?	Thirty-two.
1786	The 'Pachhwariapaar' group refers to Brahmins other than the _____ category.	Shrotriya
1787	What is the purpose of 'Dushan Panji'?	To record 'flaws' or deviations in lineage, such as inter-caste marriages or unconventional unions, to warn future generations.
1788	A marriage is prohibited if the bride is a 'Sapinda' of the groom's mother within _____ generations.	Five.
1789	A marriage is prohibited if the bride is a 'Sapinda' of the groom's father within _____ generations.	Seven.
1790	Which script is traditionally used to write and maintain the Panji records?	Tirhuta (Mithilakshara).
1791	How many Gotras are considered highly organised and numerous in the Maithil Brahmin community?	Seven.
1792	Term: 'Asvajanchan Patra'	Definition: A document confirming that the bride and groom are not closely related by blood (not 'Svajana').
1793	In the Karna Kayastha community, only one Gotra is typically followed, which is _____.	Kashyap

1794	Under which Maharaja did the 'Sakha Panji' and the rigid hierarchy of Shrotriya and other classes begin?	Maharaja Madhav Singh.
1795	According to the text, what happened to the Panji system among the Kshatriya community over time?	It largely disappeared, and they now follow the rule of avoiding the same village for marriage.
1796	What is the mnemonic rule for preserving Panji books from physical damage?	Protect them from water, oil, and loose binding ('Jalat Raksha, Tailat Raksha...').
1797	How many specific 'Chhattha' (relationship check-points) are used to determine marriage eligibility?	Sixteen.
1798	The 'Tri-Pravara' for the Shandilya Gotra consists of Shandilya, Asit, and _____.	Deval
1799	Which Gotra includes ancestors such as Shakti, Vashistha, and Parashar in its Pravara?	Parashar.
1800	The 'Pancha-Pravara' for the Vatsa Gotra includes Orva, Chyavana, Bhargava, Jamadagnya, and _____.	Apnuvana
1801	What does the 'Laukik' refer to in the context of Shrotriya genealogy?	The specific lineage branch or record book of the Shrotriya Brahmins.
1802	Which ancestral village is associated with the 'Oini' Mool of the Kashyap Gotra?	Oini village (associated with the Oinwar dynasty).
1803	The term 'Maddhyam Mool' refers to the _____ category of lineages in the Panji system.	Intermediate
1804	According to the 'Tantra Vartik' by Kumarila Bhatta, why were 'Samuha-Lekhya' (group records) started?	To ensure high-born families did not forget their ancestral traditions and to track virtues and flaws in lineages.
1805	In which century did Kumarila Bhatta live, providing early evidence of group lineage records?	The 7th Century AD.
1806	Which specific ancestor is the 'Biji Purusha' of the Mandar Mool, dating back to approximately 400 AD?	Mahamahopadhyaya Trivenibhatta.
1807	What religious text serves as the foundation for the marriage rules implemented in the Panji system?	The Smritis (specifically Manu Smriti and Yajnavalkya Smriti).
1808	The term 'Genome Mapping' is used in the text as a modern metaphor for which ancient system?	The Panji Prabandh (Maithil genealogical records).
1809	Which Maithil Maharaja requested the writing of the 'Sakha Pranayan' book?	Maharaja Madhav Singh of Darbhanga.
1810	A marriage between the daughter of a maternal uncle and the son of a paternal aunt is generally _____ under Panji rules.	Prohibited
1811	What is the role of 'Mool' and 'Sakh' in identifying a Maithil Brahmin?	It identifies their original root lineage and their current family branch.
1812	Which poet's 19-generation lineage is meticulously preserved in the Sakha Panji?	Vidyapati Thakur.
1813	The text mentions that even some Kayasthas and Kshatriyas had Panji systems. To which Kayastha sub-group does this specifically apply?	Karna Kayasthas.
1814	Which branch of Brahmins performs the 'Upanayana' (sacred thread ceremony) with four specific Sanskaras?	Chandoga (Samavedi) and Vajasaneyi (Yajurvedi) have slight variations in these rituals.
1815	For a 'Vajasaneyi' marriage, is there a specific requirement to see the Arundhati star?	No, that requirement is specific to the 'Chandoga' (Samavedi) marriage ritual.
1816	The 'Pancha Dravida' Brahmins belong to the regions south of the _____.	Vindhya mountains
1817	List the five Dravida Brahmin groups.	Karnataka, Gurjara, Tailanga, Dravida, and Maharashtra.
1818	The record-keeping books were traditionally bound using wooden planks and a thick cotton thread called _____.	Sutari
1819	What was the significance of the 'Saka 1019' date in the text?	It marks the arrival of King Nanyadeva and the establishment of the Karnat dynasty in Mithila.
1820	The genealogical record of a person who married a 'Dasa' (servant) or someone from a lower caste was moved to the _____.	Dushan Panji
1821	According to the text, a child born from a marriage with a 'Svajana' (close relative) was traditionally considered a _____.	Chandala (outcaste)
1822	Which scholar's lineage is traced for 18 generations up to the registrar Modanand Jha?	Pandit Gunakar Jha.
1823	The practice of 'Siddhant' requires the groom and bride's families to meet the _____ before the wedding.	Panjikar
1824	How does the Panji system handle 'Moolgram' changes due to migration?	The original village name is retained as the 'Mool', but the new village is added as the current residence.
1825	Which Gotra has the highest number of branches (74) identified in Mithila?	Kashyap.
1826	What is 'Apanhi' or 'Yaadni' अण्पाणि यादनि ?	The self-maintained family record used before the formal Panji Prabandh was established.
1827	The Sanskrit phrase 'Matritah Panchami, Pitritah Saptami' refers to avoiding _____.	Five maternal generations and seven paternal generations in marriage.

1828	Who provided the 'Samprami Tyajet' (7-generation rule) ruling that became standard for Maithil society?	Mahamahopadhyaya Mahesh Thakur.
1829	Which Gotra is associated with the 'Kujouli' and 'Jalki' Mools?	Katyayan.
1830	True or False: The Panji system allows marriage if the couple shares the same Pravara but different Gotras.	False.
1831	The historical figure Aryabhata is recorded in the Mandar Mool of the _____ Gotra.	Kashyap
1832	Which branch of Samavedi Brahmins is Chaitanya Mahaprabhu's teacher, Ilamapati Upadhyaya, associated with?	Karah-Bisai branch of the Vatsa Gotra.
1833	What title was given to Modanand Jha by Maharaja Kameshwar Singh for his expertise in Panji?	Panji Shastra Martand (or Labdh-Dhout).
1834	The 'Pancha Dravida' classification includes the Brahmins of Gujarat and _____.	Maharashtra
1835	In the genealogical tables, what does the term 'Agnyat' (अग्न्यत) signify?	An unknown lineage, often leading to a 'Dushan' (flaw) in the record.
1836	What is the primary purpose of the 'Panji Prabandh' in Maithil society?	To maintain genealogical records and ensure caste purity for marriage eligibility.
1837	Which three social groups were originally included in the 'Panji Prabandh' record-keeping system?	Brahmins, Kayasthas, and Kshatriyas.
1838	In the context of Panji, what does the term 'Udeht' represent?	A formal introduction identifying seven generations of an individual's ancestors.
1839	How many total ancestors' introductions are ideally required to establish a full genealogical identity in the Panji system?	Thirty-two (32).
1840	To be eligible for marriage, a Maithil Brahmin must typically avoid common ancestry for how many generations on the paternal side?	Seven generations.
1841	According to the Panji rules, how many generations must be avoided on the maternal side for marriage eligibility?	Five generations.
1842	The categories of Maithil Brahmins resulting from the Panji classification are Shrotriya, Yogya, and _____.	Panjibaddh
1843	What is the term for those Brahmins who did not register in the Panji records?	Jaywar (Jaebat).
1844	How many total 'Gotras' are recognized within the Maithil Brahmin community?	Twenty (20).
1845	How many primary 'Moolgrams' (root villages) were originally identified in the Maithil Panji?	One hundred and sixty-seven (167).
1846	In the Maithil Brahmin hierarchy, how many 'Mools' are considered the main or primary ones?	Thirty-four (34), later expanded to thirty-five (35).
1847	The two main Vedic branches followed by Maithil Brahmins are the Samavedi (Chhandogya) and the _____.	Yajurvedi (Vajasaneyi)
1848	Which historical King of the Karnata dynasty initiated the formal 'Panji Prabandh' in 1326 AD (Shaka 1248)?	Maharaja Harisimhadeva.
1849	Who was appointed as the first official 'Panjika' by King Harisimhadeva?	Gunakar Jha.
1850	What are the two types of 'Pravara' families identified among Maithil Brahmins based on Rigvedic sage ancestors?	Tri-Pravara (3 ancestors) and Pancha-Pravara (5 ancestors).
1851	List the three Gotras categorized as 'Pancha-Pravara'.	Vatsa, Savarna, and Bharadwaj (specifically listed as Vatsa, Savarna, and Garga in some contexts, but text specifies Vatsa, Savarna, and Garga/Vardhanya).
1852	Concept: Siddhanta Patra (Asvajananita Patra)	Definition: A certificate issued by a Panjika confirming that the bride and groom have no prohibited blood relation.
1853	What geographical feature traditionally divides the 'Panch Gaud' Brahmins from the 'Panch Dravid' Brahmins?	The Vindhyachal mountain range.
1854	Maithil Brahmins belong to which of the five northern Brahmin divisions ('Panch Gaud')?	Maithil.
1855	In the Chhandogya (Samavedi) marriage tradition, what are the two distinct sections of the ceremony?	Purva-Vivah and Uttar-Vivah.
1856	What is the significance of the 16 'Chhatth' (avoidance points) in Panji analysis?	They are specific genealogical positions of ancestors used to detect prohibited overlaps in lineage.
1857	Which 7th-century philosopher mentioned 'Samuha Lekhya' (family records) as a way to preserve lineage purity?	Kumarila Bhatta.
1858	Maithil Brahmins of the Chhandogya branch belong to the _____ Shaka of the Samaveda.	Kauthuma
1859	Maithil Brahmins of the Vajasaneyi branch follow the _____ Shaka of the Shukla Yajurveda.	Madhyandina
1860	What is the function of the 'Dushan Panji'?	To record flaws, lapses, or exceptions in a lineage to warn future generations.
1861	According to the texts, marriage is forbidden if the bride is the offspring of the groom's _____.	Maternal uncle (specifically 'Nimata' or mother's brother).

1862	Which specific Gotra is common to all Karna Kayasthas mentioned in the text?	Kashyap.
1863	How many 'Chhatth' (genealogical hurdles) must be checked for a bride to ensure she is not a 'Sapinda'?	Sixteen (16).
1864	The ancestors of the Savarna and Vatsa Gotras are considered the same, meaning marriage _____ occur between them.	Cannot (prohibited).
1865	What is the 'Laukik' in the context of Shrotriya Brahmins?	A lineage classification based on the social standing and marital history of their ancestors.
1866	Who revised the paternal avoidance rule from seven generations to six for the modern Maithil community?	Maharaja Mahesh Thakur.
1867	Which 'Mool' does the famous Maithili poet Vidyapati Thakur belong to?	Bisaphi (from the Kashyap Gotra).
1868	What does 'Panch-Dravid' refer to in the classification of Brahmins?	The five southern Brahmin groups: Gurjar, Tailang, Dravid, Karnat, and Maharashtrian.
1869	What does the 'Shakha Panji' record?	Extended branch lineages, including titles, educational achievements, and migration details of individuals.
1870	The 'Panji Prabandh' system was established to prevent the status of _____ being conferred upon children of improper marriages.	Chandal
1871	What is the term for the maternal grandfather's lineage in the Udeht?	Matamaha.
1872	What is the significance of Maharaja Madhav Singh's reign (c. 1760 AD) in Panji history?	The introduction of 'Shakha Panji' and more rigid social sub-divisions.
1873	Which Gotra includes ancestors such as Sandilya, Asit, and Deval?	Shandilya.
1874	Process: Determining Marriage Eligibility	Step: A Panjkar cross-references the 32 mools of the groom and bride to check for Sapinda (blood) overlaps within defined generation limits.
1875	The ancestors of the _____ Gotra include Shakti, Vashistha, and Parashar.	Parashar
1876	Which Panjkar was awarded the title 'Panji Shashtra Martand' by Maharaja Kameshwar Singh?	Modanand Jha.
1877	How many 'Paunjis' (record books) exist for the Shrotriya and Yogya/Panjibaddh categories respectively?	32 for Shrotriya and 153 for Yogya/Panjibaddh.
1878	The term 'Pachhwari-Paar' refers to which category of Maithil Brahmins?	Non-Shrotriya Brahmins (Yogya and Panjibaddh).
1879	According to Panji preservation rules, what should the books be protected from?	Water, oil, and loose binding.
1880	What is the recommended time of year to dry and air out Panji manuscripts?	When the Sun is in the Leo (Simha) constellation (approx. August-September).
1881	Which Gotra lists 'Atri' and 'Sankriti' as two of its three Pravara ancestors?	Vashistha.
1882	The sage ancestors identified in the Pravara system are described as the original _____ of Rigvedic hymns.	Seers (or composers/Mantra-drashta).
1883	In the Panji system, what is a 'Mool' primarily based upon?	The ancestral village or place of origin.
1884	Identify the Gotra: Ancestors are Kashyap, Avatsar, and Naidhruvi.	Kashyap.
1885	Which historical era does the text mark as the beginning of the 'Panji' record-keeping?	The transition to the Late Medieval period (approx. 13th-14th century).
1886	What is the 'Sapaninda' rule?	The prohibition of marriage between individuals sharing common ancestors within a certain number of degrees.
1887	True or False: The Panji system originally included records for 72 Rajput clans.	True.
1888	Who was the Maithil King who appointed specific Panjiks for Brahmins, Kayasthas, and Kshatriyas?	Harisimhadeva.
1889	The 'Gaur' Brahmins are located north of the _____ river/mountain range.	Vindhya
1890	Which Gotra is associated with the 'Ayan' (highest excellence) Mools like Kharaure and Khauare?	Shandilya (implied by lineage lists).
1891	The term 'Pubari-Paar' refers to which group in the Maithil social hierarchy?	Shrotriya Brahmins.
1892	Why is the maternal uncle's lineage ('Matri-paksha') strictly checked in Panji?	To ensure the groom is not marrying a girl from his mother's immediate family lineage up to the 5th generation.
1893	What is the 'Biji Purush' of the Mool 'Simbhuwal'?	Ratnapani.
1894	What was the primary purpose for the creation of the Panji Prabandh in Mithila?	To ensure the genealogical purity of Brahmin, Kayastha and Kshatriya castes for marriage purposes.
1895	According to the Panji Prabandh, how many generations of ancestors are included in the introduction known as 'Udegh'?	Seven generations.

1896	How many ancestors' introductions are required to establish an individual's 'Udegh'?	Thirty-two ancestors.
1897	Which three main castes were originally included in the Panji records during the medieval period?	Brahmin, Kayastha and Kshatriya.
1898	How many generations must be avoided for marriage on the father's side according to the 'Shrotriya' standards?	Seven generations.
1899	In the Shrotriya classification, how many generations must be avoided for marriage on the mother's side?	Five generations.
1900	What is the name for the category of individuals who were not included in the formal Panji records?	Jaybar (or Jaibar).
1901	The 'Panjibaddh' group of people are also referred to as ____.	Jaika Vanshaj.
1902	For the Panjibaddh category, how many generations must be avoided on the father's side for marriage?	Six generations.
1903	How many 'Gotras' (clans) are recognised within the Maithili Brahmin community?	Twenty.
1904	How many 'Moolgrams' (original villages) were initially identified in the Panji system?	One hundred and sixty-seven.
1905	Of the total Mools, how many were designated as the 'Mukhiya' (primary) Mools?	Thirty-four (later thirty-five).
1906	How many ancestors are cited in a 'Tri-pravara' lineage?	Three.
1907	How many ancestors are cited in a 'Pancha-pravara' lineage?	Five.
1908	Which two Gotras cannot intermarry because they share the same ancestors despite being separate clans?	Vatsa and Savarna.
1909	The 'Pancha Gauda' division of Brahmins includes Utkala, Kanyakubja, Gauda, Saraswat and ____.	Maithil.
1910	What geographical feature acts as the dividing line between 'Pancha Gauda' and 'Pancha Dravida' Brahmins?	The Vindhyachal Mountains.
1911	Maithili Brahmins are followers of which two specific Vedas?	Yajurveda and Samaveda.
1912	Followers of the Madhyandina branch of the Yajurveda in Mithila are called ____.	Vajasaneyi.
1913	Followers of the Kauthuma branch of the Samaveda in Mithila are called ____.	Chhandoga.
1914	What is the specific rule regarding marriage and the 'Sapinda' of the mother?	One cannot marry a girl who is a Sapinda of the mother.
1915	Under the rules of marriage, a person cannot marry someone who shares the same ____ or ____.	Gotra; Pravara.
1916	In which 7th-century text by Kumarila Bhatta was the concept of 'Samuha Lekhya' (family records) first mentioned?	Tantra Varttika.
1917	Which historical event led to the formalisation of the Panji records in 1326 AD?	Pandit Harinath Upadhyaya unknowingly marrying his first cousin's daughter.
1918	Who was the King of Mithila who initiated the Panji Prabandh system?	Maharaja Harisimhadeva.
1919	In what year of the Shaka era was the Panji system established?	Shaka 1248 (1326 AD).
1920	Who was the first person appointed to manage the Panji records for Maithili Brahmins?	Gunaakara Jha.
1921	What is the term for the professional genealogist appointed by royal decree to verify marriage eligibility?	Panjikar.
1922	In the Panji system, what is a 'Beeji Purush'?	The earliest known ancestor from whom a specific lineage or 'Mool' originates.
1923	The Gotras Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja and Katyayana are known as the ____ Gotras.	Seven Primary (or most populous).
1924	Which branch of the Samavedic marriage ceremony includes looking at the star Arundhati after sunset?	Uttara Vivaha.
1925	Term: Mool	Definition: The original ancestral village that serves as a unique identifier for a family branch.
1926	What does the 'Dushana Panji' record?	The historical flaws or violations of social/caste norms within a lineage to prevent their recurrence.
1927	How many specific ancestral relations, known as 'Chhadth', are checked to determine marriage eligibility?	Sixteen.
1928	The rule 'Matritah Panchami, Pitritah Saptami' refers to avoiding ____ generations on the mother's side and ____ on the father's side.	Five; Seven.
1929	Who is the 'Prathama Chhadth' in the verification of a girl's lineage?	The girl's great-great-grandfather (Vridha Prapitamaha).
1930	Which Maharaja of Darbhanga ordered the creation of 'Sakha Panjis' during the 18th century?	Maharaja Madhav Singh.
1931	What does the 'Laukiki' refer to in the context of Shrotriya Brahmins?	The specific social status or sub-category within the Shrotriya Panji.

1932	How many 'Chauyala' (tiers) are the Shrotriya Panjis divided into?	Eight.
1933	The records for the 'Pachhwari Paith' (lower category) Brahmins include how many Panjis?	One hundred and fifty-three.
1934	Why is it recommended to dry Panji books when the Sun is in the Leo (Simha) sign?	Because the sunlight is strongest then, which helps preserve the palm leaves from pests.
1935	In the verification process, a person is ineligible for marriage if they appear as any of the 16 'Chhadhth' in the groom's _____ side.	Paternal (Pitri-paksha).
1936	Under what condition is a 'Chhadhth' relationship considered eligible for marriage?	If the relationship appears only on the maternal side (Matri-paksha) after the 5th generation.
1937	The 'Aayachi' title is associated with which famous Panji figure from the Sodarpur Mool?	Bhavanath Mishra (Aayachi Mishra).
1938	What is the primary script used for the 'Genome Mapping' project mentioned in the source?	Devanagari (transliterated from Tirhuta).
1939	Which historical figure from the 4th century AD is cited as a Beeji Purush for the Mandar Mool?	Mahamahopadhyaya Trivein Bhatta.
1940	The 'Udegh Panji' is used specifically to identify the termination of _____.	Sapindata (blood relationship boundaries).
1941	How many Gotras are found among the Karna Kayasthas according to the text?	Only one (Kashyapa).
1942	In the Panji Prabandh, the original village of a person is called their 'Mool', while the current village is called their _____.	Moolgram.
1943	What is the total number of Shrotriya Panjis mentioned in the text?	Thirty-two.
1944	What does the 'Gotra Panji' contain?	A list of all Gotras and their corresponding ancient Mools.
1945	What does the 'Paat Panji' primarily record?	The descendants of a specific lineage, starting approximately 500 years ago.
1946	Who was the 'Beeji' (founding ancestor) of the Kharaure Mool?	Vanshadhar.
1947	Concept: Sapanthya	Definition: The state of being related by blood, which must be verified as absent before a Hindu marriage.
1948	Which King of the Karnata dynasty is praised as the 'Chudamani' (crest jewel) in the Panji verses?	Harisimhadeva.
1949	Who was appointed to maintain the Panji for the Kshatriya (Rajput) community?	Vijayadatta.
1950	Who was appointed to maintain the Panji for the Karna Kayastha community?	Shankaradatta.
1951	How many Rajput clans are listed in the 'Varna Ratnakara' mentioned in the text?	Seventy-two (with sixty-four described in detail).
1952	What was the result of a Brahmin marrying an 'Agyaat' (unknown caste) girl in ancient Panji records?	The lineage would be marked in the Dushana Panji, affecting the status of descendants.
1953	Which Sanskrit poet and scholar's lineage is fully documented in the Panji records for seven generations prior to his birth?	Vidyapati Thakur.
1954	The 'Pancha Dravida' Brahmins include those from Karnataka, Gujarat, Maharashtra, Dravida (Tamil/Kerala) and _____.	Tailang (Andhra).
1955	Which religious teacher and philosopher is mentioned as a disciple of Damodar Upadhyaya of the Kharaure Mool?	Chaitanya Mahaprabhu.
1956	What is the significance of the year 1326 AD for Maithili culture?	It marks the start of the Panji Prabandh, a unique system of genealogical tracking.
1957	What does 'Aswajanapatra' literally mean?	A document certifying that the parties are 'not relatives'.
1958	The term 'Beeji Purush' refers to the _____ ancestor of a clan.	Earliest known/Root.
1959	Which Gotra does the founding ancestor 'Shandilya' belong to?	Shandilya.
1960	How many tiers or categories of Maithili Brahmins were created after the Panji management?	Three (Shrotriya, Yogya, and Panjibaddh).
1961	The record of 'social flaws' in the Panji system was designed to protect future generations from _____.	Genetic or social degradation (Dushana).
1962	Process: Siddhanta Verification	The Panjekar compares 32 ancestors of the bride and groom to ensure no common ancestor exists within 6/7 generations.
1963	The Maithili Brahmin community is primarily divided into how many Mools?	One hundred and sixty-seven.
1964	What title was given to Modanand Jha for his expertise in Panji Shastra?	Panji Shastra Martand.
1965	What was the primary purpose for the creation of the Panji Prabandh in the late medieval period?	To ensure caste purity and regulate marriage eligibility among Brahmins, Kayasthas, and Kshatriyas.
1966	Which ruler of the Karnata dynasty is credited with the systematic implementation of the Panji records in Mithila?	Maharaja Harisimhadeva.
1967	In what year (both Shaka and AD) was the formal decision made to institutionalise the Panji records?	Shaka 1248, which corresponds to 1326 AD.

1968	Who was appointed as the first Panjikaar (genealogist) for Maithil Brahmins by Maharaja Harisimhadeva?	Pandit Gunakar Jha.
1969	In the Panji system, what does the term 'Udedh' signify?	A formal introduction covering seven generations of ancestors.
1970	How many specific ancestral roots (Mools) are required to complete the 'Udedh' introduction?	32
1971	What is the generational restriction for marriage regarding the maternal lineage in the Panji system?	A marriage cannot take place within five generations of the maternal side.
1972	How many generations are typically excluded from the paternal side for marriage eligibility among Shrotriyas?	Seven generations.
1973	What term describes the earliest known ancestor or the founder of a specific lineage in a Panji record?	Biji Purusha.
1974	Which term refers to the original ancestral village associated with a lineage in the Panji system?	Moolgram.
1975	What are the three main hierarchical categories of Maithil Brahmins established during the Panji Prabandh?	Shrotriya, Yogya, and Panjibaddh.
1976	What is the total number of Gotras traditionally recognised among Maithil Brahmins?	20
1977	List the seven most prominent and well-established Gotras in the Maithil Brahmin community.	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
1978	What is the Vedic distinction between 'Tripravara' and 'Panchapravara' in lineage tracing?	Tripravara traces three ancestral sages who composed Rigveda hymns, while Panchapravara traces five.
1979	In the context of marriage, what is a 'Siddhanta Patra'?	A certificate issued by a Panjikaar confirming that the bride and groom are not related within prohibited degrees.
1980	According to the Panji system, what is the consequence of marrying a 'Swajana' (a person within the prohibited degrees of relationship)?	The marriage is considered invalid and the offspring are traditionally excluded from the Aryan social fold.
1981	Which historical text by Kumarila Bhatta is cited as an early reference for 'Samuha Lekhya' or group genealogical records?	Tantra Varttika.
1982	Maithil Brahmins who follow the Madhyandina branch of the Shukla Yajurveda are known as _____.	Vajasaneyi.
1983	What term is used for Maithil Brahmins who follow the Kauthuma branch of the Samaveda?	Chandoga.
1984	How many primary 'Mools' (roots) were initially identified from the 167 total Moolgrams?	34 (later expanded to 35).
1985	In the Panji system, the paternal side exclusion for 'Panjibaddh' Brahmins is _____ generations.	Six.
1986	Which specific Gotras share the same ancestors, thereby prohibiting marriage between them?	Vatsa and Savarna.
1987	The term 'Chhatth' refers to sixteen specific positions in a family tree used to determine _____.	Marriage eligibility (specifically the 6th ancestor check).
1988	Who was the designated Panjikaar for the Karna Kayastha community under Harisimhadeva?	Shankaridatta.
1989	Who was appointed to manage the Panji records for the Kshatriyas (Rajputs)?	Vijayadatta.
1990	Which category of Maithil Brahmins is traditionally referred to as 'Pubari-paat'?	Shrotriyas.
1991	What term is used for the non-Shrotriya Brahmins, often referred to as 'Pachhabari-paat'?	Jaywar (or those outside the Shrotriya hierarchy).
1992	The document that records the defects or 'Doshas' within a lineage is known as the _____ Panji.	Dushan.
1993	Which Maharaja of Darbhanga ordered the creation of 'Shakha Panjis' (branch records) to record the evolving sub-lineages?	Maharaja Madhav Singh.
1994	What is the traditional script used to write the Panji records in Mithila?	Tirhuta (Mithilakshar).
1995	In the context of marriage analysis, the maternal grandfather's maternal grandfather is the _____ 'Chhatth'.	Tenth.
1996	What is the 'Asvaganya Patra'?	A document proving that the couple does not share a common ancestor within the prohibited generational limits.
1997	How many categories of Panji books exist, such as Mool, Shakha, and Gotra?	Seven.
1998	Why were Panjikaars instructed to dry their books in the sun during the month when the Sun enters Leo?	To protect the palm leaves from moisture and pests during the intense heat of that season.
1999	In the Karna Kayastha community, which single Gotra is universally followed?	Kashyapa.
2000	The 'Brahmapura' Mool is unique because it is found across _____ different Gotras.	Six.
2001	What is the significance of the 1326 AD reform regarding the storage of family introduction records?	The records were moved from private family possession to the custody of state-authorised Panjikaars.

2002	Which ancestor represents the first 'Chhatth' in the marriage eligibility check?	The father's grandfather's father (Great-great-grandfather).
2003	The Samavedic marriage ritual concludes after the couple views the _____ star.	Arundhati (the evening star).
2004	The Panji records identify ten divisions of Brahmins in India; which division do the Maithils belong to?	Panch-Gaud.
2005	How many specific Rajpoot (Kshatriya) clans are mentioned in the 'Varna Ratnakara' of Jyotirishwar Thakur?	72 clans (with 64 described in detail).
2006	The 'Shakha Panji' of _____ is considered one of the oldest and most comprehensive palm-leaf records still available.	Pandit Devand (Chhoti Jha).
2007	In the Panji system, what is 'Laukik'?	The social status or recognition of a lineage within the Shrotriya hierarchy.
2008	Why did the Panji system initially allow marriage between Vatsa and Savarna Gotras to be prohibited?	Because they share the same 'Pravara' sages, indicating a common origin.
2009	How many 'Chhatth' (ancestral positions) must be checked on the bride's side to ensure she is not related to the groom?	16
2010	Which major Gotra includes the Mools of Digrit, Sarisab, and Mahua?	Shandilya.
2011	The 'Oini' and 'Khauwal' Mools belong to which major Gotra?	Kashyapa.
2012	Which Gotra is associated with the 'Ekahra' and 'Belonch' Mools?	Bharadwaja.
2013	The 'Pani-chobh' and 'Sonepur' Mools are primarily associated with the _____ Gotra.	Savarna.
2014	What does the term 'Biji' imply in the context of 'Biji Purusha'?	The 'seed' or progenitor of the lineage.
2015	Why are Maithil Brahmins classified under 'Panch-Gaud' rather than 'Panch-Dravid'?	Because Mithila is located north of the Vindhya Mountains.
2016	Term: Sam-pravara	Definition: The state of sharing the same ancestral sages, which prohibits marriage in Vedic tradition.
2017	Which historical figure's 'Varna Ratnakara' provides a list of 72 Rajput clans relevant to the Panji context?	Jyotirishwar Thakur.
2018	What is the role of the 'Siddhanta' ceremony in a Maithil wedding?	It is the public verification by a Panjekar that the marriage is shastrically valid.
2019	Which Panji specifically records instances of 'Kshati' or degradation in lineage status?	Dushan Panji.
2020	True or False: The Panji system is currently only active among Maithil Brahmins and Karna Kayasthas.	True (it has largely disappeared among Kshatriyas).
2021	The introduction of the 'Shakha Panji' led to the emergence of social evils such as _____.	Child marriage and polygamy (due to hypergamy and lineage status).
2022	According to the Panji theory, birth from a purified lineage ensures _____.	An 'Arya' (noble) progeny as per Vedic standards.
2023	The paternal grandfather's maternal grandfather's father represents the _____ Chhatth.	Third.
2024	Which document is created five to ten years before a girl's marriage to list eligible grooms?	Adhikar Mala.
2025	The Panji management system is described as an early form of _____ mapping in the source text.	Genome.
2026	What is the significance of the 1326 AD reform for the 'Jaywar' category?	It distinguished those with verified registered lineages (Panjibaddh) from those without.
2027	In the Panji records, the suffix '-war' in village names often indicates _____.	The original inhabitancy or root village (e.g., Khauwar from Khauwal).
2028	What is the primary objective of the 'Panji Prabandh' in Mithila?	To ensure the genetic and genealogical purity (Jati Shuddhita) of Brahmins, Kayasthas, and Kshatriyas.
2029	During which historical period was the Panji Prabandh initially established?	The Early Medieval period.
2030	What does the term 'Udegh' refer to in the context of Panji genealogy?	The identification and introduction of 32 specific ancestors within seven generations.
2031	How many total 'Gotras' are recognized within the Maithil Brahmin community according to the source material?	20
2032	In Maithil Brahmin marriage rules, how many generations must be avoided on the paternal (Pitri) side?	Seven generations.
2033	In Maithil Brahmin marriage rules, how many generations must be avoided on the maternal (Matri) side?	Five generations.
2034	What are the three distinct social categories created through the Panji system for Maithil Brahmins?	Shrotriya, Yogya, and Panjibadh.
2035	What is the total number of primary 'Mulas' (ancestral village origins) recorded for Maithil Brahmins?	167
2036	Which two Vedic branches are the Maithil Brahmins primarily followers of?	Samaveda (Kauthuma shakha) and Yajurveda (Madhyandina shakha).

2037	Followers of the Madhyandina branch of Yajurveda are known by what name in Mithila?	Vajasaneyi.
2038	Followers of the Kauthuma branch of Samaveda are known by what name in Mithila?	Chandoga.
2039	The five northern groups of Brahmins, including Maithils, are collectively known as _____.	Pancha-Gauda.
2040	The five southern groups of Brahmins are collectively known as _____.	Pancha-Dravida.
2041	Which geographical feature serves as the boundary between the Pancha-Gauda and Pancha-Dravida Brahmins?	The Vindhyaachal mountains.
2042	According to the Puranas, name the five groups that constitute the 'Pancha-Gauda' Brahmins.	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
2043	In which Shaka year was the decision taken to formalise the Panji system by Maharaja Harisimhadeva?	Shaka 1248 (1326 AD).
2044	Who was the Maharaja of Mithila credited with the formal implementation and institutionalisation of the Panji system?	Maharaja Harisimhadeva.
2045	What is 'Siddhanta Patra' (also known as Aswajana Patra)?	A formal certificate issued by a Panjekar confirming that the bride and groom are not related within prohibited degrees.
2046	Which scholar's 'Tantra-Varttika' mentions 'Samuh Lekhya' as an early form of genealogical record-keeping?	Kumarila Bhatta.
2047	What is a 'Panjekar'?	A designated registrar or specialist scholar who maintains genealogical records and verifies marriage eligibility.
2048	The term for a person whose lineage is formally recorded in the Panji registers is _____.	Panjibadh.
2049	What is the definition of a 'Biji Purush' in the Panji system?	The earliest known ancestor of a specific lineage or clan branch.
2050	Which Gotra has the highest number of branches (74) listed in the material?	Kashyapa.
2051	Maithil Brahmins are classified into two groups based on the number of ancestors who were Vedic seers; what are these two groups?	Tri-pravara (3 seers) and Pancha-pravara (5 seers).
2052	List the seven most prominent and well-known Gotras among Maithil Brahmins.	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
2053	Name the scholar appointed by Maharaja Harisimhadeva to manage the Panji records for Maithil Brahmins.	Gunakar Jha.
2054	Who was appointed to manage the genealogical records for the Kshatriyas in Mithila?	Vijaydutt.
2055	How many categories (Shreni) are the Shrotriya Brahmins divided into?	Eight.
2056	How many categories (Shreni) are the Yogya and Vanshaja Brahmins divided into?	Fifteen.
2057	The 'Shakha Panji' (branch registers) was introduced during the reign of which Maharaja?	Maharaja Madhav Singh.
2058	Identify the seven types of Panji registers mentioned in the text.	Mula, Shakha, Gotra, Panji, Dushan, Udeggh, and Aswajanyapatra.
2059	What is the specific purpose of a 'Dushan Panji'?	To record and preserve information about flaws or social deviations within a lineage to prevent their recurrence.
2060	Term: 'Chhaidhat' (Chhath)	Definition: The sixteen specific genealogical relationships/ancestors checked to determine marriage eligibility.
2061	According to the Panji rules, can a marriage occur if the bride and groom share the same Gotra or Pravara?	No, it is strictly prohibited.
2062	Which rule states that a groom cannot marry the daughter of his stepmother's brother?	Matri-sapinda prohibition (specifically the step-maternal uncle's offspring).
2063	What preservation technique is suggested for Panji manuscripts involving the sun?	Drying the books when the sun enters the Leo (Simha) zodiac sign (approx. mid-August to mid-September).
2064	Which scholar's works were recovered from the libraries of Nepal, as mentioned in the Panji history?	Jyotirishwar Thakur.
2065	Who was the maternal grandfather of the famous philosopher Mahesh Thakur according to Panji records?	Rudra Jha of Sakarari Mula.
2066	The manuscript 'Varna-Ratnakara' by Jyotirishwar Thakur mentions how many Rajput clans?	72 clans (though 64 are specifically described).
2067	According to the Panji, Vidyapati Thakur's lineage is traced back through how many generations?	Seven generations or more, including details of their scholarship and titles.
2068	What is the term for Maithil Brahmins who did not get registered in the Panji during the initial management?	Jaibar.
2069	Which Gotras share the same ancestors, resulting in a prohibition of marriage between them?	Vatsa and Savarna.
2070	In the Panji system, what does a 'Mula Gram' signify?	The original village of the 'Biji Purush' (founding ancestor) of a lineage.

2071	How many main 'Mulas' were initially identified out of the 167 available?	34 (later 35 with the addition of the 'Khauam' branch of the 'Phandah' mula).
2072	The 'Udegh Panji' is used primarily to ensure the absence of ____.	Sapinda (consanguineous) relationships within prohibited degrees.
2073	Which Maharaja ordered the creation of 'Shakha Panji' to distinguish between Shrotriya and other groups?	Maharaja Madhav Singh (around 1760 AD).
2074	Which Panjkar was awarded the title 'Panji-Shastra-Martand' by Maharaja Kameshwar Singh?	Modanand Jha.
2075	The primary script used to write the original Panji records is ____.	Tirhuta (Mithilakshar).
2076	How is the 'sixteenth Chhaidhat' defined in the marriage eligibility criteria?	The paternal great-grandfather of the maternal grandmother of the maternal grandmother.
2077	If a prohibited 'Chhaidhat' relation appears on the groom's maternal side (Matri-paksha), is the marriage allowed?	Yes, provided it is beyond the fifth generation.
2078	If a prohibited 'Chhaidhat' relation appears on the groom's paternal side (Pitri-paksha), is the marriage allowed?	No, if it falls within the seven prohibited generations.
2079	Which Panjkar's branch book is noted as one of the oldest available (1690-1710 AD)?	Paun Madhu Dev Jha.
2080	Process: What happens if a marriage occurs between individuals within the prohibited 'Sapinda' degrees?	The offspring were historically considered 'Chandala' or social outcasts from the Aryan ऋषिपुत्रादयः (mariyada).
2081	Concept: 'Atyanta Shrestha' Mulas	Definition: The first-grade ancestral lineages, including names like Khadaure, Khauare, and Sarisabe.
2082	Concept: 'Madhyam' Mulas	Definition: The medium-grade ancestral lineages, such as Dighwe, Panchobhe, and Jalaki.
2083	What is the role of 'Asawajanyapatra' in the modern Panji system?	It is a document requested by families today to have marriage eligibility certificates written in the Devanagari script.
2084	Why is 'Genome Mapping' used as a title for this genealogical study?	To draw a parallel between modern genetic tracking and the ancient Panji system's method of preserving lineage purity.
2085	Which historical Panjkar is considered the 18th generation predecessor of Modanand Jha?	Sadupadhyay Gunakar Jha.
2086	How many 'Gotras' are listed as 'the remaining 13' (lesser populated) among Maithil Brahmins?	Garga, Kaushika, Alambukaksh, Krishnatreya, Gautama, Moudgalya, Vashistha, Koundinya, Upamanyu, Kapila, Vishnuvridha, Tandi, and Jatukarna.
2087	The Vedic sacrifice 'Darsha' and 'Purnamasa' involve the recitation of which genealogical element?	Pravara.
2088	According to the text, which community's Panji records are currently mostly lost or unmaintained?	The Kshatriyas (Rajputs) of Mithila.
2089	Who was the 'Biji Purush' of the 'Simhashram' Mula?	Mahamahopadhyaya Halayudha.
2090	Which Mula is the philosopher and poet Vidyapati Thakur associated with?	Bisaphi (under the Kashyapa Gotra).
2091	Formula: The standard generational gap rule from Manu Smriti followed in Panji is ____.	\$Matritah Panchami, Pitritah Saptami\$ (5 generations maternal, 7 paternal).
2092	The Panji system was created to fix the error made by which famous scholar who married within prohibited degrees?	Pandit Harinath Upadhyaya.
2093	Which Panji register records the 'Kshana' (flaws or falls in lineage status)?	Dushan Panji.
2094	True or False: A groom can marry a girl who is his paternal cousin.	False.
2095	Who was the King of Nepal whose court records helped verify Panji details of the Thakur family?	The Malla kings of Nepal (where Jyotirishwar and others served).
2096	What are the four 'Samskaras' included in the 'Upanayana' of the Chandoga (Samavedi) Brahmins?	Namakarana, Chudakarana, Upanayana, and Samavartana.
2097	Which Samskara is included in the 'Vajasaneyi' tradition but excluded from the 'Chandoga' tradition's Upanayana?	Vedarambha.
2098	In the 'Chandoga' tradition, when is the 'Uttara Vivaha' performed?	After sunset, following the sighting of the Arundhati star.
2099	What does the text claim regarding the scientific nature of 'Gotra' and 'Pravara'?	They are ancient classifications comparable to modern chromosome or genetic markers (\$Guna sutra\$).
2100	Which Panjkar was the lead examiner for Modanand Jha's 'Dhaut' examination?	Sir Ganganath Jha.
2101	Who is the 'Biji Purush' of the 'Mandav' Mula?	Trinayana Bhatta.
2102	What was the primary purpose for establishing the 'Panji Prabandh' in the medieval period?	To maintain the purity of the Brahmin, Kayastha, and Kshatriya castes.
2103	In the Panji system, what does the term 'Udhedh' signify?	The detailed introduction and identification of 32 specific ancestors.
2104	How many ancestors must be identified to satisfy the requirement of 'Udhedh' for marriage eligibility?	32

2105	According to the Panji Prabandh, what are the three main social categories of Maithil Brahmins?	Shrotriya, Yogya, and Panjibaddh.
2106	What was the status given to those who were not formally recorded in the Panji registers?	Jaywar
2107	How many generations must a Shrotriya Brahmin avoid on the paternal side for marriage?	Seven generations
2108	How many generations must a Shrotriya Brahmin avoid on the maternal side for marriage?	Five generations
2109	How many generations must a Panjibaddh Brahmin avoid on the paternal side for marriage?	Six generations
2110	In the Maithil Brahmin community, how many distinct Gotras are recognized?	20
2111	How many primary 'Mulas' (roots) are identified within the 167 Mula categories?	34 (later expanded to 35).
2112	What is the 35th Mula that emerged as an elite branch from the Phanandah Mula?	Khama
2113	Which three Gotras are categorized under the 'Panch-pravara' group?	Vatsa, Savarna, and Bharadwaj (though sometimes listed as Vatsa, Savarna, and Garga in variants).
2114	Why is marriage prohibited between individuals of the Vatsa and Savarna Gotras?	They share the same ancestors despite being distinct Gotras.
2115	Into how many groups are the ten Brahmin categories of India divided based on the Vindhya mountains?	Panch Gaur (North) and Panch Dravida (South).
2116	List the five Brahmin groups that comprise the 'Panch Gaur'.	Utkala, Kanyakubja, Gaur, Maithil, and Saraswat.
2117	Which historical region is the ancestral home of the Maithil Brahmins?	Videha (Mithila)
2118	Who was the ruler of the Karnat dynasty who institutionalised the Panji system in 1326 AD?	Maharaja Harisimhadeva
2119	In what year (Saka Era) was the Panji system officially recorded under King Harisimhadeva?	Saka 1248
2120	Who was the scholar appointed by Harisimhadeva to manage the Brahmin Panji Prabandh?	Gunakar Jha
2121	Who was the first registrar appointed for the Karna Kayasthas?	Shankardatta
2122	Who was the first registrar appointed for the Kshatriya (Rajput) community in Mithila?	Vijaydatta
2123	What is the 'Biji Purusha' in a lineage?	The earliest known ancestor or the 'seed man' of a specific clan/Mula.
2124	What is the 'Mula-gram' of a family in the Panji system?	The original ancestral village of the clan.
2125	The formal certificate issued by a Panjekar confirming marriage eligibility is called the _____.	Siddhanta-patra (or Asvajana-patra).
2126	How many 'Chhadisths' (points of intersection/prohibited relations) are checked before a marriage is approved?	16
2127	A marriage is prohibited if the bride falls within the _____ position of any of the groom's 16 designated ancestral points.	Sixth
2128	The Panji records pertaining to the Shrotriya class are referred to as _____.	Laukiki
2129	In which script were the Panji registers traditionally written?	Tirhuta (Mithilakshar)
2130	According to the traditional verse, what are the three main things a Panji book must be protected from?	Water, oil, and loose binding.
2131	During which solar month (when the Sun is in a specific constellation) should Panji books be dried in the sun?	Simha (Leo), roughly August to September.
2132	Which specific ancestor is considered the 'Biji' of the Mandar Mula?	Trivikram Bhatta
2133	Under which Maharaja did the 'Shakha Panji' (branching system) and social hierarchical divisions start to expand?	Maharaja Madhav Singh
2134	What is the 'Paura Panji'?	A register that mentions the Mula-grams (original villages) of the ancestors.
2135	Concept: Saman-Gotra	Definition: Sharing the same Gotra, which serves as a bar to marriage between a man and a woman.
2136	How many Gotra ancestors are listed for the 'Shandilya' Gotra?	Three: Shandilya, Asit, and Deval.
2137	Which Gotra includes 'Shakti, Vashistha, and Parashar' as its Pravaras?	Parashar
2138	The first 'Chhadisth' point is the daughter of the groom's _____.	Vridhdha Prapitamaha (Great-great-grandfather).
2139	If a prohibited 'Chhadisth' relative appears in the groom's maternal side, is the marriage allowed?	Yes, as the maternal restriction is only for five generations.
2140	In the Panji system, what happens to the social rank of a lineage if they marry into a lower-ranked family?	The rank is 'Adhogami' (descending) and eventually the high status is lost.

2141	What is the role of a 'Panjikar'?	A scholar who maintains genealogical records and verifies marriage eligibility.
2142	Which historical registrar's 19th-generation descendant is Vidyand Jha?	Sadupadhyaya Gunakar Jha
2143	According to the text, how many Mula-grams are found in the 'Mandar' Mula?	74
2144	What was the significance of Maharaja Madhav Singh's era for the Panji system?	The introduction of the 'Shakha Panji' and the formalisation of the Shrotriya/Yogya hierarchy.
2145	Which religious figure's Guru, Ishwar Puri, is linked to the Maithil Brahmin 'Phanandah' Mula?	Chaitanya Mahaprabhu
2146	How many 'Chhadisth' points are specifically calculated for the bride's side?	16
2147	The 16th 'Chhadisth' is the groom's _____.	Matrimatramaha (Maternal grandmother's maternal grandfather).
2148	Which scholar is credited with being the first 'Panch-Aditya' registrar in the verse celebrating Harisimhadeva?	Gunakar Jha
2149	What is the number of 'Srotriyas' Panjis compared to 'Yogya' and 'Vanshaj' Panjis?	32 Shrotriya Panjis and 153 Yogya/Vanshaj Panjis.
2150	How many Gotras are identified as 'Vyavasthit' (systematically documented and large) in Mithila?	Seven (Shandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, Katyayan).
2151	Which Gotra lists the Pravaras 'Kashyap, Avatsar, and Naidhruva'?	Kashyap
2152	Which Gotra lists the Pravaras 'Atrey, Archananas, and Syavasva'?	Krishnatrey (Atrey)
2153	Who was the registrar for the 72 Rajput clans mentioned in the 'Varna-Ratnakar'?	Vijaydatta
2154	What does the text suggest is the modern equivalent of the Panji system?	Genome Mapping
2155	Why were 'Dushana Panjis' maintained?	To ensure that future generations are aware of past lineage 'faults' and can avoid their negative social effects.
2156	Name one of the 13 'Atyanta Shrestha' (first class) Mulas.	Kharaure, Khauware, or Budhabare (among others).
2157	How many 'Madhyam' (middle) Mulas are listed in the Panji classification?	Eight
2158	List three 'Madhyam' Mulas.	Dighway, Belonchay, and Ekhahane.
2159	What is the distinguishing feature of the 'Vajasaneyi' marriage ceremony compared to 'Chhandoga'?	Vajasaneyi marriages do not have a strict division of the ceremony into 'Purva' and 'Uttar' phases based on seeing the star Arundhati.
2160	In Chhandoga marriages, when must the 'Uttar Vivah' occur?	After sunset, after seeing the star Arundhati.
2161	How many samskaras (rituals) are involved in the Upanayana ceremony of a Vajasaneyi Brahmin?	Four: Chudakarana, Upanayana, Vedarabha, and Samavartana.
2162	The list of 32 ancestors required for marriage clearance is technically called _____.	Udhedh
2163	Which Gotra is associated with the 'Mhua, Sarisab, and Dighaush' Mulas?	Shandilya
2164	To which Gotra do the 'Oini, Khauwal, and Sankradi' Mulas belong?	Kashyap
2165	Which Gotra contains the 'Ekahara and Belonch' Mulas?	Bharadwaj
2166	What is 'Pishun-panji'?	A derogatory or critical register (implied in context of social faults).
2167	What is the meaning of 'Asvapinda' in marriage rules?	Not belonging to the same 'Sapinda' (bloodline within specific degrees) of the mother or father.
2168	According to the Panji theory, a man should not marry the daughter of his _____.	Maternal uncle (Matul).
2169	How long did it take the author/team to complete the transliteration of the Panji books?	Seven years
2170	What was the result of the sage Hari Nath Upadhyaya marrying his own niece in the 14th century?	It prompted the official state-managed Panji registration to prevent such accidental prohibited marriages.
2171	The first reference to 'Samuh Lekhya' (group records) is found in the work of which philosopher?	Kumarila Bhatta (Tantra-Vartika).
2172	What is the primary purpose of the 'Panji Prabandh' system in Maithili society?	To maintain the purity of lineage and regulate matrimonial eligibility among Brahmins, Kayasthas, and Kshatriyas.
2173	During the reign of which king was the Panji Prabandh officially organised in Mithila?	Maharaja Harisimhadeva.
2174	In what year (both Shaka and AD) was the Panji system formally established?	Shaka 1248, which corresponds to 1326 AD.
2175	How many generations of paternal and maternal ancestors must be accounted for in a full 'Udegh'?	Thirty-two ancestors (32 Mool).
2176	According to the 'Chhaidh' rule for Shrotriyas, how many generations must be avoided for marriage on the paternal side?	Seven generations.

2177	According to the 'Chhaidh' rule for Shrotriyas, how many generations must be avoided for marriage on the maternal side?	Five generations.
2178	What are the three main hierarchical categories of Maithili Brahmins established by the Panji system?	Shrotriya, Yogya, and Panjibaddha (or Banshaj).
2179	Which social class of Maithili Brahmins was considered 'Jaybar'?	Those who were not initially recorded in the Panji registers.
2180	How many total 'Gotras' (clans) are recognised within the Maithili Brahmin community?	Twenty.
2181	How many 'Moolgrams' (root villages) were initially identified and recorded in the Panji system?	One hundred and sixty-seven (167).
2182	Term: Beeji Purush	Definition: The earliest known common ancestor of a specific family or lineage recorded in the Panji.
2183	What is the distinction between 'Tri-pravara' and 'Panch-pravara' lineages?	It depends on whether three or five ancestors (Rishis) authored hymns in the Rigveda.
2184	Which three Gotras are categorized as 'Panch-pravara'?	Vatsa, Savarna, and Bharv.
2185	Maithili Brahmins follow either the Madhyandini branch of the Yajurveda or the Kauthum branch of the ____.	Samaveda
2186	What is the specific term for Samavedic Brahmins in the Panji system?	Chhandogya.
2187	What is the specific term for Yajurvedic Brahmins in the Panji system?	Vajasaneyi.
2188	In Maithili Brahmin culture, the groups अप॑रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः , अ॒प॒रा॒ज॒त॒ः are collectively known as the ____.	Panch-Gaud
2189	Who is credited with maintaining the first Panji records for the Maithili Brahmins?	Gunakar Jha.
2190	Who was assigned to manage the Panji records for the Karna Kayasthas?	Shankardatt.
2191	Who was assigned to manage the Panji records for the Kshatriyas?	Vijayadatt.
2192	Term: Siddhanta-patra	Definition: A formal certificate of eligibility issued by a Panjikaar confirming that the bride and groom are not closely related (Asvajana).
2193	What triggered the formal organization of Panji records by King Harisimhadeva?	Pandit Harinath Upadhyaya unknowingly marrying a close relative due to lack of records.
2194	Which script is traditionally used to maintain and write the Panji records?	Mithilakshara (Tirhuta).
2195	What is the 'Dushan' Panji used for?	Recording defects, transgressions, or social falls within a lineage to prevent future matrimonial errors.
2196	Maharaja Madhav Singh introduced the ____ Panji to distinguish between different family branches within a Mool.	Sakha
2197	Which Brahmin category is also referred to as 'Pubaripahi'?	Shrotriya.
2198	Which Brahmin category is also referred to as 'Pachhuaripahi'?	The remaining Brahmin groups outside the Shrotriya class.
2199	A marriage is considered invalid if the bride and groom share the same ____.	Gotra or Pravara.
2200	The first reference to 'Sammukh-lekhyā' (collective records) for lineage protection was made by ____ in the 7th century.	Kumarila Bhatta
2201	How many specific 'Mools' are considered in the first tier of the 'Ayanti Shrestha' category?	Thirteen (13).
2202	What is the 'Laukik' in the context of the Shrotriya Panji?	Sub-classifications or local status groups based on specific family branches.
2203	Under the rule of King Harisimhadeva, how many main Mools were prioritised from the initial 167?	Thirty-four (34), plus one later addition (Khama branch of Phandah).
2204	What is the significance of 'Shaka 1019' in the text?	The year Nanyadeva established his rule in Mithila.
2205	What was the result of a marriage between 'Svajana' (forbidden relatives) according to ancient Smritis?	The couple was excommunicated, and the offspring were considered 'Chandala'.
2206	Name the two major divisions of Indian Brahmins based on geography separated by the Vindhya mountains.	Panch-Gaud (North) and Panch-Dravid (South).
2207	The Samavedic marriage ritual must traditionally take place after viewing the star ____.	Arundhati
2208	Which Gotra is associated with the 'Mandar' village Mool which has 74 branches?	Kashyapa.
2209	How many categories of Panji books are there, including Mool, Sakha, and Gotra?	Seven (Mool, Sakha, Gotra, Patra, Dushan, Udeggh, and Aswajanya-patra).
2210	Term: Labdha Dhaun	Definition: A prestigious title awarded to a Panjikaar who passes a rigorous oral examination on genealogical records.
2211	Who was the chief examiner for Panjikaar Modanand Jha's 'Panji Shashtra Martand' title?	Mahamahopadhyaya Dr Sir Ganganath Jha.

2212	Which Mool did the famous poet Vidyapati Thakur belong to?	Bispi (within the Kshyapa Gotra).
2213	Why did the Panji system decline among the Kshatriya community?	Due to the passage of time and the loss of systematic record-keeping institutions.
2214	What is the function of the 'Asvapinda' rule in marriage?	It ensures that the bride is not a 'Sapinda' (blood relative) of the groom's mother or father.
2215	Maithili Brahmins are traditionally followers of only two Vedas: the Samaveda and the _____.	Yajurveda
2216	What is the 'Tri-pravara' list for the Sandilya Gotra?	Sandilya, Asit, and Deval.
2217	The 'Panch-pravara' list for the Vatsa Gotra includes Aurva, Chyavana, Bhargava, Jamadagnya, and _____.	Apnuvan
2218	What does the term 'Moolgram' refer to in the Panji registers?	The original ancestral village from which a family lineage started.
2219	Who was the teacher of Chaitanya Mahaprabhu mentioned as belonging to the Karmahe Mool?	Ramapati Upadhyaya.
2220	What is the significance of the month of 'Bhadra' (August-September) for Panji books?	It is the time recommended for drying and preserving the manuscripts in the sun.
2221	Term: Patra Panji	Definition: A type of Panji record that has been in use for approximately 500 years, focusing on specific family descent.
2222	According to the text, what happened to the 'Genome Map' of lineages over 1500 years?	It was preserved through the Panji system, recording migrations, titles, and social changes.
2223	The Gotra of Karna Kayasthas is exclusively recorded as _____.	Kshyapa
2224	In the context of Panji preservation, 'Jalat Raksha, Tailat Raksha' refers to protecting the books from _____.	Water and oil.
2225	How many total 'Pahis' (categories) exist in the 'Pachhuaripahi' group of Brahmins?	Fifteen (15).
2226	What is the total number of Panji registers (Panjis) mentioned for the Yogya and Banshaj categories?	One hundred and fifty-three (153).
2227	Which Gotra includes the Mools 'Ekharā' and 'Belaonch'?	Bharadwaja.
2228	The Mools 'Sodarpur', 'Panchobh', and 'Induar' belong to which Gotra?	Savarna.
2229	Which Gotra includes the Mool 'Kuijoulli'?	Katyayana.
2230	The title 'Mahamahopadhyaya' in the Panji indicates a high level of _____.	Scholarly achievement or educational status.
2231	Who was the 'Beeji Purush' of the Mandar Mool in the Kshyapa Gotra?	Triyambak Bhatta.
2232	The Panji system classifies 'Ayanti Shrestha' as the _____ category of Mools.	First (highest).
2233	Which king is described as the 'Karnat Choodamani' in the Panji verses?	Harisimhadeva.
2234	What distinguishes the Samavedic 'Upayana' (thread ceremony) from the Yajurvedic one?	Samavedic has four rituals (Namakaran, Chudakaran, Upayana, Samavartana), while Yajurvedic adds Vedarmbha.
2235	What is the primary function of the 'Panji Prabandh' system in Mithila?	To maintain genealogical records for verifying caste purity and marriage eligibility.
2236	Which ruler is credited with formalising the Panji Prabandh system in 1326 AD?	Maharaja Harisimhadeva of the Karnat dynasty.
2237	In the context of Panji records, what does the term 'Mula' represent?	The original ancestral village of a specific family lineage.
2238	How many major 'Gotras' are recognised within the Maithil Brahmin community according to the source?	20
2239	The document issued by a Panjika to certify that a bride and groom are not prohibited relatives is called a _____.	Siddhanta (or Aswajanaputra).
2240	According to Smriti laws cited in the text, marriage is prohibited within how many generations on the paternal side?	Seven (often reduced to six in specific Maithil Brahmin practice).
2241	According to Smriti laws cited in the text, marriage is prohibited within how many generations on the maternal side?	Five.
2242	Who was appointed by Maharaja Harisimhadeva as the first official Panjika for Maithil Brahmins?	Gunakar Jha.
2243	What event involving Pandit Harinath Upadhyaya led to the formalisation of the Panji system?	He unknowingly married a prohibited relative (maternal cousin) due to lack of genealogical records.
2244	What is the 'Uderh' in the Panji marriage verification process?	A detailed introduction of 32 ancestors from both the maternal and paternal sides.
2245	In the Maithil Brahmin hierarchy, what are the three primary categories established by the Panji system?	Shrotriya, Yogya, and Panjibaddha.
2246	Maithil Brahmins primarily belong to which broader geographical classification of Indian Brahmins?	Panch-Gaur.
2247	What physical mountain range serves as the boundary between the Panch-Gaur and Panch-Dravid Brahmin groups?	The Vindhyachal Mountains.

2248	The term _____ refers to the original founder or the most distant known ancestor of a family lineage in a Panji.	Beeji Purush.
2249	What are the two specific branches of the Vedas followed by Maithil Brahmins?	Yajurveda (Madhyandina Shakha) and Samaveda (Kauthuma Shakha).
2250	Which specific Panji record is used to document flaws or lapses in a family's lineage?	Dushan Panji.
2251	Why is marriage prohibited between the 'Vatsa' and 'Savarna' Gotras despite having different names?	They share the same set of common ancestors.
2252	How many 'Mula-Grams' (original villages) were initially identified during the creation of the Panji Prabandh?	167
2253	According to the preservation rules, when should the palm-leaf Panji manuscripts be dried in the sun?	When the Sun enters the Leo (Simha) zodiac sign, typically between mid-August and mid-September.
2254	In the Panji system, what does 'Tri-pravara' signify?	A lineage that claims three rishi ancestors as composers of Vedic hymns.
2255	A lineage claiming five rishi ancestors as Vedic hymn composers is referred to as _____.	Panch-pravara.
2256	What specific script was traditionally used to write the Panji records?	Tirhuta (or Mithilakshar).
2257	What is the historical significance of the Shaka year 1248 in Mithila?	It marks the official start of the Panji system under Maharaja Harisimhadeva.
2258	Which caste group's Panji records have largely become extinct over time compared to Brahmins and Kayasthas?	Kshatriyas.
2259	What is the consequence of 'Sajnata' marriage in traditional Mithila society?	The offspring are considered 'Chandala' and the family loses its social status.
2260	The record categorising families into ranks like 'Soti' or 'Jaiwar' is known as the _____.	Shakha Panji.
2261	Which Brahmin subgroup is colloquially referred to as 'Pachhwari-paat'?	Non-Shrotriya Brahmins (Yogya and Panjibaddha).
2262	What is the total number of 'Chharth' (genealogical nodes) a Panjekar must investigate for marriage eligibility?	16
2263	Which historical philosopher's work, 'Tantra Varttik', mentions the existence of family records (Samuh-lekhyas) as early as the 7th century?	Kumarila Bhatt.
2264	How many main 'Mulas' were derived from the original 167 villages for the primary classification?	34 (later 35 with the addition of the Kharaur branch).
2265	Within the Panji system, what is the role of a 'Panjekar'?	An expert genealogist authorised by the state to maintain records and verify marriage legality.
2266	The branch of Samaveda followed by some Maithil Brahmins is called _____.	Chhandog.
2267	The branch of Yajurveda followed by some Maithil Brahmins is called _____.	Vajasaneyi.
2268	Which King of Darbhanga ordered the creation of the 'Shakha Panji' to further categorise the Brahmin ranks?	Maharaja Madhav Singh.
2269	In the Panji hierarchy, how many 'Laukik' (social ranks) exist within the Shrotriya category?	32
2270	What is the primary genealogical purpose of the 'Uderh Panji'?	To ensure that there is no 'Sapinda' (blood relationship) between the two marrying parties.
2271	Who was the first Kshatriya Panjekar appointed under Harisimhadeva?	Vijayadatt.
2272	The prohibition of marrying the daughter of a step-mother's brother is an example of a _____ rule.	Marriage eligibility (or Sapinda prohibition).
2273	Which text is considered the philosophical basis for maintaining the purity of caste through records in Mithila?	Mimamsa Darshan (specifically Shabar Bhashya and Tantra Varttik).
2274	Which Gotra includes the major Mulas of Digwa, Sarisab, and Mahua?	Shandilya.
2275	The Gotra associated with the Mulas of Pali, Hariamb, and Tikwal is _____.	Vatsa.
2276	In which century did the informal practice of 'Samuh-lekhyas' (group records) shift to the formal state-managed Panji system?	14th Century (1326 AD).
2277	What is the common term used for the certificate of marriage eligibility in modern Mithila?	Siddhanta-patra.
2278	According to the Panji theory, 'genome mapping' is achieved through the documentation of _____ and _____.	Gotra; Mula.
2279	The rank 'Jaiwar' refers to those Brahmins who were _____.	Not officially registered in the early consolidated Panji records.
2280	How many 'Udayakshar' (introductory generations) are typically recorded for a groom in a standard marriage check?	Six.
2281	Which document lists the ancestors of the bride's maternal grandfather to verify prohibited degrees?	Matripaksha Uderh.

2282	In what year was the Maithil Panji Prabandh (genealogical management) formally established?	It was established in 1326 AD (Saka 1248).
2283	Which Karnat dynasty King is credited with initiating the Panji Prabandh in Mithila?	Maharaja Harisimhadeva.
2284	What was the primary social objective behind creating the Panji records?	To ensure the purity of lineage and avoid prohibited degrees of relationship in marriages.
2285	How many ancestors' details (mools) are traditionally included in a full Udegh verification?	Details of thirty-two ancestors.
2286	Under the Panji system, how many generations must be avoided on the father's side for a marriage to be valid?	Seven generations.
2287	Under the Panji system, how many generations must be avoided on the mother's side for a marriage to be valid?	Five generations.
2288	How does the father's side generation gap requirement differ for the 'Panjibaddh' category compared to 'Srotriyas'?	Panjibaddh individuals must avoid six generations on the father's side, while Srotriyas avoid seven.
2289	Into how many distinct Gotras are Maithil Brahmins divided according to the source material?	Twenty Gotras.
2290	What are the three main categories of Maithil Brahmins established by the Panji system?	Srotriya, Yogya, and Panjibaddh.
2291	Maithil Brahmins who were not recorded in the initial Panji management are referred to as _____.	Jaibar
2292	How many original 'Mool Grams' (root villages) were identified during the initial Panji management?	One hundred and sixty-seven Mool Grams.
2293	Define the term 'Beeji Purush' in the context of Maithil genealogy.	The earliest known progenitor or ancestor of a specific lineage or clan.
2294	Which scholar was appointed by Maharaja Harisimhadeva to manage the Panji records for Brahmins?	Pandit Gunakar Jha.
2295	Who was the person appointed to manage the Panji records for the Karna Kayasthas?	Shankardatta.
2296	The first mention of 'Samuh Lekhya' (family records) occurs in the work of which 7th-century philosopher?	Kumarila Bhatta in his work 'Tantra Varttik'.
2297	What is the specific criteria for a Gotra to be classified as 'Tri-pravar'?	It must have three ancestors who composed hymns in the Rigveda.
2298	What is the specific criteria for a Gotra to be classified as 'Panch-pravar'?	It must have five ancestors who composed hymns in the Rigveda.
2299	Which three Gotras are specifically identified as 'Panch-pravar'?	Vatsa, Savarna, and Bharve.
2300	How are the ten divisions of Indian Brahmins broadly categorised based on the Vindhya mountains?	The five northern divisions are 'Panch-Gaur' and the five southern divisions are 'Panch-Dravida'.
2301	Identify the two Vedic branches (Shakhas) followed exclusively by Maithil Brahmins.	The Madhyandini Shakha of the Yajurveda and the Kauthum Shakha of the Samaveda.
2302	Maithil Brahmins following the Yajurveda are known as _____.	Vajasaneyi
2303	The written certificate issued by a Panjekar confirming marriage eligibility is called the _____.	Siddhant Patra (or Aswajan Patra)
2304	Under which Maharaja did the 'Sakha Panji' (branch records) and stricter social hierarchy begin?	Maharaja Madhav Singh.
2305	The 'Udegh Panji' specifically focuses on avoiding _____.	Sapinda relationships (blood relations within prohibited degrees).
2306	How many specific calculation points (Chhavith) are used to determine if a bride and groom are too closely related?	Sixteen points.
2307	The term 'Mool' in the Panji system refers to a family's _____.	Original ancestral village.
2308	Which Gotra is the only one found among the Karna Kayasthas of Mithila?	Kashyapa Gotra.
2309	What mnemonic rule is used to protect the Panji books from damage?	Protect them from water (Jal), oil (Taila), and loose binding (Shithil Bandhan).
2310	At what time of year are Panji books traditionally dried to prevent decay?	When the Sun is in the Leo (Simha) constellation, typically mid-August to mid-September.
2311	In the Panji system, what is the consequence of marrying within one's 'Swa-jana' (prohibited kin)?	The offspring were historically considered 'Chandala' or socially excluded from the Arya fold.
2312	Which group is colloquially referred to as 'Pachhwari-par' (Westerners) in the Maithil social hierarchy?	The non-Srotriya Brahmins.
2313	Which category of Maithil Brahmins is referred to as 'Pubari-par' (Easterners)?	The Srotriya Brahmins.
2314	The term 'Laukik' refers to the genealogy books specifically of the _____ class.	Srotriya
2315	What is the 'Beeji' of the lineage of the famous poet Vidyapati?	Pandit Vishwarup (derived from the Mandar Mool).
2316	Identify the primary distinction between the Samavedic and Yajurvedic marriage rituals mentioned in the text.	Samavedic (Chhandog) marriages are divided into Purva-Vivah and Uttara-Vivah, while Yajurvedic marriages have no such division.
2317	Which religious text's authority is cited for the rule 'Matritah Panchamim Tyaktva Pitritah Saptamim Bhajet'?	Manusmriti.

2318	Who was the first person to manage the Panji records for the Kshatriyas in Mithila?	Vijaydatta.
2319	According to the source, why did the Panji system eventually decline among the Kshatriyas?	Due to the passage of time and the loss of systematic record-keeping, leading them to simply avoid the entire ancestral village for marriage.
2320	The 'Atyanti Shrestha' (Excellent) mools are part of which category in the Brahmin hierarchy?	The first category (Pratham Shreni).
2321	Name one of the thirteen mools listed in the 'Atyanti Shrestha' category.	Kharaure, Khauarey, or Sodarpuriyey (any one).
2322	What are the four Samskaras (sacraments) performed for Chhandog Brahmins during Upanayana?	Namakaran, Chudakaran, Upanayana, and Samavartana.
2323	In the Panji system, the 'Mool Gram' acts as a unique identifier to avoid confusion between families with the same _____.	Gotra
2324	Which class of mools includes 'Dighwey', 'Belonchey', and 'Panchobhey'?	Madhyam Mool (Medium roots).
2325	Who was the 'Mahamaho-upadhyaya' of the Mandar mool identified as a contemporary of King Harisimhadeva?	Ratnesh.
2326	Which philosopher's birth is noted in the Panji as occurring five years after his father's death, highlighting the detail of the records?	Gangesh Upadhyaya.
2327	How does the Panji determine marriage eligibility if a 'Chhavith' (ancestor) appears on the groom's mother's side?	The marriage is permitted, as the restrictive gap for the mother's side is shorter (five generations).
2328	How many major 'Mools' were determined to be primary out of the 167 original villages?	Thirty-four primary Mools.
2329	Which specific branch of the Phandah Mool was later added as the 35th primary mool?	The Kharaure branch.
2330	What is the role of a 'Panjekar' in modern Maithil society?	To maintain genealogical records and verify the 'non-related' status of couples before marriage.
2331	What is the historical significance of the 'Siddhant' ceremony?	It is the formal public declaration by a Panjekar that a proposed marriage is Shastric and valid.
2332	What was the primary purpose for establishing the Panji Prabandh in the Mithila region?	To maintain caste purity among Brahmins, Kayasthas, and Kshatriyas by tracking lineages.
2333	In the context of Mithila genealogy, what does the term 'Udegh' (अदेघ) refer to?	An introduction to 32 ancestors covering seven generations to determine marriage eligibility.
2334	According to the Panji system, what are the three main hierarchical divisions of Mithila Brahmins?	Shrotriya, Yogya, and Panjibaddh.
2335	What is the status of those who were not formally recorded in the Panji registers?	They are referred to as 'Jaywar' (जयवर).
2336	How many generations must a Shrotriya Brahmin typically avoid in the maternal lineage for marriage?	Five generations.
2337	How many generations must a Shrotriya Brahmin avoid in the paternal lineage for marriage?	Seven generations.
2338	How many Gotras are traditionally recognised in the Mithila Brahmin community?	Twenty (20) Gotras.
2339	What is the total number of 'Mools' (original lineages) identified in the Panji system?	One hundred and sixty-seven (167) Mools.
2340	The main 35 Mools are further categorised into which three groups?	Ayanth Shrestha (First Class), Second Class, and Madhyam Mool.
2341	Which two major Vedic branches (Shakhas) do Mithila Brahmins primarily follow?	Yajurveda (Madhyandina Shakha) and Samaveda (Kauthuma Shakha).
2342	Which Gotras belong to the 'Panch-pravara' (five ancestors) category?	Vatsa, Savarna, and Bharadwaja.
2343	Under which king was the Panji Prabandh formally organised in Mithila?	Maharaja Harisimhadeva of the Karnata dynasty.
2344	In what year (Shaka and AD) was the Panji Prabandh established under Maharaja Harisimhadeva?	Shaka 1248, which corresponds to 1326 AD.
2345	Who was the scholar appointed to manage the Panji records for Mithila Brahmins?	Pandit Gunakar Jha.
2346	Who was appointed to oversee the Panji records for the Karna Kayasthas?	Shankardatt.
2347	Who was appointed to manage the Panji records for the Kshatriyas?	Vijaydatt.
2348	What is the 'Siddhant Patra' (or Ashvajana Patra) in the Mithila marriage tradition?	A formal certificate issued by a Panjekar confirming that the bride and groom are not prohibited relatives.
2349	The specific ancestor from whom a person is counted as the sixth descendant in the Panji system is known as _____.	Chhadwitt (छहद्वित)
2350	How many types of 'Chhadwitt' relationships are checked for a bride before marriage eligibility is determined?	Sixteen (16) types.
2351	What is the rule regarding marriage between the Vatsa and Savarna Gotras?	They cannot intermarry because they share the same ancestors.

2352	Mithila Brahmins who follow the Samaveda are referred to as _____.	Chhandog (अ॒स॒व॒द॒व॒ज॒स॒न॒य॒ः अ॒स॒व॒द॒व॒ज॒स॒न॒य॒ः)
2353	Mithila Brahmins who follow the Yajurveda are referred to as _____.	Vajasaneyi (व॒ज॒स॒न॒य॒ः अ॒स॒व॒द॒व॒ज॒स॒न॒य॒ः)
2354	How does the 'Chhandog' marriage ritual differ from the 'Vajasaneyi' regarding timing?	Chhandog rituals involve a specific evening segment to view the star Arundhati, which is not mandatory for Vajasaneyi.
2355	In the Panji system, the group 'Panch Gauda' includes Brahmins from Utkal, Kanyakubja, Gauda, Saraswat, and _____.	Maithil
2356	What is the geographic divider between the 'Panch Gauda' and 'Panch Dravida' Brahmin groups?	The Vindhychal Mountains.
2357	Concept: Sakulya	Individuals belonging to the same Gotra or lineage, making them ineligible for marriage with each other.
2358	Which philosopher mentioned 'Samuha Lekhya' (family records) in his work 'Tantra Vartika' during the 7th century?	Kumarila Bhatta.
2359	How many 'Laukik' or 'Chaupala' categories exist for Shrotriya Brahmins?	Eight (8).
2360	What is the 'Pachhwari Par' (अ॒स॒व॒द॒व॒ज॒स॒न॒य॒ः अ॒स॒व॒द॒व॒ज॒स॒न॒य॒ः)?	A general term used for Brahmin groups other than the Shrotriyas (who are called Pubari Par).
2361	Process: Preservation of Panji Books	Books must be protected from water, oil, and loose binding; they are traditionally dried in the sun when it enters the Leo (Simha) constellation.
2362	Which language/script is traditionally used to write Panji records?	Tirhuta (Mithilakshar).
2363	Who was the 'Biji Purush' of the Mandar Mool, a famous lineage in Mithila?	Mahamahopadhyaya Trivenibhatta.
2364	Which famous poet's genealogy is recorded across seven generations in the Panji books?	Vidyapati Thakur.
2365	What does the Panji record indicate about the ancestors of Chaitanya Mahaprabhu?	His ancestor, Ramapati Upadhyay, was from the Katih-Tilauli Mool of Mithila.
2366	The system of 'Sakha Panji' (branch registers) was introduced during the reign of which later Maharaja?	Maharaja Madhav Singh.
2367	What is the 'Tri-pravara' definition in Mithila genealogy?	A lineage tracing back to three specific Vedic sage ancestors.
2368	Which Gotra is associated with the ancestors Shandilya, Asit, and Deval?	Shandilya Gotra.
2369	Which Gotra is associated with the ancestors Parashara, Shakti, and Vasishtha?	Parashara Gotra.
2370	In the Karna Kayastha community, which is the only recognised Gotra?	Kashyapa Gotra.
2371	How does the Panji define 'Sapinda' for the paternal side?	Seven generations of common ancestry.
2372	According to the excerpts, what was the major consequence of Pandit Harinath Upadhyay marrying his cousin in the 13th century?	It led to the realisation that oral memory was insufficient and the formal Panji Prabandh was necessary.
2373	What is the purpose of 'Adhikar Mala'?	A list of potential grooms prepared for a bride 5-10 years before marriage, verified by a Panjikaar.
2374	The term used for a Brahmin who is 'descended from the records' is _____.	Panjibaddh (अ॒स॒व॒द॒व॒ज॒स॒न॒य॒ः अ॒स॒व॒द॒व॒ज॒स॒न॒य॒ः)
2375	In modern terms, the text likens the ancient Panji system to _____ mapping.	Genome
2376	Under what condition is a marriage permitted if a 'Chhadwitt' relationship is found?	Marriage is permitted if the relationship is found only on the maternal side and satisfies the 5-generation rule.
2377	What was the 'Tirhuta' script's relationship to the Panji system?	The Panji system is considered the 'soul' or 'life-force' that kept the Tirhuta script alive.
2378	Which Mool is noted for having branches in 74 different locations in Mithila?	Mandir Mool (Kashyapa Gotra).
2379	What rule exists for the 'Nirmaan' (mother's brother's) lineage?	The groom cannot marry the daughter of his maternal uncle.
2380	In the context of the Panji, what does 'Laukik' status signify for the future of a family line?	It can be 'Adhogami' (declining) if marriages are made into lower-status lineages.
2381	What is the primary purpose of the 'Panji Prabandh' in Mithila culture?	To maintain genealogical records for preserving caste purity and determining marriage eligibility.
2382	Which historical ruler is credited with formalising the Panji system in Mithila?	Maharaja Harisimhadeva.
2383	Term: Uteh	Definition: A genealogical introduction covering seven generations and involving the names of 32 ancestral families.
2384	According to the Panji system, how many generations must a 'Srotriya' Brahmin avoid on the paternal side for marriage?	Seven generations.
2385	According to the Panji system, how many generations must a 'Srotriya' Brahmin avoid on the maternal side for marriage?	Five generations.
2386	How many generations must a 'Panjibaddh' Brahmin avoid on the paternal side for marriage?	Six generations.

