About this volume

This opening volume introduces the world of the Panji of Mithila—its genealogies, social memory, migration patterns, marriage networks, and historical significance. Written for readers of history, sociology, anthropology, and genealogy, it shows how the Panji can be read as one of the oldest surviving social archives of India and Nepal.

Author

Gajendra Thakur is a writer, editor, and researcher associated with Videha, the First Maithili Fortnightly eJournal.