2387	Out of the 167 'Mool Grams', how many were designated as primary or 'Mukhya'?	Thirty-four.
2388	What is a 'Beeji Purush' in the context of the Panji system?	The earliest known progenitor or root ancestor of a specific lineage (Mool).
2389	Concept: Tri-pravara	A lineage whose ancestors are credited with composing three specific 'Suktas' (hymns) in the Rigveda.
2390	Concept: Panch-pravara	A lineage whose ancestors are credited with composing five specific 'Suktas' (hymns) in the Rigveda.
2391	Which two major Vedas do Maithil Brahmins primarily follow?	Yajurveda and Samaveda.
2392	The branch of Yajurveda followed by Maithil Brahmins is known as _____.	Madhyandini (or Vajasaneyi).
2393	The branch of Samaveda followed by Maithil Brahmins is known as _____.	Kauthuma (or Chhandoga).
2394	What is the geographic dividing line between 'Pancha-Gauda' and 'Pancha-Dravida' Brahmins?	The Vindhyachal Mountains.
2395	Name the five branches of the 'Pancha-Gauda' Brahmins.	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
2396	The document issued by a Panjikar certifying that a couple are not 'Svajana' (forbidden kin) is called the _____.	Siddhant Patra.
2397	Who was the first Panjikar appointed specifically for Maithil Brahmins?	Gunakar Jha.
2398	Who was the first Panjikar appointed for the 'Karna Kayasthas'?	Shankardatta.
2399	Who was the first Panjikar appointed for the 'Kshatriyas' in Mithila?	Vijaydatta.
2400	Why is marriage forbidden between individuals of the 'Vatsa' and 'Savarna' Gotras?	They are considered to share common ancestors, making them genealogically identical for marriage purposes.
2401	Which 7th-century scholar mentioned 'Samuha Lekhya' (lineage records) in his work 'Tantra Vartika'?	Kumarila Bhatta.
2402	What is recorded in a 'Dushan Panji'?	Lineage flaws, historical errors, or negative traits associated with specific ancestors.
2403	What is the 'Chhadwith' in Panji calculations?	A set of sixteen specific genealogical points or ancestors checked to ensure no forbidden biological relation.
2404	Under which ruler did the 'Sakha Panji' (branch records) and stricter social divisions like 'Srotriya' begin?	Maharaja Madhav Singh.
2405	In the Panji system, what does the term 'Sapinda' refer to?	Biological relations or kin sharing the same body particles, within which marriage is forbidden.
2406	How many specific ancestors are listed on the maternal side in a Panji 'Uteh' calculation?	Sixteen.
2407	What are the four main levels of marriage eligibility introduced in the later Panji system?	Srotriya, Yogya, Panjibaddh, and Jaibar.
2408	According to the Smritis of Manu and Yajnavalkya, which four biological lines must be avoided for a valid marriage?	Father's Gotra, Mother's Sapinda, Father's Sapinda, and specific maternal/paternal maternal lines.
2409	The Maithil Brahmin population is divided into how many main categories of 'Pravara'?	Two: Tri-pravara and Panch-pravara.
2410	What script is traditionally used to write and maintain Panji records?	Tirhuta (or Mithilakshar).
2411	Which specific ancestor in the Sandilya Gotra lived in 'Mandar' and is considered a 'Beeji'?	Trivikram Bhatta.
2412	What is the 'Sakun' or 'Kshana' recorded in Panji documents?	A genealogical flaw or stain in the lineage that might affect marriage status.
2413	How many 'Srotriya Panjis' are currently recognised?	Thirty-two.
2414	How many 'Yogya' and 'Panjibaddh' Panjis are recognised?	One hundred and fifty-three.
2415	What is the significance of the Samavedic 'Uttara Vivaha'?	It is a marriage ritual performed after sunset after observing the star Arundhati.
2416	Term: Beeji	Definition: The root ancestor from whom a specific genealogical line (Mool) branches out.
2417	Which Maithil ruler is associated with the expansion of 'Sakha Panji' in the 18th century?	Maharaja Madhav Singh.
2418	What defines a 'Svajana' marriage in the Panji system?	An illegal or forbidden marriage within prohibited genealogical degrees, often resulting in social exclusion.
2419	In the Panji records, which month is recommended for drying and maintaining the manuscripts?	Bhadrapada (when the Sun is in Leo/Simha), as the heat is intense enough to preserve the palm leaves.
2420	The title 'Panji Shastra Martand' was awarded to which famous Panjikar?	Moda Nand Jha.
2421	What is the 'Udhraavadi' division in the Panji system?	The classification of Brahmins based on their Vedic branch (Samaveda or Yajurveda).
2422	Which Gotra is exclusively associated with the 'Karna Kayasthas' of Mithila?	Kashyap.

2423	What is the primary role of the 'Siddhant' process?	To verify that the bride and groom are not related within five generations of the mother or six/seven of the father.
2424	Name the three Gotras that belong to the 'Panch-pravara' category.	Vatsa, Savarna, and Bhardwaj.
2425	Name the progenitor of the 'Sakadi' lineage in the Panji system.	Haridatta.
2426	The progenitor of the 'Sarisab' lineage is _____.	Ratnapani.
2427	Which ancestor is the 'Beeji' of the 'Oini' Mool?	Udyahdev.
2428	What script did the Panji system help preserve as its primary 'lifeblood'?	Tirhuta script.
2429	According to Panji rules, why is marriage with a maternal uncle's daughter forbidden?	It violates the rule against marrying a descendant of the mother's brother (Matrimandhu).
2430	Which document lists the 32 maternal and paternal lines used for marriage verification?	The Uteh.
2431	Who was the 'Mahamaho-padhyaya' and composer of the 'Purushottam' Sakha Panji?	Purushottam Jha.
2432	The classification of Brahmins based on their geographic location south of the Vindhya is _____.	Pancha-Dravida.
2433	Who is credited with formally establishing the Panji Prabandha (genealogical records) system in Mithila?	Raja Harisimhadeva of the Karnata dynasty.
2434	In what year of the Saka era was the Panji system officially organized?	Saka \$1248\$ (approximately \$1326\$ AD).
2435	What is the primary purpose of the 'Uderh' in the Panji system?	To provide an introduction to seven generations of ancestors to ensure lineage purity.
2436	How many ancestors' introductions are required to fulfill the complete identification of the 'thirty-two lineages'?	Thirty-two.
2437	According to the Panji system, how many generations must be avoided on the father's side for a marriage to be valid?	Seven generations (later modified to six in some practices).
2438	According to the Panji system, how many generations must be avoided on the mother's side for a marriage to be valid?	Five generations.
2439	What are the three hierarchical categories of Maithil Brahmins created by the Panji system?	Srotiya, Yogya, and Panjibaddha.
2440	What term was used to describe Brahmins who were not recorded in the Panji registers?	Jaibar (or Jayavaar).
2441	How many distinct Gotras are recognized within the Maithil Brahmin community?	Twenty.
2442	List four of the seven most common and well-populated Gotras among Maithil Brahmins.	Sandilya, Vatsa, Kasyapa, and Parashara (also Savarna, Bharadwaja, and Katyayana).
2443	What is the difference between a 'Mula' and a 'Mulagram' in Maithil genealogy?	Mula is the original ancestral root/village; Mulagram is the village where descendants later settled.
2444	Define 'Biji Purush' within the context of Maithil genealogy.	The earliest known progenitor or 'seed ancestor' from whom a specific lineage is traced.
2445	What is a 'Siddhanta' (or Ashvajana-patra)?	A certificate issued by a Panjekar confirming that the bride and groom are not related within prohibited degrees.
2446	Who was appointed as the first Panjekar for the Maithil Brahmin community?	Gunakar Jha of the Pandua Mula.
2447	Who was the first registrar (Panjekar) appointed for the Kshatriya community in Mithila?	Vijayadatta.
2448	What is the 'Tri-pravara' family designation?	Gotras whose ancestors composed three specific Suktas of the Rigveda.
2449	What is the 'Pancha-pravara' family designation?	Gotras whose ancestors composed five specific Suktas of the Rigveda.
2450	Which three Gotras are specifically identified as 'Pancha-pravara'?	Vatsa, Savarna, and Bharva.
2451	Into which two broad geographic groups are Indian Brahmins divided?	Pancha-Gauda and Pancha-Dravida.
2452	The _____ mountains serve as the geographic boundary between the Pancha-Gauda and Pancha-Dravida Brahmins.	Vindhya.
2453	To which of the five Gauda divisions do the Maithil Brahmins belong?	Pancha-Gauda.
2454	What are the two primary Vedas followed by Maithil Brahmins?	Yajurveda and Samaveda.
2455	Followers of the Madhyandina Sakha of the Yajurveda are known as _____.	Vajasaneyi.
2456	Followers of the Kauthuma Sakha of the Samaveda are known as _____.	Chandoga.
2457	In Chandoga (Samaveda) tradition, marriage is performed in two parts, with the second part occurring after the sighting of which star?	Arundhati (the morning/evening star).
2458	Which 7th-century scholar mentioned 'Samuha Lekhya' (lineage records) in his work 'Tantra Varttika'?	Kumarila Bhatta.

2459	Under whose reign was the 'Sakha Panji' (branch records) introduced, leading to further social stratification?	Maharaja Madhav Singh.
2460	How many 'Mulas' (ancestral roots) were initially identified for Maithil Brahmins?	One hundred and sixty-seven (\$167\$).
2461	What does a 'Dushana Panji' record?	Lineage flaws, deviations from social norms, or defects in genealogical purity.
2462	In the Karna Kayastha community, how many Gotras are traditionally used in the Panji system?	Only one: Kasyapa.
2463	The 'Gotra Panji' contains a record of all Gotras and their _____.	Ancient ancestral roots (Prachin Mula).
2464	What does the 'Paat Panji' primarily track?	Descendants (Apatya) and their specific village locations.
2465	What is the 'Chadhvith' calculation?	A process of determining sixteen specific ancestral relationships to verify marriage eligibility.
2466	According to the preservation rules, during which astrological period should Panji books be dried in the sun?	When the Sun enters the Leo (Simha) sign (\$16\$ August to \$15\$ September).
2467	Which Maithil scholar's interpretation of 'Sapinda' rules became the standard for the community's marriage laws?	Mahamahopadhyaya Mahesh Thakur.
2468	The total number of Srotiya Panji books is _____.	Thirty-two (\$32\$).
2469	The total number of Panji books for the Yogya and Panjibaddha categories is _____.	One hundred and fifty-three (\$153\$).
2470	What is the 'Ayanti Shrestha' category in the Mula system?	The first or most elite category of ancestral roots, comprising thirteen Mulas.
2471	According to the text, what occurs if a person marries a 'Swajana' (a prohibited relative)?	The offspring are considered 'Chandala' and the person is expelled from the Aryan social order.
2472	How does the 'Vajasaneyi' (Yajurveda) marriage timing differ from the 'Chandoga' (Samaveda) tradition?	Vajasaneyi marriages can occur at any time (day or night) without a specific division into two parts.
2473	In the context of Panji preservation, what does 'Jalat Raksha, Tailat Raksha' mean?	Protect [the book] from water and protect it from oil.
2474	What is the significance of the year \$2000\$ AD mentioned in the text regarding Panji records?	The project to transcribe and digitize Tirhuta Panji records into Devanagari began.
2475	The Madhyam Mula category consists of how many specific roots?	Eight.
2476	The root 'Sarisab' belongs to which Gotra?	Sandilya.
2477	What genealogical role does the 'Panjekar' play in Maithil society?	They act as authorized registrars who maintain lineage records and certify marriage eligibility.
2478	What is 'Laukika' in the context of the Srotiya category?	Specific lineage distinctions or sub-classifications used in Srotiya genealogical records.
2479	How are the ancestors of a Gotra defined in the text?	As the ancient sages (Rishis) who are the original progenitors of the entire community sharing that Gotra.
2480	Which text is cited as the source for the definition of the ten divisions of Brahmins (Pancha-Gauda and Pancha-Dravida)?	The Puranas.
2481	In what year was the Maithil Panji Prabandh (genealogical records) formally established?	1326 AD (Saka 1248).
2482	Which Karnat dynasty king is credited with the initiation of the Panji Prabandh system?	King Harisimhadeva.
2483	What was the primary objective for creating the Panji Prabandh records?	To ensure caste purity and regulate marriage eligibility.
2484	Term: Udedh	Definition: The introduction of 32 ancestral lineages (Mulas) required to determine marriage eligibility.
2485	In the Maithil Brahmin community, how many distinct Gotras are identified?	20 Gotras.
2486	According to the Panji system, how many maternal generations must be avoided for a valid marriage?	Five generations.
2487	According to the Panji system, how many paternal generations must be avoided for a valid marriage?	Seven generations (later revised to six in some practices).
2488	The earliest known ancestor of a specific lineage in the Panji records is called the _____.	Beeji Purush
2489	What term refers to the original ancestral village of a family in the Panji system?	Mula Gram
2490	Which group of Brahmins is designated as 'Shrotriya' within the Panji hierarchy?	The highest rank, consisting of those with the most rigorous genealogical and conduct standards.
2491	What are the four hierarchical categories of Maithil Brahmins defined after the Panji Prabandh?	Shrotriya, Yogya, Panjibaddah, and Jaywal.
2492	Who was appointed as the first Panjekar (genealogist) for the Maithil Brahmin community?	Gunakar Jha.
2493	Who was the first Panjekar appointed for the Kshatriya community in Mithila?	Vijayadatta.
2494	How many 'Mulas' (ancestral roots) were originally identified for the Maithil Brahmins?	167 Mulas.

2495	The 'Panch Gauda' division of Northern Indian Brahmins includes Utkal, Kanyakubja, Gauda, Saraswat, and _____.	Maithil
2496	Maithil Brahmins following the Sama Veda are traditionally referred to as _____.	Chandogya
2497	Maithil Brahmins following the Shukla Yajur Veda are traditionally referred to as _____.	Vajasaneyi
2498	What is the key difference in marriage rituals between Chandogya and Vajasaneyi Brahmins regarding timing?	Chandogya marriages are split into two parts (Purva and Uttara), with the latter occurring after sunset.
2499	Which unique Gotra is the only one found among the Karna Kayasthas of Mithila?	Kashyap Gotra.
2500	What does the term 'Chadvith' refer to in the context of marriage eligibility?	The 16 specific ancestral points (prohibited degrees) that must be checked for both bride and groom.
2501	In the Panji system, a person whose name is entered into the formal genealogical records is called _____.	Panjibaddah
2502	Which classification of Pravara refers to lineages identifying three ancestral sages?	Tri-pravara.
2503	Which classification of Pravara refers to lineages identifying five ancestral sages?	Panch-pravara.
2504	Identify the three Gotras that fall under the 'Panch-pravara' category.	Vatsa, Savarna, and Bidah (or Garga in some lists).
2505	The official document that lists the 'Udedh' and confirms the marriage is permitted is known as the _____.	Asvajana-patra (or Siddhanta-patra)
2506	Which scholar's 'Tantra Vartika' provided an early reference to 'Samuha Lekhya' (group records) similar to the Panji system?	Kumarila Bhatta.
2507	What geographical feature traditionally divides the 'Panch Gauda' from the 'Panch Dravida' Brahmins?	The Vindhya Mountains.
2508	In the Panji system, what happens if a person marries within their own Gotra?	The marriage is considered invalid (Sagotra marriage is prohibited).
2509	What is the purpose of the 'Dushana Panji'?	To record any flaws or violations of social/genealogical norms within a lineage.
2510	The 'Sakha Panji' system, which introduced more specific sub-lineages, was expanded during the reign of which later King?	Maharaja Madhav Singh.
2511	According to the text, why were the genealogical records moved from private family hands to state-appointed Panjikars?	Due to a decline in people's ability to maintain accurate 32-mula records, leading to accidental incestuous marriages.
2512	Which legendary mathematician and astronomer's lineage is mentioned in the Panji records?	Aryabhata.
2513	How many 'Chadvith' points (ancestral nodes) are calculated for a bride to ensure non-relationship with the groom?	16 points.
2514	In the context of the Panji records, what is the significance of the year 2009 AD mentioned in the title?	It marks the point up to which the modern merged Panji Prabandh analysis reaches.
2515	The concept of marriage eligibility based on 'Samana Pravara' means the bride and groom cannot share the same _____.	Ancestral sages (Pravaras)
2516	Under which specific condition can a marriage occur if a 'Chadvith' point matches between the groom's maternal side and the bride?	Marriage is permitted if the match is on the maternal side but prohibited if it is on the paternal side.
2517	Term: Samyaka	Definition: A high social status within the Panji system achieved through marriages that adhere to the highest purity standards.
2518	The Vajasaneyi Brahmins follow the rituals prescribed by the sage _____.	Yajnavalkya
2519	Which script was traditionally used to write the Panji records?	Tirhuta (Mithilakshar).
2520	Which major Maithil poet's lineage is preserved in the Panji records for 19 generations?	Vidyapati Thakur.
2521	What is the total number of 'Shrotriya' Panjis recorded in the text?	32 Panjis.
2522	What is the total number of 'Yogya' and 'Panjibaddah' Panjis recorded in the text?	153 Panjis.
2523	The rule 'Matritah Panchami, Pitritah Saptami' refers to avoiding _____.	5 generations from the mother's side and 7 from the father's side.
2524	Which Panji record tracks the chronological expansion and migration of families from their original 'Mula Gram'?	Sakha Panji.
2525	How does the Panji system classify the status of a person whose ancestors were not originally recorded during Harisimhadeva's time?	They are often classified as 'Jaywal'.
2526	Concept: Pothi	Definition: The physical manuscript or book made of palm leaves (talapatra) or paper containing genealogical records.
2527	What must a Panjekar verify regarding the groom's mother's brother (maternal uncle)?	The groom cannot marry a girl from his maternal uncle's immediate family (Niman-matul rule).
2528	Why is the preservation of the Tirhuta script considered vital to the Panji system?	Because the vast majority of historical Panji manuscripts are written exclusively in that script.

2529	What was the primary purpose for the creation of the 'Panji Prabandh' system in Mithila?	To ensure caste purity by maintaining detailed genealogical records for marriage eligibility.
2530	Which three social groups were primarily included in the original Panji Prabandh system?	Brahmins, Kayasthas, and Kshatriyas.
2531	In the Panji system, what does the term 'Udegh' refer to?	The introduction of seven generations of ancestors required to verify a person's lineage.
2532	How many specific ancestral introductions are required for a complete 'Udegh' in the Brahmin community?	Thirty-two.
2533	According to the Panji rules for Shrotriya Brahmins, how many generations must be avoided on the father's side for marriage?	Seven.
2534	According to the Panji rules for Shrotriya Brahmins, how many generations must be avoided on the mother's side for marriage?	Five.
2535	What name is given to those who were excluded from the formal Panji records?	Jaibar.
2536	How many major 'Gotras' (clans) are identified within the Maithil Brahmin community according to the source?	Twenty.
2537	Which historical King of the Karnat dynasty is credited with the formalisation of the Panji system?	Maharaja Harisimhadeva.
2538	In which year (Shaka era and AD) was the Panji system reportedly organised under royal decree?	Shaka 1248 (1326 AD).
2539	What is the total number of 'Mools' (original roots/villages) identified for Brahmins in the system?	One hundred and sixty-seven.
2540	What are the two major Vedic branches (Veda and Shakha) followed by Maithil Brahmins?	Yajurveda (Madhyandini Shakha) and Samaveda (Kauthuma Shakha).
2541	What term is used for a Maithil Brahmin who follows the Samaveda?	Chandogya.
2542	What term is used for a Maithil Brahmin who follows the Yajurveda?	Vajasaneyi.
2543	According to the source, why did Indian Brahmins eventually divide into ten regional groups?	Regional influences such as climate, language, diet, and attire caused cultural differentiation.
2544	The ten Brahmin groups are geographically divided into two broad categories known as _____ and _____.	Panch Gaur and Panch Dravid.
2545	What is the geographic boundary that separates the Panch Gaur from the Panch Dravid Brahmin groups?	The Vindhyachal Mountains.
2546	Which five Brahmin groups constitute the 'Panch Gaur'?	Utkal, Kanyakubja, Gaur, Maithil, and Saraswat.
2547	Which five Brahmin groups constitute the 'Panch Dravid'?	Karnat, Gujrat, Tailang, Dravid, and Maharashtra.
2548	In the context of Panji records, what is a 'Biji Purush'?	The earliest known ancestor or the progenitor of a specific lineage or clan.
2549	What is the difference between 'Mool' and 'Moolgram' in the Panji records?	Mool refers to the ancestral root village, while Moolgram refers to the current or later village of residence.
2550	Definition: Pravara	A lineage based on the specific Vedic Rishis who authored hymns in the Rigveda.
2551	What determines whether a family is classified as 'Tri-pravara'?	Having three ancestors who were authors of Rigvedic hymns.
2552	What determines whether a family is classified as 'Panch-pravara'?	Having five ancestors who were authors of Rigvedic hymns.
2553	Which three Gotras are specifically mentioned as having 'Panch-pravara'?	Vatsa, Savarna, and Garga.
2554	What is the title of the specialist scholar responsible for maintaining and verifying Panji records?	Panjikar.
2555	The certificate of marriage eligibility issued by a Panjikar is known as _____.	Siddhanta Patra (or Aswajan Patra).
2556	Which philosopher's work 'Tantra Varttik' is cited as the earliest mention of maintaining lineage records (Samuh Lekhya)?	Kumarila Bhatta.
2557	What historical event in the 14th century prompted the formal royal management of Panji records?	Pandit Harinath Upadhyaya unknowingly married a close relative due to lack of lineage knowledge.
2558	How many main categories (Mool categories) were established during the reign of Harisimhadeva?	Thirty-five.
2559	Into which three hierarchical categories were the Brahmin Mools divided?	Ayanth Shrestha (First), Second Grade, and Madhyam (Middle).
2560	In the Shrotriya Panji, what is a 'Laukik'?	A specific social identity or sub-classification resulting from marriage alliances.
2561	What is 'Dushan Panji' used to record?	Flaws or lapses in lineage, such as prohibited marriages or social degradation, to protect future generations.
2562	Under whose reign did the 'Shakha Panji' (branch records) begin, leading to further social stratification?	Maharaja Madhav Singh.
2563	What is the only Gotra found among the Karna Kayasthas of Mithila?	Kashyap.

2564	What does the term 'Chhadwith' signify in the calculation of marriage eligibility?	The sixth position in the genealogical tree, which acts as a prohibited degree of relationship.
2565	How many different 'Chhadwith' (sixth-position relationships) are checked for a bride's eligibility?	Sixteen.
2566	What is the 'Shandilya' Gotra's Pravara configuration?	Shandilya, Asit, and Deval (Tri-pravara).
2567	What is the 'Vatsa' Gotra's Pravara configuration?	Aurva, Chyavan, Bhargava, Jamadagnya, and Apnuvan (Panch-pravara).
2568	What is the 'Kashyap' Gotra's Pravara configuration?	Kashyap, Avatsar, and Naidhrav (Tri-pravara).
2569	If a bride's Chhadwith ancestor is found in the groom's paternal side, is the marriage allowed?	No, it is prohibited.
2570	If a bride's Chhadwith ancestor appears in the groom's maternal side, is the marriage permitted?	Yes, provided the distance exceeds five generations.
2571	What script was traditionally used to write the Panji records?	Tirhuta (Mithilakshar).
2572	What preservation method is suggested for Panji manuscripts according to the traditional verse quoted?	Protect from water, oil, and loose binding, and dry them in the sun when it enters Leo.
2573	What are 'Ayanth Shrestha' Mools?	The highest-ranking ancestral villages, including Kharaure, Khauare, and Budhabare.
2574	What does the source suggest is a modern scientific parallel to the Panji system?	Genome mapping or chromosome determination.
2575	What is the significance of 'Uteh' in Panji verification?	It is the detailed format/document used to check the 32 ancestors to establish marriage rights.
2576	The 'Dushan' or flaws recorded in the Panji include instances of marriage with which external groups?	Muslims and low-caste groups (e.g., Chamars or Rajakas).
2577	What is the 'Pari' in the context of the Panji records?	The descending rank or status of a lineage, which can decrease over time due to certain marriage choices.
2578	Which historical scholar is mentioned as being a descendant of the 18th generation of the original Panjekar Gunakar Jha?	Modanand Jha.
2579	How does the Panji system treat the children of an 'Unknown mother' (Agyat Matrika) historical record?	After several generations (usually six), the lineage is often considered purified and accepted into society.
2580	What is the role of the 'Siddhant Patra' in a Maithil wedding?	It is the formal written permission required before the wedding can proceed according to Shastra.
2581	Name one of the sixteen 'Chhadwith' positions listed in the rules.	The paternal great-grandfather's paternal grandfather (Vridhha Prapitamah Pitamah).
2582	What were the traditional materials used to write and bind Panji books?	Palm leaves (Talpatra), homemade ink, and wooden covers (Kastha Vatta).
2583	Process: How is a Panji book dried traditionally?	It is dried in the intense heat of the sun between roughly 16th August and 15th September.
2584	Term: Panji Prabandh	Definition: A comprehensive genealogical record system used in Mithila to ensure caste purity and verify marriage eligibility.
2585	Who was the Karnata dynasty ruler credited with formalising the Panji system in Mithila?	Maharaja Harisimhadeva.
2586	In which year AD was the Panji system officially established in Mithila?	1326 AD (Shaka 1248).
2587	Concept: Uderh	Definition: A detailed genealogical introduction covering 32 lineages (maternal and paternal) required for marriage eligibility.
2588	The Panji system primarily maintains records for which three social groups in Mithila?	Brahmins, Kayasthas, and Kshatriyas.
2589	How many total 'Gotras' (lineages) are traditionally identified among Maithil Brahmins?	20
2590	Name the seven most prominent and well-populated Gotras among Maithil Brahmins.	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
2591	Concept: Mula	Definition: The original village or ancestral 'root' of a specific family lineage within a Gotra.
2592	How many original 'Mula-grams' (root villages) were initially identified during the Panji Prabandh?	167
2593	How does 'Tri-pravara' differ from 'Pancha-pravara'?	Tri-pravara identifies three ancestral sages, while Pancha-pravara identifies five.
2594	According to the Panji system, marriage between the Vatsa and Savarna Gotras is forbidden for what reason?	They share the same common ancestors despite having different Gotra names.
2595	Which two major Vedic branches do Maithil Brahmins traditionally follow?	Yajurveda (Madhyandina branch) and Samaveda (Kauthuma branch).
2596	Maithil Brahmins following the Yajurveda are known by what term?	Vajasaneyi.
2597	Maithil Brahmins following the Samaveda are known by what term?	Chhandogya.
2598	The Panji system classifies Brahmins into which three primary hierarchical categories?	Shrotriya, Yogya, and Panjibaddh.

2599	Term: Jaywar	Definition: Brahmins whose lineages were not initially registered in the Panji records.
2600	What is the standard marriage exclusion rule for the paternal side in the Panji system?	Avoidance of seven generations (later revised to six).
2601	What is the standard marriage exclusion rule for the maternal side in the Panji system?	Avoidance of five generations.
2602	What is the name of the certificate issued by a Panjekar confirming that a bride and groom are not related?	Siddhanta Patra (also known as Asvajanapatra).
2603	Who was appointed as the first chief Panjekar for Maithil Brahmins by Maharaja Harisimhadeva?	Gunakara Jha.
2604	Who was the first designated Panjekar for the Karna Kayastha community?	Shankardatta.
2605	Who was the first designated Panjekar for the Kshatriya community in Mithila?	Vijayadatta.
2606	The Puranas divide Indian Brahmins into two broad groups based on geography; name them.	Pancha Gauda (North) and Pancha Dravida (South).
2607	Into which of the 'Pancha Gauda' divisions do Maithil Brahmins fall?	Maithil.
2608	What geographical feature acts as the boundary between the Pancha Gauda and Pancha Dravida Brahmins?	The Vindhyachal mountains.
2609	Concept: Beeji Purush	Definition: The earliest known progenitor or founding ancestor of a specific family branch.
2610	Which 18th-century ruler introduced the 'Shakhe Panji' (branch records) to further categorize the Brahmin hierarchy?	Maharaja Madhav Singh.
2611	How many Gotras are identified for the Karna Kayastha community in the source material?	One (Kashyapa).
2612	Which scholar is credited with revising the paternal marriage exclusion rule from seven to six generations?	Mahamaho-padhyaya Mahesh Thakur.
2613	Concept: Chhadwith	Definition: The sixteen specific ancestor relationships that must be checked to confirm a bride and groom are not 'Sapinda' (kinsfolk).
2614	The Panji records are traditionally written in which script?	Tirhuta (also known as Mithilakshar).
2615	What traditional materials were used to preserve Panji records for centuries before digital imaging?	Palm leaves (Talapatra) and handmade ink.
2616	Why is the modern study of Panji often referred to as 'Genome Mapping'?	Because it tracks hereditary lineages and genetic ancestry over a 1,500-year period.
2617	Which philosopher mentioned 'Samuha-Lekhya' (group records) as a way for families to preserve lineage in the 7th century?	Kumarila Bhatta.
2618	What is the religious significance of 'Pravara' in the Panji system?	It identifies the ancestors whose hymns are recited during sacrificial offerings (Yajna).
2619	Marriage into which side is permitted if the relationship appears in the 6th position but only on the maternal side?	The maternal side (Matripaksha).
2620	The Panji system explicitly forbids marriage with the children of which maternal relative?	The mother's brother (Maternal Uncle).
2621	Concept: Laukiki	Definition: Specific genealogical branch records used primarily by the Shrotriya category of Brahmins.
2622	In the Panji preservation verse, what three things must a book be protected from?	Water, oil, and loose binding.
2623	According to the text, what happened to a person who married their 'Svajana' (prohibited kin)?	They were treated as outcasts (Chandala) and lost their Aryan status.
2624	Which major philosophical work by Kumarila Bhatta discusses the preservation of family records?	Tantra Vartika.
2625	How many main Mulas are identified as 'Ayanth Shrestha' (first category) in the Brahmin hierarchy?	13
2626	The text lists 'Dighare', 'Belonche', and 'Ekahate' as examples of which category of Mula?	Madhyam (Middle) Mula.
2627	What is the significance of the year 1248 Shaka in the context of Mithila's genealogy?	It is the traditional date for the large-scale formalisation of Panji records.
2628	Maithil Brahmins traditionally avoid marriages within the same Gotra, a practice known as _____.	Gotra Exogamy.
2629	The term 'Pancha Dravida' includes Brahmins from Utkala, Gurjara, Maharashtra, Karnataka, and _____.	Tailang (Andhra).
2630	What historical script is considered the 'soul' of the Panji Prabandh?	Tirhuta script.
2631	Why were Panjekar required to verify 32 'Uderh' lineages before a marriage?	To ensure no accidental blood relation existed within the prohibited generational limits.
2632	Concept: Sakin	Definition: The current village of residence for a family branch, distinct from their original 'Mula'.

2633	Which group's Panji records are noted to have become largely extinct over time according to the text?	Kshatriyas.
2634	The Panji records contain historical notes on ancestors' educational titles and literary achievements; what does this indicate?	It serves as a cultural and intellectual history of the region beyond simple genealogy.
2635	In the Shrotriya hierarchy, what is the term for the four major genealogical divisions?	Chauvala (also known as categories/ranks).
2636	According to the source, why did geographical regionalism lead to the division of Brahmin groups?	Differences in climate, diet, language, and cultural practices isolated groups into specific regions.
2637	What is the primary difference in marriage rites between the Vajasaneyi and Chhandogya branches?	The Chhandogya marriage is divided into two parts (Purva and Uttara), whereas the Vajasaneyi has no such division.
2638	What specific celestial observation is required in a Chhandogya 'Uttara Vivaha'?	Viewing the star Arundhati after sunset.
2639	How many generations of maternal ancestors were traditionally avoided for the 'Shrotriya' group specifically?	Five generations.
2640	Which Panji specifically documents lineages associated with Devadasis or unknown maternal roots?	The Dushana Panji (records of blemishes).
2641	Which historical ruler is credited with the formal establishment of the Panji Prabandh?	Maharaja Harisimhadeva of the Karnat dynasty.
2642	In what year (both Saka and AD) was the decision to formalise Panji records taken?	Saka 1248, which corresponds to 1326 AD.
2643	The term 'Udegh' refers to the introduction of how many generations for marriage eligibility?	Seven generations.
2644	How many ancestors are included in the comprehensive 'Udegh' introduction required for Shrotriya Brahmins?	Thirty-two ancestors.
2645	What are the three main hierarchical categories of Mithila Brahmins identified in the text?	Shrotriya, Yogya, and Panjibaddh.
2646	What is the term for Brahmins in Mithila who are not formally registered in the Panji records?	Jaywar.
2647	How many paternal generations must be avoided for marriage according to the rules for Shrotriya Brahmins?	Seven generations.
2648	How many maternal generations must be avoided for marriage for Shrotriya Brahmins?	Five generations.
2649	How many 'Gotras' (lineages) are traditionally recognised among Maithil Brahmins?	Twenty.
2650	How many 'Mula-Grams' (original villages) were identified during the formalisation of Panji records?	One hundred and sixty-seven.
2651	From the 167 original villages, how many 'Mukhya Mula' (primary roots) were specifically designated?	Thirty-four.
2652	In the context of 'Pravara', what is the difference between 'Tri-pravara' and 'Pancha-pravara'?	Tri-pravara refers to three ancestral rishis who composed Rigvedic hymns, while Pancha-pravara refers to five.
2653	Name the three Gotras that are classified as 'Pancha-pravara'.	Vatsa, Savarna, and Bharadwaja.
2654	What is the difference in Vedic branch affiliation between the 'Yajurvedic' and 'Samavedic' Brahmins of Mithila?	Yajurvedic Brahmins follow the Madhyandina Shakha (Vajasaneyi), while Samavedic Brahmins follow the Kauthuma Shakha (Chandoga).
2655	According to the 'Pancha Gauda' classification, what are the five northern Brahmin groups?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
2656	The geographical divide between 'Pancha Gauda' and 'Pancha Dravida' Brahmins is the _____ mountain range.	Vindhyachal.
2657	What was the precursor to the Panji system mentioned in Kumarila Bhatta's 'Tantra Varttika'?	Samuh Lekhya (Collective Records).
2658	Who was the specific scholar appointed by King Harisimhadeva to manage the Maithil Brahmin Panji?	Gunakar Jha.
2659	Which subgroups in Mithila society, besides Brahmins, originally maintained Panji records?	Karna Kayasthas and Kshatriyas.
2660	What is the singular Gotra associated with all Karna Kayasthas?	Kashyapa.
2661	Define 'Biji Purush'.	The earliest known, identifiable ancestor from whom a specific lineage or 'Mula' descends.
2662	Which type of Panji record tracks lineages based on the 'Mula-Gram' to identify descendants?	Mula Panji.
2663	The 16 ancestral verification points for a bride's eligibility are collectively called _____.	Chhadishta.
2664	According to the 'Chhadishta', the first point of check is the bride's _____.	Paternal Great-Great-Great Grandfather (\$Vridha-Prapitamah\$).
2665	Under whose reign did the 'Shakha Panji' (branch records) and the Shrotriya-Yogya classification start to diverge significantly?	Maharaja Madhav Singh.
2666	What is the script traditionally used to write Panji records?	Tirhuta (or Mithilakshar).

2667	What are the two major divisions of 'Pachhwari' Brahmins mentioned in the text?	Purbari-paat and Pachhwari-paat.
2668	In the Panji system, how many rishis comprise the 'Tri-pravara' of the Shandilya Gotra?	Three (Shandilya, Asit, and Deval).
2669	The rule 'Matritah Panchami Tyaktwa' means avoiding _____ generations from the mother's side.	Five.
2670	Which Panji specifically documents the ancestral rishis associated with a lineage?	Gotra Panji.
2671	The term 'Laukika' in the Panji system refers to the status or records of which specific rank?	Shrotriya.
2672	What is the 'sixteenth Chhadishta' point for a bride?	The maternal grandmother's maternal grandmother's maternal grandfather.
2673	According to the text, which scholar was the main examiner for the Panji Shastra in the time of Maharaja Kameshwar Singh?	Sir Ganganath Jha.
2674	How many 'Chhadishta' points are checked on the bride's side to ensure no overlap with the groom's paternal side?	Sixteen.
2675	What does 'Siddhanta' signify in the context of Maithil marriage?	The final official verification that the bride and groom are not closely related (non-Sapinda).
2676	Which Gotra includes the 'Mula' named 'Khauary' and 'Kharaury'?	Kashyapa.
2677	True or False: The text suggests that 'Genome Mapping' is a modern scientific parallel to the ancient Panji system.	True (it describes Panji as a historical form of genetic/genealogical tracking).
2678	The ancient scholar _____ is quoted regarding the importance of 'Samuh Lekhya' for maintaining lineage purity.	Kumarila Bhatta.
2679	How many 'Mulas' does the Shandilya Gotra have according to the lists provided?	Approximately 44 (including Dighwa, Sarisab, Mahua, etc.).
2680	What is 'Ayanthi Shrestha'?	The first tier of the most respected 'Mula' roots, such as Kharaury and Khauary.
2681	Name one 'Madhyam Mula' listed in the text.	Dighway (or Belaunchay, Ekhatay).
2682	The rishi ancestors of the Bharadwaja Gotra are Bharadwaja, Angiras, and _____.	Barhaspatya.
2683	Which Gotra is associated with the rishis Shakti, Vashistha, and Parashar?	Parashar Gotra.
2684	What does the Panji term 'Adhogami' describe regarding lineage status?	The downward movement or degradation of genealogical rank due to marriage into lower tiers.
2685	Which scholar wrote 'Smritisar' and reportedly married an ineligible relative due to lack of records, prompting the formalisation of Panji?	Pandit Harinath Upadhyaya.
2686	What is the literal meaning of 'Panji' in this context?	A chronicle or register of names and lineages.
2687	In the provided lists, which Gotra does the 'Oini' Mula belong to?	Kashyapa.
2688	Which Mula is associated with the village 'Sarisab'?	Shandilya Gotra.
2689	What is the 'Shakha' of a Panji?	A detailed branch record of a specific family tree within a Mula.
2690	How many 'Chhadishta' points involve the bride's maternal grandfather (\$Matamaha\$)?	Four (points 9, 10, 11, and 12).
2691	Which rishi is the 'Biji Purush' for the Shandilya Gotra?	Shandilya.
2692	Who was appointed to manage the Panji of the Kshatriya (Rajput) community in Mithila?	Vijayadatta.
2693	Who was appointed to manage the Panji for the Karna Kayastha community?	Shankardatta.
2694	Why is the study of Tirhuta script essential for Panjikars?	Because the vast majority of historical Panji records are written exclusively in that script.
2695	The 'Pancha Dravida' Brahmins include those from Karnataka, Andhra (Telang), Dravida, Maharashtra, and _____.	Gujjar (Gujarat).
2696	What time of year is traditionally recommended to dry and preserve Panji books to prevent damage?	When the Sun enters the Leo (\$Simha\$) sign (mid-August to mid-September).
2697	The term _____ refers to the specific genealogical 'fault' or history recorded to prevent future status issues.	Dushana.
2698	True or False: According to the text, marriage with a mother's brother's child is permitted in the Panji system.	False (it is specifically restricted as a forbidden relationship).
2699	How many generations must be avoided for marriage on the paternal side for 'Panjibaddh' Brahmins?	Six generations.
2700	What is the primary rishi for the 'Kashyapa' Gotra?	Kashyapa.
2701	Which Gotra is associated with the 'Kujouli' Mula?	Katyayana.
2702	In the genealogy of Vidyapati, how many generations are traditionally tracked before his birth?	Seven generations.
2703	What is the significance of the year 2000 AD in the provided text?	It marks the start of the digital imaging and transliteration project for the ancient Panji records.

2704	Which scholar is noted as the 'Biji' of the 'Sarisab' Mula?	Ratnapani.
2705	The term 'Mula-Gram' identifies the village of the _____.	Biji Purush (original ancestor).
2706	Which king requested the creation of the 'Shakha Panji' books in 1760 AD?	Maharaja Madhav Singh.
2707	How many hierarchical tiers (\$Chaurals\$) exist within the Shrotriya Panji?	Eight.
2708	The records for the 'Pachhwari' Brahmins contain how many Panjis?	One hundred and fifty-three.
2709	Which Panji scholar was known as 'Panji Shastra Martand'?	Modanand Jha.
2710	Name the four rishis of the 'Vatsa' Gotra Pravara.	Aurva, Chyavana, Bhargava, Jamadagnya, and Apnavan.
2711	What was the primary purpose for the creation of the Maithili 'Panji Prabandh' system?	To ensure the genealogical purity and integrity of the Brahmin, Kayastha, and Kshatriya castes.
2712	Which Maithil ruler is credited with formalising the Panji system in \$1326\$ AD (Shaka \$1248\$)?	King Harisimhadeva.
2713	Who was the first designated 'Panjika' for the Maithili Brahmin community?	Gunakar Jha.
2714	The Panji system defines 'Udhedh' as the detailed introduction of _____ generations of ancestors.	Seven
2715	To determine marriage eligibility, a Maithili Brahmin must provide the introduction of how many 'Kulas' (lineages)?	\$32\$
2716	In the context of the Panji system, what is a 'Biji Purush'?	The earliest known or foundational ancestor of a specific lineage.
2717	How many distinct 'Gotras' are recognized within the Maithili Brahmin community according to the Panji records?	\$20\$
2718	Which seven 'Gotras' are considered the most well-established and populous among Maithili Brahmins?	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
2719	What is the specific meaning of 'Pravara' in the Maithili genealogical system?	Ancestors who were recognized as the original composers of Vedic hymns.
2720	How does a 'Tri-pravara' lineage differ from a 'Pancha-pravara' lineage?	A Tri-pravara lineage has three recognized hymn-composing ancestors, while a Pancha-pravara has five.
2721	The original village associated with a specific lineage is known in the Panji system as the _____.	Mulgram
2722	How many 'Mulgrams' (original villages) were initially identified for the Maithili Brahmin community?	\$167\$
2723	In Maithil Brahmin hierarchy, which category is considered the highest following the Panji division?	Shrotriya
2724	Those who were not officially recorded in the Panji system were categorised as _____.	Jaybar
2725	According to Dharmashastra rules mentioned in the Panji, how many generations must be avoided on the father's side for marriage?	Seven (often revised to six in practice).
2726	How many generations must be avoided on the mother's side for a marriage to be considered valid under Panji rules?	Five
2727	What is the 'Siddhanta Patra' (or 'Asvajana Patra') in the Panji system?	A certificate issued by a Panjika confirming that a bride and groom are not prohibited relatives.
2728	Which script was traditionally used to record and maintain the Panji genealogical records?	Tirhuta (Mithilakshar).
2729	Under which Maithil ruler did the 'Shakha Panji' (branch records) and the Shrotriya hierarchy divisions begin?	Maharaja Madhav Singh.
2730	What does a 'Dushan Panji' record?	Defects, illicit relations, or lineage 'stains' that occurred within a family history.
2731	The Panji system classifies \$35\$ primary lineages into three categories: Ayanti Shrestha, Dvitiya Shrestha, and _____.	Madhyam Mula
2732	Why is marriage prohibited between the Savarna and Vatsa Gotras despite them being different names?	They share the same set of five Pravara ancestors.
2733	What are the two main Vedic branches (Shakhas) followed by Maithili Brahmins?	Yajurveda (Madhyandina Shaka) and Samaveda (Kauthuma Shaka).
2734	Brahmins following the Kauthuma branch of Samaveda are referred to as _____.	Chhandogya
2735	Brahmins following the Madhyandina branch of Yajurveda are referred to as _____.	Vajasaneyi
2736	In the Panji system, what does the term 'Chhattha' (Sixth) refer to in the context of marriage checks?	The sixteen specific ancestral positions where overlap between bride and groom is prohibited.
2737	If an ancestral overlap occurs in the 'Chhattha' position on the groom's maternal side, is the marriage allowed?	Yes, as the prohibition applies strictly to the paternal side overlap.
2738	What historical event led to the institutionalisation of Panjikas as state-appointed record keepers?	Pandit Harinath Upadhyaya unknowingly married his first cousin due to a lack of genealogical records.
2739	What was the significance of the 'Samuh Lekhya' mentioned by Kumarila Bhatta in the \$7\$th century?	It was an early form of collective family records kept to protect lineage integrity.

2740	How many 'Pancha Gauda' Brahmin groups are there, and what is the Maithil group's position among them?	There are five groups; Maithil is one of the five Northern (Pancha Gauda) Brahmin groups.
2741	What geographical feature traditionally divides the 'Pancha Gauda' and 'Pancha Dravida' Brahmin groups?	The Vindhya mountain range.
2742	The 'Gotra Panji' contains a list of all Gotras and their ____.	Ancient Mulas (lineages).
2743	Term: Paanj	Definition: The official genealogical record books maintained by the Panjikars.
2744	How does the marriage ritual of 'Uttara Vivaha' differ between Chhandogya and Vajasaneyi Brahmins?	Chhandogya weddings involve seeing the Arundhati star after sunset, while Vajasaneyi weddings have no such requirement.
2745	Which Panji type specifically lists the 'Sapinda' (lineal) relationship to ensure religious and marital compliance?	Udhedh Panji
2746	The title 'Paanjikar' literally refers to an expert who ____.	Manages and verifies the Panji records for marriage eligibility.
2747	Which century marked the beginning of the written Panji system as commissioned by the state?	The 14th century.
2748	Under what condition is marriage between the bride and groom forbidden regarding their maternal uncles?	The groom cannot marry the daughter of his maternal uncle.
2749	What is the 'Laukik' in the context of the Shrotriya Panji system?	The social standing or 'status' level within the Shrotriya community, which can decrease over generations.
2750	Identify the four Sanskaras (rituals) performed during the Upanayana of a Chhandogya Brahmin.	Namakarana, Chudakarana, Upanayana, and Samavartana.
2751	In the Panji terminology, 'Pachhwari Paat' refers to which group of Brahmins?	The Non-Shrotriya Brahmins (Yogya and Panjibaddha).
2752	What does a 'Patra Panji' primarily record?	The specific Mulgrams (villages) of residence, starting from approximately 500 years ago.
2753	What happens to a Shrotriya's rank if they marry into a lower-ranked Panjibaddha family?	Their rank decreases, potentially causing the family to move out of the top hierarchy over time.
2754	True or False: The Panji system was historically used by Maithil Kshatriyas (Rajputs) as well as Brahmins.	True
2755	Which Panjikar was appointed by King Harisimhadeva specifically for the Karna Kayastha community?	Shankardatta
2756	The term 'Jaybar' describes individuals who are 'Panjibaddha' but have ____.	Lost their official genealogical records or eligibility status over time.
2757	What is the minimum number of ancestors required for an 'Udhedh' check for a bride?	16 (representing the 16 'Chhattha' positions).
2758	How does the Panji system track 'Pravas' (migration)?	By recording both the 'Mula' (original village) and the current 'Dih' (settlement village).
2759	According to the text, what environmental factor led to the preservation of Panji books in the month of Bhadrapada?	The intense heat (sunny days) used to dry and protect the palm-leaf manuscripts from moisture.
2760	The verse starting with 'Tarkabdh Shunyam' records the coronation or arrival of which king?	Nanyadeva (founder of the Karnata dynasty).
2761	Why is the Maithili Panji system often compared to 'Genome Mapping' in a modern context?	Because it acts as a detailed hereditary database tracking genetic lineages over 1000 years.
2762	What is the significance of 'Tantravarttika' in the history of the Panji system?	It is an ancient text by Kumarila Bhatta that validates the necessity of keeping caste records.
2763	What does the Panji record indicate about social mobility, as evidenced by 'Dushan' records?	It shows that while purity was prioritized, cases of inter-caste or irregular marriages were documented to track their impact on lineage.
2764	Identify the primary 'Mula' category to which the Khadaurey and Khauary lineages belong.	Ayanti Shrestha (First Grade).
2765	Who was the 'Biji Purush' of the Mandar Mula, a prominent lineage mentioned in the text?	Mahamahopadhyaya Trivritram Bhatta.
2766	In the Panji system, the groom is referred to as 'Vara' and the bride as ____.	Kanya
2767	The 'Chhattha' rule for marriage eligibility focuses on avoiding ancestors within ____ degrees of separation.	Six
2768	What type of marriage was considered so severe that the offspring were labelled 'Chandala' and excluded from Aryan dignity?	Marriage within the prohibited 'Svajana' (close kin) boundaries.
2769	According to Maharaja Mahesh Thakur's reform, the seventh generation on the father's side became ____ for marriage.	Acceptable (Grahya).
2770	During which historical period was the Panji Prabandha system officially established?	The medieval period, specifically around 1326 AD (1248 Shaka).
2771	Which ruler is credited with the formal organisation and promotion of the Panji system?	King Harisimhadeva of the Karnata dynasty.
2772	In the context of Panji, what does the term 'Udeah' refer to?	The detailed introduction and identification of 32 specific ancestors.
2773	According to traditional Maithil Brahmin marriage rules, how many generations must be avoided on the father's side?	Seven generations.

2774	For marriage eligibility in the Panji system, how many generations must be avoided on the mother's side?	Five generations.
2775	Name the three main social categories of Maithil Brahmins created through the Panji system.	Shrotriya, Yogya, and Panjibaddha.
2776	What status is given to those who are not recorded in the official Panji registers?	They are categorised as 'Jaybar'.
2777	How many primary 'Gotras' are recognised within the Maithil Brahmin community according to the text?	Twenty.
2778	What is a 'Mool' in the Panji system?	The original ancestral village or place of origin of a lineage.
2779	How many primary 'Mools' (\$Mukhya \ Mool\$) were initially determined in the system?	Thirty-four, later expanded to \$35\$.
2780	What is the total number of 'Moolgrams' (ancestral villages) identified in the Maithil Brahmin records?	One hundred and sixty-seven.
2781	In the Panji system, what does the term 'Pravara' signify?	The specific ancestors who were composers of Vedic hymns (\$Suktas\$).
2782	What is the difference between a 'Tri-pravara' and a 'Pancha-pravara' lineage?	Tri-pravara names three hymn-composing ancestors, while Pancha-pravara names five.
2783	Maithil Brahmins following the Shukla Yajurveda are known as _____.	Vajasaneyi.
2784	What is a 'Siddhanta Patra' (or 'Asvajana Patra') in the Panji tradition?	A formal certificate issued by a Panjikaar confirming that a bride and groom are not prohibited relations.
2785	What is the professional title of the genealogists who manage and verify the Panji records?	Panjikaar.
2786	According to the 'Tantra Varttika' by Kumarila Bhatta, what was the purpose of 'Samuha-lekhya'?	To record family lineages to prevent the loss of ancestral history and protect caste purity.
2787	Who was the first Panjikaar appointed specifically for the Maithil Brahmins?	Gunaakaar Jha.
2788	Which Gotra is exclusively found among the Karna Kayastha community according to the text?	Kashyapa.
2789	In the Panji classification, what is the 'Biji Purush'?	The earliest known progenitor or founding ancestor of a specific lineage.
2790	Which Puranic division of Brahmins does the Maithil community belong to?	Pancha Gauda.
2791	Name the five groups that constitute the 'Pancha Gauda' Brahmins.	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
2792	What geographical feature serves as the boundary between Pancha Gauda and Pancha Dravida Brahmins?	The Vindhyaachal mountain range.
2793	Which Gotras are specifically mentioned as having five ancestors in their Pravara (Pancha-pravara)?	Vatsa, Savarna, and Garga.
2794	Marriage between Vatsa and Savarna Gotras is prohibited because they share the same _____.	Ancestors (Pravara).
2795	How many grades or 'Chauras' (categories) exist within the Shrotriya Brahmin Panji?	Eight.
2796	What is 'Dushana Panji' used for in the genealogical records?	To record flaws or 'blemishes' in a lineage, such as prohibited marriages or social transgressions.
2797	Under whose reign was the 'Shakha Panji' (branch records) introduced?	Maharaja Madhav Singh.
2798	What is the significance of 'Laukik' in the Shrotriya Panji system?	It refers to the specific lineages and their relative social standing within the Shrotriya category.
2799	What is the 'Chadhua-karan' ceremony in the context of Maithil Brahmin sacraments?	The tonsure or first hair-cutting ceremony.
2800	Which two sacraments are part of the 'Uttar Vivah' for Chhandoga Brahmins but not necessarily Vajasaneyi?	Sunset marriage rituals and viewing the star Arundhati.
2801	The rule 'Matritah Panchami, Pitritah Saptami' refers to avoiding _____ generations of relatives.	Five maternal and seven paternal.
2802	What is 'Sarpindi' or 'Sapinda' relationship in the context of marriage laws?	Shared bloodline or ancestral connection within a specific number of generations.
2803	Which historical document first mentions 'Samuha Lekhya' (family group records) in the \$7^{th}\$ century?	The 'Tantra Varttika' by Kumarila Bhatta.
2804	What is the 'Adhikaar' verification process performed before a Maithil wedding?	A check by the Panjikaar to ensure the bride and groom have no prohibited genealogical overlaps.
2805	The 'Brahmapura' Mool is unique because it is found in _____ different Gotras.	Six.
2806	What is the status of a child born from a marriage with a 'Svajana' (prohibited relative)?	The child was traditionally considered 'Chandal' or socially excommunicated.
2807	Which Maithil Brahmin category is historically linked to the 'Pachhwari' (Western) division?	The non-Shrotriya Brahmins (Yogya and Vamshaj).
2808	How often were the Panji palm-leaf manuscripts traditionally dried to prevent decay?	Annually, when the Sun is in the Leo (\$Simha\$) zodiac sign (mid-August to mid-September).

2809	What does the 'Shakha Panji' track compared to the 'Mool Panji'?	Shakha Panji tracks specific branches and individual descendants, while Mool tracks the original root lineages.
2810	What is a 'Jaybar' Brahmin?	A Brahmin whose ancestors' details were not recorded during the official Panji census.
2811	According to the text, why did Panji records eventually stop being maintained for the Kshatriya community?	Due to the passage of time and lack of systematic institutional support.
2812	In the Pravara list for the Sandilya Gotra, who are the three ancestors?	Sandilya, Asita, and Devala.
2813	Which Gotra includes 'Shakti', 'Vashistha', and 'Parashara' in its Pravara?	Parashara.
2814	The 'Dushana' records occasionally note marriages with 'Devadasis'. What does this imply?	That the lineage had integrated descendants from non-Brahmin temple dancers.
2815	What does 'Anatishay' or 'Anatishakti' refer to in the context of marriage eligibility?	The absence of any prohibited genealogical connection between two families.
2816	What is the total number of ancestors involved in the 'Udeah' check for both bride and groom?	Thirty-two.
2817	Which category of Maithil Brahmin is considered the highest in the social hierarchy established by the Panji?	Shrotriya.
2818	The Panji system was a response to which event involving Pandit Harinath Upadhyaya?	His accidental marriage to a prohibited relative (his first cousin's daughter) due to lack of records.
2819	What is the 'Siddhanta' in a Maithil marriage ceremony?	The final approval and certification of eligibility given by the Panjikars.
2820	Name the two primary branches of the Maithil community that still strictly maintain Panji records.	Maithil Brahmins and Karna Kayasthas.
2821	In the Panji system, what happens if a person marries someone from the same Gotra?	The marriage is considered invalid (\$Sagotra \ Vivah\$ prohibition).
2822	The term 'Moolgram' literally means ____.	Root village.
2823	How many ancestors are traced in the maternal line (\$Matripaksha\$) for a Yogya Brahmin marriage?	Five generations.
2824	The Panji system was intended to preserve 'Jati Shuddhi', which means ____.	Caste purity.
2825	Which scholar's lineage is used as a prime example of 'Shakha Panji' continuity?	Vidyapati Thakur.
2826	What role does the 'Biji Purush' play in identifying a 'Mool'?	He is the definitive ancestor whose settlement in a village established the 'Mool' name.
2827	What historical event in \$1326\$ AD led to the formalisation of the Panji?	The gathering of scholars and King Harisimhadeva's decree to record all lineages.
2828	Which Gotra has 'Kashyapa', 'Avatsara', and 'Naidhruva' in its Pravara?	Kashyapa.
2829	The 'Pancha Dravida' Brahmins live south of the ____ mountains.	Vindhya.
2830	What is the 'Ayaanti Shrestha' category in the Mool classification?	The first or highest grade of ancestral villages (\$Mool\$).
2831	How many Mools are classified under the 'Ayaanti Shrestha' (First Category)?	Thirteen.
2832	Name the second category of Mools in the Brahmin hierarchy.	Dwadvitiya (Second Grade).
2833	What is 'Madhyam Mool'?	The intermediate or middle category of ancestral villages.
2834	How many Mools are listed as 'Madhyam'?	Eight.
2835	The 'Karnata' dynasty, associated with the Panji, ruled over which region?	Mithila (Videha).
2836	What is the primary Vedic affiliation of the 'Vajasaneyi' Brahmins?	Shukla Yajurveda (\$Madhyandina\$ branch).
2837	The 'Chhandoga' Brahmins follow the 'Kauthuma' branch of which Veda?	Samaveda.
2838	Why is the star Arundhati significant in Maithil Brahmin weddings?	Chhandoga Brahmins must view it after sunset as part of their marriage ritual.
2839	What is 'Pancha-Siddhanta' in the context of genealogical rules?	The five generation avoidance rule on the maternal side.
2840	The 'Panji Prabandha' is often described as a form of ancient 'Genome Mapping' because it ____.	Systematically records biological lineages to prevent inbreeding and maintain hereditary traits.
2841	What is the primary purpose of the 'Panji Prabandh' system established in Mithila?	To maintain caste purity and document genealogy for determining marriage eligibility.
2842	According to the source, what is the historical range covered by the Mithila Panji records?	The records span from \$450\$ AD to \$2009\$ AD.
2843	Which ruler is credited with the formal initiation and institutionalisation of the Panji system in \$1326\$ AD?	Maharaja Harisimhadeva of the Karnata dynasty.
2844	The Panji Prabandh was originally created for which three specific social groups in Mithila?	Brahmins, Kayasthas, and Kshatriyas.

2845	What does the term 'Udhaedh' signify in the context of Maithil genealogy?	The introduction and verification of seven generations of ancestors to establish lineage purity.
2846	For marriage eligibility, how many generations must be excluded (avoided) on the paternal side for a 'Shrotriya' Brahmin?	\$7\$ generations.
2847	For marriage eligibility, how many generations must be excluded (avoided) on the maternal side for a 'Shrotriya' Brahmin?	\$5\$ generations.
2848	How does the paternal exclusion rule differ for 'Panjibaddhas' compared to 'Shrotriyas'?	Panjibaddhas must exclude \$6\$ generations on the paternal side instead of \$7\$.
2849	Into which four hierarchical categories were Maithil Brahmins divided following the Panji system's implementation?	Shrotriya, Yogya, Panjibaddha, and Jaibar.
2850	How many 'Gotras' (clans) are documented among the Maithil Brahmins in the Panji system?	\$20\$ Gotras.
2851	In the Panji system, how many 'Mools' (original ancestral villages) are identified as primary?	\$167\$ Mools.
2852	The 'Pancha Gauda' and 'Pancha Dravida' categories divide the total Brahmin community of India into how many regional groups?	\$10\$ groups.
2853	To which larger regional division of Brahmins do the 'Maithil Brahmins' belong?	The Pancha Gauda group.
2854	What is the specific branch (shakha) of the Yajurveda followed by 'Vajasaneyi' Maithil Brahmins?	The Madhyandina branch.
2855	Maithil Brahmins who follow the Samaveda Kauthuma branch are known as _____.	Chhandoga.
2856	How many 'Pravaras' (ancestral lineages within a Gotra) are typically recognized in Maithil Brahmin families?	They are divided into Tri-pravara (\$3\$ ancestors) and Panch-pravara (\$5\$ ancestors).
2857	Which three Gotras among Maithil Brahmins are categorized as 'Panch-pravara'?	Vatsa, Savarna, and Bharva.
2858	Who was the scholar appointed by Maharaja Harisimhadeva to manage the Brahmin Panji records?	Pandit Gunaikar Jha.
2859	Who was appointed to manage the Panji records for the 'Karna Kayasthas'?	Shankardatta.
2860	In Panji terminology, who is the 'Bijee Purusha'?	The earliest known ancestor from whom a specific lineage or 'Mool' originates.
2861	What is 'Mool Gram' in the context of Mithila genealogy?	The original village or ancestral seat associated with the Bijee Purusha of a clan.
2862	What is the function of 'Siddhanta Patra' (or 'Asvajan Patra') issued by a Panjikaar?	It is a legal/religious certificate confirming that a bride and groom are not related within prohibited degrees.
2863	The rule 'Matritah Panchami, Pitritah Saptami' refers to the exclusion of how many generations from the mother and father respectively?	Five generations from the mother and seven from the father.
2864	What specific genealogical information does the 'Dushan Panji' record?	It documents social flaws, 'kshana' (irregularities), or prohibited marriages in a lineage.
2865	Which Panji type provides a detailed record of the branches and sub-branches of various families?	Shakha Panji.
2866	The \$16\$ ancestral checkpoints used to determine marriage eligibility are collectively known as _____.	Chhadishta.
2867	Who introduced the 'Shakha Panji' system and the hierarchical classifications of Shrotriya and others?	Maharaja Madhav Singh.
2868	What is the primary language and script used in traditional Panji manuscripts?	Maithili language in the Tirhuta (Mithilakhar) script.
2869	According to the 'Panji Prabandh', what defines a person as 'Panjibaddha'?	A person whose name and lineage are officially recorded in the Panji books.
2870	Why were the Gotras 'Vatsa' and 'Savarna' traditionally prohibited from intermarrying despite having different names?	They share the same common ancestors (Pravaras).
2871	What is the 'Mool' of the Maithil poet Vidyapati as per the Panji records?	Bisaphi (from the Kashyap Gotra).
2872	Which ancient philosopher's work, 'Tantra Varttika', mentions 'Samuha Lekhya' as a precursor to the Panji system?	Kumarila Bhatta.
2873	What is the religious significance of 'Pravara' in Vedic rituals for Maithil Brahmins?	It names the specific sages who composed the Vedic hymns for that lineage's branch.
2874	What manual verification must a Panjikaar perform before a marriage is sanctioned?	Verification of \$32\$ ancestral 'Mools' to ensure no Sapinda relationship exists.
2875	In the context of historical Mithila, what led to the regional differentiation of Brahmins according to the text?	Regional differences in climate, language, diet, and dress affected local customs and practices.
2876	What are the four 'Samskaras' (sacraments) observed by Chhandoga Brahmins in Mithila?	Namakarana, Chudakarana, Upanayana, and Samavartana.
2877	How does the 'Vajasaneyi' marriage ritual timing differ from the 'Chhandoga' practice?	Vajasaneyi marriages can occur day or night, while Chhandoga marriages have specific segments, including seeing the Arundhati star after sunset.

2878	In the classification of Mools, which category is considered 'Ayanti Shrestha' (first class)?	Lineages like Khadaure, Khauade, Budhabade, and Madariye.
2879	Which Gotra includes the Mools of Dighwe, Sarisab, Mahua, and Pabauli?	Sandilya Gotra.
2880	Which Gotra includes the Mools of Pali, Hariambe, and Takwal?	Vatsa Gotra.
2881	The Mools of Oini, Khauai, and Mandar belong to which Gotra?	Kashyap Gotra.
2882	Which Mool is unique for appearing across several Gotras including Sandilya, Vatsa, and Kashyap?	Brahmpura.
2883	The 'Tri-pravara' sages for the Sandilya Gotra are Sandilya, Asita, and _____.	Devala.
2884	The 'Panch-pravara' sages for the Vatsa Gotra include Aurva, Chyavana, Bhargava, Jamadagnya, and _____.	Apnuvana.
2885	What does 'Sapinda' relationship mean in the context of marriage laws?	It refers to individuals who share common ancestors within a specific number of generations and are thus barred from marrying.
2886	According to the text, what is the consequence of marrying within a 'Svajan' (prohibited relation)?	The offspring were historically considered 'Chandala' and excluded from Aryan social status.
2887	Which ruler's reign saw the decline of Panji among Mithila's Rajputs/Kshatriyas?	The records suggest it happened over time, but Rajputs still follow village-based exclusion (avoiding paternal/maternal villages).
2888	Which Panji version specifically lists the 'Dosh' (vices/flaws) to help lineages avoid past negative influences?	Dushan Panji.
2889	What is the significance of the \$16\$th 'Chhadishta' (Mother's maternal grandmother's maternal grandmother)?	It is the final ancestral line checked to ensure total genealogical separation.
2890	What is the meaning of the term 'Jaibar' (or Jayabar) in the Mithila social hierarchy?	Brahmins who are not officially registered or 'Panjibaddha' in the genealogical records.
2891	The 'Pravara' for the Bharadvaj Gotra consists of Bharadvaj, Angiras, and _____.	Barhaspatya.
2892	According to the Panji system, what determines the 'Mool' of an individual?	The original ancestral village where the family's 'Bijee Purusha' resided.
2893	Which Panjkar was assigned to handle the genealogy for the 'Kshatriya' (Rajput) caste?	Vijaydatta.
2894	The text compares the Panji system to which modern biological concept?	Genome Mapping.
2895	What happened to the status of a lineage in the Panji system if they married into a 'lower' category family?	The family status ('Paanti') would decline (Adhogami).
2896	Which month is traditionally recommended for drying and maintaining Panji books to prevent decay?	The month of Bhadra (mid-August to mid-September) when the sun is in Leo.
2897	Who was the first 'Panji-shashtra Martand' title holder mentioned in the text?	Modanand Jha.
2898	Which Brahmin category is also referred to as 'Pubari-paanti'?	The Shrotriyas.
2899	How many 'Chaudalas' (categories/levels) exist within the Shrotriya Panji?	\$8\$ levels.
2900	How many Panji books are currently associated with the 'Yogya' and 'Panjibaddha' categories combined?	\$153\$ Panjis.
2901	What is the primary difference in the 'Upnayana' (thread ceremony) between the two Veda branches in Mithila?	Chhandogas perform \$4\$ specific sacraments, while Vajasaneyis perform \$4\$ different ones including 'Vedarambha'.
2902	Term: 'Mool Panji'	The fundamental genealogical book recording the basic lineages and ancestral origins.
2903	The Mool 'Belonche' belongs to which Gotra?	Bharadvaj Gotra.
2904	What is recorded in the 'Udhaedh Panji' specifically?	The 'Sapinda' relationship and ancestral lineage of the last \$6\$ generations.
2905	Which Gotra is the only one identified for the 'Karna Kayasthas' in Mithila?	Kashyap Gotra.
2906	In the Panji system, what is the role of a 'Panjkar'?	A professional genealogist authorised by the state to maintain records and verify marriage eligibility.
2907	Which Mithila king's court included Gunaikar Jha, the architect of the Panji records?	Maharaja Harisimhadeva.
2908	How many total Panjis are mentioned for 'Shrotriyas'?	\$32\$ Panjis.
2909	The principle 'Panchamat Saptamat Urdhvam' suggests marriage is allowed after which generations?	After the \$5\$th generation from the mother and the \$7\$th from the father.
2910	Which document is considered the 'Soul' of the Panji system and must be produced before any wedding?	The 'Siddhanta Patra' (Eligibility Certificate).
2911	True or False: The Panji system allows marriage if the bride and groom belong to the same Gotra but different Mools.	False (Same Gotra marriage is prohibited).
2912	What is the significance of the year \$1326\$ AD in Maithil history?	It marks the formal establishment of the Panji genealogical records.
2913	Which specific ancestor is checked in the \$1\$st 'Chhadishta'?	The bride/groom's great-great-grandfather's father (Vridhha-Prapitamaha's Pitamaha).

2914	Identify the Gotra for the Mools 'Kujavali', 'Jalki', and 'Ratigram'.	Katyayan Gotra.
2915	Which Gotra is associated with the Mool 'Nikhuti'?	Kaushik Gotra.
2916	What does the text suggest is the main threat to the preservation of Panji records today?	Lack of knowledge of the Tirhuta script and declining social participation.
2917	Which Panji type lists families that have lost their social status due to prohibited acts?	Dushan Panji.
2918	The sages for the 'Parashar' Gotra Pravara are Shakti, Vasishtha, and _____.	Parashar.
2919	In the \$32\$-point Udhaedh verification, how many maternal ancestors are typically checked?	\$16\$ maternal ancestors.
2920	What was the primary objective of establishing the Panji Prabandh in Mithila?	To maintain genealogical records and ensure caste purity (Jati Shuddhata) for marriage purposes.
2921	Under whose reign was the Panji system formally institutionalised in 1326 AD (Saka 1248)?	Maharaja Harisimhadeva.
2922	How many 'Gotras' are recognised in the Maithil Brahmin community according to the Panji records?	20
2923	What is the minimum number of generations that must be avoided on the paternal side for a valid Maithil Brahmin marriage?	Seven generations.
2924	What is the minimum number of generations that must be avoided on the maternal side for a valid Maithil Brahmin marriage?	Five generations.
2925	Which three social categories were created among Maithil Brahmins through the Panji classification?	Shrotriya, Yogya, and Panjibaddh.
2926	What term is used for Maithil Brahmins who were not formally registered in the Panji system?	Jaibar.
2927	What is the 'Beeji Purush' in the Panji genealogical system?	The earliest known progenitor or 'seed' ancestor of a specific lineage.
2928	How many 'Mools' (original root villages/lineages) are documented in the Panji Prabandh?	167
2929	Which Gotras belong to the 'Panch-pravara' category?	Vatsa, Savarna, and Bharadwaj.
2930	What defines a 'Tri-pravara' Gotra in the Maithil Panji system?	A lineage whose ancestors composed three specific hymns or sections of the Rigveda.
2931	Which two Vedas do Maithil Brahmins primarily follow?	Samaveda and Shukla Yajurveda.
2932	What are the two subdivisions of Maithil Brahmins based on Vedic rituals?	Chhandogya (Samavedi) and Vajasaneyi (Yajurvedi).
2933	What is the 'Siddhant Patra' (also known as Aswajana Patra)?	A certificate issued by a Panjikaar confirming that the bride and groom are not prohibited relations.
2934	The Panji system records the marriage history of which three communities in Mithila?	Brahmins, Kayasthas, and Kshatriyas.
2935	How many 'Chhadwith' (specific ancestral check-points) are evaluated to determine marriage eligibility?	16
2936	What script was traditionally used to write and maintain Panji records?	Mithilakshar (Tirhuta).
2937	Which scholar was appointed by Maharaja Harisimhadeva to organise the Panji records for Brahmins?	Gunakar Jha.
2938	In the Panji system, what does 'Moolgram' refer to?	The specific ancestral village from which a family lineage originates.
2939	Which 13th-century philosopher's work, 'Tantra Vartika', provides early evidence of genealogical record-keeping?	Kumarila Bhatta.
2940	What term describes a marriage with a prohibited relative that results in social exclusion according to Smriti texts?	Swajana.
2941	The first Chhadwith check in marriage eligibility involves the bride's _____.	Great-great-paternal grandfather (Vridha Prapitamaha).
2942	Under the rule of Maharaja Madhav Singh, what new type of genealogical book was introduced?	The Shakha Panji.
2943	Which classification of Maithil Brahmins is further divided into eight 'Chaurals'?	Shrotriya.
2944	In terms of modern science, what is the Panji Prabandh compared to in the text?	Genome mapping or DNA sequencing.
2945	What is the 'Dushana Panji' used for?	To record any flaws or 'stains' (social or ritual) in a lineage to protect future generations.
2946	How does the marriage ritual of Samavedi Brahmins (Chhandog) differ from Yajurvedi (Vajasaneyi) regarding timing?	Chhandog rituals are divided into two parts and often require seeing the stars (Arundhati) after sunset.
2947	The text lists _____ as the only Gotra present among Karna Kayasthas.	Kashyap.
2948	What is the 'Uti' or 'Up-Teep' in Panji terminology?	Supplementary or auxiliary notes found in the genealogical records.
2949	According to the Panji system, a groom's paternal side must be clear for _____ generations to be eligible for marriage.	Six (revised from seven by some authorities like Mahesh Thakur).

2950	Who was the 'Panchaditya' mentioned in the historical verses as the recipient of the first Panji documents?	The collective body of scholars or the lineage of Gunakar Jha.
2951	The Gotra 'Sandilya' contains three specific Pravaras: Sandilya, Asit, and ____.	Deval.
2952	How many main 'Mools' were determined from the initial 167 for the purpose of primary classification?	34 (plus the Khanam branch of Phandah).
2953	What is the 'Samuh Lekhya' mentioned by Kumarila Bhatta?	Collective genealogical records maintained by noble families to prevent the forgetting of ancestors.
2954	In the Shrotriya hierarchy, which rank is referred to as 'Pabari-paat'?	The eastern group or rank (Purbari).
2955	Which Gotra includes the Mools 'Ekahara' and 'Pali'?	Kaundinya.
2956	The 'Gotra Panji' lists all Gotras and their associated ____.	Ancient Mools (original roots).
2957	According to the Smriti rule 'Matritah Panchami, Pitritah Saptami', what is prohibited?	Marriage within five generations of the mother and seven of the father.
2958	What was the significance of the 1326 AD gathering in Mithila regarding the Panji?	It was the formal 'Panji Prabandh' assembly where scholars decided to centralise and regulate genealogical records.
2959	Which Brahmin category was traditionally called 'Pachhabari-paat'?	The western group, generally referring to Yogya and Panjibaddh Brahmins.
2960	The 'Shakha Panji' was specifically created to manage the lineages of which group?	Shrotriya Brahmins.
2961	Which Gotra has the Pravaras Shakti, Vashistha, and Parashar?	Parashar.
2962	What does the text imply by comparing 'Panji' to 'Chromosomes'?	That the ancient system accurately tracked genetic traits and lineage health long before modern genetics.
2963	Why did Panjikars advise drying the Panji palm-leaf manuscripts when the Sun is in the Leo (Simha) constellation?	Because the heat is most intense and effective for preservation (roughly August-September).
2964	Which Maharaja of Darbhanga requested the compilation of 'Shakha' books to differentiate Shrotriya, Yog and Panjibaddh status?	Maharaja Madhav Singh.
2965	Concept: Adhikarnalay	Definition: The formal state department or office created to manage Panji records under royal authority.
2966	The Gotra 'Katyayan' includes the Pravaras Katyayan, Vishnu, and ____.	Angiras.
2967	What is the primary difference in the Upnayan (sacred thread) ceremony between Samavedi and Yajurvedi Brahmins?	Yajurvedis include the 'Vedarmbh' (starting of Veda study) as a distinct fourth ritual step.
2968	How does the Panji system record 'inter-caste' or 'irregular' marriages in history?	Through the 'Dushana' (blemish) or 'An-Swayanjanya' records which trace the descendants of such unions.
2969	Who was Harinath Upadhyaya and why is he significant in Panji history?	A great scholar whose unintentional marriage to a close relative (his cousin's daughter) triggered the need for the formal Panji Prabandh.
2970	What is the 'Beeji' of the Mandar Gotra (often identified with the Mool 'Mandar')?	Trilochan Bhatt (circa 450 AD).
2971	The Panji Prabandh prioritises which characteristic of the lineage for Shrotriya status?	Ritual purity and continuous adherence to Vedic karma-kand.
2972	What document must be checked to ensure a bride is not the daughter of the groom's maternal uncle?	The marriage eligibility check-list (Niyam 4).
2973	According to the Panji system, how many paternal generations must be avoided for a marriage to be considered valid?	Seven generations.
2974	In the context of Maithil marriage eligibility, how many maternal generations must be avoided?	Five generations.
2975	Define the term 'Udegh' in the Panji system.	The detailed introduction of 32 ancestral roots (mools) used to verify marriage eligibility.
2976	Which historical ruler is credited with formalising the Panji Prabandh in 1326 AD?	Maharaja Harisimhadeva.
2977	Who was the first designated 'Panjika' (registrar) appointed by Maharaja Harisimhadeva?	Pandit Gunakar Jha.
2978	The Panji system classifies Maithil Brahmins into three main hierarchical categories; name them.	Shrotriya, Yogya, and Panjibaddh.
2979	What is a 'Beeji Purush' in Maithil genealogy?	The earliest known common ancestor or 'root person' of a specific lineage or clan.
2980	How many 'Gotras' (clans) are traditionally identified within the Maithil Brahmin community?	20 Gotras.
2981	List the seven most populous or well-known Gotras among Maithil Brahmins.	Sandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
2982	In Maithil tradition, what are 'Pravars'?	The specific sage-ancestors associated with a Gotra who were composers of Vedic hymns.
2983	Explain the difference between 'Tri-Pravar' and 'Panch-Pravar'.	Tri-Pravar refers to lineages with three sage-ancestors, while Panch-Pravar refers to those with five.

2984	How many main 'Mools' (ancestral roots) were initially identified in the formal Panji system?	167 Mools.
2985	The Ayanth Shrestha category represents which level of Mool hierarchy?	The first or highest category of noble lineages.
2986	What triggered the formalisation of the Panji system according to legend involving Pandit Harinath Upadhyaya?	He inadvertently married a close relative (his cousin's daughter) due to a lack of genealogical records.
2987	Define 'Siddhanta' in the context of Maithil marriage.	A formal certificate issued by a Panjikaar confirming that the bride and groom are not related within prohibited degrees.
2988	The certificate of non-relationship required for marriage is also known as ____.	Asvajana-patra
2989	What is the 'Chhadwith' (Sixteen Points) check used for?	To identify 16 specific female ancestral lines of the bride to ensure they do not overlap with the groom's paternal side.
2990	In the Panji system, what does 'Jaywar' refer to?	Brahmins who were not formally recorded in the initial Panji or who lost their status.
2991	Which Veda and Shakha (branch) are followed by 'Vajasaneyi' Maithil Brahmins?	The Madhyandina branch of the Shukla Yajurveda.
2992	Maithil Brahmins following the Samaveda belong to which specific branch?	The Kauthuma Shakha (Chhandogya).
2993	According to the source, why did Panji maintenance decline among Kshatriyas over time?	The practice was lost, leading them to simply avoid marrying into the same village to prevent prohibited unions.
2994	What is the significance of the year \$1326\$ AD (\$1248\$ Shaka) in this context?	It is the date the formal Panji system was established under state authority in Mithila.
2995	How does the Panji define a 'Sapinda' relationship?	Relationship through shared blood or ancestry within seven generations on the father's side and five on the mother's.
2996	What are the 'Pancha-Gauda' Brahmin divisions mentioned in the text?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
2997	Which mountain range acts as the traditional geographic divider between Pancha-Gauda and Pancha-Dravida Brahmins?	The Vindhya Mountains.
2998	What is the 'Udegh' of the bride's 'Prapitamaha' (Great-grandfather) considered in the Chhadwith check?	The first Chhadwith (checkpoint).
2999	The 16th Chhadwith checkpoint involves which maternal ancestor of the bride?	The Matri-matamahi (mother's maternal grandmother's mother).
3000	Why is the preservation of 'Tirhuta' script considered essential to the Panji system?	Because almost all original Panji manuscripts are written in this specific script.
3001	Identify the primary source mentioned that provided the theoretical basis for 'Samuh-Lekhya' (community records) in the 7th century.	Kumarila Bhatta's 'Tantra-Vartik'.
3002	What does the Panji record indicate about social flexibility in medieval Mithila?	It contains numerous instances of inter-caste marriages and the acceptance of their descendants into the community over time.
3003	The 'Laukika' refers specifically to the Panji records of which group?	The Shrotriya Brahmins.
3004	How many 'Chaurala' (classes) are the Shrotriya Panjis divided into?	Eight classes.
3005	According to the text, what is the 'Genome Mapping' aspect of the Panji records?	The systematic tracking of DNA/bloodlines through meticulous genealogical documentation over 1500 years.
3006	What advice is given to Panjikars to prevent the loss of the Panji tradition?	To train students and avoid excessive commercialism/greed in their duties.
3007	Which ancestor represents the 'Matamaha' in a lineage check?	The maternal grandfather.
3008	The Sandilya Gotra identifies with which specific Pravars?	Sandilya, Asit, and Deval.
3009	Which Gotra includes the Pravars: Shakti, Vashishtha, and Parashara?	Parashara Gotra.
3010	The text mentions a specific lineage checking period known as 'Lion in Leo' (Singh-rashi Sun); what is its practical purpose?	It is the time recommended to dry and preserve the palm-leaf Panji manuscripts in the sun.
3011	What is the significance of the root 'Brahampura' in the text?	It is a rare example of a Mool (ancestral village) that is found across multiple different Gotras.
3012	Who was 'Udayanacharya' according to the records?	A famous scholar associated with the Pariharpur-Kariyan Mool of the Sandilya Gotra.
3013	Which scholar's lineage is traced back to MM Trianand Bhatt (c. 450 AD)?	MM Halayudha.
3014	What was the 'Tantra-Vartik's' view on lineage preservation?	High-born families should maintain community records (Samuh-Lekhya) to remember their ancestors' qualities and flaws.
3015	In the Panji terminology, what is a 'Kut-mamy'?	Children of one's maternal uncle, with whom marriage is strictly prohibited.
3016	What does the term 'Anshaj' refer to in the Panji categories?	Lineages that are recorded in the Panji but hold a rank below Shrotriya and Yogya.
3017	What is 'Patra Panji'?	Records used since roughly 500 years ago that focus on the 'Mool-gram' (original village) details.

3018	Which historical figure's mother is identified in the Panji as a 'Devadasi' (temple dancer)?	The poet Vidyapati Thakur (as per specific historical/social notations in certain Panjis).
3019	According to the Panji, what is the consequence of marrying within a prohibited degree ('Svajana')?	The offspring were traditionally considered 'Chandala' or social outcasts from the Aryan fold.
3020	Maithil Brahmins primarily belong to which two Vedas?	Yajurveda and Samaveda.
3021	What distinguishes the Samavedic marriage ritual from the Yajurvedic one in Mithila?	Samavedic (Chhandogya) marriage has a specific 'Uttar-Vivah' segment involving the sighting of the Arundhati star.
3022	Which Gotra is associated with the Pravars: Kaushika, Atri, and Jamadagni?	Kaushika Gotra.
3023	Name the specific Mool and Gotra of the first Panjekar, Gunakar Jha.	Mohiji-Saurath (branch of Kharauri Mool), Sandilya Gotra.
3024	What is 'Sapinda-Nivritti'?	The point at which individuals are no longer considered 'Sapinda' (blood relatives) and can legally marry.
3025	Why did Panjis start being written on paper instead of palm leaves?	Due to the scarcity of palm leaves and the advent of modern writing materials, though old records remain on 'Tal-patra'.
3026	Term: Gotra-Pravar-Nirnaya	Definition: The formal determination of a person's clan and ancestral sages, required before any religious rite or marriage.
3027	Which historical region is the Panji system native to?	Mithila (North Bihar, India, and parts of Nepal).
3028	What was the primary purpose for the creation of the Panji Prabandha in the late medieval period?	To maintain the purity of lineage and caste for Brahmins, Kayasthas, and Kshatriyas.
3029	In the Mithila Panji system, what does 'Udegh' signify?	The detailed introduction of seven generations of ancestors to verify genealogical purity.
3030	How many specific 'kulas' (ancestral lineages) must be identified for a complete Udegh introduction?	32
3031	What is the minimum number of generations that must be avoided for marriage on the paternal side according to Panji rules?	Seven generations.
3032	In the context of Mithila marriage laws, how many generations must be avoided on the maternal side?	Five generations.
3033	Identify the three main social hierarchical categories of Maithil Brahmins created through the Panji system.	Shrotriya, Yogya, and Panjibadh.
3034	What term is used for those individuals whose names are not recorded in the official Panji records?	Jayabar.
3035	How many total 'Gotras' (clans) are traditionally identified within the Maithil Brahmin community?	20
3036	How many 'Moola Grams' (original ancestral villages) were primary identified out of the 167 documented?	34 (later expanded to 35).
3037	The Maithil Brahmin community is vertically divided into two Vedic groups based on their rituals: the Chhandogya and the _____.	Vajasaneyi
3038	Which specific branch of the Samaveda is followed by the Chhandogya Brahmins of Mithila?	Kauthuma
3039	Which branch of the Shukla Yajurveda is followed by the Vajasaneyi Brahmins of Mithila?	Madhyandina
3040	Into how many total regional categories does the Purana divide the entire Brahmin community of India?	10
3041	What are the two broad categories used to group the ten regional Brahmin communities of India?	Panch Gauda and Panch Dravida.
3042	Which mountain range acts as the geographical boundary between the Panch Gauda and Panch Dravida Brahmins?	Vindhyachal
3043	Name the five Brahmin communities belonging to the 'Panch Gauda' group.	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
3044	What was the ancient name of the kingdom that eventually became known as Mithila?	Videha
3045	In the Chhandogya marriage tradition, when is the 'Uttara Vivaha' performed?	After sunset, following the sighting of the star Arundhati.
3046	What is the defining characteristic of a 'Tri-Pravara' Gotra?	The lineage claims three ancestors who composed hymns in the Rigveda.
3047	What is the defining characteristic of a 'Panch-Pravara' Gotra?	The lineage claims five ancestors who composed hymns in the Rigveda.
3048	Which two Gotras in Mithila are forbidden from intermarrying because they share common ancestors despite being separate clans?	Savarna and Vatsa.
3049	What is the 'Samuha Lekhya', as mentioned by the philosopher Kumarila Bhatta?	A collective written record used by noble families to preserve their lineage and history.
3050	In which century was the Panji system officially formalised under royal patronage in Mithila?	The 14th Century (specifically 1326 AD).
3051	Which King of the Karnat dynasty is credited with the formal organisation of the Mithila Panji system?	King Harisimhadev.

3052	Who was the scholar appointed by King Harisimhadev to manage the Panji records for Maithil Brahmins?	Gunakar Jha.
3053	What is the name of the certificate issued by a Panjikar confirming that a bride and groom are not related within prohibited degrees?	Siddhanta Patra (or Aswajanayapar).
3054	What is the specific role of a 'Panjikar' in Maithil society?	To act as a genealogist who verifies marriage eligibility and maintains family records.
3055	Concept: Biji Purusha	The earliest known progenitor or founder of a specific family lineage or Moola.
3056	Which script was traditionally used to write and maintain the Panji records?	Tirhuta (or Mithilakshar).
3057	What is a 'Dushana Panji'?	A specific record documenting faults, blemish, or prohibited incidents within a lineage.
3058	In the hierarchy of Maithil Brahmins, what is the 'Laukik' associated with?	The Shrotriya category's specific genealogical and social status records.
3059	How many main Shrotriya 'Panjis' are documented in the system?	32
3060	According to the text, why should Panji books be dried when the Sun enters the Leo (Simha) constellation?	Because the intense heat during this period helps preserve the palm leaves from moisture and decay.
3061	What are the three things a Panji book must be protected from, according to the traditional Sanskrit verse?	Water, oil, and loose binding.
3062	The term 'Moola' in the Panji system refers to the original _____ of a family.	Village or ancestral home.
3063	Which Maithil King initiated the 'Shakha Panji' to categorise families into sub-groups like Shrotriya?	Maharaja Madhav Singh.
3064	In the Karna Kayastha community, which single Gotra is universally shared by all members?	Kashyapa
3065	How many categories of 'Chhatth' (prohibited relationship points) are checked for a bride's eligibility?	16
3066	A marriage is prohibited if any of the 16 prohibited ancestors of the bride appear in the groom's _____ lineage within 7 generations.	Paternal
3067	If a prohibited ancestor of the bride appears in the groom's maternal lineage, is the marriage allowed?	Yes, provided the exclusion limit of 5 generations is met.
3068	Which scholar is cited as having mistakenly married his cousin due to the lack of Panji records before the 14th century reform?	Pandit Harinath Upadhyaya.
3069	What historical text by Jyotirishwar Thakur mentions King Harisimhadev and the 72 Rajput clans?	Varna Ratnakar
3070	Which famous Maithili poet's genealogy is recorded in the Panji for over 19 generations?	Vidyapati Thakur.
3071	What is the title given to a Panjikar who passes the 'Maartand' or 'Dhaut' examination?	Panji Shastra Maartand.
3072	The 'Tirhuta' script is described as the _____ of the Panji Prabandha system.	Life force (Pranadhara).
3073	What modern scientific concept does the author compare the Panji system to in the title of the work?	Genome Mapping
3074	How does the 'Shakha Panji' differ from the 'Moola Panji'?	Shakha Panji records branches and social status (like Shrotriya), whereas Moola Panji records basic ancestral origins.
3075	Why did Panjikars traditionally travel from village to village?	To collect and update information regarding new births and marriages.
3076	According to the rules of 'Sapinda', marriage is prohibited with the children of one's maternal _____.	Uncle (Mousi/Mama children).
3077	How many 'Panch Dravida' Brahmin groups are there according to the Purana?	Five (Karnataka, Gurjara, Tailanga, Dravida, and Maharashtra).
3078	What is the primary material traditionally used to write Panji records before the use of paper?	Palm leaves (Talpatra).
3079	What is the 'Asvajanayapar' certificate?	An official declaration that the two parties are not 'Swajana' (relatives) and are fit to marry.
3080	Which Gotra includes the Moola 'Khadaure', 'Khauade', and 'Budhabade'?	Kashyapa (or similar high-ranking categories depending on the Moola).
3081	True or False: The Panji system originally applied to Kshatriyas as well as Brahmins.	True
3082	The Maithil Brahmin society is 'Pitri Pradhana', meaning lineages are tracked through the _____.	Father
3083	Who was the author of the 'Smritisara', a key text for Dharma Shastra mentioned in the source?	Pandit Harinath Upadhyaya.
3084	The Panji records were designed to prevent 'Chandala' offspring, which resulted from _____ marriages.	Prohibited or 'Swajana' (endogamous within restricted degrees).
3085	Which scholar's 19th-generation descendant is the Panjikar Vidyanand Jha?	Sadu-upadhyaya Gunakar Jha.

3086	The process of verifying 32 lineages before marriage is called _____.	Udegh
3087	What was the purpose of the 'Dushana Panji' specifically regarding social standing?	To warn against lineages that had mixed with 'unknown' or 'prohibited' groups.
3088	Why is the palm leaf manuscript of 'Devanand Chhoti Jha' significant?	It is considered one of the best-preserved and most accurate Shakha Panjis from the 18th century.
3089	What color of ink was traditionally used for the Tirhuta manuscripts of Panji?	Black (made from jungle herbs).
3090	What is the term for a family branch that has moved from its original 'Moola' village to a new village?	Dih
3091	In the Shrotriya hierarchy, which rank is considered the highest?	The First Category (Prathama Shreni).
3092	How many 'Pravaras' does the Shandilya Gotra have?	Three (Shandilya, Asit, and Deval).
3093	Which Gotra features five Pravaras: Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana?	Vatsa (and also Savarna).
3094	What does 'Sapiá'᳚á,a' mean in the context of Hindu marriage laws?	Sharing the same 'Pinda' or ancestral body/offering, signifying a blood relationship.
3095	The 20th Gotra listed in the Maithil Brahmin tradition is _____.	Jatukarna
3096	What is the role of 'Maha-Maho-Upadhyaya' in the Panji records?	It is a high academic and religious title used to denote distinguished scholars in the genealogy.
3097	According to the Panji system, can a groom marry his mother's brother's daughter?	No, it is strictly prohibited.
3098	In the Vajasaneyi branch, which four sacraments (Samskaras) are performed together?	Chudakarana, Upanayana, Vedarambha, and Samavartana.
3099	The Chhandogya branch excludes which sacrament that the Vajasaneyis include during the initiation phase?	Vedarambha
3100	Which dynasty's fall is associated with the rise of the Panji system as a protective social measure?	The Karnat Dynasty.
3101	Term: Bijipurbha	The progenitor of a specific village branch within a larger clan.
3102	What is the main consequence of not having a 'Siddhanta' before a Maithil wedding?	The marriage is considered 'Ashastriya' (unscriptural) and invalid by society.
3103	How many total 'Moolas' are identified across all Maithil Brahmins in the documented collection?	167
3104	Which historical ruler is credited with the systematic implementation of the Panji Prabandh?	Maharaja Harisingh Dev of the Karnat dynasty.
3105	In which year (AD) was the Panji system officially organised in Mithila?	In 1326 AD (Shaka Era 1248\$).
3106	What event prompted Maharaja Harisingh Dev to formalise the genealogical records?	The accidental marriage of the scholar Pandit Harinath Upadhyay to his first cousin due to a lack of records.
3107	The document issued by a Panjika certifying that a couple is not related within prohibited degrees is called the _____.	Siddhant Patra (or Asvajana Patra).
3108	What is the difference between a 'Mool' and a 'Moolgram'?	Mool refers to the root clan, while Moolgram refers to the specific village where that branch settled.
3109	How many distinct 'Gotras' are recognised among Maithil Brahmins according to the source?	There are 167 recognised Gotras.
3110	What does the term 'Udhed' refer to in the context of marriage verification?	The detailed introduction and lineage of 32 specific ancestors (अपभ्रंश) required to check for relationship overlaps.
3111	According to the Panji rules, how many generations must be avoided on the maternal side for a valid marriage?	Five generations.
3112	Which philosopher mentioned 'Samuh-lekhya' (collective records) in the 7th century to justify lineage protection?	Kumarila Bhatta in his work 'Tantravartika'.
3113	The highest hierarchical category of Maithil Brahmins established during the Panji Prabandh is known as _____.	Shrotriya.
3114	What are the three main hierarchical ranks of Maithil Brahmins mentioned in the text?	Shrotriya, Yogya, and Panjibaddh.
3115	Why is marriage prohibited between individuals of the 'Vatsa' and 'Savarna' Gotras?	Because they share the same primary ancestors, making them 'Svajana' (relatives).
3116	What is the distinction between 'Tri-pravar' and 'Panch-pravar' families?	Tri-pravar families have three Rishi ancestors, while Panch-pravar have five.
3117	How many total 'Mools' (clans) were initially identified and recorded in the Panji system?	167 Mools.
3118	Which Veda and branch (Shakha) are followed by the 'Vajasaneyi' Brahmins of Mithila?	The Madhyandina branch of the Shukla Yajurveda.
3119	Which Veda and branch (Shakha) are followed by the 'Chhandogya' Brahmins of Mithila?	The Kauthuma branch of the Samaveda.
3120	How do the marriage rituals of Chhandogya and Vajasaneyi Brahmins differ regarding timing?	Chhandogya marriages are performed in two parts and require viewing the Arundhati star, whereas Vajasaneyi marriages have no such division.

3121	What are the 'Panch-Gaud' Brahmin divisions mentioned in the Puranas?	Utkal, Kanyakubja, Gauda, Maithil, and Saraswat.
3122	According to traditional preservation rules, what substances should a Panji book be protected from?	Water, oil, and loose or weak binding.
3123	When is the ideal time to sun-dry and air the genealogical Panji books?	When the Sun enters the constellation of Leo (typically mid-August to mid-September).
3124	Who was the first Panjkar appointed for the Maithil Brahmin community?	Pandit Gunakar Jha.
3125	Which Gotra is exclusively followed by the 'Karna Kayastha' community of Mithila?	Kashyap Gotra.
3126	How many Rajput clans are listed in the 'Varnaratnakara' context within the Panji system?	It mentions 72\$ clans, with detailed descriptions for 64\$ of them.
3127	The script traditionally used to write the Panji records is _____.	Tirhuta (Mithilakshar).
3128	What does the text refer to as 'Chhadwith'?	The sixteen specific ancestral points (such as maternal grandfather's maternal grandfather) used to calculate marriage eligibility.
3129	Under whose reign was the 'Shakha Panji' (branched records) introduced to create further sub-divisions?	Maharaja Madhav Singh.
3130	What is the penalty for a Brahmin whose lineage is not found in the official Panji records?	They are categorised as 'Jaywar' and placed outside the formal hierarchical ranks.
3131	The term for a marriage that occurs within prohibited genealogical degrees is _____.	Svajana (or related) marriage.
3132	Why does the text title the Panji system as 'Genome Mapping'?	To draw a parallel between ancient genealogical record-keeping and modern genetic science in preventing inbreeding.
3133	Which 'Mool' was added as the 35th main lineage in later periods?	The Khatam branch of the Phandah Mool.
3134	What is the significance of the number 32\$ in the 'Udhed' process?	It represents the total number of maternal and paternal ancestors checked for genealogical overlaps.
3135	Identify the two broad geographic categories of Indian Brahmins separated by the Vindhychal mountains.	Panch-Gaud (North) and Panch-Dravid (South).
3136	How does the text define 'Sapanidya'?	The state of being related through a common ancestor, which prohibits marriage within specific generational limits.
3137	What are the four Upanayana (thread ceremony) rituals for Chhandogya Brahmins?	Namkaran, Chudakaran, Upanayana, and Samavartana.
3138	What are the four Upanayana rituals for Vajasaneyi Brahmins?	Chudakaran, Upanayana, Vedarambha, and Samavartana.
3139	The founding ancestor of the Panji-preservation lineage, who lived around 450\$ AD, was _____.	Mahamahopadhyaya Trivikram Bhatta.
3140	What is a 'Laukik' in the context of Shrotriya Panjis?	A record of social status and family history specific to the Shrotriya category.
3141	How many total 'Laukik' or Shrotriya Panjis are recorded?	32\$ Panjis.
3142	How many 'Yogya' and 'Panjibaddh' Panjis are recorded in total?	153\$ Panjis.
3143	Who was the first Panjkar appointed for the 'Kshatriya' community?	Vijayadatta.
3144	Who was the first Panjkar appointed for the 'Karna Kayastha' community?	Shankardatta.
3145	Term: Udhardvadhi	Definition: The vertical division of Brahmins based on the Veda and branch they follow.
3146	Which Maithil Brahmin Gotra lists 'Sandilya, Asit, and Deval' as its Pravar ancestors?	The Sandilya Gotra.
3147	Which Gotra includes 'Shakti, Vashistha, and Parashar' as its Pravar ancestors?	The Parashar Gotra.
3148	Which Gotra includes 'Kashyap, Avatsar, and Naidhruva' as its Pravar ancestors?	The Kashyap Gotra.
3149	What is the status of the 'Jaywar' category in the Panji system?	It refers to those who are recorded in the system but lack the specific merit or lineage status of higher ranks.
3150	What was the purpose of the 'Samuh-lekhya' as described by Kumarila Bhatta?	To prevent the loss of information regarding paternal and grand-paternal traditions across generations.
3151	Concept: Adhogami Panji	Definition: The natural decline in family rank or status over time due to marriages into lower-ranked lineages.
3152	How did regional isolation (climate and language) affect the Brahmin community according to the text?	It led to the diversification of Brahmins into ten distinct regional groups (Gaud and Dravid).
3153	Which historical region is considered the administrative capital of the ancient Videha dynasty and the home of Maithil Brahmins?	Mithila.
3154	What was the primary language/script used for the 'Tantravartika' by Kumarila Bhatta?	Sanskrit.
3155	The term for family records that track only the primary root of the family is _____.	Mool Panji.
3156	The term for family records that track the various expanding branches of a lineage is _____.	Shakha Panji.

3157	Which king's reign saw the introduction of 'Srotriya' and 'Yogya' divisions as social classifications?	The system was formalised under Harisingh Dev, but further stratified under later Darbhanga Raj rulers like Madhav Singh.
3158	The genealogical 'stain' resulting from a documented social or ritual error in a family is listed in which Panji?	The Dushana Panji.
3159	What role does the 'Biji Purush' play in modern genomic comparisons in the text?	He is viewed as the source of the specific Y-chromosome or genetic marker for the entire clan.
3160	How does the Panji system prevent 'inbreeding'?	By mathematically excluding \$32\$ ancestral lines to ensure genetic diversity in marital unions.
3161	The scholar who received the title 'Panji Shastra Martand' from Maharaja Kameshwar Singh was _____.	Modanand Jha.
3162	What was the primary purpose of the 'Panji Prabandha' system established in Mithila?	To ensure lineage purity among Brahmins, Kayasthas, and Kshatriyas by maintaining detailed genealogical records.
3163	During which historical period was the 'Panji Prabandha' system formally organised?	The late Medieval period, specifically in \$1326\$ AD (Saka \$1248\$).
3164	Which ruler is credited with the formal initiation and patronage of the Panji system?	Maharaja Harisimhadeva of the Karnat dynasty.
3165	What is the meaning of the term 'Udegh' in the context of Maithil genealogy?	The introduction of \$32\$ ancestral lineages (maternal and paternal) to verify marriage eligibility.
3166	In the Panji system, how many generations must be avoided for marriage on the maternal side?	Five generations.
3167	Name the three primary social categories that emerged from the Panji classification.	Shrotriya, Yogya, and Panjibaddha.
3168	What term is used for those who were not included in the formal Panji records?	Jaywar.
3169	How many 'Gotras' (clans) are officially recognized among Maithil Brahmins in the Panji system?	Twenty (\$20\$).
3170	How many 'Muls' (ancestral roots/villages) were initially documented in the Panji records?	One hundred and sixty-seven (\$167\$).
3171	In Maithil genealogy, what is a 'Beeji Purush'?	The founding or earliest known ancestor of a specific lineage.
3172	What does the term 'Mulgram' signify in the Panji system?	The original ancestral village of a family branch.
3173	How is the 'Pravara' of a Maithil Brahmin lineage determined?	By the number of sages (Rishis) in the lineage who are credited with composing Rigvedic hymns.
3174	Distinguish between 'Tri-pravara' and 'Panch-pravara'.	Tri-pravara lineages trace back to three sage ancestors, while Panch-pravara trace to five.
3175	The Gotras Vatsa, Savarna, and Bharadwaj are categorized under which Pravara type?	Panch-pravara.
3176	The Gotras Shandilya, Kashyap, and Parashar are categorized under which Pravara type?	Tri-pravara.
3177	Why is marriage traditionally prohibited between individuals of the Vatsa and Savarna Gotras?	They share the same set of five ancestral sages (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana).
3178	Who was the first Panjika (genealogist) appointed for Maithil Brahmins?	Gunakar Jha.
3179	Who was the first official Panjika for the Maithil Kshatriyas?	Vijaydatta.
3180	What is the 'Chhadisth' in the context of marriage verification?	A set of \$16\$ generational intersections checked by the Panjika to ensure the couple is not related.
3181	What name is given to Maithil Brahmins who follow the Madhyandina branch of the Yajurveda?	Vajasaneyi.
3182	Which marriage ritual is unique to the Chhandog Brahmins regarding the timing of the ceremony?	The second part of the marriage occurs after sunset upon sighting the star Arundhati.
3183	What is the 'Pancha Gauda' classification of Brahmins?	A group of five northern Brahmin communities: Utkal, Kanyakubja, Gauda, Maithil, and Saraswat.
3184	How does the Panji define the 'Pancha Dravida' Brahmins?	Brahmins residing south of the Vindhya mountains: Karnataka, Gurjar, Tailang, Dravid, and Maharashtra.
3185	What was the 'Samuh Lekhya' mentioned by the philosopher Kumarila Bhatta?	An early form of written collective genealogy used by high-born families to protect their caste identity.
3186	According to the text, what is the consequence of marrying a 'Svajana' (forbidden relative)?	The offspring are traditionally considered 'Chandals' and the family is excluded from the Aryan social order.
3187	The 'Dushana Panji' is specifically used to record what kind of information?	Social or lineage 'defects' or 'stains' that occurred in a family's history.
3188	How many main 'Muls' were eventually distilled into the primary category of high-lineage Brahmins?	Thirty-four (\$34\$), which later became \$35\$ with the inclusion of the Khanam branch.
3189	What is the historical significance of the philosopher Kumarila Bhatta in the context of Panji history?	He mentioned 'Samuh Lekhya' in his work 'Tantra Varttika' as a means of preserving lineage purity.
3190	In the Chhadisth calculation, the first Chhadisth refers to which relative of the bride?	The father of the bride's great-great-grandfather (\$\sqrt[4]{\text{Riddha}}\$ \ Prinishamah\$).
3191	Why is the year \$1326\$ AD crucial for the Panji system?	It marks the formal registration and centralisation of Maithil genealogy under royal decree.

3192	Which traditional script is used to maintain the original Panji records?	Tirhuta (Mithilakshar).
3193	The 'Gotra Panji' contains information regarding which two elements?	The Gotras and their associated ancient Muls (roots).
3194	The rule 'Matritah Panchami Tyaktwa Pitritah Saptami Bhajet' refers to what?	The prohibition of marriage within five generations of the mother and seven of the father.
3195	Under whose orders was the 'Shakha Panji' (branch genealogy) formally commissioned in the 18 th century?	Maharaja Madhav Singh of Darbhanga.
3196	What is the 'Brahmapura' Mul uniquely known for in the Panji system?	It is an exception that is found in multiple Gotras, such as Shandilya, Vatsa, and Kashyap.
3197	The term 'Vajasaneyi' refers to those following the branch of which Veda?	Shukla Yajurveda.
3198	Which historical figure, known as the 'Maithil Poet Laureate', has his 7 th generations of ancestors detailed in the Panji?	Vidyapati Thakur.
3199	How are Shrotriya Brahmins categorized within their Panji?	They are divided into eight 'Chauwala' (categories) and 32 specific Panjis.
3200	In the Panji terminology, what does 'Adhogami' signify regarding lineage status?	The downward movement of a family's social rank due to improper marriage alliances.
3201	What is the function of the 'Udegh Panji'?	It provides knowledge of the 'Sapinda' relationships (lineage proximity) up to six generations.
3202	Identify the primary sages associated with the Shandilya Gotra.	Shandilya, Asit, and Deval.
3203	What are the three components of a 'Gotra' definition as per the Amarkosh?	Mountain, Lineage (Vansha), and Name.
3204	How did the Panji system adapt to the decline of memory-based lineage tracking?	By institutionalising the role of the Panjekar and creating written state-verified records.
3205	What is the 'Pancha Aditya Kula' mentioned in the Panji dedication?	A high-born lineage grouping that the Panji records aim to keep 'pure' through verification.
3206	According to the Panji theory, what is the 'seed' of Dharma?	The 'Varna' (community), which in turn is rooted in the purity of birth (Janma).
3207	Which text is cited to prove that high-born individuals go to great lengths to protect their lineage?	The 'Tantra Varttika' by Kumarila Bhatta.
3208	What role does the 'Pravara' list play during the thread ceremony (Upayana)?	It is used to invoke the ancestral sages during the ritual offerings.
3209	Name the four specific Samskaras (rituals) distinguished between Chhandog and Vajasaneyi traditions.	Namakarana, Chudakarana, Upanayana, and Samavartana (with variations in the fourth step).
3210	How many total Panjis exist for the Yogya and Panjibaddha categories?	One hundred and fifty-three (153).
3211	Which city served as the original capital of the Videha dynasty, the cultural precursor to Mithila?	Mithila (the region eventually became synonymous with the capital's name).
3212	The 'Panji-Prabandha' was created during the reign of which dynasty?	The Karnat dynasty.
3213	What was the significance of the year Saka 1019 mentioned in the text?	It marks a historical point regarding the establishment of the Karnat dynasty's rule over Mithila.
3214	What is the meaning of 'Sapinda' in the context of Hindu marriage laws practiced in Mithila?	Relatives who share the same 'Pinda' (ancestral offering), implying common blood lineage.
3215	In the Panji system, what happens if an individual's name is not found in the genealogical books?	They lose their status as 'Panjibaddha' and may be treated as 'Jaywar'.
3216	Who is the primary scholar responsible for the digital imaging and editing of the modern Panji Theory compilation?	Gajendra Thakur and Nagendra Kumar Jha.
3217	Why is the preservation of Panji books considered a sacred duty in the text?	They are the 'lifeblood' of the Tirhuta script and the only surviving 1000-year-old genealogical network in the world.
3218	What advice is given for the physical preservation of Panji manuscripts?	Protect them from water, oil, and loose binding, and dry them during the Sun's transit in Leo (August/September).
3219	What is the 'Ayan' (category) considered most superior in the second rank (rank) of Muls?	Lineages like Ranwallan, Paliwallan, and Kujawallan.
3220	How does the Panji account for the geographical spread of Brahmins into 'Pancha Gauda'?	Differences in climate, language, food, and dress in various regions led to the distinct cultural identities of these five groups.
3221	What is the unique feature of the 'Shakha Panji' of Darbhanga Maharaja Madhav Singh?	It created a permanent separation between the Shrotriya, Yogya, and Panjibaddha ranks.
3222	In the context of the Panji system, what is the primary purpose of 'Panji Prabandh'?	It is a genealogical record maintained to ensure the lineage purity and social standing of Brahmins, Kayasthas, and Kshatriyas.
3223	Which ruler is credited with the formal standardisation and institutionalisation of the Panji records in 1326 AD?	Maharaja Harisimhadeva of the Karnat dynasty.
3224	Define the term 'Uderh' within Maithili genealogical traditions.	It refers to the detailed introduction of an individual's ancestry, covering seven generations and thirty-two distinct family lines.
3225	What event reportedly triggered the necessity for recorded Panji under Maharaja Harisimhadeva?	The scholar Pandit Hari Nath Upadhyay inadvertently married his own maternal cousin due to a lack of genealogical knowledge.
3226	How many 'Gotras' (clans) are traditionally identified among Maithili Brahmins according to the text?	There are twenty distinct Gotras.

3227	What are the two major Vedic branches followed by Maithili Brahmins?	The Madhyandina branch of the Shukla Yajurveda (Vajasaneyi) and the Kauthuma branch of the Samaveda (Chhandogya).
3228	The 'Pancha Gauda' group of Brahmins includes Utkal, Kanyakubja, Gauda, Saraswat, and _____.	Maithil
3229	Define 'Sapinda' in the context of marriage restrictions.	It refers to relatives within a prohibited degree of kinship with whom marriage is forbidden to maintain lineage health.
3230	According to the Smritis (Manu and Yajnavalkya), marriage is prohibited if the bride and groom share the same _____ or _____.	Gotra; Pravara
3231	What is the specific restriction regarding the maternal lineage for a 'Shrotriya' Brahmin marriage?	Marriage is prohibited within five generations on the maternal side.
3232	How many generations must be avoided on the paternal side for a valid marriage according to the traditional rules mentioned?	Seven generations (later modified to six in practice by some authorities).
3233	Term: Mulagram	Definition: The original village from which a specific family lineage or 'Mula' is said to have originated.
3234	How many 'Mulas' (root villages) were initially identified and fixed during the formalisation of the Panji system?	One hundred and sixty-seven (167) Mulagrams.
3235	What is the difference between 'Tripravara' and 'Panchpravara'?	Tripravara denotes a lineage with three primary Rishi ancestors, while Panchpravara denotes a lineage with five.
3236	Which three Gotras are specifically identified as 'Panchpravara'?	Vatsa, Savarna, and Bharadwaj (though the text lists Vatsa, Savarna, and Garga elsewhere).
3237	List the three hierarchical categories of Maithili Brahmins established through the Panji system.	Shrotriya, Yogya, and Panjibaddha (also known as Jaywar).
3238	What document must be obtained from a Panjikar to certify that a marriage is genealogically permissible?	Siddhant Patra (also known as Asvajan Patra).
3239	Who was the scholar appointed by King Harisimhadeva to manage the Panji records for Maithili Brahmins?	Pandit Gunakar Jha.
3240	What was the significance of Maharaj Madhav Singh's reign (c. 1760 AD) regarding the Panji system?	He introduced 'Shakha Panji', which led to more rigid social stratifications and hierarchies within the community.
3241	Define 'Dushan Panji'.	A specific set of records that detail flaws, social lapses, or historical anomalies within a family's lineage.
3242	In Panji terminology, what does 'Chhavith' represent?	The sixteen specific genealogical checkpoints (6 generations deep) used to verify that a couple are not related within prohibited degrees.
3243	What is the traditional script used to write the Panji records?	Tirhuta (also known as Mithilakshar).
3244	The Panji records for Karna Kayasthas were originally entrusted to _____.	Shankar Datta
3245	Which Gotra is exclusively found among the Karna Kayasthas according to the source material?	Kashyap Gotra.
3246	According to M.M. Mahesh Thakur, a marriage is acceptable if the paternal relation is in the _____ generation.	Seventh
3247	What is 'Pachhwari Paand'?	The broad group of Maithili Brahmins who are not included in the 'Shrotriya' or high-ranking 'Yogya' categories.
3248	What does the term 'Laukik' refer to in the Panji system?	The social standing or classification of a family based on their marriage alliances and conduct recorded over time.
3249	How does the Panji handle cases where a lineage is unknown ('Ajnyaat') due to marriage outside the community?	The Panji marks the lineage as 'Ajnyaat' (unknown), effectively creating a break or 'Dushan' (flaw) in the record.
3250	Concept: Samreidi vs Vajasaneyi	These refer to the Vedic recension followed, which dictates the specific mantras used in rituals like Upanayana and marriage.
3251	List the primary seven Gotras that comprise the majority of the Maithili Brahmin population.	Sandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, and Katyayan.
3252	The rule 'Matritah Panchami Tyaktva Pitritah Saptami Bhajet' implies avoiding _____ maternal and _____ paternal generations.	Five; Seven
3253	In the Panji system, what is an 'Upanama'?	A title or surname often derived from the family's scholarly achievements or administrative roles (e.g., Mishra, Jha, Thakur).
3254	What is the significance of the year 1248 Saka in the Panji chronology?	It is the equivalent year of 1326 AD when Maharaja Harisimhadeva instituted the formal Panji system.
3255	How is the 'Biji' of a family typically determined in a Panji entry?	It is determined by identifying the earliest ancestor who settled in a specific village, establishing the 'Mula'.
3256	Which document records marriages with lower castes or non-Brahmins to preserve the lineage history?	Dushan Panji.
3257	The geographical boundary for 'Pancha Gauda' Brahmins is generally defined as being north of the _____ mountains.	Vindhya
3258	Which specific ancestor in the Sandilya gotra is associated with the 'Kharaure' Mula?	The text mentions the 'Kharaure' branch as a high-ranking family lineage that emerged later.
3259	How many total 'Panjis' (books of records) are mentioned for the Shrotriya and Yogya categories?	185 Panjis (32 for Shrotriya and 153 for Yogya/Panjibaddha).
3260	The 'Panji Prabandhi' system is most strictly preserved today among which two communities?	Maithili Brahmins and Karna Kayasthas.

3261	What is the 'Bharadwaj' Gotra's Pravara configuration?	Bharadwaja, Angirasa, and Barhaspatya (Tripravara).
3262	According to the Panji, who is the 'Biji Purush' of the 'Simhashram' Mula?	M.M. Halayudha.
3263	Which historical figure's lineage is traced back to 'Imaun' in the 'Vachaspa' Panji records?	Chaitanya Mahaprabhu (linked to Ramapati Upadhyay).
3264	What is a 'Mula-Gram' suffix often used for in the records?	To distinguish different branches of the same Gotra residing in different original villages.
3265	The 'Chhavith' system essentially calculates whether the bride and groom meet at any point within the last _____ generations.	Six
3266	Why were Panjikars historically appointed by the King rather than being private family genealogists?	To ensure state-regulated, unbiased verification of lineage that held legal and social authority.
3267	In the Panji records, what does the term 'Devadasi' associated with a lineage typically imply?	It refers to a historical connection to a temple dancer, which is recorded as an anomaly ('Dushan') in the genealogy.
3268	The Panji system classifies the Brahmins of Mithila into two main groups based on ritual: _____ and _____.	Chhandogya; Vajasaneyi
3269	What is the significance of '32 Mulas' in the Uderh introduction?	It accounts for all lineages contributing to an individual's ancestry through their grandparents and great-grandparents.
3270	The Panji system serves as a medieval precursor to what modern scientific concept, according to the document title?	Genome Mapping.
3271	What is the historical time frame covered by the 'Genome Mapping' (Mithila Panji Prabandh) source material?	It covers the period from 450 AD to 2009 AD.
3272	In which historical period was the Panji Prabandh system for Brahmins, Kayasthas, and Kshatriyas originally established?	It was established during the Early Medieval period.
3273	What was the primary sociological purpose of creating the Mithila Panji Prabandh?	To ensure the maintenance of 'Jati Shuddhata' (caste purity) through genealogical records.
3274	In the context of Panji Prabandh, what does the term 'Uderh' refer to?	The formal introduction of seven generations of ancestors required for marriage eligibility.
3275	How many specific 'Kula' (lineages) are required to complete a full 'Uderh' introduction?	Thirty-two distinct lineages.
3276	According to the Panji system, into which three categories were Brahmins historically divided?	Shrotriya, Yogya, and Panjibaddh.
3277	What term is used for Brahmins who are not listed in the formal Panji records?	Jayabaar (or Jaibar).
3278	For Shrotriya Brahmins, what is the mandatory generational gap to avoid maternal sapinda marriage?	Five generations.
3279	For Shrotriya Brahmins, what is the mandatory generational gap to avoid paternal sapinda marriage?	Seven generations.
3280	The Panji system classifies Brahmins into _____ distinct 'Gotras'.	20
3281	How many primary 'Mool' (original roots/villages) were initially identified within the Panji system?	167
3282	The 167 'Mools' of Maithil Brahmins were condensed into how many main 'Mool' categories?	34 (later 35 with the addition of the 'Khama' branch of Phanandah).
3283	Name the two primary 'Urdhwavadhar' (vertical) divisions of Brahmins based on Vedic rituals mentioned in the text.	Chhandogya (Samavedi) and Vajasaneyi (Shukla Yajurvedi).
3284	List the first five Gotras of Maithil Brahmins as mentioned in the text.	Shandilya, Vatsa, Savarna, Kashyapa, and Parashara.
3285	What is the highest category of Mools in the Panji classification system?	Ayanti Shreshtha (First Class).
3286	Name three examples of 'Ayanti Shreshtha' Mools.	Khadaure, Khauaadya, and Budhabare.
3287	Into what two categories are 'Pravaras' (ancestral sages) divided within Maithil Brahmin families?	Tri-Pravara (three sages) and Panch-Pravara (five sages).
3288	What qualifies a Gotra to be termed 'Tri-Pravara'?	Having three ancestors who composed hymns (Suktas) for the Rigveda.
3289	Which three Gotras are specifically identified as 'Panch-Pravara'?	Vatsa, Savarna, and Bharve.
3290	Why is marriage prohibited between the Savarna and Vatsa Gotras despite being separate names?	Because they share the same ancient ancestors (Vedic lineages).
3291	Into what two broad geographical groups is the Indian Brahmin community divided by the Puranas?	Pancha Gauda and Pancha Dravida.
3292	Name the five groups comprising the 'Pancha Gauda' Brahmins.	Utkal, Kanyakubja, Gauda, Maithil, and Saraswat.
3293	What geographical feature serves as the dividing line between Pancha Gauda and Pancha Dravida Brahmins?	The Vindhyaachal mountain range.
3294	Followers of the Madhyandina branch of the Yajurveda are known by the specific name _____.	Vajasaneyi
3295	What is the primary difference in marriage rituals between the Chhandog and Vajasaneyi branches?	Chhandogs divide marriage into two parts (Purva and Uttara), while Vajasaneyis have no such division.
3296	According to Smriti writers like Manu and Yajnavalkya, what is the primary rule for a bride's eligibility regarding Gotra?	She must not belong to the same Gotra as the groom.

3297	What is the consequence of marrying a 'Swajata' (blood relative) according to ancient Smritis?	The offspring are considered 'Chandal' and the couple is excluded from Arya dignity.
3298	In which 7th-century philosophical work was the 'Samooth Lekhya' (group lineage record) first mentioned?	The 'Tantra Varttika' by Kumarila Bhatta.
3299	Which historical incident prompted the formal institutionalisation of Panji records in 1326 AD?	Pandit Harinath Upadhyaya accidentally married his own first cousin's daughter due to lack of records.
3300	Which King of the Karnata dynasty initiated the systematic Panji Prabandh in Mithila?	Maharaja Harisimhadeva.
3301	In what year (Saka and Gregorian) was the decision made to create a state-recognised Panji department?	Saka 1248, which is 1326 AD.
3302	What is the name of the formal marriage eligibility certificate issued by a Panjekar?	Siddhant Patra (or Aswajan Patra).
3303	In Panji terminology, who is the 'Beeji Purush'?	The earliest known common ancestor of a specific lineage or clan.
3304	What does the term 'Moolgram' signify in the Panji records?	The original ancestral village of a family lineage.
3305	How many primary 'Shrotriya' Panjis exist in the Mithila system?	32
3306	What is the total number of 'Yogya' and 'Vanshaja' Panjis?	153
3307	Who was the scholar appointed by Harisimhadeva to oversee the Panji Prabandh for Maithil Brahmins?	Pandit Gunakar Jha.
3308	Which social class in Mithila also historically maintained Panji records alongside Brahmins and Kayasthas?	Kshatriyas (specifically the Rajputs).
3309	Under which Maharaja did the 'Shakha Panji' (branch records) and hierarchical classifications like 'Shrotriya' begin?	Maharaja Madhav Singh.
3310	What is the common Gotra for all Karna Kayasthas in Mithila?	Kashyapa.
3311	In marriage eligibility, what does the 'Rule of 16' (Chadhva) refer to?	Checking 16 specific ancestral relations for both the bride and groom to ensure they are not within prohibited degrees.
3312	A marriage is prohibited if a bride falls in the _____ position from any of the groom's paternal ancestors.	Sixth (Chadhva)
3313	The rule 'Matritah Panchami, Pitritah Saptami' means marriage is prohibited within _____ maternal and _____ paternal generations.	Five; Seven
3314	Which King of Darbhanga ordered the compilation of the 'Shakha Pranayan' book?	Maharaja Madhav Singh.
3315	According to the Panji science, when is the best time to dry the Panji manuscripts to protect them from insects?	When the Sun is in the Leo (Simha) rashi (approx. 16 Aug to 15 Sept).
3316	What is the significance of the Sanskrit verse 'Jalat Rakshe, Tailat Rakshe' regarding Panji books?	It is a protective instruction to guard the books from water, oil, and loose binding.
3317	In the Panji system, what is the 'Ayaachi' title associated with?	Pandit Bhavanatha Mishra, known for not asking for anything (Ayaachi).
3318	Which famous Maithili poet's genealogy is extensively preserved through the Panji records?	Vidyapati Thakur.
3319	Which type of Panji record tracks the exact geographical spread and migration of family members?	Paat Panji.
3320	What is the 'Upanadi' in the context of Panji classifications?	Sub-categories or detailed sub-branches of the main Mools.
3321	How does the text compare the Panji system to modern science?	It equates the Panji lineage tracking to modern 'Genome Mapping' and 'Chromosomes'.
3322	What is the primary script used for writing traditional Panji records?	Tirhuta (Mithilakshar).
3323	Which Maharaja awarded Modanand Jha the title of 'Panji Shastra Martand'?	Maharajadhiraja Kameshwar Singh.
3324	The 'Vanshaja' category of Brahmins is also colloquially referred to as _____.	Pachhwari Paat
3325	The 'Shrotriya' category of Brahmins is also colloquially referred to as _____.	Purwari Paat
3326	Who was the 'Beeji' of the Simhashram Mool mentioned in the records?	Maha-Mahopadhyaya Halayudha.
3327	What does the presence of an 'Ajnat' (unknown) maternal lineage in the Panji signify?	A break in the record or an inter-caste/unrecorded ancestral connection.
3328	According to the Panji logic, why is the maternal side checked for 5 generations while the paternal is 7?	To strictly adhere to the Sapinda rules defined in the Dharma Shastras.
3329	Which scholar's birth 5 years after his father's death is noted as a 'miracle' in Panji lore?	Rayresh Upadhyaya.
3330	What is the primary historical purpose of the Panji Prabandh in Mithila?	To maintain caste purity and record the genealogy of Brahmins, Kayasthas, and Kshatriyas.
3331	The term 'Utegh' refers to the introduction of how many specific ancestors required for marriage eligibility?	Thirty-two.
3332	In the Panji system, what does the term 'Mula' represent?	The original ancestral village or root from which a family lineage began.

3333	According to Dharmashastra rules mentioned in the text, how many generations must be avoided for marriage on the paternal side?	Seven generations (later modified to six in practice).
3334	How many generations must be avoided for marriage on the maternal side in the Maithil Brahmin community?	Five generations.
3335	What is the specific role of a 'Panjikar' in Mithila society?	A professional genealogist appointed to verify lineage and issue marriage eligibility certificates.
3336	Which document must be obtained from a Panjikar before a Maithil Brahmin marriage can take place?	Siddhant-patra (or Asvajan-patra).
3337	How many total 'Gotras' are identified within the Maithil Brahmin community?	Twenty.
3338	Identify the two main Vedic divisions of Maithil Brahmins based on their rituals.	Chhandogya (Samavedi) and Vajasaneyi (Yajurvedi).
3339	What is the 'Beeji Purush' in the context of Panji genealogy?	The earliest known founding ancestor of a specific lineage or 'Mula'.
3340	The three main social categories created through the Panji classification are Srotriya, Yogya, and _____.	Panjibaddh.
3341	Which script was traditionally used to write and maintain Panji genealogical records?	Tirhuta (Mithilakshar).
3342	How many 'Mulas' (original roots) were primarily identified during the initial Panji management?	One hundred and sixty-seven.
3343	Maithil Brahmins are classified under which larger group of the 'Dash-Brahmin' divisions?	Panch-Gauda.
3344	What defines a 'Tri-pravara' lineage?	A lineage whose three ancestors are credited with composing hymns in the Rigveda.
3345	Among the 20 gotras, name three belonging to the 'Panch-pravara' category.	Vatsa, Savarna, and Bharadwaj.
3346	In the Panji records, what does 'Dushan Panji' specifically document?	Flaws or lapses in lineage, such as irregular marriages or social transgressions.
3347	Which historical scholar is mentioned as the author of 'Smritisar' who unintentionally married his own cousin due to lack of records?	Pandit Harinath Upadhyaya.
3348	According to the Panji system, what is 'Chadvath'?	The calculation of sixteen specific relatives used to determine if a bride and groom are too closely related.
3349	The Panji records for Karna Kayasthas consistently mention only one gotra, which is _____.	Kashyap.
3350	What is the significance of the year 1248 Saka (1326 AD) in the text?	It is the date the Panji management was officially established.
3351	Which Panjikar is mentioned as the primary authority in the 18th century for the 'Shakha' (branch) books?	Devanand 'Chhoti' Jha.
3352	The 'Laukik' system refers to the genealogical status associated specifically with which group?	The Srotriya Brahmins.
3353	What environmental factor does the text cite for the regional differentiation of Brahmins over time?	Distinct climates, diets, and languages of different geographical areas.
3354	Which Panji type traces the details of descendants and their various migrations?	Shakha Panji.
3355	In the Panji system, the term _____ refers to those whose lineage is clearly documented in the records.	Panjibaddh
3356	Which legendary Maithil poet's lineage is fully documented in the Shakha Panji across seven generations?	Vidyapati Thakur.
3357	What is the primary difference between a 'Mula' and a 'Mula-gram'?	The Mula is the ancestral origin, while the Mula-gram is the specific village inhabited at the time of Panji management.
3358	How does the Panji Prabandh define the 'Asvajan' status?	It signifies that two people are not 'Svapinda' (closely related) and are eligible to marry.
3359	Term: Samoh-Lekhya	Definition: Collective lineage records used by high-status families to preserve genealogical history, mentioned by Kumarila Bhatta.
3360	Which social class is described as 'Pachhwari-Paar' in the later Brahmin hierarchy?	Non-Srotriya Brahmins (Yogya and Panjibaddh).
3361	The 'Vajasaneyi' branch of Maithil Brahmins follows which Veda?	Shukla Yajurveda.
3362	Name the first 'Chadvath' (sixth-degree relation) checked for marriage eligibility.	The father's great-grandfather's father.
3363	What is the consequence of marrying a 'Svajana' (close relative) according to historical Mithila tradition?	The offspring were traditionally considered 'Chandala' and the parents were socially boycotted.
3364	Which Panjikar was appointed by King Harisimhadeva specifically for the Brahmin community?	Gunakar Jha.
3365	Who was the first Panjikar appointed for the Kshatriya community under Harisimhadeva?	Vijayadatta.
3366	Who was the first Panjikar appointed for the Karna Kayasthas?	Shankardatta.

3367	Which 18th-century ruler of Darbhanga initiated the 'Shakha Panji' to create social subdivisions like Srotriya?	Maharaja Madhav Singh.
3368	Concept: Gotra Panji	Definition: A register listing all 20 gotras and their ancient associated muls.
3369	The text compares the Panji system to which modern scientific field?	Genome mapping or genetics.
3370	What is the total number of 'Srotriya' Panjis traditionally maintained?	Thirty-two.
3371	What is the total number of 'Yogya' and 'Panjibaddh' Panjis maintained?	One hundred and fifty-three.
3372	Name one of the four essential sacraments for 'Chhandogya' Maithil Brahmins.	Upanayana (or Namakaran, Chudakaran, Samavartan).
3373	According to the 'Dushan' records, which famous philosopher was said to have been born five years after his father's death?	Gangesh Upadhyaya.
3374	What is the 'Pratham Chadvath' in the context of a bride's lineage?	The bride's paternal great-great-great-grandfather.
3375	Why were Panji books traditionally dried during the month when the Sun enters Leo?	To use the intense heat (Kardave raud) to prevent the manuscripts from decaying or being infested.
3376	What is the significance of the village 'Mandari' in the Panji system?	It is the mula for a vast number of families (74 branches) including famous scholars like Ayarbhatta.
3377	Which Rigvedic sage is the 'Beeji Purush' for the Sandilya Gotra?	Sandilya (with Asita and Devala as Pravaras).
3378	According to the text, what was the primary reason for the decline of the Panji system among Kshatriyas?	Lack of updated documentation over time, leading them to rely on simple village-skipping rules.
3379	The Panji records identify _____ as the 'Chuda-mani' (jewel in the crown) of the Karnata dynasty.	Harisimhadeva
3380	How are the 20 gotras categorized regarding their ancestry?	They are patrilineal, named after the ancient Sage (Rishi) who was the progenitor of the clan.
3381	What specific rule applies to 'Chatthi' (the sixth person) in marriage eligibility?	If the bride is the sixth person from a common ancestor, she cannot marry a groom who is also within the seventh degree of that ancestor's paternal line.
3382	The term 'Srotriya' is used for families that maintain high standards of both _____ and _____.	Birth (purity of lineage) and conduct (religious practice).
3383	Which scholar is cited as a 'Beeji' for the Mandari Mula around 400 AD?	M.M. Trivem Bhatta.
3384	In the context of Mithila history, what is 'Panji Prabandh'?	A traditional system of genealogical record-keeping used to maintain caste purity and regulate marriages.
3385	Which ruler is credited with the formal implementation of the Panji system in Mithila in 1326 AD (Shaka 1248)?	King Harisimhadeva of the Karnat dynasty.
3386	The Panji system was primarily created for which three social groups in Mithila?	Brahmins, Kayasthas, and Kshatriyas.
3387	What is the meaning of the term 'Udirth' in the Panji system?	The introduction and verification of seven generations of ancestors to determine marriage eligibility.
3388	How many total 'Gotras' (clan lineages) are traditionally identified within the Maithil Brahmin community?	20
3389	Which two Vedic branches are predominantly followed by Maithil Brahmins?	The Yajurveda (Madhyandina branch) and the Samaveda (Kauthuma branch).
3390	What does the term 'Beeji Purush' represent in a Panji record?	The original founding ancestor of a specific lineage or 'Mool'.
3391	In the marriage rules of Mithila, how many generations must be avoided on the paternal side (Pitri-paksha)?	Seven.
3392	In the marriage rules of Mithila, how many generations must be avoided on the maternal side (Matri-paksha)?	Five.
3393	What is a 'Siddhanta' (or Siddhanta-patra) in the Panji system?	A formal permit issued by a Panjekar certifying that the bride and groom are not related within prohibited degrees.
3394	The professional genealogist who maintains records and verifies marriage eligibility is called a _____.	Panjekar.
3395	How many primary 'Mools' (original ancestral villages) were initially identified in the Panji system?	167
3396	Within the 167 'Mools', how many were designated as 'Main Mools' (Mukhya Mool)?	34 (later 35).
3397	Which branch of the 'Phandah' Mool was established as the 35th main Mool?	Khama.
3398	Define 'Tri-pravara' in the context of Brahmin lineages.	A lineage that identifies three distinguished Rishi ancestors who composed Vedic hymns.
3399	Define 'Panch-pravara' in the context of Brahmin lineages.	A lineage that identifies five distinguished Rishi ancestors who composed Vedic hymns.
3400	List the three Gotras categorized as 'Panch-pravara' in the source material.	Vatsa, Savarna, and Bharadwaja (though Bharadwaja is often cited elsewhere as Tri-pravara, the text notes specific Panch-pravara lists).

3401	What is the ranking hierarchy of Maithil Brahmins from highest to lowest?	Shrotriya, Yogya, Panjibaddha, and Jaybar.
3402	Who was the first appointed Panjika for Maithil Brahmins?	Gunakar Jha.
3403	Who was the first appointed Panjika for the Karna Kayasthas?	Shankaradutta.
3404	Who was the first appointed Panjika for the Kshatriyas in Mithila?	Vijayadutta.
3405	The 'Shrotriya' Panji records are specifically referred to as _____.	Laukik.
3406	How many 'Chauras' (grades/classes) exist within the Shrotriya Panji?	Eight.
3407	According to Smriti laws, a child born from a marriage between prohibited relations (Svarjana) is historically termed _____.	Chandala.
3408	What is the significance of the 7th-century text 'Tantra-Vartika' by Kumarila Bhatta to the Panji system?	It mentions 'Samuha-Lekhya', which were written genealogical records used to preserve lineage purity.
3409	Why did Panji records transition from personal family records to a centralised state system under Harisimhadeva?	To prevent accidental marriages within prohibited degrees caused by the loss of genealogical knowledge among the public.
3410	What were the 'Ayanti Shrestha' Mools?	The first-tier or most excellent ancestral origins, including Kharaure, Khauare, and Budhabare.
3411	The specific document used to check the 32 maternal and paternal ancestral roots is called the _____.	Udirth-patra.
3412	Which historical literary work by Jyotirishwar Thakur mentions the Panji system and King Harisimhadeva?	Varna-Ratnakar.
3413	In the Panji system, what is 'Asvarjana-patra'?	Another term for the 'Siddhanta', confirming the parties are not prohibited relations.
3414	The list of 20 Gotras includes Shandilya, Vatsa, Savarna, and which others?	Kashyap, Parashar, Bharadwaj, Katyayan, Garga, Kaushik, Alambukaksh, Krishnatreya, Gautam, Mudgal, Vasishtha, Kaundinya, Upamanyu, Kapil, Vishnuvridha, Shandi, and Jatukarna.
3415	Maithil Brahmins who are not registered in the Panji system are categorized as _____.	Jaybar.
3416	The division of 'Pancha Gauda' Brahmins includes Utkal, Kanyakubja, Gauda, Saraswat, and _____.	Maithil.
3417	The geographical boundary for 'Pancha Gauda' Brahmins is north of the _____ mountains.	Vindhyachal.
3418	What major internal social change occurred during the reign of Maharaja Madhav Singh (c. 1760 AD)?	The introduction of 'Shakha Panji' and the formalisation of social hierarchies like Shrotriya.
3419	The system of checking the sixteen 'Chhadwith' (lineage points) is used to verify _____.	Sapinda exogamy (ensuring no common ancestors within prohibited limits).
3420	The script traditionally used to write Panji records is _____.	Tirhuta (or Maithili Akshar).
3421	How did the Panjikars ensure the physical preservation of their palm-leaf records?	By protecting them from water, oil, and loose binding, and drying them in the sun when the Sun is in Leo (Singh Rashi).
3422	Who was the author of the 'Smritisar', whose marriage mistake prompted the formalisation of the Panji system?	Pandit Harinath Upadhyay.
3423	What mistake did Pandit Harinath Upadhyay make in his marriage?	He unknowingly married a girl who was his own cousin (sister's daughter/maternal relative).
3424	The term 'Beeji' effectively functions as a _____ in modern genetic terms according to the text's theory.	Genetic marker or chromosomal identifier.
3425	What is the 'Madhyam Mool' category?	The intermediate tier of ancestral origins, such as Digbare, Belaunche, and Panichobhe.
3426	List three Rishi ancestors associated with the Shandilya Gotra.	Shandilya, Asita, and Devala.
3427	Which Gotra identifies Shakti, Vasishtha, and Parashar as its Pravaras?	Parashar Gotra.
3428	What are 'Laukiks' in the context of Panji hierarchy?	Social sub-groups or lineages that emerged due to marriage alliances, used to track status within the Shrotriya class.
3429	The 'Pachhwari Paat' refers to the Panji records of which Brahmin group?	Non-Shrotriya Brahmins (Yogya and Panjibaddha).
3430	The 'Pubari Paat' refers to the Panji records of which Brahmin group?	Shrotriya Brahmins.
3431	What is the primary function of the 'Shakha Panji' created during Maharaja Madhav Singh's time?	To provide a detailed, branched pedigree of individual families rather than just the core 'Mool' data.
3432	The Sanskrit verse 'Panchamat Saptamat Urdhvam' refers to which rule?	The Sapinda rule: avoiding five generations on the mother's side and seven on the father's side.
3433	Which famous Maithili poet's genealogy is extensively documented in the Panji records?	Vidyapati Thakur.
3434	How did the Panji system handle 'Dushana' or faults over time?	Socially, many 'Dushanas' (like marrying a Devadasi or into an unknown caste) were eventually forgotten or absorbed after several generations of 'purity'.
3435	What happened to the Panji system among the Kshatriya and Rajput communities of Mithila?	It eventually fell into disuse, and they now follow simpler rules like avoiding the mother's village for marriage.

3436	How many 'Mools' are recorded for Karna Kayasthas?	The text notes they only have one Gotra (Kashyap) and their genealogy is tracked strictly through 'Mools'.
3437	The 'Beeji Purush' of the Simhashram Mool was _____.	Mahamahopadhyaya Halayudha.
3438	The 'Beeji Purush' of the Mandar Mool was _____.	Trivikram Bhatta.
3439	Who was the 'Beeji Purush' of the Sodarpura Mool?	Mahamahopadhyaya Prajapati.
3440	What was the purpose of the 'Mulagram' suffix in Panji records (e.g., Mandar-Siholi)?	To distinguish different branches of the same 'Mool' (original home) that settled in different villages (Grams).
3441	What was the role of 'Sapratiya' or 'Panch' in the marriage verification process?	They were elders or local witnesses who helped Panjikars gather lineage data.
3442	The term 'Adho-gami' (downward-moving) in Panji status refers to _____.	Lineages that lost their high rank (Shrotriya) due to marriages into lower-ranked (Yogya/Panjibaddha) families.
3443	According to the source, the 'Genome Mapping' metaphor suggests the Panji system was a medieval precursor to _____.	Modern genetic screening for hereditary health and kinship.
3444	What are the four 'Sanskaras' (rites) observed by Chhandog Brahmins during Upanayana?	Namakarana, Chudakarana, Upanayana, and Samavartana.
3445	What extra 'Sanskara' do Vajasaneyi Brahmins observe during Upanayana compared to Chhandogs?	Vedarmbha.
3446	In Chhandog marriages, the 'Uttar Vivah' must be performed after seeing which celestial object?	The Arundhati star.
3447	What is the 'Ayanti Shrestha' tier in the hierarchy of Mools?	The highest-ranking Mools, such as Kharaure, Khauare, and Sodarpuriye.
3448	The Panji records identify Maithil Brahmins as having how many 'Main Mools'?	34
3449	Which historical figure, known as 'Panji-Shastra Martand', was a modern expert in the system?	Modanand Jha.
3450	How many generations did the Panjekar Modanand Jha claim separated him from the first Panjekar, Gunakar Jha?	18 generations.
3451	What is a 'Laukik' in the context of Shrotriya Brahmins?	A lineage identifier based on the village of an important ancestor, used for status ranking.
3452	The 'Pari-panji' (or Patra-panji) refers to records of _____.	Lineages established within the last 500 years.
3453	In the marriage rules, the groom must not be the child of the bride's _____.	Maternal uncle (Mama).
3454	The logic behind the 'Pravara' rule is to avoid marrying descendants of the same _____.	Vedic Rishi who 'invoked' the sacrificial fire for the ancestors.
3455	How did the Panjekar system handle lineages where the mother was unknown ('Agyat')?	The lineage was often considered 'blemished' (Dushit) until enough generations passed to reset its status.
3456	What is the 'Beeji' of the 'Kharaure' Mool?	Gangadhar.
3457	The Panji system was formally reorganised on the date corresponding to _____.	1326 AD (Shaka 1248).
3458	What is the significance of the village 'Nagram' in the Panji ग्राम-वर्णन (volumes)?	It is one of the three major segments/volumes of Panji records documented in the source.
3459	During which historical period does the 'Genome Mapping' of the Mithila Panji Prabandh primarily span?	From \$450\$ A.D. to \$2009\$ A.D.
3460	In the context of Mithila genealogy, what does the term 'Uteá,h' refer to?	The detailed introduction and identification of \$32\$ ancestral lineages required for marriage eligibility.
3461	According to the Panji system, how many generations must be avoided on the paternal side for a marriage to be valid?	Seven generations (\$7\$).
3462	According to the Panji system, how many generations must be avoided on the maternal side for a marriage to be valid?	Five generations (\$5\$).
3463	Into which three main hierarchical categories were the Maithil Brahmins divided following the Panji implementation?	Shrotriya, Yogya, and Panjibaddha.
3464	What happened to those Brahmins who were not recorded in the Panji system?	They were classified as 'Jaybar'.
3465	How many primary 'Moolas' (original lineages) are identified as the most significant out of the \$167\$ recorded?	Thirty-four (\$34\$), later increased to \$35\$ with the addition of the 'Khauam' branch.
3466	The two main Vedic divisions of Maithil Brahmins based on their ritual practices are Chhandogya and _____.	Vajasaneyi
3467	Which Vedic branch do the 'Vajasaneyi' Brahmins follow?	The Shukla Yajurveda (Madhyandina Shakha).
3468	Which Vedic branch do the 'Chhandogya' Brahmins follow?	The Samaveda (Kauthuma Shakha).
3469	What are the two types of 'Pravara' families found among Maithil Brahmins?	Tri-pravara (three ancestors) and Panch-pravara (five ancestors).
3470	In the Panji system, the term _____ refers to the earliest known ancestor of a specific lineage.	Beeji Purusha
3471	The term _____ refers to the original ancestral village associated with a particular lineage in the Panji records.	Moolagrama
3472	Which historical King of the Karnata dynasty is credited with the formal initiation of the Panji Prabandh in \$1326\$ A.D.?	Maharaja Harisimhadeva.

3473	Who was the first designated 'Panjikar' (registrar) appointed for the Maithil Brahmins by Maharaja Harisimhadeva?	Pandit Gunakar Jha.
3474	Who was the first designated 'Panjikar' for the Karna Kayastha community?	Shankaradatta.
3475	Who was the first designated 'Panjikar' for the Kshatriya community?	Vijayadatta.
3476	The 'Pancha-Gauda' Brahmin group consists of Utkala, Kanyakubja, Gauda, Maithil, and _____.	Saraswat
3477	Geographically, the 'Pancha-Gauda' Brahmins are located to the _____ of the Vindhya mountains.	North
3478	What is the 'Siddhanta-patra' (also known as Asvajana-patra) in the Mithila marriage tradition?	A certificate issued by a Panjikar confirming that the bride and groom are not 'Svajana' (prohibited relatives).
3479	In the Maithil Brahmin Gotra list, which two Gotras are prohibited from intermarrying because they share ancestors?	Vatsa and Savarna.
3480	Which Maharaja of Darbhanga ordered the creation of specific 'Sakha Panjis' for the Shrotriya, Jogya, and Panjibaddha categories?	Maharaja Madhav Singh.
3481	According to the 'Tantra Vartika' by Kumarila Bhatta, what was the purpose of 'Samuha-lekha'?	To record the traditions of ancestors to ensure the preservation of lineage and avoid forgetting family history.
3482	Under the rules of Maharaja Mahesh Thakur, the paternal side prohibition for marriage was modified from seven to _____ generations.	Six (\$6\$).
3483	How many 'Shadvitha' (prohibited ancestral connections) are analyzed by a Panjikar for every marriage candidate?	Sixteen (\$16\$).
3484	What does 'Svajana' mean in the context of Mithila's marriage laws?	A person who is within the prohibited degree of kinship and thus ineligible for marriage.
3485	The Karna Kayastha community in Mithila is associated with only one Gotra, which is _____.	Kashyapa
3486	Which Gotra includes the Moolas of 'Dighwa' (Dighore), 'Sarisab', and 'Mahua'?	Shandilya.
3487	Which Gotra includes the Moolas of 'Pali', 'Hariambe', and 'Tarisuni'?	Vatsa.
3488	Which Gotra includes the Moolas of 'Oini', 'Khaua', and 'Mandar'?	Kashyapa.
3489	Identify the Gotra associated with the 'Ekahara' and 'Belauch' Moolas.	Bharadwaja.
3490	Identify the Gotra associated with the 'Kujoli' and 'Jalki' Moolas.	Katyayana.
3491	What historical event in the 14 th century led to the formalisation of the Panji system?	The marriage of Pandit Harinath Upadhyaya to a relative (his father's brother's daughter's daughter) due to genealogical ignorance.
3492	In the Panji system, if an individual is not found in the registers, they are collectively referred to as _____.	Pachhbaripar (or Pachhbariba).
3493	How many total 'Panjis' (registers) are recorded for the Shrotriya category?	Thirty-two (\$32\$).
3494	How many total 'Panjis' are recorded for the Yogya and Panjibaddha categories combined?	One hundred and fifty-three (\$153\$).
3495	The 'Varna Ratnakara' mentions 72 Rajput clans, of which detailed descriptions are provided for _____.	Sixty-four (\$64\$).
3496	Concept: Paati Panji	A register that mentions the current Moolagrama (village of residence) and has been in use for about 500 years.
3497	Who was the scholar 'Modanand Jha'?	A renowned Panjikar who received the title 'Panji Shashtra Martand' from Maharaja Kameshwar Singh.
3498	What does the mnemonic 'Jalat Raksha, Tailat Raksha' signify for Panjikars?	Instructions to protect the palm-leaf manuscripts from water, oil, and loose binding.
3499	Which celestial event is traditionally considered the best time to dry and preserve Panji manuscripts?	When the Sun is in the Leo (Simha) constellation (approx. 16\$ August to 15\$ September).
3500	Term: Sapaná,a	Definition: Relatives who share a common ancestral body or offer funeral cakes to the same ancestor.
3501	If a bride is the 6 th generation descendant from a common ancestor, she is referred to as _____ in the Panji check.	Shadvitha (Chhadvitha).
3502	True or False: According to the Panji rules, a marriage can occur if a common ancestor appears in the maternal side of the groom at the 6 th generation.	True (it is prohibited only up to the 5 th generation on the maternal side).
3503	True or False: A marriage is prohibited if a common ancestor appears in the paternal side of the groom at the 6 th generation.	True (it is prohibited up to the 7 th generation, though modified to 6\$ in some contexts).
3504	Which sage is associated with the 'Katyayana' Gotra?	Vishnu and Angiras.
3505	Which sage is associated with the 'Shandilya' Gotra?	Asit and Deval.

3506	Which sages are associated with the 'Panch-pravara' Vatsa Gotra?	Aurva, Chyavana, Bhargava, Jamadagnya, and Apnavan.
3507	The rule 'Matritah Panchami Tyaktwa Pitritah Saptami Bhajet' comes from which ancient text?	Manusmriti.
3508	What is the significance of the \$1248\$ Shaka date mentioned in the text?	It marks the historical decision to formalise the Panji records under King Harisimhadeva (\$1326\$ A.D.).
3509	What happened to the Panji system for the Kshatriya community over time?	It gradually became obsolete or lost, leading them to follow the practice of avoiding only the immediate 'Dada' and 'Matrika' villages.
3510	Which Moola is found in seven different Gotras, including Shandilya, Vatsa, and Kashyapa?	Brahmapura.
3511	In a Panji check, the paternal side ancestors of the groom are checked for how many generations?	Six (\$6\$) ancestors (Pitrikula).
3512	In a Panji check, the maternal side ancestors of the groom are checked for how many generations?	Five (\$5\$) ancestors (Matrikula).
3513	What is the 'Asvajana-patra'?	A document proving that the bride and groom are not related by prohibited bloodlines.
3514	The 'Genome Mapping' mentioned in the title is a modern metaphorical comparison to which traditional practice?	The meticulous genealogical record-keeping of the Mithila Panji.
3515	Who was 'Mahesh Thakur' in the context of Maithil social history?	A Great Scholar-King (Maharaja) of the Khandavala dynasty who provided revised legal rulings on marriage prohibitions.
3516	In the list of the \$20\$ Maithil Brahmin Gotras, which Gotra is listed first?	Shandilya.
3517	How does the text define 'Beeji' in the context of lineage?	The primary source or seed ancestor from whom the entire family tree is traced.
3518	The 'Tri-pravara' Shandilya Gotra is traced back to Shandilya, Asit, and _____.	Deval
3519	Which Gotra corresponds to the sages 'Shakti', 'Vashishtha', and 'Parashar'?	Parashar Gotra.
3520	Which Gotra corresponds to the sages 'Bharadwaja', 'Angiras', and 'Barhaspatya'?	Bharadwaja Gotra.
3521	Why is marriage prohibited between the children of a mother's brother and the mother's sister?	They are considered 'Matripaksha' (maternal relatives) within the prohibited five-generation degree.
3522	The 'Pancha-Dravida' Brahmin group includes Karnataka, Gurjara, Tailanga, Dravida, and _____.	Maharashtra
3523	Where was the 'Vatsa' Gotra's ancestral knowledge regarding rituals codified?	In the Chhandogya and Vajasaneyi Vedic branches.
3524	What is 'Pachhbaripar' status?	The category of Maithil Brahmins who are not in the 'Shrotriya' (high-status) lists.
3525	Identify the historical significance of the 'Saka 1019' date in the text.	It is associated with King Nanyadeva, the founder of the Karnata dynasty in Mithila.
3526	What is the title of the famous encyclopedia written by Jyotirishwar Thakur that mentions Mithila's social structure?	Varna Ratnakara.
3527	According to the Panji system, what is the consequence of marrying within one's 'Svajana' group?	The offspring are considered 'Chandala' (outcast) and the family loses its Vedic status.
3528	During which historical period was the Panji Prabandh established for the purpose of caste purity?	The late medieval period.
3529	The Panji Prabandh was primarily created for Brahmins, Kshatriyas, and which other social group?	Karna Kayasthas.
3530	What term refers to the introduction of seven generations and the 32 ancestors required for verifying marriage eligibility in Mithila?	Uddeh.
3531	In the context of Panji, how many maternal and paternal ancestors collectively form the required 'Uddeh'?	32
3532	The Maithil Brahmin community is divided into three main hierarchical categories: Srotriya, Yogya, and _____.	Panjibadh.
3533	What term is used for Maithil Brahmins who were not included in the official Panji records?	Jaiwar.
3534	According to the Panji rules for Srotriyas, how many generations must be avoided on the maternal side for a valid marriage?	Five.
3535	According to the Panji rules for Srotriyas, how many generations must be avoided on the paternal side for a valid marriage?	Seven.
3536	How many total 'Gotras' are recognised within the Maithil Brahmin community according to the Panji records?	20
3537	How many 'Mula Grams' (ancestral villages) were originally identified in the Maithil Panji system?	167
3538	Out of the 167 Mulas, how many are considered the 'primary' or 'main' Mulas?	34 (later 35).
3539	Which historical King of Mithila is credited with formally organizing the Panji Prabandh in 1326 AD?	Maharaja Harisimhadeva.

3540	Who was the first Panjikaar (genealogist) appointed by the King for Maithil Brahmins?	Gunakar Jha.
3541	Who was the first Panjikaar appointed for the Kshatriyas in Mithila?	Vijaydatt.
3542	What was the specific year in the Shaka era when the Panji system was formally implemented?	Shaka 1248.
3543	Which Veda and Shakha do the 'Vajasaneyi' Maithil Brahmins follow?	Yajurveda, Madhyandina Shakha.
3544	Which Veda and Shakha do the 'Chhandogya' Maithil Brahmins follow?	Samaveda, Kauthuma Shakha.
3545	The geographical division of Indian Brahmins puts Maithil Brahmins under which larger group?	Pancha Gauda.
3546	What is the primary criteria for marriage eligibility regarding 'Gotras' in the Maithil system?	The bride and groom must not share the same Gotra.
3547	What is the primary criteria for marriage eligibility regarding 'Pravaras'?	The bride and groom must not share the same Pravara.
3548	Term: Mula	Definition: The root or original ancestral village of a family lineage.
3549	A lineage tracing back to three sage ancestors is known as a ____.	Tri-pravara.
3550	A lineage tracing back to five sage ancestors is known as a ____.	Pancha-pravara.
3551	Which three Gotras are classified as 'Pancha-pravara' in Maithil tradition?	Vatsa, Savarna, and Bharva.
3552	How many 'Siddhanta' (eligibility checkpoints) are calculated to verify marriage rights for a girl or boy?	16
3553	What is the name of the document issued by a Panjikaar certifying that a couple is not related within prohibited degrees?	Siddhanta Patra (or Aswajan-patra).
3554	What specific type of Panji record tracks historical 'flaws' or irregularities in a lineage?	Dushan Panji.
3555	Which Maharaja of Darbhanga is associated with the creation of 'Shakha Panjis' in the 18th century?	Maharaja Madhav Singh.
3556	What term is used for the recorded list of ancestors used to prove one is not a 'Sapinda' (blood relative)?	Uddeh.
3557	In the Karna Kayastha community, how many Gotras are typically recognised?	Only one (Kashyapa).
3558	What was the catalyst for formalising the Panji system, involving a Dharmashastra scholar named Harinath Upadhyaya?	He inadvertently married his own close relative due to a lack of recorded genealogy.
3559	Which 7th-century philosopher first mentioned 'Samuha Lekhya' (family records) as a means to protect caste purity?	Kumarila Bhatta.
3560	The 'Vajasaneyi' wedding ceremony differs from 'Chhandogya' because it can take place ____.	At any time, day or night.
3561	The 'Chhandogya' wedding ceremony is unique because the latter part of the marriage occurs only after ____.	Sunset, after seeing the star Arundhati.
3562	Which ancestor is considered the 'Biji Purusha' in a Panji record?	The earliest known progenitor or founder of the lineage.
3563	Into how many categories are the main 35 Mulas divided?	Three (Ayanti Srestha, Second Category, and Madhyam Mula).
3564	What is the name of the branch added to the main Mulas as the 35th branch?	Phandah Mula's Kharaur branch.
3565	Gotras like Shandilya, Kashyapa, and Parashara are examples of which Pravara type?	Tri-pravara.
3566	Name one of the primary duties of a Panjikaar according to the Panji Prabandh.	Maintaining and updating the genealogical records of births and marriages.
3567	What is the name of the Panji that records the migration from one village to another?	Patra Panji.
3568	Which specific ancestor is referred to as the 'Pramatamaha'?	The maternal great-grandfather.
3569	Why were families associated with 'Devdasis' or non-caste marriages still recorded in the Panji?	To maintain absolute honesty in genealogy and track lineage impacts.
3570	The Panji theory suggests that Maithil culture moved in which cardinal direction from the Saptasindhu region?	Eastward (Prachyabhimukhi).
3571	According to the source, the Panji records are written in which script?	Tirhuta (Mithilakshar).
3572	How many 'Chaurals' (categories) is the Srotiya Panji divided into?	Eight.
3573	Which historical mathematician's lineage is reportedly mentioned in the Panji records?	Aryabhata.
3574	The Panji records state that Chaitanya Mahaprabhu's teacher, Ishwar Puri, belonged to which Maithil Mula?	Kirmahe Phandah.
3575	What mnemonic or rule is given for protecting Panji books from damage?	Protect from water, oil, and loose binding (\$Jalat\ raksha\ tailat\ raksha\$).

3576	During which solar month is it recommended to dry and preserve Panji manuscripts?	When the Sun is in Leo (Sinha Rashi), typically mid-August to mid-September.
3577	Term: Pachhwari Paat	Definition: The genealogical records or groups belonging to the western/other Maithil Brahmins outside the Srotriya fold.
3578	What is the purpose of the 'Aswajan-patra'?	To certify that the bride and groom are 'non-kin' or not related by blood.
3579	How many ancestors of the bride are checked in the 'Uddeh' process?	16 (paternal and maternal lineages).
3580	In the Tri-pravara of the 'Shandilya' Gotra, who are the three sages?	Shandilya, Asit, and Deval.
3581	In the Pancha-pravara of the 'Vatsa' Gotra, name any two of the five sages.	Aurva and Chyavana (others: Bhargava, Jamadagnya, Apnuvana).
3582	What is the 'Dushan' in a lineage according to Panji terminology?	A genealogical 'taint' or error, such as marriage outside the caste or into a prohibited degree.
3583	The source material equates Panji record-keeping with which modern scientific field?	Genome Mapping.
3584	Who was the Maharaja of Mithila who presided over the assembly when Panji was first organised?	Maharaja Harisimhadeva.
3585	According to the Panji rules, why can't a Vatsa Gotra person marry a Savarna Gotra person?	Because they share the same ancestors (Pancha-pravara) despite different names.
3586	In the list of 20 Gotras, which Gotra is associated with the 'Dehadi' root?	Jatukarna.
3587	What was the primary purpose of establishing the 'Panji Prabandh' system in Mithila?	To maintain the purity of lineage and ensure 'jati shuddhata' for Brahmins, Kayasthas, and Kshatriyas.
3588	During which historical period was the Panji Prabandh formally organised?	The late medieval period, specifically the early 14th century (c. 1326 AD).
3589	According to the Panji system, what does the term 'Udegh' refer to?	The detailed introduction and identification of 32 specific ancestors.
3590	The Panji system mandates that a marriageable individual must be separated from a prospective partner by _____ generations on the paternal side.	Seven
3591	On the maternal side, how many generations of separation are required for a valid marriage in the Panji system?	Five
3592	Identify the three main hierarchical categories into which Maithil Brahmins were divided under the Panji system.	Shrotriya, Yogya, and Panjibaddha.
3593	What term is used to describe those who were not registered within the Panji system?	Jaibar
3594	In the Panji records, how many 'Moolgrams' (original ancestral villages) were initially established?	167
3595	Who is considered the 'Biji Purush' in a Maithil Brahmin lineage?	The earliest known ancestor from whom the lineage or specific 'Mool' originates.
3596	Name the Karnat dynasty king who is credited with the formal implementation of the Panji system in 1326 AD.	Maharaja Harisimhadeva
3597	The formal decree to document lineages was motivated by a controversial marriage involving which scholar?	Pandit Harinath Upadhyaya
3598	What is the specific Shaka era year associated with the implementation of the Panji records?	Shaka 1248
3599	Term: Sidhanta Patra	Definition: A certificate issued by a Panjekar confirming that a bride and groom are not prohibited relatives.
3600	Who was the first Panjekar appointed for the Maithil Brahmins?	Gunakar Jha
3601	Who were the first Panjekar appointed for the Karna Kayasthas and the Kshatriyas, respectively?	Shankardatta (Kayasthas) and Vijayadatta (Kshatriyas).
3602	Maithil Brahmins are divided based on the number of Pravara they have into which two categories?	Tri-pravara (three ancestors) and Panch-pravara (five ancestors).
3603	Which three Gotras are classified as 'Panch-pravara' in the Maithil tradition?	Vatsa, Savarna, and Bharadwaja.
3604	What Vedic branch is followed by the Maithil Brahmins known as 'Chandogya'?	The Kauthuma shakha of the Samaveda.
3605	The Maithil Brahmins following the 'Vajasaneyi' tradition belong to which Veda?	The Shukla Yajurveda (Madhyandina shakha).
3606	What is the function of 'Dushan Panji'?	A record of faults or deviations in lineage, such as inter-caste marriages or social transgressions.
3607	Which classification of Maithil Brahmins is also known as 'Pachhwari-paat'?	The non-Shrotriya Brahmins (Yogya and Panjibaddha).
3608	What term is used to describe the Shrotriya Brahmins' social ranking records?	Laukika
3609	According to the source, why did Brahmins differentiate into regional groups like Maithil, Utkal, and Kanyakubja?	Due to variations in climate, language, diet, and distinct local cultural influences over time.

3610	The Maithil Brahmins are part of which larger traditional group of five northern Brahmin communities?	Pancha Gauda
3611	What geographic boundary separates the Pancha Gauda from the Pancha Dravida Brahmins?	The Vindhya mountain range.
3612	Why is the Panji system likened to 'Genome Mapping' in the source material?	Because it scientifically tracks biological lineage and genetic inheritance through meticulously documented records.
3613	The term 'Mool' in the Panji system primarily identifies an individual's _____.	Ancestral village or place of origin.
3614	True or False: Marriage is permitted between members of the Vatsa and Savarna Gotras.	False, as they share common ancestors despite having different Gotra names.
3615	In the context of Panji documents, what does 'Digital Imaging' refer to in the document's preface?	The modern preservation method used to store ancient palm-leaf records in digital format.
3616	Under whose reign did the 'Shakha Panji' (branch records) begin to differentiate based on social hierarchy?	Maharaja Madhav Singh
3617	What is the primary rule regarding the Gotra of the bride and groom?	They must not belong to the same Gotra (Gotra-exogamy).
3618	How many specific ancestors must a Panjikar verify to ensure a marriage is 'Asvajana'?	The ancestors of 32 different lineages (Udegh) related to the couple.
3619	Which Gotra includes the most branches (74) in Mithila according to the text?	Kashyapa
3620	The source mentions that Maharaja Harisimhadeva's Panji was based on a 'scientific' lineage introduction. What was its main feature?	It was a pure 'Vamshavali' (genealogy) focused solely on birth and lineage verification.
3621	In 'Panch-pravara', who are the five specific rishis associated with the Vatsa Gotra?	Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana.
3622	According to the source, when is the best time to dry and preserve Panji books to prevent damage?	When the sun enters the Leo (Simha) rashi, typically from mid-August to mid-September.
3623	What three things should a Panji book be protected from, according to the traditional Sanskrit shloka?	Water (jala), oil (taila), and loose binding (shithila-bandhana).
3624	The 16 prohibited relations for a bride are collectively known as _____.	Chhadisth (Sixths)
3625	Concept: Asvajana Patra	Definition: A declaration that the two parties are not 'Svajana' (blood relatives) and are eligible to marry.
3626	Identify one example from the text of a lineage 'fault' (Dushan) recorded in ancient Panjis.	Marriage into an 'unknown' lineage or a lineage with an 'inter-caste' connection (e.g., Devadasis or leather workers).
3627	Why did the author, Gajendra Thakur, compile this text?	To document and preserve the history and mechanics of the Panji system from 450 AD to 2009 AD.
3628	In the Maithil Brahmin community, which Veda is associated with the 'Shakha' of Madhyandina?	Yajurveda
3629	What is the significant difference in marriage rituals between 'Chandogya' and 'Vajasaneyi' Brahmins mentioned in the text?	Chandogya marriages are primarily performed in two parts (Purva and Uttara), while Vajasaneyi marriages have no such division.
3630	Who was the famous Maithil poet whose lineage is traceable through the Panji system for seven generations?	Vidyapati Thakur
3631	The term 'Sapanayikar' or verification of sapinda refers to avoiding relatives within how many degrees?	Seven for the father's side and five for the mother's side.
3632	Which ruler of the Karnat dynasty is credited with the formalisation of the Maithil Panji Prabandh?	Maharaja Harisimhadeva.
3633	In what year (AD) was the Mithila Panji system officially organised under royal decree?	1326 AD (Shaka 1248).
3634	What is the primary objective of the Panji Prabandh in Mithila?	To ensure lineage purity and prevent marriages within prohibited degrees of kinship.
3635	Name the seven most prominent and well-documented Gotras in the Maithil Brahmin society.	Shandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, and Katyayan.
3636	In the Panji system, what does the term 'Mula' signify?	The original ancestral village or 'root' of a specific family lineage.
3637	How many distinct 'Mulas' (roots) were recorded in the records of the Maithil Brahmins?	167
3638	How many generations must be avoided on the paternal side (Pitripaksha) to be eligible for marriage in the Panji system?	Six generations (historically seven).
3639	How many generations must be avoided on the maternal side (Matripaksha) for marriage eligibility?	Five generations.
3640	What is the 'Siddhanta Patra' (or Asawarjana Patra) in the context of Maithil marriage?	A certificate issued by a Panjikar confirming that the bride and groom are not related within prohibited degrees.
3641	The Maithil Brahmins who were recorded in the system but did not fall into the highest categories were known as _____.	Panjibaddha.
3642	What is the 'Beaji Purush' in a genealogical tree?	The earliest known common ancestor or the founder of a specific lineage.
3643	According to the Panji, Maithil Brahmins primarily belong to which two Vedas?	Yajurveda and Samaveda.

3644	Followers of the Madhyandina branch of Yajurveda in Mithila are known as ____.	Vajasaneyi.
3645	Followers of the Kauthuma branch of Samaveda in Mithila are known as ____.	Chhandog.
3646	Which social category represents the highest tier of Maithil Brahmins in the Panji hierarchy?	Shrotriya.
3647	Who was the first scholar appointed by Harisimhadeva to manage the Brahmin Panji?	Gunakar Jha.
3648	Who was the first registrar appointed for the Kshatriya community's Panji?	Vijayadutta.
3649	What is 'Tri-pravara'?	A Gotra associated with three primary sages (Rishis).
3650	What is 'Panch-pravara'?	A Gotra associated with five primary sages (Rishis).
3651	Which three Gotras among the Maithil Brahmins are identified as having 'Panch-pravara'?	Vatsa, Savarna, and Bharve (or Bhargav).
3652	The 'Dushana Panji' is a specific record used to track ____.	Social or genealogical defects/faults identified within a lineage.
3653	What is the function of the 'Sakha Panji' introduced during the reign of Maharaja Madhav Singh?	To track branches of families that moved from their original Mula-Gram to new locations.
3654	The Panji system excludes those who were not registered during the initial census; these people are termed ____.	Jaywar.
3655	Under which Maharaja's reign were the 'Shrotriya' and 'Yogya' classifications further rigidified?	Maharaja Madhav Singh.
3656	What specific scripture do Maithil Brahmins cite as the source for marriage rules regarding 'Sapindas'?	Manusmriti (and Yajnavalkya Smriti).
3657	In the Panji terminology, what is a 'Laukika'?	A subdivision or sub-category within the Shrotriya Panji reflecting specific lineage status.
3658	Which scholar is credited with modifying the marriage rule from 7 paternal generations to 6?	M.M. Mahesh Thakur.
3659	The genealogical record of 32 specific ancestors used in the Panji system is called the ____.	Yati-Parichay.
3660	True or False: The Panji system was originally applied to Brahmins, Kayasthas, and Kshatriyas alike.	True.
3661	What material was traditionally used to record and preserve the Panji manuscripts?	Palm leaves (Tala-patra).
3662	The historical document 'Tantra Varttika' by Kumarila Bhatta mentions 'Samuha Lekhya', which refers to ____.	Collective written records used to preserve family lineage and quality.
3663	What is the 'Chhavidth' (Chhattha) in the Panji marriage calculation?	The 'sixth' position in the lineage of 16 specific ancestors that must be checked for overlap.
3664	In the Panji system, how is the 'Beaji' of a branch family identified?	By tracking back to the common ancestor who first settled in the original Mula-Gram.
3665	Which Gotra does the 'Karna Kayastha' community exclusively belong to in Mithila?	Kashyap.
3666	Which specific script is traditionally used to write the Panji records?	Tirhuta (Mithilakshar).
3667	How often were the Panji records updated historically?	Continuously, as new births and marriages occurred.
3668	If a man and woman share the same Gotra, their marriage is termed ____.	Swarjana (prohibited/incestuous within the clan).
3669	Which time of year is traditionally prescribed for drying and preserving Panji manuscripts to prevent damage?	When the Sun is in Leo (August/September), due to the intense dry heat.
3670	What does the term 'Panch-Gaur' refer to in the context of Indian Brahmins?	The five northern Brahmin groups: Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
3671	How does the Samavedi marriage ceremony in Mithila differ from the Yajurvedi one regarding the timing of the 'Uttara Vivaha'?	Samavedis perform it after sunset after viewing the Arundhati star.
3672	The phrase 'Jalat Raksha Tailat Raksha' in Panji manuscripts is a warning to protect the book from ____.	Water and oil.
3673	The 'Pachhwari Paat' refers to the genealogical records of which group?	Non-Shrotriya Maithil Brahmins (Yogya and Panjibaddha).
3674	The 'Pubari Paat' refers to the genealogical records of which group?	The Shrotriya Maithil Brahmins.
3675	What are 'Ayanthi Shrestha' Mulas?	The 'best' or first-tier original ancestral villages (roots) in the Panji hierarchy.
3676	According to the source, why did Brahmins in different regions eventually form separate sub-castes like 'Maithil' or 'Kanyakubja'?	Due to regional differences in climate, language, diet, and distinct local cultures.
3677	Who is 'Ayachi Mishra' (Bhavanath Mishra) in the context of the Panji?	A famous scholar from the Sodarpur Mula known for his selfless teaching.
3678	How many 'Chhavidth' (lineage paths) must be checked for a girl to ensure no paternal overlap with the groom?	16
3679	The 'Gotra Panji' contains a listing of every Gotra and their ____.	Ancient Mulas (roots).

3680	In the Panji, the status of a person can be 'Adhogami' (downward) if they _____.	Marry into a family of a lower genealogical tier.
3681	Concept: Swarjana	Definition: A marriage within the same clan or prohibited degree of kinship. Example: Marrying a first cousin.
3682	What is the 'Brahmapura' Mula unique for in the Maithil Panji?	It is a Mula found across multiple different Gotras (Shandilya, Vatsa, Kashyap, etc.).
3683	Which Gotra is associated with the sages 'Shandilya, Asit, and Deval'?	Shandilya.
3684	The record of 'Kulas' (families) that includes their specific qualities and flaws is called _____.	Samuha Lekhya.
3685	What major incident led Pandit Harinath Upadhyaya to advocate for the Panji system's formalisation?	He unknowingly married a woman who was genealogically ineligible (his own cousin's daughter).
3686	What is the 'Pradhan' rule of the Panji Prabandh regarding marriage validity?	A marriage is considered 'Ashastriya' (against scriptures) if performed without a 'Siddhanta' from a Panjekar.
3687	Which historical figure is credited with formalising the Panji system in Mithila?	Maharaja Harisimhadeva of the Karnata dynasty.
3688	In what year (both Shaka and AD) was the Panji system established according to the text?	Shaka 1248, which corresponds to 1326 AD.
3689	The Panji system was initially created to manage the lineages of which three social groups?	Brahmins, Kayasthas and Kshatriyas.
3690	According to the marriage rules, how many generations must be avoided on the father's side?	Seven generations (modified to six in later practice).
3691	According to the marriage rules, how many generations must be avoided on the mother's side?	Five generations.
3692	What term is used to describe those whose lineages are officially recorded in the Panji system?	Panjibaddh.
3693	Who was the first 'Panjekar' (genealogist) appointed for the Maithel Brahmins?	Guna Kar Jha.
3694	How many 'Gotras' (clans) are recognised within the Maithel Brahmin community?	Twenty.
3695	Maithel Brahmins predominantly follow which two Vedas?	Yajurveda (Madhyandina branch) and Samaveda (Kauthuma branch).
3696	What title is given to the followers of the Madhyandina branch of the Yajurveda in Mithila?	Vajasaneyi.
3697	What title is given to the followers of the Kauthuma branch of the Samaveda in Mithila?	Chhandoga.
3698	How many primary 'Mula-grams' (original villages) were identified as core ancestral roots?	34 (later expanded to 35).
3699	Which two Gotras are prohibited from intermarrying because they share the same ancestors?	Vatsa and Savarna.
3700	The five regional divisions of Northern Indian Brahmins are collectively known as _____.	Panch-Gaur.
3701	What are the five regional divisions of Southern Indian Brahmins called?	Panch-Dravida.
3702	Maithel Brahmins belong to which of the 'Panch-Gaur' groups?	The Maithil group.
3703	What is a 'Siddhanta-patra'?	A formal certificate issued by a Panjekar confirming that a bride and groom are not prohibited relatives.
3704	Which 7th-century philosopher first mentioned the concept of 'Samuha Lekhya' (collective records)?	Kumarila Bhatta.
3705	What triggered Maharaja Harisimhadeva to formalise the Panji system?	The accidental marriage of a high-ranking scholar, Pandit Harinath Upadhyay, to a prohibited relative.
3706	The highest social category created within the Panji system during the reign of Maharaja Madhav Singh is _____.	Shrotriya.
3707	What are the four hierarchical categories of Maithel Brahmins mentioned in the records?	Shrotriya, Yogya, Panjibaddh and Jaibar.
3708	How many 'Chhattha' (six branches/ancestors) are typically calculated to verify marriage eligibility?	Sixteen.
3709	Under what astronomical condition are Panji books historically supposed to be dried for preservation?	When the Sun is in the Leo (Simha) constellation.
3710	What is the historical significance of the 'Laukika' in the Shrotriya Panji?	It refers to the classification of lineages based on social status and historical associations.
3711	Which group within the Maithil community is noted for having only one Gotra (Kashyapa)?	Karna Kayasthas.
3712	What happened to the Panji system for Kshatriyas over time?	It largely fell into disuse or was lost.
3713	In the context of Panji, what is 'Asvajanapatra'?	A certificate stating that the parties are not related within prohibited degrees.
3714	According to the text, why did regional Brahmin cultures diverge?	Differences in climate, language, diet, clothing and geographical isolation.

3715	How does the Chhandoga marriage ritual differ from the Vajasaneyi ritual regarding the time of day?	Chhandoga marriages involve an 'Uttara Vivaha' performed after sunset after seeing the Arundhati star.
3716	Who was the designated genealogist for the Kayastha community during Harisimhadeva's reign?	Shankardatta.
3717	Who was the designated genealogist for the Kshatriya community during Harisimhadeva's reign?	Vijayadatta.
3718	What is the primary function of a 'Panjikar'?	To act as a legal and religious authority for identifying ancestral relationships and approving marriages.
3719	Why is the Panji system compared to modern 'Genome Mapping' in the text?	Because it tracks hereditary traits, lineage flaws and bloodlines over 1,500 years.
3720	Which scholar's 'Smriti' text provides the foundation for the sapinda marriage rules used in Panji?	Yajnavalkya (and Manu).
3721	What is the 'Ayanthi' category in the classification of Mulas?	A group of 'best' or first-tier original villages/lineages.
3722	According to the Panji records, how many 'Rajput' clans were identified in the Varna Ratnakara?	Seventy-two (with 64 described in detail).
3723	What is the term for a marriage that occurs despite being within prohibited degrees?	Svajana marriage.
3724	The 'Siddhanta' ceremony must be performed before which event?	The wedding ceremony.
3725	Which Veda branch includes the 'Vedarmbha' sacrament that the Chhandoga branch lacks?	Vajasaneyi (Yajurveda).
3726	How does the Panji track social 'degradation' over time?	Through the recording of 'Dushanas' or specific events that lowered a family's status.
3727	Which historical figure is credited with formally initiating the 'Panji Prabandha' (genealogical records) in Mithila?	Maharaja Harisimhadeva.
3728	In what year (Saka era) was the Panji system formally organised under royal patronage?	1248 Saka (approximately 1326 AD).
3729	What is the primary purpose of the Mithila 'Panji' system?	To ensure 'Jati Shuddhi' (caste purity) by regulating marriage eligibility and preventing incest.
3730	In the context of Panji Prabandha, what does 'Udteh' represent?	An introduction to 32 specific ancestors used to verify marriage eligibility.
3731	According to the Panji rules, how many generations must be avoided on the paternal side for a marriage to be valid?	Seven generations (later modified to six for certain groups).
3732	According to the Panji rules, how many generations must be avoided on the maternal side for a marriage to be valid?	Five generations.
3733	The Three main social classifications of Maithil Brahmins created during the Panji Prabandha are Shrotriya, Yogya, and _____.	Panjibaddha.
3734	What term describes Maithil Brahmins whose ancestors were not initially registered in the Panji system but were included later?	Jaybar.
3735	How many total 'Gotras' are recognised among Maithil Brahmins according to the source material?	20
3736	Which two Vedic branches represent the primary division of Maithil Brahmins based on rituals?	Chhandogya (Samaveda) and Vajasaneyi (Yajurveda).
3737	The original number of 'Muls' (village origins) established in the Panji records was _____.	167
3738	Out of the 167 total Muls, how many are considered the 'main' or 'Mukhya' Muls?	35 (originally 34, with one added later).
3739	What is a 'Biji Purush' in the Panji system?	The earliest known progenitor or 'seed' ancestor of a specific lineage.
3740	What defines 'Tri-pravara' in the context of Gotra identification?	A lineage that identifies three specific ancestral Rishis who composed Vedic hymns.
3741	What defines 'Pancha-pravara' in the context of Gotra identification?	A lineage that identifies five specific ancestral Rishis who composed Vedic hymns.
3742	Name the three Gotras that typically follow the 'Pancha-pravara' tradition.	Vatsa, Savarna, and Garga.
3743	What is the 'Siddhanta Patra' (or Aswajan-patra)?	A formal certificate issued by a Panjikar confirming that the bride and groom are not prohibited relatives.
3744	The five regional groups of North Indian Brahmins (Pancha-Gauda) include Utkala, Kanyakubja, Gauda, Saraswata, and _____.	Maithila.
3745	Which scholar's work, 'Tantra Varttika', provides early evidence of 'Samuha Lekhya' (collective genealogical records)?	Kumarila Bhatta.
3746	In the Panji system, what does the term 'Chhattha' (Sixth) refer to?	The 16 specific ancestral relationship points from which a bride or groom must be at least six generations removed.
3747	Why is marriage prohibited between the Vatsa and Savarna Gotras despite being distinct names?	They share the same ancestors (progenitors).
3748	Which Brahmin branch performs marriage rituals specifically after sunset, following the sighting of the star Arundhati?	Chhandogya (Samavedic) Brahmins.

3749	In the categorization of Muls, which group is known as 'Ayanti Shrestha' (the first rank)?	Lineages like Khadaure, Khauade, Budhabade, and Madariye.
3750	How many classifications of Panji books currently exist (e.g., Mul, Shakha, Gotra, etc.)?	Seven.
3751	What triggered the formalization of the Panji system by Raja Harisimhadeva?	A scholar, Pandit Harinath Upadhyaya, inadvertently married his own cousin due to the lack of written records.
3752	The 'Laukika' refers to the specific shakha records primarily maintained for which group?	Shrotriya Brahmins.
3753	Concept: Sakit (Prohibited)	Definition: A condition where a marriage is disallowed due to overlapping maternal or paternal lineages within prohibited degrees.
3754	How does the Panji record system treat children born from prohibited or 'Swajana' marriages?	They were historically categorised as 'Chandala' or socially excluded from the Aryan dignity.
3755	What is the significance of 'Mul-Gram' in the Panji system?	It identifies the original ancestral village of a family, distinct from their current residence.
3756	Which Gotra includes the most branches (74) identified in Mithila?	Kashyapa.
3757	The record of marriage permissions and lineage updates initiated during the reign of Maharaja Madhava Singh (c. 1760 AD) is known as _____.	Shakha Panji.
3758	What is the 'Pancha-Dravida' classification of Brahmins?	The five South Indian Brahmin groups residing south of the Vindhya mountains.
3759	True or False: The Panji system was historically applied to Maithil Brahmins, Karna Kayasthas, and certain Rajput lineages.	True.
3760	Which Panji specifically documents the transition of a person's status to a lower grade due to marriage choices?	Paati Panji.
3761	The first official Panjika appointed for the Karna Kayastha community was _____.	Shankardatta.
3762	The first official Panjika appointed for the Maithil Brahmins was _____.	Gunakar Jha.
3763	According to the Panji system, what is the 'Brahmapura' Mul exception?	It is a Mul that is found across multiple Gotras like Shandilya, Vatsa, and Kashyapa.
3764	Which historical record details inter-caste or social exceptions, such as marriages with Devadasis or unknown lineages?	Dushana Panji (specifically the sections documenting social history).
3765	What is the Vedic 'Sakha' of Samavedic Maithil Brahmins?	Kauthuma.
3766	What is the Vedic 'Sakha' of Yajurvedic Maithil Brahmins?	Madhyandina.
3767	In the Panji system, the term 'Adhogami' describes what social phenomenon?	The downward movement of family status (Paati) due to marriages into lower-ranked lineages.
3768	What is the meaning of 'Asapinda' in marriage eligibility?	A person who does not share a common 'Pinda' (ancestral body/offering) within the prohibited generation limits.
3769	According to the Panji theory, what modern scientific concept validates the ancient Rishis' marriage rules?	Genome mapping and the study of chromosomes.
3770	Which Panji classification documents the presence of female names in the lineage?	Makaranda-Amaria Panji (within Udteh).
3771	Who was the first official Panjika for the Rajput (Kshatriya) community in Mithila?	Vijayadatta.
3772	How many types of 'Chhattha' (ancestry check-points) are listed to determine if a bride is a 'Swajana'?	16
3773	The record of high-ranking families that maintained strict ritual purity and were listed in the 'Laukika' is the _____.	Shrotriya Panji.
3774	What is the historical significance of Maharaja Mahesh Thakur in the Panji system?	He formalised the rule that 7 generations on the paternal side must be excluded, which became widely accepted.
3775	In Panji terminology, what does 'Pachhwari-Paati' refer to?	The social category of Maithil Brahmins who are not in the Shrotriya group.
3776	Which Mul-Gram corresponds to the 'Oini' lineage?	Kashyapa Gotra.
3777	The 'Varnaratnakara' documents how many Rajput clans in Mithila?	72 clans (though 64 are primarily described).
3778	What was the role of 'Modanand Jha' in the Panji tradition?	He was a 18th-generation descendant of Gunakar Jha and a renowned Panjika (Panji-Shastra Martanda).
3779	According to the Panji text, what is the relationship between Gotra and 'Pita' (Father)?	Gotra is the identification of the ancient patriarch/Rishi of the paternal lineage.
3780	Why is the preservation of Tirhuta script considered essential for the Panji system?	The vast majority of ancient Panji records are written exclusively in this script.
3781	Which Panji serves as a repository for academic titles and educational achievements of ancestors since 450 AD?	Prachin Panji (Ancient Records).
3782	True or False: The Panji system prohibits marriage with the offspring of the mother's brother (maternal cousin).	True.

3783	What was the primary purpose of the 'Panji Prabandh' system established in Mithila?	To maintain caste purity and ensure genealogical correctness for marriages among Brahmins, Kayasthas, and Kshatriyas.
3784	Which ruler is credited with the formalisation and promotion of the Panji system in 1326 AD (Shaka 1248)?	Maharaja Harisimhadeva of the Karnata dynasty.
3785	Term: Utegh	Definition: The detailed introduction of 32 ancestral lineages required to verify a person's genealogical purity for marriage.
3786	What is the total number of primary 'Gotras' (lineages) identified within the Maithil Brahmin community?	Twenty (20).
3787	In the context of the Panji system, what does the term 'Biji Purush' signify?	The earliest known founding ancestor or progenitor of a specific lineage.
3788	What is a 'Siddhanta Patra' (also known as Aswajanapatra)?	A formal certificate issued by a Panjkar confirming that the bride and groom are not prohibited relations.
3789	The professional genealogists responsible for maintaining records and verifying marriage eligibility are known as ____.	Panjikars
3790	What is the difference between 'Tri-pravara' and 'Panch-pravara'?	Tri-pravara indicates three ancestral sages who composed Vedic hymns, while Panch-pravara indicates five such sages.
3791	Which specific Maithil Brahmin category was established for those whose lineages were systematically recorded and verified in the Panji?	Panjibaddha
3792	Identify the three main hierarchical tiers of Maithil Brahmins created under the Panji system.	Shrotriya, Yogya, and Panjibaddha.
3793	What happened to Brahmins who were not recorded in the official Panji system?	They were categorised as 'Jaywar'.
3794	The Panji system identifies how many 'Moola Grams' (original villages) from which the 167 lineages spread?	One hundred and sixty-seven (167).
3795	How many main 'Moolas' were initially prioritised from the total 167?	Thirty-four (34), which later became 35 with the inclusion of the Khandam branch.
3796	According to the source, why did Brahmins in India eventually divide into regional groups like 'Pancha Gauda' and 'Pancha Dravida'?	Due to geographical variations in climate, language, diet, and local cultural influences over time.
3797	Which five Brahmin groups constitute the 'Pancha Gauda' (Northern group)?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
3798	Which geographical feature serves as the boundary between 'Pancha Gauda' and 'Pancha Dravida' Brahmins?	The Vindhya mountain range.
3799	Followers of the Madhyandina branch of Yajurveda in Mithila are called ____.	Vajasaneyi
3800	Followers of the Kauthuma branch of Samaveda in Mithila are called ____.	Chandoga
3801	What is the major procedural difference between Chandoga and Vajasaneyi marriage rituals regarding timing?	Chandoga marriages have a specific 'Uttar Vivah' performed after sunset following the sighting of the Dhruva star, whereas Vajasaneyi rituals have no such timing restriction.
3802	The seventh-century work 'Tantra Varttika', which mentions 'Samuha Lekhya' (family records), was written by ____.	Kumarila Bhatta
3803	Who was the scholar appointed by Harisimhadeva to organise the Panji for Maithil Brahmins?	Gunakar Jha
3804	Which two ancestors are shared between the Savarna and Vatsa gotras, preventing marriage between the two lineages?	Aurva and Chyavana (among others, indicating a common origin).
3805	The 'Chhatth' calculation involves searching for common ancestors across how many specific points of relationship?	Sixteen (16).
3806	In the Shrotriya category, how many 'Chaupals' or hierarchical grades are identified?	Eight (8).
3807	How many total 'Panjis' (books/records) are mentioned for the Shrotriya and Yogya/Panjibaddha groups?	185 (32 for Shrotriya and 153 for Yogya/Panjibaddha).
3808	What is 'Sakha Panji'?	A detailed record of the branches and sub-branches of a family lineage, tracking the expansion from the original Moola.
3809	The first 'Chhatth' point in marriage eligibility checks refers to which ancestor of the bride?	The father of the bride's great-great-grandfather (Vridha Prapitamaha).
3810	Under what condition is a marriage prohibited even if the generation counts (5 or 6) are satisfied?	If the bride and groom share the same Gotra or the same Pravara.
3811	In the Panji system, what is the significance of the month from mid-August to mid-September (Sun in Leo)?	It is the time prescribed for drying and preserving the Panji manuscripts using intense sunlight.
3812	The script traditionally used to maintain Panji records is ____.	Tirhuta (Mithilakshara)
3813	Which scholar is noted in the source for achieving first rank in the 'Panji Shastra Martand' examination conducted by Maharaja Kameshwar Singh?	Modanand Jha
3814	How does the Panji system account for families that migrated to other regions like Bengal (e.g., Chaitanya Mahaprabhu's ancestors)?	Their origins are traced back to their original Mithila Moola (e.g., Khauwal Moola for Chaitanya).

3815	The term used for a girl from an unknown lineage or one whose mother's family is unrecorded is ____.	Agnyata (Unknown)
3816	Why is the marriage between Savarna Gotra and Vatsa Gotra forbidden?	They share common ancestors (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana) making them 'prohibited' relatives.
3817	According to the source, what is the role of the mother's brother's progeny in marriage rules?	A groom cannot marry the daughter of his maternal uncle (direct offspring of his mother's brother).
3818	The phrase 'Jalat Rakshet Tailat Rakshet' found in Panji manuscripts is an instruction to protect the book from what?	Water and Oil.
3819	Who was the scholar appointed to manage the Panji of the Karna Kayastha community?	Shankar Datta
3820	Who was the scholar appointed to manage the Panji of the Kshatriya community?	Vijay Datta
3821	The source compares the traditional Panji system to which modern scientific field?	Genome Mapping (due to its systematic tracking of hereditary traits and lineages).
3822	What is the 'Bijivara' or 'Bij' in the Panji system?	The inherent quality or status of a lineage, often subject to change based on marriage choices (Adhogami or descending status).
3823	What does 'Pachhwari Paat' refer to in the Maithil Brahmin social structure?	The broad group of Brahmins excluding the Shrotriya category.
3824	What is 'Pubari Paat'?	A term sometimes used to refer specifically to the Shrotriya group.
3825	In the ritual context of 'Pravara', what was the original purpose of invoking these ancestors during a sacrifice?	To invite Agni (the sacrificial fire) by reciting the names of distinguished sage-ancestors.
3826	How does the Panji system treat marriages that occurred with families from the 'West' (Paschim Desh)?	They are recorded as marriages into 'Agnyata Kula' (Unknown lineages) if the records do not align with the Panji.
3827	Term: Up-Tip	Definition: Supplementary genealogical notes used to update and track sub-branches of the Panji records.
3828	Which king's reign saw the introduction of 'Sakha Panji' to separate lineages based on social status changes?	Maharaja Madhav Singh.
3829	What is the 'Adhogami' nature of the Panji status?	The concept that a family's rank within the Shrotriya/Yogya system can decrease if they marry into lower-ranked lineages.
3830	The 'Tantra Varttika' suggests that 'Samuha Lekhya' were maintained specifically to avoid forgetting ancestors of which two castes?	Kshatriyas and Brahmins.
3831	What was the significance of the village 'Mandu' for the Kashyapa Gotra?	It is the central Moola (ancestral root) for seventy-four different branches of that Gotra.
3832	What happens if a Panjekar discovers a 'Dushana' (fault) in a lineage during verification?	The marriage eligibility of the family might be compromised or their social ranking lowered.
3833	The term used for a female ancestor from a family of temple dancers or specific service groups is ____.	Devadasi
3834	How many ancestors are included in the 'Utegh' list to ensure no common ancestor is shared within prohibited degrees?	Thirty-two (32).
3835	Which ancestral line does the 16th 'Chhatth' point verify?	The maternal great-grandfather of the bride's maternal grandmother (Matri-matamahi-matamaha).
3836	The scholar Vidyapati Thakur belonged to which Moola?	Bisaphi (under the Kashyapa Gotra).
3837	According to the source, why did the Kshatriya Panji system eventually fall into disuse?	Primarily due to the passage of time and the loss of systematic institutional maintenance.
3838	Identify the primary source material used for writing Panji records before the widespread use of paper.	Tala-patra (Palm leaves).
3839	Which ancestral sages are common to the Shandilya gotra?	Shandilya, Asita, and Devala.
3840	Which ancestral sages are common to the Bharadwaja gotra?	Bharadwaja, Angirasa, and Barhaspatya.
3841	The scholar Mahesh Thakur, who founded the Darbhanga Raj, belonged to which Moola?	Kharaure (Saurath).
3842	In the context of Panji, what does the term 'Utegh' or 'Udegh' represent?	The introduction of 32 ancestral lineages required to verify a person's caste purity.
3843	According to the Panji system, how many generations must be avoided on the father's side for a valid marriage?	Seven generations.
3844	According to the Panji system, how many generations must be avoided on the mother's side for a valid marriage?	Five generations.
3845	Which historical King of Mithila is credited with formalising the Panji system in the 14th century?	King Harisimhadeva.
3846	In what year (AD) was the decision made to formalise Panji records to prevent prohibited marriages?	1326 AD.
3847	Who was the first 'Panjekar' (registrar) appointed for the Maithil Brahmins?	Gunakar Jha.
3848	What specific incident involving Pandit Hari Nath Upadhyay led to the formalisation of Panji records?	He unknowingly married his cousin's daughter due to a lack of genealogical knowledge.
3849	Maithil Brahmins are divided into which two main Vedic branches based on their ritual practices?	Chhandoga (Samaveda) and Vajasaneyi (Yajurveda).

3850	The highest social tier in the Maithil Brahmin hierarchy established by the Panji is known as ____.	Shrotriya
3851	What are the four tiers of Maithil Brahmins defined by the Panji system?	Shrotriya, Yogya, Panjibaddh, and Jaywar.
3852	How many 'Mula Grams' (original villages) were identified during the initial Panji collection?	\$167\$.
3853	What defines a 'Biji Purush' in the Panji records?	The earliest known ancestor from whom a specific lineage or 'Mula' originates.
3854	In Panji terminology, what does 'Siddhanta Patra' (or 'Aswajan-patra') signify?	A certificate issued by a Panjekar confirming that the bride and groom are not related within prohibited degrees.
3855	Lineages that are not of the same Gotra but share the same ancestors and cannot intermarry are called ____.	Sargotra
3856	Which Gotra includes the pravaras: Sandilya, Asita, and Devala?	Sandilya.
3857	The 'Vatsa' Gotra belongs to which pravara category based on the number of ancestors invoked?	Panch-Pravara (Five Pravaras).
3858	Which three Gotras are classified as 'Panch-Pravara' in the Maithil system?	Vatsa, Savarna, and Bhargava.
3859	How does the marriage of a 'Vajasaneyi' differ from a 'Chhandoga' regarding the timing of the 'Uttara Vivah'?	Chhandogas perform it after sunset after seeing the Arundhati star, whereas Vajasaneyis have no such time restriction.
3860	The rule stating a person cannot marry someone from their own Gotra is known as ____.	Sagotra Vivah Nishedh
3861	What are the six essential prohibited generational positions checked in the 'Chhadwa' rule?	The 6th position from 16 specific maternal and paternal ancestral lines.
3862	In the Panji system, the term 'Mula' refers to the ____.	Original ancestral village or lineage.
3863	Which Gotra consists of the lineages: Kashyapa, Avatsara, and Naidhruva?	Kashyapa.
3864	In the context of social status, 'Pachhwaripath' refers to Brahmins who are ____.	Not of the Shrotriya category (those who fall outside the highest tier).
3865	According to the Panji text, what happens to the children of a marriage that violates 'Svajana' (prohibited relation) rules?	They were historically considered 'Chandal' or socially boycotted from Aryan dignity.
3866	The term used for the written genealogical registers that track lineage quality and flaws is ____.	Samuh Lekhya
3867	Which philosopher mentioned 'Samuh Lekhya' in his work 'Tantra Vartika' to highlight the preservation of lineage?	Kumarila Bhatta.
3868	How did King Madhav Singh influence the Panji system in the \$18\$th century?	He initiated the 'Shakha Panji' and formalised the tiered classification of Shrotriya.
3869	In Karna Kayasthas, how many Gotras are traditionally recognised?	One (Kashyapa).
3870	What are the 'Pancha Gauda' Brahmin divisions mentioned in the text?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
3871	Which geographical feature divides the 'Pancha Gauda' from the 'Pancha Dravida' Brahmins?	The Vindhyaachal Mountains.
3872	Lineages belonging to the 'Ayan-Shrestha' (First Category) of the 35 main mulas include ____.	Khadaure, Khauade, Budhabade, and Sodarpur.
3873	What is the 'Utegh Panji' specifically used for?	Identifying 'Sapinda' relationships by tracing six generations of ancestors.
3874	Concept: Pan Panji	Definition: A register that records the lineage and the specific original village (Mulagram) of ancestors.
3875	The first 'Chhadwa' position for a bride is her ____.	Paternal great-grandfather's paternal grandfather.
3876	The ninth 'Chhadwa' position for a bride is her ____.	Maternal grandfather's paternal great-grandfather.
3877	Why is marriage prohibited between the 'Savarna' and 'Vatsa' Gotras?	They share the same ancestors (Aurva, Chyavana, etc.), making them 'Sargotra'.
3878	The 'Dushan' or lineage flaw of 'Rajaka' refers to an ancestor marrying into a ____ family.	Washerman's
3879	The 'Dushan' of 'Charmakari' refers to an ancestor marrying into a ____ family.	Cobbler's
3880	Lineages like 'Khadaure', 'Madaie', and 'Darihare' belong to which ranking of Mulas?	Ayan Shrestha (First Tier).
3881	Lineages like 'Dighwe', 'Belanche', and 'Panchobhe' belong to which ranking of Mulas?	Madhyam (Middle Tier).
3882	Which Brahmin branch performs the 'Vedarambh' ceremony as one of their four primary sacraments?	Vajasaneyi (Yajurveda branch).
3883	The person from whom a lineage spreads into different villages while maintaining the same root is called the ____.	Biji Purush
3884	What rule did Mahamahopadhyaya Mahesh Thakur establish regarding paternal lineage marriage?	He deemed the 7th generation acceptable for marriage (as opposed to 8th).
3885	Which month of the year is traditionally recommended for drying Panji books to protect them from insects?	When the Sun is in Leo (approx. \$16\$ August to \$15\$ September).

3886	What is the meaning of 'Asapinda' in the context of marriage selection?	One who is not a 'Sapinda' (blood relative within restricted degrees) to the mother or father.
3887	The historical figure 'Lakhima' in the Panji records is associated with which Gotra and lineage?	Kashyapa Gotra, Sakaradi Mula.
3888	The term 'Laukika' in the Shrotriya community refers to ____.	The specific lineage rankings or categories within the Shrotriya Panji.
3889	How many 'Chhadwa' (prohibited ancestral positions) must be checked for both the bride and groom?	\$16\$ positions each (total of \$32\$).
3890	Which Gotra is associated with the Pravara 'Shakti, Vashistha, and Parashara'?	Parashara.
3891	Which Gotra is associated with the Pravara 'Angirasa, Vashistha, and Barhaspatya'?	Gautama.
3892	In the Panji, the 'Dushan' resulting from marriage into the family of a temple dancer is called ____.	Devdasi Dushan
3893	Which registrar was appointed for the Kshatriya community lineages?	Vijayadatta.
3894	Which registrar was appointed for the Karna Kayastha community lineages?	Shankardatta.
3895	The practice of 'Aruandhati Darshan' during marriage is specific to which group of Brahmins?	Chhandoga (Samaveda branch).
3896	The Panji system records historical titles; which lineage is associated with the title 'Mahamahopadhyaya'?	Various learned lineages including Sodarpur, Mandar, and Khauade.
3897	What does the term 'Jaywar' signify in the modern context of the Panji records?	Lineages whose detailed genealogical records are currently unavailable or incomplete.
3898	The rule for excluding relatives for marriage based on common ancestors is called the ____ rule.	Sapinda
3899	According to the Panji records, the lineage of the famous poet Vidyapati is traceable for at least ____ generations.	\$7\$ generations prior to him.
3900	The manual verification process where a Panjekar checks ancestors before a wedding is called ____.	Adhikar Janch (Authority Check)
3901	What is the 'Dushan' of 'Yavani'?	A lineage flaw resulting from marriage with a person of non-Hindu (Yavana/Muslim) background.
3902	Why is the Panji system compared to 'Genome Mapping' in the text's title?	Because it tracks hereditary traits, lineage, and genetic exclusivity across centuries.
3903	The 'Vishnuvridha' Gotra features which specific Pravaras?	Vishnuvridha, Kaunipuchha, and Trasadasyu.
3904	Which lineage is described as having \$74\$ branches originating from the Mandar village?	Kashyapa Gotra, Mandar Mula.
3905	The 'Pancha Dravida' Brahmin group includes which five regional communities?	Gurjara, Tailanga, Dravida, Maharashtra, and Karnata.
3906	Who provided the \$16\$th Chhadwa rule for the maternal grandmother's maternal grandmother's line?	The Panji tradition following the 'Chhadwa' algorithm.
3907	The Panji records for the Shrotriya community are divided into eight categories called ____.	Chaurals
3908	In Panji books, what does the mnemonic 'Jalat Raksha, Tailat Raksha' advise?	Protect the manuscript from water and oil.
3909	Which Gotra includes the Pravara 'Shandilya, Asita, and Devala'?	Shandilya.
3910	How did the Panji system respond to historical marriages into non-Maithil or lower caste groups?	By recording them as 'Dushan' (flaws) to alert future generations during marriage negotiations.
3911	Who is credited with the formal initiation of the 'Panji Prabandh' genealogical system in Mithila in 1326 AD?	King Harisimhadeva of the Karnata dynasty.
3912	The Panji Prabandh was established to maintain the lineage purity of which three social groups?	Brahmins, Kayasthas, and Kshatriyas.
3913	According to the marriage laws of Panji Prabandh, a man is prohibited from marrying a woman within how many generations of his paternal lineage?	Seven generations.
3914	What is the status of Maithil Brahmins who are not formally recorded in the Panji registers?	Jaywar.
3915	Maithil Brahmins are divided into how many distinct 'Gotras' (clans)?	20
3916	In Maithil genealogy, what does the term 'Mula' designate?	The ancestral village or place of origin for a specific family lineage.
3917	How many original 'Mulas' (ancestral villages) were initially identified for Maithil Brahmins?	167
3918	What defines a 'Tri-Pravara' lineage in Maithil tradition?	A lineage whose three ancient ancestors were composers of Rigvedic hymns.
3919	Which specific Gotras are classified as 'Pancha-Pravara' (having five Vedic hymn-composing ancestors)?	Vatsa, Savarna, and Bharv.

3920	Who was the first 'Panjikar' (genealogist) appointed by King Harisimhadeva for the Brahmin community?	Gunakar Jha.
3921	Which Panjikar was initially appointed to manage the genealogical records for the Karna Kayasthas?	Shankardatta.
3922	What is a 'Siddhanta Patra' (or Siddhanta)?	A formal certificate issued by a Panjikar confirming a couple's legal and genealogical right to marry.
3923	Maithil Brahmins primarily belong to which two Vedic schools?	Yajurveda (Madhyandina branch) and Samaveda (Kauthuma branch).
3924	Yajurvedic Maithil Brahmins of the Madhyandina branch are known by what title?	Vajasaneyi.
3925	Samavedic Maithil Brahmins of the Kauthuma branch are known by what title?	Chhandoga.
3926	The 'Vindhya' mountains historically serve as the boundary between the Pancha Gauda and the _____.	Pancha Dravida.
3927	Under which group of the 'Pancha Gauda' classification do Maithil Brahmins fall?	Maithil.
3928	In the context of the Panji system, what is the 'Biji Purush'?	The earliest known progenitor or founder of a specific lineage or 'Mula'.
3929	What was the historical catalyst for King Harisimhadeva to formalise the Panji system in the 14th century?	A high-ranking scholar inadvertently marrying a close relative due to a loss of genealogical knowledge.
3930	Which philosopher's 7th-century work, the 'Tantra Vartika', first mentions 'Sammuha Lekhya' (collective lineage records)?	Kumarila Bhatta.
3931	The highest category in the Maithil Brahmin social hierarchy, strictly adhering to Panji rules, is called _____.	Shrotriya.
3932	The supplementary genealogical records used for tracking specific family branches are known as _____.	Shakha Panji.
3933	Which King ordered the creation of 'Shakha Panjis' (branch records) to further distinguish family rankings?	Maharaja Madhava Singh.
3934	In the calculation of marriage eligibility, how many specific relationship nodes, known as 'Chhatth', are tracked?	16
3935	If a shared ancestor is found within the paternal line of both the bride and groom at the 'Chhatth' level, the marriage is _____.	Forbidden.
3936	An overlap in the 'Chhatth' nodes is only genealogically permissible if it occurs within the _____.	Maternal lineage of the groom.
3937	The great-great-grandfather of the bride is historically identified as the _____.	First Chhatth (Prathama Chhatth).
3938	Which script was traditionally used to write and preserve the Maithil Panji records?	Tirhuta (also known as Mithilakshar).
3939	Maithil Brahmins following the Samavedic tradition perform the 'Uttara Vivaha' (second part of the wedding) only after observing which star?	Arundhati.
3940	The 'Laukika' refers specifically to the lineage records and status of which group?	Shrotriya Brahmins.
3941	Which Gotra is associated with the 'Mandane' Mula, spanning 74 branches in Mithila?	Kashyap.
3942	What term describes the downward shift in family status resulting from marriage into a lower-ranked lineage?	Adho-gami.
3943	According to the 'Dushana Panji', why were certain lineages given the title 'Taskar' (Thief)?	The genealogists added the title after a man abducted and married a woman to protect the Panji's integrity.
3944	How does the Panji system view marriage with the daughter of a maternal uncle?	It is strictly forbidden as a violation of genealogical purity.
3945	In the Panji system, what is the 'Pachhwari-paat'?	A collective term for the Brahmin classes ranked below the Shrotriya and Yogya divisions.
3946	What is the literal meaning of 'Panji Prabandh'?	The management or arrangement of genealogical registers.
3947	The ancestor who lived circa 400 AD and is considered the Biji Purush of the Mandan Mula is _____.	Trivenir Bhatta.
3948	Which Mula group, including Kharaure and Khauware, occupies the 'Ayan-Shreshtha' (Foremost Excellent) rank?	The first category of the 35 primary Mulas.
3949	What is the 'Mula-Gram'?	The specific village identified as the primary residence of the progenitor of a clan.
3950	How are Panji books traditionally preserved to prevent damage from moisture and pests?	They are dried in the sun when it enters the sign of Leo (Sinha Rashi).
3951	The term 'Sapinda' refers to relatives sharing a common _____.	Ancestral offering or body (Pinda).
3952	Which class of Brahmins is identified as 'Yogya'?	The second highest rank in the Maithil social order, below Shrotriya but above Panjibaddh.
3953	What scriptural rule is the foundation for the 5 and 7 generation marriage restrictions in Mithila?	Matritah Panchami, Pitritah Saptami (from the Manu Smriti).

3954	In the Panji system, what is the significance of 'Brahmapura'?	It is a rare Mula found across multiple Gotras, such as Shandilya, Vatsa, and Kashyap.
3955	What does 'Genome Mapping' signify in the title of the provided text?	A modern metaphorical comparison to the ancient, precise genealogical tracking of the Panji system.
3956	Why is marriage prohibited for someone designated as 'Svajana'?	They are considered too closely related, and offspring of such unions were historically likened to 'Chandalas'.
3957	Which ruler is credited with institutionalising the Panji system in Mithila?	Maharaja Harisimhadeva of the Karnat dynasty.
3958	In what year (Shaka and AD) was the Panji Prabandh formally established?	Shaka 1248, which corresponds to 1326 AD.
3959	According to the Panji system, how many generations must be avoided for marriage on the paternal side?	Six or seven generations.
3960	The earliest reference to written lineage records ('Samuha Lekhya') is found in which 7th-century text?	The 'Tantra Vartika' by Kumarila Bhatta.
3961	What term refers to the earliest known ancestor of a specific lineage in the Panji system?	Beeji Purush.
3962	What does the term 'Mulgram' signify in Maithil genealogy?	The original or ancestral village of a family's lineage.
3963	Into which two major Vedic branches are Maithil Brahmins primarily divided?	Samavedi (Chhandogya) and Shukla Yajurvedi (Vajasaneyi).
3964	What is the difference in marriage timing between the Chhandogya and Vajasaneyi branches?	Chhandogya marriages occur in two parts (East and West), while Vajasaneyi marriages have no such division.
3965	Define 'Tri-pravara' in the context of Maithil Gotras.	A Gotra whose ancestors composed three specific hymns or sections of the Rigveda.
3966	Define 'Panch-pravara' in the context of Maithil Gotras.	A Gotra whose ancestors composed five specific hymns or sections of the Rigveda.
3967	Which three Gotras are classified as Panch-pravara?	Vatsa, Savarna, and Garga.
3968	Who were the three sages associated with the Shandilya Gotra?	Shandilya, Asit, and Deval.
3969	List the three sages (Pravaras) associated with the Kashyap Gotra.	Kashyap, Avatsara, and Naidhruva.
3970	Who was the scholar appointed by Harisimhadeva to manage Brahmin Panji records?	Gunakar Jha of the Pandua Mul.
3971	Who was appointed to manage the Panji records for the Karna Kayasthas?	Shankardatt.
3972	Who was the first registrar appointed for the Kshatriya Panji records?	Vijaydatt.
3973	What are the four categories of Maithil Brahmins created by the Panji system?	Shrotriya, Yogya, Panjibaddh, and Jaywar.
3974	What is the 'Siddhanta Patra' (or 'Asvajana Patra')?	A certificate issued by a Panjikar confirming that a couple is not related within prohibited degrees.
3975	What information is contained in a family's 'Utivedh'?	A complete ancestral introduction covering 32 distinct maternal and paternal lineage points.
3976	How many 'Muls' (root lineages) were originally identified for Maithil Brahmins?	167
3977	Out of the 167 original Muls, how many were designated as 'Mukhya' (main) Muls?	34 (later expanded to 35).
3978	The 'Panch Gaur' Brahmin group includes Maithils, Saraswats, Kanyakubjas, Gaurs, and _____.	Utkals.
3979	Which geographical feature divides the 'Panch Gaur' from the 'Panch Dravid' Brahmins?	The Vindhya mountain range.
3980	What is the status of a child born from a marriage between prohibited relatives (Svajana)?	The child was historically considered 'Chandala' and excluded from Aryan social rites.
3981	Term: Chhad-vith	Definition: The 16 specific ancestral lines checked to ensure marriage eligibility.
3982	Who is the primary Chhad-vith checked for a bride's eligibility?	The father of the bride's great-great-grandfather.
3983	Which Gotra is the only one found among Karna Kayasthas?	Kashyap.
3984	Which type of Panji record tracks family defects or social lapses?	Dushan Panji.
3985	What is the function of the 'Shakha Panji'?	It provides a detailed branch-wise genealogy including titles, education, and migrations.
3986	Who introduced the 'Shakha Panji' during his reign in the 18th century?	Maharaja Madhav Singh.
3987	What script is traditionally used to write Panji records?	Tirhuta (Mithilakshar).
3988	Which Brahmin category is also known as 'Pubaripar'?	Shrotriya.
3989	Which Brahmin category is also known as 'Pachhbaripar'?	The remaining categories excluding Shrotriyas (Yogya, Panjibaddh, Jaywar).
3990	How many 'Chouvala' (sub-categories) exist within the Shrotriya Panji?	Eight.
3991	What happens to the rank of a Shrotriya lineage if they marry into a lower category?	The lineage rank descends (Adhogami) and may eventually lose Shrotriya status.

3992	What is the 'Asvajan Patra' specifically intended to prove?	That the bride and groom are not 'Svajana' (relatives within prohibited degrees).
3993	How does a 'Panjikar' traditionally preserve Panji books from damage?	By protecting them from water, oil, and loose binding, and drying them in the sun during the month of Bhadra.
3994	In the context of 'Chhad-vith', the 10th check refers to whom?	The maternal grandfather of the bride's paternal great-grandmother.
3995	Explain the significance of the 7th Chhad-vith.	It tracks the paternal great-grandfather of the bride's paternal grandmother.
3996	Why did the Panji system decline among the Kshatriya (Rajput) community in Mithila?	Due to the loss of written records and shifts in social practices over time.
3997	What major legal/religious texts define the marriage rules used in the Panji system?	The Manusmriti and Yajnavalkya Smriti.
3998	How many sages are mentioned in the Pravara for the Parashar Gotra?	Three (Shakti, Vashistha, and Parashar).
3999	Which Gotra is associated with the sages Angira, Vashistha, and Barhaspatya?	Gautam.
4000	The 'Laukik' system is primarily associated with which Brahmin rank?	Shrotriya.
4001	What was the historical consequence of a 'Panjikar' issuing a false eligibility certificate?	They were given titles like 'Taskar' (thief) as a mark of disgrace.
4002	Which Panji type specifically details the 'Sapinda' relationship to six generations?	Utivedh Panji.
4003	What is the 'Ayanthi Shrestha' category in the hierarchy of Muls?	The first or highest grade of ancestral roots, including Muls like Kharaure and Khauare.
4004	What determines if a 'Chhad-vith' relationship is permissible for marriage?	A Chhad-vith ancestor is prohibited if found in the groom's paternal line, but permissible if found in the groom's maternal line.
4005	Which Gotra is associated with the sages Katyayan, Vishnu, and Angira?	Katyayan.
4006	Which Gotra includes the sages Vishnuvridha, Paurukutsa, and Trasadasyu?	Vishnuvridha.
4007	Name the sages in the Bharadwaj Gotra's Pravara.	Bharadwaj, Angira, and Barhaspatya.
4008	What is the 16th Chhad-vith check?	The maternal grandfather of the bride's maternal grandmother's maternal grandmother.
4009	In the context of Mithila, what is the 'Panji Prabandh'?	A comprehensive system of genealogical records used to maintain caste purity and manage genetic mapping.
4010	Which historical ruler is credited with the formal initiation of the Panji Prabandh in Mithila?	Maharaja Harisimhadeva.
4011	According to the source material, in which year (Shaka and AD) was the Panji Prabandh decision formalised?	Shaka 1248, which corresponds to 1326 AD.
4012	Who was appointed to manage the Panji records for the Maithil Brahmins?	Gunakar Jha.
4013	Who was the designated Panjikar for the Karna Kayasthas during Harisimhadeva's reign?	Shankardutt.
4014	Who was the primary record keeper appointed for the Kshatriyas in the Panji system?	Vijaydutt.
4015	What is the primary purpose of 'Genome Mapping' (Genome Mapping) mentioned in the Maithil Panji context?	To ensure the purity of lineage and prevent marriage within prohibited degrees of kinship.
4016	The Panji system originally covered three social groups: Brahmins, Kayasthas, and _____.	Kshatriyas.
4017	What is the term for the 32-generation lineage introduction required for marriage eligibility in the Panji system?	Utegh.
4018	How many total 'Gotras' are recognised among Maithil Brahmins according to the text?	20
4019	How many 'Gotras' are considered well-established and numerically dominant in Maithil society?	7
4020	What is a 'Moola' in the Panji system?	The original village or root settlement of a specific lineage.
4021	How many 'Moola-grams' (original villages) are recorded in the Maithil Brahmin Panji?	167
4022	What is the 'Pravara' of a Gotra?	The list of distinguished sage ancestors who composed Vedic hymns, usually numbering three or five.
4023	How does a 'Tri-pravara' differ from a 'Panch-pravara'?	A Tri-pravara has three distinguished sage ancestors, while a Panch-pravara has five.
4024	The Gotras Vatsa, Savarna, and Bharadwaj are classified as having _____ pravaras.	Five.
4025	In the Panji system, what is 'Sapinda'?	The state of sharing the same body particles/bloodline within a specified number of generations.
4026	For marriage eligibility, how many generations must typically be avoided on the father's side?	Seven generations (or six in some revised interpretations).

4027	For marriage eligibility, how many generations must be avoided on the mother's side?	Five generations.
4028	What is a 'Siddhanta' (or Ashvajana-patra) in the Panji tradition?	A formal certificate of eligibility issued by a Panjekar confirming that the bride and groom are not prohibited relatives.
4029	Which official is authorised by the state to verify genealogical records and issue marriage certificates?	The Panjekar.
4030	Maithil Brahmins are followers of which two Vedas?	Yajurveda and Samaveda.
4031	Yajurvedic Maithil Brahmins following the Madhyandina branch are known as _____.	Vajasaneyi.
4032	Samavedic Maithil Brahmins following the Kauthuma branch are known as _____.	Chhandogya.
4033	Which legendary Maithil poet's lineage is extensively tracked in the Panji records?	Vidyapati Thakur.
4034	The Brahmin category 'Shrotriya' was distinguished from others during the reign of which later Maharaja?	Maharaja Madhav Singh.
4035	What are the three main social categories of Maithil Brahmins derived from the Panji system?	Shrotriya, Yogya, and Panjibaddha (or Jaibar).
4036	Which script is traditionally used to write the Panji records in Mithila?	Tirhuta (or Mithilakshar).
4037	What does the term 'Chhadwith' refer to in Panji terminology?	The sixteen specific prohibited relationship points/ancestors that must be checked for marriage eligibility.
4038	Why were the Panji records traditionally dried in the sun during the month when the Sun enters Leo?	To protect the palm leaves (Talpatra) from moisture and pests using the intense heat.
4039	What was the consequence of a marriage between 'Svajanas' (prohibited relatives) according to historical social norms?	The offspring were considered 'Chandala' and the family was ostracised from the Aryan social order.
4040	Who wrote the 'Varna-Ratnakara', which mentions the lineages and the reign of Harisimhadeva?	Jyotirishwar Thakur.
4041	In the Karna Kayastha community, how many Gotras exist according to the text?	Only one (Kashyap).
4042	How does the Panji record distinguish between 'Moola' and 'Gram'?	Moola is the ancestral root village, while Gram is the current place of residence.
4043	The Gotra 'Vatsa' and the Gotra 'Savarna' share the same ancestors; how does this affect marriage?	Members of these two Gotras cannot intermarry as they are considered kin.
4044	What historical event led to the formalisation of the Panji records in the 14th century?	The marriage of Pandit Harinath Upadhyaya to his maternal cousin due to lack of recorded genealogical knowledge.
4045	What is the significance of the year 450 AD mentioned in the document?	It marks the earliest historical reference point tracked in some ancient Panji lineage management theories.
4046	How did regional culture influence Brahmin divisions into Utkala, Kanyakubja, Gauda, Maithil, and Saraswat?	Differences in climate, language, diet, and attire led to the categorisation of the 'Panch Gauda'.
4047	According to Kumarila Bhatta, why were 'Samuha-Lekhyas' (group records) maintained?	To ensure that the noble traditions and the purity of the family were not forgotten.
4048	Which Brahmin category is also referred to as 'Pachhwari-pa' in the later hierarchical system?	Panjibaddha (those below the Shrotriya and Yogya ranks).
4049	What is the 'Laukika' in the context of Shrotriya Panjis?	The specific social rank or status assigned based on marriage alliances and lineage purity.
4050	The 'Siddhanta' ceremony ensures that a bride is _____ (non-Sapinda).	Asapinda.
4051	What specific rule applies to the marriage of a man with the daughter of his mother's brother?	It is strictly prohibited in the Panji system.
4052	In which book did Kumarila Bhatta first mention the use of written family records in the 7th century?	Tantra Vartika.
4053	What is the role of 'Mithilakshar' in the preservation of the Panji?	It is the original script used for all traditional genealogical manuscripts, serving as their linguistic soul.
4054	How did the Panji system adapt to migration?	It tracked the 'Moola' (origin) while recording the new 'Gram' (residence) as a suffix (e.g., Mandar-Sarhad).
4055	The 20 Gotras of Maithil Brahmins are divided based on their number of _____.	Pravaras.
4056	What is the 'Utegh' record of the maternal side specifically called?	Matripaksha Utegh.
4057	Which Maharaja of Darbhanga commissioned the 'Shakha Panjis' as they are known today?	Maharaja Madhav Singh.
4058	True or False: The Panji system is currently still active among the Maithil Brahmins and Karna Kayasthas.	True.
4059	What is the 'Asvajana-patra' document?	Another name for the Siddhanta or the document certifying that the parties are not related.
4060	In what year was the Panji Prabandha (genealogical management system) formally established in Mithila?	1326 AD (Shaka 1248).
4061	Which ruler of the Karnat dynasty is credited with the initiation of the Panji Prabandha?	Maharaja Harisimhadeva.

4062	The Panji records were historically maintained for which three social groups in Mithila?	Brahmins, Kayasthas and Kshatriyas.
4063	What is the primary purpose of the Mithila Panji system regarding marriage?	To ensure 'Jati Shuddhi' (caste purity) and avoid prohibited degrees of relationship.
4064	How many 'Gotras' are recognised within the Maithil Brahmin community according to the Panji?	20
4065	According to the Panji system, how many maternal generations must be excluded to determine marriage eligibility?	Five.
4066	According to the Panji system, how many paternal generations must be excluded to determine marriage eligibility?	Seven (often reduced to six for certain categories).
4067	Term: Siddhant Patra	Definition: A formal certificate issued by a Panjekar confirming that a couple has no prohibited genealogical links for marriage.
4068	Which scholar was initially appointed by Harisimhadeva to manage the Panji for Maithil Brahmins?	Pandit Gunakar Jha.
4069	In the Panji system, what does the term 'Uderh' represent?	The detailed introduction of 32 ancestral lines (maternal and paternal) used to verify marriage eligibility.
4070	The 'Panch Gauda' group of Brahmins includes Utkal, Kanyakubja, Gauda, Saraswat and _____.	Maithil.
4071	Geographically, the 'Panch Gauda' Brahmins reside to the _____ of the Vindhyachal mountains.	North.
4072	How many 'Mools' (ancestral roots) were initially recorded in the Maithil Brahmin Panji?	167
4073	Followers of the Madhyandina branch of the Yajurveda in Mithila are known as _____.	Vajasaneyi.
4074	In Samavedi (Chhandogya) marriages, which phase occurs after sunset following the sighting of the star Arundhati?	Uttara Vivaha.
4075	According to the Smritis of Manu and Yajnavalkya, marriage is forbidden with a girl who is a _____ (sapinda) of the mother or father.	Blood relative.
4076	What incident allegedly triggered the formalisation of the Panji system in the 14th century?	Pandit Harinath Upadhyaya unknowingly married his first cousin (paternal aunt's daughter).
4077	How many Pravaras are associated with the 'Sandilya' Gotra?	Three (Tri-pravara: Sandilya, Asit, Deval).
4078	Marriage is prohibited between the Vatsa and _____ Gotras because they share common ancestors.	Savarna.
4079	The 16 'Chhatthis' in the Panji refer to 16 specific _____ whose lineages are checked for commonality.	Ancestral points (great-grandparents and beyond).
4080	In the 'Uderh' process, what is the 'First Chhatthi'?	The father's paternal grandfather's father (Great-great-grandfather).
4081	What are the three main hierarchical categories of Maithil Brahmins mentioned in the Panji context?	Shrotriya, Yogya and Panjibaddha.
4082	Under Maharaja Madhav Singh, a more complex hierarchical division was introduced called the _____ Panji.	Shakha (Branch).
4083	Which ancient philosopher's 'Tantravarttika' mentions 'Samuha Lekhya' (community records) as a means of preserving lineage purity?	Kumarila Bhatta.
4084	In Mithila, the village where the 'Beeji Purush' originally resided is called the _____.	Moolgram.
4085	According to the text, what is the 'Panch-pravara' (five sages) list for the Vatsa Gotra?	Aurva, Chyavana, Bhargava, Jamadagnya and Apnuvana.
4086	Why is the Panji system often compared to modern 'Genome Mapping' in recent academic discourse?	Due to its systematic tracking of hereditary biological information over centuries.
4087	To protect the Panji manuscripts (Pothis) from decay, they were traditionally kept away from water, oil and _____.	Loose binding.
4088	What is the prohibited degree of kinship known as in the Panji terminology?	Swajanita.
4089	The 'Tri-pravara' Gotras are those whose ancestors composed hymns in the _____.	Rigveda.
4090	Within the 167 original Mools, how many were considered 'Mukshya' (primary) Mools?	34 (later 35 with the addition of the Kharaur branch).
4091	What is the specific prohibition regarding the 'Nimata' (mother's brother's children) in Mithila marriage rules?	Marriage with the offspring of the mother's brother is strictly prohibited.
4092	The Panjekar verifies that the bride and groom are not related within _____ generations on the father's side.	Seven.
4093	How many 'Chauvala' (classes) are the Shrotriya Panjis divided into?	Eight.
4094	The term 'Pachhwaripaati' refers to Brahmins belonging to which group?	Those outside the Shrotriya category (Yogya and Panjibaddha).
4095	Term: Mool Panji	Definition: The original record listing all established ancestral roots and their founding members.

4096	The Panji system records historical instances of marriages with 'Devadasis' or individuals from 'Unknown castes' under which specific Panji type?	Dushana Panji (records of flaws/exceptions).
4097	Which historical figure's lineage is traced in the Panji as the 'Beeji' for the Shishiarum Mool?	Mahamahopadhyaya Halayudha.
4098	According to the Panji calculations, what is the 'Fifth Chhatthi'?	The paternal grandmother's great-grandfather.
4099	The term 'Beeji' in a Panji entry refers to the count of _____ from the founding ancestor to the current individual.	Generations.
4100	What is the role of the star 'Arundhati' in the Samavedi marriage ritual?	It must be sighted after sunset during the 'Uttara Vivaha' phase.
4101	The Madhyam Mool group includes lineages such as Digahve, Belonche and _____.	Ekhatar (Ekhatte).
4102	In the Karna Kayastha Panji, how many Gotras are primarily recognised?	One (Kashyapa).
4103	A marriage that violates Panji rules is considered _____ (unscriptural) and leads to social exclusion.	Ashastriya.
4104	The term 'Asvajan Patra' is a synonym for which marriage document?	Siddhant Patra.
4105	The Panji system documents the movement of Maithil Brahmins to other regions like Bengal; for example, the ancestors of _____ Mahaprabhu.	Chaitanya.
4106	Which Maharaja of Darbhanga requested the creation of 'Shakha Panji' to differentiate Shrotriyas from others?	Maharaja Madhav Singh.
4107	The 16th Chhatthi in the genealogical verification is the father's maternal grandmother's _____.	Maternal grandfather.
4108	What does the Panji record about the descendants of a 'Swa-janita' marriage?	They are considered spiritually and socially degraded ('Chandala' status).
4109	Which Panjkar was awarded the title 'Panji-Shastra Martand' by the Maithili Academy?	Modanand Jha.
4110	The concept of 'Sapinda' refers to relatives sharing the same _____.	Body/Ancestral particles (as defined in Hindu law).
4111	According to the Panji, the Vatsa and Savarna Gotras are forbidden to intermarry due to common _____.	Pravaras.
4112	How many Pravaras are associated with the 'Kashyapa' Gotra?	Three (Kashyapa, Avatsara, Naidhruva).
4113	What is the 'Seventh Chhatthi' in the marriage eligibility checklist?	The paternal grandmother's maternal grandfather.
4114	According to the text, the Panji system preserves records spanning over _____ years of history.	1000
4115	What is the primary objective of the 'Mithila Panji Prabandh' system established in the medieval period?	To ensure the genealogical purity (Jati Shuddha) of Brahmins, Kayasthas, and Kshatriyas.
4116	Under which king's patronage was the Maithil Panji system formally organised in 1326 AD?	Maharaja Harisimhadeva.
4117	According to the marriage rules in the Panji records, how many generations must be avoided on the father's side (Pitripaksha)?	Seven generations.
4118	According to the marriage rules in the Panji records, how many generations must be avoided on the mother's side (Matripaksha)?	Five generations.
4119	The Panji records identify three main hierarchical categories for Brahmins: Shrotriya, Yogya, and _____.	Panjibaddh
4120	What term is used to describe those who are not included in the official Panji genealogical records?	Jaibar (or Jaybar).
4121	How many total 'Gotras' are identified among the Maithil Brahmins in the source material?	Twenty (20).
4122	What is the specific meaning of a 'Tri-Pravara' lineage?	A lineage whose ancestors are credited with composing three Rigvedic hymns (Suktas).
4123	What is the specific meaning of a 'Panch-Pravara' lineage?	A lineage whose ancestors are credited with composing five Rigvedic hymns (Suktas).
4124	Name the five northern Brahmin groups (Pancha Gauda) mentioned in the Puranas.	Utkala, Kanyakubja, Gauda, Maithila, and Saraswata.
4125	In genealogical terms, what is a 'Beeji Purusha'?	The original progenitor or earliest known ancestor from whom a lineage descends.
4126	What does 'Moolagrama' signify in the Panji records?	The original village or place of ancestral residence of a family.
4127	Who was appointed to manage the genealogical records for the Karna Kayasthas?	Shankaradatta.
4128	Who was appointed to manage the genealogical records for the Kshatriyas in the Panji system?	Vijayadatta.
4129	The certificate issued by a Panjkar to confirm a marriage is valid and 'non-related' is called _____.	Siddhant Patra (or Ashvajana-patra).
4130	How many 'Moolas' (original root families) were primarily identified among Maithil Brahmins?	One hundred and sixty-seven (167).

4131	The professional genealogists who maintain and verify the Panji records are known as _____.	Panjikars
4132	What historical event in the 14th century prompted the formalisation of the Panji records?	The marriage of Pandit Harinath Upadhyaya into a prohibited degree of relationship due to ignorance of lineage.
4133	In which script were the traditional Panji records primarily written?	Tirhuta (Mithilakshar).
4134	Why is marriage prohibited with the child of a maternal uncle (Mama) in the Maithil system?	It is a violation of the 'Sapinda' marriage rules specified in the Smritis.
4135	What defines the 'Shakha Panji' specifically?	A detailed record tracing a lineage from the Beeji Purusha down to current descendants, including titles and education.
4136	Under the rules of Maharaja Mahesh Thakur, the paternal exclusion for marriage was adjusted from seven generations to _____ generations.	Six generations (making the seventh generation eligible).
4137	What specific ecological rule was suggested for the preservation of Panji manuscripts?	They should be dried in the sun when the Sun is in the Leo (Simha) constellation (approx. August-September).
4138	The 'Laukika' refers specifically to the marriage records of which Brahmin category?	Shrotriya.
4139	How many 'Chauris' (sub-categories) exist within the Shrotriya Panji?	Eight (8).
4140	Which Maithil scholar of the 7th century is cited as an early reference for 'Samuha Lekhya' (group records)?	Kumarila Bhatta.
4141	What historical period saw the decline of 'Samuha Lekhya' before the 1326 AD re-organisation?	The late 13th century (prior to Harisimhadeva's reign).
4142	Which Veda is associated with 'Tri-Pravara' and 'Panch-Pravara' as a prayer to invite Agni?	Rigveda.
4143	According to the Panji system, the descendants of parents, grandparents, and great-grandparents are collectively checked across _____ sources of lineage.	Thirty-two (32).
4144	Identify the geographical boundary between 'Pancha Gauda' and 'Pancha Dravida' Brahmins.	The Vindhyachal Mountains.
4145	What is the primary difference in marriage rituals between 'Vajasaneyi' and 'Chhandoga' Brahmins regarding the time of ceremony?	Chhandoga marriages must observe the stars (Arundhati) after sunset, while Vajasaneyi marriages can occur day or night.
4146	Which classification of Maithil Brahmins is traditionally referred to as 'Pachhwari-par'?	The non-Shrotriya Brahmins (Yogya and Panjibaddh).
4147	According to the Panji, what is the consequence of marrying a 'Swajana' (a prohibited relative)?	The offspring were historically considered 'Chandala' and excluded from Aryan social standing.
4148	What is the 'Ghataka' in the context of marriage negotiations?	A person (often a Panjika) who facilitates the matching and verification of lineages.
4149	Who is the 'Beeji' of the Mandar family lineage mentioned in the text?	Trayi-vidya-Bhatta.
4150	How many main 'Moolas' were selected as 'Atyanta Shrestha' (most elite) in the Shrotriya classification?	Thirteen (13).
4151	What was the significance of the year 1248 Saka in Mithila history?	It marks the formal institution of the Panji system by Maharaja Harisimhadeva.
4152	Identify one of the six specific 'Chhattha' (prohibited degrees) related to the maternal grandmother's lineage.	The maternal grandfather of the maternal grandmother (Matamahimamahapita).
4153	The 'Pancha Dravida' division includes Brahmins from Karnataka, Gujarat, Telangana, Maharashtra, and _____.	Dravida (Tamil Nadu/Kerala area).
4154	True or False: The Panji records were historically restricted to Brahmins only.	False (they were also maintained for Karna Kayasthas and certain Rajput/Kshatriya clans).
4155	The title 'Panji-Shastra-Martanda' was awarded to which notable genealogist by the Maithili Academy?	Modanand Jha.
4156	What was the role of the 'Siddhant Patra' in the marriage process?	It served as legal and social permission from the Panjika to proceed with a wedding.
4157	In the context of Panji, what does 'Avisvajan-Patra' mean?	A document certifying that the parties are 'not of the same lineage' (not prohibited relatives).
4158	How many generations of the mother's side are checked for 'Sapinda' according to the Manusmriti quoted in the text?	Five generations.
4159	Which king of the Karnata dynasty is credited with the 'Panji Prabandh'?	Harisimhadeva.
4160	What is 'Moola Panji'?	A record focusing on the original ancestral root and the geographical spread of a family.
4161	Under Maharaja Madhav Singh, which new type of Panji was introduced that led to further social stratification?	Shakha Panji (Branch records).
4162	The total number of Panjis for the 'Yogya' and 'Panjibaddh' categories is _____.	One hundred and fifty-three (153).
4163	The process of verifying sixteen specific paternal and maternal relations to ensure marriage eligibility is called _____.	Chhattha-Nirnaya (Deciding the six-fold relationship).

4164	Which Vedic sage's name is often associated with the Sandilya Gotra?	Sandilya.
4165	Why is the preservation of Tirhuta script considered vital to the Panji system?	Because the vast majority of historical Panji records are written exclusively in Tirhuta script.
4166	In the context of the Maithil Brahmin community, what is the primary purpose of the 'Panji Prabandh' system?	To ensure genealogical purity and regulate marriage eligibility.
4167	Which historical ruler is credited with officially organising the Panji system in Mithila in 1326 AD (Shaka 1248)?	Maharaja Harisimhadeva.
4168	What is the total number of primary 'Gotras' identified within the Maithil Brahmin community according to the source?	20
4169	According to the Panji system, how many generations must be avoided on the father's side for a marriage to be considered valid?	Seven (often modified to six in practice).
4170	How many generations must be avoided on the mother's side for a valid marriage in the Maithil Brahmin tradition?	Five.
4171	The Maithil Brahmins are classified as part of which broader group of the 'Pancha Gauda'?	Maithil.
4172	What is the specific role of a 'Panjikar' in Mithila?	A designated registrar or scholar who maintains genealogical records and issues marriage permits.
4173	Into how many 'Chhatth' (points of intersection) is the eligibility of a bride or groom divided to check for blood relations?	16
4174	The classification of Maithil Brahmins into Shrotriya, Yogya, and Panjibadh was formalised during the reign of which later ruler?	Maharaja Madhava Singh.
4175	What is the total number of 'Mulas' (roots) recorded for Maithil Brahmins in the Panji records?	167
4176	In Maithil Brahmin terminology, what are the followers of the Madhyandina branch of the Yajurveda called?	Vajasaneyi.
4177	What term is used for the followers of the Kauthuma branch of the Samaveda in the Maithil tradition?	Chandoga.
4178	The Panji system was originally applicable to Brahmins, Kayasthas, and which other group in Mithila?	Kshatriyas.
4179	Term: Bijjipurnsha (Biji Purush)	Definition: The earliest known founding ancestor of a specific lineage or 'Mula'.
4180	How many ancestors are included in the maternal line calculation of the 'Panjibadh' category compared to the 'Shrotriya'?	Five generations for both (though father's side differs).
4181	What is the difference between 'Tri-pravara' and 'Pancha-pravara' in the context of Gotras?	Tri-pravara indicates three sage ancestors, while Pancha-pravara indicates five sage ancestors.
4182	The Sandilya Gotra is classified as having how many Pravaras?	Three (Tri-pravara).
4183	Vatsa and Savarna Gotras are examples of lineages following how many Pravaras?	Five (Pancha-pravara).
4184	What is 'Samuha-Lekhya'?	The practice of maintaining collective family records, mentioned by Kumarila Bhatta in the 7th century.
4185	Which historical figure was appointed by King Harisimhadeva to manage the Kayastha Panji?	Shankardatta.
4186	In the Maithil Brahmin hierarchy, which group is known as 'Pachhwari-paat'?	Non-Shrotriya Brahmins (Yogya and Panjibadh).
4187	Which scholar is credited as the first chief Panjikar (registrar) of the Maithil Brahmins?	Gunakar Jha.
4188	What specific ecological precaution is recommended for preserving Panji manuscripts according to the source?	Protecting them from water, oil, and loose binding, and drying them in the sun when it is in the Leo zodiac sign.
4189	The first 'Chhatth' (genealogical checkpoint) for a bride represents the _____.	Father's paternal great-great-grandfather.
4190	Which script was traditionally used to write the Panji records in Mithila?	Tirhuta (Maithili script).
4191	In the context of marriage, what does the term 'Asvajana' signify?	A person who is not a sapinda or blood relative within prohibited degrees.
4192	Which Gotra is shared by all Karna Kayasthas in Mithila?	Kashyapa.
4193	What is 'Laukik' in the context of Shrotriya Panji?	A classification system used to determine social status based on marriage alliances.
4194	The 'Pancha Gauda' Brahmins are geographically separated from the 'Pancha Dravida' by which landmark?	Vindhyachal Mountains.
4195	Term: Mulgram	Definition: The current or most recent residential village of a family, distinct from their ancestral 'Mula'.
4196	What was the immediate catalyst for King Harisimhadeva to formalise the Panji system?	An accidental incestuous marriage involving scholar Harinath Upadhyaya due to lack of records.
4197	Which branch of Vedic rituals involves looking at the stars (Arundhati) after sunset during a marriage?	Chandoga (Samaveda).
4198	Which 'Mula' is associated with the famous Maithili poet Vidyapati?	Bisapi (though the source lists lineages like 'Mandavi').

4199	How many 'Mahatools' or primary branches were identified among the 167 original Mulas?	34 (plus one, totaling 35).
4200	True or False: According to the Panji system, marriage between Savarna and Vatsa gotras is prohibited.	True (they share the same ancestors/pravaras).
4201	Under the Panji rules, what is the consequence of marrying within one's own Gotra?	The offspring is traditionally considered outcaste (Chandal status in historical texts).
4202	The 'Tantra-Varttika' by Kumarila Bhatta refers to records of family virtues and flaws as _____.	Samuha-lekhyā.
4203	The 'Udegh' process requires identifying ancestors from both the paternal and _____ side.	Maternal.
4204	Which classification of Maithil Brahmins is traditionally considered the highest in social rank within the Panji system?	Shrotriya.
4205	In the list of 20 gotras, 'Kashyapa' is associated with which primary Pravaras?	Kashyapa, Avatsara, and Naidhruva.
4206	What is the 'Chaturvala' (four tiers) system in Panji?	The division of Shrotriyas into four distinct status groups.
4207	Which Panji record specifically tracks 'Kshina' or defects in a lineage over time?	Dushana Panji.
4208	Why is the year 1326 AD significant for Maithil social history?	It marks the formal establishment and recording of the 'Panji Prabandh'.
4209	According to the source, what is the 'Genome Mapping' period covered by these records?	450 AD to 2009 AD.
4210	Which gotra includes the pravaras Shakti, Vashishtha, and Parashara?	Parashara.
4211	The document mentions a 'Muslim' or 'Chamar' marriage in the lineage; where would this be recorded?	Dushana Panji.
4212	How many total ancestors are theoretically vetted in a full 'Udegh' check?	32
4213	In the hierarchy, 'Jaibar' refers to which group?	Those who are not officially recorded in the Panji books (non-registered).
4214	What is the significance of the village 'Behat' in the Panji examples?	It serves as a prominent 'Mula' or 'Mulgram' mentioned in ancestral lineages like those of Shankaridatta.
4215	The term 'Pancha Gauda' traditionally includes Brahmins from Saraswat, Kanyakubja, Gauda, Utkal, and _____.	Maithil.
4216	Who was the 'Biji Purush' of the Kharaure Mula?	The source identifies specific founding ancestors for each Mula, such as Gunakar Jha's lineage founding.
4217	True or False: A marriage is prohibited if the bride is the offspring of the groom's maternal uncle.	True (specifically prohibited in rule 4 of marriage eligibility).
4218	What was the purpose of creating the 'Shakha' (Branch) Panji under Maharaja Madhava Singh?	To differentiate between families based on their changing social practices and marital choices.
4219	In the process of checking 'Chhatth', if a relation is found on the groom's paternal side, is the marriage allowed?	No, it is prohibited.
4220	In the 'Chhatth' system, if a blood relation is found solely on the groom's maternal side, is marriage permitted?	Yes, provided it is beyond the prohibited five generations.
4221	Which script's preservation is considered vital to the Panji system's survival?	Tirhuta.
4222	What historical evidence is cited for the existence of Panji-like records before Harisimhadeva?	The 'Tantra-Varttika' by the 7th-century scholar Kumarila Bhatta.
4223	The source identifies 'Shrotriyas' as having how many specific 'Panjis' (books)?	32
4224	The total number of Panjis for the 'Yogya' and 'Panjibadh' categories combined is _____.	153
4225	Which Maithil King's library in Nepal was searched for earlier Panji manuscripts?	The source references the historical migration of records toward Nepal libraries.
4226	Term: Paat	Definition: A social rank or tier within the Maithil Brahmin community, often determined by marriage history.
4227	In what year was the formal 'Panji Prabandh' system initiated in Mithila?	1326 AD (Saka 1248).
4228	Which ruler of the Karnat dynasty is credited with establishing the Panji system?	Maharaja Harisimhadeva.
4229	What was the primary purpose for establishing the Panji Prabandh?	To maintain genealogical purity and regulate marriage eligibility among Brahmins, Kayasthas, and Kshatriyas.
4230	Who was the scholar appointed by Maharaja Harisimhadeva to manage the Panji of Maithil Brahmins?	Gunakar Jha.
4231	Who was the designated manager for the Panji of the Kshatriyas?	Vijaydatta.
4232	How many total 'Gotras' (clans) are recognized in the Maithil Brahmin community?	20
4233	Define the term 'Udegh' in the context of Maithil genealogy.	An introduction of seven generations of ancestors required for marriage eligibility.

4234	How many ancestors' introductions are ideally required to establish the 'full' lineage of a person?	32
4235	What are the three main social hierarchies established among Maithil Brahmins during the Panji organization?	Shrotriya, Yogya, and Panjibaddh.
4236	What term is used for those who were not formally registered in the Panji system?	Jaywar (or Jaibar).
4237	In the Shrotriya category, how many generations must be avoided on the maternal side for marriage?	Five.
4238	In the Shrotriya category, how many generations must be avoided on the paternal side for marriage?	Seven.
4239	How many 'Moola-Grams' (original villages) were initially identified in the system?	167
4240	How many 'Main Moolas' (primary roots) were determined out of the 167 original villages?	34 (later 35).
4241	Which branch of the Khanam moola was added as the 35th main moola at a later date?	Phandah.
4242	Maithil Brahmins are divided based on Vedic study into which two primary groups?	Chandogya (Samavedi) and Vajasaneyi (Yajurvedi).
4243	The five northern Brahmin groups are collectively known as _____.	Pancha Gauda.
4244	The five southern Brahmin groups are collectively known as _____.	Pancha Dravida.
4245	Which geographic boundary separates the Pancha Gauda and Pancha Dravida Brahmins?	The Vindhyaachal mountains.
4246	Which Samavedic shakha (branch) is followed by the Chandogya Maithil Brahmins?	Kauthuma.
4247	Which Yajurvedic shakha (branch) is followed by the Vajasaneyi Maithil Brahmins?	Madhyandina.
4248	How many sacraments (Sanskars) are performed in the Upanayana of a Chandogya Brahmin?	Four (Namkarana, Chudakarana, Upanayana, Samavartana).
4249	Which document, first mentioned by Kumarila Bhatta, served as the precursor to written genealogical records?	Samuha-Lekhya.
4250	What is the 'Siddhant Patra' (or Aswajan-patra)?	A certificate issued by a Panjekar confirming that the bride and groom are not prohibited relatives.
4251	Who is the 'Beeji Purush' in a Panji record?	The earliest known foundational ancestor of a specific lineage or clan.
4252	What is 'Laukit' in the Shrotriya Panji?	Specific genealogical records used to track the sub-lineages and relative status within the Shrotriya category.
4253	Which Panji type specifically records the faults or 'stains' in a lineage?	Dushan Panji.
4254	The rule 'Matritah Panchami Tyaktwa Pitritah Saptami Bhajet' refers to which practice?	The prohibition of marriage within five generations of the mother's side and seven of the father's.
4255	How many 'Chhadwith' (specific ancestor-based connections) must be checked to ensure no Sapinda relation exists?	Sixteen.
4256	According to the Panji system, marriage with a girl from the maternal uncle's lineage is generally _____.	Prohibited (especially if within the specified generations).
4257	Which Maharaja of Darbhanga initiated the creation of 'Shakha Panjis' in the 18th century?	Maharaja Madhav Singh.
4258	How many Gotras are commonly found among the Karna Kayasthas of Mithila?	One (Kashyapa).
4259	What is the 'Moola Panji'?	The foundational register recording the original village and lineage of every family.
4260	Which Panji version focuses on the generational distance (Sapinda) for marriage calculations?	Udegh Panji.
4261	What is the significance of the month of Simha-Rashi (approx. 16 Aug to 15 Sept) for Panji preservation?	It is the time recommended to dry the palm-leaf records in the sun to prevent decay.
4262	The first Chhadwith relation is defined as the daughter of the bride's _____.	Vridhdha-Prapitamaha (Great-Great-Grandfather).
4263	What is the 'Ayaachi' title associated with, in the context of scholar Bhavanath Mishra?	A scholar who does not accept any donations or fees for his services.
4264	Who is the earliest mentioned foundational ancestor (Beeji Purush) of the Mandar moola?	Mahamahopadhyaya Triveni Bhatta (approx. 400 AD).
4265	The 'Dushan Panji' notes social deviations, such as marriage with an 'Antyaja' (lower caste). What happened to the status of these lineages over several generations?	The fault was eventually forgotten or diluted after six generations of pure marriages.
4266	Which famous poet's lineage is meticulously tracked in the Panji records?	Vidyapati Thakur.
4267	What was the occupation of those who were specifically appointed to calculate and verify marriage eligibility?	Panjikars.

4268	Which famous saint is mentioned in the Panji as a disciple of Damodar Upadhyaya of the Karmehe lineage?	Chaitanya Mahaprabhu.
4269	What is the 'Shrotriya' category based on according to the text?	A combination of noble lineage and the adherence to religious conduct (Karma-kanda).
4270	Identify the Gotra of the 'Oini' moola Brahmins.	Kashyapa.
4271	Identify the Gotra of the 'Sarisab' moola Brahmins.	Shandilya.
4272	Identify the Gotra of the 'Pali' moola Brahmins.	Vatsa.
4273	Identify the Gotra of the 'Dighe' (Dighwe) moola Brahmins.	Shandilya.
4274	The term 'Moola' in Panji indicates the ancestral _____.	Village (place of origin).
4275	The 13th Chhadwith relation refers to the bride's paternal grandmother's _____.	Paternal Great-Grandfather.
4276	In Panji records, if a lineage is described as 'Agnaat Maatrik' (unknown mother), what does it imply?	That the maternal side was not verified or was from an unregistered lineage.
4277	Which Panji category was specifically created to handle the records of the 'Soti' (Shrotriya) subgroup?	Shakha Panji.
4278	What is the total number of Yogya and Panjibaddh Panjis mentioned?	153
4279	How does the Panji track the transition from a 'faulty' lineage back to a 'pure' one?	By monitoring 'Kshayan' (decay) of the fault over subsequent pure generational unions.
4280	In the context of the Panji system, what does the term 'Uderh' represent?	The introduction and detailed pedigree of thirty-two specific ancestral lines required for marriage validation.
4281	How many total ancestral introductions are required to establish an 'Uderh' for marriage eligibility?	\$32\$ distinct ancestral lines.
4282	According to the Panji Prabandh, what is the generation-based restriction for marriage on the paternal side?	Marriage is prohibited within seven generations (often interpreted as excluding six generations) of the father's lineage.
4283	What is the generation-based restriction for marriage on the maternal side in the Panji system?	Marriage is prohibited within five generations of the mother's lineage.
4284	Which historical ruler of Mithila is credited with the formalised implementation of the Panji system?	Maharaja Harisimhadeva.
4285	In what year (\$AD\$) was the decision made to formalise the collection of lineage records under Maharaja Harisimhadeva?	\$1326\$ AD (\$1248\$ Saka).
4286	Who was the scholar appointed by Maharaja Harisimhadeva to manage the Panji records for Maithil Brahmins?	Gunakar Jha of the Pandua Mula.
4287	What are the three main hierarchical categories of Maithil Brahmins resulting from the Panji Prabandh?	Shrotriya, Yogya, and Panjibaddh.
4288	Maithil Brahmins who were not formally recorded in the initial Panji system are traditionally referred to as _____.	Jaywars
4289	How many 'Gotras' are formally recognised within the Maithil Brahmin community according to the source material?	\$20\$ Gotras.
4290	How many 'Mula-gramas' (original villages) were initially identified in the Panji system?	\$167\$ Mula-gramas.
4291	In the Panji system, what does a 'Beeji Purush' signify?	The earliest known progenitor or founding ancestor of a specific lineage or 'Mula'.
4292	The 'Tri-pravara' classification refers to lineages that claim descent from how many primary sages?	\$3\$ primary sages.
4293	What does the term 'Pancha-pravara' indicate regarding a Gotra's ancestry?	Descent from \$5\$ primary sages.
4294	Which two Gotras are noted for having the same ancestors, thereby prohibiting marriage between them?	Vatsa and Savarna.
4295	What is the specific document issued by a Panjekar certifying that a bride and groom are not related within prohibited degrees?	Siddhanta Patra (also known as Aswajana Patra).
4296	Which philosopher's work, 'Tantra Vartika', provides an early reference to 'Samuha-lekhyā' (collective records) used for preserving caste purity?	Kumarila Bhatta.
4297	What are the five regions traditionally comprising the 'Pancha Gauda' Brahmin group north of the Vindhya?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
4298	Which Veda and branch (shakha) do 'Vajasaneyi' Maithil Brahmins follow?	The Madhyandina shakha of the Shukla Yajurveda.
4299	According to the Panji system's marriage rules, a groom must not be the offspring of his maternal uncle's _____.	Brother (maternal uncle's children).
4300	The Panji system classifies 'Gotras' into how many distinct categories based on their 'Pravara' count?	Two (\$3\$ and \$5\$).
4301	Which Gotra includes the Mulas 'Dighwa', 'Sarisab', and 'Mahua'?	Sandilya.
4302	What is the 'Mula' of a Maithil Brahmin primarily based upon?	The ancestral village or place of origin.
4303	What is the function of the 'Dushana Panji'?	To record flaws or 'kshati' (lineage blemishes) that occurred within specific families.

4304	The 'Sakha Panji' system, which introduced more detailed sub-branch records, began during the reign of which King?	Maharaja Madhav Singh.
4305	In the Panji records, what information does the 'Uderh Panji' provide regarding Sapinda relations?	It traces back six generations to identify common ancestors.
4306	Which scholar's lineage rules, stating the \$7^{th}\$ generation on the father's side is eligible for marriage, became the accepted social standard?	Mahamahopadhyaya Mahesh Thakur.
4307	What does 'Chhadwith' refer to in the context of marriage eligibility verification?	Sixteen specific ancestral relationships checked by the Panjkar to ensure no prohibited connection exists.
4308	Why were the Brahmin communities geographically divided into 'Pancha Gauda' and 'Pancha Dravida'?	Due to regional influences like climate, language, and dietary habits over time.
4309	Which specific ancestor represents the 'First Chhadwith' for a girl's marriage eligibility check?	The great-grandfather of her great-great-grandfather (\$Vriddha Prapitamaha\$).
4310	What defines the 'Beeji Purush' of the Sandilya Gotra lineage from the village 'Gangoli'?	Gangadhar (\$1/1\$).
4311	Among Karna Kayasthas, which Gotra is universally followed according to the Panji records?	Kashyap.
4312	What was the role of 'Vijayadatta' in the Panji system's inception?	He was appointed to manage the Panji records for the Kshatriya community.
4313	What was the role of 'Shankardatta' in the Panji system's inception?	He was appointed to manage the Panji records for the Karna Kayastha community.
4314	How does the marriage ritual timing differ between 'Vajasaneyi' and 'Chhandogya' Maithil Brahmins?	Chhandogyas perform the 'Uttara Vivaha' only after sunset after seeing the Arundhati star, while Vajasaneyis have no such time restriction.
4315	In the Panji system, what is the term for a marriage that occurs within the same 'Mula' and 'Gotra'?	Swajana (prohibited/incestuous in this social context).
4316	What is the penalty mentioned in ancient smritis for children born of 'Swajana' (prohibited) marriages?	They were historically categorised as 'Chandala' and excluded from Aryan social rites.
4317	Which document is considered the life-force of the 'Tirhuta' script according to the source material?	The Panji Prabandh records.
4318	The scholars who maintain and verify the Panji records are professionally known as _____.	Panjikars
4319	Identify the Gotra belonging to the 'Beeji Purush' M.M. Halayudha.	Simhashram.
4320	Which Maithil Brahmin Gotra lists 'Parashar' as one of its five primary sages (Pancha-pravara)?	Parashar (Tri-pravara) or specific branches within Vatsa/Savarna.
4321	According to the Panji records, which famous Bhakti saint was the disciple of Damodar Upadhyaya of the Karmehe lineage?	Chaitanya Mahaprabhu.
4322	What is the significance of the year \$1644\$ Saka (\$1722\$ AD) in the 'Uttari-Teeph' records?	It marks the date of compilation for the specific branch records mentioned by Devandand Jha.
4323	How many primary 'Mulas' were selected as 'Main Mulas' out of the \$167\$ recorded?	\$34\$ (later \$35\$ including the Khanam branch of Phandah).
4324	The 'Laukik' refers to the specific lineage records maintained for which category of Maithil Brahmins?	Shrotriya Brahmins.
4325	In the Panji hierarchy, the 'Pachhwari Paith' refers to which group?	The non-Shrotriya Brahmins (Yogya and Panjibaddh).
4326	What is the meaning of 'Arsha' in the context of Pravara?	Relating to or derived from the Rishis (sages).
4327	Which Gotra is associated with the Beeji Purush 'Trivikram Bhatta'?	Mandir.
4328	In the verification process, if a 'Chhadwith' relationship is found in the groom's paternal side, is the marriage permitted?	No, it is prohibited.
4329	If a common ancestor (Chhadwith) is found in the groom's maternal side beyond the prohibited generations, is the marriage permitted?	Yes, it is generally permitted.
4330	Name the four essential sacraments (\$Samskaras\$) performed for Samavedi (Chhandogya) Brahmin initiation.	Namakarana, Chudakarana, Upanayana, and Samavartana.
4331	How does the initiation (\$Upanayana\$) of a Vajasaneyi Brahmin differ from a Chhandogya?	It includes 'Vedarmbha' as a distinct fourth sacrament in the sequence.
4332	What does the 'Gotra Panji' primarily contain?	A comprehensive list of all Gotras and their associated ancient Mulas.
4333	The 'Dushana' recorded in lineages can include historical instances of marriages with _____.	Unknown castes or prohibited relationships (e.g., 'Ajnat Kula').
4334	What was the purpose of the 'Paithi' system introduced by Maharaja Madhav Singh?	To establish social gradation and determine hierarchical status within the community.
4335	The 'Beeji' of the 'Khauwal' Mula is associated with which village?	Oini.
4336	Which scholar is noted as the '\$18^{th}\$ generation' descendant of the Panji system's founder, Gunakar Jha?	Modanand Jha.

4337	The physical Panji records were traditionally written on which material?	Palm leaves (Taal-patra) or Basaha-patra.
4338	Which ink/substance was traditionally cautioned against in the preservation sloka for Panji books?	Oil (Tailat Raksha).
4339	According to the Panji preservation rules, during which astrological period should the books be dried in the sun?	When the Sun is in the Leo (Simha) rashi (approx. mid-August to mid-September).
4340	The 'Pancha Dravida' Brahmins include groups from which regions?	Karnat, Gurjar, Tailang, Dravid, and Maharashtra.
4341	Which sage is the progenitor of the 'Kashyap' Gotra?	Kashyap.
4342	Lineages claiming the 'Pancha-pravara' sages Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana belong to which Gotras?	Vatsa or Savarna.
4343	What was the historical title of the scholars who issued the 'Aswajana Patra'?	Panjikar.
4344	Which philosopher mentioned that 'Maha-kulinas' (those of high birth) preserve their caste through 'Samuha-lekhya'?	Kumarila Bhatta.
4345	The 'Khanum' branch of the Phandah Mula is associated with which social rank in later periods?	Higher lineage/Uchcha Vamsha.
4346	The Panji system originally included records for how many Rajput (Kshatriya) clans?	\$72\$ (with \$64\$ described in 'Varna Ratnakara').
4347	Which Maithil poet's lineage is tracked for over \$19\$ generations in the Panji records?	Vidyapati Thakur.
4348	In the context of the Panji, what is the 'Mul-gram'?	The primary village associated with the founding of a lineage branch.
4349	Who was the 'Beeji Purush' of the 'Budhwal' Mula?	Vasudeva.
4350	In the Panji hierarchy, which category is considered the highest?	Shrotriya.
4351	What was the primary purpose of the 'Panji Prabandh' system introduced in medieval Mithila?	To ensure caste purity and determine eligibility for marriage among Brahmins, Kayasthas, and Kshatriyas.
4352	According to the source, the 'Uteh' involved the introduction of how many generations of ancestors?	Seven generations.
4353	To determine marriage eligibility, a person's lineage (Uteh) required knowledge of how many 'Kuls' or ancestral lineages?	32 Kuls.
4354	In the Mithila social hierarchy, what were the three main divisions of Brahmins resulting from the Panji system?	Shrotriya, Yogya, and Panjibadh.
4355	What term was used to describe those who were not formally registered in the Panji system?	Jaywar.
4356	For marriage eligibility, how many generations must typically be avoided on the mother's side?	Five generations.
4357	The Panji system records a total of how many original 'Gots' (Gotras) among Maithil Brahmins?	20 Gotras.
4358	The Panji system records how many original 'Muls' (village lineages) among Maithil Brahmins?	167 Muls.
4359	Out of the 167 'Muls', how many were designated as 'Mukhya' (primary) Muls?	34 Muls.
4360	Define 'Pravara' in the context of the Panji system.	The specific number of ancestors (usually three or five) who were original composers of Rigvedic hymns.
4361	Which three Gotras are classified as 'Panchapravara' (having five Pravaras)?	Vatsa, Savarna, and Garga.
4362	Name the three ancestors associated with the Shandilya Gotra.	Shandilya, Asita, and Devala.
4363	Why is marriage traditionally prohibited between members of the Vatsa and Savarna Gotras?	Because they share the same common ancestors.
4364	In the 10-fold classification of Indian Brahmins, Maithil Brahmins belong to which broader group?	Pancha Gauda.
4365	What was the administrative name of the region today known as Mithila in ancient times?	Videha.
4366	Which philosopher's work 'Tantravartika' first mentioned 'Samuh-lekhya' (collective written lineage records)?	Kumarila Bhatta.
4367	The current organised form of the Panji system was established under the reign of which King?	King Harisimhadeva.
4368	In what year (Shaka and Gregorian) was the Panji Prabandh officially established by Royal decree?	Shaka 1248, which is 1326 AD.
4369	What event prompted the creation of the Panji system in the 14th century?	Pandit Harinath Upadhyaya unknowingly married a close relative due to the lack of written records.
4370	What is the title of the official appointed by the King to verify marriage eligibility using Panji records?	Panjikar.
4371	Define 'Bijipurush' in the Mithila Panji system.	The earliest known ancestor from whom a specific lineage or 'Mul' originates.
4372	What does the 'Mulgram' signify in a person's introduction?	The original village associated with the family's lineage.

4373	Among Maithil Brahmins, which Gotra has the highest number of branches (e.g., 74 branches for one Mul)?	Kashyapa Gotra.
4374	Which rank of Brahmins is divided into eight specific categories (Chouwalas)?	Shrotriya.
4375	The 'Laukik' refers to the specific sub-lineage classifications of which Brahmin group?	Shrotriya Brahmins.
4376	How many 'Panjis' (records) are dedicated to the Shrotriya and Yogya/Panjibadh categories respectively?	32 for Shrotriya and 153 for Yogya/Panjibadh.
4377	What specific ecological/seasonal advice is given for the preservation of Panji manuscripts?	They should be dried in the intense sun between 16 August and 15 September (when the sun is in Leo).
4378	Which document identifies the 'Sapinda' (blood relation) boundaries for a marriage?	Uteh Panji.
4379	Define the 'Chhatth' (sixth position) rule in Maithil marriage law.	A rule stating that a person must not be within the sixth degree of relationship from specific ancestral lines of the partner.
4380	How many distinct 'Chhatth' (ancestral positions) are verified for a bride's eligibility?	Sixteen.
4381	The first Chhatth position verified for a bride is the _____.	Father's paternal grandfather's father (Vridha Prapitamaha).
4382	The ninth Chhatth position relates to which branch of the bride's family?	The maternal grandfather's paternal grandfather (Matamaha Prapitamaha).
4383	If a bride's 'Chhatth' appears in the groom's _____ side, the marriage is prohibited.	Paternal (Pitripaksha).
4384	Under which condition is a shared 'Chhatth' between bride and groom considered acceptable for marriage?	If the shared relative appears on the maternal side (Matripaksha) for both.
4385	According to the source, the Karna Kayasthas are generally associated with which single Gotra?	Kashyapa Gotra.
4386	Who was the first scholar appointed by King Harisimhadeva to manage Brahmin Panjis?	Gunakan Jha.
4387	Who was the first Panjika appointed for the Kshatriyas?	Vijaydatta.
4388	Which Brahmin king of Mithila is credited with starting the 'Shakha Panji' (branch records)?	Maharaja Madhav Singh.
4389	What are the two types of 'Pravara' families in Mithila?	Tripravara (three ancestors) and Panchappravara (five ancestors).
4390	Identify the Gotra: Its ancestors include Shakti, Vashistha, and Parashara.	Parashara Gotra.
4391	Identify the Gotra: Its ancestors include Bharadwaja, Angiras, and Barhaspatya.	Bharadwaja Gotra.
4392	Which 'Mul' is unique because its members can belong to seven different Gotras, including Shandilya and Vatsa?	Brahmapura Mul.
4393	In 'Varna Ratnakara', how many Rajput clans are mentioned in the list of 72?	64 clans.
4394	What is the distinction between 'Shrotriya' and 'Jaywar' in the Panji system?	Shrotriyas are highly ranked and registered; Jaywars are lower ranked or unregistered.
4395	The Panji records were designed to be kept 'Jalat Raksha, Tailat Raksha', meaning protection from _____ and _____.	Water; oil.
4396	Which historical Maithil scholar had his sister married to a prince of Cooch Behar, as noted in the records?	Mahesh Thakur.
4397	According to the Dushan Panji examples, what happened to the lineage of 'Nishai' of the Sarisab Mul?	He married the daughter of 'Chamru' of the Valiyase Mul, whose own mother's lineage was unknown.
4398	The source compares the genealogical accuracy of the Panji system to which modern scientific field?	Genome Mapping.
4399	What is the 'Ayaanti Shreshtha' category in the Mul classifications?	The first/highest category of primary Muls, such as Khadourey and Khouwail.
4400	What are 'Madhyam Muls'?	The medium-tier Muls, including Dighey and Panchobhe.
4401	The 11th Chhatth for a bride is derived from the _____.	Maternal grandfather's paternal grandmother's father.
4402	The 16th Chhatth for a bride is derived from the _____.	Maternal grandmother's maternal grandmother's father.
4403	How does the marriage ritual of 'Chhandog' (Samavedi) Brahmins differ regarding the 'Tara' (star)?	The final part of the marriage occurs after sunset after viewing the Arundhati star.
4404	Which Gotra is associated with the ancestors Garga, Ghrita, Vaishampayana, Kaushika, and Mandavyatharva?	Garga Gotra.
4405	The text mentions a specific lineage 'blemish' involving the marriage of a teacher's wife. Which scholar is associated with this entry?	Bhatt Bhushan of Mandi Marha Mul.
4406	Which historical figure's teacher, Shripati Upadhyaya, is mentioned as being of the Karimehe Mul?	Chaitanya Mahaprabhu.
4407	How many generations did Maharaja Mahesh Thakur decide should be avoided for marriage on the paternal side?	Seven generations.
4408	The Panji records identify specific 'Dushana' (blemishes) like 'Dasiputra' or 'Anyajitini'. What do these terms imply?	Lineages resulting from marriages with servant classes or outside the caste group.

4409	Which king is called the 'Karnat Chudamani' (Jewel of the Karnat dynasty) in the Panji verses?	King Harisimhadeva.
4410	In the context of Panji, what does 'Aswajanya' refer to?	Non-blood relatives or those outside the immediate sapinda circle.
4411	What is the 'Samuh-lekhyā' as described by Kumarila Bhatta?	A collective written registry to prevent the forgetting of ancestors and ensure lineage purity.
4412	Which Gotra includes the ancestors Kaundinya, Maitravaruna, and Vashistha (in some contexts mentioned as Kaundinya)?	Kaundinya Gotra.
4413	The Panji system classifies 'Shandilya' as a _____ Pravara Gotra.	Tripravara (three).
4414	The list of 20 Gotras includes 'Vishnuvridha'. Who are its associated ancestors?	Vishnuvridha, Kaitupuccha, and Trasadasyu.
4415	The Mul 'Sarisab' belongs to which Gotra?	Shandilya Gotra.
4416	What is the 'Vajasaneyi' branch of Maithil Brahmins?	Followers of the Madhyandina Shakha of the Shukla Yajurveda.
4417	According to the Panji system, what happens to a person's status if they are born from a 'Svajana' (forbidden relative) marriage?	They were traditionally considered outcasts or 'Chandal' and excluded from Aryan dignity.
4418	Which specific title was given to Modanand Jha for his expertise in the Panji system?	Panji Shastra Martand.
4419	The 'Shakha Panji' was ordered to be written by which Darbhanga King?	Maharaja Madhav Singh.
4420	How did Maharaja Madhav Singh change the Panji system?	He introduced Shakha Panjis and formalized the hierarchical divisions of Shrotriya, Yogya, and Panjibadh.
4421	Which Gotra is associated with the 'Oini' Mul?	Kashyapa Gotra.
4422	Which Mul is associated with the 'Budhwal' village and Kashyapa Gotra?	Budhwal Mul.
4423	The 15th Chhatth for a bride is the paternal grandfather of her _____.	Maternal grandmother's maternal grandmother.
4424	Who was the first 'Bijipurush' of the Mandi Mul?	Trilochan Bhatta.
4425	Which ancient philosopher is mentioned in the genealogy as an ancestor of the Mandi Mul (around 400 AD)?	Aryabhatta.
4426	What is the role of the 'Poddars' or 'Sodarpuriyas' in the Panji categories?	They represent specific branch lineages or Muls like Sodarpur.
4427	Which Vedic branch's marriage includes the viewing of the Arundhati star?	Chhandogya (Samavedi).
4428	The Gotra 'Alambukaksha' belongs to which Pravara category?	Tripravara (three).
4429	What is the meaning of 'Panji' in the context of Mithila genealogy?	A registered record of births and marriages within specific lineages.
4430	In what year of the Common Era was the Mithila Panji Prabandh system officially established?	1326 AD (corresponding to Shaka 1248).
4431	Which King of the Karnat dynasty is credited with the initiation of the Panji Prabandh?	Maharaja Harisimhadeva.
4432	What was the primary social purpose of the Panji Prabandh system?	To ensure genealogical purity and regulate marriage eligibility among Brahmins, Kayasthas, and Kshatriyas.
4433	What does the term 'Uderh' refer to in the context of Mithila genealogy?	The detailed identification of ancestors spanning seven generations (32 specific lineages).
4434	According to the Panji system, how many generations on the paternal side must be avoided to qualify for marriage?	Seven generations.
4435	According to the Panji system, how many generations on the maternal side must be avoided to qualify for marriage?	Five generations.
4436	How many distinct Gotras are recognized among Maithil Brahmins?	20
4437	Why is marriage prohibited between the Vatsa and Savarna Gotras despite their different names?	They are considered to share the same root ancestors.
4438	What is the 'Siddhanta Patra' (also known as Asvajana Patra)?	A formal certificate issued by a Panjikar verifying that a bride and groom are not related within prohibited degrees.
4439	Into which two broad geographical groups are Indian Brahmins divided based on the Vindhya mountains?	Panch Gaur (North) and Panch Dravid (South).
4440	To which of the five 'Gaur' Brahmin divisions do Maithil Brahmins belong?	Maithil.
4441	Maithil Brahmins who follow the Madhyandini branch of the Shukla Yajurveda are known as _____.	Vajasaneyi.
4442	What does 'Pravara' signify in Maithil Brahmin genealogy?	Descent from specific Rigvedic sages who composed hymns.
4443	How many generations are traced to determine 'Tri-pravara' status?	Three Rigvedic ancestors.
4444	How many generations are traced to determine 'Panch-pravara' status?	Five Rigvedic ancestors.
4445	The first known common ancestor of a 'Mool' is referred to as the _____.	Beeji Purush.

4446	How many 'Mools' (ancestral village lineages) were initially identified and recorded in the system?	167
4447	What are the four hierarchical categories of Maithil Brahmins defined by the Panji system?	Shrotriya, Yogya, Panjibaddh, and Jaibar.
4448	Which rank is awarded to families who maintain the highest standards of genealogy and conduct?	Shrotriya.
4449	Who were the 'Jaibar' Brahmins?	Those who were not initially recorded in the Panji registers during the initial survey.
4450	Which 7th-century scholar mentioned 'Samuha Lekhya' (collective written records) to preserve lineage?	Kumarila Bhatta.
4451	In the verification of marriage eligibility, how many 'Chadhva' (specific ancestral nodes) are examined?	16
4452	What is the matrimonial consequence of two people being 'Svajana'?	They are related within prohibited degrees and cannot marry.
4453	Which scholar was the first to be appointed as the Registrar (Panjkar) for Maithil Brahmins?	Gunakan Jha.
4454	Who was appointed by King Harisimhadeva to manage the genealogical records for the Karna Kayasthas?	Shankaradatta.
4455	How many Gotras exist within the Karna Kayastha community of Mithila?	One (Kashyap).
4456	When was the 'Sakha Panji' (branch records) introduced to further categorise the community?	During the reign of Maharaja Madhav Singh (around 1760 AD).
4457	In 'Vajasaneyi' marriages, which celestial object must be sighted before the final rituals are completed?	The star Arundhati (the system notes Chandog marriages follow this specifically after sunset).
4458	According to the mnemonic provided, what three things must a Panji book be protected from?	Water, oil, and loose binding.
4459	What astrological condition identifies the best time to sun-dry and preserve Panji manuscripts?	When the Sun enters the constellation of Leo (Sinha Rashi).
4460	What is the meaning of 'Sapinda' in the context of marriage laws?	Persons sharing common body particles through ancestral descent, typically making marriage prohibited.
4461	Which term describes the secondary rank of Brahmins, positioned below Shrotriyas in the hierarchy?	Yogya.
4462	What is the purpose of an 'Uderh Panji'?	To provide a six-generation ancestral history for the purpose of checking Sapinda relations.
4463	According to the text, marriage is prohibited with a girl if she is the daughter of the groom's _____.	Maternal uncle.
4464	How many distinct 'Mool-grams' were eventually reduced to 34 or 35 primary ones?	167
4465	The 'Laukiki' sub-classification is primarily used within which group of Maithil Brahmins?	Shrotriya.
4466	In which traditional script are the Panji records typically written?	Tirhuta (Maithilakshar).
4467	What is the 'Panji Prabandh' conceptually described as in the title of the document?	Genome Mapping (450 AD to 2009 AD).
4468	What defines the first 'Chadhva' in the 16-point check for a bride?	The Father's Paternal Great-Grandfather.
4469	Which scholar's revision of marriage rules allowed paternal side marriage after the seventh generation?	Maharaja Mahesh Thakur.
4470	What is the term for the original village associated with a lineage that is recorded alongside the current residence?	Mool Gram.
4471	The Chandog branch of Brahmins follows which specific Veda?	Samaveda.
4472	According to the 'Amarakosh' dictionary cited in the text, what are the three meanings of 'Gotra'?	Mountain, lineage, and name.
4473	Which Vedic branch's marriage ceremony includes a division into 'Purva Vivah' and 'Uttar Vivah'?	Chandog (Samavedi).
4474	How many 'Sakhas' (branches) are identified for the Mandar Mool of the Kashyap Gotra?	74
4475	What happens to the rank of a Shrotriya family if they marry into a lower-ranked lineage over several generations?	The rank declines (it is 'Adhogami' or downward moving).
4476	What is the 'Asvajana Patra' intended to prove for the groom?	That the bride is not a 'Svajana' (prohibited relative).
4477	Which group of Brahmins is geographically restricted to the region north of the Narmada/Vindhya?	Panch Gaur.
4478	Under the rule of Maharaja Madhav Singh, separate records were created for Shrotriyas, Yogya, and Panjibaddh called _____.	Sakha Panji.
4479	What is the significant marriage prohibition regarding the 'mother's brother' mentioned in Rule 4?	The groom cannot marry the daughter of his maternal uncle.
4480	How many generations are identified in the 'Uderh' to determine Sapinda status?	Seven generations on the father's side and five on the mother's side.
4481	What does the text claim is the 'Soul' (Pranadhara) of the Tirhuta script?	The Panji Prabandh records.

4482	What is the common term for the certificate of 'No Objection' for marriage in Mithila?	Siddhanta.
4483	The 10 Brahmin divisions (Panch Gaur and Panch Dravid) are collectively discussed in which type of Hindu literature?	The Puranas.
4484	In the Panji system, what does 'Tri-pravara' signify about one's ancestors?	That three ancestors were composers of Rigvedic hymns.
4485	Which ruler of the Karnata dynasty is credited with the formal institutionalisation of the Panji system in 1326 AD?	Maharaja Harisimhadeva.
4486	How many generations are prohibited for marriage on the maternal side under the Panji rules?	Five generations.
4487	What does the term 'Udebha' signify in Maithil genealogy?	A detailed introduction of ancestors spanning several generations (typically 32 lineages).
4488	Name the three primary social categories established for Maithil Brahmins after the Panji classification.	Srotriya, Yogya, and Panjibaddh.
4489	How many distinct Brahmin Gotras are identified in the Maithil Panji Prabandh?	20\$.
4490	What is the difference between a 'Tri-pravara' and a 'Panch-pravara' lineage?	Tri-pravara lineages claim three sage ancestors, while Panch-pravara claim five.
4491	What official document must a Panjikaar issue before a Maithil Brahmin marriage is considered valid?	The Siddhanta Patra (or Asvajana Patra).
4492	How many 'Mulas' (original ancestral village lineages) are recorded for Maithil Brahmins?	167\$.
4493	What is the consequence of a marriage that occurs within forbidden 'Svajana' (kin) relationships?	The marriage was historically declared invalid, and offspring were excluded from the community's high status.
4494	Which two main Vedas do Maithil Brahmins primarily follow?	Yajurveda and Samaveda.
4495	How many maternal generations do Srotriyas traditionally avoid before a marriage is permitted?	Five generations.
4496	In the Panji system, what does the 'Beeji Purusha' represent?	The earliest known common ancestor from whom a specific lineage or Mula originates.
4497	Maithil Brahmins are classified as part of which larger geographical grouping of Indian Brahmins?	The Panch Gauda.
4498	Why is marriage forbidden between individuals of the same Gotra?	They are considered to be of the same bloodline, descending from the same ancient sage.
4499	Who was appointed by King Harisimhadeva as the first Panjikaar for the Maithil Brahmin community?	Gunakar Jha.
4500	Name the person appointed as the first Panjikaar for the Karna Kayastha community.	Shankardatta.
4501	Who was the first Panjikaar for the Kshatriya (Rajput) community in Mithila?	Vijaydatta.
4502	Why is intermarriage prohibited between the Savarna and Vatsa Gotras?	They share common ancestors, effectively making them part of the same lineage.
4503	The 'Panch Gauda' and 'Panch Dravida' Brahmins are geographically separated by which mountain range?	The Vindhyaachal Mountains.
4504	Which specific 'Mula' is associated with the later emergence of the high-status Khadaura branch?	Phandah Mula.
4505	How many specific ancestral points are verified under the 'Chhadwith' rules for marriage?	16\$.
4506	How many Srotriya Panjis are currently documented in the system?	32\$.
4507	What is the total number of Panjis for the Yogya and Panjibaddh Brahmin categories?	153\$.
4508	Maithil Brahmins who follow the Madhyandina branch of the Yajurveda are called _____.	Vajasaneyi.
4509	Brahmins following the Kauthuma branch of the Samaveda in Mithila are known as _____.	Chandoga (or Chhandogya).
4510	How do marriage traditions differ between Chandoga and Vajasaneyi Brahmins regarding sunset?	Chandoga marriages include an 'Uttara Vivaha' performed after sunset following the sighting of the Arundhati star.
4511	What is the only Gotra found within the Karna Kayastha community of Mithila?	Kashyapa.
4512	What is the specific purpose of a 'Dushana Panji'?	To record flaws, deviations, or socially prohibited marriages within a lineage.
4513	Which type of Panji record tracks the branches of a family across different villages and centuries?	Sakha Panji.
4514	Non-Srotriya Brahmins (Yogya and Panjibaddh) are collectively referred to by what name in Panji terminology?	Pachhwari Paat.
4515	According to the mnemonic 'Jalat Rakshe Tailat Rakshe', name one element Panji books must be protected from.	Water (or oil/loose binding).
4516	What is the ideal time to dry and preserve Panji manuscripts according to traditional rules?	When the Sun is in the Leo (Simha) constellation.

4517	In which 7 th -century philosophical text is the concept of 'Samuha Lekhya' (family records) first mentioned?	Tantravarttika by Kumarila Bhatta.
4518	Name one of the primary sage ancestors of the Shandilya Gotra.	Sandilya (or Asit/Deval).
4519	The Panji system allows researchers to track the family tree of which famous poet for seven generations before his birth?	Vidyapati Thakur.
4520	What historical event involving Pandit Harinath Upadhyaya led to the formalisation of the Panji system?	He unknowingly married a close relative due to a lack of genealogical records.
4521	In which script are the traditional Panji manuscripts of Mithila written?	Tirhuta (also known as Mithilakshar).
4522	The term 'Mula Grama' in the Panji system identifies what piece of information?	The original village where a specific lineage branch was established.
4523	How many ancestors are traced in a '32-mula udebha' to check for marriage eligibility?	16\$ maternal and 16\$ paternal ancestors.
4524	Into which two Pravara categories are Maithil Gotras divided?	Tri-pravara and Panch-pravara.
4525	What is the status of those individuals who could not verify their lineages when the Panji system was created?	They were classified as Jayebar (or Jaibar).
4526	The Vatsa Gotra identifies with which Pravara category?	Panch-pravara.
4527	How many main 'Mula' villages were initially identified out of the 167\$ recorded?	34\$ (later 35\$).
4528	Which ruler introduced the 'Sakha Panji' system to map extended family branches?	Maharaja Madhav Singh.
4529	In Maithil Brahmin society, what determines a person's 'Mula'?	The ancestral village of their earliest recorded forefather (Beeji Purusha).
4530	The 'Chhadwith' verification includes tracing the ancestors of the maternal grandmother. True or False?	True.
4531	What is the significance of the Shaka year 1248\$ in Mithila?	It is the year (1326\$ AD) when the Panji Prabandh was formally established.
4532	What is the literal meaning of 'Asvajana' in the context of marriage certificates?	Non-kin or unrelated.
4533	Which Gotra does the 'Ekahara' Mula belong to?	Bharadwaj.
4534	The 'Oini' Mula belongs to which specific Gotra?	Kashyapa.
4535	What is the primary role of the 'Pravara' in Vedic rituals?	To identify the specific group of sages associated with one's Gotra during invocations.
4536	Why is the Tirhuta script considered dependent on the Panji system for its survival?	Because the genealogical records are the only massive corpus of texts still traditionally written in this script.
4537	The Panji records for Kshatriyas in Mithila primarily track which social group?	Rajput lineages (such as Gandhavariya).
4538	Name one of the sage ancestors of the Bharadwaj Gotra.	Bharadwaj (or Angiras/Barhaspatya).
4539	Which type of Panji focuses on mapping the migration of families to different regions?	Sakha Panji.
4540	According to the source, why were regional divisions like Utkala and Maithil created among Brahmins?	Due to regional influences on climate, diet, language, and local customs.
4541	What is the prohibited paternal generation limit for marriage in the Panji system?	The couple must not share a common ancestor within seven generations.
4542	Is marriage permitted between individuals from different Mulas if they share the same Gotra?	No, shared Gotra indicates common ancestry and is a bar to marriage.
4543	The 'Mandir' Mula is associated with which Brahmin Gotra?	Kashyapa.
4544	Which Gotra is linked to the 'Sarisab' and 'Mahua' Mulas?	Shandilya.
4545	How many hierarchical levels (Chaurals) exist in the classification of Shrotriya Panjis?	Eight.
4546	The 'Kaushika' Gotra is associated with which ancient sage?	Vishvamitra.
4547	A Maithil marriage is considered valid only after a Panjekar confirms the couple are not ____.	Sapinda (related within prohibited degrees).
4548	What is the significance of 'Beeji Purusha' in a family's genealogy?	He is the root ancestor from whom all verified members of a Mula descend.
4549	What is the status of 'Srotriya' Brahmins in the Maithil social structure?	They are the highest hierarchical group within the Maithil Brahmin community.
4550	Which King of the Karnata dynasty oversaw the mass collection of genealogical data from every Maithil family?	Maharaja Harisimhadeva.
4551	Traditional Panji manuscripts are preserved on which material?	Palm leaves (Talapatra) or handmade paper.
4552	What does a 'Sakha Panji' list regarding family members?	It provides a comprehensive family tree including titles, education, and maternal lineages.
4553	One of the 16 'Chhadwith' points is the Paternal Grandfather's Maternal Grandfather. True or False?	True.
4554	Why is the period of 'Leo' (Simha) chosen for sun-drying Panji manuscripts?	The intense heat during this time effectively eliminates pests and preserves the ink.

4555	The Karna Kayasthas of Mithila strictly follow the rules of which system for marriage alliances?	The Panji Prabandh.
4556	What is the collective term for the five northern Brahmin groups, including Maithils?	Panch Gauda.
4557	In which year was the Panji Prabandh (genealogical management system) formally initiated in Mithila?	1326 AD (Saka 1248).
4558	Which king of the Karnata dynasty is credited with the inspiration and initiation of the Maithil Panji system?	Maharaja Harisimhadeva.
4559	How many total 'Gotras' are recognized among the Maithil Brahmins according to the source?	20
4560	Name the three Gotras that belong to the 'Panch-Pravar' (five-ancestor) category.	Vatsa, Savarna, and Bharadwaj.
4561	The introduction of 32 specific ancestors required for marriage eligibility is known as ____.	Udegh.
4562	What are the two major Vedic branches (Shakhas) followed by Maithil Brahmins?	Madhyandina Shakha of Yajurveda and Kauthuma Shakha of Samaveda.
4563	According to Smriti rules mentioned in the text, how many generations must be avoided for marriage on the paternal side?	Seven generations (later modified to six in practice).
4564	How many generations must be avoided for marriage on the maternal side in the Maithil system?	Five generations.
4565	The certificate issued by a Panjekar confirming that a bride and groom are not 'Swajana' (related) is called a ____.	Siddhanta Patra (or Aswajan-patra).
4566	Who was the first scholar appointed by King Harisimhadeva to manage the Panji records for Maithil Brahmins?	Pandit Gunakar Jha.
4567	What is a 'Moolgram' in the context of the Panji system?	The original ancestral village from which a specific family lineage or 'Mool' originated.
4568	How many 'Mools' (original root families) were initially identified for the Maithil Brahmin community?	167
4569	Name the four essential sacraments (Samskaras) for the Chhandogya group as per the source.	Namakarana, Chudakarana, Upanayana, and Samavartana.
4570	Which category of Maithil Brahmins was historically considered the highest in social rank within the Panji system?	Shrotriya.
4571	What distinguishes the 'Panjibaddh' category from the 'Jaywar' category?	Panjibaddh families have their names recorded in the genealogical registers, whereas Jaywar families do not.
4572	The 'Chhadwit' refers to sixteen specific ____ that must be checked to determine marriage eligibility.	Ancestral relations (points of lineage).
4573	In the Panji system, the first 'Chhadwit' is defined as the daughter of the paternal great-grandfather's ____.	Great-grandfather (Vridhdha-prapitamaha).
4574	Which historical script is primarily used to write and maintain the Panji records?	Tirhuta (Mithilakshara).
4575	Concept: Tri-Pravar	A classification of Gotras whose ancestors are credited with composing three specific hymns of the Rigveda.
4576	Which Gotra includes the Mools 'Sarisab', 'Mahua', and 'Pali'?	Sandilya.
4577	Name the King of Darbhanga who ordered the creation of 'Shakha Panjis' in the late 18th century.	Maharaja Madhav Singh.
4578	Which professional group in Mithila also maintains a Panji system similar to the Brahmins?	Karna Kayasthas.
4579	According to the source, why did Maithil Brahmins diverge into distinct regional sub-groups?	Due to geographical isolation, distinct climates, and regional cultural influences like language and diet.
4580	The 'Pancha Gauda' category of Brahmins includes Utkala, Kanyakubja, Gauda, Maithil, and ____.	Saraswat.
4581	The boundary dividing the 'Pancha Gauda' from the 'Pancha Dravida' Brahmins is the ____ mountain range.	Vindhyachal.
4582	Which scholar's 'Tantra Vartika' is cited as the earliest reference to 'Samuha Lekhya' (family records)?	Kumarila Bhatta.
4583	What is the unique characteristic of 'Vatsa' and 'Savarna' Gotras regarding marriage?	Marriage between them is prohibited as they share the same ancestors (Pravar).
4584	How does the Panji record distinguish between the 'Purbari' and 'Pachhabari' groups?	It refers to the Eastern (Purbari) and Western (Pachhabari) lineages, often used to classify Shrotriyas and others.
4585	What is 'Laukika' in the context of Shrotriya genealogy?	A specific record or status marker within the Shrotriya Panji classifications.
4586	How does a 'Mool' differ from a 'Gotra'?	A Gotra is a broad ancestral clan (Rishi-based), while a Mool is a specific family branch tied to an original village.
4587	Under what sun sign should the Panji books be dried to preserve them from insects and moisture?	Leo (Simha Rashi), usually between mid-August and mid-September.
4588	According to the 'Principles for Preservation', what three things must Panji books be protected from?	Water, oil, and loose binding.
4589	Which category of marriage restriction ensures that the bride is not a 'Sapinda' of the groom's mother or father?	Asapinda marriage rule.

4590	The source mentions that Maharaja Harisimhadeva's Panji records initially included Brahmins, Kayasthas, and _____.	Kshatriyas (Rajputs).
4591	Why did the Panji system fall out of use among the Kshatriya community in Mithila?	Due to the passage of time and the loss of systematic record-keeping.
4592	The 'Sripurusha' rule states that marriage is invalid if the bride and groom meet within _____ generations on the paternal side.	Six (as per षट्पञ्चमः/षट्पञ्चमः/modified rules).
4593	Name one of the 'Mukhya' (main) 34 Mools listed in the text.	Examples include Khadaure, Khauare, or Budhabare.
4594	The text refers to the Panji system as an ancient form of _____ Mapping.	Genome.
4595	Identify the Gotra of a family belonging to the 'Oini' Mool.	Kashyap.
4596	Which specific ancestor is the 'Biji' of the Mandar Mool?	Trivikram Bhatta.
4597	What is the significance of the year 1248 Saka in Mithila's history?	It marks the formal systematisation of the Panji records.
4598	The Panji records capture lineage data spanning from 450 AD to _____ AD.	2009
4599	How many main 'Pravaras' are associated with the 'Sandilya' Gotra?	Three (Sandilya, Asit, and Deval).
4600	Which Sanskrit dictionary defines 'Gotra' as having eleven meanings, including 'mountain' and 'lineage'?	Vachaspatya.
4601	The Panji category comprising the lowest level of records, often lacking detailed historical data, is _____.	Jaywar.
4602	True or False: A Panjekar is allowed to charge arbitrary fees for a Siddhanta.	False; the text describes excessive fees as unethical and suggests the Panjekar should be a cultural guardian.
4603	Which scholar is noted as the 'Panji Shastra Martand' and a primary authority in Darbhanga?	Modanand Jha.
4604	The document identifies the 'Biji Purusha' of the Simhashram Mool as _____.	Mahamahopadhyaya Halayudha.
4605	According to the Panji theory, what happened to a person who married a 'Swajana' (blood relative) in ancient times?	They were treated as outcastes (Chandal) and excluded from Aryan social rites.
4606	What is the purpose of 'Upa-Teep' in the Panji records?	It serves as a supplementary or sub-register for specific family branches.
4607	The term for a Brahmin family whose names are newly added to the Panji system is _____.	Panjibaddh.
4608	Which Gotra does the 'Babhanyama' Mool belong to?	Vatsa (or occasionally Katyayana depending on the branch).
4609	How many generations of 'Chhadwit' must be clear for marriage on the maternal grandfather's side?	Six generations (the bride must be at the sixth position or further).
4610	Who was the Maithil scholar known for his 'Smritisara' who accidentally married a close relative due to lack of records?	Pandit Harinath Upadhyaya.
4611	What is the historical time span covered by the Mithila Panji management system?	The system covers the period from \$450\$ AD to \$2009\$ AD.
4612	What was the primary purpose of the 'Panji Prabandh' when it was established in the medieval period?	It was created to maintain caste purity for Brahmins, Kayasthas, and Kshatriyas.
4613	What information constitutes the 'Udegh' of a Brahmin in the Panji system?	The introduction of seven generations of ancestors.
4614	How many ancestral 'Kulas' (lineages) must be introduced to verify marriage eligibility in the Panji system?	Thirty-two lineages.
4615	According to the Panji rules for the Shrotriya category, how many generations must be avoided for marriage on the maternal side?	Five generations.
4616	According to the Panji rules for the Shrotriya category, how many generations must be avoided for marriage on the paternal side?	Seven generations.
4617	How many specific 'Gotras' are identified within the Maithil Brahmin community?	Twenty Gotras.
4618	How many 'Mool-grams' (original villages) were initially identified within the Maithil Brahmin Panji?	One hundred and sixty-seven.
4619	Which king of the Karnata dynasty is credited with the formalisation of the Panji Prabandh in Mithila?	Maharaja Harisimhadeva.
4620	In which year (\$AD\$) was the formal Panji system established under royal decree?	\$1326\$ AD (Saka era \$1248\$).
4621	Who was the first 'Panjekar' (registrar) appointed by Maharaja Harisimhadeva for Maithil Brahmins?	Gunakar Jha.
4622	Maithil Brahmins who followed the Samaveda Kauthuma branch were traditionally known by what term?	Chhandoga.
4623	Maithil Brahmins following the Shukla Yajurveda Madhyandina branch are referred to as _____.	Vajasaneyi
4624	Which philosopher's 'Tantra Vartika' mentions the 'Samuha Lekhya' (collective records) of lineages as early as the \$7\$th century?	Kumarila Bhatta.

4625	The 'Pancha Gauda' group of Brahmins includes Utkala, Kanyakubja, Gauda, Saraswat, and _____.	Maithil
4626	What is the geographical dividing line between the 'Pancha Gauda' and 'Pancha Dravida' Brahmin groups?	The Vindhyachal mountains.
4627	In the Maithil Brahmin hierarchy, which category is considered the highest following the reforms of Maharaja Madhav Singh?	Shrotriya.
4628	What is a 'Siddhanta Patra' (or Ashvajana Patra) in the context of Mithila marriage customs?	A formal certificate from a Panjika confirming that the bride and groom are not closely related.
4629	How does the 'Pravara' of a Brahmin differ from their 'Gotra'?	Gotra refers to a specific sage ancestor, while Pravara refers to the illustrious ancestors who composed Vedic hymns.
4630	What determines whether a Brahmin lineage is 'Tri-pravara' or 'Panch-pravara'?	The number of ancestors (three or five) who were composers of Rigvedic hymns.
4631	Which two Gotras in Maithil Brahmins cannot intermarry because they share the same ancestors despite having different names?	Vatsa and Savarna.
4632	What are the three main ancestors associated with the Shandilya Gotra?	Shandilya, Asita, and Devala.
4633	Who were the five ancestors identified in the Vatsa Gotra's Pravara?	Aurva, Chyavana, Bhargava, Jamadagnya, and Apnavana.
4634	Which registrar was appointed by Maharaja Harisimhadeva to manage the records of the Karna Kayasthas?	Shankardatt.
4635	Who was the first registrar appointed for the records of the Kshatriya community in Mithila?	Vijayadatt.
4636	The 'Biji Purusha' in a Panji record refers to which individual?	The earliest known progenitor or founder of a specific lineage.
4637	What is the specific social significance of the 'Dushana Panji'?	It records historical 'defects' or social lapses within a lineage to preserve record accuracy.
4638	Maithil Brahmin society is 'Pitru Pradhana', meaning the Gotra is determined by which parent?	The father.
4639	In the Chhandoga (Samavedic) marriage ritual, what is the significance of the 'Uttara Vivaha'?	It is a ritual performed after sunset following the sighting of the star Arundhati.
4640	Under the rules of Maharaja Mahesh Thakur, marriage is permitted in the paternal line starting from which generation?	The seventh generation.
4641	Concept: Mool	Definition: The ancestral village or original seat of a family used to distinguish lineages within the same Gotra.
4642	What was the consequence in ancient times for a person who married a 'Swajana' (close relative prohibited by Panji rules)?	They were treated as outcastes (Chandal) and excluded from the Aryan social order.
4643	The 'Laukika' refers to the specialised Panji records belonging to which specific Maithil Brahmin category?	Shrotriya.
4644	Which script was traditionally used to maintain and write the Panji records in Mithila?	Tirhuta (Mithilakshar).
4645	Why is it traditionally advised to dry Panji books when the Sun is in the Leo (Simha) constellation?	This period provides the most intense heat required to preserve the palm leaves from pests and moisture.
4646	What is 'Sakha Panji', and when did it start?	It is a branch-specific genealogy record introduced around the time of Maharaja Madhav Singh (\$1760 AD).
4647	Which Gotra is exclusively found among the Karna Kayasthas of Mithila?	Kashyapa.
4648	What is the term for Maithil Brahmins who were not formally recorded in the Panji at the time of its management?	Jaywar.
4649	In the context of Panji preservation, what do the terms 'Jalat Raksha' and 'Tailat Raksha' signify?	The instruction to protect the manuscripts from water and oil.
4650	What unique information does the 'Udegh Panji' include regarding women?	In certain sections, it includes the names of the female ancestors (Strinamaka).
4651	According to the source, the Panji records function similarly to which modern scientific process?	Genome Mapping.
4652	What is the primary difference between the Upanayana (thread ceremony) of Chhandoga and Vajasaneyi Brahmins?	Chhandogas have four main sanskars (including Namakarana), while Vajasaneyis have four that include Vedarmbha.
4653	Which historical Maithil poet's lineage can be traced for over seven generations using the Panji records?	Vidyapati Thakur.
4654	How does the Panji record instances of social mobility, such as inter-caste marriages or marriages with 'Devadasis'?	It documents these events honestly in the 'Dushana' or 'Udegh' sections to track lineage purity changes over generations.
4655	Which Maithil Brahmin category is historically referred to as 'Pachhwari-par'?	The non-Shrotriya Brahmins (Yogya and Panjibaddh).
4656	What does the term 'Bhalmanusi' refer to in the Panji system?	The social status or 'quality' assigned to a lineage based on its ancestral conduct and marriage ties.
4657	How many main 'Mools' were categorised as 'Ayanth Shrestha' (first class) in the medieval era?	Thirteen.
4658	The 'Madhyam Mool' category in Maithil Brahmins includes Dighwe, Belonche, and _____.	Panchobhe
4659	What role does the 'Panchaditya' play in the history of the Panji?	It refers to the elite five-family council that initially helped govern Panji laws.

4660	In the rules of marriage eligibility, what is the term 'Chhadvith'?	It refers to the sixteen specific ancestral points (sixth generation markers) used to check for relatedness.
4661	If a bride's 'Chhadvith' ancestor appears in the groom's paternal line, is the marriage allowed?	No, it is prohibited.
4662	Under what condition is a 'Chhadvith' ancestor appearing in the groom's lineage permitted for marriage?	If the ancestor appears only in the groom's maternal line (after the 5th generation).
4663	Which Maithil scholar was awarded the title 'Panji Shastra Martanda' by Maharaja Kameshwar Singh?	Modanand Jha.
4664	What material was used for the oldest extant Panji records, such as those from the 17th century?	Palm leaves (Talpatra).
4665	Why is the Maithil Panji system considered 'unparalleled' in the world according to the source?	Because it contains a continuous and comprehensive genealogical web of a whole community spanning over 1000 years.
4666	What does 'Ansh' mean in the context of the Panji records?	The numerical grade or status point assigned to a specific lineage within a hierarchy.
4667	Which Gotra includes the Mools of Khardore, Khauare, and Sodarpur?	Shandilya.
4668	During which historical period was the Panji system formally organised in Mithila?	The late medieval period, specifically the early 14th century (c. 1326 AD).
4669	Which historical ruler is credited with the formal initiation and patronage of the Panji records?	Maharaja Harisimhadeva of the Karnat dynasty.
4670	In the context of Panji, what does the term 'Uteh' represent?	A genealogical introduction spanning 32 ancestral lines (paternal and maternal) required for marriage eligibility.
4671	According to the marriage rules in the Panji system, how many paternal generations must be avoided for a marriage to be valid?	Seven generations.
4672	For Shrotriya Brahmins, how many maternal generations must be avoided for marriage eligibility?	Five generations.
4673	What are the four categories into which Maithil Brahmins were divided under the Panji system?	Shrotriya, Yogya, Panjibaddha, and Jaybar.
4674	What happened to individuals categorized as 'Jaybar' in the Panji system?	They were those who were not formally recorded in the genealogical registers (Panjis).
4675	How many primary Gotras are traditionally recognized among Maithil Brahmins according to the source material?	Twenty (20) Gotras.
4676	Name the two major Vedic branches (Shakhas) followed by Maithil Brahmins.	Yajurveda (Madhyandina Shakha) and Samaveda (Kauthuma Shakha).
4677	Maithil Brahmins following the Yajurveda branch are commonly referred to as _____.	Vajasaneyi
4678	Maithil Brahmins following the Samaveda branch are commonly referred to as _____.	Chhandog
4679	What is the primary difference in marriage rituals between Chhandog and Vajasaneyi Brahmins regarding timing?	Chhandog marriages include a division into 'Purva' and 'Uttar' (post-sunset) rites, whereas Vajasaneyi rites have no such time restriction.
4680	In the Panji system, what does the term 'Beeji Purush' signify?	The earliest known common ancestor or founder of a specific lineage (Mool).
4681	What triggered the need for formalised Panji records in the 14th century?	The marriage of scholar Pandit Harinath Upadhyay to his first cousin due to a lack of genealogical knowledge.
4682	What is the specific year (in the Shaka era) associated with the establishment of the Panji Prabandh?	Shaka 1248 (corresponding to 1326 AD).
4683	What is a 'Siddhanta Patra' (or Aswajana Patra)?	A formal certificate of marriage eligibility issued by a Panjkar confirming that the bride and groom are not prohibited relatives.
4684	Who was the first official Panjkar (registrar) appointed for Maithil Brahmins by King Harisimhadeva?	Sadupadhyaya Gunakar Jha.
4685	Who was the official Panjkar appointed for the Karna Kayastha community by King Harisimhadeva?	Shankardatta
4686	Which Panjkar was appointed for the Kshatriya (Rajput) community during the reign of Harisimhadeva?	Vijayadatta
4687	What is the 'Mool' of a person in the Panji system?	The ancestral village or place of origin of their lineage.
4688	Define 'Pravara' in the context of Maithil Brahmin genealogy.	A lineage of Rishi ancestors associated with a Gotra who were composers of Vedic hymns.
4689	Which three Gotras are categorized as 'Pancha-Pravara' (having five ancestral Rishis)?	Vatsa, Savarna, and Bharadwaj (though the text also lists Gargya).
4690	Identify the three Rishi ancestors associated with the Shandilya Gotra.	Shandilya, Asita, and Devala.
4691	Identify the three Rishi ancestors associated with the Kashyap Gotra.	Kashyap, Avatsar, and Naidhruva.
4692	In the Panji system, what are 'Moolgrams'?	The original villages from which various branches of a lineage dispersed.
4693	How many primary 'Mool' (roots) were initially identified for the 167 village-based groups?	Thirty-four (34), which later expanded to thirty-five (35) with the inclusion of the Khanama branch.

4694	What does 'Chhadwith' refer to in marriage eligibility checks?	The determination that a person is at least in the 'sixth place' (generation) of distance from a common ancestor to avoid prohibited sapinda relations.
4695	How many specific 'Chhadwith' points (ancestral relations) are checked by a Panjkar for a bride?	Sixteen (16).
4696	What is the 'Dooshan Panji'?	A record of deviations, 'defects', or breaches in social/caste norms within a lineage.
4697	Under which ruler was the 'Shakha Panji' (branch records) introduced to further classify the community into Shrotriya and other ranks?	Maharaja Madhava Singh (c. 1760 AD).
4698	The Gotra of Karna Kayasthas in Mithila is exclusively _____.	Kashyap
4699	Why are Panji records dried during the month when the Sun enters Leo (August/September)?	Because the intense heat of that season is most effective for preserving the palm leaves from damp and pests.
4700	What was the significance of Kumarila Bhatta's 'Samuha Lekhya' mentioned in the 7th century?	It is the earliest reference to collective written records maintained by noble families to preserve their lineage history.
4701	The Panji system classifies Brahmin villages into three grades of 'Ayan-Shrestha' (Excellent Roots). Name the first grade.	First grade includes villages like Khardaur, Khauar, Budhabal, Madariya, and Darihar.
4702	In 'Tri-pravara', how many Vedic Rishi ancestors are cited?	Three.
4703	In 'Pancha-pravara', how many Vedic Rishi ancestors are cited?	Five.
4704	Define 'Sapinda' as used in the source material for marriage restrictions.	Blood relatives within prohibited degrees of kinship, typically determined through paternal and maternal lineage counts.
4705	Who was the Panjkar who received the 'Panji Shastra Martand' title from the Maithili Academy?	Modanand Jha.
4706	The Panji records identify lineages of the famous poet Vidyapati. How many generations are recorded between him and his ancestor Tirthayibhatta?	Seven generations.
4707	What does the 'Ghataka' or 'Panjkar' check before issuing a marriage permit?	They verify the 32 mools (ancestral lines) of both parties to ensure no overlap within prohibited degrees.
4708	According to the source, why did Panji records eventually stop being maintained for Kshatriyas (Rajputs)?	Over time, the practice fell into disuse, and they began relying on avoiding the family village (Gram) as a simple marriage rule instead.
4709	Which Gotra includes Rishis like Shakti, Vashistha, and Parashar?	Parashar Gotra.
4710	Which Gotra includes Rishis like Bharadwaj, Angiras, and Barhaspatya?	Bharadwaj Gotra.
4711	Which Gotra includes Rishis like Vishwamitra, Atri, and Jamadagni?	Kaushik Gotra.
4712	What is a 'Mool-Gotra Panji'?	A register that correlates ancestral roots (Mools) with their corresponding Gotras.
4713	The first Chhadwith point for a bride is the _____.	Paternal Great-great-grandfather (Vridha Prapitamaha).
4714	The ninth Chhadwith point for a bride is the _____.	Maternal Great-great-grandfather (Matamaha Prapitamaha).
4715	What is the social consequence mentioned for 'Swajana' marriages (marrying prohibited relatives)?	The offspring were traditionally considered 'Chandal' and excluded from the high-caste Aryan social fold.
4716	Which group of Maithil Brahmins is referred to as 'Pachhwari Paat'?	The non-Shrotriya Brahmins, including Yogya and Panjibaddha ranks.
4717	How many total Panji registers exist for the 'Yogya' and 'Panjibaddha' categories?	One hundred and fifty-three (153).
4718	According to the source, what is the role of a Panjkar towards the future generation?	To prepare and train students/disciples to ensure the continuity of genealogical expertise and record-keeping.
4719	The term used for the 'Genome Mapping' of Mithila in the title refers to the _____.	Panji Prabandh
4720	In the Panji system, individuals who share the same Gotra but have different Mools are _____ to marry.	Prohibited (due to Gotra-exogamy rules).
4721	What is recorded in the 'Patra Panji'?	Details regarding the specific lineages and villages associated with current residents.
4722	Which Maithil Brahmin ancestor is cited as the founder of the 'Mandir' Mool of the Kashyap Gotra?	Tirthayibhatta
4723	Identify the Gotra associated with the Rishi 'Gautama'.	Gautama Gotra.
4724	Identify the Gotra associated with the Rishis 'Katyayana', 'Vishnu', and 'Angiras'.	Katyayana Gotra.
4725	What is the 'Upanayana' rite difference for Samavedi (Chhandog) Brahmins?	It involves four specific Sanskaras: Namakarana, Chudakarana, Upanayana, and Samavartana.
4726	What additional rite is included in the Upanayana of Yajurvedi (Vajasanevi) Brahmins compared to Samavedis?	Vedarambha (the start of Vedic study).
4727	How did the Panjkar 'Modanand Jha' receive his records?	He was the 18th generation descendant of the original Panjkar Gunakar Jha.
4728	What is the primary material traditionally used for writing Panji records?	Palm leaves (Talpatra).

4729	Which Sanskrit verse is taught to Panji students to warn about book preservation?	\$Jalat Raksha Tailat Raksha Raksha Shithila Bandhanat\$ (Protect from water, oil, and loose binding).
4730	What does the 'Adhikara' (Right) investigation determine?	Whether a specific bride and groom have the legal and religious right to marry based on their ancestry.
4731	In the classification of Panji, what is 'Asawajanyapatra'?	A specific type of Siddhanta or clearance document.
4732	Which king's arrival in Mithila is marked by the Shaka year 1019 in the introductory verses?	Nanyadeva
4733	What was the rank of the first official Panjika, Gunakar Jha?	Sadupadhyaya
4734	How many Rajput clans are mentioned in the 'Varna Ratnakara' in relation to Mithila's genealogy?	Seventy-two (72) clans, with sixty-four (64) specifically described.
4735	The 'Pancha Gauda' Brahmins include Maithil, Saraswat, Kanyakubja, Gauda, and _____.	Utkal
4736	The 'Pancha Dravida' Brahmins are separated from the 'Pancha Gauda' by which geographical feature?	The Vindhya Mountains.
4737	What is the significance of the 35th Mool, the 'Khanama' branch of the Phandah Mool?	It was added in later periods as a branch that attained high social status.
4738	Identify the Gotra associated with 'Vishnuvridha', 'Kautipuchha', and 'Trasadasyu'.	Vishnuvridha Gotra.
4739	Identify the Gotra associated with 'Maudgalya', 'Angiras', and 'Barhaspatya'.	Maudgalya Gotra.
4740	What does the term 'An-Siddhanta' refer to in modern Panji usage?	The request for a Siddhanta Patra to be written in the Devanagari script for easier reading by the general public.
4741	Which historical era is used for most dates in the Panji registers?	Shaka Era (Shaka Samvat).
4742	True or False: The Panji system allows for marriage if the maternal grandmother's line overlaps within 4 generations.	False (The maternal line typically requires a 5-6 generation gap).
4743	In the lists of 'Excellent Roots' (Ayan-Shrestha), name three villages from the second category.	Bambholiban, Parabali-ban, and Kujoli-ban.
4744	What is the 'Beeji' of the 'Ghoghi-Sam' lineage?	Awasthika Supananda.
4745	What is the 'Beeji' of the 'Sodarpur' lineage?	Mahamahopadhyaya Halayudha.
4746	Who was the 'Beeji' of the 'Simhasram' Mool?	Mahamahopadhyaya Halayudha.
4747	Which Gotra corresponds to the 'Basaha' Mool?	Gargya Gotra.
4748	In which historical period was the Panji Prabandh system created for the purity of Brahmin, Kayastha, and Kshatriya castes?	The Early Medieval period.
4749	What does the term 'Uteh' (or Udehadh) represent in the context of Mithila genealogy?	The introduction and record of seven generations of ancestors.
4750	How many total ancestral 'kulas' (lineages) are required for a complete 'Uteh' introduction?	Thirty-two.
4751	Into which three main categories were Maithil Brahmins divided following the implementation of the Panji system?	Srotiya, Yogya, and Panjibaddh.
4752	What is the term for Brahmins who were not formally registered in the Panji records?	Jaibar.
4753	How many 'Gotras' are recognized within the Maithil Brahmin community according to the source?	Twenty.
4754	How many 'Mulas' (root villages) are traditionally identified in the Panji system?	One hundred and sixty-seven.
4755	Out of the 167 total Mulas, how many are considered 'Mukhya' (primary) Mulas?	Thirty-four (later expanded to 35).
4756	List the three Gotras that belong to the 'Pancha-pravara' (five ancestor) category.	Vatsa, Savarna, and Bharadwaj (though the text specifically lists Vatsa, Savarna, and Garga as primary examples).
4757	Which historical ruler of the Karnat dynasty is credited with the formal establishment of the Panji system in 1326 AD?	Maharaja Harisimhadeva.
4758	What is the specific year in the Shaka calendar when the Panji system was reportedly established?	Saka 1248.
4759	Who was the first person appointed by Harisimhadeva to manage the Panji records for Maithil Brahmins?	Gunakar Jha.
4760	What is the name of the professional genealogist responsible for verifying marriage eligibility in Mithila?	Panjika.
4761	The certificate issued by a Panjika confirming that a bride and groom are not related is known as _____.	Siddhanta Patra (or Asvajana Patra).
4762	What is a 'Beeji Purusha' in Maithil genealogical terms?	The earliest known ancestor or progenitor of a specific lineage.
4763	Which Brahmin category is considered the highest in the social hierarchy of Mithila?	Srotiya.
4764	Into how many 'Chaukis' (grades) is the Srotiya classification further divided?	Eight.
4765	How does the 'Vajasaneyi' marriage ceremony timing differ from the 'Chhandoga' tradition?	Vajasaneyi ceremonies can occur during the day or night, while Chhandoga ceremonies must view the stars (Arundhati) after sunset.

4766	The list of 16 specific ancestral relations that must be checked to ensure 'non-kinship' is called ____.	Chhadwith.
4767	What is the term for the 'paternal grandfather of the maternal grandmother' in the Chhadwith calculation?	The 13th Chhadwith.
4768	Which Maithil King initiated the 'Shakha Panji' (branch records) to distinguish between higher and lower social ranks?	Maharaja Madhav Singh.
4769	In the context of Panji, what does the 'Dushana' record track?	Social or lineage blemishes/faults occurring in a family history.
4770	Maithil Brahmins are considered a subset of which broader group of North Indian Brahmins?	Pancha Gauda.
4771	How many ancestors are invoked in a 'Tri-pravara' lineage?	Three.
4772	The specific Mula of 'Pandua' belongs to which Gotra?	Kashyapa.
4773	The Mula 'Ere' belongs to which Gotra?	Vatsa.
4774	What is the significance of 'Samuha Lekhya' mentioned by Kumarila Bhatta in the 7th century?	It is an early written record of family lineages used to preserve caste purity.
4775	Which religious text author is cited as the authority for the rules of 'Sapinda' marriage restrictions?	Yajnavalkya (and Manu).
4776	In the Panji system, what happens if a person marries a 'Svajana' (forbidden relative)?	The offspring are traditionally considered outcasts ('Chandala' status) and the family loses social standing.
4777	The 'Ayanthi Shrestha' category refers to which grade of Mulas?	The first or highest grade.
4778	Name one Mula that belongs to the 'Madhyama' (Middle) grade.	Dighwe (or Belaunch, Panchobhe, etc.).
4779	What is the role of 'Asvajana Patra' in a Maithil wedding?	It serves as the formal permission from a Panjekar to proceed with the marriage ritual.
4780	Under whose reign was the 'Srotiya' classification solidified through the creation of 'Laukik' records?	Maharaja Madhav Singh.
4781	Which ancient scholar's 'Tantra Vartika' mentions the tradition of maintaining written lineage records?	Kumarila Bhatta.
4782	What is the maximum number of generations a Panji record can typically trace back for a high-ranking family?	Over 1000 years (approximately 30-40 generations).
4783	The process of verifying the 32 maternal and paternal root lineages of a prospective couple is called ____.	Uteh-karana.
4784	Who was the scholar that accidentally married his cousin, prompting the formalisation of the Panji system in the 14th century?	Pandit Harinath Upadhyaya.
4785	What is 'Pachhwari Pa' in the Maithil Brahmin hierarchy?	A classification referring to non-Srotiya Brahmins (lower rank).
4786	What is the specific ancestral village term used when a person's ancestors moved to a new location but maintained their root name?	Mula-Grama.
4787	How many 'Chhadwith' positions are derived from the maternal side of the bride?	Eight.
4788	What happens to the rank of a 'Srotiya' family if they marry into a 'Panjibaddh' family?	Their rank decreases (Adhogami).
4789	Which specific ancestor is the '1st Chhadwith'?	The paternal great-great-grandfather (Vridhha-Prapitamaha).
4790	Why is the preservation of Tirhuta script essential to the Panji system?	Nearly all historical Panji records (Pothis) are written exclusively in Tirhuta.
4791	The term for an ancestor who migrates and establishes a new branch of a Mula is ____.	Deraderi.
4792	According to the source, how many primary Gotras are considered the most prominent/organized in Mithila?	Seven (Sandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaj, Katyayan).
4793	Which document is required for the 'Upanyana' (sacred thread) ceremony to determine the correct Pravara recitation?	The Panji record/Uteh.
4794	The 10 branches of Brahmins in India are geographically divided into two groups of five called ____ and ____.	Pancha Gauda (North) and Pancha Dravida (South).
4795	What constitutes the '16th Chhadwith' for a bride?	The maternal grandfather of the maternal grandmother (Matri-Matamaha of the Matamahi).
4796	Which historical figure was the Progenitor (Beeji Purusha) of the 'Sandilya' Gotra in Mithila?	Sandilya Rishi.
4797	In the context of the Panji system, what is 'Karna Kayastha'?	A Kayastha sub-caste in Mithila that uses a similar genealogical system to the Brahmins.
4798	What is the primary Gotra followed by all Karna Kayasthas?	Kashyapa.
4799	What is the literal meaning of 'Panji' in this cultural context?	A genealogical register or chronicle.
4800	Who was the 'Beeji Purusha' of the Mula 'Sarisab'?	Ratnapani.
4801	What is the term for a marriage that violates the 7/5 generation rules but is still recorded by Panjikers?	Dushita (Blemished) marriage.
4802	Which historical document provides early information on 72 Rajput clans in Mithila?	Varna Ratnakara.
4803	Who authored the 'Varna Ratnakara'?	Jyotirishwar Thakur.

4804	What is the term for a person's 'Maternal Grandfather's Mula'?	Mamamula.
4805	In the Chhadwith check, if a bride is the 6th generation from a common ancestor, she is forbidden to marry a groom if he is ____.	Also within the 6th generation on his paternal side.
4806	How does a Panji record help in performing 'Pindadaana' (ancestral rites)?	It provides the exact names and lineages of ancestors required for the ritual.
4807	What is the significance of the year 2000 in the context of the Panji project described?	It was the start of the digital imaging and transliteration project (from Tirhuta to Devanagari).
4808	Why is the Panji system compared to 'Genome Mapping' in the source title?	Because it tracks hereditary data and biological lineages over centuries, similar to genetic mapping.
4809	What is a 'Pa' (or Patra) in the social ranking system of Mithila?	A measure of social or ritual purity/status based on ancestry.
4810	Which Brahmin subgroup has the most extensive 'Laukik' records?	Srotriyas.
4811	What is 'Panji Prabandh' in the context of Mithila culture?	A genealogical record management system used to ensure caste purity and marriage eligibility.
4812	In which year was the Panji system formally institutionalised in Mithila?	1326 AD (Saka 1248).
4813	Which King is credited with the formalisation of the Panji system in Mithila?	King Harisimhadev of the Karnat dynasty.
4814	Which three primary social groups were initially covered by the Panji Prabandh?	Brahmins, Kayasthas and Kshatriyas.
4815	According to the Panji rules, how many generations must be excluded from the maternal side for marriage eligibility?	Five generations.
4816	How many generations are traditionally excluded from the paternal side for a valid marriage under Panji rules?	Seven generations (later modified to six in some contexts).
4817	What is the total number of 'Gotras' identified within the Maithil Brahmin community according to the text?	20 Gotras.
4818	List the seven most prominent and well-known Gotras in the Maithil Brahmin community.	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaj and Katyayana.
4819	What is the specific name given to followers of the Madhyandina branch of Yajurveda in Mithila?	Vajasaneyi.
4820	What term describes the followers of the Kauthuma branch of Samaveda in Mithila?	Chhandogya.
4821	How does the 'Chhandogya' marriage ritual differ from the 'Vajasaneyi' regarding timing?	Chhandogya marriages must view the star Arundhati after sunset, while Vajasaneyi marriages have no such restriction.
4822	Define 'Pravara' in the Maithil Brahmin genealogical system.	The number of ancestors (usually three or five) who were composers of Rigvedic hymns.
4823	The Vatsa and Savarna Gotras share the same ancestors; how does this affect marriage?	Marriage between members of these two Gotras is prohibited.
4824	In the hierarchy of Maithil Brahmins, who are the 'Srotriyas'?	The highest rank of Brahmins who maintained strict lineage and conduct standards.
4825	Who are the 'Panjibaddh' Brahmins?	Brahmins whose lineages were formally recorded in the Panji books but were ranked below Srotriyas and Yogyas.
4826	What term is used for those who are not formally recorded in the Panji system?	Jaywar.
4827	What does 'Mool' represent in the Panji system?	The ancestral 'root' or original clan identity.
4828	What does 'Moolgram' signify in Mithila genealogy?	The specific original village associated with a particular Mool (lineage).
4829	How many total 'Mools' (original lineages) were initially recorded for Maithil Brahmins?	167 Mools.
4830	According to the 'Chhattha' (Sixth) rule, what is the prohibited distance for marriage from common ancestors?	Neither the bride nor the groom should be within the sixth position from any of the sixteen defined ancestors.
4831	Who was Gunakar Jha in the history of Panji Prabandh?	The scholar appointed by King Harisimhadev to lead the first formal collection of Brahmin genealogical data.
4832	The 'Pancha Gauda' classification includes which five Brahmin groups?	Utkala, Kanyakubja, Gauda, Maithil and Saraswat.
4833	Which mountain range serves as the geographical boundary between 'Pancha Gauda' and 'Pancha Dravida' Brahmins?	The Vindhyachal Mountains.
4834	What is the 'Bijipurush' in a lineage?	The earliest known ancestor or the 'founder' from whom a specific branch of a Mool originates.
4835	What does 'Sarpinda' (Sapinda) refer to in marriage law?	Being related through the offering of the same 'Pinda' (funeral cake), denoting blood relation.
4836	Why did the Panji system eventually decline among the Kshatriyas in Mithila?	Due to the passage of time and the difficulty of maintaining exhaustive records for all members.
4837	What is the primary objective of the 'Genome Mapping' nomenclature used in the source title?	To frame the traditional Panji system as a pre-modern equivalent of genetic tracking.
4838	According to Kumarila Bhatta in 'Tantra Vartika', what is the purpose of 'Samuha Lekhya'?	To protect the lineage and memory of ancestors to maintain social and ritual purity.

4839	What is the significance of the number 16 in the 'Chhattha' rule?	It refers to the sixteen ancestors (eight maternal and eight paternal) whose lineages are checked for overlaps.
4840	The source mentions 'Laukik' in the context of Srotiya Panjis; what does it refer to?	The status or category of a family within the Srotiya hierarchy based on marriage alliances.
4841	How are Panji books traditionally preserved to prevent damage?	They are protected from water and oil, tied with thick bindings, and dried in the sun during the lion sign (August/September).
4842	What is the 'Upanayanam' sacrament difference for Chhandogya followers?	It consists of four steps: Namakaran, Chudakaran, Upanayan and Samavartan.
4843	Which Gotra is the only one traditionally associated with the Karna Kayasthas in the text?	Kashyapa Gotra.
4844	Who was Pandit Harinath Upadhyay, and why is he mentioned regarding marriage rules?	A scholar who inadvertently married a prohibited relative, leading to the strict formalisation of the Panji system.
4845	Name one of the ancestors involved in the 'Tri-pravara' of the Shandilya Gotra.	Asita (or Devala).
4846	Name one of the ancestors involved in the 'Pancha-pravara' of the Vatsa Gotra.	Jamadagnya (or Aurva, Chyavana, Bhargava, Apnavana).
4847	What is a 'Mool' without a 'Gram' called, such as in the case of 'Khannham'?	It is referred to as a branch (Shakha) that later attained the status of a Mool.
4848	The text lists 'Ayanthi Shrestha' as the first category of Mools; how many are in this group?	13 Mools.
4849	What is the 'Abhista' (goal) of a Panjekar according to the text's ethical guidelines?	To serve as a protector of culture rather than merely seeking monetary gain.
4850	What is the 'Chaurasi' (84) or 'Chauvala' category in the Srotiya Panji?	It refers to the classification of the Srotiya community into specific hierarchical 'classes'.
4851	How did regional culture influence Brahmins over time according to the text?	Varying climates, languages and diets led Brahmins to divide based on their specific region of residence.
4852	What defines the 'Pancha Dravida' group of Brahmins?	The five Brahmin groups residing south of the Vindhyachal Mountains: Karnataka, Gurjar, Tailanga, Dravida and Maharashtra.
4853	What was the capital of the ancient Videha kingdom, the precursor to Mithila?	Janakpur (implied by Mithila's history).
4854	In Panji records, what information is usually paired with the ancestor's name?	Their academic titles, village of residence, and notable deeds or faults.
4855	The term 'Siddhanta' is necessary for which event?	The legal and ritual sanctioning of a marriage.
4856	How many Gotras are considered 'Vyavasthit' (systematically organised and populous) in Mithila?	Seven Gotras.
4857	What is the meaning of 'Gaurivara' in the context of marriage?	A title given to a groom who marries into a specific high-status lineage.
4858	How are 'Sapinda' relationships calculated for the maternal side?	Up to the fifth generation from the mother.
4859	How are 'Sapinda' relationships calculated for the paternal side?	Up to the seventh generation from the father.
4860	Which Sanskrit work by Madhava Singh initiated the 'Shakha Panji'?	The text does not name a work but attributes the order to Maharaj Madhava Singh in 1760 AD.
4861	What happens if a girl is found to be 'Svajana' (related within prohibited degrees) to a boy?	The marriage is considered invalid and any offspring would traditionally be socially excluded.
4862	What is the primary role of the 'Bijipurush' in the record books?	To serve as the reference point for calculating the generations of all descendants.
4863	Which scholar wrote the 'Smritisara' mentioned in the text?	Pandit Harinath Upadhyay.
4864	The phrase 'Jalad Raksha, Tailad Raksha' is a mnemonic for what?	Protecting Panji manuscripts from water and oil.
4865	What is 'Adhobhag' in the context of Panji ranking?	A downward movement in hierarchical status due to marriage into a lower-ranked family.
4866	Which ruler is credited with formalising the Panji system for Maithil Brahmins in 1326 AD (Saka 1248)?	Maharaja Harisimhadeva.
4867	In the context of Panji documentation, what does the term 'Utenrh' represent?	The detailed introduction and verification of 32 ancestral lineages of a person.
4868	According to the Panji rules, how many generations must be avoided on the paternal side for a marriage to be eligible?	Six generations (marriage is permitted in the seventh).
4869	According to the Panji rules, how many generations must be avoided on the maternal side for a marriage to be eligible?	Five generations.
4870	The Maithil Brahmin community is primarily divided into how many 'Gotras' (clans)?	Twenty.
4871	What are the three main hierarchical categories of Maithil Brahmins established through the Panji system?	Shrotriya, Yogya, and Panjibaddha.
4872	What is the role of a 'Panjekar' in Maithil society?	A designated registrar who maintains genealogical records and verifies marriage eligibility.
4873	The Panji system classifies Brahmins who followed the Yajurveda (Madhyandina branch) as ____.	Vajasaneyi

4874	The Panji system classifies Brahmins who followed the Samaveda (Kauthuma branch) as _____.	Chandoga
4875	Which historical classification groups Maithil Brahmins with Utkala, Kanyakubja, Gauda, and Saraswat Brahmins?	Pancha Gauda.
4876	What geographic feature traditionally divides the 'Pancha Gauda' Brahmins from the 'Pancha Dravida' Brahmins?	The Vindhyaachal Mountains.
4877	In the Panji system, what is a 'Moola'?	The original ancestral village or primary lineage root of a family.
4878	How many primary 'Moolas' were identified during the initial formalisation of the Panji system?	167
4879	Why is marriage prohibited between the 'Vatsa' Gotra and 'Savarna' Gotra in the Panji system?	They share common ancestors, making them functionally the same lineage for marriage purposes.
4880	In genealogical terms, who is the 'Beeji Purusha'?	The original progenitor or founding ancestor of a specific lineage or 'Moola'.
4881	Which script was traditionally used to record the Panji genealogical trees on palm leaves?	Tirhuta (Mithilakshar).
4882	The 'Sakha Panji', which documents branch lineages in greater detail, was introduced during the reign of which Maharaja?	Maharaja Madhav Singh (c. 1760 AD).
4883	What is the 'Dushana Panji' used to record?	Lineage flaws, defects, or instances where ancestral purity was compromised.
4884	What is the 'Chadhvitha' in the process of marriage eligibility?	The identification of 16 specific ancestral nodes (nodes of 6th-degree relations) to ensure no blood overlap.
4885	Which Maithil scholar and king's authority is cited for permitting marriage in the 7th generation on the paternal side?	M.M. Maharaja Mahesh Thakur.
4886	The followers of Samaveda (Chandogas) divide their marriage ceremony into which two distinct parts?	Purva Vivaha and Uttara Vivaha.
4887	What is the significance of the term 'Svajana' in the context of Mithila's matrimonial laws?	It refers to a person belonging to the same prohibited bloodline, making marriage illegal.
4888	Who was the first Panjikar appointed by King Harisimhadeva to manage the records?	Gunakar Jha (of Pandua Moola).
4889	Maithil Brahmins who did not enter the formal Panji system during its inception were historically termed _____.	Jaibar
4890	Identify the Gotra: This group includes the lineages of 'Dighve', 'Sarisab', and 'Mahua'.	Sandilya.
4891	Identify the Gotra: This group includes the lineages of 'Pali', 'Hariamb', and 'Takarwal'.	Vatsa.
4892	Which ancient philosopher first mentioned 'Samuha Lekhya' (collective genealogical records) in his work 'Tantra Vartika'?	Kumarila Bhatta.
4893	The Panji Prabandh prohibits marriage with the offspring of which specific maternal relative?	The mother's brother (Maternal uncle).
4894	What is the primary difference in 'Samskaras' (rites of passage) between Vajasaneyi and Chandoga Brahmins regarding the Veda?	Vajasaneyis include 'Vedarambha' (beginning of Veda study), while Chandogas do not.
4895	How many 'Pravaras' are associated with the 'Sandilya' Gotra?	Three (Tri-pravara).
4896	How many 'Pravaras' are associated with the 'Vatsa' Gotra?	Five (Pancha-pravara).
4897	The 'Pancha-pravara' of the Vatsa Gotra includes Aurva, Chyavana, Bhargava, Jamadagnya, and _____.	Apnuvana
4898	The term 'Paanti' in the Maithil social hierarchy refers to a family's _____.	Social rank or status based on ancestral purity.
4899	In the Panji system, what happens to the 'Paanti' of a family if they marry into a lower-ranked lineage?	The status is downgraded (Adhogami).
4900	According to the text, which year marked the formal start of the 'Panji Prabandh' record-keeping?	1326 AD.
4901	Which document is preserved to ensure a lineage is protected from the 'Dushana' (defects) of past generations?	Dushana Panji.
4902	The 'Gotra Panji' contains a comprehensive list of every Gotra and its associated _____.	Ancient Moolas (Original villages).
4903	M.M. Trivenibhatta (c. 400 AD) is identified as the 'Beeji Purusha' of which major lineage?	Mandaur Moola.
4904	Which famous saint's guru, Ramapati Upadhyaya, is documented in the Panji records as belonging to the Karmahe-Tarauni Moola?	Chaitanya Mahaprabhu.
4905	To preserve palm-leaf Panji books, they should be dried when the sun is in which zodiac sign?	Leo (Simha Rashi), usually between mid-August and mid-September.
4906	The 'Utenrh Panji' focuses on identifying the names of _____ generations of ancestors.	Six
4907	Which Moola is found across multiple Gotras including Sandilya, Vatsa, and Kashyapa?	Brahmapura.
4908	How does the text define 'Sapinda' in the context of marriage?	Relations sharing the same 'pinda' or body/ancestry within prohibited degrees.

4909	What is the traditional material used for writing the 'Panji' before the advent of paper?	Talapatra (Palm leaves).
4910	Which Maithil king initiated the 'Sakha Panji' to reward or classify families based on their conduct and scholarship?	Maharaja Madhav Singh.
4911	The phrase 'Jalat Raksha, Tailat Raksha' in Panji preservation translates to 'Protect from _____ and _____'.	Water and Oil.
4912	In which century was the current form of the Panji Prabandh (genealogical records) initiated in Mithila?	The 14th Century (specifically 1326 AD).
4913	Which king is credited with the formalisation of the Panji Prabandh in Mithila?	Maharaja Harisimhadeva.
4914	What is the primary objective of maintaining the Panji records for Maithil Brahmins?	To ensure 'Jati Shuddhata' (caste purity) and verify marriage eligibility.
4915	In the Panji system, what does the term 'Udhed' signify in the context of a person's identity?	The detailed introduction and lineage of 32 ancestors.
4916	How many generations on the paternal side must typically be avoided to consider a marriage valid under Panji rules?	Seven generations.
4917	How many generations on the maternal side must typically be avoided to consider a marriage valid under Panji rules?	Five generations.
4918	According to the Panji system, what are the three main categories of Maithil Brahmins?	Shrotriya, Yogya, and Panjibaddh.
4919	What status is given to Brahmins who are not registered in the Panji records?	Jaywar.
4920	What are the seven most common and well-known Gotras among Maithil Brahmins?	Sandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, and Katyayan.
4921	What is the function of a 'Panjikar' in Maithil society?	A specialised genealogist who maintains records and verifies marriage compatibility.
4922	What is the 'Beeji Purush' in a Panji record?	The earliest known common ancestor or progenitor of a specific lineage/family.
4923	The term 'Moolgram' refers to which piece of genealogical information?	The original ancestral village of a particular family line.
4924	How many primary 'Mools' (ancestral roots) were originally determined in the Panji system?	167
4925	Into which two Vedic branches are Maithil Brahmins primarily divided?	Vajasaneyi (Yajurveda) and Chhandogya (Samaveda).
4926	What is the difference between 'Tri-Pravar' and 'Panch-Pravar' lineages?	Lineages claiming descent from three or five distinct Vedic sages (Rishis).
4927	Who was appointed as the head Panjikar for Maithil Brahmins by Maharaja Harisimhadeva?	Gunakar Jha.
4928	Which Gotra includes the Mools 'Oini', 'Khouwal', and 'Mandar'?	Kashyap.
4929	The 'Dushana Panji' is used to record what specific type of information?	Lineage flaws, defects, or deviations from social/religious norms in a family history.
4930	Which historical figure, known as the 'Maithil Poet', has his lineage meticulously preserved in the Panji records?	Vidyapati Thakur.
4931	The Panji records identify Chaitanya Mahaprabhu's guru, Ramapati Upadhyaya, as belonging to which Mool?	Kariham-Bilaunch.
4932	What is the 'Chhadwaith' rule in Maithil marriage eligibility?	A rule identifying sixteen specific ancestral positions where relationship must be checked.
4933	Under Panji rules, can a person marry the child of their mother's brother?	No, it is strictly prohibited.
4934	Which king initiated the 'Sakha Panji' during the 18th Century?	Maharaja Madhav Singh.
4935	How many Gotras exist for Karna Kayasthas according to the text?	Only one (Kashyap).
4936	The 'Pancha-Gauda' group includes Maithil, Saraswat, Kanyakubja, Gauda, and _____ Brahmins.	Utkal.
4937	What defines the geographical boundary between 'Pancha-Gauda' and 'Pancha-Dravida' Brahmins?	The Vindhyachal mountain range.
4938	A marriage in Mithila is considered 'Ashastriya' (unscriptural) if it is conducted without _____.	The Siddhanta (Panjikar's approval).
4939	In the context of Mools, what does 'Ayanti Shrestha' represent?	The first or highest category of Mools, such as Khardauria and Khauriya.
4940	How many ancestors are traced to define the 16 'Chhadwaith' positions for a bride?	Six generations in specific paternal and maternal lines.
4941	What is the primary difference in marriage rituals between Samavedi and Yajurvedi Maithils?	Samavedi (Chhandogya) weddings are split into two parts (Purva and Uttara), while Yajurvedi (Vajasaneyi) are not.
4942	Why is marriage prohibited between the Savarna and Vatsa Gotras in some Panji traditions?	Because they share common ancestors (Rishis).
4943	What was the significance of the year Shaka 1248 in the history of Panji?	It is the date Maharaja Harisimhadeva formalised the Panji management system.

4944	Who was appointed to maintain the Panji for the Kshatriyas of Mithila?	Vijayadatta.
4945	Who was appointed to maintain the Panji for the Karna Kayasthas?	Shankardatta.
4946	Under which conditions is a marriage allowed even if a 'Chhadwaith' link is found?	If the link appears on the maternal side of the groom after the prohibited generations.
4947	What is the religious consequence of marrying a 'Svajana' (prohibited relative) according to the text?	The offspring is traditionally considered 'Chandala' (outcaste).
4948	What does the 'Gotra Panji' record?	The distribution of all Mools (roots) within their respective Gotras.
4949	Identify the 'Beeji Purush' of the Mandar Mool of Kashyap Gotra.	Trilocan Bhatt.
4950	Which Mool is unique for being found in multiple Gotras like Sandilya, Vatsa, and Kashyap?	Brahmapura.
4951	What is the 'Pari' in the context of Panji ranking?	A system of social status or points based on ancestral pedigree.
4952	How does the Panji document provide historical insight into migration?	By recording transitions from 'Moolgram' (original village) to new residences.
4953	Which sage is the 'Beeji Purush' for the Sandilya Gotra's Khardaur Mool?	Sankarshan.
4954	What is the 'Ghataka' in the Panji system?	A person who facilitates marriage alliances based on Panji eligibility.
4955	How did the Panjikars preserve the physical Panji manuscripts?	By drying them in the sun during the lion-sign of the sun (August-September) and avoiding oil/water.
4956	What does 'Sarpini' or 'Asvajanipari' Panji track?	Prohibited or invalid relationship links that disqualify a marriage.
4957	Which Gotra includes the Rishis 'Atri' and 'Sankriti'?	Vashistha.
4958	Define 'Sapinda' as used in Mithila's marriage laws.	Sharing a common body/ancestry within prohibited degrees of generation.
4959	Which Mool belongs to the first category (Ayanti Shrestha) and is associated with the village 'Sarisab'?	Sarisab Mool.
4960	Who was the 'Beeji Purush' of the Simhashram Mool?	Mahamahopadhyaya Halayudha.
4961	The rule 'Matritah Panchami Tyaktva Pitritah Saptami Bhajet' comes from which scripture?	Manusmriti.
4962	What is the 'Paanti' (ranking) hierarchy for Shrotriya Brahmins?	A four-fold categorisation (Chauvala) of lineages based on their purity and status.
4963	Which Mool was added as the 35th main branch later in the history of the Panji?	Phandah (branch of Khagram).
4964	What does the Panji record indicate about marriages involving 'Devadasis'?	The records often mark the maternal side as 'Agyat' (unknown) or note the status of the child in society.
4965	The status of 'Jaywar' usually implies what about a person's genealogical records?	Their lineage was not originally recorded or maintained by official Panjikars.
4966	What is 'Pachhwari Paanti'?	The group or category of Brahmins outside the elite Shrotriya hierarchy.
4967	Which sage is associated with the 'Beeji' of the Bharadwaj Gotra?	Bharadwaj, Angiras, and Barhaspatya.
4968	The Panji management system is described as a 'Genome Mapping' of which period?	450 AD to 2009 AD.
4969	What are the four 'Samskaras' required for the Samavedi (Chhandog) Upanayan?	Namakaran, Chudakaran, Upanayan, and Samavartan.
4970	What extra 'Samskara' is included in the Yajurvedi (Vajasaneyi) Upanayan compared to the Samavedi?	Vedaarambh.
4971	The 'Tantra Vartika' by Kumarila Bhatta (7th Century) mentions what genealogical practice?	The use of 'Samuha-Lekhya' to protect lineage and caste purity.
4972	Which specific village is mentioned as the source of the 'Mandar' Mool's 74 branches?	Mandar village.
4973	In Panji records, what is a 'Daurhit'?	A daughter's son, used to track maternal lineage connections.
4974	How many 'Chhadwaith' positions are checked for the groom before marriage?	The groom's 16 positions must be verified against the bride's lineage to avoid Sapinda overlap.
4975	What is the primary historical purpose of the 'Panji Prabandh' system in Mithila?	To ensure caste purity and determine marriage eligibility by tracking genealogical records.
4976	Which ruler of the Karnat dynasty is credited with institutionalising the Panji system?	Maharaja Harisimhadeva.
4977	In what year (AD) was the formal Panji system established according to the source material?	1326 AD (Shaka 1248).
4978	What does the term 'Uderh' represent in the context of Maithil genealogy?	A formal introduction of thirty-two ancestral lines required to verify marriage eligibility.
4979	The Panji system tracks the lineages of which three social groups in Mithila?	Brahmins, Kayasthas, and Kshatriyas.

4980	According to the Panji rules, how many maternal generations must be avoided for a marriage to be considered valid?	Five generations.
4981	How many paternal generations must traditionally be avoided for marriage among 'Shrotriya' Maithil Brahmins?	Seven generations.
4982	Define the term 'Panjikar'.	A professional genealogist or registrar responsible for maintaining and verifying family lineage records.
4983	What is 'Siddhant' (or 'Asvajana Patra') in the Panji marriage process?	A formal certificate issued by a Panjikar confirming that the bride and groom are not prohibited relatives.
4984	What is the meaning of 'Moola' in the Panji system?	The original village or ancestral root from which a family lineage begins.
4985	How many 'Moolas' (ancestral roots) are recorded for Maithil Brahmins in the system?	167
4986	Identify the two main Vedic branches followed by Maithil Brahmins.	Yajurveda (Madhyandina Shakha) and Samaveda (Kauthuma Shakha).
4987	Which two Gotras are prohibited from intermarrying because they share the same ancestors despite being distinct clans?	Savarna and Vatsa.
4988	Who are the five members of the 'Panch-Gauda' Brahmin group?	Utkala, Kanyakubja, Gauda, Maithila, and Saraswata.
4989	Which scholar's 7th-century work, 'Tantra Varttika', mentions the 'Samuha Lekhya' (group records) that preceded the Panji system?	Kumarila Bhatta.
4990	Who was the first Panjikar appointed for the Maithil Brahmins by King Harisimhadeva?	Gunakar Jha.
4991	In the 'Shrotriya' category, into how many hierarchical sub-classes are the Panjis divided?	32
4992	What is the total number of Panji categories (ranks) for the 'Yogya' and 'Panjibadh' classes?	153
4993	Under whose reign was the 'Shakha Panji' (branch records) introduced, leading to further social stratification?	Maharaja Madhav Singh.
4994	According to the Panji rules, why is a person of the same 'Pravara' excluded from marriage?	They are considered to share spiritual/ancestral lineage, making them siblings in a religious sense.
4995	What is the specific 'Gotra' shared by all members of the Karna Kayastha community in Mithila?	Kashyap.
4996	What does the 'Biji Purush' represent in a lineage record?	The earliest known common ancestor or the founder of a specific family branch.
4997	In the Panji system, what is 'Dushana'?	A record of social or genealogical 'defects' or deviations within a lineage.
4998	What are the four main rituals (Sanskaras) involved in the 'Upanayana' for Samavedic Brahmins?	Namakarana, Chudakarana, Upanayana, and Samavartana.
4999	How does the 'Vajasaneyi' (Yajurvedic) marriage timing differ from the 'Chandoga' (Samavedic) timing?	Vajasaneyi marriages can occur day or night, while Chandoga marriages involve specific evening rituals after seeing the star Arundhati.
5000	Define 'Chadvitha' in the context of marriage verification.	The sixteen specific ancestral positions that must be checked to ensure no 'Sapinda' (blood relative) relationship exists.
5001	Which ancient lawgivers' rules (Smritis) form the basis of the Panji marriage prohibitions?	Manu and Yajnavalkya.
5002	Marriage with the children of a mother's _____ is strictly prohibited in the Panji system.	Brother (maternal uncle).
5003	What happens if a Brahmin marries a 'Swajana' (prohibited relative) according to traditional belief?	The offspring are considered 'Chandala' (outcast) and excluded from Aryan social status.
5004	The 'Panch-Dravida' Brahmins are geographically separated from 'Panch-Gauda' by which mountain range?	Vindhyachal.
5005	Who were the primary Panjikars appointed for the Kayastha and Kshatriya groups, respectively?	Shankardatt (Kayastha) and Vijaydatt (Kshatriya).
5006	What are the three sages associated with the 'Shandilya' Gotra?	Shandilya, Asit, and Deval.
5007	The sages Aurva, Chyavana, Bhargava, Jamadagni, and Apnuvana belong to which Gotra's Pravara?	Vatsa (or Savarna).
5008	Which specific ancestor is the 'Biji Purush' of the Mandar Moola?	Trivikram Bhatta.
5009	How does the Panji record indicate a marriage that occurred outside the caste?	The record marks the lineage as 'Ajnat' (unknown) or lists the specific non-Brahmin origin (e.g., 'Dasi').
5010	What is the hierarchical position of 'Shrotriya' Brahmins compared to 'Yogya' Brahmins?	Shrotriyas are the highest social tier, followed by Yogyas.
5011	The physical records of the Panji were traditionally written on _____ using locally made ink.	Palm leaves (Talapatra).
5012	What is the 'Laukika' in the context of Shrotriya genealogy?	A set of rules or social standing markers used to determine sub-hierarchies within the Shrotriya group.
5013	According to the Panji, a person in the _____ position relative to a girl's ancestors cannot marry her.	Sixth (Chashttha).
5014	List three of the primary seven Gotras that comprise the majority of the Maithil Brahmin population.	Shandilya, Vatsa, and Kashyap (others: Savarna, Parashar, Bharadwaj, Katyayan).

5015	What are the three meanings of 'Gotra' found in the 'Amarkosha'?	Mountain, lineage (Vansha), and name.
5016	Which Gotra is associated with the sages Shakti, Vashistha, and Parashar?	Parashar.
5017	Which Gotra is associated with the sages Bharadwaj, Angiras, and Barhaspatya?	Bharadwaj.
5018	Identify the primary 'Moolas' of the 'Atyanti Shrestha' (First Tier) classification.	Khadaure, Khauar, Budhabar, Mandar, Darihar, Ghusaut, Tisaut, Karnehe, Nanaure, Babhaniyam, Hariamb, Sarisab, and Sodarpur.
5019	Define 'Chaitanya Mahaprabhu's' genealogical connection to Mithila as per the Panji.	His ancestors (Umapati Upadhyay) belonged to the Karnehe-Nanaure Moola and migrated to Bengal.
5020	Why did the Panji system effectively disappear among Mithila's Kshatriyas?	Due to the passage of time and the loss of practitioners who could maintain the complex records.
5021	What mnemonic instructions were given to protect Panji books from damage?	Protect them from water, oil, and loose binding ('Jalat Rakshet, Tailat Rakshet...').
5022	Who was the author of 'Smritisar' whose unintended prohibited marriage led to the formalisation of the Panji system?	Pandit Harinath Upadhyay.
5023	The record-keeping system allows a modern person to trace their lineage back at least _____ years.	1000 years.
5024	The 'Panchobhe' and 'Dighway' lineages belong to which classification tier?	Madhyam Moola (Middle Roots).
5025	How many main 'Moolas' were initially identified out of the 167 during the system's inception?	34 (later 35 with the addition of the 'Phandah' branch).
5026	What is the role of the 'Brahmaputra' Moola in Gotra classification?	It is a rare Moola found across multiple Gotras, including Shandilya, Vatsa, and Kashyap.
5027	Concept: Genome Mapping (Maithil Context)	The metaphorical comparison of the Panji genealogical records to modern DNA mapping due to its scientific approach to hereditary tracking.
5028	What are the two 'Utsh' (divisions) of Brahmins mentioned based on ritual practice?	Chhandogya (Samavedi) and Vajasaneyi (Yajurvedi).
5029	What was the significance of the year 2000 in the context of the Panji source material?	It marked the start of the project to transliterate ancient Panji records from Tirhuta script into Devanagari.
5030	In the verification process, what does the Panjkar check regarding the 'Matrimaternal' branch?	That the groom is not a descendant of the bride's mother's brother.
5031	Name the scholar who served as the primary oral examiner for the 'Panji Shastra Martanda' degree.	Mahamahopadhyaya Dr Sir Ganganath Jha.
5032	Which ancient astronomer is listed in the Mandar Moola lineage in the Panji records?	Aryabhata (referenced as Aryabhatta in the text).
5033	How are 'Pubaripa' and 'Pachhbaripa' Brahmins distinguished?	Shrotriyas are termed 'Pubaripa' (Easterners) while others are 'Pachhbaripa' (Westerners).
5034	How many generations are skipped for marriage on the paternal side in the modified modern rule for non-Shrotriyas?	Six generations.
5035	Which Gotra includes sages like Mudgalya, Angiras, and Barhaspatya?	Mudgalya.
5036	What is the consequence of marrying within the same 'Gotra' (Sagotra)?	The marriage is considered invalid as the couple is regarded as siblings.
5037	In the Panji terminology, what is a 'Jaibar'?	A category for Brahmins who were not formally recorded in the initial Panji registers.
5038	In which century was the Panji Prabandh system of genealogy management formally established in Mithila?	The 14th century (specifically 1326 AD).
5039	Which ruler of the Karnata dynasty is credited with the initiation of the Panji Prabandh?	Maharaja Harisimhadeva.
5040	What was the primary social purpose for establishing the Panji Prabandh?	To ensure caste purity (\$Jati\ Shuddhi\$) and regulate marriage eligibility.
5041	The Panji records originally covered which three social groups in Mithila?	Brahmins, Kayasthas, and Kshatriyas.
5042	In the context of Panji, what does the term 'Udhedh' refer to?	The detailed introduction or genealogical identity of an individual.
5043	How many ancestors' lineages must be introduced in a full 'Udhedh' for a Brahmin marriage?	32 ancestral lineages.
5044	What is the minimum number of generations that must be avoided on the paternal side for a Maithil Brahmin marriage?	7 generations.
5045	What is the minimum number of generations that must be avoided on the maternal side for a Maithil Brahmin marriage?	5 generations.
5046	Maithil Brahmins are classified into which three main hierarchical categories?	Shrotriya, Yogya, and Panjibaddha.
5047	What term is used for those who were not recorded in the Panji registers during the initial classification?	Jaibar.
5048	How many 'Gotras' are formally recognised among Maithil Brahmins according to the source material?	20 Gotras.

5049	How many 'Mulas' (original root families) were identified at the inception of the Panji system?	\$167\$ Mulas.
5050	What is the specific term for the founding ancestor of a family lineage in the Panji system?	Biji Purusha.
5051	What is the meaning of 'Mula Grama' in the genealogical records?	The ancestral village or place of origin of a specific lineage.
5052	Who was the first designated genealogist (Panjikar) appointed by King Harisimhadeva for the Maithil Brahmins?	Gunakar Jha.
5053	Which individual was appointed to manage the Panji records for the Karna Kayastha community?	Shankaradatta.
5054	Which person was initially appointed to manage the records for the Kshatriya community?	Vijayadatta.
5055	Concept: Siddhanta Patra (Asvajanapatra)	Definition: A certificate of non-relationship issued by a Panjikar to authorise a marriage.
5056	The high-ranking 'Ayanti Shrestha' Mulas are divided into how many first-class lineages?	\$13\$ lineages (including Khadaure, Khauaad, and Sodarpuriye).
5057	What is the difference between 'Tri-pravara' and 'Pancha-pravara' families?	Tri-pravara names \$3\$ sage ancestors, while Pancha-pravara names \$5\$ sage ancestors in Vedic rituals.
5058	Which three Gotras are categorized as 'Pancha-pravara'?	Vatsa, Savarna, and Bharadwaj.
5059	According to the Panji system, what happens if a marriage occurs within the same Gotra?	The offspring are traditionally considered 'Chandala' (outcastes) from the Aryan dignity.
5060	What is the title given to Yajurvedic Brahmins who follow the Madhyandina branch?	Vajasaneyi.
5061	What is the title given to Samavedic Brahmins who follow the Kauthuma branch?	Chhandoga.
5062	What distinguishes the Samavedic (Chhandoga) marriage from the Yajurvedic (Vajasaneyi) one?	The Samavedic marriage is divided into 'Purva' and 'Uttara' (after sunset) rituals.
5063	Which Maithil Brahmin Gotra has the highest number of branches (\$74\$)?	Kashyapa.
5064	What is the unique 'Gotra' characteristic of the Karna Kayastha community in Mithila?	They all belong to a single Gotra: Kashyapa.
5065	Under which \$18\$th-century ruler did 'Sakha Panji' (branched records) and formal hierarchical divisions begin?	Maharaja Madhava Singh.
5066	The 'Chhadwith' refers to how many specific genealogical checkpoints used to verify marriage eligibility?	\$16\$ points.
5067	In the 'Chhadwith' check, what is the 'First Chhadwith'?	The paternal great-great-great-grandfather (\$Vridha\$ Prapitamaha\$) of the bride.
5068	What determines if an ancestor found in the bride's lineage prohibits marriage with a groom?	If the ancestor appears within the prohibited degree of the groom's paternal side.
5069	What is 'Laukika' in the context of Shrotriya Brahmins?	The specific family status or 'honour' tracked within the Shrotriya branch of the Panji.
5070	How many Shrotriya Panji records are currently recognized?	\$32\$ Shrotriya Panjis.
5071	The general (non-Shrotriya) Panji records are divided into how many categories?	\$153\$ Panjis.
5072	What is the recommended time of year to dry and preserve Panji books to prevent damage?	When the Sun is in the Leo (\$Simha\$) sign (approx. \$16\$ August to \$15\$ September).
5073	Which scholar's \$7\$th-century work 'Tantra Varttika' mentions the use of 'Samuha Lekhya' (group records) for lineage?	Kumarila Bhatta.
5074	The Maithil Brahmin community is part of which larger traditional grouping of North Indian Brahmins?	Pancha Gauda.
5075	Which specific village is identified as the Mula Grama for the 'Sodarpuriye' Ayanti Shrestha lineage?	Sodarpur.
5076	The branch 'Khandavala', to which the later Rajas of Darbhanga belonged, originates from which Gotra?	Shandilya.
5077	What is the primary script used to write traditional Panji records?	Tirhuta (Mithilakshar).
5078	The term 'Panchobhe' belongs to which category of Mulas?	Madhyam Mula (Middle category).
5079	Which sage ancestors are associated with the 'Shandilya' Gotra?	Shandilya, Asita, and Devala.
5080	Which sage ancestors are associated with the 'Kashyapa' Gotra?	Kashyapa, Avatsara, and Naidhruva.
5081	The Gotras 'Vatsa' and 'Savarna' share the same ancestors; how does this affect marriage?	Marriage between them is prohibited as they are considered the same lineage.
5082	What are the four 'Samskaras' (rituals) involved in a Chhandoga (Samavedic) Upanayana?	Namakarana, Chudakarana, Upanayana, and Samavartana.
5083	How do the Vajasaneyi (Yajurvedic) rituals for Upanayana differ from the Chhandoga ones?	They include 'VedÄrambha' (beginning of Veda study) instead of just Namakarana.
5084	What is a 'Viji' (or Beeji) in Panji terminology?	The primary progenitor or 'seed' ancestor from whom a specific family branch begins.
5085	According to the Panji rules, why is marriage with a maternal uncle's daughter prohibited?	Because it violates the rule against marrying offspring of the mother's brother (\$Nirmata-Bhai\$).

5086	What was the historical consequence of Pandit Harinath Upadhyaya marrying his sister's daughter's daughter?	It led to the formalisation of the Panji system to prevent such accidental 'incestuous' marriages.
5087	The Panji system classifies 'Uttal' families. What does this mean?	Families that have migrated or moved from their original 'Mula Grama'.
5088	How many main 'Mulas' are considered the primary roots from which the \$167\$ branches spread?	\$34\$ (or \$35\$ including the later Phandah branch).
5089	Which Gotra does the 'Brahmapura' Mula belong to?	It is an exception that can belong to Shandilya, Vatsa, Kashyapa, Alambukaksha, Gautama, or Bharadwaj.
5090	What is the 'Panji Mahtand' or 'Lbdha Dhauri'?	High titles or degrees of excellence awarded to expert Panjikars (genealogists).
5091	How did the migration of Brahmins to different regions affect their identity prior to the Panji system?	They adopted regional identities based on climate, language, and culture, leading to the \$10\$ Brahmin divisions (Utkala, Maithil, etc.).
5092	In the Panji terminology, what is 'Paat'?	A genealogical record or 'leaf' detailing family trees, typically around \$500\$ years old in its current form.
5093	Which branch of Brahmins is known as 'Pachhwari-paat'?	Non-Shrotriya Brahmins (Yogya and Panjibaddha).
5094	Which branch of Brahmins is known as 'Pubari-paat'?	Shrotriya Brahmins.
5095	Who is the famous Maithili poet whose ancestry is preserved in the Panji records?	Vidyapati Thakur.
5096	What is the 'Gutra Panji'?	A register that lists all recognized Gotras and their associated original Mulas.
5097	In the context of Panji preservation, what does 'Jalat Rakshe, Tailat Rakshe' mean?	Protect the books from water and oil.
5098	Which community's Panji records are currently extinct or no longer maintained according to the text?	The Kshatriya (Rajput) community.
5099	How did the Panjekar confirm that a bride and groom were not 'Svajana' (related)?	By examining the 'Udhedh' of both parties and checking for overlaps in the prohibited degrees of lineage.
5100	What is the significance of the year \$1248\$ Shaka in the source material?	It is the traditional date for the 'Panji Prabandha' (management) start in Mithila.
5101	Which Mula does the famous scholar Ayiachi Mishra belong to?	Sodarpur.
5102	The 'Tirhuta' script is described as the 'soul' of which system in the text?	The Panji Prabandh.
5103	What are 'Chhadwith' points \$9\$ through \$12\$ primarily concerned with?	The lineages of the bride's maternal grandfather (\$Matamaha\$).
5104	What was the primary objective of creating the 'Panji Prabandha' in Mithila during the medieval period?	To ensure caste purity and verify eligibility for marriages among specific communities.
5105	Which three social groups were originally included in the Mithila Panji records?	Brahmins, Kayasthas, and Kshatriyas.
5106	In the context of Maithil genealogy, what is 'Utaidh'?	A detailed ancestral introduction covering seven generations of a candidate's lineage.
5107	How many distinct family lineages (Mulas) are traditionally required to be identified for a complete 'Utaidh'?	\$32\$.
5108	Maithil Brahmins who were not registered in the formal Panji system are known by what name?	Jaybar.
5109	According to the Panji system, how many generations must be excluded for marriage on the mother's side?	Five generations.
5110	According to the Shrotriya rules, how many generations must typically be excluded for marriage on the father's side?	Seven generations.
5111	What are the two primary Vedic branches followed by the Maithil Brahmin community?	The Shukla Yajurveda and the Samaveda.
5112	What is the specific name for Maithil Brahmins who follow the Madhyandina branch of the Yajurveda?	Vajasaneyi.
5113	Maithil Brahmins who follow the Kauthuma branch of the Samaveda are referred to as _____.	Chandog.
5114	How many total 'Gotras' (clans) are officially recognised in the Maithil Brahmin Panji system?	\$20\$.
5115	What is the total number of original root villages ('Mulas') recorded for Maithil Brahmins?	\$167\$.
5116	Of the original \$167\$ root villages, how many were identified as the 'primary' (Mukhya) Mulas?	\$34\$ or \$35\$.
5117	Lineages identified as 'Tri-pravar' claim descent from how many hymn-composing ancestral sages?	Three.
5118	Lineages identified as 'Panch-pravar' claim descent from how many hymn-composing ancestral sages?	Five.
5119	Why is marriage prohibited between the Vatsa and Savarna Gotras despite being separate clans?	Because they share the same set of five ancestral sages (Pravaras).

5120	According to traditional Indian geography, into which two broad categories are Brahmins divided based on the Vindhya mountains?	Panch Gaur (Northern) and Panch Dravid (Southern).
5121	List the five Brahmin groups that constitute the 'Panch Gaur'.	Utkal, Kanyakubja, Gauda, Maithil, and Saraswat.
5122	List the five Brahmin groups that constitute the 'Panch Dravid'.	Karnat, Gurjar, Tailang, Dravid, and Maharashtra.
5123	Mithila was historically the capital region of which ancient kingdom?	The Videha dynasty.
5124	How does the 'Chandog' (Samavedi) marriage ritual differ from the 'Vajasaneyi' regarding the timing of the ceremony?	Chandog marriages are performed in two parts, with the second part (Uttar Vivah) occurring after sunset.
5125	What was the significance of 'Samuha Lekhya' mentioned in early texts like the Tantra Vartika?	They were collective written records used to preserve family lineage and prevent the loss of ancestral history.
5126	Which philosopher wrote the 'Tantra Vartika', providing the earliest known reference to maintaining collective genealogical records?	Kumarila Bhatta.
5127	Which specific scholar's accidental marriage to a close cousin led to the formal institutionalisation of the Panji system?	Pandit Harinath Upadhyaya.
5128	In what year of the Common Era was the Maithil Panji system formally organised by the state?	\$1326\$ AD.
5129	In what Saka year was the Mithila Panji system formally established?	\$1248\$ Saka.
5130	Which Karnat dynasty king is credited with the systematic organisation and state recognition of the Panji system?	King Harisimhadeva.
5131	What is the 'Siddhant Patra' (also called 'Asvajan Patra') issued by a Panjekar?	A formal certificate confirming that the bride and groom are not related within prohibited degrees.
5132	Who is the 'Panjekar'?	A state-appointed genealogist responsible for maintaining records and verifying marriage eligibility.
5133	What does the term 'Biji Purush' signify in Maithil genealogy?	The earliest known common ancestor from whom a specific family lineage or branch originates.
5134	The Amarkosha dictionary defines the term 'Gotra' using which three meanings?	Mountain, lineage (Vansha), and name.
5135	Which ancient text provides the first recorded use of the word 'Gotra' to mean a family or clan?	The Chandogya Upanishad.
5136	The term 'Pravar' is synonymous with which other Sanskrit term meaning 'relating to a sage'?	Arsheya.
5137	Who was the 'Biji Purush' of the Mandai Mula, whose lineage was documented by the Panjekar Modanand Jha?	Trivikram Bhatta.
5138	How many hierarchical ranks (Paantis) are defined for the Shrotriya category of Maithil Brahmins?	Eight.
5139	How many Paantis (Panjis) are traditionally maintained for the 'Yogya' and 'Panjibaddha' categories combined?	\$153\$.
5140	The Shrotriya Panji records are often referred to as _____.	Laukik.
5141	Which \$14^{th}\$-century work by Jyotirishwar Thakur describes King Harisimhadeva and the social structure of Mithila?	Varna Ratnakar.
5142	What is the only 'Gotra' found among the Karna Kayasthas of Mithila according to the Panji system?	Kashyap.
5143	What specific name is given to the 'Shrotriya' subgroup in social classification?	Pubaripaati.
5144	What name is given to Maithil Brahmins belonging to ranks below Shrotriya?	Pachhbaripaati.
5145	A traditional mnemonic instructs that Panji records must be dried during which solar month to ensure preservation?	The month of Bhadra (when the Sun is in Leo).
5146	What are the three main elements Panji books must be protected from, according to tradition?	Water, oil, and loose binding.
5147	In the process of verifying marriage eligibility, how many 'Chhadwit' (prohibited relationship points) are checked?	\$16\$.
5148	Marriage is prohibited if either candidate falls in the _____ position from any of the \$16\$ 'Chhadwit' ancestors.	Sixth.
5149	In what traditional script are almost all historical Panji records written?	Tirhuta (Mithilakhar).
5150	Under the patronage of which Maharaja of Darbhanga was the 'Shakha Panji' (branch records) introduced?	Maharaja Madhav Singh.
5151	The term 'Adhogami' in the Panji system refers to what phenomenon?	The downward movement of a family's social rank over generations due to marriage alliances.
5152	What is the 'Mula Panji'?	A record detailing the original ancestral village and root of a lineage.
5153	Which category of Maithil Brahmins is traditionally considered the highest in social rank?	Shrotriya.

5154	Define 'Sapinda' relationship in the context of Mithila's marriage laws.	A relationship sharing common ancestral 'particles', usually spanning up to seven generations.
5155	Which specific work by Kumarila Bhatta argues that high-born individuals preserve their lineage to maintain social and religious integrity?	Tantra Vartika.
5156	In the Rigveda, the word 'Gotra' was initially used to refer to a group of cattle or a ____.	Cloud.
5157	Which specific ancestor constitutes the 'First Chhadwit' (prohibited ancestor point) for a bride?	The girl's great-great-grandfather (Vridhdha Prapitamaha).
5158	What is the purpose of the 'Sakha Panji'?	To track the expansion of lineages into various branches and sub-branches across different villages.
5159	How many generations did Maharaja Mahesh Thakur specify should be excluded on the father's side for a marriage to be valid?	Seven generations.
5160	The modern study of Panji records is increasingly compared to which scientific field?	Genomic mapping.
5161	What was the primary purpose of establishing the 'Panji Prabandha' in medieval Mithila?	To maintain caste purity and regulate marriage eligibility among Brahmins, Kayasthas, and Kshatriyas.
5162	Which historical ruler of the Karnat dynasty is credited with the formalisation of the Panji system in 1326 AD?	Maharaja Harisimhadeva.
5163	In the context of Maithil genealogy, what does the term 'Uteá,h' represent?	The detailed introduction of ancestors (32 lineages) required to determine marriage eligibility.
5164	According to the Panji system, how many generations must be avoided for marriage on the father's side for a 'Panjibaddh' individual?	Six generations.
5165	How many generations must be avoided on the mother's side for marriage eligibility in the Maithil Brahmin community?	Five generations.
5166	What name is given to Brahmins who were not registered in the formal Panji records?	Jaywar.
5167	Who was appointed as the first registrar (Panjekar) for the Karna Kayastha community?	Shankaradatta.
5168	For the Kshatriya community in Mithila, who was the first designated Panjekar?	Vijayadatta.
5169	The total number of 'Gotras' identified within the Maithil Brahmin community is ____.	20
5170	In the Panji Prabandha, what are 'Mulas'?	The original village or ancestral home associated with a specific clan.
5171	How many 'Mula-grams' (original villages) were initially identified in the genealogical records?	167
5172	Out of the 167 Mulas, how many are considered the primary or 'main' Mulas?	34 (later 35 including the Phidha Mula branch).
5173	A Gotra whose ancestors composed five Rigvedic Suktas is categorised as ____.	Panch-pravara
5174	Why is marriage prohibited between the Vatsa and Savarna Gotras despite being separate?	They share the same five ancestral sages (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana).
5175	What is a 'Siddhanta-patra' (also known as Aswajana-patra)?	A certificate issued by a Panjekar confirming that the bride and groom are not related within prohibited degrees.
5176	The term used for the founding ancestor of a specific Mula in the Panji records is ____.	Beeji Purush
5177	Into which three hierarchical categories were Maithil Brahmins divided during the Panji Prabandha?	Shrotriya, Yogya, and Panjibaddh.
5178	What is the primary function of a 'Dosha Panji'?	To record flaws or 'kshatran' (degradation of status) within a specific family lineage.
5179	Which type of Panji record contains details regarding education, titles, and maternal lineages?	Sakha Panji.
5180	Under whose reign was the 'Sakha Panji' (branch records) and the Shrotriya subdivision formally introduced?	Maharaja Madhav Singh.
5181	Term: Chhaidvath	Definition: The 16 specific generational points or relationships checked to ensure no 'Sapinda' (blood relation) overlaps exist before marriage.
5182	In the Chhaidvath calculation, who represents the 'First Chhaidvath' for a girl?	Her paternal great-great-great grandfather (Vridhdha-Prapitamaha).
5183	What is the marriage rule regarding the 'Mother's brother's' children?	Marriage is strictly prohibited with the offspring of the mother's brother.
5184	Which script is traditionally used to maintain the Panji records?	Tirhuta (Mithilakshara).
5185	The genealogical records trace some lineages as far back as ____ AD.	450
5186	What is the 'Shrotriya' requirement for paternal generational avoidance in marriage?	Seven generations.

5187	How does the Panji record distinguish between different branches of the same Mula?	By adding the name of the specific village where that branch settled (e.g., Mandar-Shai-Manccchi).
5188	Which famous mathematician's lineage is recorded in the Mandar Mula of the Panji?	Aryabhata.
5189	According to the Panji, Chaitanya Mahaprabhu was the disciple of which Maithil scholar?	Ilamapati Upadhyay (Katih Mula).
5190	What is the significance of the 'Sapinda' rule in Mithila marriage customs?	It prohibits marriage between individuals sharing a common ancestor within a specific number of generations.
5191	Which historical source text first mentioned the 'Samuha Lekhya' (collective records) used by Brahmins to protect their lineage?	Kumarila Bhatta's 'Tantra Vartika' (7th Century AD).
5192	In the context of the Panji system, what are the 'Pancha Gauda' Brahmin divisions?	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
5193	Which geographical feature serves as the boundary between the Pancha Gauda and Pancha Dravida Brahmins?	The Vindhyachal Mountains.
5194	The majority of Maithil Brahmins follow which two Vedas?	Yajurveda (Madhyandina Shakha) and Samaveda (Kauthuma Shakha).
5195	What is the term for followers of the Madhyandina branch of the Yajurveda in Mithila?	Vajasaneyi.
5196	Followers of the Samaveda Kauthuma branch in Mithila are known as _____.	Chandoga
5197	Which religious authorities define the prohibited degrees of marriage (*Svapakshe*) used in the Panji?	Manu and Yajnavalkya Smritis.
5198	Concept: Mulagram	Definition: The original place of residence of the 'Beeji Purush' (founder) at the time of the Panji's formalisation.
5199	How many Gotras are considered highly organised and populous within the Maithil Brahmin community?	Seven (Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana).
5200	What does 'Siddhanta' signify in the Panji marriage process?	The formal public declaration and authentication of marriage eligibility by the Panjekar.
5201	What was the 'Svapakshe' scandal involving Pandit Hari Nath Upadhyay?	He unknowingly married his own niece due to a lack of genealogical records, prompting the formalisation of the Panji system.
5202	Which Panji type specifically deals with the verification of Sapinda relationships for 6 generations?	Uteá,h Panji.
5203	What is the 'Laukika' in the Shrotriya Panji system?	The specific social standing or 'status' of a family branch based on marriage alliances.
5204	In the Panji hierarchy, who are the 'Yogya' Brahmins?	The second tier of Brahmins, below Shrotriyas but above the basic Panjibaddh group.
5205	Which Gotra is the only one found among the Karna Kayasthas, according to the text?	Kashyapa.
5206	The 'Pancha Dravida' Brahmin groups include Karnataka, Gurjara, Tailanga, Dravida, and _____.	Maharashtra
5207	What is the primary rule for the 'Beeji Purush' identification?	He must be the earliest known common ancestor from whom the Mula branches originate.
5208	In the context of marriage, what does 'Asvajanatva' mean?	The state of not being related within the prohibited degrees (non-cognate).
5209	Which Panji record focuses on individuals from the 'Pachhwari' (Western) region?	Vatnam (Pachhwari Paanth).
5210	What is 'Abhuta-purva' in the context of the Sakha Panji?	It refers to the unique and unprecedented detail of records spanning over 1,000 years, found only in Mithila.
5211	Which Mula is associated with the scholar Modanand Jha, who received the title 'Panji Shastra Martand'?	Moi-Mohi (derived from Mandar).
5212	Who was the 'Beeji Purush' of the Mandar Mula?	Mahamahopadhyaya Trivitrām Bhatta.
5213	The historical document 'Varna Ratnakara' mentions how many Rajput clans in Mithila?	72 (with 64 specifically described).
5214	What is the status of the Panji system among Rajputs today?	It has largely become extinct, though families still avoid marriage within the same village or maternal clan.
5215	Which month is traditionally recommended to dry and maintain the Panji books to prevent damage?	Bhadrapada (when the Sun is in Leo, roughly August-September).
5216	According to the Panji, what happens if an individual marries within their own Gotra?	The offspring is traditionally considered 'Chandala' (outcaste) and the marriage is invalid.
5217	What is the 'Ayanthi Shrestha' category in the Panji?	The first or highest grade of the main Mulas, including Kharaure, Khauware, and Budhabare.
5218	Which Gotra includes the Mula 'Panchobhe'?	Savarna.
5219	The Bharadwaja Gotra includes which famous Mula?	Ekahara (also known as Belaunche).
5220	What is the specific rule for marriage eligibility regarding the mother's sister's children?	Marriage is prohibited with the children of the mother's sister (*Kathamama*).
5221	The 'Panji Prabandha' is described as a 'Genome Mapping' system because it tracks the inheritance of _____.	Genetic traits and lineages (chromosomes) via ancestral records.

5222	What is the historical time frame covered by the 'Panji' genealogical records according to the source material?	450 AD to 2009 AD.
5223	In the context of Mithila's genealogy, what does 'Panji Prabandh' primarily refer to?	A system of genealogical record-keeping established to maintain the purity of castes during marriage.
5224	Which Maithil ruler is credited with formally initiating the Panji system in 1326 AD?	Maharaja Harisimhadeva.
5225	What specific incident involving Pandit Harinath Upadhyay led to the formalisation of the Panji records?	He inadvertently married his first cousin (maternal uncle's daughter) due to a lack of genealogical records.
5226	According to the Panji rules, how many generations must typically be avoided for marriage on the paternal side?	Seven generations.
5227	Into which three hierarchical categories were Maithil Brahmins divided after the Panji classification?	Shrotriya, Yogya, and Panjibaddh.
5228	What happens to the status of a Brahmin who was not registered during the formal Panji census?	They were classified as 'Jaibar'.
5229	How many 'Gotras' (clans) are recognised within the Maithil Brahmin community according to the Panji system?	20
5230	How many 'Muls' (original root villages) were initially identified and classified as primary in the system?	167
5231	What are the two primary Vedic branches (Shakhas) followed by Maithil Brahmins?	The Madhyandina Shakha of the Shukla Yajurveda and the Kauthuma Shakha of the Samaveda.
5232	Maithil Brahmins who follow the Samaveda are commonly known as _____.	Chhandog.
5233	Maithil Brahmins who follow the Shukla Yajurveda are commonly known as _____.	Vajasaneyi.
5234	Identify the five Brahmin groups classified under the 'Pancha Gauda' category.	Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
5235	What is a 'Siddhanta-patra' in the Maithil marriage process?	A certificate issued by a Panjekar confirming that the bride and groom are not prohibited relations.
5236	In the classification of Muls, which group is considered the highest ('Ayanti Shrestha')?	The first category, including lineages like Khardore, Khauare, and Sarisabe.
5237	What is the difference between a 'Tri-pravara' and a 'Pancha-pravara' Gotra?	A Tri-pravara Gotra names three ancestral Rishis, while a Pancha-pravara names five.
5238	Name the three Gotras that follow the 'Pancha-pravara' system in Mithila.	Vatsa, Savarna, and Bharve.
5239	Who was appointed as the first 'Panjekar' for the Maithil Brahmins by Maharaja Harisimhadeva?	Pandit Gunakar Jha.
5240	In the context of the Panji system, what does the 'Chadvith' represent?	The 16 specific ancestral lines (female branches) that must be checked for 'Sapiá'ṛṇa' relationship.
5241	Which specific Gotra is followed by the entirety of the Karna Kayastha community in Mithila?	Kasyapa.
5242	Under whose reign was the 'Sakha Panji' (branch records) introduced to further classify Shrotriyas?	Maharaja Madhav Singh.
5243	How often is it recommended to dry the Panji books to protect them from moisture and insects?	Annually, when the Sun is in the Leo (Simha) constellation (approx. August-September).
5244	What is the function of an 'Adhikara-mala' issued by a Panjekar?	It provides a list of prospective eligible grooms for a specific bride based on her genealogy.
5245	According to the text, what is the 'Pancha-Siddhanta' rule regarding maternal uncles?	A man cannot marry the daughter of his maternal uncle.
5246	The first 'Chadvith' line refers to the _____ of the bride's father.	Paternal great-grandfather's father.
5247	What does the term 'Sapiá'ṛṇa' imply in the context of Brahmin marriage laws?	Sharing a common ancestral body or 'pinda', which prohibits marriage within a certain degree.
5248	Concept: Laukit	Definition: The specific social status or sub-category assigned to Shrotriya Brahmins based on their marriage alliances.
5249	How many 'Chauyala' (hierarchical divisions) exist within the Shrotriya Panji?	Eight.
5250	Which script is traditionally used to record and maintain the Panji books?	Tirhuta (Mithilakshar).
5251	In the list of 20 Gotras, which Gotra lists 'Sandilya, Asit, and Deval' as its Pravaras?	Sandilya.
5252	What is the role of a 'Panjekar' in modern Maithil society according to the text?	To act as a genealogical judge who validates the religious and legal legality of a marriage.
5253	Term: Madhyam Mul	Definition: Lineages considered of intermediate status, such as Dighure, Belonche, and Panchorbe.
5254	Identify the primary source text mentioned that discusses the purity of lineages (Samuha-lekhyā) in the 7th century.	Tantra Vartik by Kumarila Bhatta.
5255	How did Maharaja Harisimhadeva ensure the system remained accurate over generations?	He made the keeping of records a state-appointed duty for specific scholarly families.
5256	In the Panji system, what is an 'Asvajan-patra'?	A certificate used when a marriage is established to be outside the prohibited degrees (non-blood relation).

5257	Which Gotra is associated with the 'Oini' and 'Maudar' Muls?	Kasyapa.
5258	What distinguishes the Samavedi 'Upnayan' (thread ceremony) from the Yajurvedi one in Mithila?	The Samavedi ceremony includes four specific rituals (Namkaran, Chuda-karan, Upnayan, Samavartan) as a single sequence.
5259	According to the text, why were the Panji records termed 'Genome Mapping'?	Because they scientifically track genetic lineages to prevent inbreeding and maintain hereditary traits.
5260	What is a 'Behat' branch in the context of the 'Krimha' Mul?	A specific sub-branch or village-based lineage of the Krimha Mul.
5261	Which historical record-keeping format describes ancestors and their titles, such as 'Mahamahopadhyaya'?	The Sakha Panji.
5262	According to the Dushana Panji, what category of relationship is 'Chamar-karini'?	A marriage alliance or descent involving a person of the cobbler caste, noted as a genealogical fault.
5263	What is the significance of the year 1248 Shaka in the history of Mithila?	It is the year Maharaja Harisimhadeva established the Panji system (1326 AD).
5264	In the Panji records, what does the term 'Pachhwari-par' refer to?	Maithil Brahmins who are not in the Shrotriya category.
5265	Which Gotra is associated with the Pravaras 'Shakti, Vashistha, and Parashar'?	Parashar.
5266	What is the 'Prathama Chadvith' rule?	Marriage is prohibited if the bride is within the 6th degree of descent from her father's paternal great-great-grandfather.
5267	Name the Brahmin group that traditionally occupies the territory of modern-day Odisha.	Utkala.
5268	The 'Pancha Dravida' Brahmins reside primarily to the _____ of the Vindhya range.	South.
5269	What is the purpose of the 'Mul' suffix in a Maithil Brahmin's identity (e.g., 'Kujore-Mul')?	It identifies the ancestral village from which the family line originated.
5270	What was the primary purpose of the 'Panji Prabandh' system established in medieval Mithila?	To ensure caste purity and social status for Brahmins, Kayasthas, and Kshatriyas.
5271	In the Maithil Panji system, what is meant by the term 'Uderh'?	The detailed introduction and identification of seven generations of ancestors.
5272	How many specific ancestors must be identified to establish a complete 'Uderh'?	Thirty-two ancestors.
5273	What are the marriage exclusion rules for Shrotriya Brahmins regarding maternal and paternal lineages?	Five generations must be avoided on the maternal side and seven on the paternal side.
5274	What is the marriage exclusion rule for Panjibaddha Brahmins regarding paternal lineage?	Six generations must be avoided on the paternal side.
5275	In the Panji system, what happened to Brahmins who were not formally registered ('Panjibaddha')?	They were classified as 'Jayabaar'.
5276	How many primary Gotras (lineages) are recognised in the Maithil Brahmin community?	Twenty Gotras.
5277	According to the Panji Prabandh, what is the 'Mool' of a person?	The name of the original ancestral village of their earliest known ancestor.
5278	What term is used to describe the founding ancestor of a lineage in a Panji record?	Beeji Purush.
5279	In Maithil Brahmin terminology, what defines a 'Pravara'?	The specific ancestors who were original composers of Rigvedic hymns.
5280	How does a 'Tri-pravara' lineage differ from a 'Panch-pravara' lineage?	A Tri-pravara lineage has three hymn-composing ancestors, while a Panch-pravara has five.
5281	Name the three Gotras that typically belong to the 'Panch-pravara' category.	Vatsa, Savarna, and Bharadwaj (though Bharadwaj is often Tri-pravara, Vatsa and Savarna are the primary examples).
5282	Into how many broad categories did Puranic tradition divide the Brahmins of India?	Ten categories, split into Panch Gauda and Panch Dravida.
5283	What geographical feature acts as the boundary between the 'Panch Gauda' and 'Panch Dravida' Brahmin groups?	The Vindhychal mountain range.
5284	Which two Vedas are the Maithil Brahmins primarily followers of?	Yajurveda (Madhyandini Shakha) and Samaveda (Kauthuma Shakha).
5285	What is the traditional name for Maithil Brahmins who follow the Yajurveda?	Vajasaneyi.
5286	What is the traditional name for Maithil Brahmins who follow the Samaveda?	Chhandog.
5287	How do Chhandog and Vajasaneyi marriage rituals differ regarding timing?	Chhandog marriages usually occur in two parts (at sunset), whereas Vajasaneyi rituals have no such timing restriction.
5288	Which historical King of the Karnata dynasty is credited with formalising the Panji system in 1326 AD?	Maharaja Harisimhadeva.
5289	Who was the first 'Panjika' (genealogist) appointed by King Harisimhadeva?	Gunaakara Jha.
5290	In the context of marriage eligibility, what are the 'Chadvith'?	Sixteen specific ancestral positions (8 maternal and 8 paternal) checked to ensure no overlapping lineage.
5291	How many main 'Mools' (ancestral villages) were initially identified for Maithil Brahmins?	167 Mools.

5292	Identify the two main divisions of the 'Panch Gauda' group according to the text.	Utkal, Kanyakubja, Gauda, Maithil, and Saraswat.
5293	What are the three ancestors associated with the Shandilya Gotra Pravara?	Shandilya, Asit, and Deval.
5294	Which text from the 7 th century refers to 'Samuha Lekhya' as a precursor to communal genealogical records?	Tantra Vartika by Kumarila Bhatta.
5295	According to Kumarila Bhatta, why did Brahmins and Kshatriyas maintain 'Samuha Lekhya'?	To prevent the forgetting of ancestral traditions and to monitor the qualities or defects of lineages.
5296	What social rank is immediately below the Shrotriya in the Maithil Brahmin hierarchy?	Yogyia.
5297	How many sub-categories or 'Panjis' exist for the Shrotriya class?	Thirty-two Panjis.
5298	What is the significance of the month of Simha Rashi (approx. 16 August to 15 September) for Panji preservation?	It is the recommended time to dry and air the Panji books to protect them from moisture and pests.
5299	In the Panji system, what is a 'Dushana Panji'?	A record of defects or lapses that have occurred within a specific lineage over time.
5300	What specific Gotra is held by all members of the Karn Kayastha community according to the text?	Kashyap Gotra.
5301	The 'Sakha Panji' is noted for tracing lineage back over how many years?	Over 1000 years.
5302	In the provided text, what does the 'Gnome Mapping' (Genome Mapping) title signify in a traditional context?	It compares the ancient meticulous recording of DNA/lineage through Panjis to modern genetic mapping.
5303	Who was the first genealogist appointed for the Kshatriya (Rajput) community in Mithila?	Vijayadatta.
5304	How many Rajput clans are documented in the historical text 'Varna Ratnakara'?	Seventy-two clans (though only 64 are described in detail).
5305	According to the Smritis (Manu and Yajnavalkya), marriage is prohibited if the bride is a _____ of the groom's mother or father.	Sapinda (consanguineous relative).
5306	What does the 'Laukika' signify in the context of Shrotriya Panjis?	It refers to the specific branches or sub-categories within the Shrotriya group.
5307	Which Maithil Maharaja introduced the 'Sakha Panji' and created social divisions like Shrotriya during his reign?	Maharaja Madhav Singh.
5308	The term 'Beeji' in a Panji record identifies the _____ of that particular Mool.	Original ancestor/progenitor.
5309	In the Panji classification, what is a 'Moolgram'?	The specific village where a branch of a 'Mool' eventually settled and became identified with.
5310	What is the 'Asapinda' rule mentioned in the Smritis?	The requirement that a bride must not share the same sacrificial cake (Pinda) lineage as the groom's parents.
5311	How does the text define the status of 'Jayabaar' Brahmins in relation to marriage?	They are those who lost their genealogical records or failed to maintain the 'Panji' status.
5312	What are the two 'Urdhwavadhi' (vertical) divisions of Brahmins based on Vedic rituals?	Chhandogya and Vajasaneyi.
5313	Identify one of the primary reasons listed for the regional diversification of Brahmins in ancient India.	Specific climates, languages, diets, and difficulty in travelling between regions.
5314	Which ancestral position constitutes the 'First Chadvith' for a girl's marriage eligibility?	The great-grandfather's great-grandfather (Vridha-Prapitamaha's Prapitamaha).
5315	What is the 'Patra Panji'?	A record detailing the 'Moolgrams' (settled villages) of various lineages, in use for about 500 years.
5316	Name the five 'Panch Dravida' Brahmin groups.	Karnat, Gurjar, Tailang, Dravid, and Maharashtra.
5317	The text mentions that King Harisimhadeva formalised the Panji system following a social scandal involving which scholar?	Pandit Harinath Upadhyaya (who inadvertently married a close relative).
5318	What was the result of the marriage of Harinath Upadhyaya that led to the Panji reform?	It was discovered he had married his first cousin's daughter (his niece) due to lack of records.
5319	In the context of the Panji, what does 'Ayanthi Shrestha' refer to?	The first/highest category of Mools (e.g. Kharaure, Khauare).
5320	What are 'Madhyam Mools'?	The middle-tier ancestral lineages such as Dighwe, Belaunche, and Ekahate.
5321	How is the 'Siddhanta' ceremony performed today?	The Panjkar verifies the lineages and publicly announces the eligibility of the couple before the marriage.
5322	What does the Panji record indicate about the ancestors of the famous poet Vidyapati?	It traces his lineage through seven generations before him and his descendants up to the present day.
5323	Identify the Gotra of the 'Oini' Mool, a prominent Maithil Brahmin lineage.	Kashyap Gotra.
5324	What is the 'Chhandogya' equivalent of the 'Vajasaneyi' Upanayana (sacred thread) ritual?	The Chhandogya ritual includes four samskaras: Namakarana, Chudakarana, Upanayana, and Samavartana.
5325	Why is it traditionally advised to dried Panji books in the sun during the month of Shravana/Bhadrapada?	Because the heat is most intense ('Karvi Dhaun') and effective for killing book-damaging insects.
5326	According to the Panji theory, what modern biological concept is most similar to the 'Gotra' system?	The Y-chromosome lineage passed down from a single male ancestor.

5327	What happens if a Panjekar discovers a 'Dushana' (defect) in a lineage during verification?	The marriage might be halted or the social status of the family in the Panji hierarchy might be lowered.
5328	Which historical figure is mentioned as having a Pravara including 'Shakti, Vashishtha, and Parashar'?	The progenitor of the Parashar Gotra.
5329	In the Maithil Brahmin context, what is a 'Moolgram' suffix (e.g., 'Sarisab' in 'Sodarpur-Sarisab')?	It indicates the specific village where that branch of the Sodarpur Mool settled.
5330	Which historical ruler is credited with institutionalising the Panji system in 1326 AD (Saka 1248)?	Maharaja Harisimhadev of the Karnata dynasty.
5331	According to the Panji system, what is 'Uderh'?	The detailed introduction of seven generations of ancestry required for marriage verification.
5332	In the Maithil Brahmin community, how many distinct 'Gotras' (clans) are recognised?	20
5333	How many paternal generations must be avoided to satisfy marriage eligibility rules?	Seven (often modified to six in practice).
5334	How many maternal generations must be avoided for a marriage to be considered valid?	Five.
5335	What are the three main social hierarchical categories established for Brahmins under the Panji system?	Shrotriya, Yogya, and Panjibaddh.
5336	The term 'Mul' in the Panji system refers to a family's ____.	Original ancestral lineage or root.
5337	What does the term 'Mulgram' represent in Mithila genealogy?	The specific ancestral village associated with a particular lineage.
5338	How many total 'Muls' (lineages) are recorded for the Brahmin community in the source material?	167
5339	Which two Gotras are prohibited from intermarrying because they share the same ancestors despite being distinct names?	Vatsa and Savarna.
5340	What is a 'Siddhanta Patra' (or Asvajanajanit Patra)?	A certificate issued by a Panjekar confirming that a couple is not prohibited from marrying by blood relation.
5341	In genealogical terms, what does 'Pravar' denote?	Ancient sage ancestors who were original composers of Vedic hymns.
5342	What is the difference between 'Tri-pravar' and 'Panch-pravar'?	Tri-pravar identifies three ancestral sages, while Panch-pravar identifies five.
5343	Which Brahmin Gotras belong to the 'Panch-pravar' category?	Vatsa, Savarna, and Gargya.
5344	Who was the first Panjekar appointed by Maharaja Harisimhadev?	Pandit Gunakar Jha.
5345	Which Maithil community has only one Gotra (Kashyap) and relies entirely on 'Mul' for marriage eligibility?	Karan Kayasthas.
5346	How many 'Chhatth' (ancestral relationship paths) must be checked for marriage eligibility?	16
5347	Under the 'Chhatth' rule, a person is ineligible for marriage if they are within the ____ generation of any of the 16 specified ancestors.	Sixth.
5348	How many 'main' Muls were originally identified, including the later addition of the Khadaur branch?	35
5349	The 'Sakha Panji' is a specialised book that tracks lineage up to ____ years back.	1000
5350	Why was the Panji system extended to Kshatriyas (Rajputs) in Mithila historically?	To manage their 72 (later 36) clans and ensure marriage outside prohibited degrees.
5351	Which text by Jyotirishwar Thakur mentions Harisimhadev and the social structures of the time?	Varna Ratnakar.
5352	The 20 Brahmin Gotras include Shandilya, Vatsa, Savarna, Kashyap, Parashar, Bharadwaj, Katyayan, Gargya, Kaushik, and ____.	Alambakaksh (among others such as Gautam and Vasishtha).
5353	What determines if a Brahmin is 'Panch-pravar'?	Having five ancestors who composed hymns in the Rig Veda.
5354	How many Panji books (Panjis) are associated with the 'Shrotriya' category?	32
5355	How many Panji books are associated with the 'Yogya' and 'Panjibaddh' categories?	153
5356	According to the source, why did Brahmins differentiate into different groups like Maithil, Gaur, and Utkal?	Due to geographical migration, local climate, food, language, and culture.
5357	Which Vedic branch (Shakha) is followed by the 'Vajasaneyi' Maithil Brahmins?	The Madhyandini branch of the Shukla Yajur Veda.
5358	Which Vedic branch is followed by the 'Chhandog' Maithil Brahmins?	The Kauthum branch of the Sama Veda.
5359	What is the primary difference in marriage timing between Chhandog and Vajasaneyi Brahmins?	Chhandogs marry after seeing the star Arundhati (post-sunset), while Vajasaneyi have no such restriction.
5360	The historical mapping of the Panji theory is said to span from ____ AD to 2009 AD.	450
5361	Which scholar's 'Tantra Vartik' is cited as the first to mention 'Samuha Lekhya' (group records) in the 7th Century?	Kumarila Bhatta.

5362	What was the catalyst for Maharaja Harisimhadev to formalise the Panji system?	A high-ranking Pandit unknowingly married his first cousin, causing a social scandal.
5363	The list of 'Chhatth' (16 ancestors) includes the father's paternal grandfather's father and the mother's ____.	Maternal grandfather's father (among others).
5364	What is the 'Laukik' in the context of Shrotriya Panjis?	A sub-division or category within the Shrotriya genealogical records.
5365	How many 'Chauwal' (categories) are the Shrotriya Panjis divided into?	Eight.
5366	Who was the first person assigned to manage the Panji of Karn Kayasthas?	Shankardatta.
5367	Who was the first person assigned to manage the Panji of the Kshatriyas?	Vijaydatta.
5368	What is 'Uderh Panji' used for?	Determining 'Sapinda' relationships and tracking six generations of ancestors.
5369	Which Panji type records the 'kshayan' (decay) or specific flaws in a lineage?	Dushana Panji.
5370	What must a groom or bride's side do 5-10 years before a marriage?	Prepare an 'Uderh' list to check for potential eligible grooms/brides.
5371	The 3rd 'Chhatth' relationship involves the daughter of the maternal grandfather's ____.	Father.
5372	True or False: A person can marry the child of their step-mother's brother.	False (prohibited by Rule 4).
5373	What is the 'Svapinda' rule regarding the father's side?	One should not marry within the same 'Pinda' for seven generations.
5374	What is the 'Svapinda' rule regarding the mother's side?	One should not marry within the same 'Pinda' for five generations.
5375	How many Gotras are listed in the 'Tri-pravar' list?	16
5376	Name one Gotra from the 'Tri-pravar' list starting with 'S'.	Shandilya.
5377	According to the Panji system, what happens to the status of a child born from a 'Svajan' (prohibited) marriage?	The child is considered 'Chandal' and the family is excluded from the Aryan social order.
5378	What is the significance of the ancestral village names like 'Behat', 'Bhaura', or 'Lohna' in the Panji?	They serve as 'Mulgrams' to distinguish different branches of the same 'Mul'.
5379	Which Maithil King ordered the creation of 'Sakha Panjis' during the 18th Century?	Maharaja Madhav Singh.
5380	The 'Pancha Gauda' Brahmin groups include Utkal, Kanyakubja, Gauda, Maithil, and ____.	Saraswat.
5381	What geographical feature traditionally separates the 'Pancha Gauda' from the 'Pancha Dravida' Brahmins?	The Vindhyachal mountains.
5382	Which Gotra is associated with the 'Oini' and 'Mandaich' Muls?	Kashyap.
5383	The 'Shandilya' Gotra includes Muls like Digbo, Sarisab, Mahua, and ____.	Paboli (or Paroli).
5384	The Panji system is compared to modern ____ because it tracks biological lineage over centuries.	Genome Mapping.
5385	Which month is traditionally recommended to dry and preserve Panji manuscripts to protect them from insects?	The month when the Sun enters Leo (August-September).
5386	The 'Asvapinda' status is required for marriage. What does 'Asvapinda' mean?	Not related within the prohibited degrees of blood (Sapinda).
5387	Which 13th-century philosopher's lineage is famously tracked in the Sakha Panji?	Vidyapati Thakur.
5388	What is the mnemonic listed for protecting Panji books from damage?	Protect from water, oil, and loose binding (Jalat raksh, tailat raksh, raksh sthul bandhanat).
5389	In the context of the Panji, what is 'Beeji'?	The primary root or 'seed' ancestor from whom a lineage descends.
5390	Why is the Panji considered unique globally?	It is a continuous, written genealogical record spanning over 1000 years for an entire community.
5391	What are the two major divisions of Maithil Brahmins based on geography?	Pubari (Eastern) and Pachhabari (Western).
5392	Which category of Brahmins is generally associated with 'Pubari' status?	Shrotriya.
5393	Which category of Brahmins is generally associated with 'Pachhabari' status?	Panjibaddh/Yogya.
5394	How does the Panji track 'social migration'?	By recording the 'Mulgram' (original village) and subsequent 'Deragram' (settled village).
5395	Which Gotra is mentioned as having ancestors including Atri and Sankriti?	Vasishtha.
5396	Which Gotra is mentioned as having ancestors including Kashyap, Avatsar, and Naidhruva?	Kashyap.

5397	What is the significance of the year 1248 Saka in the source material?	It marks the formal adoption of the Panji system by the Maithil community.
5398	Which scholar's work on 'Genome Mapping' is this text excerpted from?	Gajendra Thakur.
5399	Which historical period is covered by the 'Panji' genealogical mapping described in the text?	\$450\$ AD to \$2009\$ AD.
5400	The ruler of Mithila traditionally credited with formalising the Panji system in \$1326\$ AD is _____.	Maharaja Harisimhadeva.
5401	Which three social groups in Mithila originally maintained Panji records?	Brahmins, Kayasthas, and Kshatriyas (Rajputs).
5402	In the context of Panji marriage eligibility, what does the term 'Udhedh' refer to?	The detailed introduction and identification of seven generations of ancestors.
5403	To determine marriage eligibility in the Panji system, an individual must provide an introduction to _____ distinct ancestral lines (Kulas).	\$32\$.
5404	Under the Panji system, marriage is prohibited if the bride and groom share a common ancestor within how many generations on the paternal side?	Seven generations.
5405	How many 'Gotras' (clans) are officially recognised among Maithil Brahmins according to the source?	\$20\$.
5406	Maithil Brahmins are classified as part of which larger group of five northern Brahmin communities?	Pancha Gauda.
5407	The five Brahmin communities belonging to the 'Pancha Gauda' group are Utkala, Kanyakubja, Gauda, Maithil, and _____.	Saraswat.
5408	What geographic feature divides the 'Pancha Gauda' Brahmins from the 'Pancha Dravida' Brahmins?	The Vindhychal mountain range.
5409	In the Maithil Panji system, what does the term 'Biji Purusha' signify?	The earliest known ancestor or the founder of a specific family lineage.
5410	What does a 'Mula' represent in the genealogical record of a Maithil Brahmin?	The original village or place of origin of their family lineage.
5411	How many total 'Mulas' (original villages) are identified for Maithil Brahmins in the records?	\$167\$.
5412	How many 'Mulas' are considered the primary or 'Mukhya' ones among the total \$167\$ identified?	\$34\$ (or \$35\$ including the Khamu branch of the Phandah Mula).
5413	Marriage is strictly prohibited between the Vatsa and Savarna Gotras because _____.	They share the same ancestors.
5414	The specialised scholars who maintain, update, and verify the Panji records are known as _____.	Panjikars.
5415	Name the seven most populous and well-organised Gotras among Maithil Brahmins.	Shandilya, Vatsa, Kashyapa, Savarna, Parashara, Bharadwaja, and Katyayana.
5416	What is the difference between 'Tri-pravara' and 'Pancha-pravara' in Maithil Brahmin families?	It refers to the number of distinguished ancestors (three or five) who were seers or composers of Vedic hymns.
5417	Which Gotras are classified as 'Pancha-pravara' (having five Pravaras)?	Vatsa, Savarna, and Bharve.
5418	According to the text, what is the 'Chhadwith' (or Chhad-vastha) in the context of marriage verification?	A list of \$16\$ specific ancestors (six positions deep) checked to ensure no 'Sarpinda' (shared blood) relationship exists.
5419	Which category of Maithil Brahmin Panji is specifically known as 'Laukika'?	The Panji associated with the 'Shrotriya' category.
5420	The 'Shrotriya' Brahmins are categorised into how many 'Chauwalas' (grades)?	Eight.
5421	What are the two major divisions of Maithil Brahmins based on geographic orientation in Panji records?	Pubari (Eastern) and Pachhabari (Western).
5422	Who was the first Panjika appointed for Karna Kayasthas by Maharaja Harisimhadeva?	Shankardutta.
5423	Who was the first Panjika appointed for Maithil Brahmins by Maharaja Harisimhadeva?	Gunakar Jha.
5424	The term used for Maithil Brahmins who did not enter the formal Panji registration initially is _____.	Jaibar.
5425	Which Maithil Maharaja introduced the 'Shakha Panji' and the social grading system (Shrotriya, etc.) in the \$18^{th}\$ century?	Maharaja Madhav Singh.
5426	The Samavedi (Chhandogya) marriage ritual includes a distinctive practice of looking at which star after sunset?	Arundhati (the North Star).
5427	In Karna Kayasthas, only one Gotra is traditionally recognized. Which one is it?	Kashyapa.
5428	Concept: Sarpinda	Definition: Individuals sharing a common physical/ancestral body, within which marriage is prohibited by Shastras.
5429	Term: Shrotriya	Definition: The highest social rank of Maithil Brahmins in the graded Panji system.

5430	Term: Yogya	Definition: The second social rank of Maithil Brahmins, below Shrotriya but above Panjibaddh.
5431	Which philosopher mentioned 'Samuha-lekhyā' (group records) in the 7 th century, foreshadowing the Panji system?	Kumarila Bhatta (in Tantra-Varttika).
5432	What does the 'Mula Panji' record?	The original village records and the primary lineages associated with those villages.
5433	The 1st 'Chhadwith' involves checking the lineage of the bride's paternal great-great-grandfather (\$Vridha-Prapitamaha\$). True or False?	True.
5434	In Panji records, if a lineage is recorded as 'Agnyata' (unknown), what does it imply?	The specific maternal or ancestral line was not verifiable at the time of recording.
5435	What is the significance of the year 1326 AD (Saka 1248) in Mithila history?	It marks the formal institutionalisation of the Panji Prabandh by the state.
5436	Which group of Maithil Brahmins are known as 'Vajasaneyi'?	Followers of the Madhyandina branch of the Shukla Yajurveda.
5437	The rule 'Matritah Panchami, Pitritah Saptami' refers to marriage exclusions within which generations?	Exclusion of five generations from the mother's side and seven (or six) from the father's side.
5438	Which individual is identified as the 18 th descendant of the original Panjekar Gunakar Jha?	Modanand Jha.
5439	The system of grading families as Shrotriya or Yogya is often criticized for leading to which social evil in the past?	Bikaua (Kulinism) or excessive polygamy based on status.
5440	What is the 16 th 'Chhadwith' position checked during marriage verification?	The bride's maternal grandmother's maternal great-grandfather (\$Matri-matamahi-matri-matamaha\$).
5441	Which historical Maithil scholar's marriage to his maternal cousin led to the standardisation of Panji records?	Pandit Harinath Upadhyaya.
5442	The 'Pancha Dravida' group includes Brahmins from Karnataka, Tailanga, Dravida, Maharashtra, and _____.	Gurjara.
5443	According to the text, why did regional differences arise among Brahmins despite a common Vedic origin?	Differences in climate, language, diet, clothing, and geographic isolation.
5444	The term 'Panjibaddh' refers to those Brahmins whose names are _____.	Officially included/registered in the Panji records.
5445	Why is the Panji system compared to 'Genome Mapping' in the modern context?	Because it tracks hereditary data and genetic lineage through hundreds of generations to prevent inbreeding.
5446	Which Gotra includes the Mula 'Oini', famous for the Oiniwar dynasty of Mithila?	Kashyapa.
5447	The 'Vridha-Prapitamaha' of a bride corresponds to which 'Chhadwith' position?	The first (1 st) position.
5448	Does the Maithil marriage ceremony for Vajasaneyis require observing the Arundhati star?	No, that is specifically a Samavedi (Chhandogya) tradition.
5449	Which Panji record specifically tracks 'Kshetra' (regions) where lineages migrated?	Patha Panji.
5450	Who was the Kshatriya Panjekar appointed by Maharaja Harisimhadeva?	Vijayadutta.
5451	Term: Samuha-lekhyā	Definition: Written records of family history maintained to preserve lineage purity and avoid forgetfulness.
5452	Which Mula is associated with the great Maithili poet Vidyapati?	Bisaphi (under the Kashyapa Gotra).
5453	The Panji records identify that the maternal ancestors of Vatsa and Savarna Gotras are the same. True or False?	True.
5454	What is the meaning of 'Asvapana' or 'Asvajana' in the context of marriage?	Not related; not belonging to the same immediate bloodline.
5455	In the 13 th century, why did common people stop maintaining their own genealogical records?	General decline in tradition and lack of scholarly focus, leading to accidental near-incestuous marriages.
5456	The rule for maternal side exclusion (Panchama) was strictly enforced to avoid marriages within _____ generations.	Five.
5457	Under whose instructions were the Panji records transliterated from Tirhuta to Devanagari in the modern era?	Gajendra Thakur and colleagues (as part of the Digital Imaging project).
5458	In the Panji system, what happens if an individual's name is not found in the records?	They are considered 'Jaibar' and may face difficulty in contracting marriages with Panjibaddh families.
5459	The 'Pubari' Brahmins are generally associated with which ranking in the Shakha Panji?	Shrotriya.
5460	The 'Pachhabari' Brahmins are generally associated with which ranking in the Shakha Panji?	Yogya and Panjibaddh.
5461	Which document is essential to obtain before a Maithil Brahmin marriage can be formalised?	The Siddhanta (clearance from the Panjekar).
5462	Which Mula under the Parashara Gotra is associated with the scholar M.M. Mahesh Thakur?	Kharaure (or Khauri).
5463	The term 'Saka 1019' in the text refers to which king's arrival/ascension in Mithila?	Maharaja Nanyadeva (founder of the Karnata dynasty).
5464	How many Pravaras does the Shandilya Gotra have?	Three (Shandilya, Asita, and Devala).

5465	According to the text, a marriage is 'Ashastriya' (against scriptures) if it occurs without a ____.	Siddhanta certificate.
5466	During which historical period was the Panji Prabandh system formally established?	The late medieval period (specifically around 1326 AD).
5467	Which social groups in Mithila originally followed the Panji Prabandh system?	Brahmins, Kayasthas, and Kshatriyas.
5468	In the context of Panji Prabandh, what is defined as 'Udegh'?	The detailed introduction of seven generations of ancestors required for marriage clearance.
5469	How many ancestors' introductions are ideally required to establish a complete 'Udegh' for marriage eligibility?	Thirty-two.
5470	According to the system, how many generations must be avoided on the father's side for a Shrotriya Brahmin marriage?	Seven generations.
5471	For general 'Panjibaddh' individuals, how many generations must be avoided on the father's side for marriage?	Six generations.
5472	How many generations must typically be avoided on the mother's side for marriage eligibility in the Panji system?	Five generations.
5473	How many major 'Gotras' (clans) are identified within the Maithil Brahmin community?	Twenty.
5474	How many 'Muls' (root lineages) and 'Mulgrams' (ancestral villages) were initially established in the system?	167
5475	Which King of the Karnata dynasty is credited with the formalisation of the Panji records in 1326 AD?	Maharaja Harisimhadeva.
5476	In the Shaka calendar, what year marks the formal start of the Panji Prabandh?	Shaka 1248.
5477	What name is given to Maithil Brahmins who follow the Madhyandina branch of the Shukla Yajurveda?	Vajasaneyi.
5478	Which two Gotras are prohibited from intermarrying because they share the same sage ancestors despite having different names?	Vatsa and Savarna.
5479	Who was the first 'Panjika' (genealogist) appointed by King Harisimhadeva for the Brahmins?	Gunakar Jha.
5480	Which philosopher's work 'Tantravarttika' provides an early reference to 'Samuh Lekhya' (collective lineage records)?	Kumarila Bhatta.
5481	What is the purpose of the 'Siddhanta Patra' (Certificate of Eligibility)?	To document that the bride and groom are not related within prohibited degrees.
5482	What term describes the first known ancestor of a specific lineage in the Panji system?	Beeji Purush.
5483	The 'Panch-Gaud' category of Brahmins includes Utkal, Kanyakubja, Gauda, Saraswat, and ____.	Maithil.
5484	The 'Panch-Dravida' category refers to Brahmins residing south of which mountain range?	Vindhyachal.
5485	What is the definition of 'Swajana' in the context of Mithila marriage laws?	A person related within the prohibited degrees of consanguinity with whom marriage is forbidden.
5486	Who was appointed as the primary Panjika for the Karna Kayastha community?	Shankardutt.
5487	In the Samaveda tradition of Mithila, marriage ceremonies are divided into which two parts?	Purva Vivah and Uttara Vivah.
5488	What astronomical event marks the conclusion of the 'Uttara Vivah' for Chhandog Brahmins?	The sighting of the star Arundhati after sunset.
5489	How many levels of 'Shrotriya' Brahmins were traditionally classified after the reforms of Maharaja Madhav Singh?	Eight.
5490	What is the total number of 'Panjis' (record books) typically maintained for the 'Yogya' and 'Vanshaj' categories?	153
5491	What is the 'Laukika' in the context of Shrotriya Panji records?	A classification system used specifically for the Shrotriya subgroup's marriage groups.
5492	The term 'Pachhwari-par' refers to which group of Maithil Brahmins?	Non-Shrotriya Brahmins (Yogya, Panjibaddh, and Jaywar).
5493	How should Panji manuscripts be protected according to traditional guidelines ('Jalat Raksha...')?	From water, oil, and loose binding.
5494	What is the significance of the month when the Sun enters Leo (Singh Rashi) for Panji preservation?	It is the time recommended to dry the manuscripts in the sun to prevent decay.
5495	What document lists potential grooms for a girl based on lineage compatibility before a marriage is fixed?	Adhikar Mala.
5496	What term is used for the sixteen specific kinship positions ('Chhatth') checked for marriage eligibility?	Chhatth (Sixth-degree relations).
5497	If a common ancestor appears in the sixth degree of both the bride and groom's paternal lineages, is marriage permitted?	No.
5498	Under what kinship condition does an ancestor appearing in the 'Chhatth' (sixth degree) allow for marriage?	If the relation is through the groom's maternal side.
5499	What does the 'Mul Panji' record?	The basic ancestral root and village of a lineage.

5500	Why is marriage with the daughter of a mother's brother prohibited?	It violates the rule against marrying within the maternal 'Sapinda' (cousin prohibition).
5501	Which historical Maithil poet's 19-generation lineage is preserved in the Panji records?	Vidyapati Thakur.
5502	Which Gotra does the Beeji Purush 'Trivikram Bhatta' belong to?	Sandilya.
5503	What modern scientific concept is 'Panji Prabandh' often compared to in the text?	Genome Mapping.
5504	What is the 'Mukhya Mul' count after the inclusion of the 'Phandah' branch?	Thirty-five.
5505	Which class of Maithil Brahmins was historically considered the highest in the social hierarchy?	Shrotriya.
5506	What is the literal meaning of 'Beeji Purush' in genealogical terms?	The 'Seed Man' or the founding patriarch of a clan.
5507	The rule 'Matritah Panchamim Tyaktwa Pitritah Saptamim' refers to avoiding _____ generations on the mother's and _____ on the father's side.	Five; Seven.
5508	Which Brahmin subgroup is known as 'Chhandog'?	Followers of the Samaveda.
5509	Who was Chaitanya Mahaprabhu's teacher mentioned in the Panji records as a Maithil Brahmin?	Ramapati Upadhyaya.
5510	What is the 'Siddhanta' in the Maithil marriage process?	The final approval from a Panjika confirming the marriage is non-incestuous and lawful.
5511	Which ancestor is considered the 'First Chhatth' in a girl's lineage check?	The father of the paternal great-great-grandfather (Vridha Prapitamah).
5512	What was the cause of Pandit Harinath Upadhyaya's controversial marriage that led to the system's formalisation?	He unknowingly married his own niece due to a lack of lineage records.
5513	In the 20 Gotras, which one is 'Katyayana'?	A Tri-pravar Gotra with ancestors Katyayana, Vishnu, and Angirasa.
5514	Which text is the source of the rule 'Asapinda cha ya matuh...' regarding marriage restrictions?	Manusmriti.
5515	Which Gotra only has one branch in the Karna Kayastha community?	Kashyap.
5516	How many 'Pravar' sages are associated with the 'Vatsa' Gotra?	Five (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana).
5517	What geographical boundary separates 'Panch Gauda' from 'Panch Dravida' Brahmins?	The Vindhya Mountains.
5518	What is the status of a child born from a marriage between 'Swajana' (forbidden relatives)?	They were historically considered 'Chandal' (socially outcaste).
5519	Which scholar served as the chief examiner for the 'Panjishastra Martand' title in the 20th century?	Mahamahopadhyaya Sir Ganganath Jha.
5520	What are 'Jaywar' Brahmins?	Brahmins who were not formally recorded in the initial Panji registration.
5521	The 'Pari panji' has been in use for approximately how many years?	500 years.
5522	Which type of Panji specifically tracks 'Sapinda' relationships up to six generations?	Udegh Panji.
5523	Which Gotra is associated with the 'Shakti, Vashishtha, and Parashar' pravars?	Parashar.
5524	What is 'Samuh-Lekhya'?	Collective written family records that document the merits and flaws of a lineage.
5525	In the Maithil system, 'Siddhanta' must be obtained before which event?	The marriage ceremony.
5526	The Panji system records the marriage of a Brahmin with a 'Dasi' or non-Brahmin as a _____.	Dushana (flaw or transgression).
5527	Which King introduced the 'Sakha Panji' to create the Shrotriya and non-Shrotriya divisions?	Maharaja Madhav Singh.
5528	What script is referred to as the 'soul' of the Panji Prabandh?	Tirhuta.
5529	Why is the record of 'Beeji Purush' and 'Mulgram' considered the most useful for genealogical tracking?	They provide a fixed ancestral point for all diverging family branches.
5530	How many 'Chhatth' (prohibited kinship points) are officially calculated in the system?	Sixteen.
5531	In which historical period did the 'Panji Prabandh' system formally begin?	The late medieval period, specifically around 1326 AD (1248 Saka).
5532	Which ruler is credited with initiating the systematic preservation of Panji records in Mithila?	Maharaja Harisimhadeva.
5533	The introduction of thirty-two specific ancestral lineages required for a Brahmin's genealogical identity is known as _____.	Udeh
5534	What are the three main social groups for whom the Panji system was originally established?	Brahmins, Kayasthas, and Kshatriyas.

5535	How many total 'Gotras' are identified among the Maithil Brahmin community?	20
5536	According to the Panji rules, how many generations must be avoided for marriage on the mother's side?	5 generations.
5537	According to the Panji rules, how many generations must be avoided for marriage on the father's side?	7 generations (sometimes modified to 6).
5538	What term is used for those whose names were formally recorded in the genealogical registers?	Panjibaddh
5539	The primary genealogical ancestor of a lineage is referred to as the _____.	Beeji Purush
5540	How many 'Mools' (original ancestral kernels) were initially identified for Maithil Brahmins?	167
5541	Of the 167 Mools, how many are considered the 'main' or primary Mools?	34 (later expanded to 35).
5542	Concept: Panch-Pravar	Definition: A lineage claiming descent from five sages who composed Rigvedic hymns.
5543	Which two Gotras cannot intermarry because they share the same ancestors despite having different names?	Vatsa and Savarna.
5544	Followers of the Samaveda in the Panji system are commonly called _____.	Chhandogya
5545	Followers of the Yajurveda in the Panji system are commonly called _____.	Vajasaneyi
5546	What is the 'Pancha Gauda' division in the context of Indian Brahmins?	A classification of five northern Brahmin groups: Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
5547	According to the texts of Manu and Yajnavalkya, marriage is prohibited with a 'Sapinda'. What does 'Sapinda' refer to?	Close blood relatives within a specified number of generations.
5548	What is the 'Siddhanta Patra' (or Asvijana Patra)?	A certificate issued by a Panjikaar confirming that the bride and groom are not prohibited relatives.
5549	Who was the first Panjikaar appointed for the Kshatriyas (Rajputs) of Mithila?	Vijaydatta.
5550	The classification of lineages into 'Shrotriya', 'Yogya', and 'Panjibaddh' intensified during the reign of which later Maharaja?	Maharaja Madhav Singh.
5551	What is the function of a 'Dooshan Panji'?	To record flaws, social expulsions, or 'impurities' in a lineage to prevent future prohibited marriages.
5552	What are the three ways to protect a Panji manuscript according to the traditional verse?	Protect from water, protect from oil, and avoid loose or improper binding.
5553	When is the traditional time recommended for drying Panji books in the sun?	When the sun is in the sign of Leo (Simha Rashi), roughly 16 August to 15 September.
5554	The sixteen specific genealogical relationships checked for marriage eligibility are collectively known as _____.	Chhadisht
5555	Term: Svijana	Definition: A relative with whom marriage is strictly forbidden by religious and genealogical law.
5556	In the Chhadisht calculation, what is the 'First Chhadisht'?	The paternal great-grandfather of the girl's paternal great-grandfather.
5557	In the Chhadisht calculation, what is the 'Ninth Chhadisht'?	The paternal great-grandfather of the girl's maternal grandfather.
5558	Who is the 'Beeji Purush' of the 'Simbhuaal' Mool within the Parashar Gotra?	Rama
5559	Which Brahmin category is also referred to as 'Pubari-Paat'?	Shrotriya
5560	Which Brahmin category is also referred to as 'Pachhwari-Paat'?	All non-Shrotriya Brahmins (Yogya, Panjibaddh, etc.).
5561	How many 'Chauvala' (classes) exist within the Shrotriya Panji?	8
5562	What are 'Laukik' within the context of the Panji system?	Specific titles or social sub-categories used primarily in the Shrotriya Panji records.
5563	Lineage: Ayanti Shrestha	Definition: The first and most prestigious category of primary Mools, including lineages like Khadaurya and Khauadya.
5564	Lineage: Madhyam Mool	Definition: The 'middle' category of Mools, such as Dighve, Panchobhe, and Budhabadhya.
5565	Which script was traditionally used to write the Panji records of Mithila?	Tirhuta (Mithilakshar).
5566	What is 'Shakha Panji'?	A branching genealogical record that tracks individual families and their modern descendants.
5567	How many sages are associated with the 'Shandilya' Gotra Pravar?	3 (Shandilya, Asit, and Deval).
5568	How many sages are associated with the 'Vatsa' Gotra Pravar?	5 (Aurva, Chyavana, Bhargava, Jamadagnya, and Apnavan).
5569	Which historical scholar is cited as an early reference for 'Samooch Lekhya' (family records) in his work 'Tantra Vartika'?	Kumarila Bhatta.
5570	According to Kumarila Bhatta, why did Brahmins and Kshatriyas maintain 'Samooch Lekhya'?	To ensure they did not forget the traditions and names of their ancestors (Pita-Pitamah).

5571	The 'Vashistha' Gotra belongs to which Pravar category?	Tri-Pravar (Vashistha, Atri, and Sankriti).
5572	The 'Vishnuvridha' Gotra belongs to which Pravar category?	Tri-Pravar (Vishnuvridha, Kaitupuchh, and Trasadasyu).
5573	Which branch of Samaveda is followed by the 'Chhandogya' Brahmins of Mithila?	Kauthum Shakha.
5574	What is the primary difference in ceremonies between Chhandogya and Vajasaneys Brahmins regarding 'Upanyana'?	Chhandogyas have four steps (Name, Tonsure, Thread, Return), while Vajasaneys have five (Tonsure, Thread, Vedarambh, Return).
5575	How does the timing of the 'Uttara Vivah' differ for Chhandogya Brahmins?	It must take place after sunset after seeing the star Arundhati.
5576	Who was the 'Beeji Purush' of the 'Sarsab' Mool within the Shandilya Gotra?	Ratnapani
5577	Who was the 'Beeji Purush' of the 'Oini' Mool within the Kashyap Gotra?	Udyandev
5578	According to the 'Dooshan' records, what is an 'Agyaat' marriage?	A marriage where the lineage or caste of the bride is unknown or undocumented.
5579	The record of ancestors found in the Panji is used not only for marriage but also for ____.	Pind-daan (funeral rites) and Ashauch (ritual impurity) calculations.
5580	Which Panji type specifically records the 'flaws' or social falls of a family lineage?	Dooshan Panji
5581	What is the 'Pan Panji'?	A record that includes the mention of 'Moolgrams' (ancestral villages), in use for about 500 years.
5582	In the context of Panji, what does the term 'Jaywar' signify?	Lineages that were not formally 'Panjibaddh' or recorded in the primary Shrotriya/Yogya hierarchy.
5583	Which historical mathematician/astronomer is mentioned in the Panji lineage of the 'Mander' Mool?	Aryabhata
5584	According to the Panji lineage, Aryabhata was the son of ____.	Trivikram Bhatta
5585	The 'Panchobh' Mool belongs to which Gotra?	Savarna
5586	The 'Belonch' Mool belongs to which Gotra?	Bharadwaj
5587	Who is mentioned as the 'Guru' of Chaitanya Mahaprabhu in the Panji records?	Ramapati Upadhyaya (from the 'Kimhe Tilauni' Mool).
5588	What happened to the Panji system among the Kshatriya community over time?	It largely disappeared, leading them to avoid marriage only within the same village (Dada-Matrik village avoidance).
5589	Who is the 'Beeji Purush' of the 'Simhashram' Mool?	Mahamahopadhyaya Halayudha.
5590	The 'Kujauti' Moolgram belongs to which Gotra?	Katyayan
5591	If a girl and boy are 'Svijana', their offspring are traditionally categorized as ____.	Chandal
5592	What was the significance of the year 1248 Saka in Mithila's history?	It marks the traditional date of the 'Panji Prabandh' establishment by Maharaja Harisimhadeva.
5593	What is 'Panji Prabandh'?	It is a systematic genealogical record-keeping system used in Mithila to verify caste purity and marriage eligibility.
5594	Who is credited with institutionalising the Panji system in 1326 AD (Saka 1248)?	Maharaja Harisimhadeva.
5595	Who was the first 'Panjekar' (genealogist) appointed for Maithili Brahmins?	Gunakar Jha.
5596	Which historical incident prompted the formalisation of the Panji records?	Pandit Hari Nath Upadhyaya unknowingly married a close relative (his cousin's daughter) due to a lack of genealogical knowledge.
5597	How many 'Gotras' (clans) are traditionally recognised among Maithili Brahmins?	Twenty.
5598	What does the term 'Moola' signify in the Panji system?	The original ancestral village of a particular lineage.
5599	In the context of Panji, what is 'Utedh'?	The detailed introduction of 32 ancestral lines (paternal and maternal) used to determine marital eligibility.
5600	How many generations must be avoided on the father's side for a marriage to be considered valid?	Seven generations (modified to six in certain practices).
5601	How many generations must be avoided on the mother's side for marriage eligibility?	Five generations.
5602	What are the two primary Vedic branches followed by Maithili Brahmins?	Yajurveda (Madhyandina/Vajasaneys) and Samaveda (Kauthuma/Chhandogya).
5603	Why is intermarriage prohibited between the Vatsa and Savarna Gotras?	Because they share the same ancestral rishis (common lineage).
5604	The document issued by a Panjekar certifying that a bride and groom are not related is called ____.	Siddhant Patra (or Asvajana Patra).
5605	What are the three hierarchical categories of Maithili Brahmins established by the Panji system?	Srotriya, Yogya, and Panjibaddha (or Jaywar).
5606	Which Panjekar was appointed by King Harisimhadeva for the Karna Kayastha community?	Shankardatt.
5607	The script traditionally used to write Panji manuscripts is ____.	Tirhuta (Mithilakshar).

5608	According to the Panji system, what is 'Chhadwith'?	A list of sixteen specific ancestral positions that must be checked to avoid 'Sapinda' (blood relation) marriages.
5609	Maithili Brahmins belong to which of the 'Pancha Gauda' groups?	Maithil.
5610	What is 'Moolagram'?	The specific village associated with the Beeji Purush of a clan, used as a primary identifier in genealogy.
5611	Which king introduced the 'Sakha Panji' to further categorise Brahmin lineages?	Maharaja Madhav Singh.
5612	The first mention of 'group records' (Samuha Lekhya) to preserve lineage is found in which philosopher's work?	Kumarila Bhatta (in 'Tantra Varttika').
5613	What determines if a person is 'Panjibaddha'?	If their names and lineage are officially recorded in the Panji books.
5614	How does the 'adho-gami' principle affect social ranking in the Panji system?	It refers to the lowering of a family's status if they form marital alliances with lower-ranked lineages.
5615	Which month is considered ideal for drying Panji manuscripts to protect them from moisture and pests?	Bhadrapada (roughly 16th August to 15th September).
5616	How many main Mools (roots) were identified out of the 167 total?	Thirty-four (later thirty-five with the addition of the 'Khandam' branch).
5617	What is the 'Laukika' in the context of Srotريا records?	It is the specific Panji record or tradition maintained by Srotريا Brahmins.
5618	Which Vedic branch performs the 'Vedarambha' ritual as one of the four main Upanayana sanskars?	Vajasaneyi (Yajurveda).
5619	What is the significant difference in marriage rituals for Chhandogya followers compared to Vajasaneyis?	Chhandogya marriages are split into two parts (Purva and Uttara) and require sighting the Arundhati star after sunset.
5620	The 'Ayanti Shrestha' category includes which tier of Mools?	The first (highest) category of roots.
5621	In the Srotريا Panji, how many categories (Chauralla) are currently recognised?	Eight.
5622	The Panji system was also historically maintained for which group besides Brahmins and Kayasthas?	Kshatriyas (specifically the Gandhavariya Rajputs).
5623	What does the 'Siddhant' process involve?	A Panjkar verifies the 'Utedh' of both the bride and groom to ensure they are not related within prohibited degrees.
5624	In the Chhadwith calculation, who is the 'Pratham Chhadwith'?	The paternal great-great-great-grandfather (Vridha Prapitamah).
5625	What is the primary role of a Panjkar in modern Mithila?	To act as a legal and religious authority for certifying the validity of marriages according to genealogical laws.
5626	Maithili Brahmins who contribute to the 'Sandilya' Gotra follow which Pravara?	Sandilya, Asita, and Devala.
5627	Which Gotra is associated with the 'Tri-pravara' sages Bharadwaja, Angirasa, and Barhaspatya?	Bharadwaja.
5628	The Panji records covering the period from 450 AD to 2009 AD are described by the author as a form of ancient _____.	Genome mapping.
5629	How did the geographical divide 'Vindhyachal' classify Indian Brahmins?	North of Vindhyachal are the 'Pancha Gauda' and south are the 'Pancha Dravida'.
5630	What is 'Matripaksha' in the context of marriage verification?	The maternal lineage of the groom or bride.
5631	What happens if a girl appears as a 'Chhadwith' in the paternal lineage of the groom?	The marriage is prohibited (no 'Adhikar').
5632	Which Mool category is considered 'Madhyam' (Middle)?	The third category, including Mools like Dighwe, Belhaunche, and Ekahate.
5633	What scriptural authority is cited for the rule 'Matritah Panchamim Tyaktva Pitritah Saptamim Bhajet'?	Manusmriti (regarding skipping 5 maternal and 7 paternal generations).
5634	In the Panji, the 'kshana' or flaws recorded in 'Dushana Panji' can lead to a family being labelled as _____.	Dushit (flawed or degraded).
5635	Who was the 'Beeji Purush' for the Mandar Moola according to the records?	M.M. Trivenibhatt.
5636	The Panji system considers a person 'Svajana' if they share blood relations. What is the status of children from such a marriage?	They were traditionally viewed as 'Chandala' or social outcasts from the Aryan समाज (dignity).
5637	What is 'Pachhwari Paat'?	A classification referring to non-Srotريا Brahmins in the Panji system.
5638	How many total Panjis (genealogical registers) are mentioned in the source material?	185 (32 for Srotريas and 153 for Yogya/Panjibaddha).
5639	Why is the preservation of Tirhuta script essential according to the Panjikars?	Because the entire historical corpus of Panji records is written in this script, and losing it would make the records inaccessible.
5640	What is the 'Tri-pravara' group of sages for the Kashyapa Gotra?	Kashyapa, Avatsara, and Naidhruva.
5641	Which King's reign saw the start of documenting social 'kshana' (flaws) as a formal part of Panji?	Maharaja Madhav Singh.
5642	In the Panji logic, if a 'Chhadwith' relation appears in the maternal side of the groom (Matripaksha), is the marriage allowed?	Yes, provided they are beyond the prohibited 5 generations.
5643	What was the primary purpose of the 'Panji Prabandha' established in medieval Mithila?	To maintain the purity of lineage (Jati Shuddhita) for Brahmins, Kayasthas, and Kshatriyas.

5644	In the context of Maithil genealogy, what does the term 'Udegh' refer to?	The introduction of the lineage, requiring the identification of 32 distinct ancestral branches.
5645	According to the Smriti laws cited in the text, how many generations must be avoided for marriage on the paternal side?	Seven generations.
5646	How many generations must be avoided on the maternal side for marriage according to traditional Dharmashastra rules?	Five generations.
5647	In which year (Christian era) was the Panji system officially systemised in Mithila?	\$1326\$ AD.
5648	The Panji system was established in the Shaka year ____.	\$1248\$
5649	Who was appointed as the first 'Panjikar' for Maithil Brahmins by King Harisimhadeva?	Ganaka Gunakar Jha.
5650	What is the total number of 'Gotras' identified among Maithil Brahmins in the Panji records?	Twenty.
5651	How many 'Mools' (original village lineages) were initially documented in the Maithil Brahmin Panji?	\$167\$
5652	Out of the \$167\$ Mools, how many are considered the 'primary' or 'main' Mools?	Thirty-four (later thirty-five with the addition of the Kharaur branch).
5653	The boundary dividing 'Panch-Gaur' and 'Panch-Dravid' Brahmins is the ____ mountain range.	Vindhyachal
5654	Which group of Brahmins does the Maithil community belong to in the broader classification of Indian Brahmins?	Panch-Gaur.
5655	What specific branch (shakha) of the Yajurveda is followed by Maithil Brahmins known as 'Vajasaneyi'?	Madhyandina Shakha.
5656	Maithil Brahmins who follow the Kauthum branch of the Samaveda are referred to as ____.	Chhandogya
5657	What is the primary difference in marriage rituals between 'Chhandogya' and 'Vajasaneyi' Brahmins regarding timing?	Chhandogya weddings are divided into two parts and often involve viewing the star Arundhati after sunset.
5658	Marriage is strictly prohibited between the Vatsa and Savarna Gotras because they share the same ____.	Ancestors (Pravaras)
5659	What is a 'Siddhant Patra' (or Asvajana Patra) in the Panji system?	A certificate issued by a Panjikar confirming that the bride and groom are not related within prohibited degrees.
5660	Who were the appointed Panjikars for the Kayastha and Kshatriya communities during Harisimhadeva's reign?	Shankardutta (Kayastha) and Vijayadutta (Kshatriya).
5661	Which Maithil community is noted for having only one Gotra, the Kashyap Gotra?	Karn Kayastha.
5662	What does the term 'Beeji Purush' represent in a lineage record?	The earliest known progenitor or root ancestor of a specific family branch.
5663	The category of Maithil Brahmins who are not registered in the Panji records is called ____.	Jaywar
5664	How many 'Chhadth' (ancestral positions) must be checked to determine marriage eligibility in the Panji system?	Sixteen.
5665	A marriage is prohibited if any of the bride's 16 'Chhadth' ancestors appear in the groom's ____ side within prohibited degrees.	Paternal (Pitru)
5666	According to the rules, a groom can marry a bride who appears in his maternal side as long as she is at least in the ____ position.	Sixth
5667	Which historical event triggered the formalisation of the Panji system in the 14th century?	Pandit Harinath Upadhyaya inadvertently married a close relative due to a lack of genealogical records.
5668	What is the specific instruction for preserving Panji books regarding seasonal maintenance?	They should be dried in the sun when the Sun enters Leo (Sinha Rashi) to protect them from insects.
5669	What change did Maharaja Madhav Singh introduce to the Panji system in the 18th century?	The introduction of 'Sakha Panji' and the hierarchical classification of Shrotriya and other sub-categories.
5670	The hierarchical sub-groups 'Pubari' and 'Pachhwari' refer to the ____ and ____ sections of the Brahmin community respectively.	Shrotriya; non-Shrotriya
5671	How many 'Laukiks' (social status rankings) exist within the Shrotriya Panji category?	Thirty-two.
5672	In the rule 'Matritah Panchami, Pitritah Saptami', what does 'Saptami' refer to?	Avoiding the paternal lineage up to the seventh generation.
5673	What is the genealogical significance of the 'Mool Gram' in the records?	It identifies the ancestral village where the progenitor of the family first settled.
5674	Term: Asapinda	Definition: A person who does not share the same 'pinda' (body/prohibited lineage) and is therefore eligible for marriage.
5675	The 'Udegh Panji' is used primarily to trace the ____ of the ancestors.	Sapinda (blood relationship)
5676	Which philosopher's text, the 'Tantra-Vartika', is cited as the earliest reference to 'Samuha-lekhyā' (group records)?	Kumarila Bhatta.
5677	Under the modified rule by M.M. Mahesh Thakur, which paternal generation was deemed acceptable for marriage?	The seventh generation (meaning six generations must be passed).

5678	Name one of the ancestors included in the '16 Chhadth' calculation for a bride.	The Paternal Great-Grandfather's Paternal Grandfather (Vridha-Prapitamah-Pitamah).
5679	What happens to the status of a lineage in the Panji if a member marries into a lower category?	The lineage status generally declines (Adhogami).
5680	The primary ancestors of the Shandilya Gotra are Shandilya, Asita, and _____.	Devala
5681	How many ancestors' identities are tracked in the full 'Udegh' of 32 Mools?	Sixteen on the bride's side and sixteen on the groom's side.
5682	Which branch of knowledge is the 'Panji' system compared to in modern terminology within the text?	Genome Mapping.
5683	Which major Gotra is associated with the 'Oini' and 'Khauwal' Mools?	Kashyap.
5684	The 'Ayanti Shrestha' category belongs to which tier of Mool classification?	The first tier (First Class).
5685	What traditional warning is given to Panjikars regarding the physical handling of the Panji books?	To protect them from water, oil, and loose binding.
5686	What is the primary purpose of the 'Panji Prabandha' system established in Mithila?	To maintain genealogical purity and regulate marriage eligibility among Brahmins, Kayasthas, and Kshatriyas.
5687	In the Panji system, what does 'Uderh' refer to?	The introduction and identification of seven generations of ancestors required for marriage verification.
5688	How many total 'Gotras' are identified within the Maithil Brahmin community according to the Panji records?	20
5689	Under the Panji system, what is the marriage exclusion rule regarding the father's side ('Pitri-paksha') for Shrotriyas?	Marriage is prohibited within seven generations of ancestors.
5690	Under the Panji system, what is the marriage exclusion rule regarding the mother's side ('Matri-paksha') for Shrotriyas?	Marriage is prohibited within five generations of ancestors.
5691	Which historical ruler of Mithila is credited with formalising the Panji Prabandha in the 14th century?	King Harisimhadeva.
5692	In what year (Shaka era and Gregorian) was the Panji system officially organised and documented under royal patronage?	Shaka 1248 (1326 AD).
5693	What term is used for the scholars appointed by royal decree to maintain genealogical records and verify marriage eligibility?	Panjikar.
5694	How many 'Main Mools' (Mukhya Mool) were initially identified within the 167 total original villages?	34 (later 35 after including the 'Khauam' branch of the 'Phandah' mool).
5695	What is the 'Siddhant Patra' (or Ashvajana Patra) in the context of Maithil marriage?	A formal certificate issued by a Panjikar confirming that the bride and groom are not prohibited kinsfolk.
5696	According to the Panji system, what happens to the offspring of a marriage that violates 'Sarpinda' rules?	The offspring are traditionally categorised as 'Chandal' and excluded from Aryan social अदम्यमानता (dignity).
5697	Which philosopher's work 'Tantra Vartika' mentions 'Samuh Lekhya' as a precursor to formal genealogical records?	Kumarila Bhatta.
5698	What is the specific name for Maithil Brahmins who follow the Madhyandina Shakha of the Yajurveda?	Vajasaneyi.
5699	What is the specific name for Maithil Brahmins who follow the Kauthuma Shakha of the Samaveda?	Chandoga.
5700	In the 'Chandoga' (Samavedic) tradition, at what time is the 'Uttara Vivaha' performed?	After sunset, following the sighting of the star Arundhati.
5701	Maithil Brahmins are categorized as one of the five northern Brahmin groups known as the _____.	Pancha Gauda.
5702	According to the Panji Prabandha, how many 'Pravaras' define a 'Tri-Pravara' lineage?	Three ancestors who were composers of Vedic hymns.
5703	Which three Gotras among Maithil Brahmins are classified as 'Panch-Pravara' (having five sage ancestors)?	Vatsa, Savarna, and Bharv.
5704	Who was the first Panjikar appointed specifically for the Karna Kayastha community?	Shankardatta.
5705	Which scholar was appointed by King Harisimhadeva to organise the Panji records for the Kshatriya community?	Vijaydatta.
5706	Who was the scholar from the 'Pandua' Mool appointed to oversee the Panji management for Maithil Brahmins?	Gunakar Jha.
5707	In the context of marriage eligibility, what does 'Chhatth' refer to?	The sixteen specific ancestral points (6th position in lineage) that must not overlap between the bride and groom.
5708	Which Maithil King initiated the 'Shakha Panji' system, leading to the hierarchical division of Shrotriyas and other classes?	Maharaja Madhav Singh.
5709	The 'Laukik' refers to the specific Panji records associated with which social tier?	Shrotriya.
5710	What is the 'Dushan Panji' used for?	To record flaws or 'kshana' (deviations) in a lineage to warn future generations.
5711	Maha-Mahopadhyay Mahesh Thakur's modification to the Pitri-paksha rule allowed marriage after _____ generations.	Six (the seventh generation is eligible).

5712	Why are the 'Vatsa' and 'Savarna' Gotras prohibited from intermarrying despite being different names?	Because they share the same 'Pravara' (ancestral sages).
5713	Concept: Siddhant	Definition: The final verification process where a Panjikar checks 'Uderh' (genealogical charts) to grant marriage permission.
5714	How often should Panji books be dried to protect them from moisture and insects according to tradition?	Once a year when the Sun enters the Leo (Simha) constellation (approx. mid-August to mid-September).
5715	Which scholar's lineage includes Panjikar Modanand Jha in the 18th generation?	Gunakar Jha.
5716	The script traditionally used for writing Panji records is _____.	Tirhuta (Mithilakshar).
5717	How many 'Chhatth' (ancestral positions) are analyzed to determine the marriage eligibility of a girl?	16
5718	In marriage verification, if a 'Chhatth' ancestor appears in the groom's maternal side (Matri-paksha), is the marriage allowed?	Yes (it is prohibited only if it appears in the paternal side within specific limits).
5719	Identify the Gotra: Its sages are Shandilya, Asit, and Deval.	Shandilya.
5720	Identify the Gotra: Its sages are Atri, Vashistha, and Sankriti.	Vashistha.
5721	Which Maithil King's order led to the creation of 'Shakha Panjis' specifically for Shrotriyas in the 18th century?	Maharaja Madhav Singh.
5722	What are the two major divisions of the 10 Brahmin groups separated by the Vindhya mountains?	Pancha Gauda (North) and Pancha Dravida (South).
5723	The 'Pancha Gauda' Brahmins consist of Utkala, Kanyakubja, Gauda, Maithil, and _____.	Saraswat.
5724	According to the Panji system, what constitutes the 'Battris Mool' (32 lineages) check?	The analysis of the 32 maternal and paternal lines of ancestors for both the bride and groom.
5725	The 'Vajasaneyi' wedding ceremony differs from the 'Chandoga' because it does not require _____.	A specific division into 'Purva-Vivaha' and 'Uttara-Vivaha' (it can happen day or night).
5726	What is the 'Adhikaar' document in Maithil marriage custom?	A list of potential grooms prepared by a Panjikar for a girl's father, based on genealogical eligibility.
5727	Which Brahmin tier is referred to as 'Pachhwari-paat'?	Non-Shrotriya Brahmins (Yogya and Panjibadh).
5728	How many 'Chauvala' (categories) exist within the Shrotriya Panji?	8
5729	What is the primary technical challenge currently facing the preservation of Panji records?	The declining knowledge of the Tirhuta script among the general community and new scholars.
5730	According to the source, why did Brahmins in India eventually divide based on regional geography instead of just Veda branches?	Differences in climate, language, diet, dress, and difficulty of travel between regions.
5731	In the Panji system, 'Sarpinda' refers to ancestors sharing the same _____.	Pinda (ritual offerings/bloodline).
5732	What specific relationship is explicitly prohibited for a groom even if other rules are met?	The daughter of the groom's step-mother's brother.
5733	Who was the 'progenitor' (Beeji Purush) of the 'Vishwain' Mool (Simbari branch)?	Maha-Mahopadhyay Tritayan Bhatt.
5734	The 'Panji Prabandha' includes records of marriages with 'Devadasis' to ensure that _____.	Future generations are aware of the lineage's history while remaining integrated into society.
5735	According to the source, the 'Samuh Lekhya' records began because high-born families did not want to forget their _____.	Ancestral traditions and the virtues/flaws of their lineage.
5736	What was the result of Pandit Harinath Upadhyaya unknowingly marrying his cousin in the 13th century?	It acted as the catalyst for King Harisimhadeva to implement the mandatory Panji system.
5737	In the context of the Panji records, what does the term 'Anant' or 'Agyaat' signify in a family tree?	A point where the maternal or paternal ancestry is unknown or not recorded.
5738	What is the total number of 'Panjis' (books/records) managed by the Panjikars?	185 (32 Shrotriya and 153 Yogya/Panjibadh).
5739	What is the primary purpose of the 'Panji Prabandh' system introduced in the medieval period?	To maintain the caste purity of Brahmins, Kayasthas, and Kshatriyas through genealogical records.
5740	In the context of the Panji system, what does the term 'Utaidh' represent?	The detailed introduction of 32 ancestors spanning seven generations.
5741	Which historical event in the 14th century triggered the formalisation of the Panji records?	The accidental marriage of Pandit Harinath Upadhyay to a close relative due to lack of genealogical knowledge.
5742	Which ruler is credited with the institutionalisation of the Panji system in Mithila around 1326 AD?	Maharaja Harisimhadeva.
5743	According to the Panji management, what are the four distinct categories of Maithil Brahmins?	Shrotriya, Yogya, Panjibaddh, and Jaywar.
5744	What defines the 'Jaywar' category of Maithil Brahmins?	Those who are not formally registered within the Panji records.
5745	In Maithil Brahmin marriage rules, how many generations must be avoided on the father's side to ensure eligibility?	Seven generations (modified to six in later practices).
5746	In Maithil Brahmin marriage rules, how many generations must be avoided on the mother's side to ensure eligibility?	Five generations.
5747	How many primary or 'organized' Gotras exist among Maithil Brahmins that are most frequently cited?	Seven Gotras.

5748	The list of 20 Gotras includes Sandilya, Vatsa, Savarna, Katyayana, and _____.	Kashyapa
5749	What are 'Moolas' in the Panji system?	The original ancestral villages or roots of a family lineage.
5750	How many 'Moola Gramas' (root villages) were initially established as primary within the 167 total villages?	34 (later 35 with the addition of the Khanam branch).
5751	Which three Gotras are classified as 'Panch-pravar'?	Vatsa, Savarna, and Bharadwaja (some lists include Garga).
5752	What does the term 'Beeji Purusha' signify in a genealogical record?	The earliest known common ancestor of a specific family lineage or 'Moola'.
5753	The documentation of genealogical information by scholars in the 7th century was first mentioned as 'Sammuha-lekhya' by which philosopher?	Kumarila Bhatta.
5754	In which philosophical text does Kumarila Bhatta describe 'Sammuha-lekhya' as a tool for preserving lineage?	Tantra Vartika.
5755	What is the specific role of a 'Panjikar'?	An official registrar appointed to verify lineage and grant marriage eligibility.
5756	What is 'Sidhanta-patra'?	A formal certificate issued by a Panjikar confirming that the bride and groom are not 'Swajina' (prohibited relatives).
5757	What is the 'Chhadwith' (six-fold) check in Panji verification?	A set of 16 specific maternal and paternal relational points used to verify marriage eligibility.
5758	Which category of Maithil Brahmins follows the 'Kauthuma' branch of the Samaveda?	Chhandoga.
5759	Which category of Maithil Brahmins follows the 'Madhyandina' branch of the Yajurveda?	Vajasaneyi.
5760	What is a major procedural difference between Chhandoga and Vajasaneyi weddings regarding timing?	Chhandoga weddings must see the Arundhati star at sunset, while Vajasaneyi weddings can occur at any time.
5761	How many sub-categories or 'shakhis' of Shrotriya Brahmins were established based on hierarchy?	Eight categories.
5762	Under the Panji system, what does a 'Dushan Panji' record?	Defects or violations of tradition within a lineage to prevent future errors.
5763	Which scholar was appointed by Maharaja Harisimhadeva to manage the Panji of Maithil Brahmins?	Gunakar Jha.
5764	Who was the first registrar appointed for the Panji of Karn-Kayasthas?	Shankardutt.
5765	Which registrar was appointed by Maharaja Harisimhadeva to oversee the Kshatriya lineage records?	Vijaydutt.
5766	How did the introduction of 'Shakha Panji' under Maharaja Madhav Singh change the social structure?	It introduced further sub-divisions and hierarchy, leading to social inequalities.
5767	What is 'Laukik' in the context of the Shrotriya Panji?	The specific hierarchical status or 'Pan' assigned to a family within the Shrotriya community.
5768	Identify the primary Gotra associated with the village of 'Khauauli'.	Katyayana.
5769	Which Gotra is linked to the Moola villages of 'Ekahara' and 'Pali'?	Kaundinya.
5770	In the Panji terminology, what is a 'Swajina' marriage?	An incestuous or prohibited marriage within the forbidden degrees of kinship.
5771	The ancestors of the Sandilya Gotra are Sandilya, Asita, and _____.	Devala
5772	Which Gotra includes the sage ancestors Aurva, Chyavana, Bhargava, Jamadagnya, and Apnuvana?	Vatsa.
5773	The ancestors of the Kashyapa Gotra are Kashyapa, Avatsara, and _____.	Naidhruva
5774	Which Gotra shares the same Pravar as the Parashara Gotra?	Vashistha (specifically citing Shakti, Vashistha, and Parashara).
5775	What is the status of the 'Karn-Kayastha' Gotra according to the text?	They predominantly belong to a single Gotra, Kashyapa.
5776	What does 'Panji-Prabandh' imply regarding marriage and Shastric law?	A marriage is considered unscriptural (Ashastriya) if performed without a 'Sidhanta' certificate.
5777	According to the 'Chhadwith' calculation, the first check involves the bride's _____.	Great-great-grandfather (Vridhdha-prapitamaha).
5778	In the context of the Panji, what are 'Paricheta'?	Collectors of genealogical data who travelled from village to village to record lineage.
5779	What script was historically used to write the Panji records in Mithila?	Tirhuta (Mithilakshar).
5780	Why is it traditionally recommended to dry the Panji manuscripts during the month when the sun is in Leo (Singh Rashi)?	The heat is intense enough to preserve the manuscripts from moisture and pests.
5781	What is the 'Aswajanyapan Panji'?	A record of non-relatedness used for confirming eligibility.
5782	In the Panji tables, what does the term 'Agyat' (Unknown) signify?	A gap in the records where a maternal or paternal lineage could not be verified.

5783	What was the significance of the 1326 AD gathering in Mithila?	Scholars decided that lineage records should no longer be left to individual memory but must be officially recorded.
5784	Which Gotra is associated with the ancestors Angiras, Vashistha, and Brihaspati?	Gautama.
5785	The sages associated with the Bharadwaja Gotra are Bharadwaja, Angiras, and _____.	Barhaspatya
5786	Which type of Panji specifically records 'Kshayan' (defects) that have entered a lineage?	Dushan Panji.
5787	What is 'Adho-gami' in the Shrotriya classification?	The downward movement or loss of hierarchical status due to marriage into lower-ranked families.
5788	Which Gotra includes sages like Vishwavisnu and Angiras?	Katyayana.
5789	Which Gotra cites the ancestors Atri, Sankriti, and Vashistha?	Vashistha.
5790	Identify the Gotra of 'Brahmapura' Moola families if they are not Sandilya or Vatsa.	They can belong to Kashyapa, Alambuka, Gautama, or Bhargava.
5791	The term 'Panch-Gauda' refers to Brahmins from five northern regions, including Saraswat, Kanyakubja, Gauda, Utkal, and _____.	Maithil
5792	How does the Panji determine 'Sapinda' status for mothers in the Shrotriya category?	By checking the maternal side for five generations.
5793	What is 'Utaidh Panji' specifically used for?	To trace the Sapinda relationship and ensure non-relatedness before marriage.
5794	Which village is historically noted as the root for the 'Mandarya' lineage?	Mandi Grama.
5795	Who was the King of the Karnat Dynasty during the peak of the Panji organization?	Maharaja Harisimhadeva.
5796	In the Panji, the 'Beeji' ancestor of the Sandilya Gotra is often listed as _____.	Sandilya
5797	What does 'Srot-Plav' signify in the Panji categories?	A high-ranking status, often applied to the Shrotriya or noble lineages.
5798	The 'Tantra Vartika' text claims that high-born families preserve lineage to distinguish between _____ and _____.	Virtues (Guna) and defects (Dosha).
5799	How many ancestors are included in a full 'Utaidh' check?	32 ancestors.
5800	Which sage is the 'Beeji Purusha' for the village 'Sarasab' in the Panji?	Ratnapani.
5801	Which Gotra is associated with the ancestor 'Shandilya' and villages like 'Digho' and 'Mahua'?	Sandilya.
5802	The sages of the Vishnuriddha Gotra include Vishnuriddha, Kautipuccha, and _____.	Tradasya
5803	Which Gotra has 'Jatukarna', 'Angiras', and 'Bharadwaja' as its Pravar ancestors?	Jatukarna.
5804	What is 'Pari-Panji'?	A record of marital alliances that tracks the exchange between different Moolas.
5805	In the context of the Panji, what is the '1248 Shaka' date equivalent to in the Common Era?	1326 AD.
5806	The check for 'Chhadwith' points ensures the bride and groom are not related through their _____.	Great-great-grandmothers (Vridhdha-prapitamahi).
5807	What is the primary reason for 'Panch-Dravida' and 'Panch-Gauda' divisions?	Geographic separation by the Vindhya mountains and regional cultural influences.
5808	What is the hierarchical relationship between Shrotriya and Panjibaddh Brahmins?	Shrotriya are the highest-ranked, followed by Panjibaddh and Yogya.
5809	The Beeji Purusha for the Mandi Moola is _____.	Trivikram Bhatta
5810	Which Gotra is linked to the ancestors Atri, Garga, and Kaushika?	Kaushika.
5811	In which year (Shaka and AD) was the Panji Prabandh system officially formalised in Mithila?	It was formalised in 1326 AD, corresponding to Shaka 1248.
5812	Which King of the Karnat dynasty is credited with initiating the Panji Prabandh?	Maharaja Harisimhadeva is the King credited with its initiation.
5813	According to the source, what was the primary purpose of the Panji Prabandh?	It was created to maintain caste purity (Jati Shuddhata) for Brahmins, Kayasthas, and Kshatriyas.
5814	What does the term 'Udegh' signify in the Panji system?	It refers to the introduction of seven generations of ancestors required to verify marriage eligibility.
5815	How many 'Gotras' are traditionally identified within the Maithil Brahmin community?	There are 20 identified Gotras.
5816	What is the meaning of 'Mula Gram' in the context of the Panji records?	It signifies the original ancestral village or place of residence for a family lineage.
5817	Which scholar was initially appointed by King Harisimhadeva to manage the Brahmin Panji?	The scholar Gunakar Jha was appointed for the Brahmin community.
5818	Name the scholar appointed by King Harisimhadeva to maintain records for the Karna Kayastha community.	Shankardatta was appointed to manage the Kayastha records.

5819	Which scholar was assigned the task of managing the Panji records for the Kshatriya community?	Vijayadatta was assigned the management of the Kshatriya records.
5820	The three hierarchical categories of Maithil Brahmins created by the Panji are Shrotriya, Yogya, and _____.	Panjibaddh.
5821	What term is used for those Brahmins who did not get registered in the initial Panji system?	They are referred to as 'Jaywar'.
5822	According to the Shrotriya marriage rules, how many generations must be avoided on the paternal side?	Seven generations must be avoided on the paternal side.
5823	How many generations must be avoided on the maternal side for a valid Shrotriya marriage?	Five generations must be avoided on the maternal side.
5824	In Panji terminology, what is a 'Siddhant Patra'?	It is a certificate of marriage eligibility issued by a Panjkar confirming the couple are not 'Svajana' (forbidden relatives).
5825	How many 'Mula' (original roots) were identified in the primary 20 Gotras of Maithil Brahmins?	There were 167 primary Mulas identified.
5826	What are the four essential sacraments (Samskaras) for a 'Chhandoga' (Samavedic) Maithil Brahmin?	They are Namakarana, Chudakarana, Upanayana, and Samavartana.
5827	How does the 'Vajasaneyi' (Yajurvedic) marriage timing differ from the Chhandoga tradition?	Vajasaneyi marriages can occur during the day or night, whereas Chhandoga marriages include a night ritual involving seeing the Arundhati star.
5828	The list of 20 Gotras includes Sandilya, Vatsa, Savarna, Kasyapa, and _____.	Parashara.
5829	What is the definition of 'Tripravara' in the Maithil Brahmin system?	It refers to a lineage whose three ancestors were composers of Rigvedic hymns.
5830	Lineages where five ancestors composed Rigvedic hymns are categorised as _____.	Panchpravara.
5831	Term: Chhadisth	Definition: The 16 specific generational points or ancestors used to determine sapinda (forbidden) relations for marriage.
5832	What is the historical significance of the text 'Tantra Vartika' by Kumarila Bhatta to the Panji system?	It contains the earliest mention of 'Samuha Lekhya' (group records) used for preserving lineage purity.
5833	The highest category of Mulas, including Khadaurya and Khauadya, is known as _____.	Ayanti Shrestha.
5834	What was the specific social consequence for a child born from an 'unauthorised' (Svajana) marriage?	The child was socially categorised as 'Chandal' and excluded from Aryan social status.
5835	Under Maharaja Madhav Singh in 1760 AD, what new type of Panji was introduced?	The 'Shakha Panji' was introduced, which detailed specific branches of lineages.
5836	What is the unique Gotra found within the Karna Kayastha community of Mithila?	Kasyapa is the only Gotra used by the Maithil Karna Kayasthas.
5837	The professional registrar who maintains and verifies these genealogical records is called a _____.	Panjkar.
5838	In the Panji system, what does 'Dushana Panji' record?	It records historical flaws or social 'blemishes' that occurred within a family lineage.
5839	Which month of the year is traditionally considered ideal for sun-drying and preserving Panji manuscripts?	The period from mid-August to mid-September (when the sun is in Leo) is preferred for drying.
5840	According to the rules of 'Chhadisth', marriage is forbidden if any of the bride's 16 specific ancestors appear in the groom's _____.	Paternal lineage (Pitri-Paksha).
5841	Under what condition is a 'Chhadisth' ancestor overlap permitted for marriage?	It is permitted if the ancestor appears in the groom's maternal lineage (Matri-Paksha) rather than the paternal one.
5842	Which famous mathematician and astronomer's genealogy is recorded in the Panji as being from the Mandar Mula?	The genealogy of Aryabhata is recorded.
5843	In the categorization of Brahmins, what is the 'Panch-Gauda' group?	It refers to the five northern Brahmin groups: Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
5844	What geographical feature traditionally divides the 'Panch-Gauda' from the 'Panch-Dravida' Brahmins?	The Vindhyachal mountain range.
5845	According to the text, what is the status of Panji records among Maithil Kshatriyas today?	The Panji system among Kshatriyas has largely become extinct over time.
5846	What is the 'Paak' or 'Pani' in the context of Shrotriya Panji?	It refers to the relative social 'weight' or ranking within the hierarchical system.
5847	If a Panjkar issues a certificate for a marriage between forbidden relatives, what derogatory title was historically added to their name?	The title 'Taskar' (thief) was added to their name records.
5848	In the context of Samavedic rituals, 'Samadheni' refers to _____.	Vedic verses chanted while lighting the sacrificial fire.
5849	What does the term 'Asvajana Patra' signify?	It is an alternative name for the Siddhant Patra, confirming the couple are not related.
5850	Who was the 'Biji Purush' of the Mandar Mula, a prominent lineage in Mithila?	Mahamahopadhyaya Trayivikram Bhatta is identified as the Biji Purush.
5851	The 'Udegh' requirement for marriage involves checking _____ maternal and _____ paternal ancestors.	5 maternal and 7 paternal.
5852	Why is the preservation of Panji manuscripts specifically advised against oil (Taila)?	Oil is listed as a primary threat to the longevity and legibility of the physical manuscripts.

5853	In Panji records, what is recorded for a person categorized as 'Devadasi'?	They are recorded as ancestors with 'unknown maternal lineage' (Agyat Matrika).
5854	Which scholar is noted as the Biji Purush for the Simhashram Mula?	Mahamahopadhyaya Halayudha.
5855	What are 'Laukika' in the context of Shrotriya records?	They are the specific social branchings and rankings within the Shrotriya tier.
5856	The 'Panji Prabandh' system is described as a precursor to modern _____ mapping.	Genome.
5857	Which Maithil King's court saw the first major categorization of Brahmins into the 'Shrotriya' tier?	Maharaja Harisimhadeva.
5858	What was the purpose of the 'Tipi' or 'Up-Tipi' records in the Panji system?	They served as auxiliary or summary notebooks for Panjikars to quickly reference lineages.
5859	What historical event led Pandit Harinath Upadhyaya to accidentally marry a cousin, triggering the formalization of Panji?	The lack of written genealogical records led to an accidental marriage within forbidden degrees of kinship.
5860	How many 'Chhadisths' are specifically derived from the bride's paternal grandmother's side?	Four (the 5th, 7th, 8th, and 15th Chhadisths).
5861	Which Mula is associated with the scholar Modanand Jha, who was awarded the title 'Panji Shastra Martand'?	The Mohaji (Maudgalya Gotra) lineage.
5862	The practice of reciting one's genealogy during a wedding is called _____.	Udegh Vachana.
5863	Why did the Panjekar system move from general oral memory to written manuscripts in 1326 AD?	To prevent accidental incestuous marriages due to the decline in individuals' personal genealogical knowledge.
5864	What is the primary role of the 'Biji' in a Panji entry?	It marks the starting point or root from which all subsequent branches of a family are tracked.
5865	According to the source, in which year (Saka and AD) was the Panji system formally organised under King Harisimhadeva?	Saka 1248, which corresponds to 1326 AD.
5866	The historical ruler credited with the formal implementation of the Panji system is Maharaja _____.	Harisimhadeva
5867	In the context of Panji, what does 'Udveh' refer to?	The introduction or genealogical identity of seven generations of ancestors required for marriage eligibility.
5868	Define the term 'Beeji Purusha' within the Panji system.	The earliest known founding ancestor of a specific lineage or clan.
5869	How many primary 'Gotras' are identified among Maithil Brahmins in the Panji records?	20
5870	What are the three main social categories of Maithil Brahmins established through the Panji system?	Shrotriya, Yogya, and Panjibaddha (also known as Jaibar).
5871	How many generations must be avoided for marriage eligibility on the paternal side according to the Shrotriya rule?	Seven generations.
5872	According to the general rule of 'Sapinda', how many generations must be avoided on the maternal side for marriage?	Five generations.
5873	The Panji system identifies a total of _____ 'Mulas' (original roots/villages) among the community.	167
5874	What does the term 'Mula Grama' signify in Maithil genealogy?	The original ancestral village from which a family lineage spread.
5875	Which two Vedas do the Maithil Brahmins primarily follow?	Samaveda (Kauthuma branch) and Yajurveda (Madhyandina branch).
5876	Maithil Brahmins following the Yajurveda are specifically referred to as _____.	Vajasaneyi
5877	Maithil Brahmins following the Samaveda are specifically referred to as _____.	Chhandogya
5878	What is the distinction between 'Tri-pravara' and 'Panch-pravara'?	Tri-pravara refers to lineages citing three ancestral Rishis, while Panch-pravara cites five.
5879	What is a 'Siddhanta Patra' (or Asvarjana Patra) in the Mithila marriage process?	A certificate issued by a Panjekar confirming that the bride and groom are not prohibited relations.
5880	The prohibition of marriage within the same Gotra is known as avoiding _____ marriage.	Sagotra
5881	What is 'Swarjana' in the context of Maithil marriage rules?	Marriage between individuals who are prohibited relatives, which the Panji system seeks to prevent.
5882	In the Panji system, how many 'Chadvitha' (genealogical checkpoints) must be checked to determine marriage eligibility?	16
5883	If a prohibited relation (Chadvitha) appears in the groom's paternal side, is the marriage permitted?	No, it is strictly prohibited.
5884	If a prohibited relation (Chadvitha) appears in the groom's maternal side beyond the fifth generation, is the marriage permitted?	Yes, it may be permitted under specific rule exemptions.
5885	Which Maharaja introduced the 'Shakha Panji' (branch records) to further subdivide the social categories?	Maharaja Madhava Singh.
5886	The 'Dushana Panji' is a specific record used to document what?	Flaws or lapses in lineage purity within a specific family history.
5887	Identify the founding scholar appointed by King Harisimhadeva to manage the Brahmin Panji.	Pandit Gunakar Jha.

5888	Which scholar was appointed by King Harisimhadeva to manage the Karna Kayastha Panji?	Shankaradutta.
5889	Which scholar was appointed by King Harisimhadeva to manage the Kshatriya Panji?	Vijayadutta.
5890	According to the text, why did Brahmins divide based on regional geography into 'Pancha Gauda' and 'Pancha Dravida'?	Due to differences in climate, language, diet, and local cultural influences over time.
5891	Maithil Brahmins belong to which of the two broad regional groups of Indian Brahmins?	Pancha Gauda
5892	What is 'Uteá¹h' in the Panji system?	The detailed genealogical chart encompassing 32 ancestral roots (mulas) used for verification.
5893	The first 'Chadvitha' (checkpoint) for a bride involves checking the lineage of her _____.	Paternal Great-Great-Great Grandfather.
5894	Name one of the most prominent Mulas listed in the first category (Ayanthi Shrestha).	Khadaure or Khauadya.
5895	True or False: Marriage between the Vatsa Gotra and Savarna Gotra is traditionally prohibited.	True, because they share the same ancestors (Pravaras).
5896	What is the 'Laukik' in the Shrotriya Panji system?	Specific social status or 'honour' points that fluctuate based on marriage alliances.
5897	How many 'Chaupala' (categories) exist within the Shrotriya Panji?	8
5898	In the Sandilya Gotra, name two prominent Mulas.	Dighava and Sarisab.
5899	In the Kashyapa Gotra, name two prominent Mulas.	Oini and Mandar.
5900	The system of 'Panji Prabandh' is described as a precursor to modern _____ mapping.	Genome
5901	Which text by Kumarila Bhatta is cited as an early reference to 'Samuha Lekhya' (group records)?	Tantra Varttika.
5902	What does 'Saman Gotra' mean in the context of marriage prohibition?	Belonging to the same paternal lineage or Gotra.
5903	What is the significance of the 35th Mula, 'Phandaha'?	It is an branch of the Khana Mula that attained high status in later periods.
5904	Which Gotra includes the Mulas 'Kujauli' and 'Tilauli'?	Katyayana
5905	The Vatsa Gotra includes which famous Mula from which many scholars originate?	Pali
5906	According to Manu and Yajnavalkya, a bride should not be a 'Sapinda' of the _____.	Mother or Father.
5907	Define 'Pancha Gauda'.	The five northern Brahmin groups: Utkala, Kanyakubja, Gauda, Maithil, and Saraswat.
5908	What was the immediate catalyst for King Harisimhadeva to formalise the Panji system in the 14th century?	A high-ranking scholar (Pandit Harinath Upadhyay) accidentally married his own cousin due to lack of records.
5909	What is the 'Pachhwari Paanth'?	The genealogical category for Brahmins other than the Shrotriya class.
5910	How many Panjis are dedicated to the Shrotriya class compared to the Yogya/Panjibaddha class?	32 Panjis for Shrotriya and 153 for Yogya/Panjibaddha.
5911	What is the total number of Panjis recorded in the system?	185
5912	Which Mula is associated with the Beeji Purusha 'Mahamohopadhyaya Halayudha'?	Simhashrama
5913	The 'Shakha Panji' was specifically created to manage the lineages of which two groups?	Shrotriya and Panjibaddha.
5914	What information does the 'Mula Panji' primarily contain?	The original ancestral roots and primary lineages.
5915	What information does the 'Gotra Panji' primarily contain?	The lists of all Gotras and their associated ancient Mulas.
5916	Why is it important to protect Panji books from 'oil and loose binding' according to the traditional verse?	To ensure the physical longevity of the palm-leaf (Tala-patra) or paper records.
5917	In which month (Hindu calendar) were Panji books traditionally dried in the sun to prevent decay?	Bhadrapada (roughly August–September) when the sun is in the Leo sign.
5918	The term for marriage eligibility criteria regarding 'maternal brother's children' is that they _____.	Must not be the same as the groom/bride.
5919	What does 'Anantarya' signify in the Panji categories?	The first or most excellent tier of original lineages (Ayanthi Shrestha).
5920	Identify the Gotra associated with the Mula 'Ekahara'.	Bharadwaja (also shared with Kaundinya).
5921	Which Gotra is associated with the Mula 'Uchiti'?	Vatsa
5922	The Mula 'Budhabal' is found in which two Gotras?	Vatsa and Kashyapa.
5923	According to the source, what is the 'Pancha-Dravida'?	The five southern Brahmin groups: Karnataka, Gurjar, Tailang, Dravida, and Maharashtra.
5924	What is the geographic boundary between 'Pancha Gauda' and 'Pancha Dravida'?	The Vindhyachal mountains.
5925	What is the 'Adveá¹h' in the context of marriage rights?	The verification of the 32 maternal and paternal ancestral lineages.

5926	True or False: The Panji records mention instances of marriages with individuals of unknown caste or from distant lands.	True, these are documented as exceptions in the 'Dushana' or 'Apavad' sections.
5927	The scholar 'Vachaspati Mishra' is associated with which village/Mula in the Panji?	Palivash (Pali).
5928	Identify the Beeji Purusha of the 'Khadaure' Mula.	Ratnakara
5929	The 'Karna Kayasthas' primarily follow which single Gotra?	Kashyapa
5930	What is the significance of the year 1248 Saka in Maithil history?	It is the date of the formal 'Panji Prabandh' (genealogical regulation).
5931	Which Vedic branch's marriage involves seeing the 'Arundhati' star after sunset?	Chhandogya (Samavedi).
5932	True or False: The Vajasaneyi branch of Brahmins follows a different set of Upanayana (sacred thread) rituals than the Chhandogya branch.	True, the Chhandogya has four main Sanskaras while the Vajasaneyi has five.
5933	The total number of ancestral roots tracked to determine if a couple is 'Swarjana' is _____.	32
5934	What is the primary objective of the 'Panji Prabandha' system in Maithil society?	To ensure 'Jati Shuddhi' (caste purity) by maintaining genealogical records to determine marriage eligibility.
5935	During which historical period was the Panji Prabandha system formally established for Brahmins, Kayasthas, and Kshatriyas?	The late medieval period, specifically the early 14th century.
5936	Who was the Karnat dynasty king responsible for the systematic implementation of Panji Prabandha in 1326 AD?	Maharaja Harisimhadeva.
5937	The Panji system identifies how many total 'Gotras' (clans) among Maithil Brahmins?	Twenty.
5938	The formal introduction or 'Uderh' of an individual involves providing the lineage of how many ancestors?	Thirty-two.
5939	In the Maithil Brahmin hierarchy, what are the three primary categories created by the Panji classification?	Shrotriya, Yogya, and Panjibaddh.
5940	What is the minimum number of generations to be skipped for marriage on the maternal side in the Shrotriya category?	Five generations.
5941	According to the general Panji rules, how many generations must be avoided on the paternal side for a valid marriage?	Seven generations.
5942	What is the total number of 'Moolas' (original lineages) documented within the Maithil Brahmin community?	One hundred and sixty-seven.
5943	The original village of residence that identifies a specific lineage is known as the _____.	Moolgram
5944	Term: Beeji Purusha	Definition: The earliest known progenitor or 'seed ancestor' of a specific lineage.
5945	How many main 'Moolas' were initially identified as the most prominent out of the 167 documented lineages?	Thirty-four (later adjusted to thirty-five with the inclusion of the Khanam branch).
5946	Which three Gotras are categorized under the 'Pancha-pravara' group?	Vatsa, Savarna, and Bharadwaja.
5947	Brahmins following the 'Vajasaneyi' branch belong to which Veda?	Shukla Yajurveda.
5948	Brahmins following the 'Chhandogya' traditions are practitioners of which Veda?	Samaveda.
5949	Geographically, the 'Pancha Gauda' and 'Pancha Dravida' Brahmins are divided by which natural boundary?	The Vindhyachal mountain range.
5950	Which group within the 'Pancha Gauda' refers specifically to the Brahmins of the Mithila region?	Maithil Brahmins.
5951	Who was appointed by King Harisimhadeva as the first 'Panjika' (registrar) for the Maithil Brahmins?	Pandit Gunakar Jha.
5952	For the Karna Kayastha community, who was the first designated Panjika?	Shankardatta.
5953	What script is traditionally used to record and preserve Panji genealogies?	Tirhuta (also known as Mithilakshar).
5954	The 'Dushana Panji' is used to record what specific information regarding a lineage?	Flaws or prohibited acts (faults) that might have occurred within the family history.
5955	Why is marriage generally prohibited between individuals of the 'Vatsa' and 'Savarna' Gotras?	They share common ancestors, effectively making them of the same spiritual lineage.
5956	The term _____ refers to the sixteen specific branches of ancestors that must be checked to avoid 'Sapinda' relationships.	Chhadwih
5957	The 'First Chhadwih' in the marriage verification process specifically refers to whom?	The paternal great-grandfather of the bride's paternal great-grandfather.
5958	Which social group in Mithila traditionally follows only the 'Kashyapa' Gotra according to the text?	Karna Kayastha.
5959	How does the marriage ritual of Chhandogya Brahmins differ from Vajasaneyi regarding the stars?	Chhandogya marriages involve viewing the star Arundhati after sunset.

5960	Individuals whose names are officially recorded in the genealogical registers are called ____.	Panjibaddh
5961	The 'Laukik' system, used to track sub-lineages, is primarily associated with which category of Brahmins?	Shrotriya Brahmins.
5962	Which historical document is cited as the first mention of 'Samuha Lekhya' (collective records) in the 7th century?	Tantra Varttika by Kumarila Bhatta.
5963	Identify the Vedic branch followed by 'Vajasaneyi' Brahmins.	Madhyandina Shakha of the Yajurveda.
5964	Identify the Vedic branch followed by 'Chhandogya' Brahmins.	Kouthum Shakha of the Samaveda.
5965	According to 'Manusmriti', a woman who is not a 'Sapinda' of the father or mother is considered ____ for marriage.	Prashasta (recommended/eligible)
5966	In the Panji system, what does 'Anasvajan Patra' signify?	A document proving the absence of a prohibited blood relationship between two parties.
5967	Which specific ancestor does the 'Ninth Chhadwih' investigate for the bride?	The paternal great-grandfather of the bride's maternal grandfather.
5968	Why were Panjkar positions created as a state-authorised department in medieval Mithila?	To prevent accidental marriages between close relatives due to the loss of private family records.
5969	Which category of Brahmins is referred to as 'Pachhwari Paith' (Western Path) in contrast to Shrotriyas?	The remaining non-Shrotriya Panjibaddh Brahmins.
5970	What is the significance of 'Shakha Panji' in the Maithil system?	It is a branched registry that tracks the movement and expansion of lineages from the original Mool.
5971	The historical figure 'Vidyapati Thakur' belongs to which specific Mool and Gotra?	Bisaphi Mool and Kashyapa Gotra.
5972	How does the Panji system treat children of a marriage that violates 'Sapinda' rules?	They were traditionally considered 'Chandala' (outcast) and excluded from the Aryan social order.
5973	Under which condition can a 'Chhadwih' (prohibited ancestor) be bypassed according to the text's logic on maternal/paternal sides?	A relationship that is prohibited on the paternal side might be allowed if it occurs on the maternal side.
5974	What was the role of 'Vijaydatta' in the initiation of the Panji Prabandha?	He was appointed as the first Panjkar for the Kshatriya (Rajput) community.
5975	The 'Pancha Gauda' Brahmins include Saraswat, Kanyakubja, Gauda, Utkala, and ____.	Maithil
5976	The 'Pancha Dravida' group includes Gurjara, Maharashtra, Tailanga, Dravida, and ____.	Karnata
5977	Which unique ritual Samskara is performed by Vajasaneyi Brahmins but not typically by Chhandogya Brahmins?	Vedarmbha (commencement of Vedic study).
5978	In 'Uderh' terminology, what does the 'Sixteenth Chhadwih' represent?	The maternal grandfather of the maternal grandmother's maternal grandmother.
5979	What happened to the Panji system among the Kshatriyas of Mithila over time?	It largely became extinct, and they shifted to avoiding common village lineages for marriage.
5980	Which Mool is famously associated with the 'Ayachi' scholar lineage?	Sodarpur.
5981	How many 'Chaudala' (levels) are found in the Shrotriya Panji?	Eight.
5982	The Panji records were traditionally written on what material?	Palm leaves (Talapatra) or handmade paper (Basahapiti).
5983	What is the role of 'Maha-Mahesh Thakur' in the context of Panji evolution?	He simplified the paternal avoidance rule to skip only six generations, which was accepted by society.
5984	The phrase 'Jalat Raksha Tailat Raksha' in the Panji preservation verse advises protection against what?	Water and oil.
5985	Which specific months are recommended for drying and airing out the Panji manuscripts?	When the Sun is in the sign of Leo (roughly 16 August to 15 September).
5986	The Panji Prabandha reflects which modern scientific concept through its ancient genealogical tracking?	Genome mapping or Genetic tracking.
5987	Who was the Karnata dynasty king of Mithila credited with formalising the Panji Prabandh system in 1326 AD?	Maharaja Harisimhadeva
5988	What was the primary sociological purpose behind the creation of the Mithila Panji system?	To maintain caste purity and prevent prohibited marriages by recording lineages.
5989	How many distinct Gotras are identified among the Maithil Brahmin community according to the Panji records?	20
5990	According to the Smriti rules followed in the Panji, how many generations on the paternal side must be avoided for a valid marriage?	7 generations (later modified to 6 in some practices).
5991	In the context of Maithil marriage rules, how many generations on the maternal side must be renounced to ensure eligibility?	5 generations
5992	What term refers to the earliest known ancestor of a specific 'Mool' (lineage) in the Panji records?	Biji Purush
5993	Which social category represents the highest tier within the Maithil Brahmin hierarchy established by the Panji system?	Shrotriya
5994	Families who were formally recorded and registered in the genealogical books are known as ____.	Panjibaddh

5995	What is the name of the certificate issued by a Panjekar to certify that a bride and groom are eligible for marriage?	Siddhant Patra (or Aswajan Patra)
5996	Who was the scholar appointed by King Harisimhadeva to specifically manage the Brahmin Panji records?	Gunakar Jha
5997	Which seven Gotras are considered the most populous and major lineages among Maithil Brahmins?	Shandilya, Vatsa, Kashyap, Savarna, Parashar, Bharadwaj, and Katyayan.
5998	Brahmins following the Madhyandina branch of the Yajurveda are referred to as _____.	Vajasaneyi
5999	What is recorded in the 'Dushan Panji'?	Social defects, lapses in caste rules, or historical 'stigmas' within a lineage.
6000	M.M. Mahesh Thakur established the rule that the paternal line is acceptable for marriage starting from the _____ generation.	7th

6020	The three Pravar sages for the Shandilya Gotra are Shandilya, Asita, and _____.	Devala
6021	In the Panji terminology, a person's identity is defined by their Mool and their _____.	Moolgram
6022	Which famous 7th-century philosopher mentioned 'Samuh Lekhya' as a way to protect noble lineages?	Kumarila Bhatta
6023	The Mools of Dighei, Sarisab, and Mahua are all associated with which Gotra?	Shandilya
6024	What is the purpose of the 'Aswajan Patra'?	To certify that the bride and groom do not share a common ancestor within prohibited degrees.
6025	What is the 'Utedh' in the Panji system?	A detailed genealogical introduction encompassing 32 branches of ancestors.
6026	Which Gotra includes the original village of Mandar and the lineage of Triayan Bhatta?	Kashyap
6027	How many primary 'Mools' (original village origins) were identified at the inception of the Panji system?	167
6028	The concept of 'Pravar' refers to ancestors who were the original composers of hymns in the _____.	Rigveda

6029	According to the Panji, the spiritual guru of Chaitanya Mahaprabhu belonged to which Maithil village origin?	Khaware-Tinauli
6030	What is the difference between 'Pubari' and 'Pachhwari' Brahmins in the Mithila hierarchy?	Pubari refers to the Shrotriya Brahmins, while Pachhwari refers to the lower tiers.
6031	The Panji records for the Karna Kayastha community were originally managed by which scholar?	Shankardatta
6032	The term 'Santati' (असंतति) is used in genealogical records to denote ____.	A lineage or the continuous line of progeny from an ancestor.
6033	What is the primary function of a 'Mool' (मूल) in the Panji Prabandha?	It identifies the original ancestral root or home village of a specific Brahmin lineage.
6034	Which historical registry system is used to document the genealogies of Maithil Brahmins as shown in the source?	The Panji system (or Panji Prabandha).
6035	Which Gotra is associated with the 'Sarisab' (सरिसब) village according to the Shandilya section?	Shandilya (शण्डिल्य).
6036	According to the text, the 'Sodarpura' (सोदरपुरा) village is categorized under which Gotra?	Shandilya (शण्डिल्य).
6037	The abbreviation 'M.M.U.' found before names like Jivanatha and Bhavanatha stands for ____.	Mahamahopadhyaya (a title for a great scholar).
6038	To which Gotra does the village 'Oini' (ओईनी) belong, as per the genealogical classifications?	Kashyapa (कश्यप).
6039	Under which Gotra are the 'Pali' (पाली) and 'Hariamb' (हरीअम्ब) lineages classified?	Vatsa (वत्स).
6040	Which ancestor is linked to the 'Satainh' (सतईन्) branch within the Sarisab village records?	Bhavadiyapatya (offspring of Bhavaditya).
6041	The 'Khandwala' (खण्डवाला) village is traditionally linked with which Gotra?	Shandilya (शण्डिल्य).
6042	Which Gotra includes the villages 'Niun' (नीन) and 'Sakuri' (साकुरी)?	Parashara (पराशर).
6043	The 'Oinwar' (ओईन्वर) branch is stated to be prominent within the ____ Gotra.	Kashyapa (कश्यप).
6044	In the records, the lineage of 'Ratnakara' (रत्नकरा) is associated with which specific village branch?	Khandwala (खण्डवाला).
6045	The village 'Jajuar' (जाजुआर) is a notable branch belonging to the ____ Gotra.	Vatsa (वत्स).
6046	Which scholarly title is associated with the individual 'Gonu' (गोनु) in the Kampila village records?	Mahamahopadhyaya (M.M.U.).
6047	Term: 'Vatsh' Gotra	Definition: A major clan classification that includes lineages from villages such as Talsuri, Budhwar, and Pali.
6048	According to the text, the 'Sakalari' (सकालरी) village is linked to the lineage of ____.	Tathatikarapatya.
6049	The 'Khauara' (खौआरा) village is classified under the ____ Gotra.	Kashyapa (कश्यप).
6050	Which Gotra is associated with 'Kujoli' (कुजोली) and 'Naunati' (नौनाटी)?	Katyayana (कात्यायन).
6051	The lineage of 'Devaditya' (देवदित्या) is recorded as founding the ____ branch in Sarisab.	Ratnakarapatya.
6052	Which Gotra includes the 'Ekahara' (एकहारा) and 'Belluanchi' (बेलुअन्ची) villages?	Bharadwaja (भारद्वाज).
6053	The individual 'Vidyapati' is mentioned in the context of the ____ village in section 1.3.	Daridra (दरिद्र).
6054	What is the relation between 'Gangeshwara' (गङ्गेश्वर) and 'Sarisab' as per the text?	He is noted as an offspring (Apatya) within the Sarisab village genealogy.
6055	The Gotra associated with 'Sondapura' (सोन्दपुरा) and 'Panichobh' (पनिचोब) is ____.	Savarna (सवर्ण).
6056	Which specific ancestor's descendants are associated with the 'Ullu' (उल्लु) branch?	Raghunatha.
6057	The 'Maudgalya' (मौद्गल्य) Gotra is associated with which village in the registers?	Jalaki (जालकी).
6058	In the Panji terminology, what does 'Sut' (सुत) mean?	It means 'son' and is used to denote the immediate next generation.
6059	Which village is linked to the 'Harikara' descendants in the Daridra village records?	Silauri (सिलौरी).
6060	The 'Kaundinya' (काउन्दिन्या) Gotra is associated with the ____ branch.	Pahun (पहून्).
6061	Under the 'Shandilya' Gotra, the 'Bhatara' (भटारा) and 'Budhaura' (बुधौरा) villages are located near ____.	Brahmapura.
6062	Which Gotra is linked to the 'Gautama' (गौतम) classification in section 15?	Brahmapura and Uttampur.

6063	The ancestor 'Kamadeva' is associated with which offspring branch in Sarisab?	Dingari (अर्जुनपुत्र, अर्जुनपुत्र).
6064	To which village does 'Paksadhara' (अर्जुनपुत्र, अर्जुनपुत्र), a known scholar, belong according to the Khandwala section?	Tetariya (अर्जुनपुत्र, अर्जुनपुत्र).
6065	Which ancestor is associated with the 'Bliwas' (अर्जुनपुत्र, अर्जुनपुत्र) branch in the Sarisab village?	Ratnadyapatty.
6066	The 'Vashistha' (अर्जुनपुत्र, अर्जुनपुत्र) Gotra is associated with which specific branch in the Panji?	Kothua.
6067	Which village is linked to the 'Gopala' (अर्जुनपुत्र, अर्जुनपुत्र) lineage in the Khandwala records?	Garh (अर्जुनपुत्र, अर्जुनपुत्र).
6068	The 'Krishnatraya' (अर्जुनपुत्र, अर्जुनपुत्र) Gotra includes the villages of Lohna and _____.	Buswan (अर्जुनपुत्र, अर्जुनपुत्र).
6069	Which ancestor's progeny is linked to the 'Maniari' (अर्जुनपुत्र, अर्जुनपुत्र) branch in Sodarpura?	Jiveshwara.
6070	The individual 'Shankar' is identified as the son of which Mahamahopadhyaya?	Ayachi (अर्जुनपुत्र, अर्जुनपुत्र).
6071	Which village is associated with the offspring of 'Lakshmidatta' in the Paurmie village?	Gonauri (अर्जुनपुत्र, अर्जुनपुत्र).
6072	The 'Umapati' (अर्जुनपुत्र, अर्जुनपुत्र) scholar is linked to which village branch in the Sodarpura records?	Samauli (अर्जुनपुत्र, अर्जुनपुत्र).
6073	Under the 'Vatsa' Gotra, 'Sangram' is the branch associated with _____.	Lakshmikara.
6074	Which ancestor is linked to the 'Khairwar' (अर्जुनपुत्र, अर्जुनपुत्र) branch in the Kampila records?	Harate Mishra.
6075	The village 'Ghosaut' (अर्जुनपुत्र, अर्जुनपुत्र) is associated with which ancestor's offspring?	Patikanta.
6076	Which Gotra is associated with the 'Amvukaksha' (अर्जुनपुत्र, अर्जुनपुत्र) classification?	Katai and Brahmapura.
6077	The scholar 'Ganeshwar' is associated with which branch in the Sodarpura lineage?	Brahmapura.
6078	Which lineage is linked to the village 'Jhanjharpur' (अर्जुनपुत्र, अर्जुनपुत्र)?	Rama and Gurishwara.
6079	The branch 'Diggaun' (अर्जुनपुत्र, अर्जुनपुत्र) is linked to which Mahamahopadhyaya in section 1.3?	Jivanatha.
6080	Which ancestor is associated with the 'Balhai' (अर्जुनपुत्र, अर्जुनपुत्र) branch in Khandwala?	Gopala.
6081	The branch 'Simrawar' (अर्जुनपुत्र, अर्जुनपुत्र) is the descendant line of which individual in Sodarpura?	Rupe.
6082	Which ancestor is linked to the 'Kachwa' (अर्जुनपुत्र, अर्जुनपुत्र) branch in the Khandwala village records?	Someshwara.
6083	The 'Kaushika' (अर्जुनपुत्र, अर्जुनपुत्र) Gotra is associated with the _____ branch.	Nikhuti (अर्जुनपुत्र, अर्जुनपुत्र).
6084	Which scholar is associated with the 'Pali' village and the Vatsa Gotra as an 'Acarya'?	Udayakara.
6085	The 'Parsatandi' (अर्जुनपुत्र, अर्जुनपुत्र) Gotra is linked exclusively to which village in the text?	Katai (अर्जुनपुत्र, अर्जुनपुत्र).
6086	Which ancestor's line is associated with the 'Dahura' (अर्जुनपुत्र, अर्जुनपुत्र) branch?	Nipati.
6087	The individual 'Govinda' is linked to the offspring of _____ in the Palli village.	Haripura.
6088	In the Mandi village records, 'Bathia' (अर्जुनपुत्र, अर्जुनपुत्र) is associated with the offspring of _____.	Kameshwara.
6089	Which ancestor is linked to the 'Pokharia' (अर्जुनपुत्र, अर्जुनपुत्र) branch?	Nilakantha.
6090	The branch 'Busamon' (अर्जुनपुत्र, अर्जुनपुत्र) is associated with which ancestor in the Khauara records?	None Jagannatha.
6091	Which village is linked to the offspring of 'Shashidhara' in the Palli records?	Panihari (अर्जुनपुत्र, अर्जुनपुत्र).
6092	The ancestor 'Bhikhe' is associated with which branch in the Baliyas village?	Ruini (अर्जुनपुत्र, अर्जुनपुत्र).
6093	Which ancestor is associated with the 'Kanoli' (अर्जुनपुत्र, अर्जुनपुत्र) branch in the Satarkha village?	Chandreshwara.
6094	The individual 'Taranaya' is associated with which ancestor in the Ekahara village?	Shrikara.
6095	Which ancestor's line is associated with 'Ujan' (अर्जुनपुत्र, अर्जुनपुत्र) in the Beluanchi village?	Jivaditya.
6096	What is the primary subject matter of the text 'Mithila Panji Prbandh'?	Genealogical records and genome mapping of the people of Mithila from \$450\$ AD to \$2009\$ AD.
6097	According to entry \$(28)\$, who was the father of Pakshadhar?	Ratnakar.

6098	Which two sons of Pakshadhar were associated with Ratnakar Dau in entry \$(28)\$?	Haridhar and Yashodhar.
6099	Who were the sons of Yashodhar mentioned in the lineage starting from section \$(28)\$?	Vinayakar and Pannibha.
6100	From which village was the progenitor (Biji) Vishnu Sharma, whose son was Haraditya?	Garh Bisphi.
6101	Which office or title was held by Shanti Vighrik Devaditya's son, Vireshwar?	Mahagarik.
6102	Who was the 'Mahamittak' and 'Mahasaman-tatadhipati' son of Shanti Vighrik Devaditya?	Ganeshwar.
6103	In section \$(28)\$, who is identified as the father of Muraridatta?	Laxmidatta.
6104	Who was the father of Shankaradatta mentioned in the lineage involving the maternal source 'Ajaya'?	Dev.
6105	In entry \$(29)\$, who are the four sons of Rorisharma (or Harisharma) from different maternal lineages?	Laxmikant, Jayakant, Shitikanth, and Sokhe.
6106	The son of Jayakant, named Sthanantarik Pati, was associated with which village?	Pabauli.
6107	Who were the two sons of Vikram mentioned in section \$(29)\$?	Ganapati and Vachaspati.
6108	Where did the descendants of Madhav, the son of Shrutipriya Trilochana, reside?	Bhandawar.
6109	Who was the father of Vasuki, according to entry \$(29)\$?	Sthanantarik Pati.
6110	Who were the sons of Mahamitto Sureshwar mentioned in entry \$(29)\$?	Shanti Vighrik Haridhar, Vidyadhar, and Devadhar.
6111	Entry \$(30)\$ mentions a 'Mahamaho' Nidhi whose son was associated with the village Gangaur; who was he?	Shri Kumar Pathak.
6112	Who was the son of Dubey, mentioned in section \$(30)\$, who came from the village Pan-dauli?	Ghritakar.
6113	In section \$(30)\$, Jiveshwar is the son of which ancestor associated with Garh Yamugam?	Shrikar.
6114	Who were the three sons of Chandra-dhara mentioned in the lineage of Gangaur?	Raghu, Madhav, and Chandradhara.
6115	Section \$(31)\$ mentions a son of Bhaktakar named Jayasharma; who was his brother?	Harisharma.
6116	The descendants of Shurpani are noted to reside in which specific village?	Pakhauri.
6117	Who was the son of Maheshwar who resided in the village of Pari?	Ugreshwar.
6118	In section \$(31)\$, who were the four sons of Hrishikesh?	Manu, Punyakar, Diwakar, and Gunakar.
6119	The ancestor Diwakar, son of Shubhakar, was associated with which village?	Tisaunt.
6120	Who was the father of Mahamahopadhyaya Ramabhadra?	Mahamahopadhyaya Bhagiratha (also known as Megh).
6121	The descendants of Vachaspati mentioned in section \$(32)\$ are associated with which village?	Virpur.

6413	Identify the 'Moola' (original ancestral village/clan) mentioned frequently alongside individuals from 'Sodarpur'.	Sodarpur-moola.
6414	What is the primary purpose of the 'Matrika Chakra' (मट्रिका चक्र) as described in the source?	It serves as a maternal genealogical chart for tracking lineages.
6415	According to excerpt 162, who was the son of 'Harijiva'?	Shivadatta.
6416	In the 'Rohini Matrika Chakra' (excerpt 163), who is listed as the daughter of 'Rohini'?	Lakshminath.
6417	In the genealogy of 'Mohan' (excerpt 162), who is his father?	Kamadeva.
6418	Which lineage or village is 'Mandaur' (मण्डौर) frequently associated with in the text?	Mandaur-moola.
6419	Who is the son of 'Lakhan' mentioned in the records of excerpt 163?	Pankhu.
6420	In the context of the Panji, what is the significance of the village 'Darihara' (दरिहरा)?	It is a prominent ancestral village (Grama) used to identify specific family branches.
6421	Identify the son of 'Govinda' mentioned in the context of the 'Paboli' village connection in excerpt 162.	Kalidasa.
6422	Who is identified as the great-grandson (Praputra) of the famous poet Vidyapati in excerpt 164?	Harishvara.
6423	In excerpt 164, 'Nitai' is recorded as the father of which individual?	Lakshmidhara.
6424	Which title is given to 'Sadananda' in excerpt 170, indicating his high scholarly status?	Jagadguru Mahamahopadhyaya.
6425	In excerpt 165, 'Bhushana' is the son of which person?	Raghunath.
6426	Which village is linked to 'Parashurama' in the maternal connection (Dau) described in excerpt 165?	Pali.
6427	In excerpt 166, who is the son of 'Kamalanayana'?	Lakshmidewa.
6428	Who is the son of 'Vishnupati' as recorded in excerpt 163?	Lakshmipati.

6429	Identify the title 'Vaidyapr.' (ವೈದ್ಯಪ್ರಾಚಾರ್ಯ) used in excerpt 182.	Vaidya-pravara (Distinguished Physician).
6430	The village 'Sarisab' (ಸರಿಸಬ್) is a common maternal connection for which scholarly family mentioned in the text?	Mahamahopadhyaya Vamadeva's family.
6431	Who is the son of 'Ratani' mentioned in excerpt 164?	Goudai.
6432	In the 'Amritnath Matrika Chakra' (excerpt 168), what is the name of Amritnath's son?	Matinath.
6433	Which maternal connection (Dau) is associated with 'Haridatta' in excerpt 163?	Sodarpur.
6434	In excerpt 170, 'Harishvara' and 'Dhaneshvara' are the sons of which individual?	Praputra of Vidyapati.
6435	Who is the son of 'Gauripati' identified in excerpt 173?	Harishvara.
6436	In excerpt 174, what specific epithet is attached to MM Batesha?	Avalamba Sarasvati.
6437	Which village is 'Kujouli' (ಕುಜೌಲಿ) referred to as in the genealogical connections?	Kujouli-moola.
6438	In excerpt 175, 'Gokulnath' is associated with which lineage branch?	Tetarihar.
6439	Who is the son of 'Bhavadeva' mentioned in the context of the village 'Pali' in excerpt 176?	Indrapati.
6440	In excerpt 179, 'Chhabinu' is the father of which three individuals?	Ruradhara, Kartidhar, and Chitradhara.
6441	Which village connection (Dau) is listed for 'Ratnakara' in excerpt 180?	Ghosout.
6442	In excerpt 182, 'Shubhankar' is the son of which person?	Paramananda.
6443	Who is the son of 'Somadeva' recorded in excerpt 183?	Bhavanath.
6444	The title 'Pallavika' (ಪಲ್ಲವಿಕಾ) is associated with which individual in excerpt 181?	Bhavanath.
6445	In excerpt 184, 'Janardan' is the son of which person?	Damodar.
6446	Who is identified as the father of 'Abhinandana' in excerpt 184?	Raghupati.
6447	In excerpt 185, 'Jagadish' is the son of whom?	Keshav.
6448	The maternal connection 'Ekharā' (ಏಕರಾ) is associated with which individual in excerpt 181?	Ramnath.
6449	In excerpt 186, 'Dasharatha' is listed as the father of which son?	Ratnadeva.
6450	Which lineage is linked with the village 'Budhwal' (ಬುಧವಾಲ್) in excerpt 186?	Budhwal-moola.
6451	In excerpt 167, 'Kashi' is the son of which individual?	Gopal.
6452	Identify the son of 'Bhaves' mentioned in excerpt 170.	Gopinath.
6453	In excerpt 171, 'Purushottama' is the father of whom?	Mahadeva.
6454	Which village is associated with the 'Dau' of 'Lakshnipati' in excerpt 173?	Pavan-chobh.
6455	In excerpt 174, who are the two sons of 'Manohar'?	Kamalanayan and Kulapati.
6456	The title 'Vaidika' (ವೈದಿಕಾ) is frequently applied to which individual's descendants in excerpt 182?	Yadunath.
6457	Who is the son of 'Matinath' as recorded in excerpt 173?	Dharanath.
6458	In excerpt 167, 'Gayan' is the son of which person?	None (recorded as son of Amaru in context).
6459	Which village is 'Khandabala' (ಖಂಡಾಬಲಾ) linked to in the context of the 'Dau' for 'Gunapati'?	Khandabala-moola.
6460	In excerpt 170, 'Vidhyapati' is listed as the son of whom?	Shripati.
6461	Who is the father of 'Vachaspati' mentioned in excerpt 164?	Narhari.
6462	In excerpt 162, 'Bhairav' is the son of which individual?	Ganapati.
6463	The village 'Bhaban-moola' (ಬಭಾನಮೂಲಾ) is associated with the maternal connection of which person in excerpt 164?	Purushottama.
6464	In excerpt 166, who is the father of 'Haripati'?	Jagannath.
6465	Who is the son of 'Jage' mentioned in excerpt 166?	Shuchikar.
6466	In excerpt 168, 'Vamadeva' is identified by which scholarly title?	Mahamahopadhyaya Upadhyaya.
6467	Which village is 'Belunch' (ಬೆಲುಂಚ್) associated with in the 'Dau' for 'Govinda' in excerpt 162?	Belunch-moola.
6468	In excerpt 162, 'Vishnupati' is the son of which person?	Nandan.
6469	Who is the son of 'Ratnadeva' as listed in excerpt 178?	Bavani.
6470	In excerpt 180, 'Ratnapati' is the son of whom?	Nathu.

6471	In the context of the 'अद्वैतवंश' (Genome Mapping) of Maithil Brahmins, what is the primary purpose of a 'पंजी प्रबन्ध' (Panji Prabandh)?	It is a systematic genealogical management system used to record and verify lineages.
6472	What does the Sanskrit term 'सुत' (Suto) signify in these genealogical records?	Son.
6473	What does the term 'सुता' (Suta) signify in the context of marriage alliances in the text?	Daughter.
6474	According to the excerpts, who was the son of 'पद्मानभ' (Padmanabh)?	अच्युत (Achyuta).
6475	Who is recorded as the father of 'श्रीराम' (Shrirama) in the lineage originating from Madhukar?	मधुक (Madhukar).
6476	The title 'महोपाध्याय' (Mahopadhyaya) or 'महोपाध्याय' appearing before names like 'महोपाध्याय' is an abbreviation for which academic honour?	महोपाध्याय (Mahamahopadhyaya).
6477	Who is identified as the father of the famous poet 'विद्यापति' (Vidyapati) in the Sodarpur lineage?	देवनाथ (Devnath).
6478	In the genealogy of 'यदुपति' (Yadupati), who is his son associated with the title 'वैदिक' (Vaidika)?	विश्वम्भर (Vishwambhar).
6479	From which village did 'नरपति' (Narapati) originate as a marriage link (dau) for Yadupati?	विधपबुली (Vidh Pabouli).
6480	Who was the son of 'नरपति' (Narapati) mentioned in the lineage?	श्रीहरी (Shri Hari).
6481	In the records, who is the father of 'परमानन्द' (Parmanand) in the Bhavanath lineage?	भवनाथ (Bhavanath).
6482	Which village is associated with the 'दिवानभोरानथ' (Divan Bhoranath) family branch?	सिमरी वल्लियान (Simari Valliyan).
6483	Who is the son of 'दिवानभोरानथ' (Divan Bhoranath)?	लक्ष्मिनाथ (Lakshminath).
6484	Which ancestor is linked to the 'गंगोर्बुधवल' (Gangora Budhwal) village for the descent of Shankar?	भवनाथ (Bhavanath).
6485	Who is the father of 'चक्रपति' (Chakrapati) in the line of Gauri Sader?	कादिंगर (Kadingar).
6486	Which ancestor's son is 'रामभारा' (Rambhara) in the lineage of Shrinath?	श्रीनाथ (Shrinath).
6487	In the lineage of 'रुचि' (Ruchi), who is his father?	अन्दु (Andu).
6488	Who is recorded as the son of 'विश्वनाथ' (Vishwanath) in the lineage of Ruchi?	जगन्नाथ (Jagannath).
6489	Which village origin is associated with 'रतनापति' (Ratnapati) as a marriage link for Lakshminath?	बाधधपबुली (Badhdh Pavouli).
6490	Who is the father of 'भिकारी' (Bikhari) in the Tarauni Karmaha lineage?	रतनापति (Ratnapati).
6491	In the lineage of Bhikhari, who is identified as the father of 'राघुनन्दन' (Raghunandan)?	खोरी (Khor).
6492	Who is the son of 'राघुनन्दन' (Raghunandan) linked to the 'महिषी पाली' (Mahishi Pali) marriage link?	गोपिनाथ (Gopinath).
6493	The Panji records identify 'गंगधर' (Gangadhar) as the son of which ancestor in the lineage of Vishwambhar?	विश्वम्भर (Vishwambhar).
6494	Who is the father of 'बाहोरान' (Bahoran) in the lineage of Yadunath?	यदुनाथ (Yadunath).
6495	Identify the son of 'कमलापति' (Kamalapati) in the Sarisab lineage.	धरानिधर (Dharanidhar).
6496	Who was the father of the ancestor 'हरी' (Haril)?	हरी (Harai).
6497	In the lineage of 'पा-राघुनाथ' (Pa-Raghunath), who is his son?	पा-कमलापति (Pa-Kamalapati).
6498	Who is the father of 'पा-धरानिधर' (Pa-Dharanidhar) and 'कृष्णदेव' (Krishnadev)?	पा-कमलापति (Pa-Kamalapati).
6499	Identify the son of 'गौरीपति' (Gauripati) in the lineage of Krishnapati.	रामपति (Ramapati).
6500	Which village is linked to the ancestor 'महनु' (Mahnu) as a marriage link for Tamasuru?	उकुसी तक्बल (Ukusi Takbal).
6501	Who was the father of 'हर्नुक' (Harnuk)?	चाना (Chana).
6502	In the lineage of 'मधुसूदन' (Madhusudan), who is his son recorded in the Lohana Sakaradhi branch?	राघुनाथ (Raghunath).

6503	Who is the father of 'ಇರವಿ ವಿದ್ಯಾಪತಿ' according to the lineage details for Jagannath?	ದೇವನಾಥ (Devnath).
6504	Identify the father of 'ಹರಿನಾಥ' (Harinath) in the lineage of Raghunath.	ರಾಗುನಾಥ (Raghunath).
6505	Who is the son of 'ಶ್ರೀ ಹರಿ' (Shri Hari) mentioned in the Raghunandan branch?	ರಾಗುನಂದನ (Raghunandan).
6506	In the lineage of 'ನಿಲಕಂಠ' (Nilkanth), who is his son?	ಅನೈ (Anai).
6507	Who is recorded as the father of 'ಭಾವನಾಥ' (Bhavanath) in the line of Shrirama?	ಶ್ರೀರಾಮ (Shriram).
6508	Identify the son of 'ಪಾ-ಮಧವ' (Pa-Madhav) linked to the 'ವುದ್ಧಾಬಲ' (Vudhabal) Pathak lineage.	ಪಾಠಕ್ ಬಾಬು (Pathak Babu).
6509	Who is the father of 'ಪಾಠಕ್ ಬಾಬು' (Pathak Babu) in the Govind lineage?	ದಾಮು (Damu).
6510	In the lineage of 'ಲಕ್ಷ್ಮಿಪತಿ' (Lakshmipati), who is his son?	ದೇವನಾಥ (Devanand).
6511	Who was the father of 'ಧರ್ಮೇಶ್ವರ' (Dharmeshwar)?	ದೇವನಾಥ (Devanand).
6512	In the lineage of 'ಚಾನಾ' (Chana), who is his son recorded in the Sulhani Narun branch?	ರುಪನಾಥ (Rupnath).
6513	Who is the father of 'ಚತುರ್ಭುಜ' (Chaturbhuj) in the lineage of 'ಕಮಲ' (Kamal)?	ಕಮಲ (Kamal).
6514	Identify the father of 'ಭಗೀರಥ' (Bhagirath) in the Chaturbhuj lineage.	ಚತುರ್ಭುಜ (Chaturbhuj).
6515	Who is recorded as the father of 'ವಿಷ್ಣುನಾಥ' (Vishwanath) in the lineage of Mahesh?	ಮಹೇಶ (Mahesh).
6516	In the lineage of 'ಬಿಕ್ಕರ್ ಲಾಲ್' (Bhikhar Lal), who is his father?	ಅಭಯನಾಥ (Abhayanath).
6517	Who was the father of 'ಗೋಪಿನಾಥ' (Gopinath) in the lineage of Kamdev?	ಕಮದೇವ (Kamdev).
6518	Identify the father of 'ರಾಗುನಾಥ' (Raghunath) in the lineage of 'ತೆಗ್ಗ' (Thegh).	ತೆಗ್ಗ (Thegh).
6519	Who is the son of 'ಗೋಡ್ಹೆ' (Godhe) in the branch of Mahaiya Sodarpur?	ಭಾವನಾಥ (Bhavanath).
6520	Who is recorded as the father of 'ವಿಷ್ಣುಬಾರ್' (Vishwambhar) in the lineage of Bhagi-rath?	ಭಗೀರಥ (Bhagirath).
6521	Who was the father of 'ಪರಮನಾಥ' (Parmanand) in the Mandar lineage of Jorai?	ಜೋರೈ (Jorai).
6522	Which title is associated with 'ರಾಗುನಂದನ' (Raghunandan) in the Maadara lineage?	ಮಹಾಪದ್ಮಾಭಯ (Mahamahopadhyaya).
6523	Who is the father of 'ಮುಕುಂದಾ' (Mukunda) in the lineage of Madhav?	ವಿದು (Vidu).
6524	Identify the son of 'ಹರಿಪತಿ' (Haripati) in the line of Vamdev.	ಉಮನಾಥ (Umanand).
6525	Who is recorded as the father of 'ಮಹಾದೇವ' (Mahadev) in the line of Raghupati?	ರಾಗುಪತಿ (Raghupati).
6526	In the lineage of 'ಶಂಕರ' (Shankar), who is the son of 'ಬಸುಡೇವ' (Basudev)?	ಶಂಕರ (Shankar).
6527	Who was the father of 'ರಾತಿಧರ' (Ratidhar) in the line of Haripani?	ಹರಿಪಾನಿ (Haripani).
6528	Identify the son of 'ರಾಮದೇವ' (Ramdev) in the lineage of Ravual.	ಶಿವದೇವ (Shivdev).
6529	Who is the father of 'ಮುರಾರಿ' (Murari) in the Darhara lineage?	ರಾಜ (Rajan).
6530	Who is recorded as the father of 'ಅನಂತ್' (Anant) in the line of Balbhar?	ಬಾಲ್ಭರ (Balbhar).
6531	Identify the son of 'ಗಣೇಶ' (Ganesh) in the Hati Pali lineage.	ದೇವನಾಥ (Devanand).
6532	Who was the father of 'ಭೈರವ' (Bhairav) in the Mahnora Khauval branch?	ವಿಷ್ಣುಬಾರ್ (Vishwambhar).
6533	In the lineage of 'ದಾಮೋದರ' (Damodar), who is his son associated with the Mahinravad branch?	ಯದುನಾಥ (Yadunath).
6534	Who is the father of 'ಭಾವೇಶ' (Bhaves) in the Lakshmipati lineage?	ಲಕ್ಷ್ಮಿಪತಿ (Lakshmipati).
6535	In the lineage of 'ರಾಮದೇವ' (Ramdev), who is his son recorded in the Shiva-hariam branch?	ಅನ್ನಾ (Annat).
6536	Who is the father of 'ಕಾಮನಾಥ' (Kamalnayan) in the lineage of Lakshminath?	ಲಕ್ಷ್ಮಿನಾಥ (Lakshminath).
6537	Identify the father of 'ಬಾಲ್ಕೃಷ್ಣ' (Balakrishna) in the lineage of Haridev.	ಹರಿದೇವ (Haridev).

6538	Who was the father of 'धर्मपति' (Dharmapati) in the Ratnapati lineage?	रत्नपति (Ratnapati).
6539	Which title is prefixed to 'रामाध्याय' (Rai Shankar) in the text?	महामहोपाध्याय (Mahamahopadhyaya).
6540	Who is the father of 'मन्हारा' (Manhara) in the line of Chintamani?	चिन्तामणि (Chintamani).
6541	Identify the son of 'मन्हारा' (Manhara) mentioned in the Pavouli branch.	सुबन्धु (Subandhu).
6542	Who is recorded as the father of 'वैयाकरणा' (Vaiyakarana Ram) in the lineage of Vaiyakarana Ram?	वैयाकरणा (Vaiyakarana Ram).
6543	In the lineage of 'भिकी' (Bhiki), who is the son identified in the Vithouli branch?	भगिरथ (Bhagirath).
6544	Who was the father of 'हरीकर' (Harikar) and 'प्रभकर' (Prabhakar)?	बासुदेव (Basudev).
6545	Who is the father of 'देवानंद' (Devanand) in the Tarauni Karmaha lineage?	लक्ष्मिपति (Lakshmipati).
6546	What is the primary subject of the document 'पंजी प्रबन्ध' (Panji Prabandh) of the Maithil community from 450 AD to 2009 AD.	The management and genealogical records (Panji Prabandh) of the Maithil community from 450 AD to 2009 AD.

6613	Who is the son of Ramnath Rurapatat mentioned in the Darihara context?	Panaai.
6614	In the lineage of Damodar, who is the son identified with the title 'Dandapani'?	Manmohan.
6615	Who is recorded as the son of Kirtidhar in the Darihara records?	Bhudhar.
6616	Vedic Jivanath is identified in the text as the son of _____.	Bhudhar.
6617	Who is the son of Jivanath whose daughter married into the Mandar lineage?	Hemkar.
6618	In the Sodarpur lineage, who is recorded as the son of Beni?	Vishwanath.
6619	Vishwanath's son, mentioned in the Dhusaut records, is named _____.	Hrishikesh.
6620	Who is the son of Shubhankar mentioned as a descendant of Gaurinath?	Harishwar.
6621	In the Khandabala lineage, who is recorded as the son of Harishwar?	Ramanand.
6622	Who is the son of Ramanand in the Khauval lineage context?	Bhavanand.
6623	Who is the son of Horil in the Hariam lineage?	Narayan.
6624	In the Kujouli lineage, who is the son of Mahidhar?	Lakshminath.
6625	Who is the son of Shriram in the Darihara lineage records?	Jagannath.
6626	In the Pali lineage, who is identified as the son of Pathak Yashodhar?	Vishweshwar.
6627	Who is the son of Sonu in the lineage leading to Harinath?	Bhikhlu.
6628	Who is the son of Bhikhlu in the Pali lineage?	Harinath.
6629	In the Karamaha lineage, who is the son of Lakshminath?	Jankinath.
6630	Who is recorded as the son of Jivanath in the Karamaha lineage?	Shambhunath.
6631	In the Hariam lineage, who is the son of Kashinath?	Mansukh.
6632	Who is recorded as the son of Krishnadatt in the context of Loknath?	Ganapati.
6633	In the Karamaha lineage, who is the son of Haridev?	Laxman and Rama.
6634	Who is the son of Laxman recorded in the Mandar lineage?	Chaturbhuj.
6635	In the Karamaha lineage, who is the son of Mansukh?	Damodar.
6636	Who is the son of Damodar in the context of Ray Hemangad?	Hemangad.
6637	Who is the son of Ray Hemangad in the Karamaha records?	Ramachandra Vagish.
6638	In the Khandbag lineage, who is the son of Banmali?	Raghunath.
6639	Who is recorded as the son of Mukunda Dev in the Khandbag lineage?	Raghunath.
6640	Who is the son of Achyut mentioned in the Sakra records?	Banmali.
6641	In the Narun lineage, who is the son of Kavi Shyamnath?	Maheshwar.
6642	Who is the son of Gokulnath in the Mandar lineage?	Gopal.
6643	In the Mandar lineage, who is the son of Durgadatt?	Ramakant.
6644	Who is the son of Ramakant mentioned in the Khandabala records?	Durgadatt.
6645	Who is the son of Maharaja Samarsingh mentioned in the Mandar records?	Raja Bhagirath.
6646	Who is recorded as the son of Raja Bhagirath?	Rai Raghudev.
6647	In the Ravual lineage, who is the son of Raghudev?	Manhar.

6648	Who is the son of Manhar in the Narun lineage?	Nandi Gujai.
6649	In the Budhwal lineage, who is recorded as the son of Babu?	Bhavanand.
6650	Who is the son of Bhavanand in the Sodarpur records?	Ani Jaykrishna.
6651	In the Sodarpur lineage, who is the son of Harinath?	Bhagirath and Hrishikesh.
6652	Who is the son of Lakhai in the Sakrarhi lineage?	Gopinath.
6653	In the Sodarpur lineage, who is the son of Jaypat?	Vishnudatt.
6654	Who is the son of Prannath in the Mandar lineage?	Babu Jivanath.
6655	In the Sodarpur lineage, who is the son of Jivanath?	Madhusudan.
6656	Who is the son of Madhusudan in the Sodarpur records?	Lakshmiapat.
6657	In the Khandbala lineage, who is the son of Garib (alias Vishwanath)?	Nath and Gopinath.
6658	Who is the son of Rambhar in the Narun lineage?	Raghupati.
6659	Who are the sons of Nath in the Karamaha lineage?	Jadhunath, Devnath, and Guruvar (alias Jaykrishna).
6660	In the Darihara lineage, who is the son of Bhavanath?	Chumman (alias Tirtham).
6661	Who is the son of Modnath in the Pali lineage?	Bhikhari Baun.
6662	In the Narun lineage, who is the son of Thakur Balkrishna?	Kamlakant.
6663	Who is the son of Hemnath in the Pashupati lineage?	Pashupati.
6664	In the Darihara lineage, who is the son of Bandi?	Vishweshwar and Bhairav.
6665	Who is the son of Devnath in the Mandar lineage?	Kirtinath.
6666	In the Karamaha lineage, who is the son of Nidhi?	Balbhar and Upadhyaya Kashinath.
6667	Who is the son of Harihar in the Sodarpur records?	Krishnanand.
6668	In the Narun lineage, who is the son of Kavi Dharmanand?	Manohar.
6669	Who is the son of Takenath in the Khandbala lineage?	Babu Nanu (alias Bodhnath).
6670	Who is the son of Babu Nanu in the Khauwal lineage?	Gokul.
6671	In the Karamaha lineage, who is the son of Muni?	Jaladhar.
6672	Who is recorded as the son of Baidyanath?	Saheb.
6673	In the Sodarpur lineage, who is the son of Saheb?	Gokul and Ratnapat.
6674	Who is the son of Ratnapat in the Pali lineage?	Mauj and Durgadatt.
6675	In the Darihara lineage, who is the son of Gokul?	Jaladhar, Haldhar, and Shridhara.
6676	Who is the son of Kaladhar in the Karamaha lineage?	Amritnath.
6677	Who is the son of Amritnath in the Sodarpur records?	Purandhar.
6678	In the Hariam lineage, who is the son of Purandhar?	Shavrakdatt.
6679	In the Pali lineage, who is the son of Shivapat?	Gauripat and Mahipat.
6680	Who is the son of Mahipat in the Narun records?	Damodar.
6681	In the Sodarpur lineage, who is the son of Damodar?	Harinath and Vishnupat.
6682	Who is the son of Bhanu in the Budhwal lineage?	Gopinath and Baidyanath.
6683	In the Sakra lineage, who is the son of Baidyanath?	Oharri.
6684	In the Narun lineage, who is the son of Ram?	Mahinath.
6685	Who is the son of Mahinath in the Sodarpur records?	Shobhakar.
6686	In the Dhusaut lineage, who is the son of Shobhakar?	Batuknath.
6687	Who is recorded as the son of Maharaj Madhav Singh?	Babu Ramapati Singh.
6688	Who is the son of Babu Ramapati Singh in the Narun lineage?	Babu Prajapati Singh.
6689	Which ruler is referred to as 'Mithileshwar' in the Mandar records?	Maharaj Narapati.
6690	Who is the son of Maharaj Narapati in the Mandar records?	Maharaj Raghu Singh.
6691	In the Mandar lineage, who is the son of Harirama?	Chotku.
6692	In the Panji system, what does the term 'Vivah Prakaran' (अपुत्र, अपुत्र, अपुत्र, अपुत्र, अपुत्र, अपुत्र, अपुत्र, अपुत्र) refer to?	It refers to the section or records detailing marriage alliances.

6760	According to the Naraun records, who is the father of Madhusudana?	Bhavadeva.
6761	From which Moola (ancestral lineage) does the individual 'Vidyapati' descend in the first section?	Naraun.
6762	Who is the son of Gopinatha associated with the 'Budhwal' lineage?	Hadi.
6763	Which Moola is associated with the individual 'Lakshmidhara' in the early part of the text?	Budhwal.
6764	Who is the 'suto' (son) of Chaturbhuja in the 'Khau' lineage records?	Balabhar.
6765	In the records of the 'Sarisab' Moola, who is the son of Pashupati?	Baidyanatha.
6766	Which Moola is identified for the individual 'Madhusudana' in the context of the daughter of Vidyapati?	Naraun.
6767	Who is the son of 'Visho' from the 'Talhanpur' lineage?	Hari Shankara.
6768	According to the 'Karmaha' records, who is the father of Narayana?	Taranajiva.
6769	In section (293), who is listed as the son of 'Ramachandra' from the 'Budhwal' lineage?	Narapati.
6770	Which specific Moola is 'Bhavanand' associated with in the early lineage descriptions?	Sarisab.
6771	Who is the 'suto' of 'Mangu' as recorded in the Naraun lineage?	Narahari.
6772	According to the text, 'Gorgon' is the lineage associated with which individual's daughter?	Shankara.
6773	Name the son of 'Gayu' associated with the 'Sodarpur' lineage.	Vidyapati.
6774	Who is the father of 'Chakrapani' according to the records of 'Baheradi'?	Gopala.
6775	In the 'Jijwal' lineage, who is the son of 'Chakrapani'?	Vasudeva.
6776	Which Moola is associated with the individual 'Rupanatha' in the context of 'Hariam'?	Hariam.
6777	Who is the father of 'Baku' and 'Santilal' in the genealogical records?	Rudi.
6778	From which branch does 'Udyotakara' descend as per the 'Budhwal' records?	Budhwal.
6779	In the records of 'Karmaha', who is the son of 'Bhagiratha'?	Madhusudana.
6780	Who is the father of 'Yadunatha' from the 'Khau' lineage in section (293)?	Lakshminatha.
6781	Which Moola is linked to the individual 'Gauripati' in the 'Karmaha' records?	Karmaha.
6782	In the 'Baliyas' lineage records, who is the son of 'Raghava'?	Achyuta.
6783	Who is the 'suto' of 'Duban' in the 'Naraun' lineage?	Lachhu.

6784	The 'Oini' Moola is associated with which historical figure in the text?	Maharaja Lakshminarayana.
6785	Who is the son of 'Kalyana' as recorded in the 'Baliyas' lineage?	Hiramani.
6786	Which ancestral lineage is associated with the daughter of 'Mahesh Datta' in section (295)?	Ananalpur Karmaha.
6787	Who is the 'suto' of 'Vamvan' in the 'Naraun' records?	Hingu.
6788	According to the 'Khaua' records, who is the father of 'Damodara'?	Janu.
6789	In the 'Pali' lineage, who is identified as the 'suto' of 'Gopinatha'?	Gonin.
6790	Which specific ancestor is the 'suto' of 'Kamalapati' in the 'Budhwal' lineage?	Muralidhara.
6791	Who is the son of 'Vamshi' from the 'Satlakha' branch?	Kamali.
6792	According to the records of 'Sakradi', who is the father of 'Mahipani'?	Batesha.
6793	Who is identified as the son of 'Puraditya' in the 'Pali' lineage records?	Bhairava.
6794	In the context of 'Karmaha', who is the father of 'Pitambara'?	Vishnudeva.
6795	Which Moola is associated with 'Harsh' (Harkhu) in the Mandar records?	Mandar.
6796	Who is the 'suto' of 'Ruchi' as mentioned in the context of 'Mandar' and 'Udyotakara'?	Dashavadhuta.
6797	In the records of 'Belunch', who is identified as the son of 'Sanse'?	Mahesh.
6798	Who is the son of 'Ganesha' from the 'Alay' Moola?	Haraya.
6799	Which lineage did 'Vighnupati' belong to, according to the records on page 1.128?	Belunch.
6800	Who is the father of 'Uday' in the 'Baliyas' Moola?	Dube.
6801	In the 'Baheradi' lineage, who is the 'suto' of 'Damodara'?	Purkhu.
6802	Who is the son of 'Ratnapani' in the 'Mandar' lineage records?	Haripani.
6803	According to the 'Sodarpur' records, who is the son of 'Madhava'?	Bhagiratha.
6804	Which Moola is 'Vidyananda' associated with in the section concerning 'Mahesh'?	Sodarpur.
6805	Who is the father of 'Lakshmidatta' according to the 'Belunch' records?	Chhotkai.
6806	In the 'Darihara' lineage, who is the son of 'Ranjan'?	Devanatha.
6807	Who is the 'suto' of 'Govinda' as recorded in the 'Budhwal' lineage?	Mangu.
6808	According to the text, 'Khandwala' is the Moola of which son of 'Yathu'?	Haripati.
6809	Who is the father of 'Rudi' in the 'Babhanayam' lineage records?	Chhotku.
6810	Which ancestral branch did 'Sadananda' belong to according to the 'Khaua' records?	Khaua.
6811	Who is identified as the 'suto' of 'Vidyapati' from the 'Sodarpur' Moola?	Ramapati.
6812	In the genealogical table, 'Bhavadeva' is linked to which Moola regarding his grandson 'Gatiram'?	Duvahit.
6813	What is the primary subject of the document '121_BatchLM_merge.pdf'?	The management of Maithil Panji (genealogical records) from 450 A.D. to 2009 A.D.

7070	Maniram's (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་) son is identified as _____.	Manranjan (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་).
7071	MM Trilochana (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་ འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་) had two sons named _____.	Raghav and Bhaskar (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་ འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་).
7072	Who was the father of MM Trilochana (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་ འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་)?	MM Pitambar (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་).
7073	The son of MM Raitya (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་) is recorded as _____.	Ishwardutt (འཇམ་པལ་འགྲོ་མཆོད་ཀྱི་ཐུན་ཚེ་རྒྱལ་མཁས་པའི་བླ་མ་).
7074	Who is identified as the son of Yadunath in the Sodarpur lineage?	Anand
7075	Who is the son of Anand mentioned in the genealogical records?	Govind
7076	According to the text, which village or origin (mool) is associated with Jeevdhar?	Sodarpur
7077	Who is recorded as the son of Jeevdhar?	Nenak
7078	Who is the son of Vidyath in the Naraoon lineage?	Nibhak
7079	Maninath is associated with which specific mool?	Khandwala
7080	Who is identified as the son of Ganpati?	Devpati
7081	Devpati's son is recorded as _____.	Lokpati
7082	Radhanath and Ravinath are the sons of which individual?	Gadanpani
7083	The individual Bani Dauhithra hails from which mool?	Khauwal
7084	Who are the two sons of Leshpati mentioned in the lineage?	Raghnath and Shivnath
7085	Who is the son of Hridaynath mentioned in the Pali records?	Sadanand
7086	Sadanand is the father of which individual?	Praptinath
7087	Who is the son of Brajlal recorded in the text?	Muni
7088	Shrinath's son is Vavinandan, who is also known by what name?	Vaidyanath
7089	Who is the father of Vavinandan Singh according to the Khandwala records?	Maharaj Ruru Singh
7090	Who is recorded as the son of Giridhari?	Raghnandan
7091	Shrinandan's son is identified as _____.	Anand
7092	Who are the two sons of Anand listed in the Mandar records?	Diyanand and Kashinath
7093	Diyanand's son is recorded as _____.	Hari Madhav
7094	Who is the son of Takenath in the Sodarpur lineage?	Loknath
7095	Who are the two sons of Shikhan mentioned in the records?	Mahipati and Chandrapathi
7096	Pa. Raghnath is identified as the son of which individual?	Batuknath
7097	Who is the son of Loknath recorded in the Harayam lineage?	Barinath
7098	Barinath is the father of which three sons?	Baldev, Gopal and Balbhadra
7099	Who is the son of Lekhnath in the records?	Taranath
7100	Name the four sons of Taranath listed in the text.	Ramanath, Kalinath, Shrinath and Poshanath
7101	Kedarnath's son is recorded as _____.	Rishishwar
7102	Who is the father of Balbhadra in the Varaja lineage?	Varaja
7103	Vaidya Rishishwar is the father of which two sons?	Rishishwar and Siddhinath
7104	Vansh Bihari's son is identified as _____.	Gopinath
7105	Who is recorded as the son of Tamnath?	Gopinath
7106	Who is the son of Lakshmidatta in the Sodarpur records?	Harkhik
7107	Bihari Lal is recorded as the son of which individual?	Parvaya
7108	Who is the son of Ghantnanand?	Abhiram
7109	Mandhan's son is identified as _____.	Raghnandan

7110	Name the four sons of Raghunandan mentioned in the text.	Mayanandan, Devkinandan, Mahavir and Motinandan
7111	Vishwanath is the father of which two sons?	Radhanath and Shobhanath
7112	Who is the prominent Maharaja recorded as the son of Maharaj Maheshwar Singh?	Lakshmeshwar Singh
7113	Maharaj Lakshmeshwar Singh and Maharaj Rameshwar Singh share which father?	Maharaj Maheshwar Singh
7114	Who is recorded as the son of Tikanath?	Fakir
7115	Who is the son of Jivan listed in the Pali lineage?	Yognath
7116	Name the three sons of Jivan associated with Jagdbandhu.	Jagdbandhu, Gopinath and Brajnath
7117	Who is the son of Tamnanand?	Amarnath
7118	Nityanand is the son of which individual?	Chhota
7119	Who are the two sons of Nityanand (alias Ghurghur)?	Purnanand and Shobhanand
7120	Who is identified as the son of Shripat?	Rashpati
7121	Khadgi is the father of which individual?	Bhagirath
7122	Name the three sons of Jaladhar recorded in the text.	Khadgi, Gangadhar and Shridhar
7123	Virbhadra is identified as the son of _____.	Purnanand
7124	Who are the two sons of Virbhadra listed in the records?	Sundarnath and Vishwanath
7125	Harinath is the son of which individual?	Lochan (alias Shivrath)
7126	Who are the two sons of Vivajan listed in the Khandwala lineage?	Ajaynath and Harshanath
7127	Vavi Shripati (alias Kanhaiya Singh) is the son of which individual?	Vavi Prajapati Singh
7128	Who is recorded as the son of Hridaymani?	Motinandan
7129	Pa. Dhanshyam's son is identified as _____.	Shyamnath
7130	Who is the son of Shyamnath mentioned in the records?	Amritnath
7131	Vanshinath is the father of which individual?	Markandeya
7132	Who is recorded as the son of Vavi Vanshidhari Singh?	Vavi Brajnandan Singh
7133	Pa. Gharharan's son is identified as _____.	Janardan
7134	Who is recorded as the son of Janardan?	Lakshmikant
7135	Dukhranjan is the father of which individual?	Balin
7136	Who is the son of Dharmeshwar?	Rupnath
7137	Kamlakant's son is recorded as _____.	Vasudev
7138	Who is the son of Vasudev mentioned in the records?	Jivnath
7139	Who is recorded as the son of Yogishwar?	Gangadhar
7140	Gangadhar is the father of which individual?	Garib
7141	Who is the son of Ray Vagish?	Chintamani
7142	Who is the father of Tamikar in the records?	Kamal
7143	Tamikar's son is identified as _____.	Kashinath
7144	Who is recorded as the son of Ramapati?	Manik Chand
7145	Manik is the father of which individual?	Mathuranath
7146	Who is identified as the son of Mathuranath?	Nityanand
7147	Who is recorded as the son of Madan?	Vanshidhar
7148	Vanshidhar's son is identified as _____.	Kirtidhar
7149	Who is the son of Ramanath in the Bhavanidatta lineage?	Bhavanidatta
7150	Harikar's son is recorded as _____.	Badhan
7151	Who is identified as the son of Badhan?	Amaruk
7152	Amaru's son is recorded as _____.	Madhaik
7153	Name the three sons of Madhaik mentioned in the records.	Madhurkavi Madhav, Yadubhar and Maninath
7154	Madhurkavi Madhav is the father of which four sons?	Krishnadev, Haridev, Bhavdev and Shivdev
7155	Who is recorded as the son of Krishnadev?	Mukund
7156	Name the three sons of Mukund listed in the records.	Yadubhar, Ramnath and Sundar
7157	Sundar's son is identified as _____.	Mahesh
7158	Bhavdev is the father of which individual?	Jivkarna
7159	Who is the son of Balbhadra in the Mahesh lineage?	Mahesh
7160	Dhanshyam Das is the father of which individual?	Nandan
7161	Who is recorded as the son of Jivkarna?	Rurdatta
7162	Mahipati's son is identified as _____.	Dharmai

7163	Who are the two sons of Dharmai mentioned in the records?	Kune and Vadan
7164	Shriram's son is recorded as ____.	Vavik
7165	Who is identified as the son of Vavik?	Yogik
7166	Who is the father of Sadayak in the records?	Yogi
7167	Shriram (from Brahmapur) is the father of which individual?	Yadunath
7168	Yadunath's son is identified as ____.	Pashupati
7169	Jasai's son is recorded as ____.	Jadu
7170	Who is identified as the son of Jadu?	Vaidyanath
7171	Vaidyanath is the father of which individual?	Damodar
7172	Gopan's son is recorded as ____.	Ramapati
7173	Who is the son of Damodar in the Ratnanath lineage?	Ratnanath
7174	Name the four sons of Sukhani recorded in the text.	Dharmadatta, Cheta, Hansdatta and Hridaydatta
7175	Bachu's son is identified as ____.	Vishwanath
7176	Who is identified as the son of Bhavanidatta?	Arjun
7177	Vahudi is the father of which individual?	Ratnapati
7178	Who is the son of Arjun recorded in the records?	Vidyanidhi
7179	Vishwanath's son is identified as ____.	Khagnath
7180	Who is recorded as the son of Vishnupati?	Modnarayan
7181	Who is the son of Mohan in the records?	Hriday Ram
7182	Hriday Ram's son is identified as ____.	Padmanabh
7183	Who is recorded as the son of Padmanabh?	Devkrishna
7184	Name the two sons of Bachran mentioned in the records.	Nityanand and Ugranand
7185	Sadanand is the father of which individual in the Raghunandan lineage?	Raghunandan
7186	Pa. Lachi's son is identified as ____.	Sugak
7187	Who is the father of Harshamani in the records?	Chandramani
7188	Ramghan's son is recorded as ____.	Raghunath
7189	Vasudev is the father of which individual?	Harpati
7190	Who is identified as the son of Harpati?	Jaypati
7191	Pa. Yogi's son is recorded as ____.	Dinajayanth
7192	Who is recorded as the son of Thithi?	Jay Kishor
7193	Vaidya Thothi's son is identified as ____.	Jirkhan
7194	Who are the two sons of Devnath listed in the records?	Hiranya and Gopal
7195	Hiranya's son is recorded as ____.	Vavik
7196	Who is the son of Radhanath (alias Kanti)?	Revatinath
7197	Dhanpati's son is identified as ____.	Jalpadatta
7198	Mohan (alias Premnath) is the father of which individual?	Kirtinath
7199	Rama Nath's son is identified as ____.	Raghunath
7200	Name the two sons of Batia recorded in the text.	Indranath and Chintanath
7201	Mukund Singh is the father of which individual?	Devraj Singh
7202	Who is identified as the son of Devraj Singh?	Jayraj Singh
7203	Pushpi's son is recorded as ____.	Chidhanath
7204	Who are the two sons of Ganganath (alias Phude)?	Chetnath and Vidyanath
7205	Shivananad's son is identified as ____.	Kari
7206	Who is recorded as the son of Raja Dular Singh?	Raja Ruranand Singh
7207	Raja Ruranand Singh is the father of which individual?	Kumar Keshavanand Singh
7208	Who is identified as the son of Raja Shrinandan Singh?	Sahitya Saroj Raja Kamlanand Singh
7209	Natha's son is recorded as ____.	Vishwanath
7210	Who is identified as the son of Kedar?	Thakurdutta
7211	Budhi is the father of which individual?	Khadganath
7212	Gauridatta's son is recorded as ____.	Lakshman
7213	Who is the father of Yoganath in the records?	Lakshman
7214	Bhavanath's son is identified as ____.	Adinath
7215	Who is identified as the son of Pa. Chan?	Vishwanath
7216	Jyotishi Vanabh's son is recorded as ____.	Harinam

7217	Yadunandan is the father of which individual?	Kashinath
7218	Shami's son is identified as ____.	Dhanshyam
7219	Who are the two sons of Nakchedi listed in the records?	Vaidyanath and Devnath
7220	Meghnath is the father of which individual?	Shyamnath
7221	Who is identified as the son of Shyamnath in the Ranglal lineage?	Ranglal
7222	Jivan's son is recorded as ____.	Premnath
7223	Who is identified as the son of Premnath?	Dayanath
7224	Who is recorded as the son of Ram?	Madhusudan
7225	Dhabala is the father of which individual?	Naththubh
7226	Who is identified as the son of Kamlanath?	Shaktinath
7227	Kaushalyanandan (alias Dularnath) is the father of which individual?	Nikanand
7228	Rishipati's son is recorded as ____.	Bhimnath
7229	Who is recorded as the son of Lotai?	Haridev
7230	Haridev is the father of which individual?	Madhu
7231	Madhu's son is recorded as ____.	Hiru
7232	Hiru's son is identified as ____.	Gonin
7233	Who are the two sons of Bhimnath mentioned in the records?	Jiveshwar and Ruranath
7234	Chidnath's son is recorded as ____.	Balbhadra
7235	Who is recorded as the son of Manik in the Gosai lineage?	Gosai
7236	Gosai's son is identified as ____.	Damodar
7237	Ugra Singh is the father of which individual?	Jagat Singh
7238	Who are the two sons of Nidhinath mentioned in the records?	Shivshankar and Ruranath
7239	Ranglal is the father of which individual?	Panchmani
7240	Who is recorded as the son of Harishankar?	Mohan
7241	Durgadatta Singh is the father of which two sons?	Hitendra Singh and Amarendra Singh
7242	Who is identified as the son of Hitendra Singh?	Jagdishnandan Singh
7243	Bhup Singh's son is recorded as ____.	Vishnu Singh
7244	Who is identified as the son of Vishnu Singh?	Ray Dev Narayan
7245	Ray Rup Narayan is the father of which individual (alias Kamnarayan)?	Sonmani
7246	Ramdatta's son is recorded as ____.	Madandatta
7247	Kavi Shyamnath's son is identified as ____.	Maheshwar
7248	Who are the two sons of Maheshwar mentioned in the records?	Shrikrishna and Balkrishna
7249	Son's son is identified as ____.	Raiyo
7250	Raiyo is the father of which individual?	Chandreshwar
7251	Who is the son of Bachkan recorded in the records?	Teni
7252	Teni is the father of which two sons?	Madhusudan and Ratnanath
7253	Who is recorded as the son of Umakant?	Praptinath
7254	Natik Dharanath's son is identified as ____.	Vavi Gananath
7255	Who is identified as the son of Vavi Gananath?	Shantinath
7256	Keshav is the father of which two sons listed in the records?	Satyanarayan and Ramnarayan
7257	Markandeya's son is recorded as ____.	Vir
7258	Who is identified as the son of Panchkaudi?	Ram
7259	Phaninath's son is identified as ____.	Bholanath
7260	Vavi Girijadatta Singh is the father of which individual?	Yadunandan Singh
7261	Who is recorded as the son of Bholanath?	Amarnath
7262	Name the two sons of Loktantra Pati mentioned in the records.	Punyapati and Thakur Pati
7263	Tirthamani's son is recorded as ____.	Yogmani
7264	Who is identified as the son of Yogmani?	Tekmani
7265	Thakurpati's son is identified as ____.	Chidpati
7266	Damodar Singh is the father of which individual?	Gopinath Singh
7267	Who is recorded as the son of Gopinath Singh?	Ruchinath Singh
7268	Kishornath's son is identified as ____.	Punyanath
7269	Babureya's son is recorded as ____.	Harinandan

7270	Who is the father of Shivilal in the Rurdutt lineage?	Rurdutt
7271	Who is the father of Damodar in the Shivilal lineage?	Shivilal
7272	Identify the maternal house (Dau) of Damodar, son of Shivilal.	Ekihara
7273	Who is the son of Damodar in the lineage associated with the maternal house of Ekihara?	MM Brindavan Chandra
7274	MM Brindavan Chandra's son, Ratnakar, belongs to which maternal house (Dau)?	Khauul
7275	Who is the father of Gudarsadan in the lineage associated with the maternal house of Pali?	Khagadatta
7276	Maharaja Sridhar Narayan is the son of which individual?	Gudarsadan
7277	Identify the maternal house (Dau) of Maharaja Sridhar Narayan.	Oihan
7278	Who is the father of Maneshwar in the Sitanath lineage?	Nandishwar
7279	Nandishwar's son, Maneshwar, belongs to which maternal house (Dau)?	Vudhwal
7280	List the five sons of Nandishwar mentioned in the text.	Tejeshwar, Lokeshwar, Gangeshwar, Durgeshwar, and Parmeshwar
7281	Identify the father of the group of brothers: Raghunandan, Shivanandan, Devkinandan, Rahavanandan, and Harinandan.	Krishnadatta
7282	Who is the son of Bacha from the Darihara lineage?	Vidyanath
7283	Vidyanath, the son of Bacha, is associated with which maternal house (Dau)?	Sodarpur
7284	Who is the father of Artinath in the Tufani lineage?	Tufani
7285	Identify the maternal house (Dau) of Artinath.	Bamhaniyam
7286	Who are the sons of Maheshwar mentioned in the Sarisab lineage?	Vindhyanath, Vighneshwar, and Indreshwar
7287	Who is the father of Raghuram in the Mahadev lineage?	Mahadev
7288	Raghuram's maternal house (Dau) is from which village?	Janjwal
7289	Who is the father of Narottam in the Raghuram lineage?	Raghuram
7290	Identify the maternal house (Dau) of Narottam.	Karmiyan
7291	Who is the father of Purushottam Mushnan?	Narottam
7292	Who is the father of Dharni Narayan in the Manir lineage?	Manir
7293	Identify the maternal house (Dau) of Dharni Narayan.	Kujauli
7294	List the four sons of Purushottam mentioned in the lineage associated with Viski.	Devidutt, Gauridutt, Shambhudutt, and Ishwaridutt
7295	Who is the father of Bachru and Lakshminath in the Choke lineage?	Choke
7296	Identify the maternal house (Dau) of Bachru and Lakshminath.	Viski
7297	Who is the father of Lakshmipati Shalipani?	Manohar
7298	Identify the father of Kanth in the Raghunandan lineage.	Raghunandan
7299	Kanth's maternal lineage (Dau) is from which village?	Batabhi
7300	List the three sons of Kanth mentioned in the lineage associated with Mandar.	Bhagirath, Gangaram, and Maniram
7301	Who is the father of Ekaksha Badalbh?	Govardhan
7302	Govardhan's son, Badalbh, belongs to which maternal house (Dau)?	Hariam
7303	Who is the father of Gopinath in the Madan lineage?	Madan
7304	Gopinath's maternal house (Dau) is from which village?	Khauul
7305	Who is the father of Banmali in the Pranpati lineage?	Pranpati
7306	Banmali's sons are Ummanath, Kashinath, and Baidyanath; identify their maternal house (Dau).	Khauul
7307	Who are the three sons of Kashinath in the Banmali lineage?	Nilambar, Nilkanth, and Ruvnanda
7308	Who is the father of Yadupati in the Nilkanth lineage?	Nilkanth
7309	Identify the maternal house (Dau) of Yadupati.	Digho
7310	Who is the father of Manganiratna in the Budhai lineage?	Budhai
7311	Identify the maternal house (Dau) of Manganiratna.	Parisara
7312	Who are the two sons of Manganiratna?	Raghunandan and Hrishikesh
7313	Hrishikesh's son, Jagannath, belongs to which maternal house (Dau)?	Sodarpur
7314	Who is the father of Shyam in the Jagannath lineage?	Jagannath
7315	Identify the maternal house (Dau) of Shyam.	Kujauli

7316	Who is the son of Yadunandan from the Alay maternal lineage?	Parmanand
7317	Who is the father of Sundar in the Mukunda lineage?	Mukunda
7318	Sundar's maternal house (Dau) is from which village?	Pali
7319	Who is the son of Hariram with the maternal house of Vudhwal?	Baidyanath
7320	Kalikadutt is the son of which individual?	Ishwaridutt
7321	Identify the maternal house (Dau) of Kalikadutt.	Karmiyan
7322	Who is the son of Purushottam associated with the maternal house of Khauwal?	Bodhan Sukhet
7323	Who is the father of Muralidhar and Banshidhar?	Bachai
7324	Muralidhar and Banshidhar belong to which maternal house (Dau)?	Khandwala
7325	Who is the father of Govind in the Veni lineage?	Veni
7326	Govind's maternal house (Dau) is from which village?	Karmiyan
7327	Who is the son of Govind associated with the maternal house of Mandar?	Madhusudan
7328	Who is the father of Ramanand in the Keshi lineage?	Keshi
7329	Identify the maternal house (Dau) of Ramanand.	Valiyas
7330	Who is the father of Devkrishna in the Narottam lineage?	Narottam
7331	Identify the maternal house (Dau) of Devkrishna.	Sarisab
7332	Who is the father of Ummanand in the Bhairav lineage?	Bhairav
7333	Ummanand's maternal lineage (Dau) is from which village?	Satalakha
7334	MM Nainan is the son of which individual?	Dayaram
7335	Identify the maternal house (Dau) of MM Nainan.	Bhatipali
7336	List the four sons of Vishnupati mentioned in the text.	Aniruddha, Chaturbhuj, Gangadhar, and Baijbhaka
7337	Baijbhaka's sons འཇམ་མཁའ་ལྷ་མོ་འཕྲུལ་པ་ (Manohar), འཇམ་མཁའ་ལྷ་མོ་འཕྲུལ་པ་འཇམ་མཁའ་ལྷ་མོ་ (Ramkrishna), and འཇམ་མཁའ་ལྷ་མོ་འཕྲུལ་པ་ (Ramanand) belong to which paternal line?	Baidyanath
7338	Who is the father of Shalipani in the Ramkrishna lineage?	Ramkrishna
7339	Shalipani's maternal house (Dau) is from which village?	Sakaradhi
7340	Who is the father of Krishnaram and Gangaram in the Dashrath lineage?	Dashrath
7341	Krishnaram's son Chitaru belongs to which maternal house (Dau)?	Paoli
7342	Who is the father of Ramnath in the Shivnath lineage?	Shivnath
7343	Identify the maternal house (Dau) of Ramnath.	Karmiyan
7344	Who is the father of Rupnath in the Vishwanath lineage?	Vishwanath
7345	Rupnath's maternal house (Dau) is from which village?	Alay
7346	Who is the father of Hemkar in the Shalipani lineage?	Shalipani
7347	Identify the maternal house (Dau) of Hemkar.	Darihara
7348	Who are the sons of Nare mentioned in the lineage associated with Sodarpur?	Dhani and Murari
7349	Who are the sons of Rameshwar associated with the maternal house of Digho?	Santoshmani, Thegan, Gogan, Bhairavan, and Hridaynath
7350	Who is the son of Kriparam from the Gangoli maternal house?	Sarvasva
7351	Who is the son of Ganpati from the Khauwal maternal house?	Garib
7352	Who is the son of Krishnanand associated with the maternal house of Darihara?	Ruvdev
7353	Gopinath's son Godhai belongs to which maternal house (Dau)?	Gusaut
7354	Who is the son of Ruvdev from the Sodarpur maternal house?	Gangadhar
7355	Who is the son of Kunai associated with the maternal house of Mandar?	Vishram
7356	Identify the maternal house (Dau) of Khadganarayan, son of Rameshwar.	Valiyas
7357	Who are the sons of MM Mahesh Thakur mentioned in Section 1.210?	Ramchandra, Gopal, Achyut, and Parmanand
7358	Maharaja Shubhankar is the son of which prominent scholar?	MM Mahesh Thakur
7359	Identify the maternal house (Dau) of MM Mahesh Thakur's sons from his first marriage.	Pali
7360	Who is the son of Gopal Thakur in the MM Mahesh lineage?	Madhav
7361	Madhav's maternal house (Dau) is from which village?	Hariam

7362	Who are the sons of Madhav from the Naraun maternal house?	Lakshman and Chaturbhuj
7363	Identify the maternal house (Dau) of Lakshmi Nath, son of Madhav.	Mandar
7364	Who is the father of Balkrishna associated with the Naraun lineage?	Shivshankar
7365	Who is the father of Kamlakant in the Balkrishna lineage?	Balkrishna
7366	Kamlakant's maternal house (Dau) is from which village?	Naraun
7367	List the four sons of Kamlakant mentioned in the text.	Indra Kant, Tuchikant, Amikant, and Shivkant
7368	What is the specific timeframe covered by the genealogical records in the 'Panji Prabandh' material?	450 AD to 2009 AD.

7894	Identify the son of Abhinandan associated with the Kamal lineage.	Kamal.
7895	In the Virpur Panichom records, who is the father of Gopi?	Balram.
7896	Who is the son of Vasudev from the Darrihra village records?	Haripati.
7897	Identify the son of Gauri mentioned in the Nar-un records.	Shankar.
7898	Who is the father of Chidaman and Bhavani in the Baheradhi records?	Bhavani (son of Chidaman).
7899	In the lineage of Alay, who is the son of Kamdev?	Chakrapani.
7900	Who is the son of Santoshi in the Baliyas records?	Nath.
7901	In the Sodarpur records, who is the father of Hari?	Madhu.
7902	Who are the two sons of Ram in the Alay records (son of Bavbhi)?	Raiya and Ghaiya.
7903	Identify the son of Soni associated with the Taroni Karmiya records.	Ranglal.
7904	In the Phinandih records, who is the son of Sonai?	Ravinath.
7905	Who is the father of Ghora and Narottam in the Raunwal lineage?	Mohan.
7906	In the Sarisab records, who is the father of Vishnupati?	Gopinath.
7907	Who are the three sons of Dharani in the Darrihra records?	Hirananda, Dharani, and Nilkanth.
7908	Identify the father of Aniruddha in the Sakaradhi records.	Pitambar.
7909	Who is the father of Manbodh and Diweswar in the Baliyas records?	Gangadhar.
7910	In the Karmiya records, who is the son of Makan?	Bavbadi.
7911	Who are the sons of Gayaram in the Sakaradhi records?	Kariye and Amritnath.
7912	In the Khaunwal records, who is the son of Ghora?	Bodh.
7913	Who is the father of Chandradev in the Mandar records?	Mansukh.
7914	Identify the son of Yadav in the Belaunch records.	Bachcha.
7915	Who is the son of Shambhunath mentioned in the Pabauli records?	Hiya.
7916	In the Kujauli records, who is the son of Shankar?	Abhiram.
7917	Who is the father of Pritam in the Beharna records?	Ramkrishna.
7918	Identify the son of Mohan in the Janjwal records.	Devananda.
7919	In the Ravnaual records, who is the father of Rangi?	Lakshmikant.
7920	Who are the two sons of Lakshmiddev in the Sodarpur records?	Abhiram and Madhuram.
7921	In the Madhubani records, who are the sons of Ramkrishna?	Madhusudan and Lakshmpati.
7922	Identify the sons of Revatiraman in the Mainoura Khaunwal records.	Rurpati, Garhpati, Chaturbhuj, and Ramapati.
7923	Who is the son of Shambhu in the Pali records?	Vishow.
7924	In the Mandar records, who is the son of Vishwanath?	Chintamani.
7925	Identify the son of Chudamani in the Mandar records.	Hardatta.
7926	In the Sodarpur records, who is the son of Lakshman?	Ghora.
7927	Who is the father of Kaviraj in the Ekihra records?	Mukunda.

7928	In the Janjwal records, who is the son of Bhagwati?	Raiyaram.
7929	Who is the father of Madan in the Behata Basi Alay records?	Shiru.
7930	Identify the son of Jivanath in the Darrihra records.	Param.
7931	In the Yamugam records, who is the father of Kamal?	Narayan.
7932	Who is the son of Chakrapani in the Khaunwal records?	Bandi.
7933	In the Karmiya records, who is the son of Ramapati?	Jagdish.
7934	Identify the father of Fakir in the Sodarpur records.	Vadani.
7935	Who is the father of Harigovind in the Alay records?	Vadi.
7936	What is the historical timeframe covered by the 'Genome Mapping - Maithilak Panji Prabandh' document?	450 AD to 2009 AD.
7937	In the context of Maithil genealogy, what does the term 'Suto' denote?	Son.
7938	In the context of Maithil genealogy, what does the term 'Suta' denote?	Daughter.
7939	According to the Sakuri Sarisab records, who is the son of Somdatt?	Shaktinath.
7940	From which village is Shaktinath's maternal lineage (dau.) derived?	Darhi.
7941	Who is identified as the son of Shaktinath in the Panji records?	Dharmanath.
7942	Who is the son of Baldev mentioned in the Sakuri lineage?	Jaydev.
7943	Jaydev's maternal grandfather is Abhaynath from which specific village?	Tripuroli Naun.
7944	Dharmanath's daughters are recorded as Nandan and _____.	Kundana.
7945	Which Maithili literary figure is identified by the title 'Prashesh'?	Baidyanath Jha.
7946	Who are the two sons of Baidyanath Jha 'Prashesh'?	Suresh and Shailesh.
7947	From which village is the maternal lineage of Baidyanath Jha 'Prashesh'?	Siholi Mandar.
7948	Who is the son of Ghoghan mentioned in the opening section of the BatchLM merge?	Paltan.
7949	Vachchan is recorded as the son of which individual?	Rukminidatt.
7950	Who is the father of Jivnath according to the early sections of the Panji?	Prannath.
7951	Chandramohan's son is named _____.	Nandmohan.
7952	Who is the son of Nandmohan according to the Khangad section?	Mukund.
7953	Who are the two sons of Mukund?	Keshav and Janardun.
7954	Keshav's maternal lineage (dau.) originates from the village of _____.	Mandar.
7955	Who is the son of Baboo Vindyanath?	Vishwanath.
7956	Vishwanath's maternal grandfather is Rajnidatt from which village?	Sodarpur.
7957	Who is the father of Anand and Chunchun?	Devnandan.
7958	From which village is the maternal lineage of Anand?	Budhwal.
7959	Kantu is identified as the father of which individual?	Ghaneshwar.
7960	Hanuman Ji is recorded as the father of Badrinath and _____.	Ganganath.
7961	Shantinath is the son of which individual?	Garinath.
7962	Who are the three sons of Shantinath?	Kamnath, Mayanath, and Abhaynath.
7963	Who is recorded as the son of Tharu?	Apooch.
7964	Yognath is the father of Nipat and _____.	Yupat.
7965	Who is the father of the sons Lolinb Raj, Jagannath, and Nityanand?	Kedarnath.
7966	From which village is the maternal lineage of Jagannath (son of Kedarnath)?	Hariam.
7967	According to Section 4, who are the sons of Vishwanath?	Vijaynath and Shashinath.
7968	Who is the father of Jaikrishna?	Harihi Nath.
7969	Surendra and Virendra are identified as the sons of _____.	Jaikrishna.
7970	Who is the son of Jhotahu?	Kunjnath.
7971	Brajlal's son is recorded as _____.	Baunu.
7972	Raja Sri Nath is the father of Santosh, Sushil, and _____.	Narayan.
7973	Indranath's sons are named Dhirendra and _____.	Sameer.
7974	Who is the father of Jagdish and Kumudnath?	Umarunath.

7975	Dharmanath and Kishor are the sons of which individual?	Meghnath.
7976	Rattan is the father of which three individuals?	Umesh, Bhimnath, and Indranath.
7977	Who is the father of Lakshminath?	Mahendra.
7978	Lakshminath's sons are recorded as Ugranath and ____.	Dhiranath.
7979	Who is the father of Madhusudan?	Ishwaridatt.
7980	Nena is identified as the son of which individual?	Devnand.
7981	Who are the three sons of Mimanshak Mani?	Vasudev, Kamdev, and Jaydev.
7982	Mishri Mohan is the son of which Mimanshak?	Jaydev.
7983	Bavuk is recorded as the father of Dharni and ____.	Gangadash.
7984	The lineage of Anath is associated with which village?	Mahajani Pur.
7985	Who is the son of Anath?	Gonad.
7986	Khushi and Nenako are the sons of which individual?	Devanand.
7987	Who is the father of Bhushan?	Lalit Lal.
7988	Giridhari's father is recorded as ____.	Hema.
7989	Vanshamani is the son of which individual?	Bhavanidatt.
7990	Who are the three sons of Brajgopal?	Gangaram, Radharam, and Revatiram.
7991	Gangaram's son is recorded as ____.	Koskirimam.
7992	Who are the three sons of Hemdatt?	Ghurghur, Chakradatt, and Mukhriddatta.
7993	Dinanath is recorded as the father of whose son?	Leelanath.
7994	Ganganath is identified as the son of ____.	Ambika Raman.
7995	Jyoti Raman is the son of which individual?	Sachi Raman.
7996	Gopiraman's five sons are Devkirimam, Janakirimam, Lakshmiramam, Saraswatiramam, and ____.	Kalirimam.
7997	Who is the father of Rameshwar and Singheshwar?	Ganesh.
7998	Shambhu Gopal is identified as the father of ____.	Chandra Gopal.
7999	Narsingh is the father of Bhimnath, Videshwarnath, and ____.	Sitaram.
8000	Hiranand is recorded as the father of which individual?	Modanand.
8001	Who are the two sons of Modanand?	Phaninand and Fakir.
8002	Who are the four sons of Mahant (also recorded as Kirtinandno)?	Mahesh, Ganesh, Naresh, and Suresh.
8003	Aditya Gopal is the son of which individual?	Vinay Gopal.
8004	In the Maithil genealogical records known as Panji Prabandha, what does the term 'Suto' (सुतो) denote?	It denotes a son.
